Concur Travel provides access to both agency assisted fares and online booking of Internet fares. The difference between the two is where it is fulfilled and who provides the customer support. With an agency purchase, you have the full support of your agent in making changes. Your ticket is purchased through your agency.

If you select with an Internet fare through our World Travel agency, the airline may issue the ticket however you can contact World Travel to make changes or for support in making your travel plans. The ticketing process is in real time and the ticket price and seating assignment are determined at that time.

If you use an outside Internet vendor, the ticket is purchased directly through a third party the supplier or the airline fulfillment agency. These fares may have special rules that apply that may prohibit any changes or modifications to the ticket. Tickets from these companies may not be booked in real time which could lead to high prices and the inability to purchase the ticket that you originally requested.

If the itinerary is not approved after 20 hours, another email is sent to the approver and a copy to the traveler reminding both that the ticket remains outstanding.
