

Online Learning Information Session for Faculty

There will be an information session for faculty planning to teach online in summer 2010. This session follows-up on Vice Provost Vi Eittle's recent announcement, through your department, on faculty grants. These grants support faculty in order to convert their face-to-face courses to an online format. The session is especially aimed at faculty teaching online for the first time. Jim Lee and Jim McCabe from CTRL will describe the training course required by the grant and support for summer online courses. Faculty with experience teaching online are also welcome to attend. Wednesday, October 21, from 12:00-1:30. Lunch will be served in MGC 4. Please RSVP to Jim Lee at jlee@american.edu.
