

AMERICAN UNIVERSITY  
WASHINGTON, DC

# AU Neighborhood Partnership Open House

February 17, 2022

\*Please note this meeting will be recorded\*

# AU Neighborhood Partnership Open House Agenda

- Welcome and Review Agenda
- Introductions
- Overview of the AU Neighborhood Partnership and Working Groups
- Working Group Presentations:
  - Facilities Planning
  - Student Life and Safety
  - Transportation and Parking
  - Data and Metrics
  - Engagement and Communications
- Question and Answer
- Closing Comments and Adjourn

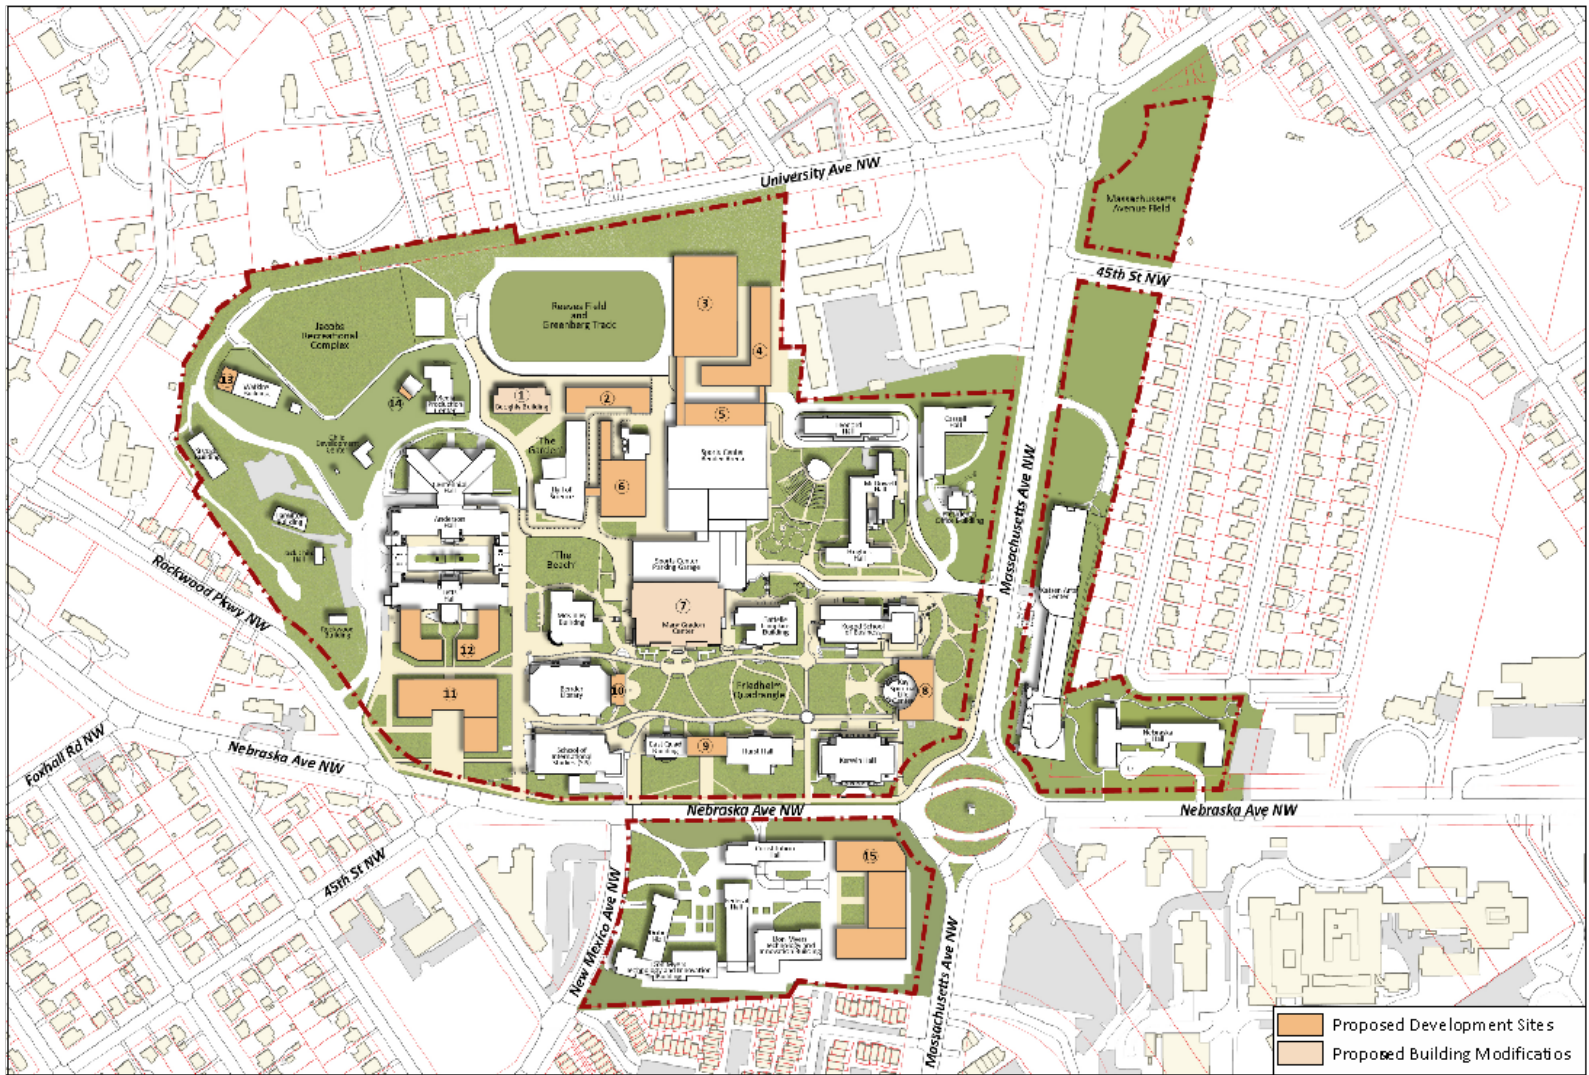

# Introductions

## Using the Zoom Chat:

- For guests interested in joining the Partnership please state your name and neighborhood of residence
- For those already working with the Partnership, please state your name, your role within the Partnership and your neighborhood of residence or role at AU

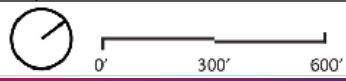

# Introduction and Overview of the AU Neighborhood Partnership and 2021 Campus Plan

**MAIN CAMPUS**

Note:  
• Diagrams for development sites are conceptual and do not reflect final design or prints

- **ENROLLMENT**: The new proposed enrollment cap is **14,380 students** (including 2,000 student cap at the Tenley Campus) which is lower than the 2011 cap when adjusted to reflect the new methodology under the 2016 Zoning Regulations.
- **DEVELOPMENT**: Goal to build approximately 500 new beds on campus, with Sites 2 and 4 identified as priority housing sites. In addition to the Center for Athletic Performance (“CAP”) on Site 3, AU is proposing to build academic/student life buildings on Sites 6, 7, and 12. The reimagined Mary Graydon Center will be a true student center and wellness hub and the campus will be more pedestrian friendly.
- **ATHLETIC ENHANCEMENTS**: In addition to the CAP, AU proposes re-turfing athletic fields, installing a new video scoreboard at Reeves Field and filming tower at Jacobs Field, and building an acoustic sound barrier wall at Jacobs Field.
- **OFF CAMPUS STUDENT LIFE**: AU proposes an expanded and strengthened *Good Neighbor Guidelines* policy, new mandatory online training, additional student and neighbor resources and education tools, and enhanced outreach.
- **TRANSPORTATION**: Continued commitment to effective TDM strategies, maintain and enhance *Good Neighbor Parking* program, continue shuttle service, keep AU campus-wide parking inventory under 3,000 spaces, annual monitoring with DDOT.

**Facilities Planning:** Collaborates on issues related to physical campus facilities including existing and proposed development and renovation projects.

**Student Life and Safety:** Addresses neighborhood quality-of-life issues including off-campus student conduct, noise and trash management matters, student safety in the community, and on-campus student life.

**Transportation and Parking:** Addresses issues concerning travel to, from, and around the campus and provides input on efforts to mitigate the impacts of university-related traffic on the community.

**Data and Metrics:** Provides guidance on the development and review of metrics for compliance and assessment associated with various components of the Campus Plan.

**Engagement and Communications:** Ensures that neighbors are aware of and are encouraged to participate in campus events and activities and promotes opportunities for engagement and the benefits associated with having the university as a neighbor.

## Question and Answer

If you would like to ask a question about the AU Neighborhood Partnership, please use the raise hand feature on Zoom.

Don Edwards will call on participants to ask their questions.

# Next Steps

Thanks to all meeting attendees for their participation!  
If you are interested in joining a Working Group please follow the Google-form JSA has posted in the chat, or alternatively email Josh directly at [josh@jsallc.com](mailto:josh@jsallc.com)

JSA will then follow up with each participant individually to schedule orientations.
