Limitations on Catalog Provisions

The educational process necessitates change. This publication must be considered informational and not binding on the university.

Each step of the educational process, from admission through graduation, requires appropriate approval by university officials. The university must, therefore, reserve the right to change admission requirements or to refuse to grant credit or a degree if a student does not satisfy the university, in its sole judgment, that he or she has satisfactorily met its requirements.

University Liability

Faculty, students, staff, and guests are responsible for their personal property, clothing, and possessions. The university does not carry any insurance to cover losses of such articles nor does it assume any responsibility for such losses.

Introduction

- **University Profile**
- **Undergraduate and Graduate Programs**
- **Enrollment**

American University was chartered by an Act of Congress in 1893 and founded under the auspices of the United Methodist Church. It is an independent coeducational university with more than 11,000 students enrolled in undergraduate, master's, doctoral, and professional degree programs. Located on an 84-acre residential campus in upper northwest Washington, D.C., the university attracts students from all 50 states, the District of Columbia, Puerto Rico and the territories, and nearly 150 foreign countries.

A short distance from Washington's centers of government, business, research, commerce, and art, the American University campus is located in a scenic residential area in Northwest Washington, D.C. The campus buildings include the university library, administrative and academic buildings, residence halls, an interdenominational religious center, and a sports center. Facilities include 24-hour computer laboratories, radio and TV studios, science laboratories, art studios, recital halls, and a theatre. The Washington College of Law is located a half mile from the campus on Massachusetts Avenue. The satellite Tenley Campus, the location of the Washington Semester program, is located a mile from the university's main campus on Nebraska Avenue.

American University offers a wide range of undergraduate and graduate programs through its six major divisions: College of Arts and Sciences; Kogod School of Business; School of Communication; School of Public Affairs; School of International Service; and Washington College of Law.

The distinguished faculty of American University includes renowned experts and scholars of national and international reputation in public affairs, law, history, economics, business, international relations, education, science, communication, and the arts. In addition to the over six hundred members of its full-time faculty, adjunct faculty are drawn from the Washington, D.C. professional community, including policy makers, diplomats, journalists, artists, writers, scientists, and business leaders.

The resources of a capital city are unlike any other in the world. Although an important center of business, finance, and media, next to government, education is the largest industry in the District of Columbia.

Washington, D.C. is a city of learning resources in every discipline, from the arts and humanities to the sciences to public affairs. The Smithsonian Institution, John F. Kennedy Center for the Performing Arts, National Gallery of Art, National Institutes of Health, National Library of Medicine, Library of Congress, National Archives, World Bank, Brookings Institution, more than 170 embassies and chanceries, and the headquarters of many associations and international organizations are located in the Washington, D.C. area. The libraries, museums, and art galleries of Washington contain unsurpassed collections. These resources are sites for research, field trips, internships, and employment. Because of these resources, American University students can put their education to work in Washington as they could nowhere else in the country.

University Profile

Historical Origins

American University was incorporated by the government of the District of Columbia in 1891 and chartered by Act of Congress in 1893 as a United Methodist Church-related institution. The university's first building was completed in 1898; its first class graduated in 1916.

Character

American University is a leader in global education, enrolling a diverse student body from throughout the United States and more than 140 countries and providing opportunities for ac-

ademic excellence, public service, and internships in the nation's capital and around the world.

J.D., S.J.D., and LL.M.

Students have the opportunity to create individual interdisciplinary programs at the bachelor's and masters's levels. Certificate programs and an associate degree program are offered as well.

AU Abroad: More than 850 AU students annually study abroad on programs offered by AU Abroad and other areas within the university. Undergraduates select from more than 100 study abroad programs which span diverse cultures and languages on all continents. Students may study in any subject area, for a year, semester, or summer. Intensive language study and/or internships are offered at many sites.

Abroad at AU: International students have the opportunity to attend American University for a semester or year and become fully integrated into the academic, social, and cultural life of the university.

Consortium of Universities of the Washington Metropolitan Area: American University participates in a program through which students may take courses not offered by their home institutions at any of the other consortium member schools.

University Honors Program: A comprehensive program of honors options drawn from the General Education curriculum, departmental course offerings, and honors colloquia for qualified undergraduate students. The program is characterized by small seminars, individualized attention from faculty, unique access to the resources of Washington, D.C., and the special atmosphere of an honors community of committed faculty and students.

Washington Semester Program: undergraduate programs focusing on American politics, foreign policy, global economics and business, international environment and development, international law and organizations, Islam and world affairs, journalism, justice and law, peace and conflict

resolution, and transforming communities; all include internships.

Campus Life

The Office of Campus Life integrates students into a diverse university community; promotes their intellectual, social, and spiritual development; and, in collaboration with the faculty, prepares them for lifelong learning and global citizenship.

Campus Life offices include: Academic Support Center; Center for Community Engagement & Service; Counseling Center; Disability Support Services; Gay, Lesbian, Bisexual, Transgender, and Ally (GLBTA) Resource Center; Housing and Dining Programs; International Student & Scholar Services (ISSS); Kay Spiritual Life Center; Multicultural Affairs; New Student Programs; Student Activities; Student Conduct & Conflict Resolution Services; Student Health Center; University Center; and Women's Resource Center.

Career Center

Support and programs for experiential education, career preparation, nationally competitive merit awards, and comprehensive career services at the undergraduate and graduate levels. Students and employers use an online system—AU CareerWeb—to access internships and jobs as well as job fairs and campus interviews.

Cocurricular Activities

Students may participate in student government, residence hall government, student media (print, radio, and TV) and any of more than 160 clubs and organizations; social fraternities and sororities; and varsity, recreational, and intramural sports.

Honorary Societies

Undergraduate students have the opportunity to be elected to the AU Zeta Chapter of Phi Beta Kappa, the nation's oldest honorary scholastic society for exceptional academic achievement in the liberal arts. Election to the American University chapter of Golden Key International Honour Society (recognizing outstanding scholarship, service, and leadership for students in all academic fields) is also available for qualified students, as well as the National Society of Collegiate Scholars (honoring students for outstanding scholarship and community service).

Many academic disciplines have chapters of national honor societies as well:

Alpha Epsilon Delta: honor society and service organization serving pre-medical education

Alpha Kappa Delta: international honor society for sociology

Alpha Kappa Psi (Lambda Nu Chapter): dedicated to professional development, ethical standards and service in business conduct

Alpha Lambda Delta: honor society for outstanding scholastic achievement for first-year students

Alpha Phi Sigma: national honor society for criminal justice recognizing scholarship in the justice field

Beta Gamma Sigma: business management society

8 Introduction

Epsilon Chi Omicron: international business society seeking to enhance educational field and to provide networking opportunities

Kappa Delta Pi: international honor society in education

Kappa Tau Alpha: national honor society for journalism (undergraduates only)

Omicron Delta Epsilon: international honor society in economics

Phi Alpha Theta: national honor society for history

Phi Sigma Tau: honor society devoted to philosophy

Pi Alpha Alpha: national honor society for public affairs and administration (graduate students only)

Pi Alpha Delta: prelaw honor society open to all undergraduates

Pi Sigma Alpha: national political science honor society recognizing academic and professional achievement

Psi Chi: international honor society in psychology open to graduate and undergraduate students

Sigma Iota Rho (Alpha Chapter): offering interdisciplinary scholarly recognition for students in the field of international relations

Upsilon Pi Epsilon: international honor society that recognizes academic excellence in computer science.

WAMU-FM Radio

WAMU 88.5 FM is the leading public radio station for NPR news and information in the greater Washington, D.C. area. It is member-supported, professionally-staffed, and licensed to American University. With more than 735,000 listeners in the Washington-Baltimore region, at WAMU 88.5, "the mind is our medium." Home to a team of award-winning local reporters and acclaimed talk radio hosts, WAMU 88.5 offers comprehensive coverage of local, national, and international events. WAMU also broadcasts from 88.3 Ocean City on the Delmarva Peninsula and in Washington on three HD channels--the flagship frequency at 88.5-1; WAMU's Bluegrass Country, a bluegrass and Americana station, at 88.5-2; and WAMU-3, at 88.5-3, a news and information station broadcasting international coverage from the BBC and offering public radio programs unavailable elsewhere in the Washington area.

University Campus

The 76-acre main campus and 8-acre Tenley satellite campus are within one mile of each other. The Washington College of Law is located on Massachusetts Avenue, a half mile from the main campus.

University facilities include administrative and academic buildings; housing for about 3,500 students; an interdenominational religious center; specialized natural science facilities; computing centers open 24 hours a day, plus 26 computer laboratories around campus; two electronic auditoriums (one includes video conferencing capabilities); numerous classrooms with the latest in multimedia presentation capability; radio and TV studios; recital halls; and a comprehensive, multipurpose sports and convocation center.

The Harold and Sylvia Greenberg Theatre is a showcase to the university's commitment to performing arts. It is a state-of-the art 300-seat theatre allowing students the opportunity to perform in a top-quality setting, thereby enriching the program, the university and the Washington, DC community

American University's Katzen Arts Center, named for Washington area benefactors Dr. and Mrs. Cyrus Katzen, brings all the visual and performing arts programs at AU into one 130,000-square-foot space. Designed to foster interdisciplinary collaboration in the arts, the Katzen includes the three-story American University Museum, the Abramson Family Recital Hall, the Studio Theatre and Dance Studio, an electronics studio, practice rooms, rehearsal space and classrooms.

Residence Halls

Nine residence halls on the main campus accommodate approximately 3,000 students per year. Three residence halls on the Tenley Campus provide housing for approximately 500 students.

University Library

The Jack I. and Dorothy G. Bender Library and Learning Resources Center serves as a gateway to a wide array of print resources and electronic information and offers many services to support student and faculty research. The AU library collections contain more than one million volumes, including over 700,000 print volumes, more than 20,000 e-books, over 45,000 online periodicals, approximately 41,000 media and sound recordings, and 14,000 musical scores.

Primary access to the collections is through ALADIN, the online catalog for the Washington Research Library Consortium (WRLC). American University students and faculty may borrow materials from all eight members of WRLC. Additional library resources may be accessed via the University Library website: www.american.edu/library.

The library makes available 100 AU community computers, 35 circulating laptops, and offers dataports and wireless connectivity for those who bring their own laptops. The library's circulating laptops may be borrowed from the Technology Services desk for use in the Bender building.

The library's Special Collections houses rare materials, such as books, manuscripts, and personal papers. Among the more important holdings are the Artemas Martin collection of mathematical texts, the Charles Nelson Spinks collection of artistic and historical works of Japan, the Irwin M. Heine collection of literary works, and Christopher Johnson collection of William Faulkner books. Playbills form a significant set of the collections, with the James Carroll and Iris Lipkowitz collections most notable among them. Other significant collections include the John R. Hickman collection, the records of the National Peace Corps Association, the Friends of Colombia Archives, the records of the National Commission on the Public Service, and the records of Women Strike for Peace. The University Archives reside in the library.

Technology and Computing Resources

All students receive a user name with access to EagleNet, myau.american.edu web portal, an AU-sponsored Gmail account, Blackboard, and a personal web page, if desired. Computing resources are delivered via a fiber optic network providing over 7,000 connection points, including all residence hall rooms. Wireless network access is also available throughout the entire campus. High-capacity dedicated Internet service is available to everyone, and generous data storage for academic assignments and e-mail is provided on state-of-the-art servers available 24 hours a day throughout the year, except for occasional maintenance periods.

Over 20 computer laboratories on campus offer a variety of personal computer and Macintosh systems, as well as fee-based high-speed laser printing. There are general-purpose facilities available to all students, some open 24 hours a day during most of the academic year. There are also many specialized labs supporting specific academic disciplines. Use of these labs may be restricted to students taking relevant courses or enrolled in specific degree programs. Labs are staffed by full-time professionals, graduate assistants and student assistants who provide support for a broad range of software applications.

The EagleNet network provides students with access to site-licensed software and the resources of ALADIN, the university's online library catalog. EagleNet also enables students to participate in a growing number of courses that use the web to enhance the classroom experience. Online academic collaboration is provided to the campus using software tools such as Blackboard and other electronic resources.

Nonresident students are encouraged to arrange for Internet service through a private Internet provider. Laptop computers and other devices equipped for wireless communication can be used anywhere on campus.

The Office of Information Technology's Help Desk answers software questions and provides general computer troubleshooting assistance via telephone (202-885-2550), online chat (www.american.edu/oit/HelpDesk-Chat.cfm), and e-mail (helpdesk@american.edu). Throughout the year a variety of training classes are offered to help members of the academic community use computing resources. For more information, go to www.american.edu/oit/.

All students must agree to the terms of the university's *Computer Use and Copyright Policy* which is in the University Codes, Policies, and Guidelines section of the *Student Handbook*.

Athletics and Recreation

American University Athletics

AU Athletics includes sixteen varsity sports that compete in the Patriot League along with Army, Bucknell, Colgate, Holy Cross, Lehigh, Lafayette, and Navy. Recent successes include the 2008 and 2009 Patriot League Men's Basketball champions, the eight time defending Patriot League field hockey champi-

ons, nine Patriot League volleyball championships since 2001, and a wrestling team that finished fifth in the nation in 2010-11.

American University students are admitted free-of-charge to all regular season home athletic events with valid AU ID.

For up-to-the-minute information, video highlights, scores, and stats on American University athletics, go to www.AUeagles.com; [facebook.com/AUeagles](https://www.facebook.com/AUeagles); twitter.com/aeagles; or download the AUeagles Mobile App.

Athletics Mission Statement

The Athletics Department will excel athletically in the Patriot League at the highest levels of achievement while maintaining the academic standards of the university and both the letter and spirit of the Patriot League Charter. In a fiscally and otherwise responsible manner, the Athletics Department will be a beacon of excellence and enthusiasm in the American University community.

Athletics and Recreation Facilities

American University's Sports Center houses Bender Arena, Reeves Aquatic Center, the William I Jacobs Fitness Center, and Athletics and Recreation Department offices. The center includes four full-size basketball/volleyball courts, a 25-yard swimming pool, and a warm-up pool. Outdoor facilities include the Reeves soccer/lacrosse field, Greenberg running track, Reeves tennis courts, Jacobs intramural field and, two basketball courts behind the Sports Center. The William I Jacobs recreational complex, which opened in Fall 2005, includes an astroturf field hockey surface, a softball field, state-of-the-art scoreboard, and two outdoor sand volleyball courts.

The Jacobs Fitness Center is the central campus facility, providing a supportive environment for fitness and health for all members of the AU community. Located off the lobby of the Sports Center, the Fitness Center is a state-of-the-art fitness area with a wide range of cardio equipment, strength machines, and weights. In addition, there are smaller fitness centers in each of the residence hall complexes and at the Tenley campus. The Fitness Center also provides a variety of services for additional fees including group exercise classes, yoga, personal training, fitness assessments, and locker rentals. The center is staffed with health and fitness professionals who are dedicated to health and wellness, trained in the use of the equipment, and ready to assist with an exercise program to achieve personal health goals.

Students with a valid AU ID who have registered for classes are eligible to use the Fitness Center. Memberships for the Fitness Center are also available at discounted fees for faculty, staff, and alumni.

Hours of operation vary according to the academic calendar and scheduled university events in the arena. Specific information on the hours of operation is available on the web at www.american.edu/recfit/ or by calling the Info Line at 202-885-6267.

Intramural and Club Sports

The Intramural Sports Program is an exciting and fun complement to a student's academic, cultural, and social education. The program offers a wide range of sports including basketball,

10 Introduction

flag football, indoor and outdoor soccer, softball, table tennis, tennis, and volleyball. Different leagues are conducted in these sports for men, women, co-recreational groups, and varying skill levels. Involvement in intramurals is a wonderful opportunity for students to make new acquaintances, develop friendships and enjoy the benefits of exercise and physical activity. Please visit the Recreational Sports and Fitness web page for more information regarding the intramural sports program or stop by the intramural office in the Sports Center lower level, Room G-3 or call at 202-885-3050.

Club Sports are student run and organized teams. They compete against colleges and universities around the country in the following areas: baseball, crew, cycling, equestrian, field hockey, gymnastics, men's and women's ice hockey, men's and women's lacrosse, men's and women's rugby, sailing, men's and women's soccer, women's softball, tennis, men's and women's ultimate frisbee, and men's and women's volleyball. Club Sports is supervised by the Assistant Director of Recreational Sports and Fitness. The office is located in the Sports Center lower level, Room G-3.

On-Campus Services

Dining Services and Stores

The Terrace Dining Room (TDR), Block Express, Eagle Express, Einstein Brothers Bagels, Pronto, Salso, Sushi, and Tavern are located in Mary Graydon Center. There is also a contract dining facility on the Tenley Campus. The Eagle's Nest carries food, magazines, newspapers, and toiletry items. Other stores and services in the Butler Pavilion include a bank, mailbox service/copy center, hair salon, café, and fast-food restaurant.

The campus bookstore, located on the second and third floors of the Butler Pavilion, carries all required textbooks, a large selection of other books, all necessary supplies, stationery, American University sportswear, and other items.

Child Development Center

American University's Child Development Center, located on campus, is a licensed and Middle States Association of Colleges and Schools-accredited preschool for children 2½ to 6 years old. Highly-qualified teachers, supported by trained student interns, provide a developmentally appropriate program of active learning in the areas of physical, social, emotional, and intellectual development. Children of students, faculty, and staff

may be enrolled in this stimulating and nurturing full-day program. In addition, the center offers students from many disciplines a place to intern and observe, create, and test theories involving children. For more information on the Child Development Center, call 202-885-3330 or go to: www.american.edu/hr/CDC.cfm.

Parking and Traffic

Parking at American University is by permit or meter only, 8:00 a.m. to 5:00 p.m., Monday through Friday. Designated restricted lots and the Tenley Campus lots are enforced 24 hours a day, seven days a week. Visitors may purchase hourly or daily parking permits from the Pay-As-You-Go machines on either side of the Nebraska parking lot.

All faculty, staff, and students must register their vehicles in the Transportation Services office by the end of the first day of classes of each semester. Vehicles brought to the university during the semester must be registered immediately. Students may not register a vehicle that is not registered in their family name. Freshmen and Washington Semester students are not permitted to have vehicles on campus or to park in Advisory Neighborhood Commissions 3D and 3E.

Special access parking spaces are available around campus. Vehicles parked in these spaces must display valid handicap or disability license plates or permits. Temporary AU disability permits may be obtained from Parking and Traffic Services office. A physician's certification is required.

For more information, call 202-885-3111 or go to: www.american.edu/finance/publicsafety/parking/index.cfm.

Shuttle Services

American University encourages the use of the Washington, D.C. subway and bus system, Metrorail and Metrobus. A free shuttle service for students, faculty, staff, and visitors is available to and from the Tenleytown/AU Metrorail station, Tenley Campus, and the Washington College of Law. Access for persons with disabilities is available. A valid AU ID card or Shuttle Guest Pass is required for all riders. Hours of operation are Monday through Thursday, 7:00 a.m. to 12:30 a.m.; Friday, 7:00 a.m. to 3:30 a.m.; Saturday, 8:00 a.m. to 3:30 a.m.; and Sunday, 8:00 a.m. to 1:00 a.m.

For a shuttle schedule or more information, call 202-885-3302 or go to: www.american.edu/finance/facilities/shuttle.cfm.

Accreditation

American University is accredited by the Middle States Commission on Higher Education of the Middle States Association of Colleges and Schools, 3624 Market Street, Philadelphia, PA 19104, 267-284-5000. The Middle States Commission on Higher Education is an institutional accrediting agency recognized by the U.S. Secretary of Education and the Council for Higher Education Accreditation (CHEA). American University is recognized as church-related by the University Senate of the United Methodist Church. A number of programs are individually accredited by, or are members of, professional organizations:

Admission Requirements

- **Freshman and Transfer Students**
- **Graduate Students**
- **Nondegree Students**
- **International Students**

Undergraduate Study

To request application forms or for more information:
phone: 202-885-6000 e-mail: admissions@american.edu
Applicants may use the paper or online version of the Common Application or AU online application at:
www.american.edu/admissions.

Applicants are responsible for requesting that letters of recommendation and official transcripts and test scores be sent directly to the Admissions Office. American University's SAT and TOEFL code is 5007, and the ACT code is 0648.

International applicants should refer to the international student guide *Encounter the World* for additional instructions. American University requires all applicants whose first language is not English, regardless of citizenship, to demonstrate English-language proficiency. For more information, see English Language Requirements.

Freshman Admission Requirements

To be considered for admission, applicants should:

- Have graduated from a secondary school with at least 16 academic units, including at least four units in English, three units in college preparatory mathematics (including the equivalent of two units in algebra and one unit of geometry), two units in foreign language(s), two units in lab science, and two units in social sciences.

Applicants who hold General Education Diplomas (GEDs) may be admitted on the basis of satisfactory performance on SAT, ACT, and other such tests and transcripts.

- Have a minimum academic average of above C.
- Submit the results of either the SAT Reasoning test or the ACT with writing.

Also recommended are the SAT Subject Mathematics Level II test (a score of 650 in Math II will fulfill the University Mathematics Requirement) and Foreign Language SAT Subject test for applicants who plan to continue the study of a foreign language begun in secondary school.

Transfer Admission Requirements

Students who wish to be considered for transfer admission must be in good academic and social standing at the school pre-

viously attended. All applicants with a cumulative grade point average of at least 2.00 on a 4.00 scale from all schools attended (at AG-rated regionally accredited institutions) will be considered. However, to be considered competitive for admission, applicants need a minimum grade point average of 2.50.

Applicants to individual schools should have maintained a cumulative minimum grade point average (on a 4.00 scale) from all schools attended as follows:

Kogod School of Business	2.50
School of Communication	2.50
School of International Service	3.00
School of Education, Teaching, and Health (College of Arts and Sciences)	2.70
School of Public Affairs	2.50

Transfer applicants must request each collegiate institution previously attended to send an official transcript of all work completed directly to the Admissions Office. Attendance at all institutions must be reported *whether or not credit was earned* and whether or not transfer credit is desired. Failure to report all previous academic work will be considered sufficient cause for rejection of an application or for dismissal from the university.

Transfer applicants with fewer than 24 credit hours completed at the time of application should also submit the secondary school record and standardized test scores.

Deadlines for Admissions Applications

Due to visa regulations, international students may have restrictions on applying for admission for the summer term. For more information, contact International Student & Scholar Services (ISSS) at 202-885-3350.

University Honors Program Admission

Incoming freshmen are admitted by invitation to the University Honors Program, there is no separate application to apply. The top applicants for admission to the university will be considered for the program and will be notified of this decision along with their admission letter. Admission to the program is highly competitive, with consideration of the student's grade point average, the strength of the high school academic program, and standardized test scores as the most important factors in the selection process. Freshman and sophomores who were not invited as freshman but who demonstrate academic excellence, such as a cumulative grade point average of 3.60 or higher, rigorous coursework, innovative research, etc., may nominate themselves for admission to the program after completing two full time academic semesters at American University. To begin the nomination process, students should contact the University Honors Center at honors@american.edu.

Notice of Admission

General admission freshman applicants whose applications and supporting documents have been received by the Admissions Office by February 1 are notified of the decision on their applications by April 1.

Early decision applicants are notified of the decision by December 31; at that time early decision applicants may be admitted, denied admission, or deferred until the general admission date of April 1.

Transfer applicants are notified of decisions as they are made.

Full-time undergraduates are required to pay a nonrefundable tuition deposit to reserve a place in the class.

Complete detailed instructions for replying to the admission offer are provided with the notice of acceptance.

Early Admission

American University offers the opportunity for admission a year earlier than normal to freshman applicants whose ability, academic achievement, and general maturity indicate that they are ready to begin collegiate work.

Applicants are considered on their own merit. However, the major factors important to evaluation are:

- the secondary school record, with special reference to grades achieved and the pattern of courses taken;
- performance on the Scholastic Assessment Test I (SAT I) or the American College Test (ACT);

- the recommendation of the secondary school principal or counselor and two teacher recommendations;
- a letter from the applicant stating the reasons for seeking early admission; and
- possibly, an interview with a screening committee.

Early Decision

Freshman applicants whose first choice is American University are encouraged to apply as early decision candidates. Students admitted under the early decision plan learn of their admission by December 31 and receive first consideration for scholarships, financial aid, housing, and registration. The university, in turn, is assured that these students will enroll if admitted.

The deadline for applying for early decision is November 15, at which time all documents, including the \$60 application fee, must be on file with the Admissions Office. Early decision applicants may initiate applications to other schools before notification, but if they are admitted to American University as early decision candidates, they must submit a tuition prepayment by February 1 and withdraw all applications to other colleges and universities.

Early decision applicants are evaluated by the same criteria as all other freshman applicants. They may be admitted to the university in December, denied admission, or have their application deferred until the general admission reply date of April 1. Students deferred until April are released from the commitment to attend if admitted.

Learning Services Program

American University offers a structured program for entering freshmen with learning disabilities who are seeking additional support. Students interested in the Learning Services Program must identify themselves in the regular admissions process and submit a supplementary application to the program at the time they apply to the university. Further information is available from the Academic Support Center at 202-885-3360 or asc@american.edu.

Admission from Nondegree Status

Students wishing to transfer from nondegree status at American University to undergraduate degree status must submit a formal application for admission to the Admissions Office. If a student is accepted into an undergraduate degree program, a maximum of 30 credit hours may be transferred from nondegree status to the degree program.

Admission for Part-time Study

An undergraduate student enrolled in fewer than 12 credit hours is considered a part-time student. Part-time degree applicants are required to meet the same standards for admission as full-time freshman or transfer applicants.

Applicants considering part-time study in a degree program are cautioned that they may be unable to complete the necessary course work for some degree programs by attending evening classes only. Before applying they should consult with the de-

18 Admission Requirements

partment of their proposed major to ascertain whether the required courses will be available to them.

Readmission

An undergraduate student whose studies at the university are interrupted for any reason for a period of one semester (excluding the summer sessions) must submit a formal application for readmission and a reapplication fee to the Admissions Office at least two months before the beginning of the semester or summer session for which the student wishes to be readmitted, unless written permission to study at another collegiate institution was secured in advance or the student has been granted an official leave of absence.

Students who were in good standing when they left the university and who have maintained a satisfactory grade point average at another school are virtually assured readmission. It is to a student's advantage to apply for readmission as early as possible so that he or she may register during the advance registration period.

A student who is readmitted is subject to the academic requirements and regulations in effect at the time of readmission.

Graduate Study

Application for graduate study is made directly to the school or department offering the degree program and is self-managed. As graduate programs are highly individualized, applicants are encouraged to schedule an appointment with an academic advisor in the appropriate department. For more information, go to: www.american.edu/admissions/graduate/graduate.cfm.

Applicants are responsible for requesting that official transcripts and test scores be sent directly from the issuing institutions to the appropriate graduate admissions office. *Attendance at all institutions must be reported whether or not credit was earned.* Failure to report all previous academic work (undergraduate and graduate) will be considered sufficient cause for rejection of an application or for dismissal from the university.

International applicants should refer to International Student Information for additional instructions. American University requires all applicants whose first language is not English, regardless of citizenship, to demonstrate English-language proficiency. For more information, see English Language Requirements

Admission Requirements

The minimum university admission requirements for graduate study are outlined below. Please refer to the appropriate college, school, and department program requirements for additional requirements.

- A bachelor's degree earned at an accredited college or university.
- At least a 3.00 cumulative grade point average (on a 4.00 scale) in the undergraduate program, calculated on the last 60 credit hours of course work completed.

- A cumulative grade point average of at least 3.00 (on a 4.00 scale) in all relevant graduate work for which a grade has been awarded.

An applicant for graduate study may be admitted without reference to the undergraduate average if the applicant has maintained either a 3.30 (on a 4.00 scale) cumulative grade point average in a master's degree program completed at an accredited institution, or a 3.50 (on a 4.00 scale) cumulative grade point average in the last 12 credit hours of a master's or doctoral degree program still in progress at such an institution at the time the application is evaluated, or in graduate work taken in nondegree status at American University and applicable to the degree program which is being applied for.

An applicant for graduate study may be admitted without a bachelor's degree earned at an accredited college or university or without reference to the undergraduate average provided that he or she is a midcareer person from government or the private sector who has not attended school full-time for at least eight years and is applying for admission to a professional master's degree program. This exception must be justified by an evaluation of the applicant's work performance and his or her organization's recommendation.

Provisional Standing

Each college, school, or department of the university may admit to provisional standing a limited number of students who do not meet the minimum standards of either the university or the teaching unit. By the end of one full semester of full-time study or after the first 9 to 12 credit hours of part-time study, the student will be evaluated by the college, school, or department. Continuation in the graduate program will be permitted on favorable appraisal of the student's performance.

The provisional admission status of a graduate student who does not give satisfactory evidence of capability will be withdrawn. This constitutes dismissal of the student.

Admission from Nondegree Status

Students wishing to transfer from nondegree status at American University to graduate degree status must submit a formal application for admission. If a student is accepted into a graduate degree program, up to 12 credit hours of graduate-level course work completed in nondegree status may be applied to a graduate degree program, or up to 21 credit hours earned in a completed graduate certificate program.

Readmission

After expiration of the time limit for completion of a graduate degree program, readmission may be granted once for a period of three years (less any time given in previous extensions of candidacy), subject to the requirements of the particular degree in effect at the time of readmission, and may involve taking additional courses or other work or both. When a student is readmitted under these circumstances, the length of time that the student will be given to complete degree requirements and any additional courses, examinations, or other requirements which are deemed necessary by the teaching unit will be specified. Students applying for graduate readmission must pay a fee.

Nondegree Study

A student who does not wish or is not ready to pursue a degree program but desires to take credit courses may be qualified to enroll as a nondegree student. Nondegree students may register for any university course for which they have the necessary academic background and qualifications. Many students begin their studies in nondegree status and apply the credit they have earned toward a degree program in one of the schools or colleges of the university. Nondegree students begin registration with the nondegree advisor in the appropriate school or college.

Undergraduate-level courses are open to high school graduates; students in good standing at other accredited colleges and universities; students with an undergraduate degree; and high-school students who have a B average and the recommendation of their high school counselor or principal.

Graduate-level courses are open to students who have completed a bachelor's degree.

The following students ordinarily may not register in nondegree status:

- Students currently enrolled as undergraduate or graduate degree students in any of the member institutions of the Consortium of Universities of the Washington Metropolitan Area
- American University students who have not completed their degree programs
- Students who have been dismissed from American University or another college or university within the previous twelve months

International Student Admission

The following regulations apply to all students who are not citizens or “permanent residents” of the United States of America.

All international students applying for admission must submit the appropriate documents well in advance to undergraduate admissions or to the graduate office of the school or college to which they are applying. Photocopied or faxed documents are not accepted for evaluation purposes. Transcripts for international applicants must be submitted for all secondary schools attended. Documents must be in the language of instruction of the issuing school and must be accompanied by an official English translation.

Visa Requirements

Students in nonimmigrant F-1 or J-1 status are required by Department of Homeland Security (DHS) regulations to enroll

for and maintain a full-time course load during the fall and spring semesters. If the student's first term is a summer session, the full-time course load requirement will apply for that summer. It is the individual student's responsibility to comply with immigration regulations.

To meet the full-time course load requirements at American University each semester, undergraduate students are required to register for a minimum of 12 credit hours, graduate students for a minimum of 9 credit hours, and law students in the master's program for a minimum of 8 credit hours. Any change in registration which results in a course load below these minimum requirements must be authorized by International Student & Scholar Services (ISSS) in consultation with the student's academic advisor.

Students in F-1 or J-1 status who fail to meet these requirements are considered by the Department of Homeland Security to be “out-of-status” and lose their eligibility for all immigration benefits including on-campus employment and practical training and are subject to deportation.

Students in F-1 or J-1 status are reminded that a change from one U.S. educational institution to another or a change of program within the same educational institution must be made according to immigration regulations. At American University such changes are processed through International Student & Scholar Services (ISSS), Butler Pavilion 410.

Students in Exchange Visitor (J-1) status requesting a transfer to American University should consult with ISSS before registering for classes. Transfer from one exchange visitor program to another requires a release from the previous program sponsor and/or the approval of the Department of State and DHS. It is advisable that all students entering the university in J-1 status at the time of admission consult with ISSS before registering for classes.

Questions concerning immigration regulations should be directed to International Student & Scholar Services (ISSS), Butler Pavilion 410; telephone 202-885-3350; fax 202-885-3354. Regular office hours are Monday through Friday, 9:00 a.m. to 5:00 p.m.

English Language Requirements

American University generally requires all students whose first language is not English, regardless of citizenship, to demonstrate English-language proficiency: Students should check program websites for specific admission requirements.

Examination results should be sent directly to the university. American University's SAT and TOEFL code is 5007.

Tuition, Expenses, and Financial Aid

- Tuition, Housing and Dining, and Fees
- Undergraduate Financial Aid
- Graduate Financial Aid
- Veteran’s Benefits

Undergraduate students who register for 12 to 17 credit hours are assessed tuition at the full-time rate. Undergraduate students who register for fewer than 12 credit hours are assessed tuition based on the number of credit hours taken. Undergraduate students who register for more than 17 credit hours are charged the full-time tuition rate with an additional charge for each credit hour over 17.

Graduate and nondegree students are assessed tuition per credit hour.

Washington College of Law (WCL) students are assessed tuition on the same basis as undergraduates students. However, the WCL tuition rate differs from that of the rest of the university.

The off-campus tuition rate differs from the rate for on-campus courses. Full-time undergraduate students, however, who register for courses both on and off campus are assessed tuition at the on-campus full-time rate.

Given the probable continuation of current economic conditions, as well as the need to continue to accelerate the academic development of the university, it is reasonable to expect that tuition and fee increases will be required each year in the near future.

Students and student-authorized parents may make e-check payments through the web portal at myau.american.edu. For more information, please contact AU Central at aucentral@american.edu.

Personal check payments may be mailed to:

American University
Student Accounts
P.O. Box 17539
Baltimore, MD 21297-1539

Payments may also be made in person at Student Accounts, Asbury 300, Monday through Friday, 9:30 am to 5:00 pm.

Other correspondence should be sent to:

American University
AU Central
Asbury 201
4400 Massachusetts Ave NW
Washington, DC 20016-8077

Advance Registration/Direct Registration

Students registering during advance registration with billing for the semester must pay the balance due on or before the due date as indicated on the bill.

Students registering after the advance registration period (direct registration) must pay the balance due, less expected financial aid, on the day they register.

The American Guaranteed Tuition Single Payment Plan [Ameriplan]

Available to incoming freshmen who do not receive any financial aid, this plan allows students to stabilize tuition expenses by prepaying four years' tuition at the entering academic year rate. For more information call Associate Director of Student Accounts Minh Phung at 202-885-3559.

American Installment Plan

The American Installment Plan (AIP) is available to all full-time students. This plan covers the academic year and requires ten monthly payments from June 1 through March 1, or twelve monthly payments from May 1 through April 1. For more information, please contact AU Central at aucentral@american.edu.

Late Payment and Financial Restrictions

A finance charge may be assessed against a student's account for failure to meet the initial payment due date. The university will use a rate of 1 percent per month to compute the finance charge. The university figures the finance charge on the student's account by applying the 1 percent per month to the adjusted balance of the student's account.

In addition, failure to make payment when due will result in a financial "restriction" being placed on the student's account. The financial restriction will result in a "hold" being placed on the student's academic records, including transcript and diploma, and may also result in denial of advance registration and use of the payment plan or other credit privileges.

If a student's courses are dropped due to nonpayment, a financial restriction will be placed on his or her account. Restrictions may be removed following the reinstatement of all courses originally dropped. To reinstate courses, the student must make arrangements with the Collections Office and pay the account in full (including a \$100 reinstatement fee and all associated finance charges). The university reserves the right to delay clearance until a personal check or e-check clears a financial institution.

A student who has once had a financial restriction placed against his or her account may be denied future advance registration and payment plan privileges even though the student has been reinstated upon payment of the reinstatement fee. Repeated failure to make payments when due may result in severance of the student's relationship with the university.

Students who incur financial obligations in the parking and traffic office, library, health center, or athletic department may be subject to late payment fees and financial restriction procedures.

Students who fail to pay tuition or fees will be responsible for all costs of collection, including attorney's fees in the amount of 15 percent of the balance due.

Employer or Agency Tuition Assistance

A student requesting employer or agency billing arrangements must furnish Student Accounts with a valid contract or purchase order before the first day of classes.

A contract or purchase order must contain the following information: (1) student name and ID number, (2) term of attendance, (3) specific costs (and dollar amounts) to be paid

by the sponsor (tuition, books, supplies, fees), (4) sponsor's billing address, and (5) contract or purchase order number or accounting appropriation, if applicable. Documentation submitted in lieu of a valid purchase order will not relieve a student of financial responsibility.

In case of partial assistance, the student is required to pay the balance of his or her tuition costs at the time of registration in order to be considered registered. A student portion which qualifies for one of the university payment plans is to be paid according to that plan. Failure to comply will result in the assessment of a 1 percent per month finance charge. (See **Late Payment and Financial Restrictions**, above.)

A student entitled to Campus Store credit may obtain a book voucher form from Student Accounts. Purchases are permitted through the end of the Add/Drop period.

Failure to submit vouchers in a timely manner may result in the assessment of late fees. A student is responsible for payment of any billed amounts which have been disallowed by his or her sponsor

Employee Tuition Benefits

Only full-time permanent faculty or staff employees of American University are eligible for tuition benefits. There is a nonrefundable \$50 registration fee each semester, in addition to any special course fees, and mandatory sport, technology, and

activity fees. Late registration fees are not applicable to faculty and staff using employee tuition benefits.

The Tuition Remission Application is available online at myau.american.edu. For more information, contact Human Resources at 202-885-2591.

Refunds and Cancellation of Charges

Course Drops

Students who reduce their course load (except for full-time undergraduates maintaining 12 credit hours or more) by dropping courses during the refund period of the semester will have the course tuition cancellation calculated as of the date of the course drop. The student's account must show a credit balance before a refund will be processed.

MBA modules and other courses on nonstandard schedules have different refund policies, percentages, and dates. In addition, tuition and fee refund policies and deadlines for study abroad and other special programs may differ by program and location. Students should check with the appropriate office for specific guidelines.

Discontinuing attendance in class or notifying an instructor does not constitute an official course drop.

Withdrawal

Students who completely withdraw from the university must complete the appropriate withdrawal forms in consultation with their academic advisor and with Housing and Dining Program. The amount of tuition to be canceled will be calculated as of the date which the withdrawal forms are received in the Office of the University Registrar and in accordance with the tuition cancellation schedule, below. If the withdrawal results in a refund, the request for refund should be made through the student's portal or through AU Central. The student's account must show a credit balance before a refund will be processed.

Discontinuing attendance in classes or notifying instructors does not constitute an official withdrawal. Students who do not officially withdraw during the cancellation period by submitting the appropriate forms to AU Central will be responsible for payment of the full amount of the applicable tuition and fees.

Tuition Cancellation Schedule

The cancellation percentage is based on the date of the course drop or withdrawal:

Drop/Withdrawal through the second calendar week of classes	100%
Drop/Withdrawal through the third calendar week of classes	50%
Drop/Withdrawal through the fourth calendar week of classes	25%
Withdrawal after the fourth calendar week of classes	NONE

Note: the calendar week for cancellation of tuition ends on Friday (adjustments are made for legal holidays that fall within the first four weeks of the semester). Students should check the Academic Calendar for specific dates for each semester.

Housing

Requests for cancellation of room charges must be initiated by the student **in writing** to Housing and Dining Programs, Anderson Hall, by the withdrawal deadlines. The student must then request any applicable refund through their portal or with AU Central.

The cancellation percentage is based on the date of withdrawal:

Withdrawal through the first calendar week of the semester	75%
Withdrawal in the second calendar week of the semester	50%
Withdrawal in the third calendar week of the semester	25%
Withdrawal after the third calendar week of the semester	NONE

Note: academic dismissal will result in a prorated charge for the weeks the student resided in university housing.

Meal Plan

Students will only be permitted to decrease or drop their meal plan during the first 15 days of the semester. Meal plan adjustments are made on a daily prorated basis, not by the number of meals used. Requests for meal plan cancellations must be initiated in person at one of the Housing and Dining Programs locations, Rockwood Building or Anderson Hall. Students then request any applicable refund through their portal or with AU

Central. Meal plan increases or sign-ups may be done at any time during the semester.

Medical Withdrawal Policy

No special waiver or refund of tuition and fees is made when a student discontinues attending classes due to medical reasons. However, when a student is hospitalized on an emergency basis and is therefore unable to formally withdraw from classes, the Registrar is authorized to process a retroactive withdrawal based on the last date that the student attended class. The student must present evidence of his or her hospitalization and the date of last attendance in class as verified by the instructor. Provided that the retroactive withdrawal date falls within the tuition cancellation period, the student's account will be adjusted accordingly.

Tuition Refund Insurance

The Tuition Refund Plan can minimize financial loss incurred in a medical withdrawal from the university. This elective insurance plan provides coverage for tuition and housing charges. The plan extends and enhances the university's published refund policy. To participate, applications and fees must be returned before the first day of fall semester classes. For specific benefits and limitations, premium, and other information, contact the student health insurance coordinator at 202-885-3298.

Undergraduate Financial Aid

American University awards financial aid to students based on a combination of demonstrated financial need, academic achievement, and the availability of funds. Once a student is admitted to American University, the Financial Aid office will determine need and develop a financial aid award that includes funds from the programs for which the student qualifies. In addition to awarding funds from American University, the university administers federal grant, loan, and work-study programs that may be included in the award. The financial aid award may include a combination of an American University grant, federal grants, federally subsidized or unsubsidized loans and/or student employment.

To receive consideration for financial aid, a student must be a United States citizen or eligible non-citizen in a degree program. New students should not wait to be admitted before filing the Free Application for Federal Student Aid (FAFSA). A financial aid application has no bearing on a student's admission application.

For more information contact Financial Aid at 202-885-6100 or e-mail financialaid@american.edu.

Satisfactory Academic Progress

Recipients of federal (Title IV) or institutional funds must maintain satisfactory academic progress toward their degree objective to remain eligible for financial assistance.

Minimum Standards

- Full-time undergraduate financial aid recipients must maintain at least a 2.00 cumulative grade point average and complete 24 credit hours per academic year.
- Part-time undergraduate financial aid recipients must maintain at least a 2.00 cumulative grade point average and complete four-fifths (80 percent) of all attempted credit hours.
- All students must complete their academic program within 150 percent of the normal time limit of that academic program as defined in the *Academic Regulations*.
- Merit-based scholarship recipients may have different standards than those listed above. Please refer to the original award notification regarding merit award eligibility criteria.

Special Considerations

The following alternative grading options do not count toward the grade point average but do have an impact on students' satisfactory academic progress:

- Withdrawals (W), Administrative Withdrawals (ZL), Audits (L), and Fails on Pass/Fail option (ZF) count as credits attempted but not earned, and have no impact on the grade point average.
- Incompletes (I), Unreported Grades (N), and Administrative Failures (ZX) count as credits attempted but not earned, and are factored as a grade of F.
- Pass (P) counts as credits attempted and earned, but has no impact on the grade point average.
- In Progress (IP) courses are excluded from the calculation in the initial academic progress evaluation. Students have one calendar year from the beginning of the course to successfully complete the course. If not completed in that time frame, the course counts as credits attempted but not earned, and is factored as a grade of F.

Frequency of Monitoring

Each student's academic progress is measured once yearly in June, after spring grades are posted. Financial Aid will notify in writing students who are not making satisfactory progress.

Academic Appeals

All questions regarding the factual substance of academic records and all requests for changes to those records must be made to the academic departments. The *Academic Regulations* describe the petition process. Financial Aid has no authority to alter the academic record of a student.

Re-Establishing Financial Aid Eligibility

For a student who has failed to maintain satisfactory academic progress, eligibility for financial aid funds may be re-established in a number of ways. Among these are: the petitioning process described in the *Academic Regulations*; the

changing of a grade; summer session attendance; and the completion of incomplete or in progress courses. Please note that funds are not set aside for students in these circumstances. Even if the appeal is granted, funds may not be available at that time.

Financial Aid Appeals

On occasion, a student may fail to maintain satisfactory progress due to very serious circumstances that caused a major disruption to that student's ability to successfully complete his or her course work. **Students with mitigating circumstances must request reconsideration in writing to Financial Aid prior to July 1.** The request should include a comprehensive description of the circumstances and documentation from at least two qualified persons who can verify the information. The Appeals Committee will review the appeal, make a recommendation and send a letter of response to the student.

Refund and Repayment Policy

For American University's refund policies regarding tuition, housing and meal plan charges, see **Refunds and Cancellation of Charges**.

The American University refund policy does not apply to first-time American University students. A "first-time student" is defined in Federal regulations as any student who has not attended at least one class at American University, or who received a full refund for previous attendance at American University.

Federal (Title IV) Financial Aid Recipients Return of Title IV Funds Policy

The Financial Aid Office is required by federal statute to recalculate federal financial aid eligibility for students who withdraw, drop out, are dismissed, or take a leave of absence prior to completing 60 percent of a payment period or term. The federal Title IV financial aid programs must be recalculated in these situations.

If a student leaves the institution prior to completing 60 percent of a payment period or term, the Financial Aid Office recalculates eligibility for Title IV funds. Recalculation is based on the percentage of earned aid using the following Federal Return of Title IV funds formula:

Percentage of payment period or term completed = the number of days completed up to the withdrawal date divided by the total days in the payment period or term. (Any break of five days or more is not counted as part of the days in the term.) This percentage is also the percentage of earned aid.

Funds are returned to the appropriate federal program based on the percentage of unearned aid using the following formula:

Aid to be returned = (100 percent of the aid that could be disbursed minus the percentage of earned aid) multiplied by the total amount of aid that could have been disbursed during the payment period or term.

If a student earned less aid than was disbursed, the institution would be required to return a portion of the funds and the student would be required to return a portion of the funds. When Title IV

26 Tuition, Expenses, and Financial Aid

funds are returned, the student borrower may owe a debit balance to the institution.

If a student earned more aid than was disbursed to him or her, the institution would owe the student a post-withdrawal disbursement which must be paid within 120 days of the student's withdrawal. The institution must return the amount of Title IV funds for which it is responsible no later than 30 days after the date of the determination of the date of the student's withdrawal.

Refunds are allocated in the following order:

- Unsubsidized Federal Stafford Loans
- Subsidized Federal Stafford Loans
- Unsubsidized Direct Stafford Loans (other than PLUS Loans)
- Subsidized Direct Stafford Loans
- Federal Perkins Loans
- Federal Parent (PLUS) Loans
- Direct PLUS Loans
- Federal Pell Grants for which a return of funds is required
- Federal Supplemental Opportunity Grants for which a return of funds is required
- Other assistance under Title IV for which a return of funds is required (e.g., LEAP)

Scholarships

Undergraduate University Scholarships

The Admissions Committee makes all merit-based scholarship decisions and notifies students at the time they are admitted. Merit awards range from \$3,000 to full tuition per year. Scholarships awarded to selected applicants include:

- Presidential Scholarship
- Dean's Scholarship
- Leadership Scholarship
- National Achievement, National Merit, and National Hispanic Scholarships
Awarded to freshman applicants who were named National Achievement and National Merit finalists and National Hispanic semi-finalists who have designated American University as their first-choice college with the National Merit Scholarship Corporation by February 1 of their senior year.
- Athletic Scholarship
Interested students should contact the coach of the sport in which they excel.
- United Methodist Scholarship
For the children of active, ordained Methodist ministers.

Private/Restricted Scholarships

The university has a limited number of scholarships that are funded annually through endowment by donors. Applicants are reviewed by Financial Aid for eligibility for these scholarships and no separate application is required.

Grants

Grants are need-based awards that do not have to be repaid and may originate from American University, the federal government, or state governments.

American University Programs

AU grants are offered to eligible admitted students who demonstrate financial need, and may be offered in addition to an AU scholarship.

Federal Programs

Federal Pell Grant Program: This grant is offered to students demonstrating exceptional financial need. Awards range from approximately \$400 to \$4,000 per year.

Federal Supplemental Educational Opportunity Grants (FSEOG): This grant is offered to students demonstrating exceptional financial need. Awards depend on need and the availability of funds.

State Programs

Many states administer grant programs which residents may apply for and receive while attending American University. Students should check with guidance counselors and state grant agencies regarding up-to-date application procedures and eligibility factors.

Loans

AU Educational Loan

The AU Educational Loan (AUEL) is available to students who have financial need and is funded through American University. Repayment begins six months after graduation.

Federal Loan Programs

Federal Direct Stafford Loan: This loan is guaranteed by the federal government. There are two types of Stafford Loans: Subsidized Federal Loans are for eligible students who have demonstrated financial need; students who do not have demonstrated need are eligible for an Unsubsidized Federal Loan. Repayment for both begins six months after graduation or when the student drops below 6 credit hours in any semester. No interest is charged on Subsidized Federal Loans while the student is in college, interest does accrue on Unsubsidized Federal Loans. Undergraduate students may borrow up to \$2,625 for the first year of study; \$3,500 for the second year; and \$5,500 per academic year after completing two years of undergraduate study.

Federal Perkins Loan: This loan is funded through American University and the federal government. Federal regulations require that this loan be given to students with exceptional need. Awards vary depending on need and availability and repayment begins nine months after graduation.

Parent Loan for Undergraduate Students (PLUS): This federal loan program is funded through private lenders and is available to the parents of dependent undergraduate students to assist them in meeting educational expenses. Repayment begins within 60 days of the loan's second disbursement.

Federal Work-Study Program (FWS)

This program for students with financial need provides the opportunity to work part-time and use earnings toward educational expenses.

Tuition Exchange

American University participates in the Tuition Exchange Program for faculty and staff members. Students whose parents are employed by one of the participating institutions may be eligible for a Tuition Exchange Scholarship.

Graduate Financial Aid

The university offers graduate students a variety of ways to finance their education while in attendance at American University, including:

- Federal Direct Loan
- Federal Graduate PLUS Loans
- Outside loans
- American Installment Plans

For more information contact Financial Aid at 202-885-6100 or e-mail financialaid@american.edu.

Graduate Deadlines

Students should contact the graduate admission office in the school or college to which they are applying to find out the application deadline to be considered for merit awards such as fellowships, assistantships, and study grants.

Satisfactory Academic Progress

Recipients of federal (Title IV) or institutional funds must maintain satisfactory academic progress toward their degree objective to remain eligible for financial assistance.

Minimum Standards

- Full-time graduate financial aid recipients must maintain at least a 3.0 cumulative grade point average and complete 18 credits hours per academic year.
- Part-time graduate financial aid recipients must maintain at least a 3.0 cumulative grade point average and complete four-fifths (80 percent) of all attempted credit hours.
- All students must complete their academic program within 150 percent of the normal time limit of that academic program as defined in the *Academic Regulations*.
- Merit-based scholarship recipients may have different standards than those listed above. Please refer to the original award notification regarding merit award eligibility criteria.

Special Considerations

The following alternative grading options do not count toward the grade point average but do have an impact on students' satisfactory academic progress:

- Withdrawals (W), Administrative Withdrawals (ZL), Audits (L), and Fails on Pass/Fail option (ZF) count as credits attempted but not earned, and have no impact on the grade point average.
- Incompletes (I), Unreported Grades (N), and Administrative Failures (ZX) count as credits attempted but not earned, and are factored as a grade of F.

Tuition Remission

Full-time faculty and staff members and their spouses or domestic partners are eligible for tuition benefits. There is a \$50 registration fee (nonrefundable) per semester.

- Pass (P) counts as credits attempted and earned, but has no impact on the grade point average.
- In Progress (IP) courses are excluded from the calculation in the initial academic progress evaluation. Students have one calendar year from the beginning of the course to successfully complete the course. If not completed in that time frame, the course counts as credits attempted but not earned, and is factored as a grade of F.

The Appeals Committee will review the appeal, make a recommendation and send a letter of response to the student.

Refund and Repayment Policy

For American University's refund policies regarding tuition, housing and meal plan charges, see **Refunds and Cancellation of Charges**.

The American University refund policy does not apply to first-time American University students. A "first-time student"

is defined in Federal regulations as any student who has not attended at least one class at American University, or who received a full refund for previous attendance at American University.

Federal (Title IV) Financial Aid Recipients Return of Title IV Funds Policy

The Financial Aid Office is required by federal statute to recalculate federal financial aid eligibility for students who withdraw, drop out, are dismissed, or take a leave of absence prior to completing 60 percent of a payment period or term. The federal Title IV financial aid programs must be recalculated in these situations.

Funds are returned to the appropriate federal program based on the percentage of unearned aid using the following formula:

Aid to be returned = (100 percent of the aid that could be disbursed minus the percentage of earned aid) multiplied by the total amount of aid that could have been disbursed during the payment period or term.

If a student earned less aid than was disbursed, the institution would be required to return a portion of the funds and the student would be required to return a portion of the funds. When Title IV funds are returned, the student borrower may owe a debit balance to the institution.

If a student earned more aid than was disbursed to him or her, the institution would owe the student a post-withdrawal disbursement which must be paid within 120 days of the student's withdrawal. The institution must return the amount of Title IV funds for which it is responsible no later than 30 days after the date of the determination of the date of the student's withdrawal.

Refunds are allocated in the following order:

- Unsubsidized Federal Stafford Loans
- Subsidized Federal Stafford Loans
- Unsubsidized Direct Stafford Loans (other than PLUS Loans)
- Subsidized Direct Stafford Loans
- Federal Perkins Loans
- Federal Parent (PLUS) Loans
- Direct PLUS Loans
- Federal Pell Grants for which a return of funds is required
- Federal Supplemental Opportunity Grants for which a return of funds is required
- Other assistance under Title IV for which a return of funds is required (e.g., LEAP)

Federal Loans

Graduate students who qualify for federal Stafford loans may borrow up to \$18,500 every two semesters. All federal loan programs require the FAFSA be filed before eligibility can be determined. To be eligible for federal need and non-need based loans, graduate students must be:

- a U.S. citizen or permanent resident
- enrolled in a degree-granting academic program
- registered for at least 6 credit hours per semester

Federal loans must be re-paid. Repayment will begin six months after graduation or after dropping below half-time status. Federal interest rates are variable but will never exceed 8.25% on a federal loan. Please contact Financial Aid for current interest rates.

Those students who need more than \$18,500 over two semesters may take out a private loan to help cover any remaining educational expenses. The amount that may be borrowed in an outside loan varies.

American University Programs

Graduate Merit-Based Awards

American University is committed to quality graduate education that is responsive to the needs of students, disciplines, the university, and the larger community. Our goals are to provide a high quality educational experience for our students and to offer graduate support that assists students in completing their programs of study. To this end the university has set priorities for the allocation and awarding of graduate assistantships and fellowships as shown below.

Recipients of all awards (except Dissertation Fellowships) must be full-time degree students. Specifically, this requires that a recipient be registered for a minimum of 9 credit hours during each semester of the academic year. Award recipients must maintain full-time status in order to continue to receive their award during the academic year. Awards are intended to assist graduate students to pursue full-time education.

The university has established the following awards to assist graduate students:

Graduate Fellowships are merit-based awards that the university offers in order to attract the most outstanding students in the discipline. These awards are given to new graduate degree students and normally provide the recipient up to 24 hours of tuition remission in degree-related courses in a given academic year and may also provide a stipend. The tuition remission should be used during the academic year but may with the permission of the teaching unit head be used during the summer session.

Special Opportunity Awards for minority students—American Indians, African Americans, Asian/Pacific Islander Americans, Alaskan Native Americans, or Hispanic Americans—provide tuition remission from 6 to 24 hours of degree-related courses in a given academic year. The tuition remission should be used

during the academic year but may with the permission of the teaching unit head be used during the summer session.

Hall of Nations Awards are made by the deans of CAS, KSB, SOC, SIS, or SPA, as appropriate, with the approval of the Dean of Academic Affairs. These awards, which are for tuition remission only, are given to international students who do not have permanent residence status or U.S. citizenship.

Dissertation Fellowships are awards that provide recipients with a stipend and up to 18 hours of tuition remission in one academic year for dissertation seminar credits only. These awards

are limited to students who have completed all doctoral course work and comprehensive examinations and who have an approved dissertation proposal at the time of application. Dissertation fellows are selected by the deans of CAS, SIS, or SPA, as appropriate, with the approval of the Dean of Academic Affairs.

Designated Awards

A description of other designated awards, such as United Methodist Awards and Massey Awards and their eligibility requirements is distributed annually by the Dean of Academic Affairs.

Veterans' Benefits

American University's degree programs are approved for enrollment of veterans (and eligible dependents of deceased or disabled veterans) for educational benefits under the various federal laws relating to veterans. While every effort has been made to provide accurate and complete information, changes in federal regulations and university policy may occur at any time without notice. The following should be considered informational and not binding on the university.

New Students

Veterans entering American University must file a Veterans Application for VA Educational Benefits (22-1990) with a certified copy of DD-214 through AU Central. Service men and women wishing to receive Veterans Administration (VA) benefits for the first time must present the Serviceman's Application for VA Educational Benefits (22-1990), signed by the Education Office and the Commanding Officer. Enrollment Certification (22-1999) is sent to the VA by AU Central to initiate benefits for the enrollment period.

Transfer students who have received VA educational benefits at another institution and wish to receive VA benefits for the first time at American University should file a Request for Change of Program or Place of Training (22-1995) through AU Central. This form will be sent to the VA with the Enrollment Certification (22-1999) completed by the university.

Continuing Students

Continuing students must file the American University VA claim card for educational benefits each semester with AU Central. All changes in registration (adds, drops, and withdrawals) must be reported to AU Central.

Payment and Financial Responsibility

With the exception of disabled veterans who are training under Vocational Rehabilitation, all beneficiaries of VA educational benefits are personally responsible for the payment of their bills to the university. VA checks for educational benefits are sent directly to the address designated on the American University VA claim card. Eligible students (chapter 30 persons only) who wish to receive advance payment must file an advance payment request form. Students who are granted advance payment pick up only the first check from AU Central. Thereafter, checks are sent directly to the address on file with the VA.

VA benefits are awarded on the basis of the expected completion of a certain number of credits each semester as stated on the Certification form. The VA interprets "completion of credits" differently from the university. Completion of credits is defined by the VA as grades of A, B, C, D, F, P, or ZF. However, veterans who drop below the anticipated number of credits by receiving a W (withdrawals), L (audit), or N (no grade reported) will be in overpayment status according to the VA. Benefits will be reduced for future periods of enrollment or, should no further enrollment occur, students will have to refund money directly to the VA.

The VA directs the university to notify them of a change in status for students during or immediately after the end of the month in which the change occurs. Under mitigating circumstances, exceptions to the above policies may be made through the Veterans Administration Regional Office.

Forms and information are available from AU Central, Asbury Building, second floor, 202-885-8000.

Campus Life

The Office of the Vice President of Campus Life is located in Butler Pavilion 400. For more information, contact 202-885-3310, campuslife@american.edu or go to: www.american.edu/ocl/.

Recognizing students' unique needs and the diversity of American University's student body, the Office of Campus Life promotes students' integration into an inclusive university community and supports and complements students' preparation for lifelong learning and global citizenship.

The Office of Campus Life is guided in this mission by assessment of students' characteristics, dedication to service and advocacy for students, and accountability for our actions. The Vice President of Campus Life is the chief student affairs officer of the university and reports to the president.

The Office of the Dean of Students is committed to cultivating an environment that enriches and supports student development. The dean of students staff provides advocacy,

information, referrals, and other assistance to students, and works closely with academic and administrative units to promote student success.

Student Conduct Code

Each student is expected to adhere to established standards of behavior for members within the university community. Students must abide by all federal and local laws as well as all policies and regulations of American University. The Student Conduct Code describes the rights and responsibilities for student conduct. By registering for classes or enrolling at American University, all students acknowledge their awareness of and agreement to adhere to the Student Conduct Code. The code is published annually in the *Student Handbook*, available from the Office of the Dean of Students and at:

www.american.edu/ocl/dos.

Office of Campus Life Departments

Academic Support Center

The Academic Support Center offers programs and services to all students to help them develop the skills and behaviors necessary for academic success in college. Services include individual instruction in time management, textbook reading, note taking, and exam preparation. Students may also take advantage of study skills seminars, referrals for peer tutors, writing assistance, and supplemental instruction in selected courses. Services for students with learning disabilities and ADHD include help with accommodations, a writing lab, a computer lab, and the Learning Services Program for freshmen. Specific services are available for international students and student-athletes. Services are provided free of charge, except for special program fees and modest fees for peer tutors. The Academic Support Center is located in Mary Graydon Center 243.

For more information, call 202-885-3360 or go to: www.american.edu/ocl/asc.

Center for Community Engagement and Service

The Center for Community Engagement and Service provides a range of opportunities for diverse members of the university community to challenge their beliefs, explore new cultures, and share their unique experiences through public service. It cultivates a sense of global citizenship that demands both public service and civil action. Students and faculty utilize the

resources of Washington, D.C. to forge academic learning connections between classroom and community through service-learning.

Projects and programs available to the community include Alternative Breaks, Community Service-Learning Projects, D.C. Reads, Eagle Endowment for Public and Community Service, Freshman Service Experience, and One-Day Service Events. For more information, call 202-885-SERV (7378) or go to: www.american.edu/ocl/volunteer/.

Counseling Center

The Counseling Center is located in Mary Graydon Center 214. Services and programs are available to help students develop the skills and insights they need to understand their own feelings and behaviors, solve personal and interpersonal problems, and thrive in the university environment.

The center offers individual and group counseling, crisis intervention, self-help materials, consultations, and referrals to off-campus resources for services not available on campus. Counselors also conduct classes and workshops on topics related to students' well-being (e.g., stress and anxiety, depression, anger management, eating and body image concerns, relationship issues, alcohol and drug use, et cetera).

The center's staff includes psychologists, social workers, a consulting psychiatrist, and graduate-level clinical trainees. Services are confidential in accordance with professional and legal

standards, and are free of charge. For more information, call 202-885-3500 or go to: www.american.edu/ocl/counseling/.

Disability Support Services

The staff of Disability Support Services works to facilitate the full participation of students with physical and psychological disabilities in campus programs and activities. Services and accommodations are provided to ensure equal access and to promote the inclusion and involvement of students with disabilities in the American University community. This office also provides consultation and in-service training for faculty, staff, and students, with the overall goal of ensuring a campus environment that is welcoming to individuals with disabilities. The office is located in Mary Graydon Center 206. For more information, call 202-885-3315 (V/TDD), email dss@american.edu or go to: www.american.edu/ocl/dss/.

Gay, Lesbian, Bisexual, Transgender, and Ally Resource Center

The Gay, Lesbian, Bisexual, Transgender, and Ally (GLBTA) Resource Center works to strengthen and sustain an inclusive campus community that welcomes people of all sexual orientations and gender identities by providing support, educational resources, and advocacy. The Resource Center houses a library of books and magazines, hosts events and speakers, and conducts campus educational trainings on a regular basis. All programs are open to all members of the American University community.

The GLBTA Resource Center is located in Mary Graydon Center 201. The office is open 9 a.m. to 5 p.m., Monday and Friday, and 9 a.m. to 8 p.m., Tuesday through Thursday. The Resource Center can be reached by phone at 202-885-3347, by fax at 202-885-1883, by e-mail at glbta@american.edu, or go to: www.american.edu/ocl/glbta.

Housing and Dining Programs

Housing and Dining Programs (HDP) is responsible for daily operations in American University's residence halls as well as management of the professional and student staff. Housing and Dining Programs is also responsible for the management of AU's off-campus apartment building, Park Bethesda. Complementing the goals of the Office of Campus Life, HDP seeks to create and maintain an environment that fosters intellectual, social, and emotional growth. The staff works to provide a safe and comfortable living environment that encourages respect for individual rights and social responsibility.

Housing and Dining Programs is responsible for applications for student housing, student room assignments, summer housing, and conference operations. Physical Plant is responsible for the maintenance of equipment as well as housekeeping in the residence halls. Housing and Dining Programs staff oversee minor maintenance repairs.

American University's nine residence halls have distinct characteristics and offer a variety of living arrangements. Sev-

eral special interest housing options, or Living Learning Communities, are available in the halls, including the Honors Program, University College, and Residential Community Clusters.

Visitors to AU's residence halls must check in at the front desk and be escorted while in the hall. Residents may not lend their access cards and keys to guests. There are no curfews; 24-hour visitation is the policy in each hall. Overnight guests are permitted only with the agreement of the roommate. In all cases, overnight guests are limited to a 3-day stay. Residents are responsible for their guests' behavior and may be charged in lieu of their guests for violations of the Student Conduct Code and damage to university property.

The Off-Campus Housing Resource Center at American University serves AU students and the community by providing support to those looking for housing, as well as to those who wish to list rental property. In addition to a comprehensive, up-to-date web site of rental listings, information on landlord/tenant relationships, and helpful hints and advice about the housing search process are also available.

Housing is available to undergraduate students on a first-come, first-served basis. For further information call 202-885-3370 or go to: www.american.edu/ocl/housing/.

Residence Hall Association

The Residence Hall Association (RHA) is the student government and program planning organization of the residence halls. RHA works with Housing and Dining Programs to ensure that university policies and services are responsive to students' needs. The Executive Board, the highest branch of the RHA, is the link between the administration and students. The Executive Board, in conjunction with the hall and floor officers, organizes both hall and campus-wide programs. The Executive Board and Hall Council presidents are elected in the spring and serve one-year terms. Hall Council members are elected at the beginning of the fall semester and serve one-year terms.

RHA provides both social and educational programming within each hall and across campus. For more information, call 202-885-1RHA (x1742), e-mail info@aurha.org or go to: www.american.edu/ocl/rha/.

International Student & Scholar Services

International Student & Scholar Services (ISSS) provides cross-cultural advising and programming to all members of the university community, as well as specialized immigration support services to foreign students and exchange visitors.

ISSS administers the Student and Exchange Visitor Program and the State Department's authorized international education exchange programs. These programs, also known as the F1 Non-Immigrant Academic and Language Student Programs and the J1 Exchange Visitors Programs, assist students, scholars, professors, researchers, and others who come to the university for temporary periods for the purpose of educational exchange.

To assist international students, specific and unique support services are provided in pre-arrival, arrival, on-going, and re-en-

try orientation and guidance; issuance of appropriate certificates of eligibility; assistance regarding academic, social, cultural or personal matters of a cross-cultural nature; and practical training and work authorization permits. ISSS is located in Butler Pavilion 410, 202-885-3350. For more information, go to www.american.edu/ocl/iss.

Kay Spiritual Life Center

The Kay Spiritual Life Center is an interfaith house of worship and home to a rich array of faith communities, cultural and educational programs, student organizations, feasts, festivals, circles of prayer, and activism. In keeping with the university's commitment to inquiry and diversity, the Kay Spiritual Life Center seeks to be not only a center for religious life, but a place where people of conscience, intellect, and spiritual curiosity come with their questions, their dreams, and their struggles. The center fosters a climate of interfaith understanding and openness, in which matters of faith and value are recognized as an integral part of human growth and university life.

Regular services of worship and religious observances are held throughout the year by Baha'i, Buddhist, Catholic, Church of Jesus Christ of Latter Day Saints, Hindu/Vedic, Jewish, Muslim, Orthodox, United Methodist/Protestant, Quaker, Sikh, and Unitarian Universalist communities. Meditation from a variety of traditions is also offered. In addition, the center sponsors special interfaith celebrations, as well as a variety of workshops, panel discussions, retreats, outings, and social action opportunities.

Chaplains from the diverse faith traditions assist in organizing events and are available to students, faculty, and staff for pastoral counseling and spiritual direction, residence hall programming, advisement on issues of faith and ethics, life events, baptisms, bat/bar mitzvahs, weddings, and memorial services.

The Kay Interfaith Council serves to foster dialogue and discussion among the member communities of the Kay Center, provides for collective interfaith action, and promotes awareness of and respect for interfaith issues. The Center for Community Action and Social Justice Coalition (CASJC), also located in the Kay Center, is a student-led consortium of clubs committed to expressing spirituality through active engagement in pursuit of a more just and peaceful world. This office serves as a resource for AU students seeking to work for responsible social change.

The Kay Spiritual Life Center is located at the north end of the Friedheim Quadrangle. Hours of operation during the fall and spring semesters are 9 a.m. to 9 p.m., Monday through Friday. For more information, call 202-885-3320, e-mail kslc@american.edu or go to: www.american.edu/ocl/kay/.

Multicultural Affairs

Multicultural Affairs advocates for an inclusive campus environment that values a pluralistic perspective by collaborating with all segments of the university to provide academic support for ethnic minority students, and educational programming and

resources for all. The staff provides counseling and tutoring services to African, Asian/Pacific, Hispanic, and Native American students, advises ethnic and cultural clubs, and addresses diverse cultural interests through lectures, seminars, historical tours, receptions, award ceremonies, and festival events.

Multicultural Affairs also administers the Frederick Douglass Scholarship Program, the Summer Transition Enrichment Program (STEP), the High School/College Internship Program (HI/SCIP), and a mentoring program. The office, located in Mary Graydon Center 204, houses historical and cultural materials, as well as career information for undergraduate and graduate students. For more information, or to be added to the Multicultural Affairs listserv, call 202-885-3651, go to www.american.edu/ocl/ma, or email ma@american.edu.

New Student Programs

New Student Programs designs and coordinates orientation programs for first year and transfer students. Through summer, fall, and spring orientation programs, the staff assists new students in their transition to American University. The office also coordinates the All-American Weekend in October for parents and family of current AU students and other programs to enhance the quality of life for all American University students. For more information, call 202-885-3303, e-mail orientation@american.edu or go to: www.american.edu/ocl/orientation.

Student Activities

The Student Activities staff serves as advisors, mentors, and facilitators to the student leaders and members of more than 180 recognized clubs, coalitions, student government departments, and student media groups. The Student Activities team helps to prepare students for life-long learning and global citizenship by promoting and supporting campus activities that appeal to a diverse community. The main goals are to provide students with information on how to get involved in student activities at American University and to provide leaders with the tools they need to be successful. Student Activities is located in Mary Graydon Center 271.

Student Activities Organizations

The four broad categories of organizations that Student Activities advises are: American University Club Council associations and clubs, student coalitions, student government, and student media.

American University Club Council: Associations and Clubs

Many students enhance their collegiate experiences by getting involved in student-sponsored associations and clubs. Student Activities annually recognizes approximately 100 student associations and clubs. These organizations span a wide range of interests, including social life, academics, business, fellowship, music, journalism, service, recreation, and religion, and allow students to develop their talents and enhance organizational skills. Membership in student associations and clubs is open to all registered American University students and can provide op-

portunities for meeting other students, networking with faculty and staff, learning outside the classroom, and developing leadership skills. For more information or to obtain a complete list of clubs and organizations contact Student Activities at 202-885-3390 or go to: www.american.edu/ocl/activities.

The American University Club Council (AUCC) is the governing board for all clubs recognized by Student Activities. In addition to allocating student activity fees to the clubs the AUCC is responsible for mediating club disputes, encouraging collaboration among clubs, and helping clubs do business more efficiently. For more information, call 202-885-6453 or email aucc@american.edu.

Student Coalitions

Coalitions are student initiated and run advocacy and programming groups that are designed to centralize the efforts of many student clubs, and organizations that have a common agenda. Coalitions can also include faculty, staff and alumni members. Student Activities currently recognizes two coalitions: The Asian Student Alliance and the Community Action and Social Justice Coalition (CASJC). For more information or to obtain contact information for the Student Coalitions, contact Student Activities at 202-885-3390 or go to: www.american.edu/ocl/activities.

Student Government

There are two student government organizations advised through Student Activities: the undergraduate Student Government (SG) and the Graduate Leadership Council (GLC).

The Student Government (SG) represents student interests, advocates for student concerns, and provides service to the student body. The SG executive office is the administrative branch of the SG and is located in Mary Graydon Center 270. It can be reached at 202-885-6400 or www.ausg.org.

The Senate is the legislative branch of the SG and is located in Mary Graydon Center 262. The Senate is responsible for allocating student activity fees to SG departments, enacting legislation to further the interests of undergraduate students, approving rules and regulations governing the SG, and acting as a forum for student concerns. The Student Union Board (SUB) is the social programming division of the Student Government and books bands, comedians, and other talent, and shows movies. The Kennedy Political Union (KPU) is a nonpartisan student lecture bureau. Founded in 1968, KPU has grown into a nationally respected lecture series.

The Graduate Leadership Council (GLC) is the graduate student government at American University. The GLC is composed of the five school/college Graduate Student Council (GSC) presidents, a chair and a vice chair. The GLC objective is to maximize students' return on their mandatory student activity fees by allocating a greater portion of activity fee revenue to each GSC. The GLC also provides students with opportunities and events more focused on their field-specific interests as well as advocates for graduate student concerns. For more information contact 202-885-2472 or stop by the GLC Office in 262 Mary Graydon Center.

Student Media

The student community supports and manages the following campus media:

- ATV is a student-operated television station that airs news, sports, and entertainment programs. Located in Mary Graydon Center 256, ATV broadcasts to residence hall lounges and rooms except on the Tenley Campus. For more information, call 202-885-2222 or go to: www.auatv.com.
- *American Literary* (AmLit) publishes student works of creative art, photography, and literature. It is located in Mary Graydon Center 248. For more information, call 202-885-6414, email aamlitmag@gmail.com or go to: www.aamlitmag.com.
- *American Observer* is the online graduate journalism magazine, providing an ongoing online experiment in digital media, and published during the fall and spring semesters on Tuesdays and Thursdays. For more information, email americanobserver@gmail.com or go to: <http://inews6.americanobserver.net/>.
- *American Way of Life Magazine* (AWOL) is a student-run progressive magazine that exists to ignite campus discussion of social, cultural, and political issues, and serve as an outpost for students to explore solutions to local and global problems. For more information, email awolau@gmail.com or go to: www.awolau.org.
- *American Word* is an online news magazine written by students about students and student-related issues. For more information, call 202-885-6418.
- *The Eagle* is American University's student newspaper, published twice a week during the academic year and twice during the summer months. The newsroom and business offices are located in Mary Graydon Center 252. To contact *The Eagle*, call 202-885-1400 or go to: www.theeagleonline.com.
- *The Talon*, the American University yearbook, captures the issues, events, and people that mark each academic year. *The Talon* office is located in Mary Graydon Center 250. To contact *The Talon*, call 202-885-1422, email talon@american.edu, or go to: <http://talonyearbook.com/>.
- WVAU is a student-operated radio station and airs a contemporary music format along with a variety of sports and entertainment programs to the campus residence halls. To contact WVAU, call 202-885-1212 or go to: www.wvau.org.

Student Conduct and Conflict Resolution Services

Student Conduct and Conflict Resolution Services provides an organized judicial system founded on principles of equity, fairness, and due process for the resolution of grievances in the American University community. In addition, this office promotes the learning and use of alternative dispute resolution methods.

Student Conduct addresses alleged violations of the Student Conduct Code, Regulations for Student Conduct in the Residence Halls, and other university policies. The Conduct Council is a community review board composed of students, faculty, and staff members that provides an excellent experiential learning opportunity. All students, regardless of their majors, are encouraged to take active roles in the judicial system on campus.

American University Conflict Resolution Services (AUCRS) provides resources for the resolution of interpersonal and inter-group conflicts to all members of the AU community. AUCRS helps parties learn about sources of and responses to conflict and their roles in this dynamic process. Services include conflict consultation, assessment and evaluation, mediation, facilitation, and post-conflict reconciliation. Services are confidential and free of charge to all students, faculty, and staff. AUCRS also provides alternative dispute resolution (ADR) and conflict management skill-building workshops. Students, faculty, and staff are welcome to participate in basic mediation skills training offered each semester.

Student Conduct and Conflict Resolution Services is located in Butler Pavilion 408. For more information, call 202-885-3328, e-mail conduct@american.edu or go to: www.american.edu/ocl/scrcs.

Student Health Center

The Student Health Center (SHC) provides primary medical care, minor emergency care, gynecological care, immunizations, allergy injections, and health education services to students. Routine office visits are without cost, but additional charges may be assessed for the allergy clinic, TB testing, immunizations, and other special services.

The clinical staff consists of registered nurses and physician assistants, supported and supervised by two internal medicine physicians. These primary care practitioners initiate treatment and coordinate all aspects of care, including referrals to specialists when indicated. Patients are seen on a walk-in basis. Appointments are made for annual women's health exams. The office is located in McCabe Hall, 1st floor. To schedule an appointment, call 202-885-3380 or go to: www.american.edu/ocl/healthcenter.

Health Education Program

The Health Education Program, supported by a Wellness Project Team of students, faculty, and staff, promotes student health and wellness activities on campus throughout the year. Outreach activities include residence hall programs, a campus-wide Health Fair, alcohol and other drug awareness programs, and general health and women's health education teams.

Student Health Insurance

Health insurance is mandatory for all full-time degree, resident, and international students, unless the student is covered under another comparable health insurance plan. The fee is assessed automatically unless waived prior to the deadline. Waiver forms must be completed online at myau.american.edu. Medi-

cal insurance coverage is available at an additional cost to part-time students carrying at least 6 credit hours, spouses, domestic partners, and children of students enrolled in the student health insurance plan.

For information call the Student Health Insurance Office at 202-885-3298 or go to: www.american.edu/ocl/healthcenter/.

Tuition Refund Plan

The Tuition Refund Plan can minimize financial loss incurred in a medical withdrawal from the university. This elective insurance plan provides coverage for tuition and housing charges. The plan extends and enhances the university's published refund policy. To participate, applications and fees must be returned before the first day of fall semester classes. For specific benefits and limitations, premium, and other information, contact the Student Health Insurance coordinator at 202-885-3298 or go to: www.collegerefund.com.

University Center

The University Center (UC) is a three-building complex comprising Mary Graydon Center, Butler Pavilion, and the Sports Center. The mission of the University Center is to provide a welcoming environment for AU students, faculty, staff, alumni, and visitors, and to support programs, activities, and services that promote community, individual growth, responsible citizenship, and a global perspective. The UC houses selected auxiliary services, social and recreational facilities, community lounges, dining and meeting facilities, the Cyber Cafe, and a number of offices providing student services. The UC staff of professionals and students facilitates event accommodation in the Center's facilities through University Event Scheduling (UES) and UC Operations. UES also manages the scheduling for all events on campus. The UC also operates information desk on the 1st floor of Mary Graydon Center. The University Center administrative office is located in Mary Graydon Center 274. For more information, call 202-885-3900 or go to: www.american.edu/ocl/uc.

Women's Resource Center

The mission of the Women's Resource Center (WRC) to advance social justice by promoting a campus culture that ensures a safe, supportive, equitable and empowering environment for women of all cultures, races, sexual orientations and ages. The Center provides all students with information, services and programs that address matters of particular concern to women, while exploring the connections among gender, race, economic status, sexual orientation, culture, ability, religion, political views and other significant characteristics of women's individual and collective identities.

The services and program of the WRC focus on four major areas: advocacy, empowerment, education, and support. The Women's Resource Center is located in Mary Graydon Center 202a. For more information, call 202-885-3959, email wrc@american.edu, or go to: www.american.edu/ocl/wrc/.

Career Services, Internships, and Merit Awards

The AU Career Center serves all undergraduate and graduate students in the College of Arts and Sciences, the School of Communication, the School of International Service, and the School of Public Affairs. Kogod School of Business and Washington College of Law students are served by their respective centers. The Career Center is located on the fifth floor of Butler Pavilion. For more information about job listings, internships, career planning, graduate school advising, and nationally competitive, merit-based awards, call 202-885-1804 or visit: www.american.edu/careercenter.

Career education is a lifelong process and the Career Center is the place to begin. The Career Center offers a sequence of services designed to accompany and enhance students' academic studies. These integrated, comprehensive career services are available for American University students and alumni.

Students are encouraged to use the Career Center's services to develop career awareness as early as possible. The center's advisors help students to obtain internship experience related to their academic and career goals. Advisors also provide students and alumni with career decision-making assistance, job-search coaching, graduate school advising, and the latest information on employment trends and instructional technologies. The Outreach and Marketing team helps to connect students with alumni and employers through networking events, job and internship fairs and listings, on-campus interviews, and employer presentations. Additionally, the Office of Merit Awards helps undergraduate and graduate students to identify, prepare, and apply for a variety of nationally competitive, merit-based scholarships and fellowships (primarily for use after graduation).

All Career Center services may be pursued concurrently with classroom learning throughout students' academic programs. The following is a summary of a career decision-making process for each year of academic study:

Freshman: Going through a process of self-assessment to identify interests, skills, and values using tools such as the MBTI and Strong Interest Inventory. Exploring academic majors and career options.

Sophomore: Declaring academic majors, exploring career options, preparing resumes and cover letters, gaining hands-on experience through internships, and exploring options for nationally competitive, merit-based scholarships.

Junior: Focusing on career fields and gaining experience in specific disciplines through internships. Practicing mock interviews and conducting informational interviews with alumni. Exploring graduate school and nationally competitive scholarship options.

Senior/Graduate Student: Determining and pursuing post-graduate goals of either an active job search or application for post-graduate study.

Career Center Services

Graduate School Advising: To help students explore and pursue graduate, law and medical school, our advisors guide students through individual appointments, specialized workshops, and mock interviews.

Career and Internship Advising: CAS, SIS, SOC, and SPA have designated advisors in the Career Center who counsel and coach students on career development, internship and job search preparation, and employment issues.

Career Resource Library and Computer Lab: Career exploration and job search assistance is provided through our collection of career directories, books, periodicals, and extensive web-based resources. Staff and peer advisors are available to help students navigate the library resources. One computer is equipped with software providing access for visually impaired students.

Online Tools: The Career Center website offers interactive tools and other resources for students such as resume building, video mock interviews, and crafting cover letters for internship and job searches. These tools help meet students' immediate needs and prepare them for individualized appointments with advisors.

Alumni Networking: Thousands of alumni are members of the American University Alumni group in LinkedIn and are also active in inCircle, AU's online community. Alumni are searchable by professional field, degree, employer, geographic location, and other criteria. Many are willing to provide information to students about careers. Alumni panels and networking receptions also take place regularly.

Job Search Support: Workshops and resources are offered on resume writing, effective interviewing skills, salary negotiation and more. These are designed to help students make a planned transition from college to work and to fully capitalize on internships and employment opportunities.

Self-Assessment Tools: The Myers-Briggs Type Indicator, Strong Interest Inventory™, and Self Directed Search are available to help students assess their career interests.

Special Events: Career Center staff host multiple events including job and internship fairs that bring employers to campus from a wide variety of organizations to meet with students. In addition, students have access to numerous networking receptions with alumni employers and multiple employer presentations throughout the academic year.

Off-Campus Federal Work Study: Students who have received Federal Work Study awards are encouraged to explore working off campus, tutoring through DC Reads or Jumpstart, or working with a nonprofit organization or government agency.

Employment Programs

Job Listings: Using the latest technology, the Career Center annually lists thousands of jobs and internships online for students and recent alumni via AU CareerWeb. This exceptional career management tool is used extensively by students, alumni and employers.

Recruiting Program: Students who maintain active profiles in AU CareerWeb may apply for a variety of internships and jobs, and ultimately interview with recruiters who visit campus each semester or who utilize our resume referral services.

Information Sessions: Employer presentations give students the opportunity to learn about numerous organizations, career fields, interview processes, and hiring trends within a variety of industries.

Job and Internship Fairs: Two fairs are held each year, one in the fall and one in the spring. Each typically attracts at least 120 employers from a wide range of fields.

Internships

In order to integrate the academic curriculum with professional experience, American University's academic internships enable students to earn credit for field experience related to their education and career goals. Students may choose to intern for credit but are not required to do so. Most internships for credit are part-time. Some positions are paid. Opportunities exist with private businesses; local, state, and federal governments; and nonprofit, social service, and international organizations.

Faculty from all university departments guide and evaluate students' experiential learning through academic internships. These experiences enable students to explore academic and career options, make career decisions, and prepare for entry into either an advanced degree program or the professional job market. Personal development, acquisition of independent learning

skills, and a balanced education are other significant benefits to students participating in internships.

Eligibility and Degree Credit for Academic Internships

Opportunities are open to qualified degree-seeking undergraduate and graduate students. Applicants must be in good academic standing and must obtain approval from appropriate academic advisors. Students must have completed at least the freshman year (30 credit hours), a full semester as transfer students (12 credit hours), or 9 credit hours as graduate students before they are eligible. Undergraduates must have a minimum G.P.A. of 2.00; graduate students must have a minimum G.P.A. of 3.00. Schools or departments may stipulate additional eligibility criteria.

There is no guarantee of selection, nor is a student obligated to accept offers of employment. However, once hired under the auspices of the university's internship program, a student is expected to complete all employment and academic obligations agreed to at the time of registration.

Working with a career advisor, qualified candidates apply directly to the employers. Students register for credit (with their academic advisor) once an employer selects them for a position.

Internship positions must be reviewed and approved for credit by department faculty. Hundreds of academic and non-academic internships are posted on the Career Center website each term, and students may propose internships of their own design. Internships must be a minimum of eight hours per week for up to two credit hours, 15 hours per week for three credit hours, and 20 hours per week for four to six credit hours. Students are required to demonstrate what they have learned through written journals, papers, reports, portfolios, conferences, or seminars. Specific requirements are set by internship faculty in their syllabi. All credit-bearing internships are for a minimum of 12 consecutive weeks per term, and should include no more than 15 percent of clerical work.

Students working full-time in credit-based experiences are considered full-time students by the university. Undergraduates enroll in xxx-391/491 Internship and graduate students in xxx-691 Internship.

International Internships

Credit-based internship opportunities are available abroad. Students should have a demonstrated knowledge of the language of the country in which they expect to work, and previous work experience. Several months' lead time is essential to work toward securing these jobs. Information is available from the international internship advisor in the Career Center or:

www.american.edu/careercenter

Office of Merit Awards

The Office of Merit Awards helps enrolled students prepare applications for highly competitive merit-based scholarships and fellowships, such as the Marshall Scholarship, which provides two years of study at a British university; the \$30,000 Harry S. Truman Scholarship; and the Fulbright Grant for a year of research and graduate study in a foreign country. In the past five years, American University has had six Truman Scholars (of 60 nationwide annually). In 2010-2011 there were nine undergraduate Boren scholars, among numerous other awardees. Awards exist for nearly every major and provide a wide range of opportunities. American University graduate and

undergraduate students have been awarded challenging internships, the chance to live, study, and conduct research or work abroad, and significant funds to attend graduate school.

Students work with merit awards advisors to identify appropriate awards and prepare competitive proposals. Appointments may be made by calling the Office of Merit Awards at 202-885-1854. Students should begin thinking about awards as early as their sophomore year and may be invited to participate in the Early Identification Program (EIP) if they have achieved a high degree of academic success during their freshman year.

For more information about the Office of Merit Awards visit www.american.edu/careercenter/meritawards/.

Academic Advising

Academic advising is an essential element of the educational process. American University requires advisor/student conferences at least once a semester, but students have the responsibility for selecting their courses, meeting course prerequisites, and adhering to university policies and procedures. The advisor assists the student in obtaining a well-balanced education and interprets university policies and procedures.

Students should be aware of the university's many advising resources and utilize these resources as needs arise. Students may consult faculty and peer advisors, department chairs, deans, and student support services throughout the university. The university has the responsibility to ensure that advising resources maintain high standards for serving students effectively and efficiently.

The university uses a degree audit system (DARS) to track undergraduate students' academic progress. The DARS report displays academic program requirements completed and to be fulfilled. Prior to an official declaration of major, the reports are based on requirements for the student's intended major. Students may request a copy of their degree audit report from their advisor or the Office of the Registrar, or on line from their myau.american.edu account.

Continuing Degree and Nondegree Student Registration

Note: International students in F 1 or J 1 student status are not eligible to enroll as nondegree students. International students in F 1 or J 1 student status should refer to specific instructions for international students.

Course Registration

Currently-enrolled students receive registration information through their American University e-mail account each fall (for spring registration) and spring (for fall and summer registration).

1. Check your AU e-mail account for information concerning registration.
2. Schedule an appointment with your academic advisor.

Nondegree students receive academic advising and registration assistance through the academic department in which they intend to study.

3. Before meeting with your academic advisor, prepare a draft course schedule. It is your responsibility to select a schedule of courses that is free of day/time conflicts. For updated schedule information check:

www.american.edu/provost/registrar/schedule/index.cfm

4. With your advisor, confirm or revise your semester course schedule. Your advisor will enter an electronic signature into the student registration system to document authorization of your registration. This approval must be in the system before you will be allowed to register for classes.

5. Be sure that you have met all the prerequisites and obtained all required approvals and authorizations for the courses for which you intend to register. You will only be permitted to register for courses for which you have met the prerequisite or received a waiver.

In addition to meeting course prerequisites, all students wishing to take courses in Applied Music (Department of Performing Arts), the Kogod School of Business, and the School of Communication must obtain approval from the department or school. Students must obtain all permissions or prerequisite waivers from the appropriate departments prior to registration.

6. Clear any outstanding financial or other stops before attempting to register.

7. Confirm the dates when you are eligible to register. Undergraduate students may register starting on the date corresponding to their completed credits.

8. Log onto myau.american.edu, go to "Course Registration," and follow the instructions for registration. Before processing your registration, you should verify that your chosen course sections are still open. To view the Schedule of Classes from myau.american.edu, click on Schedule of Classes: General from the Learn @ AU menu.

Admission to courses is subject to space availability and confirmation of eligibility. Your enrollment in courses will be confirmed immediately, but validation of registration is subject to settlement of your student account within the stipulated period for payment of tuition and fees. Failure to comply with payment schedules may result in cancellation of your registration and will necessitate reregistering for courses.

Note: students will not be allowed to re-enroll in course sections that have closed.

The following are not available for web registration: internship, cooperative education field experience, independent study or reading, community service learning projects, consortium, Washington Semester or AU Abroad programs, alumni audit, maintaining matriculation (graduate students), and any courses with a variable credit value.

Once registered, students can view their semester schedules at My Schedule (under "Academics"). To make registration changes (add/drop) within permitted time periods, go to "Course Registration" and follow the instructions to add or drop courses.

See **Changes in Registration** for more information on adding and dropping courses.

Special Departmental Requirements for Nondegree Students:

Departmental approval must be obtained for nondegree registration in courses at the 600 or 700 level.

School of International Service (SIS): Approval must be obtained for all courses at the 500, 600, or 700 level.

Kogod School of Business (KSB): Approval must be obtained for nondegree registration in all KSB courses. In addition, nondegree students must demonstrate that prerequisites have been met. If prerequisites have been completed at a college or university other than American University, students must provide copies of appropriate transcripts. Graduate students must have satisfactory GMAT scores, and a satisfactory grade point average in the last 60 hours of undergraduate work. Students must provide copies of all undergraduate and graduate transcripts and GMAT results.

School of Communication (SOC): Approval must be obtained for nondegree registration in all SOC courses.

First-Time Degree and Nondegree Student Registration

Note: All F-1 and J-1 international students who are enrolling at American University for the first time or for a new program are required to bring to International Student & Scholar Services (ISSS) their passport, I-94, and I-20, or DS-2019. Non-native speakers of English, regardless of citizenship, must take an English language proficiency test before they register. International students in F-1 or J-1 student status should refer to specific instructions for international students. International students in F-1 or J-1 student status are not eligible to enroll as nondegree students.

1. Schedule an appointment with your academic advisor.

New nondegree students must meet with an advisor in the school or department in which they intend to study.

2. With your advisor, select your semester course schedule. Your advisor will enter an electronic signature into the student registration system to document authorization of your registration. This approval must be in the system before you can be registered for classes.

For updated schedule information check:
www.american.edu/provost/registrar/schedule/index.cfm

Be sure that you have met all the prerequisites and obtained all required approvals and authorizations for the courses for which you intend to register. You will only be permitted to register for courses for which you have met the prerequisite or received a waiver.

In addition to meeting course prerequisites, all students wishing to take courses in Applied Music (Department of Performing Arts), Kogod School of Business, and School of Communication must obtain approval from the department or school. Students must obtain all permissions or prerequisite waivers from the appropriate departments prior to registration.

3. New students are eligible to register anytime after the beginning of General Registration for the semester. Initial registrations for all new students must be processed in consultation with an academic advisor.

Admission to courses is subject to space availability and confirmation of eligibility. Your enrollment in courses will be confirmed immediately, but validation of registration is subject to settlement of your student account within the stipulated period for payment of tuition and fees. Failure to comply with payment schedules may result in cancellation of registration and will necessitate reregistering for courses.

Note: students will not be allowed to re-enroll in course sections that have closed.

New undergraduates must contact their advisor to make any changes to their course registration prior to the first day of classes for the semester. New graduate students may add and drop courses online at any time after their initial registration by logging onto myau.american.edu.

See **Changes in Registration** for more information on adding and dropping courses.

Special Departmental Requirements for Nondegree Students:

Departmental approval must be obtained for nondegree registration in courses at the 600 or 700 level.

School of International Service (SIS): Approval must be obtained for all courses at the 500, 600, or 700 level.

Kogod School of Business (KSB): Approval must be obtained for nondegree registration in all KSB courses. In addition, nondegree students must demonstrate that prerequisites have been met. If prerequisites have been completed at a college or university other than American University, students must provide copies of appropriate transcripts. Graduate students must have satisfactory GMAT scores, and a satisfactory grade point average in the last 60 hours of undergraduate work. Students must provide copies of all undergraduate and graduate transcripts and GMAT results.

School of Communication (SOC): Approval must be obtained for nondegree registration in all SOC courses.

International Student Registration

In addition to the registration procedures for continuing or new degree students, the following steps must be taken by international students (students who are not U.S. citizens or permanent residents):

- All F-1 and J-1 international students who are enrolling at American University for the first time or for a new program are required to bring to International Student & Scholar Services (ISSS) their passport, I-94, and I-20, or DS-2019.
- International students are not required to obtain an international student advisor's signature to register unless they are registering for an internship or cooperative education field experience.
- International students in F-1 and J-1 status are required to register full-time (at least 12 credit hours for undergraduates and 9 credit hours for graduate students) for each semester. International students with F-1 or J-1 visas who intend to initially register for less than full-time credit hours should first consult with an international student advisor. International students who register for less than a full course load are required to obtain written permission from ISSS each term. Failure to do so may result in loss of status.
- Students in B-1/B-2 status are not eligible to register. For more information regarding this DHS regulation, please contact the International Student & Scholar Services office.
- Audit courses are not counted toward a full course of study for the purpose of maintaining an F-1 or J-1 status. Therefore, F-1 and J-1 students may audit courses only if they are registered full-time for courses taken for credit.

SEVIS: Student and Exchange Visitor System

Universities enrolling F-1 and J-1 students are required to report to the DHS any student who fails to maintain status or who completes his or her program. Each term and no later than 30 days after the deadline for registering for classes, universities are required to report the following registration information:

- 1) whether the student has enrolled, failed to enroll, or dropped below a full course of study without authorization by International Student & Scholar Services;
- 2) current address of each enrolled student;
- 3) graduation, termination date of study, or authorized employment.

Questions concerning DHS regulations should be directed to International Student & Scholar Services (ISSS), Butler Pavilion 410; telephone 202-885-3350; fax 202-885-3354. Regular office hours are Monday through Friday, 9:00 a.m. to 5:00 p.m.

Audit Registration

Note: International students in F-1 or J-1 visa status should not audit courses. Audit courses are not counted toward a full course of study for the purpose of maintaining an F-1 or J-1 status.

Students who attend a class but do not wish to receive a final grade or credit for the course must register as an auditor. Tuition and fees for auditors are the same as those for students register-

ing for credit. Changes to or from audit must be made before the last day to add a course. Audit registration is subject to the same regulations as credit registration. Faculty may establish standards of class participation and attendance for auditing that must be met if a student is to remain in audit status. To register as an auditor, choose "Audit" as the grade type when processing your registration.

Internship and Cooperative Education Registration

An internship or cooperative education field experience (co-op) is a combination of academic study and substantive work experience, approved by a supervising faculty member in advance. Registration for internships and federal co-ops is open to degree students in good academic standing. Academic departments may have additional requirements, but generally the prerequisite for registration at the undergraduate level is completion of 30 credit hours of course work (12 credit hours for transfer students) with a minimum grade point average of 2.0; at the graduate level, completion of 9 credit hours with a minimum grade point average of 3.0.

All students are encouraged to work with an advisor in the Career Center. For additional information about internships and Cooperative Education, call or visit the Career Center, Butler Pavilion 5th floor, 202-885-1804. Information is also available at: www.american.edu/careercenter.

Registration for internships or co-ops is during the registration period for the fall or spring semester or summer session. Students may add these courses until the end of the second week of classes in the spring semester or summer session and the third week of classes in the fall semester.

Students must have met all prerequisites, secured the work position, and confirmed their work schedule with their site supervisor prior to registration. The student and supervising faculty member must agree upon and document the credit value of the field experience, depending on the nature of the academic component and the number of hours required for the work component. The recommended standards for academic credit may vary but typically are: 8-10 hours per week for 1-2 credits; 15-16 hours per week for 3 credits; and 20-24 hours per week for 6 credits. Students work throughout the term (12 weeks or more).

Students must submit a completed and approved Internship/Cooperative Education Registration Form, along with the Internship Consent and Release Form to AU Central. Forms are available at: www.american.edu/provost/registrar/pdf/list.cfm.

Independent Reading and Study Registration

An independent reading course is defined as a course in which a student, by arrangement with an instructor, reads a body of material with a minimum of formal instruction. An independent study project is defined as a course in which a student does research on a topic agreed upon by the student and the instructor.

Enrollment for these courses is during the registration period for the fall or spring semester or summer session. Students may add these courses until the end of the fourth week of classes in the fall and spring semesters or the end of the second week of a summer session.

Before processing registration for these courses, the student and the supervising faculty member must agree upon and document the title, objective, scope, and credit value (1-6) of the project to be pursued. The department chair or program director must approve the project and faculty member's involvement. In particular, he or she must attest that the project does not duplicate a course already offered in the semester's schedule which would be available to the student.

Students must submit a completed and approved Independent Study Registration Form to AU Central. Forms are available at: www.american.edu/provost/registrar/pdf/list.cfm.

Community Service Learning Projects

Undergraduate students may have the opportunity to earn credit for community service performed in conjunction with courses in which they are enrolled. In addition to at least 40 hours of approved field work, community service learning projects require an academic component related to the course with which the service project is associated. Students earn one credit for each community service learning project they successfully complete, with a maximum of three credits applied to graduation. Only the pass/fail grading option is available. Permission of the instructor of the course is required. The Office of Campus Life certifies community service organizations and provides orientation sessions for students. For more information on registration for Community Service Learning Projects, go to www.american.edu/ocl/volunteer.

Consortium Registration

The Consortium of Universities of the Washington Metropolitan Area combines the resources of area universities and colleges. In cooperation with the Catholic University of America, Corcoran College of Art + Design, Gallaudet University, George Mason University, The George Washington University, Georgetown University, Howard University, Marymount University, Trinity Washington University, the University of the District of Columbia, and the University of Maryland-College Park, American University offers qualified degree students the opportunity to enroll for courses at any of these institutions.

With the appropriate approvals, undergraduate and graduate degree students may take courses for AU residence credit at member institutions of the Consortium of Universities of the Washington Metropolitan Area, provided the course is not offered at American University. Off-campus courses, courses in law and medicine, independent study and reading courses, special institutes, and noncredit courses (except ROTC at Georgetown and Howard) are excluded from the consortium.

To be eligible for this program, students must be fully admitted degree students who are actively enrolled and in good aca-

ademic standing. Course registration must be approved by the American University dean or department chair of the field of study for which registration is requested and by the Office of the Registrar. Students are responsible for securing approval at the cooperating institution when requested.

American University students pay the American University tuition rate. Students registering for consortium courses at all universities will be billed for any special fees (such as lab fees) for the course. Consortium registration can be confirmed only after classes begin at the visited school.

For course selection eligibility and registration, contact the Consortium Coordinator for Student Record Services in the Office of the Registrar at 202-885-2208. Information on the Consortium is also available at www.consortium.org.

Maintaining Matriculation

Graduate students whose degree requirements are not completed and who have not been granted a leave of absence must register each fall and spring semester during regular registration periods for courses, for thesis or dissertation seminars, or for maintaining matriculation. Those who do not will be considered as having withdrawn. Such students may then reapply and, if readmitted, are governed by requirements and regulations in effect at the time of readmission.

During a semester when a student is not enrolled in credit course work but is utilizing the services of the university (e.g., to prepare for comprehensive examinations or complete research for the thesis or dissertation), the student maintains enrolled status by registering for maintaining matriculation, the equivalent of one graduate-level credit hour. Schools and departments may establish specific requirements as to when and for how many semesters students may be in maintaining matriculation status.

Students who change degree objective, college, or school, whose candidacy for an advanced degree expires, or who choose to conform to new regulations or requirements must be prepared to complete all requirements and abide by all regulations in effect at the time such a change is made.

Alumni Audit Registration

Graduates of American University in good financial standing with the university may enroll in one course each fall, spring, and summer semester as alumni auditors. No credit is given for courses taken through this program, and courses will not appear on student transcripts. Alumni who wish to receive credit for courses must register as nondegree students and pay tuition at the prevailing rate. Alumni who are also currently enrolled in a degree program at AU may participate in the alumni audit option, except in courses for their degree program. Alumni auditors are expected to follow all university conduct policies.

Alumni audit registration is available during the first two weeks of classes for the fall and spring semesters and only for courses which have not reached their enrollment limits.

In-person registration is available at the Alumni Programs office, 4200 Wisconsin Avenue, NW, 5th floor. Registrations may

42 Registration

also be mailed to Alumni Programs, American University, 4400 Massachusetts Ave. NW, Washington, DC 20016, or faxed to 202-885-5964. When faxing registration forms, please call 202-885-5960 to verify receipt of the fax.

The Alumni Audit fee is \$100, which supports the Alumni Scholarship Fund and administrative costs. Some courses may also have additional fees. Payment will be accepted by check, money order, VISA, MasterCard, Discover, and American Express only (no cash).

Courses not available for Alumni Audit include independent study or reading, private music instruction, laboratory courses, and maintaining matriculation.

The following schools and departments require faculty or departmental approval. If approval is required, the instructor or department must sign the authorization section of the registration form before the student may register as an alumni auditor.

- School of International Service (SIS), School of Communication (SOC), and School of Public Affairs (SPA): all courses
- College of Arts and Sciences (CAS): Anthropology (graduate-level courses), Art, Audio Technology, Health and Fitness, History (graduate-level courses), Language and Foreign Studies, Literature (400-level and graduate-level courses), Psychology, and Sociology.

For additional information, call 202-885-5960 or go to www.american.edu/alumni.

For availability of courses, check the Schedule of Classes at www.american.edu/provost/registrar/schedule/index.cfm.

Changes in Registration

To make changes in registration online, log on to myau.american.edu and go to ADD/DROP COURSE.

Adding Courses

Students may add a course through the second week of classes for the fall or spring, or the equivalent for a summer session.

In addition to any course prerequisites and required authorizations, approvals are required for the following:

- Students adding business courses must obtain approval from the Kogod School Undergraduate or Graduate Program Office.
- Students adding communication courses must have approval from the School of Communication.
- Cooperative Education students must have worked directly with the Career Center and have signed approval.

Dropping Courses

Students may drop a course through the semester midterm date for the fall or spring, or the equivalent for a summer session. When a student withdraws from a course during the first two weeks of a semester (or the equivalent for summer), the course will not appear on the transcript; withdrawal thereafter is noted with a "W" in place of a grade.

Note: Discontinuing attendance in class or notifying an instructor of a status change does not constitute an official action.

Approvals are required for the following:

- Withdrawal from courses used to satisfy the University Mathematics Requirement requires the approval of an academic advisor based on the placement recommendations made by the Department of Mathematics and Statistics.
- International students with F-1 or J-1 visas should consult first with an international student advisor in International Student & Scholar Services regarding how to maintain their status.
- Athletes must not drop below 12 credit hours without authorization of the director of athletics.
- Kogod students dropping business courses must obtain approval from the Kogod School Undergraduate or Graduate Program Office.
- Cooperative Education students must have prior approval from the Career Center.

Grade Type Option

Students may change grade type options (A-F or Pass/Fail) on the web through the second week of classes for the fall or spring, or the equivalent for a summer session.

Note: Changing grade type is not permitted for courses that require a specific grade type, such as Pass/Fail only.

Withdrawal from the University

Degree students who withdraw completely from the university must file an official Withdrawal Request Form in consultation with their academic advisor. Students on academic probation will be required to obtain the signature of their academic dean before they will be permitted to withdraw.

Course and Schedule Information

Course Numbers

Each course is designated by a subject code and a course number. The subject code identifies a particular academic discipline or teaching unit in the curriculum; e.g. ANTH = Anthropology; ECON = Economics; ARTH = Art History. The numbers identify the level of the course as follows: 001–099 = no degree credit; 100–499 = undergraduate degree credit; 500–599 = graduate courses to which advanced undergraduate students may be admitted; 600–799 = graduate courses to which undergraduate students usually are not admitted.

Credit Hour Value

All undergraduate and graduate courses are valued in credit hours. Generally, each credit hour is equal to 50 minutes of class instruction a week.

Course Descriptions and Syllabuses

Descriptions of permanent courses currently in the university curriculum are listed by course number in **Course Descriptions**. Catalog course descriptions, as well as selected and rotating topics course descriptions are available each semester from the Schedule of Classes at

www.american.edu/provost/registrar/schedule/index.cfm

A syllabus describing the general nature and scope of each course is available from the department offering the course for three years.

Course Prerequisites

Many courses call for a minimum background of knowledge, as indicated by prerequisite courses cited in individual descriptions. Titles and numbers are those of American University courses; equivalent courses satisfactorily completed at other accredited institutions also meet prerequisite requirements by transfer credit.

Students are responsible for entering the class with the required competence. Thus, prerequisites warn students of the knowledge they are to bring with them in order to meet the expected standards of performance.

Class Periods

Day classes, except those on Wednesday and Saturday, ordinarily meet two days a week for 75 minutes a meeting. Wednesday classes ordinarily meet once a week for two hours and 30 minutes. Some classes meet three times a week for 50 or 60 minutes a meeting. Evening classes ordinarily meet once a week for two hours and 30 minutes or twice a week for 75 minutes a meeting. Classes at the 600- and 700-level may, in some cases, meet for a total of two hours a week at the discretion of the teaching unit concerned.

Courses involving laboratory, studio, discussion groups, or workshops may vary from these schedules. Independent reading courses, study projects, internships, and similar kinds of study opportunities meet according to the special arrangement with the school, department, or faculty members concerned.

Cancellation of Courses

Occasionally it is necessary to cancel a scheduled course because of low enrollment, the last-minute unavailability of an instructor, or other unavoidable reasons. Every effort is made to announce the cancellation before the first class meeting, but this is not always possible. If a course is canceled, a student who does not choose to transfer to another course may receive a full refund of the tuition and fees paid for the canceled course by completing a refund request form in the Office of Student Accounts.

Class Attendance

The university considers class attendance a matter best left to the discretion of the individual instructor. It is expected, however, that faculty members who have a particular attendance policy will announce that policy at the first few class meetings each semester.

Veterans and others receiving government benefits are reminded that the paying agency may have specific attendance policies.

Emergency Cancellation of Classes

Classes at American University are expected to meet according to the announced schedule and no instructor is authorized to change the day, hour, or place of any meeting. Unless cancellation of classes is announced publicly, classes will meet. When cancellation of classes is necessary, instructors are expected to arrange for additional reading, study assignments, or class meetings to compensate for attendance time lost.

Student Responsibility

Students are responsible for their behavior, academic and otherwise, at American University. American University expects that students, as mature members of the academic community, will adhere to the highest standards of personal and academic integrity and good taste.

To protect their academic status, students should seek the appropriate approval of their academic program advisors. It is highly recommended that students keep their own records of all transactions with the university (grade reports, registration schedules and changes, incomplete forms, etc.).

It is also advisable to keep copies of all tests and papers submitted in fulfillment of course work.

Academic Regulations

- **Academic Integrity Code**
- **Student Academic Grievance Policy**

As part of providing a high-quality education, the university continuously examines its academic requirements. As a result, the information contained in this and other sections of this publication may be revised. Students should consult their deans or department chairs for any new requirements that may affect their individual programs of study.

Academic Integrity Code

Academic integrity stands at the heart of intellectual life. The academic community is bound by a fundamental trust that professors and students alike undertake and present their work honestly. As a community of the mind, we respect the work of others, paying our intellectual debts as we craft our own work.

The Academic Integrity Code ("Code") for American University defines honorable conduct, outlines attendant rights and responsibilities, and describes procedures for handling allegations of academic misconduct. Violating standards of academic conduct is a serious matter subject to discipline. Most charges of Code violations are brought by the university faculty to the Academic Integrity Code Administrator of the major teaching unit (School or College) in which the course is taught.

Violations adjudicated under the Code include the following: plagiarism; inappropriate collaboration; dishonesty in examinations (in-class or take-home); dishonesty in papers; work done for one course and submitted to another; fabrication of data; interference with other students' or scholars' work; bribes, favors, and threats; and other academic misconduct. Violations of the Code will be treated seriously, with special attention to repeat offenders. Sanctions for Code violations may include failure for the course, a notation on the student's permanent record, suspension and dismissal, as well as other lesser sanctions. Freshman Forgiveness does not apply to Code violations.

By enrolling at American University and then each semester when registering for classes, students acknowledge their commitment to the Code. As members of the academic community, students must become familiar with their rights and their responsibilities. In each course, they are responsible for knowing the requirements and restrictions regarding research and writing, examinations of whatever kind, collaborative work, the use of study aids, the appropriateness of assistance, and other issues. Students are responsible for learning the conventions of documentation and acknowledgment of sources. American University

expects students to complete all examinations, tests, papers, creative projects, and assignments of any kind according to the highest ethical standards, as set forth either explicitly or implicitly in this Code or by the direction of instructors.

The Academic Integrity Code is incorporated in the university's Academic Regulations and may be found at:
www.american.edu/provost/registrar/regulations/reg80.cfm

Student Academic Grievance Policy

In the course of academic life, a student may come into disagreement with a faculty member or with the policies and actions of an academic unit as they affect the student's progress toward completion of a course or degree. In cases of complaint or disagreement over academic matters not resolved by consultation among the parties, the university provides the student the right to initiate a grievance procedure.

Students should have protection through orderly procedures against prejudiced or capricious academic evaluation. At the same time, they are responsible for maintaining standards of academic performance established for each course in which they are enrolled. Evaluation of students and the awarding of credit must be based on academic performance professionally judged and not on matters irrelevant to that performance, such as personality, physical disability, age, race, gender, sexual orientation, religion, national origin, degree of political activism, or personal beliefs.

Judgement regarding standards of evaluation for a student's academic performance is a faculty responsibility and is not grievable. Normally, only questions relating to whether a faculty member complied with the stated requirements of the course and applied standards of evaluation fairly and equitably are potentially grievable. Cases involving complaints about grades will be considered only when there is clear evidence that casts significant doubt on the objectivity of the grading process or indicates that the faculty member failed to comply with the stated requirements of the course.

The university's policy and procedures for consultation and informal resolution, formal process, and appeal for student academic grievances may be found in Academic Regulation 50.00.02 at
www.american.edu/provost/registrar/regulations/reg50.cfm

Academic Regulations

Student Records

A file is maintained for each student who registers at American University. Degree students' records begin in the Admissions Office, which assembles the application and supporting documents and the record of admission actions. After an applicant is approved for admission and registers, the academic history is maintained by the Office of the University Registrar. Normally the only record maintained for nondegree students who are citizens of the United States are the record of their registration(s) and their academic performance. A full record is kept for each international nondegree student.

The purpose of the official student record is to document the student's academic career and to provide a repository of information which can be useful to advisors. All relevant materials are maintained until the student has received the degree or has left the university. Periodically, the basic materials in files are microfilmed and only the microfilmed copy and the electronic permanent record, on which the summary of the total record is entered, are retained.

Information needed for the continuing evaluation of the progress of a student, grades earned, and the like are made available to the dean by the University Registrar. The various colleges, schools, and departments also develop files to aid in the counseling and appraisal of their own students. Such files are not, however, to be considered official. Important decisions relating to a student's academic career should always be based on the information maintained by the Office of the University Registrar.

The alteration or misuse of official student records, or attempt to alter or misuse them, under any circumstances or for any purpose, will result in the peremptory dismissal of any student or employee of the university involved and the institution of such legal proceedings as may be appropriate.

Confidentiality of Student Records

The university's policy and procedures for confidentiality of student records may be found in Academic Regulation 90.10.00 at www.american.edu/provost/registrar/regulations/reg90.cfm.

The following explains the university's policy for complying with the Family Educational Rights and Privacy Act of 1974 ("FERPA" or "Act"). Students at American University have the following rights regarding their education records: 1) to have access to their education records, 2) to consent to release a record to a third party, 3) to request nondisclosure of directory information, 4) to seek amendment of information in an education record which the student demonstrates is inaccurate, 5) to be notified of their privacy rights, and 6) to file complaints with the Family Policy Compliance Office of the U.S. Department of Education concerning alleged failures by American University to comply with the Act.

For purposes of this policy, the term "student" means any individual who is attending or has attended American University and for whom the university maintains education records. The term "education records" or "student education records" means, with certain exceptions, any records 1) that are directly related to a student and 2) maintained by the university or its agents. Student education records are confidential and may only be released with consent of the student or as otherwise permitted by law.

The university does not maintain education records in one central office. Education records are maintained in the various departments, schools, or colleges. A student should contact the Office of the University Registrar, or, for law students, the Washington College of Law (WCL) Registrar, for guidance in determining which unit(s) a student should contact about an education record.

Examples of academic and non-academic student education records include without limitation:

- **Academic Records:** Permanent record of academic performance (e.g., transcript, including supporting documents) maintained by the Office of the University Registrar, the WCL Registrar, academic advisor, dean's office, and Provost's Office; files of academic progress maintained by the individual school/college academic office and Provost's Office; admission files of students; Career Center files.
- **Non-Academic Records:** Files related to Financial Aid, Housing and Dining Programs, International Student and Scholar Services, Student Accounts, and the Library;

student discipline files; employment files of students who are employed because of their student status (e.g. work-study, graduate assistantship/fellowship).

Only information directly relevant to the educational processes of the university or which is voluntarily offered by the student and accepted from the student shall be included in student education records.

Specifically excluded from such student education records are:

- Medical and mental health information which is created, maintained, or used by a physician, psychiatrist, psychologist, or other recognized professional in connection with treatment of the student and disclosed only to individuals providing the treatment. Such records are strictly confidential and not accessible except as provided by applicable laws;
- Sole possession records or private notes maintained by individual faculty and instructional, supervisory, or administrative personnel for their own use and which are not accessible or released to anyone except a substitute;
- Records created and maintained by Public Safety solely for law enforcement purposes;
- Employment records of students which are made and maintained in the normal course of business, relate exclusively to their employment, and are not available for use for any other purpose;
- Alumni records which contain only information about former students after they are no longer students at the university.

Student Access to Student Education Records

Each student may inspect his or her education record, subject to reasonable time, place, and manner restrictions. A student must submit a written request to review an education record. The request will be granted as soon as possible, but no later than forty-five (45) days from the date of the receipt of the request. At the time of inspection, the student must present identification and must inspect the records in the presence of a designated university official. In lieu of inspection and at the request of the student, the university may provide a copy of the requested education record. The student may be charged for the actual costs of copying the records. The university reserves the right to deny requests for copies of records if there is an administrative restriction on the individual's student account (e.g. financial obligation, disciplinary stop).

Student may not access the following education records:

- Financial information submitted by parents;
- Confidential letters of recommendation for which a student has waived the right of access provided that the recommendations are used only for their intended purpose (i.e. admission, employment, or consideration for any honor). However, the student may know the names of all people making recommendations; and

- Confidential letters of recommendation placed in a record before January 1, 1975, if the letters were used only for the intended purpose.

Disclosures of Student Education Records

At its discretion, the university may release directory information unless the student has filed a request for nondisclosure of directory information with the Office of the University Registrar or, for law students, the WCL Registrar. Prior to releasing directory information, the university official processing the request must contact the Office of the University Registrar to ensure that the student has not requested nondisclosure of directory information. Directory information includes a student's name, telephone numbers, addresses, e-mail addresses, month and day of birth, dates of attendance at the university, major field of study and class, date of graduation, degrees and honors received at the university, participation in officially recognized university activities, height and weight of members of athletic teams, photographs and similar information.

At its discretion, the university may release directory information for persons requesting such information. In the event that the individual seeking verification provides incorrect or incomplete information, discretion will be exercised in the disclosure of this information. The university, in connection with specific events such as commencements, dean's list announcements, scholarship presentations, athletic contests, or other university-related news stories, may release directory information to the news media or the public. The university may release directory information for law enforcement purposes, and will release directory information as required by law.

Students who object to the disclosure of directory information must notify in writing the Office of the University Registrar or, for law students, the WCL Registrar. Forms for this purpose are available from the Office of the University Registrar or the WCL Registrar and should be filed within thirty (30) days following the first day of classes each fall and spring semester. The request for nondisclosure may be rescinded by written notification to the Office of the University Registrar or the WCL Registrar. In addition, the Registrar will notify students at the beginning of each fall and spring semester about the option to request nondisclosure of their directory information.

University officials are determined to have legitimate educational interest if the information requested is necessary for that official to perform a task that is related to their normally assigned job functions or related to their performance of a contract with the university. A "university official" includes faculty, staff, a member of the board of trustees, third-parties acting on behalf of the university, and individuals, including students, serving on university committees. The determination as to whether a legitimate educational interest exists will be made by the custodian of the records on a case-by-case basis.

Third-Party Access to Education Records

The university may disclose student education records with the prior written consent of the student. A student may authorize access to third parties to review the student's education record by completing a written and dated authorization form which specifies the information to be released, the reasons for the release, and to whom the information is to be released.

The university may disclose information in the following circumstances without the prior written consent of the student:

- To comply with a judicial order or lawfully issued subpoena. Unless otherwise directed by the order or subpoena, the university will make a reasonable effort to notify the student in writing of the order or subpoena in advance of compliance;
- To the parents of a dependent student, as defined in the Internal Revenue Code. The parent must sign, and provide to the university, a written statement confirming that the student is a dependent; the statement must be accompanied by a copy of the parent's most current tax return which reports the student as a dependent;
- To persons or organizations providing the student financial aid, or who determine financial decisions concerning eligibility, amount, conditions, and enforcement or terms of the financial aid;
- To organizations conducting studies for educational agencies to 1) develop, validate, or administer predictive tests, 2) administer student aid programs; or 3) improve instruction. Disclosure under this paragraph shall only be made if the study is conducted in a manner that does not permit personal identification of students by individuals other than representatives of the organization and that personally identifiable data will be destroyed when no longer needed for the purpose for which it was collected;
- To authorized representatives of the Comptroller General of the United States; Secretary of Education; or state and local educational authorities to audit or evaluate a federal or state supported education programs, or for the enforcement of or compliance with legal requirements of those programs. Disclosure under this paragraph shall only be made if information is protected in a manner that does not permit personal identification of students by individuals other than the specified officials and that personally identifiable data will be destroyed when no longer needed for the purpose for which it is collected.
- To accrediting organizations for purposes related to accreditation of the university;
- To appropriate parties in a health or safety emergency;
- To victims of crimes of violence or non-forcible sex offenses concerning the results of disciplinary proceedings about those incidents;
- To appropriate parties as permitted by the university's Parental Notification of Disciplinary Violations Involving the Use or Possession of Alcohol or a Controlled Substance; and

- To appropriate parties in other circumstances as required by law.

Education records will only be disclosed to third parties if they are advised not to redisclose the information to others without the prior written consent of the student or as permitted by law.

Each university office must maintain a list of all individuals or organizations who have obtained access to a student's record. The list must indicate the legitimate interest that each person or organization has in obtaining the information. This "record of access" is part of the student's education record. A record of access is not necessary for disclosures: 1) to the student, 2) pursuant to a written authorization from a student, 3) to university officials, 4) of directory information, and 5) in response to a subpoena or court order specifying that the existence and/or contents of such documents may not be revealed.

Student's Right to Challenge Information in the Student Education Record

If a student demonstrates that the student's education record is inaccurate, misleading or otherwise in violation of the student's privacy rights, the student may request in writing that the record be changed. The request should be made directly to the custodian of the record. Any disagreement should be resolved informally, if possible and within a reasonable time period. If the request is denied, the student may file a written appeal within 30 days to the University Registrar or, for law students, the WCL Registrar. The Registrar will appoint a hearing committee to review the complaint. The committee will provide the student a full and fair opportunity to present evidence. The student may be assisted or represented by one or more individuals of the student's choice, including an attorney. After the committee completes the proceeding and makes findings, it will render a written decision and forward it to the relevant parties for implementation.

Students, dissatisfied with the results of a hearing, may place an explanatory statement in the relevant education record commenting upon the information in dispute, and/or setting forth any reason for disagreement with the institutional decision not to correct or amend the record. Such a statement will become part of the student education record.

Inactivity of Student Education Records

After five years since the student has graduated or was last registered at the university, the university generally destroys student education records. Exceptions include but are not limited to the following: permanent records of academic performance, including supporting documents; such financial records as are necessary so long as there exists a financial obligation to the university; and disciplinary records that involve a permanent notation to the student's record.

Transcripts

Students may obtain transcripts of their academic records from the Office of the Registrar. Transcripts will be released only on the signed request or release of the student concerned.

The university will not issue a transcript that reflects only a part of the student's record, nor will it make copies of transcripts on file from other colleges and universities.

Certification of Enrollment

AU Central supplies, on request of a currently enrolled student, certification of certain academic data concerning the records and status of the student. These certifications are used for Department of Education and scholarship forms, employment applications, and so forth. They are not to be confused with transcripts of the student's permanent academic record.

Grading System

Calculated in the Grade Point Average:

Grade	Quality Points
A (Excellent)	4.0
A-	3.7
B+	3.3
B (Good)	3.0
B-	2.7
C+	2.3
C (Satisfactory)	2.0
C-	1.7
D (Poor)	1.0
F (Fail)0
X (administrative penalty)*0

*The X grade is assigned by the instructor in lieu of an F when a student never attended or ceased attending the class, rendering an assessment of academic performance impossible.

Not Calculated in the Grade Point Average:

I	incomplete
IP	in progress (for a course for which a grade is not necessarily due at the end of the semester, e.g. independent study)
L	auditor (no credit)
N	no grade reported by instructor or invalid grade
P	pass
W	withdrawal
ZF	fail on pass/fail option
ZL	administrative withdrawal from audit
ZX	fail (administrative penalty) on pass/fail option

Grade Point Average

The cumulative grade point average includes only those courses taken for conventional grades (A through F). Courses below the 100-level or taken pass/fail are not included in the grade point average, nor are grades of Incomplete (I). See also **Repetition of Courses**, below.

Credit accepted for transfer from another institution is included in the total amount of credit applicable to degree requirements, but grades earned in such courses are not recorded on the

permanent record at American University and are not used in computing the cumulative grade point average needed for graduation.

Pass/Fail

For undergraduate students, the grade of P indicates a quality of performance no less than C (2.00) on a conventional grading scale. For graduate students, the grade of P indicates performance equivalent to a B (3.00) or better on a conventional grading scale. Performance below these levels is reported as ZF.

Neither the P grade nor the ZF or ZX grade is calculated in the grade point average. Degree credit, however, is received with the grade of P.

Incomplete Grades

At the discretion of the faculty member, the grade of I (Incomplete) may be given to a student who, because of extenuating circumstances, is unable to complete the course during a semester. The grade of Incomplete may be given only if the student is receiving a passing grade for the course work completed. Arrangements for a grade of Incomplete must be made in advance of the final examination. An Incomplete Contract form detailing what work is to be submitted, the deadlines for such submission, and a grade to be substituted for the I should submission deadlines not be met is signed by both the student and the faculty member. The submission deadline should not extend beyond the last day of the following semester (not counting summer).

No grade of I will be recognized by the Office of the Registrar without the proper documentation. On completion of the requirements of the course within the time specified in the electronic submission of the Incomplete, the grade of I must be resolved to a grade of A through F, P, or ZF. Unless resolved by the faculty member to one of these grades, the default grade specified in the electronic submission of the Incomplete will be inserted as a final grade in place of the I by the Office of the Registrar. A W may not be given to remove a grade of I. An I may not stand as a permanent grade.

Changes in Grades

Once reported, a grade may not be changed except to remove a grade of I (Incomplete) as stated above, or to correct a grade recorded in error. To remove a grade recorded incorrectly, the faculty member must certify in writing to the Office of the Registrar that an error was made.

Repetition of Courses

Whenever a course is repeated, each attempt, including the final grade, is entered separately on the permanent academic record. Unless specifically indicated to the contrary, however, only one successful attempt of a course is counted toward fulfillment of graduation credit requirements. With the exception of the Freshman Forgiveness rule (see the Undergraduate Study chapter in this publication), the grades received in all attempts are considered in the computation of the undergraduate cumulative grade point average.

Graduation

Candidates for degrees submit an Application for Graduation form to AU Central during the registration period for their last expected term of study. Application forms are available at: myau.american.edu.

Only after application for graduation has been made can the Office of the Registrar begin processing the necessary information for final certification of graduation. Students who fail to complete all degree requirements by the end of the term for which they applied to graduate must reapply in order to graduate later.

Conferral of Degrees and Commencement

The university confers degrees and issues diplomas at the end of the fall, spring, and summer terms. Formal commencement ceremonies are held in May.

Only students who successfully complete degree requirements by the end of the term for which they have applied (or re-applied) to graduate are certified for conferral of a degree. In witness of the degree conferred, the permanent records of the graduates are appropriately noted with a statement of graduation and their diplomas are released.

Candidates for degrees whose academic records indicate that they can satisfy degree requirements by the end of the term for which they have applied are permitted to participate in commencement ceremonies. Participation in a commencement ceremony does not itself constitute conferral of a degree, nor does it imply an obligation on the part of the university to award a degree before all requirements have been met and certified.

Academic Regulations

- **Graduate Academic Standards and Degree Requirements**

It is university policy that no student shall be involuntarily subjected to regulations and academic requirements introduced during the student's continuous enrollment in good standing in a single degree program if the new regulations involve undue hardships or loss of academic credits earned to satisfy the requirements previously in effect.

Graduate students are governed by the following minimum requirements for the graduate degree. Each teaching unit may have further requirements. Graduate students are advised to consult their own advisor, department chair, or dean for detailed information.

Academic Load and Full-Time Status

The normal load of full-time graduate study is 9 to 12 credit hours a semester; however, an academic unit may declare circumstances under which full-time involvement in thesis or dissertation research constitutes full-time standing.

In summer sessions, because of the combination of six-week and seven-week sessions, there are various possibilities for full-time standing. Usually, registration for 6 credit hours during any session is considered full-time.

Academic Probation and Dismissal

A graduate student who fails to maintain a 3.00 grade point average (on a 4.00 scale) after completion of the first 12 credit hours of graduate study may be placed on academic probation for one semester, after which the student must achieve and maintain a 3.00 average or be dismissed. A graduate student may be placed on academic probation only once. It should be noted that the grade point average is only one measure of academic performance. Maintenance of the required average does not necessarily imply that a student is making satisfactory progress, and the university reserves the right to dismiss a student whose performance is judged unsatisfactory even though the student has maintained the required grade point average. A student who is dismissed may not be readmitted to the university or enroll as a nondegree student for a full year after the effective date of the dismissal.

Advancement to Candidacy

Each academic unit may at its discretion require a formal advancement to candidacy and determine the nature of the advancement procedure it will use.

Credit Hour and Residence Requirements

Master's Degrees

At least 30 credit hours of graduate work including (a) no less than 3 and no more than 6 credit hours of research resulting in a thesis (thesis option) or (b) 6 credit hours of graduate work with grades of B or better involving a case study, an in-service project, an original creative work, specified research courses, or such other effort as the academic unit may designate (nonthesis option).

At least 24 of these hours, including the thesis or nonthesis option, must be completed in residence at American University. Up to 12 credit hours taken in nondegree status at American University may be counted toward the degree, or up to 21 credit hours if earned in a completed graduate certificate program.

Graduate students may count a maximum of 6 credit hours of internship and cooperative education field experience toward their degree requirements. The field experience credit hours that may be counted toward the requirements for a degree program may be fewer, as determined by the academic department, but may not exceed the maximum of 6 credit hours.

Graduate students may take graduate-level courses that meet with undergraduate-level courses. However, no more than 50 percent of course work taken in residence (not counting thesis or dissertation seminars without regular meetings) may be taken in joint graduate-undergraduate courses.

Doctoral Degrees

For students admitted to graduate work at American University without a previously earned master's degree, the requirement is 72 credit hours of graduate study including no fewer than 6 and no more than 24 hours of directed study on the dissertation. At least 42 of these hours, including the research requirement, must be completed in residence at American University. Up to 12 credit hours taken in nondegree status at American University may be counted toward the degree, or up to 21 hours if earned in a completed certificate program. Course credit earned toward a master's degree at American University may, if relevant, be counted toward the Ph.D. degree.

For students admitted with a master's degree earned previously, the requirement is at least 42 credit hours of additional graduate work, of which 36 hours, including the research re-

quirement, must be completed in residence at American University.

Graduate students may count a maximum of 6 credit hours of internship and cooperative education field experience toward their degree requirements. The field experience credit hours that may be counted toward the requirements for a degree program may be fewer, as determined by the academic department, but may not exceed the maximum of 6 credit hours.

Graduate students may take graduate-level courses that meet with undergraduate-level courses. However, no more than 50 percent of course work taken in residence (not counting thesis or dissertation seminars without regular meetings) may be taken in joint graduate-undergraduate courses.

All But Dissertation Master's

Students who enter a doctoral program without a master's degree may be awarded the appropriate master's degree by American University in the field in which their doctoral work is being done when they have completed all requirements for the doctorate except the dissertation.

Combined Bachelor's and Master's Degrees

American University offers students the opportunity to earn both undergraduate and graduate degrees through its accelerated bachelor's/master's programs. Students can choose from a wide variety of established bachelor's/master's programs, or they can create bachelor's/master's programs with the approval of the academic department supervising the graduate-level work. Students may complete graduate degrees in disciplines different than their undergraduate degrees, provided they are admitted to the master's program by the supervising department and they have completed the prerequisites required for the graduate program.

A student admitted to a combined bachelor's/master's program (involving tentative admission to graduate standing, so that both a bachelor's and master's degree may be earned as the result of a planned program of study) must follow a prescribed program of work, and the student's record must show which courses will be applied toward the undergraduate degree and which courses will be applied toward the master's degree.

Once admitted to a combined bachelor's/master's program, a student may not be denied entry into that master's program if that student completes the bachelor's program in good standing and meets university and teaching unit minimum standards for admission to the master's program involved.

Students will be admitted to the combined program at two levels, once for the undergraduate degree and once for the graduate degree. Each school sets its own admission standards and procedures. Tuition and fees will be paid on the basis of the level at which the student is currently registered. When the student has completed the requirements for a bachelor's degree and has been admitted to the graduate portion of the program, tuition and fees will be charged at the graduate rate.

The undergraduate student may complete up to 3 credits for every 9 credits required for the graduate degree that may be applied to the requirements for both degree programs. For example, a student may share up to 9 credits for a 30-hour master's degree and up to 12 credits for a 36-hour master's degree. Charges will be at the undergraduate rate. The department that oversees the graduate program the student enters will determine if the courses the undergraduate student completes will satisfy master's degree requirements. Departments are not required to accept courses that the student completes while he or she is an undergraduate.

In addition to these shared credits, undergraduate students in a bachelor's/master's program may be able to reserve a particular course so that it counts only toward the master's degree requirements. This reserved course work will not count toward the bachelor's degree. Any reserved courses do not affect the student's undergraduate G.P.A., nor do the credits count toward a student's full-time enrollment status in a given term. The student's official university transcript will note which courses are reserved for graduate credit only.

Students are required to complete the graduation application and clearance process once for the bachelor's degree and once for the master's degree.

Bachelor's/master's students must complete at least 18 in-residence credit hours at the graduate level after the bachelor's degree is earned. This represents a reduction from the established requirement of 24 credit hours of in-residence credit for master's students. Bachelor's/master's students must maintain continuous, sequential enrollment in the two programs. Students must finish the master's degree requirements within three years from the date of first enrollment in the master's program.

Examinations

Master's Degrees

At least one comprehensive examination, the nature and scope of which are determined by the academic unit, is required.

An oral examination on the thesis may be required by the academic unit.

Doctoral Degrees

At least four comprehensive examinations are required, at least one of which must be oral. At least two of the comprehensive examinations must be written and must be taken within one year following the completion of the residence requirement. A qualifying examination and master's comprehensive examination, if taken at American University, may, at the discretion of the academic unit, be credited toward the comprehensive requirements for a doctoral degree. Comprehensive examinations given by other institutions will not be credited toward the satisfaction of degree requirements.

An oral examination on the dissertation is also required.

Examination Timetable

For both master's and doctoral degree students, the dean or department chair (or designated representative) determines the

time and eligibility for taking the comprehensive, tool, and (where required) oral examinations.

Application to take comprehensive examinations is made to the academic unit on a standard form available from that office. After approval is obtained, the student pays the appropriate fee to Student Accounts. In most cases, students should plan to apply during the first week of classes of the semester in which they plan to take the examinations.

Examination Fields

Each college, school, or department offers its current list of standard comprehensive examination fields, including certain “core” fields and areas in which candidates in particular degree programs must present themselves for examination. In some disciplines it may be possible to choose an available field outside the major area of study.

Examination Grading

Usually each comprehensive written examination is read by two readers and is rated “distinction,” “satisfactory,” or “unsatisfactory” by each. In order to pass the examination, the candidate must obtain at least “satisfactory” from both readers in each of the examination fields. In the event of a disagreement in the ratings between readers as to whether or not the candidate should pass, a third reader is appointed to break the deadlock. Each dean or department chair may, however, elect to determine a different system of grading comprehensive examinations. Students should consult the specific college, school, or department to ascertain what system is used.

Re-examination

Comprehensive Examination: A student who fails a comprehensive examination (other than a qualifying examination) may be permitted additional attempts within two years. The nature and extent of the examination to be retaken and the number of retakes allowed will be determined by the academic unit. Teaching units may establish their own rules for retaking qualifying examinations.

Thesis and Dissertation Oral Examinations: In the event of failure to complete the oral examination satisfactorily, the academic unit may, at its discretion, permit one retake.

Grade Point Average

Students enrolled in a graduate program must maintain a cumulative grade point average of at least 3.00 (on a 4.00 scale) in order to remain in good standing and to graduate. The calculation of the graduate cumulative grade point average is specific to the program in which a student is enrolled. Only graduate-level American University courses that are accepted by the degree-conferring teaching unit as fulfilling degree requirements are included in the cumulative grade point average.

Minimum Grades

No degree credit is earned by a graduate student for any grade lower than C (2.00 on a 4.00 scale) received in a graduate-level course. However, grades lower than C are used in calculating the grade point average.

Prerequisite Undergraduate Credit

Credit earned in undergraduate courses taken as required prerequisites for other courses by graduate students may not be counted toward satisfying the total credit requirement for a graduate degree, and grades earned in such courses are not used in calculating the student’s grade point average.

Interdisciplinary Studies

Graduate students who want to pursue an M.A. or M.S. interdisciplinary degree must first be admitted to a school or college. In applying for admission, the prospective graduate student should alert the faculty of the teaching unit of his or her interdisciplinary goals. The initiative in formulating an interdisciplinary major is left to the student. The student is responsible for securing the advice and approval of three faculty advisors, at least one from each of the two or more disciplines involved in the interdisciplinary field, who will help in setting up the program. The student should select one of the three faculty advisors as the primary advisor who must be from the admitting school. The student, with the assistance of the faculty advisors, must formulate in writing and submit to the office of the dean the following items in the approved format and bearing the signatures of all three faculty members:

1. A statement of the central concept around which the interdisciplinary major is organized.
2. An explanation of why existing programs are inadequate to the student’s purpose.
3. A list of all proposed courses—major, related, and tool—with prerequisites to these courses. Individually designed courses must be outlined by the student, after consultation with the faculty member.
4. A rationale for the selection of courses.
5. The title of each standardized comprehensive field, with a rationale for selecting it.
6. A statement of how the 6-hour research requirement is to be fulfilled. If the research requirement is not to be met by a thesis, specifics of the nonthesis option must be listed. If the choice is to write a thesis, the thesis proposal and names of thesis committee members must be specified.
7. The title of the interdisciplinary program and whether an M.A. or M.S. degree is to be awarded upon successful completion of the program.

A meeting of all three faculty advisors, the student, and a representative of the dean’s office must be held before final approval of the major program. Approval or disapproval of an interdisciplinary major will be given by the dean’s office within four weeks of receiving the proposal. In accepting the proposal, the dean’s office certifies that the rules established for interdisciplinary studies have been followed and that courses necessary for completion of the program will be available, and it assumes administrative responsibility for monitoring the student’s progress and clearing the student for graduation.

Leave of Absence

If a student is unable to pursue course work or to work with faculty for a fall or spring semester, the dean of the student's teaching unit may authorize a leave of absence for one or two semesters, during which the student's enrollment status in the degree program would be maintained. During a leave of absence, the student is not entitled to use the services of the university. Time limitations for completing graduate degrees continue to apply during periods when students are on leaves of absence. Students may petition for an extension of candidacy at the time they apply for a leave or at a later time. Procedures for granting leaves of absence may vary among schools and colleges.

A graduate student taking a leave of absence because of military or government assignment required as a direct result of hostilities or war, or for incarceration resulting from refusal to accept induction under such circumstances, may receive a tuition refund and have other charges prorated on the basis of the number of weeks during which the student was registered for classes in a given semester. If a student has completed at least ten weeks of a session, he or she may be given full credit for any course, subject to the approval of the instructor and department chair. Additional work may be required. No tuition refund will be given for courses for which credit was given.

A student whose studies are interrupted for the reasons stated above may resume study at American University in the same degree program, provided he or she returns within a period of six months following the completion of duties and provided that the degree program in which the student was enrolled is still offered. A student who wishes to be enrolled in a different degree program must apply for readmission.

Maintaining Matriculation

Graduate students whose degree requirements are not completed and who have not been granted a leave of absence must register each fall and spring semester during regular registration periods for courses, for thesis or dissertation seminars, or for maintaining matriculation. Those who do not will be considered as having withdrawn. Such students may then reapply and, if readmitted, are governed by requirements and regulations in effect at the time of readmission.

During a semester when a student is not enrolled in credit course work but is utilizing the services of the university (e.g., to prepare for comprehensive examinations or complete research for the thesis or dissertation), the student maintains enrolled status by registering for maintaining matriculation, the equivalent of one graduate-level credit hour. Schools and departments may establish specific requirements as to when and for how many semesters students may be in maintaining matriculation status.

Students who change degree objective, college, or school, whose candidacy for an advanced degree expires, or who choose to conform to new regulations or requirements must be prepared to complete all requirements and abide by all regulations in effect at the time such a change is made.

Statute of Limitations

Candidates for a master's degree must complete all degree requirements no later than three years after the date of first enrollment in the degree program, except for the M.B.A. degree, which must be completed within four years. Candidates for the doctoral degree must complete all degree requirements no later than five years after the date of first enrollment in the doctoral program, or seven years if the doctoral program was entered directly from a bachelor's degree.

A student may petition for an extension of candidacy in a degree program for a limited period if such extension is sought before these time limits expire. In no case may the total amount of time granted in extensions of candidacy exceed three years. If, however, the time limit has expired, a student may seek readmission to the university for a period of no more than three years, less any time granted in previous extensions of candidacy.

Readmission to an advanced degree program may involve completing additional courses or other appropriate work. Any degree calling for additional undergraduate prerequisite courses has the statute of limitations extended for the amount of time required to complete them.

Study at Another Institution

Once matriculated at American University, a graduate student, may be granted approval to take a maximum of 6 credit hours of graduate courses as transfer credit from another accredited institution. The student must secure advance approval from his or her advisor and dean for specific graduate courses by completing the Graduate Permit to Study at Another U.S. Institution form. Graduate students on a Permit to Study for the fall or spring terms must maintain matriculation by registering for at least one graduate credit hour at American University. Master's degree students must complete a minimum of 24 credit hours in residence. Doctoral students must complete a minimum of 42 credit hours in residence.

Transfer credit from a Permit to Study is accepted for courses with earned grades of B or better. Grades for transferred courses are not recorded on the American University permanent record or computed in the student's grade point average.

Theses and Dissertations

Thesis and Nonthesis Options

For master's candidates, the thesis is expected to demonstrate the student's capacity to do original, independent research. Some colleges, schools, and departments offer the opportunity to substitute a case study, an in-service project, an original creative work, or specific advanced research courses in lieu of a thesis. In each such case, the thesis seminar or other accepted alternative must be considered part of the residence requirement for the master's degree and must meet the standards of the individual college, school, and department as well as those of the university.

No academic credit is given for the master's thesis unless the student registers for the thesis seminar. However, a student should not enroll for this seminar until ready to start work on the formal thesis proposal or the thesis itself. Traditionally, an advisory committee is appointed for each candidate working on a thesis. The committee may be composed of no fewer than two members, at least one of whom must be a member of the full-time faculty. An oral examination by this committee is often required. Suggestions for revision may be made as conditions that must be met before members will sign the title page of the thesis. If the chair of the thesis committee or the department chair certifies failure to complete a satisfactory thesis, the student may be dismissed from the university.

A student who writes a thesis must adhere to the required form and content for the proposal and to the other procedures described in detail in the published guides that may be obtained from the office of the dean of the college or school.

Students electing the nonthesis option should consult the individual program descriptions and obtain specific departmental requirements from their teaching units. The university minimum requirement is two research-oriented courses. These courses must be completed with grades of B or better.

Dissertation

Capping the requirements for the doctorate is the dissertation, together with the required oral examination of the dissertation by the student's teaching unit. Normally, the candidate must have completed all other academic requirements for the degree before the oral examination can be held.

A candidate who is declared ready to proceed to the dissertation must submit a dissertation topic proposal reporting the results of preliminary research. This proposal should contain, among other things, a concise statement of the major problem of research and of related supporting problems, the data to be used, a selected bibliography, a statement of the probable value or importance of the study, a brief description of the methods to be used, and a preliminary outline of the dissertation in some detail.

After approval of the proposal by the candidate's advisor, it is presented to the dean of the college or school for final approval. Acceptance of the proposal indicates that the topic is a suitable one and that the dissertation will be accepted if developed adequately by the candidate. The university will take responsibility for directing research only in fields and problem areas that its faculty members feel competent to handle. Acceptance of a dissertation topic proposal under no circumstance commits any department or school or the university to accept the dissertation itself.

A dissertation advisory committee of three to five persons is usually appointed by the candidate's academic dean for each candidate undertaking a dissertation. After the draft manuscript has received the tentative approval of all members of the committee, the committee chair arranges for the oral examination. This covers the dissertation itself and the general field of study. Conditions to be met before final acceptance of the dissertation may be specified without necessarily holding a second oral examination.

Thesis or Dissertation Progress

It is the collective responsibility of the student, the student's advisor, and the student's committee to ensure that satisfactory progress is being made on the student's thesis or dissertation. The student may request, at least once each semester, that the committee meet with him or her to discuss progress.

Final Manuscript

Candidates are responsible for being familiar with and complying with the regulations concerning the form and preparation of the final manuscript, abstract, copyright, and so forth, which may be obtained from the dean or department chair of the teaching unit offering the doctorate. Deadlines are published in the Academic Calendar. These must be met if a candidate expects to receive a degree at the appropriate commencement.

Filing of Thesis or Dissertation

On completion of the final manuscript, a student obtains the signature of the department chair and dean on the Thesis/Dissertation Completion form, and takes the form and the manuscript to Student Accounts to pay the fee. This fee is required for entering into the mandatory agreement with University Microfilms. Every thesis and dissertation must be microfilmed. The student contacts the Office of the Registrar for certification of the completion of degree requirements, and then proceeds to the library for filing of the manuscript. This procedure is to be followed after all other requirements for the degree have been satisfied.

Publication

It is the policy of the university to encourage publication of dissertations, case studies, and theses, with acknowledgment to the university. If substantial alterations are made before publication, this fact must be noted in the prefatory statement that gives acknowledgment.

Tools of Research

Each academic unit specifies the tool of research requirement. Tools should relate to research in the student's discipline. The student's satisfaction of tool requirements is certified by the teaching unit, but aid in ascertaining this may be sought outside the unit.

Transfer of Credit

The university is liberal in accepting credit earned in the past. Nonetheless, a student who has not been engaged in formal study for a number of years or whose study has been intermittent, at American University or elsewhere, must understand that full credit will not necessarily be granted for past work simply because it is a matter of record.

The evaluation of graduate work completed elsewhere by an entering graduate student, in terms of its applicability to the program at American University, will be made by the office of the dean or department chair concerned no later than the completion of 12 credit hours of course work at American University.

Up to 6 credit hours earned at another institution may be applied to a master's degree. Up to 36 credit hours earned at another institution may be applied to a doctoral degree, including

30 credit hours for a master's degree earned at another institution and 6 credit hours beyond the master's degree.

For transfer credit, individual courses (that is, courses not part of a completed master's program) must have been completed with grades of B or better and must have been completed within seven years of the beginning of the semester for which the student is admitted to degree status at American University. In no case may graduate credit be given for course work designated as undergraduate by the offering institution.

See also **Credit Hour and Residence Requirements**, or consult the individual department for further details.

Transfer of Credit from One American University Advanced Degree to Another

A student may transfer 6 credit hours from one master's degree earned at American University to another master's degree to be completed at American University (see the dual master's degrees option, below, for two master's degrees earned simultaneously). A student pursuing a second doctoral degree at American University may transfer a total of 36 credit hours from one doctoral degree to another. However, the student must complete an additional 36 credit hours of graduate work in residence in that new doctoral degree program.

In all cases students are required to meet the residency requirements established by the university and any further residency requirements which may be stipulated for each program by the individual departments.

Dual Master's Degrees Option

In the case of simultaneous *approved* registration in two master's degree programs, additional courses may be counted to-

ward both degrees. The student must meet the admission criteria for each of the degrees and must be admitted separately to each degree program. The student must be admitted to the second program before completing the first. Admission to one degree program does not guarantee automatic admission to a second; each admission decision is separate and conducted according to established procedures for the particular degree.

All the course and other requirements for each degree program must be met, including the thesis or non-thesis research option for each degree. Students must complete at least 48 credit hours in residence at American University with at least 24 credits unique to each degree. Individual departmental requirements may demand more than 24 credit hours for either or both degrees. Courses used to satisfy requirements for an undergraduate degree may not also be used to satisfy requirements for dual master's degrees.

The details of a student's dual master's degrees program must be approved by the department chair/degree program director and the dean or designee for each of the two degrees. Candidates for dual master's degrees must submit a formal petition to the directors of each master's program before the conferral date of the first degree. Students apply for and receive each degree upon completion of all the requirements for that degree. The degrees may or may not be completed simultaneously.

Academic Regulations

- Undergraduate Academic Standards and Degree Requirements
- Undergraduate University Requirements

Academic Load

An undergraduate student admitted to and enrolled in a degree program usually registers for 15 credit hours each semester so that the required minimum of 120 credit hours for the bachelor's degree is completed in four years.

In any given semester, a student may carry a minimum of 12 credit hours and be classified and certified (for veteran's benefits, financial aid, etc.) as full-time for that semester. The additional credit hours must be made up through summer enrollment or by an overload (if approved by the dean) in another semester in order to maintain normal annual progress toward the degree, as is often required by the regulations of government agencies. Students are urged to become familiar with such regulations. A total of 19 credit hours is the maximum load permitted without special approval.

An undergraduate student wishing to register for more than 19 credit hours in a semester is required to have the approval of the academic advisor and the appropriate dean. The approval is for the overload, not permission for a specific course. A per-credit-hour tuition fee is assessed, in addition to the full-time tuition fee, for registered credit hours over seventeen.

Academic Probation and Dismissal

An undergraduate student who fails to maintain the academic average required by the university and/or fails to make satisfactory progress toward a degree is subject to dismissal. A student who does not fulfill these criteria but who gives evidence of probable substantial improvement may, under certain circumstances and the discretion of the student's dean, be placed on academic probation for a specified period of time in lieu of being dismissed.

An undergraduate student who fails to maintain a 2.00 cumulative grade point average (GPA) during the first semester of full-time study (or the equivalent in part-time study) is subject to academic probation or dismissal. A student whose cumulative GPA after attempting or completing 24 credit hours (excluding courses in which the recorded grade is W) falls below 1.00 will be dismissed. A student whose cumulative GPA is at any time between 1.00 and 2.00 may be dismissed or, at the discretion of the student's dean, placed on academic probation.

A student on probation may be subject to restrictions as to the course load for which he or she may register and is ineligible to hold office in student organizations or to participate in intercollegiate activities. The student may be given permission to partic-

ipate in intercollegiate athletics at the end of a semester in which the student's cumulative GPA is raised to 2.00, even though the student's probation may extend for an additional semester. With permission of the student's dean, a student may complete the season of any collegiate sport in which he or she is participating at the time the student's cumulative GPA falls below 2.00.

Probationary and dismissal actions are made by the colleges and school each January, June, and August based on the student's academic performance. Students on academic probation are informed in writing of their status, the period of probation, and any conditions imposed by the student's dean.

A student who is dismissed may not be readmitted to the university or enroll as a nondegree student for a full calendar year after the effective date of the dismissal.

Actions involving academic probation and dismissal are entered on the student's permanent record and may not be removed.

Changes in Field of Study

A student who wishes to change from one college or school to another, or from one major to another, must receive the permission of the dean or department chair in charge of the program to which the student wishes to transfer. A change in college, school, or major affiliation, when approved, may not become effective until the beginning of the next semester. It does not become effective if the student is suspended or dismissed. A student who changes a field of study may lose credit already earned in other study that is not appropriate to the new program.

Class Standing

Undergraduate class standing is defined as follows:

Credit Hours Completed	Standing
0-29	Freshman
30-59	Sophomore
60-89	Junior
90 or above	Senior

It is university policy that no student shall be involuntarily subject to regulations and academic requirements introduced during the student's continuous enrollment in good standing in a single degree program if the new regulations involve undue hardships or the loss of academic credits earned to satisfy the requirements previously in effect.

Undergraduate students are governed by the following minimum requirements for the undergraduate degree (each teaching unit may have further major and major-related requirements). Undergraduate students are advised to consult their own advisor, department chair, or dean for detailed information.

Credit Hour and Residence Requirements

Associate Degree

The Associate in Arts degree requires the completion of at least 60 credit hours. At least 24 of the last 30 credit hours applied to the degree must be taken in residence at American University. A maximum of 36 credit hours may be transferred to the degree.

Students must complete at least 24 hours of courses in the General Education Program including one foundation course in each of the five curricular areas and one second-level course in each of three of the five curricular areas. Students must also fulfill the College Writing and Writing Proficiency and the University Mathematics Requirement.

Bachelor's Degrees

The university offers the following bachelor's degrees: Bachelor of Arts (B.A.), Bachelor of Fine Arts (B.F.A.), Bachelor of Science (B.S.), and Bachelor of Science in Business Administration (B.S.B.A.).

All bachelor's degrees require completion of at least 120 credit hours of course work. At least 45 credit hours out of the last 60 must be completed in residence at American University. A minimum of 15 credit hours must be completed at American University in upper-level courses in the student's major. A maximum of 75 hours may be transferred towards a bachelor's degree. Credit earned in any American University course, on or off campus, is residence credit. Credit earned by an American University student through the Consortium of Universities of the Washington Metropolitan Area is also residence credit.

Within the total 120 credit hours, students must fulfill the College Writing and Writing Proficiency Requirement, University Mathematics Requirement, General Education Requirement, and requirements for a major.

Undergraduates may count a maximum of 12 credit hours of internship and cooperative education field experience toward the 120 minimum credit hours required for graduation. The field experience credit hours that may be counted toward the requirements for a major or minor program may be fewer, as determined by the academic department, but may not exceed the maximum of 12 credit hours.

Two Undergraduate Degrees

A student who fulfills all the requirements for two bachelor's programs (including major, major-related, and residence requirements) and earns a total of 150 credit hours may be awarded two bachelor's degrees.

In order to be eligible for the second bachelor's degree, the student must apply for admission to the second degree program, preferably by the end of the junior year. If the student is granted admission to the second program, then upon completion of all

requirements for the first program and the award of the first degree, the student's status will be changed to the second program. The student must again apply for graduation to be granted the second bachelor's degree.

Combined Bachelor's and Master's Degrees

American University offers students the opportunity to earn both undergraduate and graduate degrees through its accelerated bachelor's/master's programs. Students can choose from a wide variety of established bachelor's/master's programs, or they can create bachelor's/master's programs with the approval of the academic department supervising the graduate-level work. Students may complete graduate degrees in disciplines different than their undergraduate degrees, provided they are admitted to the master's program by the supervising department and they have completed the prerequisites required for the graduate program.

A student admitted to a combined bachelor's/master's program (involving tentative admission to graduate standing, so that both a bachelor's and master's degree may be earned as the result of a planned program of study) must follow a prescribed program of work, and the student's record must show which courses will be applied toward the undergraduate degree and which courses will be applied toward the master's degree.

Once admitted to a combined bachelor's/master's program, a student may not be denied entry into that master's program if that student completes the bachelor's program in good standing and meets university and teaching unit minimum standards for admission to the master's program involved.

Students will be admitted to the combined program at two levels, once for the undergraduate degree and once for the graduate degree. Each school sets its own admission standards and procedures. Tuition and fees will be paid on the basis of the level at which the student is currently registered. When the student has completed the requirements for a bachelor's degree and has been admitted to the graduate portion of the program, tuition and fees will be charged at the graduate rate.

The undergraduate student may complete up to 3 credits for every 9 credits required for the graduate degree that may be applied to the requirements for both degree programs. For example, a student may share up to 9 credits for a 30-hour master's degree and up to 12 credits for a 36-hour master's degree. Charges will be at the undergraduate rate. The department that oversees the graduate program the student enters will determine if the courses the undergraduate student completes will satisfy master's degree requirements. Departments are not required to accept courses that the student completes while he or she is an undergraduate.

In addition to these shared credits, undergraduate students in a bachelor's/master's program may be able to reserve a particular course so that it counts only toward the master's degree requirements. This reserved course work will not count toward the bachelor's degree. Any reserved courses do not affect the stu-

dent's undergraduate G.P.A., nor do the credits count toward a student's full-time enrollment status in a given term. The student's official university transcript will note which courses are reserved for graduate credit only.

Students are required to complete the graduation application and clearance process once for the bachelor's degree and once for the master's degree.

Bachelor's/master's students must complete at least 18 in-residence credit hours at the graduate level after the bachelor's degree is earned. This represents a reduction from the established requirement of 24 credit hours of in-residence credit for master's students. Bachelor's/master's students must maintain continuous, sequential enrollment in the two programs. Students must finish the master's degree requirements within three years from the date of first enrollment in the master's program.

Grade Point Average

Students enrolled in an undergraduate degree program must maintain a grade point average of at least 2.00 in order to remain in good standing and to graduate.

Evaluation of Progress

An evaluation of each undergraduate student's progress is made by the office of the student's dean after each semester. In addition to the cumulative grade point average, this evaluation considers completion of all university requirements and the ratio of courses satisfactorily completed to all courses attempted by the student. Students who are not making satisfactory progress are informed in writing of the result of their evaluation and offered academic advising.

The university has no strict regulations governing the total amount of time an undergraduate student may take to fulfill the requirements for a degree, provided the student maintains the appropriate grade point average and gives evidence of being seriously interested in the eventual achievement of his or her academic objective.

Freshman Forgiveness

A freshman who, during the first two semesters of full-time study, receives a grade of F or X in a course may repeat the course at American University within the calendar year thereafter, or in the next two regular semesters in which the student is enrolled. If the course is not offered within that time, the student may use the option the next time it is offered. No grade is removed from the student's record, but only the grade earned the second time the course is taken is used in calculating the grade point average for purposes of making decisions concerning probation, dismissal, and required average for graduation.

A part-time undergraduate or nondegree student who, during the first 30 credit hours of study, receives a grade of F in a course may repeat the course at American University within one calendar year after the semester in which the grade of F was received, with the resulting cumulative index benefits stated above.

The freshman forgiveness rule does not apply to transfer students even though they may have entered the university with freshman status.

Graduate Credit

Senior students, with the written permission of their department chairs or deans, may enroll in specifically approved graduate courses not required for their undergraduate programs. Such courses must be designated in writing as graduate-degree credit at the time the student registers for them. A copy of this written agreement must be filed in the Office of the Registrar. Retroactive application of these credits for such purposes is not permitted. Credit for these courses may be applied toward meeting the course requirements for a graduate degree after the student has been awarded an undergraduate degree if the student is then admitted to a graduate degree program.

Leave of Absence

Undergraduate students desiring a leave of absence for reasons other than study at another collegiate institution should request an appointment with their dean. If it seems desirable to guarantee the student an automatic readmission, the dean will issue a permit for leave of absence. This permit will specify a limitation, one year at most, of automatic readmission to the same undergraduate program.

The permit becomes void if the student attends any domestic or foreign collegiate institution during the period of leave. In such instances, the student must obtain a permit to study at another institution before leaving American University.

Major Requirements

Each undergraduate must complete at least 36 credit hours in the degree major and related courses, no fewer than 15 of which must be earned in upper-level courses taken in residence at American University.

A grade of C (2.00) or better is required for each major, major-related, or minor course. Students should note that a C- does not qualify and any course with a C- or lower will have to be repeated or an equivalent course taken to satisfy the major requirement involved. Courses in the major may be taken on a pass/fail basis only with permission of the student's dean or department chair.

Declaration of Major

By the end of the sophomore year, if not before, each student must choose and formally declare an academic major.

Admission to the university in an undergraduate program does not automatically constitute admission to a major program. Acceptance is official only when specific approval has been granted by the department chair or program director.

Multiple Majors

A student may complete multiple majors by satisfactorily passing the major and major-related course work required by the departments or schools.

If the majors are pursued in different schools, the student must designate when declaring the majors which school he or she will be enrolled in and graduated from. The student will need to satisfy the general requirements of that school only. If a student is majoring in recognized majors that lead to different degrees (e.g., B.A. and B.S.), the student specifies which of the degrees is to be awarded. A student may apply the same course to each major program in which it meets the requirements.

Interdisciplinary Majors

In addition to the established major programs, students have the option of constructing their own major programs leading to a B.A. or B.S. in Interdisciplinary Studies. To design and complete an interdisciplinary major, a student must have the approval of three faculty members who represent the various disciplines involved in the interdisciplinary field. The major advisor must be a full-time faculty member. The student applies for permission to undertake an interdisciplinary major to the dean of the school or college in which he or she is enrolled. If the focus of the interdisciplinary program makes a change of college or school affiliation advisable, the student must follow the procedures for changes in fields of study.

Interdisciplinary major programs must include a total at least 42 credit hours with grades of C or better, including 36 credit hours selected to form an academically sound, unified, and well-defined program, and 6 credit hours in independent study or senior seminars supervised by the major advisor and focused on the program's central concept. With prior approval, an appropriate internship or advanced level course may be substituted for all or part of the 6-credit hour independent study.

At least 75 percent of the 36 credit hours must be upper-level as defined by the teaching units that offer them. Students are encouraged to include at least two 500-level courses, although in some areas this may not be possible. A maximum of 18 credit hours of work completed prior to the semester in which application is made may be included in the program.

Students must have at least a 2.50 grade point average (on a 4.00 scale) to be accepted. All arrangements should be completed by the end of the first semester of the junior year, except by special permission of the appropriate dean, and no earlier than the second semester of the freshman year.

The student must submit a completed Interdisciplinary Studies Major Program Form, with required attachments and bearing the signatures of the major advisor and the two sponsors, to his or her dean. Information submitted must include the following:

1. A statement of the central concept of the major and an explanation of its interdisciplinary character.
2. A statement demonstrating that existing programs do not satisfy educational needs or vocational goals of the student.
3. An outline of the academic requirements of the major, including a list of all required courses and a tentative schedule for their completion. Individually designed courses must be outlined.

4. A Declaration of Major Form, which must specify the name of the major and whether a B.A. or a B.S. degree is to be awarded upon successful completion of the program.

In accepting the proposal for an interdisciplinary major, the dean's office certifies that the rules established for interdisciplinary studies have been followed and that courses necessary for completion of the program will be available, and assumes administrative responsibility for monitoring the student's progress and clearing the student for graduation.

Minors

Specific course requirements for minors are listed under departmental programs. All minor programs consist of a minimum of 18 credit hours, including at least 9 credit hours at the 300 level or above. For all minors, at least 9 credit hours of the stated requirements must be taken in residence at American University. At least 12 credit hours of the minor must be outside of the course requirements for each major the student is pursuing. A grade of C (2.00) or better is required for each course used to satisfy the requirements of a minor.

Students should consult with their advisors as to the procedure for declaring a minor. Minors are noted as a comment on the student's permanent record at the time of graduation, but will not appear on the student's diploma.

Interdisciplinary Minors

In addition to established minors, students have the option of constructing their own minor programs. To design and complete an interdisciplinary minor, a student must have the approval of two faculty members who represent the disciplines involved. Interdisciplinary minors must include a total of 24 credit hours with grades of C or better, including at least 9 credit hours at the 300 level or above, selected to form an academically sound, unified, and well-defined program. For all minors, at least 9 credit hours of the stated requirements must be taken in residence at American University. At least 12 credit hours of the minor must be outside of the course requirements for each major the student is pursuing.

Pass/Fail

Students may take up to 50 percent of their courses on a pass/fail basis. If a student's major department approves, this percentage may be greater. Courses in the student's major must be taken for a letter grade unless special permission is given by the dean or department chair. The grade of P (pass) is not used in calculating the grade point average. (For more information, see the Academic Information and Regulations chapter.)

Resuming Study

Students who cease to attend the university for an entire semester, whether voluntarily or not, may not resume study until they have been readmitted. Readmitted students are subject to all regulations and must meet all requirements in force when studies are resumed unless other arrangements have been agreed

to in writing by the student's dean before the beginning of such an absence.

Students who change degree objective, college, or school, or who choose to conform to new regulations or requirements, must be prepared to complete all requirements and abide by all regulations in effect at the time such a change is made.

Study at Another Institution

Study at another institution is usually undertaken during the summer or as part of an study abroad program. Once matriculated at American University, students may have up to 6 credit hours transferred only from institutions accredited for granting bachelor's or higher degrees.

An enrolled student who plans to take courses at another college or university for transfer credit to American University must be in good academic standing and must receive prior approval from the student's department chair and dean using the Permit to Study Abroad form or the Permit to Study at Another U.S. Institution form. For study abroad, approval is also required from the AU Abroad director. If the course to be taken is outside the area of the student's major, the chair of the department which would offer credit for such a course must also approve the permit. Approval is granted for specific courses. Permits to Study may not be authorized for courses at community colleges or non-accredited four year institutions.

The visited institution, if in the United States, must be regionally accredited. With departmental approval, transfer credit is applicable toward the requirements of a major. Transfer credit may be used to fulfill General Education Requirements through the evaluation of equivalent courses taken at another institution and with the approval of the student's dean. Because of the special nature of the program, after the student has been admitted to American University no credit toward General Education Requirements may be earned through transfer credit.

Study Abroad

American University offers numerous study abroad programs through the AU Abroad Program. Students may also participate in study abroad programs offered by other institutions that are part of a regionally accredited U.S. college or university, and are recorded on the transcripts of those institutions. For determination of regional accreditation, the publication *Credit Given* is the accepted reference.

After consultation with and approval of the student's dean and the AU Abroad director, application is made directly to the institution for admission to its foreign study program. Transfer credit will be granted on the basis of the transcript from the sponsoring U.S. college or university.

Students may also attend institutions abroad not affiliated with an American college or university. Requests for transfer credit must be made on a Permit to Study Abroad form and must be approved before the student registers at the foreign institution. The institution to be visited must be approved by the student's dean and the AU Abroad director. The student's dean and

academic advisor review the official transcript when the student returns to confirm course approval, and forward the transcript and evaluation to the Office of the Registrar for transfer of approved credit. The student's academic advisor and dean also approve the academic areas or specific courses of study.

Students who complete the Permit to Study Abroad form and enroll in a non-AU study abroad program are required to pay the Permit to Study Abroad fee for each semester, including summer, they are registered.

Transfer of Credit

The Admissions Office evaluates official documents showing previous college-level work completed. Individual teaching units determine how this credit will apply to specific degree programs.

Grades and quality points earned in courses accepted for transfer will not be included in the grade point average to be maintained at American University, but the credits will count toward the total number required for graduation.

Transfer students may normally expect to receive credit for courses taken at collegiate institutions that were, at the time the courses were taken, regionally accredited or recognized candidates for accreditation. These courses must be appropriate for academic credit at American University towards an undergraduate degree program. A maximum of 75 credit hours will be accepted on transfer from four-year collegiate institutions. A maximum of 60 credit hours will be accepted from two-year collegiate institutions. A maximum of 75 credit hours from all institutions of higher education may be transferred toward a bachelor's degree.

A maximum of 30 credit hours will be accepted on transfer for a combination of relevant work completed satisfactorily in college-level Armed Services School courses, U.S. Armed Forces Institute correspondence or extension courses, or any Military Occupational Skills (MOS) courses completed with a grade of 70 or better, as recommended at the baccalaureate level by the American Council on Education and which is appropriate for academic credit as determined by the Admissions Office after consultation with the appropriate academic unit.

A maximum of 30 credit hours may be granted for a combination of relevant work completed in college-level nondegree, correspondence or extension courses completed at an accredited institution provided the course work is recognized by that institution for credit toward a degree, and is appropriate for academic credit as determined by the Admissions Office after consultation with the appropriate academic unit.

Transfer students may be awarded credit for satisfactory scores in subject examinations of the College Level Examination Program (CLEP). Students may not receive credit for a subject examination if a course comparable in content has been accepted in transfer by the university, or if the student failed such a course (see Advanced Standing, below). Official score reports must be sent directly to the Admissions Office from the Educational Testing Service. No transfer credit towards the General

Education requirements may be earned once the student has matriculated at American University.

Advanced Standing

Up to 30 credit hours will be accepted from one or a combination of Advanced Placement (AP), International Baccalaureate, and CLEP subject examinations. Upon recommendation of the appropriate teaching unit, advanced standing may be awarded or a course requirement waived for an entering student on the basis of performance in the Advanced Placement Examination Program of the College Entrance Examination Board, the Higher Level subjects of the International Baccalaureate Program, or successful performance in the Subject Examination Program of the College Level Examination Program (CLEP).

All undergraduate students in a degree program are eligible for course credit, with advanced placement where appropriate, on the basis of performance on the CLEP subject examinations, if the student has not failed or completed a credit-bearing course comparable in content.

Course credit, with advanced placement where appropriate, will be assigned for successful performance in the Subject Examination Program of CLEP, contingent upon the specification of norms and upon approval of the appropriateness of the content of the examinations by the teaching unit concerned. Selected CLEP examinations may be applied to up to four courses to meet General Education requirements (see below). Credit toward General Education requirements may be awarded only for examinations taken prior to entering American University. Under no circumstances will students be permitted to re-take a subject examination.

Students should consult with their advisors as to how examinations will apply to their degree programs. Information on reg-

istering for CLEP subject examinations may be found at: www.collegeboard.org/clep.

The following are CLEP Subject Examinations accepted by American University for the 2011–12 academic year:

American Government (AU course equivalent GOVT-110*)
 American Literature
 Analyzing and Interpreting Literature
 Biology
 Calculus
 French Language
 German Language
 Spanish Language
 Information Systems and Computer Applications
 Introduction to Educational Psychology
 English Literature
 Chemistry (AU course equivalent CHEM-110 and CHEM-210*)
 Introductory Psychology
 Human Growth and Development
 Principles of Management
 Principles of Marketing
 Principles of Macroeconomics (AU course equivalent ECON-100*)
 Principles of Microeconomics (AU course equivalent ECON-200*)
 Introductory Sociology (AU course equivalent SOCY-210*)

Undergraduate University Requirements

College Writing and Writing Proficiency

All students must be able to write in English with a level of mastery equivalent to the demands of college course work. In addition, students need to acquire the critical reading skills needed for all their college courses.

In most cases, students satisfy the College Writing and Writing Proficiency requirements during the freshman year by achieving grades of C or better in one of the course options listed below. Nonnative and native speakers of English must meet the same requirements. Students who do not satisfy this requirement in the first two semesters of enrollment must continue to enroll each semester until the requirement is satisfied.

- LIT-100 College Writing *and*
LIT-101 College Writing Seminar
- LIT-102 College Writing *and*
LIT-103 College Writing Seminar
- LIT-106 College Writing, Intensive (for students who earn an Advanced Placement English Language and Composition score of 4 or 5, or a Higher Level International Baccalaureate Examination score of 5 or higher)
- LIT-130 Honors English I *and*
LIT-131 Honors English II
- LIT-132 Honors English, Intensive (for students who earn an Advanced Placement English Language and Composition score of 4 or 5, or a Higher Level International Baccalaureate Examination score of 5 or higher)
- Transfer students who present 6 credit hours of acceptable composition credit from another institution satisfy the College Writing requirement by passing the Writing Proficiency Examination before completing 30 credits at American University.
Transfer students who present 3 credit hours of acceptable composition credit from another institution may satisfy the College Writing requirement by passing the course in the College Writing sequence (see list above) for which they have not been given credit with a C or better.
- In those cases when the Writing Proficiency Examination is required, students failing the exam twice must enroll in LIT-100, LIT-101, LIT-102 or LIT-103 and must pass the course with a grade of C or better.

The Writing Proficiency Examination is administered by the College Writing Program in the Department of Literature. For more information about the exam, contact the director of the College Writing Program at 202-885-3911. To schedule an appointment at the Writing Center, call 202-885-2991.

University Mathematics Requirement

All students must demonstrate skills in mathematics and quantitative reasoning at the college level. Students who do not satisfy this requirement by examination as specified below must

enroll in an appropriate mathematics course before the completion of 30 credits at American University and must continue to enroll each semester until the requirement is satisfied. After students have matriculated at American University, no credit toward the University Mathematics Requirement may be earned through transfer credit. Students meeting the requirement through course work must receive a C or better. The University Mathematics Requirement may be satisfied in one of the following ways:

- Earning a grade of C or better in any American University mathematics course at the level of MATH-15X Finite Mathematics or above or any American University statistics course in the Department of Mathematics and Statistics.

The Department of Mathematics and Statistics will recommend placement of students in mathematics courses. **Students whose placement is below MATH-15x Finite Mathematics must take MATH-022 Basic Algebra before enrolling in Finite Mathematics.** Students whose placement is above Finite Mathematics may enroll in Finite Mathematics to satisfy the requirement but are to be encouraged to enroll in appropriate sections of the course, as designated by the Department of Mathematics and Statistics.

Students may also satisfy the University Mathematics Requirement through examination:

- AP Calculus AB or AP Calculus BC score of 3, 4, or 5
- AP Statistics score of 3, 4, or 5
- SAT II Mathematics Level II Achievement test score of 650
- CLEP Calculus examination of qualifying score
- British A-level mathematics examination with a passing grade
- International Baccalaureate higher-level mathematics examination score of 6 or above

Transfer students and graduates of secondary schools outside the United States may also satisfy this requirement by:

- Passing one of the examinations given by the Department of Mathematics and Statistics which demonstrate competence equivalent to having successfully completed one of the following courses: MATH-15x Finite Mathematics, MATH-211 Applied Calculus I, or STAT-202 Basic Statistics. Only one of these examinations may be taken and that examination may be taken only once, during the first semester for which the student is enrolled in degree status

or

Transferring a course named "Calculus I" or a mathematics course for which "Calculus I" is the prerequisite with a grade of B or better from an AG-rated collegiate institution.

Eligible students should contact the Department of Mathematics and Statistics for more information about the Mathematics and Statistics Equivalency Examination.

Undergraduate Academic Honors

Dean's List

Each college or school may issue a dean's list of its undergraduate honor students at the end of each semester. The minimum standard for listing is a 3.50 grade point average for the semester, earned in a full-time undergraduate program of not fewer than 15 completed credit hours of which at least 12 hours must be completed for A–F grade credit.

Graduation Honors

Undergraduate graduation honors at American University include Latin Honors, based on cumulative grade point average, and University Honors, based on a combination of honors course options, cumulative grade point average, and completion of an honors capstone. To be eligible for graduation honors, students must have completed at least 60 credit hours required for their degree in residence at American University and have achieved the requisite grade point average. Both Latin Honors and University Honors are listed in the commencement program and on the student's diploma and permanent record.

Latin Honors

Undergraduate Latin Honors and the grade point averages required are as follows:

- summa cum laude*: 3.90 or higher
- magna cum laude*: 3.70 through 3.89
- cum laude*: 3.50 through 3.69

No more than 15 credit hours taken Pass/Fail may be included in American University work applied toward Latin Honors. Courses taken Pass/Fail are not computed in the grade point average.

University Honors Program

The University Honors Program is a comprehensive program of honors options drawn from the General Education curriculum and departmental course offerings to qualified undergraduate students. The program is characterized by small seminars, individualized attention from faculty, unique access to the resources of Washington, D.C., and the special atmosphere of an honors community of committed faculty and students.

Qualified entering freshmen, transfer students, and current students are eligible for admission to the program. Entering

freshmen are admitted to the program based upon excellence in their high school academic performance. Other students, including transfers, may be admitted to the program at the discretion of the honors director if they have achieved a cumulative grade point average (GPA) of 3.60 for the equivalent of at least one academic year (30 credit hours).

Students entering the program as freshmen are required to complete a minimum of 30 credit hours of honors course work with a grade of B or better in each honors course and a cumulative GPA of 3.50 or above. Honors students take 12 to 18 credit hours of foundation-level work from honors sections of English, statistics, General Education, or departmental courses. Six to 12 credit hours of advanced level (300 or above) specialized honors work is drawn from honors sections of major or major-related courses, honors supplements linked to courses in the major or related fields, University Honors colloquia, and honors independent study. All University Honors students must complete an honors senior capstone project (3 to 6 credit hours).

Students who enter the University Honors Program after the freshman year are not required to complete the full 30 hours of honors course work. Exceptions to the number of required hours are determined by the program director and subtracted from the foundation-level requirements.

All University Honors students are required to meet with their Honors counselor for advisement before registering each semester.

Students who fulfill the requirements for the University Honors Program are eligible to graduate with University Honors. University Honors Program students whose honors work includes completion of 12 hours of advanced-level honors work in the major (which may include senior capstone credits) will, with departmental recommendation, graduate with University Honors in the Major. For more information contact the University Honors Program at 202-885-6194.

General Education Program

- **Curricular Area Requirements**
- **Questions about General Education**
- **Curricular Area Course Clusters**

The General Education Program is designed for all undergraduate students regardless of degree program. Aimed at building a strong intellectual foundation, the General Education requirements are drawn from five curricular areas. The program is designed to be completed during the first two years of study, allowing students ample time to pursue their major as well as study abroad, internships, and minors or second majors.

The General Education Program is the cornerstone of your academic program at American University. This chapter will help guide you in building a meaningful and valuable program. As you read through it, you should keep in mind the following:

- students take a total of ten General Education courses; two courses in each of five areas
- students begin each Curricular Area by taking a foundation course, which forms the base for a second level course
- all second level courses are linked to a cluster of foundation courses, one of which must be taken as a prerequisite for the second level course
- no more than two courses from a discipline may be taken for General Education credit; disciplines are designated by the course number subject prefix (e.g., ANTH, BIO)
- once a student has enrolled, all courses to fulfill General Education Requirements must be taken at American University

General Education Program Definitions

Curricular Area (or “Area”): One of the five content-specific subdivisions of the General Education Program:

1. The Creative Arts
2. Traditions that Shape the Western World
3. Global and Multicultural Perspectives
4. Social Institutions and Behavior
5. The Natural Sciences

The Area is represented after a course title as the first number in the following: 1:x, 2:x, 3:x, 4:x, or 5:x.

Foundation course: A 100-level course in the General Education Program.

Second-level course: A 200-level course in the General Education Program.

Level: Refers to whether a course is a foundation or a second-level course. The level is represented after a course title as the second number in the following: x:1 or x:2.

Cluster: One of two groups of courses (several foundation courses and a larger number of second-level courses) in a Curricular Area.

Sequence: A specified order for taking General Education classes: take a foundation course first and follow it with one of the second-level courses from the same cluster.

Discipline: Refers to the subject prefix in a course number regardless of academic department or course content. For example, the course number PHIL-105 refers to a philosophy course; the course number RELG-210 refers to a religion course. Although these courses are in the Philosophy and Religion Department, they have different prefixes and are in different disciplines. The course number ARTH-105 refers to an art history course; the course number HIST-100 refers to a history course. Although these courses are both about history, they are in different disciplines.

Curricular Area Requirements

Students select courses from those that are designated as General Education courses. Students choose two courses, one foundation course and one second-level course in the same cluster, in each curricular area.

Each curricular area offers students a choice of one of two course clusters comprising several foundation courses any of which may lead to a larger number of second-level courses.

Courses at the foundation level introduce students to the fundamental concepts, issues, and achievements in the disciplines. Courses deal explicitly with the appropriate processes and standards for gathering and evaluating information (quantification, experiments, primary sources, authoritative texts) and interpretation (methods of investigation and analytic skills) in a specific disciplinary field. All science foundation courses include laboratory experience. The courses are designed to help students achieve a broad view of how different disciplinary viewpoints and fields of knowledge can contribute to their understanding of themselves and the world around them.

General Education foundation courses differ from traditional survey courses by integrating into the course some of the perspectives and foundation skills essential to a full education.

These elements include the following, as appropriate:

- written and oral communication
- critical thinking, including information literacy
- ethical awareness
- aesthetic sensibility
- diverse perspectives, including race, class, culture, gender, and academic discipline
- a global point of view

The second-level courses follow specific groups of foundation courses, forming a coherent curricular sequence and reinforcing the learning objectives of the foundation course. The foundation courses selected from a variety of disciplines assure breadth in the student's program while the second-level courses build on the foundation and encourage study in depth.

Course Selection

Students select two courses, a foundation course followed by a more specialized course in an approved sequence, in each curricular area. Students will not be able to satisfy General Education Requirements with more than two courses in any one discipline even though a discipline may have courses included in more than one curricular area. Courses required for College Writing and University Mathematics do not count in the two-course limit.

Prerequisites

A second-level course may not be taken for General Education credit until after the prerequisite foundation course has been satisfactorily completed. Students who have placed at or below Finite Mathematics must satisfy the University Mathematics Requirement before enrolling in a foundation course in the Natural Sciences curricular area. Students who have placed above Finite Mathematics may take the foundation course in the Natural Sciences curricular area at the same time they take the course work satisfying the University Mathematics Requirement, or even beforehand.

Relation to the Major

The requirements for the major, the area of a student's academic concentration, are listed under individual degree programs. Many of the courses in the General Education Program also meet requirements of the major. Students interested in a double major need to plan ahead if they expect to fulfill all requirements within 120 credit hours.

Grading Requirements

To receive General Education credit, a student must successfully complete a General Education course with a grade of D or better. Students may elect to take a General Education course on

a pass/fail basis. However, if the course is also being taken to fulfill a requirement for the major the grading policies for that program should be consulted.

Advanced Placement Credit

Students presenting a 4 or 5 on the Advanced Placement examination, qualifying score on the CLEP examination, or grades for which they have received credit from the British A Levels, CEGEP, International Baccalaureate, German Abitur, or other international credential for which they have been granted credit by American University may apply the credit for up to four courses to meet General Education requirements in any of the five curricular areas. Credit for General Education may only be awarded when specific General Education courses, which have been so designated, match particular exam results (with the exception of the CEGEP and German Abitur, which are handled ad hoc) and only for examinations taken prior to entering American University. Specific information regarding application of this principle is contained in the "General Education Advanced Placement Credit Articulation" effective for the academic year of admission. This document is maintained by the General Education office and is available in all advising units.

Transfer Students

Transfer students satisfy their General Education Requirements through a combination of appropriate transfer courses and completion of courses in the General Education Program at American University. Through the evaluation of equivalent courses taken at another institution and with the approval of a student's dean, transfer credit may fulfill all 30 credit hours. In some cases, students supplement transfer credit with General Education courses taken at the university to meet the 30-hour requirement. The need to satisfy sequences is waived when 6 hours in a curricular area are accepted for transfer credit.

Associate in Arts Degree

In the fields in which the university offers an associate degree, this degree requires the completion of at least 60 credit hours. Twenty-four hours of courses must be in the General Education Program, to include one foundation course in each of the five curricular areas and one second-level course in each of three of the five curricular areas.

Study at Another Institution

Transfer credit may be used to fulfill General Education Requirements through the evaluation of equivalent courses taken at another institution and with the approval of the student's dean. Because of the special nature of the program, after the student has been admitted to a degree program at American University no credit toward General Education Requirements may be earned through transfer credit.

General Education and the University Mathematics Requirement

All students must fulfill the University Mathematics Requirement before enrolling in their first (foundation level) course in the Natural Sciences curricular area (Area 5), unless they have placed above Finite Mathematics. Students who have placed above the level of Finite Mathematics may take the foundation course before or concurrently with course work taken to satisfy the University Mathematics Requirement.

Questions about General Education

Who has to complete the General Education Program?

All American University undergraduates must fulfill General Education requirements.

How many courses do I take?

You must take two courses in each of the five Curricular Areas (for a total of ten). First select one of two course clusters in an area. Take from it a foundation course and then follow it with a second-level course that appears in the same cluster. This sequencing is essential to the concept of the program, as each second-level course links in content to particular foundation courses.

Is it possible to take a second-level course before taking the foundation course?

No, if you are taking the courses for General Education credit, the foundation courses serve as a prerequisite for second-level courses.

What if a course closes before I can register for it or it's not offered the semester I want to take it?

Almost all courses are offered at least once a year, so wait until next semester and see if it fits into your schedule. Or, you may take a different course if it's compatible with your schedule and you've met all the prerequisites. However, if it's a second-level course, be sure it's in the same cluster as the foundation course you've taken.

How many courses may I take from each discipline for General Education credit?

Although some academic departments have courses in several Areas, you may not take more than two General Education courses in a discipline. For example, you may only take two sociology courses (course numbers beginning with SOCY) out of your ten General Education courses.

What grade do I have to get in my General Education classes?

You must get a D or better in order to get General Education credit. You may also take a General Education class on a pass/fail basis. However, if you are taking a General Education class to fulfill a requirement towards your major, you may need a different grade. Check with the appropriate academic department to be sure.

May I take a General Education course, but not for General Education credit?

Yes, you may be able to count courses in the General Education Program towards your major or minor requirements, or for elective credit. Courses are offered for non-General Education credit under the same course number.

May I spread out my General Education courses over four years?

The program is designed so that it can be completed in your first two years. You should finish your General Education requirements as soon as possible to keep your last years open for off-campus opportunities, such as internships and study abroad. If you have not yet completed your math requirement, it is essential that you speak to your advisor about its connection to the Area 5 Natural Sciences requirement.

Is there any way I can be exempted from the General Education requirements?

No, all undergraduate students at American University must complete the General Education Program as well as the College Writing and University Mathematics requirements.

May I use my advanced placement credits towards General Education requirements?

Students presenting a 4 or 5 on the Advanced Placement examination, qualifying score on the CLEP examination, or grades for which they have received credit from the British A Levels, CEGEP, International Baccalaureate, German Abitur or other international credential for which they have been granted credit may be able to apply the credit for up to four courses to meet the General Education requirements in any of the five Curricular Areas. Credit for General Education may only be awarded when specific General Education courses, which have been so designated, match particular exam results (with the exception of the CEGEP and German Abitur, which are handled ad hoc) and only for exams taken prior to entering American University. Specific information is contained in the General Education Advanced Placement Credit Articulation effective for the academic year of admission. This document is maintained by the General Education Office and is available in all advising units and online at: www.american.edu/provost/gened/CreditByExam.cfm.

What if I want to take a General Education course at another school or use a study abroad course for General Education credit?

Due to the unique nature of General Education courses and how they're taught, once students are enrolled, they must complete all General Education courses at American University. Courses at other institutions or other American University courses may not be substituted.

Do transfer students have to complete General Education requirements?

Yes, transfer students must still fulfill General Education requirements. However, courses taken prior to admission to American University will be matched with General Education courses to determine whether they qualify for credit in the program. It is technically possible for all ten courses to be transferred with a dean's approval. If a student transfers both courses in one Curricular Area, the sequencing requirement is waived.

Where do I go for help in planning my General Education courses?

Students should take the responsibility of planning which General Education courses they will take, making sure they follow all program requirements and rules. Each semester before registering online, you will be reminded to review your electronic degree audit report, which will indicate the General Education requirements you still need to fulfill. If you have questions or are having difficulty in choosing a particular course, your academic advisor or the publications available on campus and online at www.american.edu/provost/gened may be able to assist you. You may also contact the General Education office at 202-885-3879 or e-mail: gened@american.edu.

What's the connection between the General Education Program and the University Mathematics Requirement?

You must fulfill the University Mathematics Requirement before enrolling in your first (foundation level) course in the Natural Sciences curricular area (Area 5), unless you have "placed" above Finite Mathematics. If you have placed above the level of Finite Mathematics, you may take the foundation course in Area 5 before or concurrently with course work taken to satisfy the University Mathematics Requirement.

Most Important Program Regulations

- Take a foundation and second-level course in sequence from the same cluster in each curricular area.
- Take the foundation course before the second-level course, unless the credit for the second-level course is accepted through transfer.
- Do not take more than two courses from any single discipline as indicated by the subject prefix (for example, BIO is Biology and HIST is History) for General Education credit (including transferred courses).
- Fulfill the University Mathematics requirement before enrolling in the Natural Sciences curricular area, unless you have placed above Finite Mathematics.
- Once enrolled, all courses to fulfill General Education requirements must be taken at American University.
- You must pass a General Education course with a grade of D or better. You may take a General Education course Pass/Fail if the course is not taken for your major or if your major program allows the Pass/Fail option.

Curricular Area 1: The Creative Arts

The creative arts celebrate the human capacity to imagine, to create, and to transform ideas into expressive forms such as paintings, poems, and symphonies. The arts provide us with a rich record of human cultures and values throughout time. They enable us to understand and enjoy the experiences of our senses and to sharpen our aesthetic sense—that human quality through which we comprehend beauty. To appreciate the relationship between form and meaning is to realize that the creative arts, regardless of their medium of expression, share important principles.

Courses in this curricular area have varied emphases: the process of creativity, the analysis of the artistic imagination, or the relationship between artists, their works, and the societies in which their works are produced. Students may choose a

“hands-on” experience and paint, draw, design, or write a poem. Alternatively, they may study both classic and recent works of literature, art, music, dance, or theatre. All courses in this area challenge the student to understand creativity and the distinctive intellectual process of the human imagination.

The Creative Arts: Goals

- examine the nature of creativity, especially imaginative and intuitive thinking
- situate creative works, and judgments about those creative works, in their appropriate social and historical context develop the student’s own creative and expressive abilities, so that the student can better understand the qualities that shape an artist’s work

Foundation Courses: Students select a 100-level course in one of the two clusters.

Second-level Courses: Students select a 200-level course in the same cluster as the foundation course.

Curricular Area 2: Traditions that Shape the Western World

The rich traditions that shape the Western world convey ideas, visions, and cultural practices that are shared, lasting, and tenacious. Whether dominant or prevailing values that many people of Western countries share or the folk traditions that grow out of small communities, these deeply rooted phenomena help us make choices about identity and affinity with family, community, history, values, and place.

Courses in this curricular area have varied emphases. Some examine powerful visions that philosophers, political theorists, historians, religious thinkers, scientists, and social critics have of the Western experience. Others explore competing ideas about human nature, liberty and equality, and the consequences of social change. Finally, some uncover those traditions growing out of the unique experiences of women, ethnic groups, and indigenous peoples as they express and preserve their own principles of social organization and cultural expression.

All courses in this area emphasize chronology and share a close attention both to the substance of the past and the ways to study it. Through direct engagement with primary texts, students learn to ask questions, debate ideas, and come to understand the ways that we experience the events and ideas of the past in our own lives.

Traditions that Shape the Western World: Goals

- explore the diverse historical and philosophical traditions that have shaped the contemporary Western world
- read and discuss fundamental texts from those traditions, situating the texts in their appropriate intellectual contexts
- develop the student's ability to critically and comparatively reflect on religious and philosophical issues, in dialogue with others both past and present

Foundation Courses: Students select a 100-level course in one of the two clusters.

Second-level Courses: Students select a 200-level course in the same cluster as the foundation course.

Curricular Area 3: Global and Multicultural Perspectives

Global interdependence is a powerful fact of life. Through an exploration of societies of Asia, Africa, the Middle East, Latin America and Europe, this curricular area opens the doors into varied cultures and issues that challenge a parochial understanding of the world.

Students may select courses that focus on the major issues of contemporary world politics, including management of conflict, economic competition, and environmental threats to the quality of life. Alternatively, there are courses that emphasize either a comparative or cross-cultural examination of cultures, societies, politics, and belief systems and acknowledge the importance of recognizing and overcoming cultural barriers. Finally, there are courses which focus on the dilemma of the global majority—the three-quarters of the world’s population who live in countries striving for national identity as well as economic and political development.

All courses in this area encourage a better understanding of the dimensions of experience and belief that distinguish cultures

and countries from one another and, conversely, the commonalities that bind human experience together. The courses aim to stimulate awareness of the need for enhanced international and intercultural communication.

Global and Multicultural Perspectives: Goals

- explore those habits of thought and feeling that distinguish regions, countries, and cultures from one another
- discuss, in comparative and cross-cultural perspective, the concepts, patterns, and trends that characterize contemporary global politics
- develop the student’s capacity to critically analyze major issues in international and intercultural relations, especially how categories of difference are organized within and across cultures and how they affect political systems

Foundation Courses: Students select a 100-level course in one of the two clusters.

Second-level Courses: Students select a 200-level course in the same cluster as the foundation course.

Cluster One: Global Perspective

Foundation Courses

Curricular Area 4: Social Institutions and Behavior

Studying the foundations of contemporary American society reveals the elements of complex social systems, the way individuals function in varied social settings, and the root causes of social behavior. In comprehending the mechanisms and rules that give shape to complex societies, we gain strength to influence institutional processes. Through reflection on principles that explain human behavior, we create understanding of our interpersonal experiences.

Courses in this curricular area are of three kinds: those that use one of the traditional social science disciplines to provide an overview of the interaction of individuals and the institutions that shape our economic, political, and social experience; those that focus on a single institution and the complex ways in which it affects our lives; and those that use a societal dilemma as the entry point for discovering the ways in which the quality of individual life is protected or challenged in various settings.

The many and distinct disciplines that contribute to this area are united by a self-conscious dedication to the modes of inquiry

of contemporary social science, as applied to the American experience. As strongly as it emphasizes the substance of knowledge, this curricular area emphasizes how we create knowledge and arrive at understanding.

Social Institutions and Behavior: Goals

- study the institutions, systems, and patterns of governance and of economic and social organization that underlie contemporary societies
- place policy options and their consequences in their appropriate social and political context, drawing on classic and contemporary theories of human organization
- develop the student's capacity to critically reflect on the organization of societies and the relationship between the individual and the society, using the distinctive methods of inquiry appropriate to the study of social institutions

Foundation Courses: Students select a 100-level course in one of the two clusters.

Second-level Courses: Students select a 200-level course in the same cluster as the foundation course.

Curricular Area 5: The Natural Sciences

Through observation and analysis of the physical and biological world, scientists discern basic principles that explain natural phenomena and unravel many mysteries. Whether chemist, biologist, physicist, or experimental psychologist, scientists rely on theory and experimentation to test and refine understanding of our bodies, our complex environment, and the universe.

All courses in this curricular area focus on the nature of scientific reasoning, discovery, and invention through the systematic exploration of basic concepts within their historical context. Foundation courses unite “hands-on” scientific experimentation, inductive reasoning, and deductive analysis with the study of basic principles such as the structure of matter, biological evolution, human behavior, and thermodynamics. The second-level courses include both traditional advanced study in each discipline as well as integrative courses such as oceanography, earth sciences, astronomy, and human biochemistry and health. This curricular area conveys a respect for the natural

world, extends scientific literacy, and refines the modes of thought that characterize scientific inquiry.

The Natural Sciences: Goals

- study the makeup and workings of the natural world and the beings inhabiting it
- examine the historical development and current status of scientific methods, concepts, and principles, allowing contemporary scientific knowledge to be placed in its proper context
- develop the student’s own problem-solving and laboratory skills, so that the student can better understand how scientific research works

Foundation Courses: Students select a 100-level course in one of the two clusters.

Second-level Courses: Students select a 200-level course in the same cluster as the foundation course.

The College of Arts and Sciences (CAS) is dedicated to excellence in teaching, scholarship, the arts, and service to its local, national, and international communities.

The college provides a rich education in the liberal arts and sciences for all of American University's undergraduate students, offers challenging programs of study for its undergraduate and graduate majors; and fosters outstanding research, practice, and creative activity.

The college is committed to the core purposes of liberal education: promoting free and rational discourse, fostering an understanding of the diversity of human experience, providing the critical intellectual skills necessary to navigate a rapidly changing world, and integrating knowledge across disciplinary boundaries.

Undergraduate Study

Academic Advisement

The college challenges students to assume substantial responsibility for defining their educational goals, yet provides careful professional guidance to help them respond to the challenge. Undergraduates plan their academic programs with academic counselors and faculty advisors according to their interests, professional plans, and academic progress. Before they enroll in classes, first-semester freshmen choose courses with the assistance of a detailed curriculum guide. During freshman orientation, students are assigned an academic counselor who serves as the primary advisor until they choose their

majors, usually by the end of the sophomore year. After students formally declare their majors, they are advised by faculty advisors from their major departments, but may consult with their academic counselor as needed. At transfer orientation or upon enrollment, transfer students meet with an academic counselor and then go to the departments of their intended majors for academic advisement as described above. Transfer students undecided on a major, are advised by an academic counselor.

Foreign Language

The university encourages students to gain proficiency in at least one foreign language, especially those embarking on a career in international relations, study of the humanities, or specialization in minority groups in the United States. Graduate study will often require proficiency in one or more foreign languages.

Internships and Cooperative Education

Internship and cooperative education engage students in practical experiences, support learning, and provide on-the-job training. Interns work in many organizations in both the public and the private sectors in the Washington area. The growing number of internships in the college is testimony to both their popularity and their success. For more information on internships and cooperative education, students should consult with their academic units and the Career Center.

Majors

No later than the end of the sophomore year, CAS students are expected to declare an academic major. In this field the student pursues study in depth and synthesizes academic knowledge. Major programs are described in the departmental sections. Students should become familiar with departmental requirements and regulations as stated in this catalog. When making a formal declaration of major, students are assigned an academic advisor who will supervise their studies until graduation. Students interested in the natural sciences, mathematics, music, and art need to take specific courses in the freshman year if they intend to complete a degree in eight semesters. Such students should declare their interests as soon as possible and seek explicit counseling from the appropriate department.

Interdisciplinary Major

This program permits College of Arts and Sciences undergraduates to complete an interdisciplinary major according to their needs, abilities, and interests. A program is formulated with the advice and approval of three faculty members from disciplines relevant to the student's defined emphasis, and is subject to the review and approval of the dean.

The initiative lies with the student, who is responsible for determining the concept or theme on which the program is to center. With the three faculty members, the student determines the requirements of the chosen concentration and identifies a sequence of course work that fulfills the program's objectives. The program must be formulated in a written statement no later than the first semester of the junior year. For more information see undergraduate degree requirements.

Minors

Undergraduate students may earn a minor in most departments and programs of the College of Arts and Sciences. All minor programs consist of a minimum of 18 credit hours, including at least 9 credit hours at the 300 level or above. For all minors, at least 9 credit hours of the stated requirements must be taken in residence at American University and at least 12 credit hours of the minor must be unique to the minor. For more information see undergraduate degree requirements. For descriptions of specific minor programs, see individual departmental listings.

Preprofessional Programs

Preprofessional programs are available in engineering, law, and medicine and related health fields. Pre-theology students find the university's relationship with the Wesley Theological Seminary beneficial, and the Kay Spiritual Life Center directs an innovative program of religious activities that complements preprofessional studies in religion.

Study Abroad

AU Abroad offers the opportunity for students to study abroad and gain full American University course credit. All students are encouraged to learn and work in another culture. Students may spend a semester or year at prestigious universities in over 40 countries, spanning six continents. In addition, international study tours led by faculty members are offered during semester breaks and summer sessions. For more information and a full listing of AU Abroad programs, go to www.auabroad.american.edu/.

Associate in Arts (A.A.)

This program is designed to serve the educational needs of high school graduates who seek professional or personal advancement through either full- or part-time study. Some students do not or cannot remain in college for four years, yet desire to complete a degree program. The Associate in Arts degree may be awarded after successful completion of two years' study or the equivalent.

Admission to the Program

Any student admitted to degree status at American University is eligible for admission to this program.

University Requirements

- A total of 60 credit hours
- 6 credit hours of college writing
- 3 credit hours of college mathematics or the equivalent by examination

General Education Requirements

- A total of eight courses including one foundation course in each of the five curricular areas and one second-level course in three of the five curricular areas, in an approved sequence.
- No more than two courses may be taken in the same discipline

Graduate Study

The graduate programs of the College of Arts and Sciences are directed toward the development of highly competent scientists, artists and performers, sensitive teachers, and critical scholars. To achieve this objective, the college provides an academic setting and climate favorable to the free interchange of ideas and the disciplined exploration and testing of concepts and hypotheses.

Doctoral programs are offered in anthropology, economics, history, clinical psychology, and behavior, cognition, and neuroscience. All departments offer master's programs, including innovative interdisciplinary studies that enhance students' understanding of, and sensitivity to, the intellectual issues and practical applications of their own fields.

African American and African Diaspora Studies

Advisor Keith Leonard, Department of Literature

Minor in African American and African Diaspora Studies

The minor in African American and African Diaspora Studies is a rigorous interdisciplinary program that examines African American culture in the continental United States in the context of the cultures of the African diaspora. The program provides students with an understanding of the rich history and cultures of African American peoples in the United States, with opportunities to explore contemporary and historical African cultures, theories of racial ideology and race politics, and the distinctive artistic, literary and cultural practices of African people worldwide.

American Studies

Faculty from the Departments of Anthropology, History, Literature, and other departments and schools of the university teach courses in the program.

Director: Katarina Vester (History)

The American Studies Program offers a highly interdisciplinary major and minor in which students can explore the different cultures and cultural expressions of the United States during its history and today. Students have the opportunity to research complex questions and follow interests that go beyond the confines of a single discipline and which are crucial to an understanding of U.S. society and politics. American Studies students learn to analyze U.S. society through sources ranging from historical documents, paintings, films, literature, blogs, and video games, thus preparing them for a wide range of careers in the media, museums, urban planning, education, and governmental and non-governmental organizations, in the United States or abroad.

The faculty consists of expert teachers and scholars from different departments, including anthropology, art history, history, literature, and education, who cooperate closely with D.C. community leaders and institutions, thus bringing diverse learning experiences into the classroom. Courses in American Studies encourage students to use the many resources D.C. has to offer and to participate in internships and service-learning (themed volunteer work accompanying a specific course and supervised by faculty). Many of our students find internships and part-time jobs in D.C.'s political and cultural institutions, thus complementing their education with practical experience.

Taking advantage of its unique location, the American Studies Program at AU focuses on studies of urban D.C. and the region as well as the study of the United States' diverse cultural relations with the world (such as migration, tourism, and ethnic cuisine). We encourage students to participate in AU's Study Abroad Program to experience an outside perspective on the U.S. The American Studies Program at AU offers a unique profile and learning experience from which students can benefit in many ways.

B.A. in American Studies

Admission to the Program

Formal admission to the major requires a grade point average of 2.50 (on a 4.00 scale) in two courses related to the major.

University Requirements

- A total of 120 credit hours
- 6 credit hours of college writing
- 3 credit hours of college mathematics or the equivalent by examination

General Education Requirements

- A total of ten courses, consisting of one foundation course and one second-level course in an approved sequence from each of the five curricular areas
- No more than two courses may be taken in the same discipline

Major Requirements

- 39 credit hours with grades of C or better

Course Requirements

AMST-491 Internship in American Studies (3)
- 9 additional credit hours in American studies (AMST-xxx) courses at the 300 level or above, excluding independent study and internships
- 21 credit hours, with at least 15 credit hours at the 300-level or above, and no more than 9 credit hours taken in the same department, in courses focusing on Washington, D.C., the United States, or the United States and the world, selected from at least three departments or programs including American Studies, Anthropology, Art History, History, or Literature.

University Honors Program

To graduate with University Honors, students must be admitted to the University Honors Program, maintain a minimum cumulative GPA of 3.50, and receive grades of B or better in all University Honors course work. There are three levels of University Honors course requirements: Level I (100-200-level); Level II (300-level and above); and Level III (Honors Capstone Project). The department Honors coordinator advises students in the University Honors Program regarding requirements for graduating with University Honors in the major.

Combined Bachelor's and Master's Degrees

American University offers students the opportunity to earn both undergraduate and graduate degrees through its accelerated bachelor's/master's programs. Undergraduate students may complete up to 3 credits for every 9 credits required for the graduate degree that may be applied to the requirements for both degree programs. The department that oversees the graduate program the student enters will determine if the courses the undergraduate student completes will satisfy master's degree requirements.

Bachelor's/master's students must complete at least 18 in-residence credit hours at the graduate level after the bachelor's degree is earned and maintain continuous, sequential enrollment in the two programs. Students must finish the master's degree requirements within three years from the date of first enrollment in the master's program.

Humans have always constituted their families, sexuality, gendered identities, social groups, religious practices, work, play, and artistic expression in dramatically diverse ways. Anthropologists explore everyday experience, cultural difference, and power relations in order to understand this diversity in the context of local and global histories. Stark inequalities are also part of the human experience, and anthropologists seek to uncover the ideologies and processes that create and mask those inequalities.

Different kinds of anthropologists explore difference and power from specialized perspectives. Cultural and social anthropologists search for the connections between cultural meanings and lived human experience. Archaeologists probe the remains of past civilizations for significant transformations in the ways communities organized their homes and labor. Biological anthropologists document the dynamics of human evolution and study nutrition, health, and illness in their cultural contexts. Linguists examine the varied texts that speakers create for clues that language holds to hierarchy and personal expression.

Anthropology students examine past and present societies to bring anthropological and archaeological theory and practice to ongoing struggles against racism, sexism, homophobia, inequality, poverty, environmental degradation, and ethnic/cultural genocide. The undergraduate anthropology program at American University introduces students to all four subfields of anthropology, and many students specialize in one. Graduate programs include the M.A. in Public Anthropology and doctoral concentrations in cultural/social anthropology; archaeology; and race, gender, and social justice. A Certificate in Public Anthropology is offered for both undergraduates and graduate students. All programs stress active, cooperative learning, for

anthropology opens up many exciting questions for discussion and debate.

Students are encouraged to learn outside the classroom, through internships and job placements, field trips and experiential classes, and study abroad. Washington, D.C. offers many opportunities for students to broaden their learning through museums and research facilities and the rich community life of the city. Many anthropology majors choose to spend a semester abroad. With prior approval, the department accepts courses taken through AU Abroad as credit for the major.

Combined B.A. in Anthropology and M.A. in Public Anthropology

American University offers students the opportunity to earn both undergraduate and graduate degrees through its accelerated bachelor's/master's programs. Undergraduate students may complete up to 3 credits for every 9 credits required for the graduate degree that may be applied to the requirements for both degree programs. The department that oversees the graduate program the student enters will determine if the courses the undergraduate student completes will satisfy mas-

ter's degree requirements. Bachelor's/master's students must complete at least 18 in-residence credit hours at the graduate level after the bachelor's degree is earned and maintain continuous, sequential enrollment in the two programs.

This program allows qualified students to complete both the B.A. in Anthropology and the M.A. in Public Anthropology.

Requirements

- The standards for admission to the undergraduate major must first be satisfied. Undergraduate majors ordinarily apply for admission to the combined B.A./M.A. program at the end of their junior year. Admission decisions follow the procedures used to evaluate graduate applicants to the M.A. program. Interest in this program should be discussed with members of the faculty before formal application is begun.
- All requirements for the B.A. in Anthropology
 - Undergraduate students may apply up to 9 credit hours of approved graduate-level course work in anthropology to satisfy the requirements for both degrees.
- All requirements for the M.A. in Public Anthropology, including a minimum of 18 credit hours completed in residence in graduate status after the undergraduate degree has been awarded. Students must finish the master's degree requirements within three years from the date of first enrollment in the master's program.

Minor in Anthropology

- 18 credit hours with grades of C or better and at least 12 credit hours unique to the minor

Course Requirements

- ANTH-542 Reinventing Applied Anthropology (3) (taken after completion of at least 6 credit hours in anthropology)
- An additional 12 credit hours with at least 9 credit hours at the 300 level or above, chosen from at least two subfields (socio-cultural, linguistic, archaeological, physical) in consultation with an advisor.

Undergraduate Certificate in Public Anthropology

Admission to the Program

Open to undergraduate degree and nondegree students. Students must complete 6 credit hours with grades of C or better in anthropology courses at the 200 level or above, or have internship experience in a related field before beginning course work for the certificate.

Certificate Requirements

- 15 credit hours of approved course work with at least 9 credit hours at the 300-level or above, with grades of C or better. Grades of C- or D in certificate program courses are not accepted toward the fulfillment of certificate requirements, although these grades will be included in the calculation of the GPA. Students must have at least a 3.0 GPA in certificate courses in order to be awarded a certificate. Students in certificate programs must take a minimum of 6 credit hours during each 12-month period and complete the certificate in four years. International students must enroll in 12 credit hours each semester (except for summer). A maximum of 3 credit hours earned at an accredited college or university may be applied toward the certificate as transfer credit.

Course Requirements

- ANTH-541 Anthropology and State Policy (3)
or
ANTH-542 Reinventing Applied Anthropology (3)
- 12 credit hours in public anthropology courses at the 300 level or above, chosen in consultation with the student's faculty advisor.

M.A. in Public Anthropology

Admission to the Program

Applicants must meet the minimum university requirements for admission to graduate study. Admission is based on academic record, two academic letters of reference, and an example of the applicant's work, e.g., a term paper. Graduate Record Examination (GRE) scores are required.

Degree Requirements

- 30 credit hours of approved graduate work
Students focus their studies in either cultural/social anthropology or archaeology
- One written comprehensive examination, appropriate to the student's concentration
- A thesis or nonthesis option of two substantial research papers prepared in conjunction with advanced courses or research seminars, read and approved by two faculty members and the department chair

The Department of Art encompasses the creative activities of the fine arts (painting, sculpture, printmaking, and multimedia), the artistic applications of design, and the theoretical and historical concerns of art history. These complementary programs function together, so that the student gains not only depth of knowledge in a chosen specialty but also the breadth of experience that yields understanding of artistic traditions, values, cultural awareness, and contemporary issues. A faculty of exhibiting artists, practicing designers, published and respected historians, and strong studio programs focused on giving students facility with materials and familiarity with visual and theoretical concepts make the art department, in effect, an art school within a university.

The Art Department offers the Bachelor of Arts in Art History, Graphic Design, or Studio Art, all of which can also be taken as minors, a Bachelor of Fine Arts, and M.F.A. in Studio Art.

The study of art awakens the ability to undertake a serious exploration of visual form, opens the mind to the special meanings encoded in visual language, and develops the creative, expressive, and analytic abilities inherent in all people. In studio courses, students learn to see with acuity, to explore forms in nature or from the imagination, and to make images that are formally coherent and personally expressive. In art history courses, students are introduced to the art of civilizations past and present, learn how to interpret works of art critically and historically, and discover how art functions both to reflect and to shape social values. In graphic design courses, students develop an understanding of the dynamic power of visual imagery and learn to apply their knowledge of the formal elements of art to the production of effective graphic communication.

American University's Katzen Arts Center provides students with a state of the art facility for the investigation and pursuit of both the visual and performing arts. The Art Department's offices, classrooms, and studios are equipped for the instruction of drawing, painting, printmaking, sculpture, design, computer graphics, multimedia, and ceramics.

As well as multiple performance stages and a full array of classroom and studio facilities, the Katzen Arts Center contains more than 30,000 square feet of gallery space and an impressive museum including the Watkins and Katzen collections, with works by Avery, Chagall, Dove, Klee, Kokoshka, Marin, Matisse, and Picasso, and a vital rotating schedule of exhibitions. The many world-class museums in Washington, D.C. also form an integral component of students' experience at American University.

In addition to the full-time faculty, each year the studio program brings nationally and internationally distinguished visiting artists-in-residence to the department, including Olive Ayhens, Gregory Amenoff, Frances Barth, Jake Bertlot, Susanna Coffey, Diana Cooper, Stuart Diamond, Tara Donovan, Andrew Forge, Sam Gilliam, Judy Glantzman, Glenn Goldberg, Margaret Grimes, Diana Guerrero-Macia, Bill Jensen, Shirley Kaneda, Catherine Murphy, Judy Pfaff, Katherine Porter, Hanneline Rogeberg, Roger Tibbetts, Tracy Miller, James Sheehan, Pat Steir, John Walker, Stephan Westfall, and others.

An internationally-prominent art history faculty and strong curriculum give the art history major a solid grounding in art as a historical and humanistic discipline in an environment that provides continuing contact with art in the making. Because of the university's location in one of the major art capitals of the world and its proximity to Washington's great museums and art collections, all programs afford students the advantage of immediate experience with art masterpieces of the past and present.

The design curriculum is highly structured and sequential to provide students with the theory and practice of graphic communications design applicable to many purposes, as well as the development of professional production methods. Courses cover publication and editorial design, corporate identity, packaging, illustration, poster design, multimedia, experience and interactive design, etc. Along with creative and technical skills, verbal and analytical abilities are developed through class critiques. Through internships with designers working in the field, students learn to balance the ideal creative solution with the reality of budget constraints, technical limitations, and deadlines.

An important objective of the department is to prepare students for careers in the arts. Given the sound theoretical and technical bases of our programs, graduates find that a wealth of individual career opportunities awaits them. Depending on the specific discipline pursued, they have become professional painters and sculptors, teachers, critics, graphic designers, illustrators, and exhibition design specialists. Graduates also go on to careers in museum and gallery work, visual resources, and historic preservation.

B.A. in Art History

Admission to the Program

Formal admission to the major requires satisfactory completion (grades of C or better) of 12 credit hours of art history courses and departmental approval.

University Requirements

- A total of 120 credit hours
- 6 credit hours of college writing
- 3 credit hours of college mathematics or the equivalent by examination

General Education Requirements

- A total of ten courses, consisting of one foundation course and one second-level course in an approved sequence from each of the five curricular areas
- No more than two courses may be taken in the same discipline

Major Requirements

- 39 credit hours with grades of C or better including a minimum of 15 credit hours at the 300-level or above and at least 20 credit hours taken in residence at American University

Art history majors are advised to take at least 12 credit hours in elective courses that complement their interests in art history from studio art, American studies, anthropology, history, literature, music, or philosophy, or a minor in one of these fields.

Students planning graduate study in art history are advised to attain a reading knowledge of French, Italian, or German to the intermediate level (or the equivalent of 12 credit hours at the college level).

Course Requirements

- ARTH-105 Art: The Historical Experience 1:1 (3)
- ARTH-205 Art of the Renaissance 2:2 (3)
- ARTH-210 Modern Art: Nineteenth and Twentieth Centuries 1:2 (3)
- ARTH-220 Introduction to the Arts of Japan (3)
- ARTH-500 Approaches to Art History (3)
- 12 credit hours in courses in each of four periods: Renaissance/Baroque, modern European, American, and Asian art history
- 9 credit hours at the 300-level or above, which may include 3 credit hours in ARTH-491 Internship with departmental approval

With approval of the art history advisor, two 3-credit courses taken through AU Abroad may be counted toward the major requirements.

University Honors Program

To graduate with University Honors, students must be admitted to the University Honors Program, maintain a minimum cumulative GPA of 3.50, and receive grades of B or better in all

University Honors course work. There are three levels of University Honors course requirements: Level I (100-200-level); Level II (300-level and above); and Level III (Honors Capstone Project). The department Honors coordinator advises students in the University Honors Program regarding requirements for graduating with University Honors in the major.

Combined Bachelor's and Master's Degrees

American University offers students the opportunity to earn both undergraduate and graduate degrees through its accelerated bachelor's/master's programs. Undergraduate students may complete up to 3 credits for every 9 credits required for the graduate degree that may be applied to the requirements for both degree programs. The department that oversees the graduate program the student enters will determine if the courses the undergraduate student completes will satisfy master's degree requirements.

Bachelor's/master's students must complete at least 18 in-residence credit hours at the graduate level after the bachelor's degree is earned and maintain continuous, sequential enrollment in the two programs. Students must finish the master's degree requirements within three years from the date of first enrollment in the master's program.

B.A. in Graphic Design

Admission to the Program

Formal admission to the major requires satisfactory completion (grades of C+ or better) of the following foundation courses:

- GDES-200 Introduction to Graphic Design (3)
- GDES-210 Introduction to Typography (3)
- GDES-220 Computer Literacy for Design (3)
- COMM-330 Principles of Photography (3)

University Requirements

- A total of 120 credit hours
- 6 credit hours of college writing
- 3 credit hours of college mathematics or the equivalent by examination

General Education Requirements

- A total of ten courses, consisting of one foundation course and one second-level course in an approved sequence from each of the five curricular areas
- No more than two courses may be taken in the same discipline

Major Requirements

- 54 credit hours with grades of C or better
- 24 of the last 30 credit hours in the major program must be taken in residence, of which 18 credit hours must be in design and 3 credit hours in art history or studio.

All students will submit a portfolio for departmental evaluation prior to beginning their senior year. The department may issue formal warnings to students performing at marginal levels.

University Honors Program

To graduate with University Honors, students must be admitted to the University Honors Program, maintain a minimum cumulative GPA of 3.50, and receive grades of B or better in all University Honors course work. There are three levels of University Honors course requirements: Level I (100-200-level); Level II (300-level and above); and Level III (Honors Capstone Project). The department Honors coordinator advises students in the University Honors Program regarding requirements for graduating with University Honors in the major.

Combined Bachelor's and Master's Degrees

American University offers students the opportunity to earn both undergraduate and graduate degrees through its accelerated bachelor's/master's programs. Undergraduate students may complete up to 3 credits for every 9 credits required for the graduate degree that may be applied to the requirements for both degree programs. The department that oversees the graduate program the student enters will determine if the courses the undergraduate student completes will satisfy master's degree requirements.

Bachelor's/master's students must complete at least 18 in-residence credit hours at the graduate level after the bachelor's degree is earned and maintain continuous, sequential enrollment in the two programs. Students must finish the master's degree requirements within three years from the date of first enrollment in the master's program.

Bachelor of Fine Arts

Admission to the Program

Formal admission to the program is subject to the approval of a portfolio, evaluation of the academic record, and a personal interview. Admission depends entirely on faculty action resulting from this review. Consideration for the B.F.A. is permitted only after 18 credit hours or three semesters of studio work have been completed at American University but before beginning the senior year.

University Requirements

- A total of 120 credit hours
- 6 credit hours of college writing
- 3 credit hours of college mathematics or the equivalent by examination

General Education Requirements

- A total of ten courses, consisting of one foundation course and one second-level course in an approved sequence from each of the five curricular areas
- No more than two courses may be taken in the same discipline

M.A. in Art History

Admission to the Program

In addition to meeting the minimum university requirements for graduate study, applicants should hold a bachelor of arts degree from an accredited college or university. Admission is based on the academic record, Graduate Record Examination (GRE) scores, two letters of recommendation from professors with whom work was taken recently, a writing sample, and favorable judgement by the department graduate admissions committee.

Students whose records indicate a strong aptitude for graduate study, but whose undergraduate major was not in art history, will be required to complete at least 24 credit hours of art history before being considered for admission to the graduate program. At the department's discretion, students who have completed at least 18 credit hours of art history may be considered for admission and, if admitted, may complete the 6 credit hour deficiency during the course of their M.A. program.

The M.A. requires at least four semesters of full-time study. Part-time students are advised that the program cannot be completed at night and graduate courses, except independent study or internships, are not offered during the summer sessions.

The program prepares students for varied career options, including further study at the Ph.D. level, teaching in high

schools or community colleges, diverse types of museum work (curatorial, development, education, registrar, etc.), historical preservation research, library and archival positions, editing, and other employment opportunities.

Degree Requirements

- 30-36 credit hours of approved graduate work
 - For the 30-credit hour program, students take ten courses that focus on discipline-oriented, research-based academic offerings, including the option of a 3-credit internship.
 - The 36-credit hour program with a museum studies specialization requires two additional approved courses in museum studies, arts administration, conservation, or related fields.
 - Both programs provide excellent grounding in art historical methods, analytical skills, and research practices with conventional period specializations in European and American art from early Renaissance through contemporary, plus a range of non-Western topics.
- Tool of research: intermediate-level French, German, Italian, or Spanish must be demonstrated after 18 credit hours in the M.A. program through one of the following: four semesters of language course work, a written examination offered by the Department of Language and Foreign Studies, or satisfactory completion of an approved graduate-level intensive reading course.
- Advancement to candidacy after completion of 18 credit hours with a grade point average of 3.00 or higher and satisfactory completion of the tool language requirement
- Two written examinations
 - first exam: History of Western Art (Greek to Modern), with an optional essay on a non-Western topic
 - second exam: student's field of specialization: Renaissance/Baroque, modern European, art of the United States, or non-Western art
- Two substantial research papers in lieu of a thesis; one must be in the student's field of specialization, the second in a different field with another supervising professor

Course Requirements

- ARTH-500 Approaches to Art History (3)
- 6 credit hours from the following
 - ARTH-792 Research Seminar in Art History (3)
 - and/or*
 - ARTH-793 Directed Research in Art History (3)
 - or*
 - ARTH-690 Independent Study (3)
- 9 credit hours in a field of specialization
- 12 credit hours in additional approved courses

Museum Studies Specialization

- 6 credit hours of approved course work or internship

M.F.A. in Studio Art

Admission to the Program

In addition to meeting the minimum university requirements for graduate study, applicants should hold a Bachelor of Arts (with a major in Fine Arts) or a Bachelor of Fine Arts. Under special circumstances, applicants without a B.A. or B.F.A. degree or without a major in Fine Arts, but with outstanding artistic or professional qualifications, may be considered for admission.

Admission is based on academic record, two letters of recommendation, and a portfolio of at least twenty slides, including examples of drawings. A resume of the applicant's background should be included in the portfolio. Slide portfolios should be sent directly to the Department of Art. The department cannot be liable for loss or damage or for any transportation or mailing expense.

Degree Requirements

- 36 credit hours of approved graduate work
Additional studio (or art history) courses may be required to attain maturity and proficiency and to complete satisfactorily the comprehensives and thesis. The number and kinds of additional courses will be stipulated by the admissions committee at the time of admission.
- One public oral examination after completion of each semester of ARTS-797 Master's Thesis Seminar and mandatory attendance at all M.F.A. in Studio Art public oral examinations
- A thesis exhibition of original works of art in the student's area of specialization executed independently by the student in consultation with a thesis committee of two or three faculty members. Written and photographic documentation of approved thesis is also required.
- Mandatory attendance at all visiting artist lectures and critiques

Asian Studies

Coordinator Quansheng Zhao, Director, Center for Asian Studies and Professor, School of International Service

The Asian Studies certificate is an interdisciplinary program involving courses taught by faculty from across the university.

Undergraduate Certificate in Asian Studies

Admission to the Program

Open to undergraduate degree and nondegree students.

Certificate Requirements

- 15 credit hours of approved course work with at least 9 credit hours at the 300-level or above, with grades of C or better. Grades of C- or D in certificate program courses are not accepted toward the fulfillment of certificate requirements, although these grades will be included in the calculation of the GPA. Students must have at least a 3.0 GPA in certificate courses in order to be awarded a certificate. Students in certificate programs must take a minimum of 6 credit hours during each 12-month period and complete the certificate in four years. International students must enroll in 12 credit hours each semester (except for summer). A maximum of 3 credit hours earned at an accredited college or university may be applied toward the certificate as transfer credit.
- Capstone: successful completion of a 3-credit hour Asian studies research project conducted under the supervision of an Asian studies faculty member. An independent study or Honors Capstone paper may be used to fulfill this requirement.
- Students must complete at least one year of language courses or the equivalent in Chinese, Hindi, or Japanese, or other languages with approval of the faculty advisor.

Course Requirements

Gateway Requirement

- One of the following:
 HIST-347 Asian Studies (3) (topics)
 PHIL-313 Studies in Asian Philosophy (3) (topics)
 SIS-161 Civilizations of Asia (3)
 SIS-567 International Relations of East Asia (3)

Concentration

- 9 credit hours from the following with at least one course from a department other than the one in which the student has a primary focus:
 ANTH-230 India: Its Living Traditions 3:2 (3)
 HIST-347 Asian Studies (3) (topics) (if not used for Gateway requirement above)
 PHIL-313 Studies in Asian Philosophy (3) (topics) (if not used for Gateway requirement above)

The Department of Biology provides courses in the life sciences, emphasizing advances in molecular genetics, embryology, development, and evolutionary biology. Faculty members conduct research in numerous areas including biodiversity, cave biology, cell biology, conservation biology, developmental biology, evolutionary ecology, immunology, marine science, marine mammals, microbiology, molecular genetics, neurobiology, oceanography, and vertebrate vision. Students are encouraged to participate in research projects at all levels. Students also have the opportunity to visit, observe, and intern at some of the nation's most prestigious biological research centers, including the National Institutes of Health (NIH), National Institute of Mental Health (NIMH), Smithsonian Institution, Environmental Protection Agency (EPA), National Oceanic & Atmospheric Administration (NOAA), National Aquarium in Baltimore, and the National Zoo.

The department has both undergraduate and graduate teaching laboratories as well as faculty research laboratories in which students are encouraged to learn. Students have the opportunity to gain experience with a wide variety of techniques including nucleic acid and protein isolation, DNA analysis and electrophoresis, bacterial and primary cell culture, stereo, compound, and fluorescent microscopy, and computer-assisted measurements with data analysis. The facilities of the Department of Biology such as the Digital Imaging Core Facility and cooperative agreements with various government laboratories make possi-

ble opportunities for research in environmental, ecological, marine, and biomedical sciences.

The Department of Biology offers the B.S. in Biology, B.S. in Marine Biology, and the M.A. or M.S. in Biology. Undergraduate minors in biology and marine biology are also available. In collaboration with the Department of Sociology, a B.A. and B.S. in Public Health are offered, as well a minor. The department provides basic training in the life sciences, emphasizing modern advances in the areas of molecular genetics, embryology and development, and evolutionary biology. In addition to training for a career or graduate study in biology, students are prepared for medical, dental, and veterinary schools. The Department of Biology offers courses that combine traditional education with the training necessary for today's professional marketplace. The curriculum is designed to allow individuals maximum choice of course selection after departmental requirements have been met.

The graduate degree programs emphasize the development of research techniques. Research and teaching laboratories are well equipped and constantly upgraded. Students have the opportunity to gain experience in scientific methods and experimental design in the laboratory and in the field.

The premedical programs of the College of Arts and Sciences, including a Postbaccalaureate Premedical Certificate, are available to help all undergraduate, postbaccalaureate, and graduate students who are considering a career in medicine or one of the allied health professions.

Special Opportunities

- Gloria Likins Scholarship for Undergraduate Women
- Stephen C. Grebe Memorial Fund for Undergraduate Research
- Teaching fellowships or assistantships

University Honors Program

To graduate with University Honors, students must be admitted to the University Honors Program, maintain a minimum cumulative GPA of 3.50, and receive grades of B or better in all University Honors course work. There are three levels of University Honors course requirements: Level I (100-200-level); Level II (300-level and above); and Level III (Honors Capstone Project). The department Honors coordina-

tor advises students in the University Honors Program regarding requirements for graduating with University Honors in the major.

Combined B.S. and M.A. or M.S. in Biology

American University offers students the opportunity to earn both undergraduate and graduate degrees through its accelerated bachelor's/master's programs. Undergraduate students may complete up to 3 credits for every 9 credits required for the graduate degree that may be applied to the requirements for both degree programs. The department that oversees the graduate program the student enters will determine if the courses the undergraduate student completes will satisfy master's degree requirements. Bachelor's/master's students must complete at least 18 in-residence credit hours at the graduate level after the bachelor's degree is earned and maintain continuous, sequential enrollment in the two programs.

This program enables qualified students to earn, in a continuous plan of study, both the B.S. in Biology and the M.A. or M.S. in Biology.

Requirements

- Undergraduate biology majors should apply for admission to the B.S./Master's program by the end of the junior year. Admission is open to undergraduates whose overall grade point average and grade point average in biology course is 3.00 or higher. Applications must be accompanied by two letters of recommendation, a statement of purpose, and Graduate Record Examination (GRE) scores. Each student's file must be approved by the department's Graduate Studies Committee prior to the end of the junior year to assure adequate time to complete degree requirements for the program. Students should discuss their interest in the program and their course schedules with members of the faculty before submitting a formal application. Interested students are encouraged to enroll in up to 3 credit hours of BIO-490 Independent Study Project to conduct independent study research before applying.
- All requirements for the B.S. in Biology Undergraduate students may apply up to 9 credit hours of approved graduate-level course work in biology, CHEM-560 Biochemistry I, and STAT-514 Statistical Methods to satisfy the requirements for both degrees. All requirements for the M.A. or M.S. in Biology, including a minimum of 18 credit hours completed in residence in graduate status after the undergraduate degree has been awarded. Students must finish the master's degree requirements within three years from the date of first enrollment in the master's program.

University Honors Program

To graduate with University Honors, students must be admitted to the University Honors Program, maintain a minimum cumulative GPA of 3.50, and receive grades of B or better in all University Honors course work. There are three levels of University Honors course requirements: Level I (100-200-level); Level II (300-level and above); and Level III (Honors Capstone Project). The department Honors coordinator advises students

in the University Honors Program regarding requirements for graduating with University Honors in the major.

Combined Bachelor's and Master's Degrees

American University offers students the opportunity to earn both undergraduate and graduate degrees through its accelerated bachelor's/master's programs. Undergraduate students may complete up to 3 credits for every 9 credits required for the graduate degree that may be applied to the requirements for both degree programs. The department that oversees the graduate program the student enters will determine if the courses the undergraduate student completes will satisfy master's degree requirements.

Bachelor's/master's students must complete at least 18 in-residence credit hours at the graduate level after the bachelor's degree is earned and maintain continuous, sequential enrollment in the two programs. Students must finish the master's degree requirements within three years from the date of first enrollment in the master's program.

Minor in Biology

- 28 credit hours with grades of C or better and at least 12 credit hours unique to the minor

Course Requirements

- BIO-110 General Biology I 5:1 (4)
- BIO-210 General Biology II 5:2 (4)
- BIO-300 Cell Biology with Laboratory (4)
- BIO-356 Genetics with Laboratory (5)
- CHEM-110 General Chemistry I 5:1 (4)
- CHEM-210 General Chemistry II 5:2 (4)
- One additional upper-level Biology course approved by the department chair

Minor in Marine Biology

- 21 credit hours with grades of C or better and at least 12 credit hours unique to the minor

Course Requirements

- BIO-110 General Biology I 5:1 (4)
- BIO-140 Seminar in Marine Biology: Marine Science (2)
- BIO-210 General Biology II 5:2 (4)
- BIO-240 Oceanography 5:2 (3)
- BIO-241 Seminar in Marine Biology: Biological Oceanography (2)
- BIO-340 Marine Biology (3)
3 additional credits in upper-level marine biology course work approved by the department chair

M.A. in Biology

This is a nonthesis degree for students seeking various life science professions, as additional training for students seeking admission to professional schools, or as an intermediate degree for those intending to pursue further graduate study.

Admission to the Program

In addition to meeting the minimum university requirements for graduate study, applicants must take the Graduate Record Examination, including the General Test and the Advanced Test in Biology. International applicants whose first language is not English are required to submit results of the Test of English as a Foreign Language (TOEFL). Applicants must submit two letters of recommendation.

Degree Requirements

- 30 credit hours of approved graduate work
- Comprehensive examination
- Directed literature research (BIO-790) resulting in a significant paper reviewing some aspect of life science; the subject of this review paper is selected by the student subject to approval by the graduate studies committee and the chair of the department
- An oral report presented in the form of a public seminar on the topic of the review paper

Course Requirements

- BIO-566 Evolutionary Mechanisms (3)
- BIO-583 Molecular Biology (3)
- BIO-677 Topics in Developmental Biology (1)
or
BIO-679 Topics in Evolutionary Biology (1)
- BIO-697 Research Methodology in Biology (3)
- BIO-790 Biology Literature Research (3)
- STAT-514 Statistical Methods (3) (satisfies tool of research requirement)
- An additional 14 hours of approved graduate course work

M.S. in Biology

This is a research degree that may serve as an intermediate degree for those intending to pursue further graduate study, as

well as a necessary degree for a variety of careers in the life sciences.

Admission to the Program

In addition to meeting the minimum university requirements for graduate study, applicants must take the Graduate Record Examination, including the General Test and the Advanced Test in Biology. International applicants whose first language is not English are required to submit results of the Test of English as a Foreign Language (TOEFL). Applicants must submit two letters of recommendation. Preference is given to applicants with a clear interest in working in the research laboratory of one of the full-time faculty members in the department.

Degree Requirements

- 30 credit hours of approved graduate work
- Comprehensive examination
- Advancement to candidacy, which requires the acceptance of a research proposal by the student's advisor, the graduate studies committee, and the chair of the department at least one semester prior to the oral defense of the thesis.
- Completion, oral defense, and the acceptance of thesis by the thesis committee, chair of the department, and the university

Course Requirements

- BIO-566 Evolutionary Mechanisms (3)
- BIO-583 Molecular Biology (3)
- BIO-677 Topics in Developmental Biology (1)
or
BIO-679 Topics in Evolutionary Biology (1)
- BIO-697 Research Methodology in Biology (3)
- BIO-797 Master's Thesis Research (5)
- STAT-514 Statistical Methods (3) (satisfies tool of research requirement)
- An additional 12 hours of approved graduate course work

Chemistry is the science that deals with the composition of materials, their structures and properties, the transformations they undergo, and the energy changes that accompany these transformations. Areas of study include general, organic, physical, analytical, and inorganic chemistry, as well as bio-

chemistry and earth science. Students are encouraged to participate in research projects at all levels.

Accredited by the American Chemical Society, the department offers programs leading to the B.S. and M.S. in Chemistry and the B.S. in Biochemistry. Besides training for a career or graduate study in chemistry, undergraduate students are prepared for medical or dental school, engineering programs, and other careers where technical expertise is needed. The department provides a personal, congenial environment where students can develop and pursue a flexible program of study designed to fulfill individual interests and needs.

The Department of Chemistry is equipped with standard chemical instrumentation, including spectrometers and chromatographic equipment. Laboratory facilities in the Beeghly Building include modern teaching and research laboratories as

well as specialized laboratories established for research in biochemistry, polymer chemistry, and carbohydrate chemistry, and for work requiring an inert atmosphere. Graduate and undergraduate students are involved in a variety of research projects using the facilities of the department or through cooperative agreements with many governmental laboratories.

Faculty members are involved in conducting research in analytical chemistry, biochemistry, carbohydrate chemistry, inorganic chemistry, biotechnology, organic synthesis, and physical biochemistry. Laboratory research projects are available in our own well-equipped modern building and also at many world-renowned research laboratories in the Washington, D.C. area.

Research opportunities in the Washington area through internships, cooperative education work-study programs, and special arrangements are available at the following laboratories: Center for Advanced Research in Biotechnology, Food and Drug Administration, National Institute of Standards and Technology, National Institutes of Health, Naval Medical Research Institute, Naval Research Laboratory, Naval Surface Weapons Laboratory, U.S. Army Mobility Equipment Research and Development Command at Fort Belvoir, and the Walter Reed Army Institute of Research. Students who participate in these programs obtain experience with specialized equipment and interact with research scientists outside the university.

The premedical programs of the College of Arts and Sciences, including a Postbaccalaureate Premedical Certificate, are available to help all undergraduate, postbaccalaureate, and graduate students who are considering a career in medicine or one of the allied health professions. For more information see Preprofessional Programs.

Special Opportunities

- Anthony M. Schwartz Undergraduate Research Fellowship
- Qualified junior and senior chemistry majors may conduct research under CHEM-390/490 Independent Study Project.
- A cooperative work-study program involving several research organizations is available through the Department of Chemistry. Undergraduate students work full time for six months and study at the university for five months.

Teaching Certification

Students interested in obtaining teaching credentials for grades 7–12 may take a 36-credit hour second major in secondary education or combine their undergraduate degree with the M.A.T. degree with a concentration in secondary education. For information on admission and program requirements, see the School of Education, Teaching and Health secondary education programs.

B.S. in Biochemistry

Admission to the Program

Formal admission to the major requires a grade point average of 2.00 (on a 4.00 scale). The department counsels freshmen and transfer students, as well as declared biochemistry majors.

University Requirements

- A total of 120 credit hours
- 6 credit hours of college writing
- 3 credit hours of college mathematics or the equivalent by examination

General Education Requirements

- A total of ten courses, consisting of one foundation course and one second-level course in an approved sequence from each of the five curricular areas
- No more than two courses may be taken in the same discipline

Major Requirements

- 74 credit hours with grades of C or better

Requirements

- Undergraduate chemistry majors should apply for admission to the B.S./M.S. program by the end of the junior year. Admission is open to undergraduates whose overall grade point average and grade point average in chemistry courses is 3.00 or higher. Applications must be accompanied by two letters of recommendation and a statement of purpose.

Students should discuss their interest in the program with members of the faculty before submitting a formal application. Interested students are encouraged to enroll in CHEM-490 Independent Study Project to conduct independent study research before applying.

- All requirements for the B.S. in Chemistry or Biochemistry
Undergraduate students may apply up to 9 credit hours of approved graduate-level course work in chemistry and STAT-514 Statistical Methods to satisfy the requirements for both degrees.
- All requirements for the M.S. in Chemistry, including a minimum of 18 credit hours completed in residence in graduate status after the undergraduate degree has been awarded. Students must finish the master's degree requirements within three years from the date of first enrollment in the master's program.

M.S. in Chemistry

Admission to the Program

Applicants must have earned a degree equivalent to fulfilling the requirements for a B.S. in Chemistry or Biochemistry with a 3.00 cumulative grade point average (on a 4.00 scale) in chemistry from a college accredited by the American Chemical Society or equivalent. Graduate Record Examination (GRE) scores are required. All applications must be approved by the faculty of the Department of Chemistry.

Degree Requirements

- 30 credit hours of approved graduate work
 - The entire course of study must constitute a unified program. Each student must have a proposed curriculum approved by the department's academic advisor and the department chair within one semester after entering the program.
 - Tool of research: an examination in German, French, Russian, or statistics.
 - One comprehensive examination
 - Research requirement (with grades of B or better)
 - CHEM-797 Master's Thesis Research (6)
 - or*
 - CHEM-797 Master's Thesis Research (3) *and*
 - CHEM-691 Internship in Chemistry (3)
- A thesis of publishable quality based on original chemical laboratory research must be presented at a public seminar and defended before the student's committee immediately thereafter. A research proposal must be accepted by the student's thesis committee at least one semester prior to the oral defense of the thesis.

Computer Science programs prepare students for a wide range of career opportunities in software development, computer systems design, information technology, computational theory, and other technical computing professions. They ensure a balanced presentation of the practical and theoretical aspects of computer science and provide students with a background for professional employment or further graduate study in the discipline.

B.S. in Computational Science

Computational science is a field in which computational simulation and modeling of systems are used to solve problems in engineering and natural and social sciences. This program is recommended for students interested in a career in mathematical and computational techniques to solve problems and the use of these methods to advance other fields that require extensive computation and data analysis. Students in this program take foundation courses in mathematics and computer science and choose application areas including biology, chemistry, computer science, economics, environmental studies, finance, mathematics, physics, psychology, and statistics based on their interests. Students may also choose to pursue a double major or minor in the application area.

Admission to the Program

Formal admission to the major requires a cumulative grade point average of 2.00 (on a 4.00 scale) and departmental approval.

University Requirements

- A total of 120 credit hours
- 6 credit hours of college writing

- 3 credit hours of college mathematics or the equivalent by examination

General Education Requirements

- A total of ten courses, consisting of one foundation course and one second-level course in an approved sequence from each of the five curricular areas

M.S. in Computer Science

Admission to the Program

In addition to meeting the minimum university requirements for graduate study, applicants must have adequate undergraduate preparation or experience in computer science. Students entering the program without the appropriate background will be expected to take certain undergraduate courses as a prerequisite. Applicants must submit scores from the Graduate Record Examination (GRE) aptitude test.

Degree Requirements

- 30 credit hours of approved graduate work
CSC-520, CSC-521, CSC-540, and all course work for comprehensive, and thesis or nonthesis requirements must be passed with grades of B or better
- Comprehensive examination: satisfied by completion of CSC-694 Capstone Project or CSC-797 Master's Thesis Seminar in Computer Science with grades of B or better
- 6 credit hours of thesis or nonthesis option
Thesis option: CSC-797 Master's Thesis Seminar in Computer Science with grades of B or better and an oral defense of the thesis
Nonthesis option: 6 credit hours with grades of B or better from the following:
CSC-694 Capstone Project and 3 credit hours from the following:
CSC-636 Advanced Database Management
CSC-637 Database Administration
CSC-689 Topics in Computer Science
CSC-690 Independent Study in Computer Science

Course Requirements

- CSC-520 Algorithms and Data Structures (3) (or equivalent)

- CSC-521 Design and Organization of Programming Languages (3) (or equivalent)
- CSC-540 Computer System Organization and Programming (3) (or equivalent)
- CSC-565 Operating Systems (3)
- CSC-570 Database Management Systems (3)
- 9 credit hours from the following:
 - CSC-510 Legal Issues in Computing (3)
 - CSC-535 User Interface Analysis and Design (3)
 - CSC-543 Object-Oriented Analysis and Design (3)
 - CSC-544 Object-Oriented Programming (3)
 - CSC-546 Introduction to Computer Networks (3)
 - CSC-568 Artificial Intelligence (3)
 - CSC-589 Topics in Computer Science (3)
 - CSC-596 Selected Topics (with departmental approval)
 - CSC-610 Introduction to Geographic Information Systems (3)
 - CSC-636 Advanced Database Management (3) (if not used to fulfill nonthesis option requirement)
 - CSC-637 Database Administration (3) (if not used to fulfill nonthesis option requirement)
 - CSC-689 Topics in Computer Science (3)
 - CSC-691 Internship (1–6)
 - CSC-692 Cooperative Education Field Experience (3–6)
 - CSC-696 Selected Topics (with departmental approval)

Thesis or Nonthesis Option

- CSC-797 Master's Thesis Seminar in Computer Science (6)
or
CSC-694 Capstone Project (3) *and*
3 credit hours from the following:
 - CSC-636 Advanced Database Management (3)
 - CSC-637 Database Administration (3)
 - CSC-689 Topics in Computer Science (3)
 - CSC-690 Independent Study in Computer Science (1-6)

Graduate Certificate in Computer Science

Admission to the Program

Open to students with a bachelor's degree from an accredited institution and a course in calculus.

Requirements

- 15 credit hours of approved course work with at least 6 credit hours at the 600-level or above, with grades of B or better. Grades of C or D in certificate program courses are not accepted toward the fulfillment of certificate requirements, although these grades will be included in the calculation of the GPA. Students must have at least a 3.0 GPA in certificate courses in order to be awarded a certificate. Students in certificate programs must take a minimum of 6 credit hours during each 12-month period and complete the certificate in four years. International students must enroll in 9 credit hours each semester (except for summer). A maximum of 3 credit

hours earned at an accredited college or university may be applied toward the certificate as transfer credit.

Course Requirements

- CSC-520 Algorithms and Data Structures (3) (or equivalent)
- CSC-521 Design and Organization of Programming Languages (3)
- CSC-540 Computer System Organization and Programming (3)
- CSC-600 Simulation (3)
- 3 credits from the following:
 - CSC-689 Topics in Computer Science (3)
 - CSC-696 Selected Topics: Nonrecurring (3)

M.S. in Applied Science

Admission to the Program

In addition to meeting the minimum university requirements for graduate study, applicants must have taken undergraduate science courses appropriate to the concentration, or have significant practical background in a relevant science area. A cumulative undergraduate grade point average of 3.00 (on a 4.00 scale) is required. Specific courses needed to prepare for entering the program will be identified through interviews with the applicant.

Degree Requirements

- 36 credit hours of approved graduate work
- Tool of research: analytical courses (see Course Requirements, below)
- Non thesis course work: 6 credit hours in 600-level courses as approved by a faculty advisor, with grades of B or better
- Students participate in noncredit workshops and seminars on professional skills and current issues in science and technology. Students are required to demonstrate proficiency in these areas as part of the capstone project, internship, and compulsory presentation.

Course Requirements

Analytical Core (18 credit hours)

- 9 credit hours in analytical courses from the following:
 - BIO-697 Research Methodology in Biology (3)
 - CSC-610 Introduction to Geographic Information Systems (3)
 - STAT-514 Statistical Methods (3)
 - STAT-525 Statistical Software (3)

Internship and Capstone Project

- 3 credit hours from one of the following:
 - BIO-691 Internship (1-6)
 - CHEM-691 Internship (1-6)
 - CSC-691 Internship (1-6)
 - ENVS-691 Internship (1-3)
- 3 credit hours from one of the following:
 - BIO-690 Independent Study Project in Biology (1-6)
 - CHEM-690 Independent Study Project in Chemistry (1-6)

- CSC-690 Independent Study Project (1-6)
- CSC-694 Capstone Project (3)
- ENVS-681 Environmental Research Seminar and Practicum (3)
- ENVS-690 Environmental Science Research (3)

Business Skills

- 3 credit hours from the following:
 - ACCT-600 Ethics in Business and Accounting (3)
 - FIN-630 Financial Analysis: Concepts and Applications (3)
 - ITEC-601 IT Tools for Managers (1.5)
 - ITEC-617 Information and Technology (1.5)
 - MGMT-611 Change and Innovation (3)
 - MGMT-633 Leading People and Organizations (3)
 - MKTG-632 Fundamentals of Marketing (3)

Applied Computing

- CSC-544 Object-Oriented Programming (3)
- CSC-570 Database Management Systems (3)
- CSC-600 Simulation (3)
- 9 credit hours as approved by the faculty advisor, including from the following:
 - CSC-510 Legal Issues in Computing (3)
 - CSC-520 Algorithms and Data Structures (3)
 - CSC-543 Object-Oriented Analysis and Design (3)
 - CSC-546 Introduction to Computer Networks (3)
 - CSC-568 Artificial Intelligence (3)
 - CSC-589 Topics in Computer Science (3)

- CSC-689 Topics in Computer Science (3)

Biotechnology

- BIO-583 Molecular Biology (3)
- CHEM-560 Biochemistry I (3)
or
CHEM-561 Biochemistry II (3)
- CHEM-565 Introduction to Proteomics (3)
- 9 credit hours as approved by of the faculty advisor, including from the following:
 - BIO-596 Selected Topics: Non-Recurring (1-6) (approved topic)
 - BIO-677 Topics in Developmental Biology (1-4)
 - BIO-679 Topics in Evolutionary Biology (1-4)

Environmental Science and Assessment

- ENVS-575 Environmental Risk Assessment (3)
- ENVS-580 Environmental Science I: A Quantitative Approach (3)
- ENVS-581 Environmental Science II: A Quantitative Approach (3)
- 9 credit hours as approved by of the faculty advisor, including from the following:
 - BIO-562 Field Methods (3)
 - BIO-567 Evolutionary Ecology (3)
 - ENVS-572 Topics in Conservation Biology (3)
 - ENVS-582 Environmental Law (3)
 - ENVS-675 Water Resources (3)

The Department of Economics at American University emphasizes economic studies that enable graduates to participate actively in the process of finding answers to the important economic questions that face our society and other nations of

the world. Emphasis is placed on viewing economic problems in both their domestic and international contexts.

The university's location in Washington, D.C. enables it to assist students and graduates in obtaining employment and internships in several of the world's most important economic institutions, including the World Bank, the International Monetary Fund, research institutes, and the treasury, labor, and commerce departments. Many of our graduates find policy-making positions in the public and private sectors of both the United States and other nations.

The Department of Economics adopts a pluralistic approach to economics education that includes neoclassical, Keynesian, and institutional economics as well as political economy. International economic issues receive special emphasis, as do such socially-important topics as the economics of gender. The neoclassical and Keynesian traditions form the core of economic theory that our majors are expected to master. The study of economic history, the history of economic thought, and alternative economic methodologies alert students to divergent perspectives and to the role of institutions. Courses in specialized fields deal with monetary economics, public finance, economic develop-

ment, the structure of U.S. industry, international trade and finance, and the economics of earnings and employment.

Economics programs are designed to allow students the flexibility of a double major with other departments in the College of Arts and Sciences or with programs in other schools within AU. Within the B.A. in Economics students choose the general or international track. Students in the B.S. in Economics program gain the analytic and quantitative skills necessary for research positions and Master's level study in Economics. The B.S. in Mathematics and Economics prepares students for a broad range of experiences including Ph.D. level work in economics.

The M.A. in Economics offers a general economics track as well as tracks in business economics, development economics, financial economic policy, and gender analysis in economics. The Ph.D. in Economics offers a choice of theory tracks in microeconomics, macroeconomics, and heterodox economics, as well as a range of applied fields.

Study Abroad

American University's AU Abroad program offers study abroad programs in which students take courses, participate in internships, and interact with public officials and political leaders. Students wishing to use courses from study abroad programs to count as their capstone must obtain approval of the undergraduate advisor.

Honor Society

A chapter of Omicron Delta Epsilon, the economics honor society, is active on campus. Membership requires an overall grade point average of 3.25 and a grade point average of 3.50 in economics courses. Consult the undergraduate advisor for further eligibility requirements.

Special Opportunities

Several student prizes are awarded usually each spring:

The Robert T. Adams Scholarship in support of an outstanding student majoring in Economics with demonstrated financial need

The Ruth Dewey Meade Prize for undergraduate research

The Simon Naidel Prize for the best performance on a comprehensive examination in economic theory

The Frank Tamagna Prize for excellence in international finance and monetary economics

The José Epstein Prize in Development Finance

The James Weaver Prize for Excellence in Teaching

The Nikos G. and Anastasia Photias Prize for dissertation research

B.A. in Economics

Admission to the Program

Formal admission to the major requires a grade point average of 2.00 (on a 4.00 scale) and the approval of the department undergraduate advisor. The department counsels freshmen and transfer students.

University Requirements

- A total of 120 credit hours

- 6 credit hours of college writing
- 3 credit hours of college mathematics or the equivalent by examination

General Education Requirements

- A total of ten courses, consisting of one foundation course and one second-level course in an approved sequence from each of the five curricular areas
- No more than two courses may be taken in the same discipline

Tracks

General or International

Major Requirements

- 37 credit hours with grades of C or better
- For the International track, demonstration of intermediate level or higher competence in one modern foreign language

Course Requirements

Core (19 credit hours)

- ECON-100 Macroeconomics 4:1 (3)
- ECON-200 Microeconomics 4:2 (3)
- ECON-300 Intermediate Microeconomics (3)
or
ECON-500 Microeconomic Theory (3)
- ECON-301 Intermediate Macroeconomics (3)
or
ECON-501 Macroeconomic Theory (3)
- One of the following:
ECON-480 Senior Research Seminar (3)
ECON-491 Internship (3)
ECON-492 Internship in Teaching Economics (3)
Study abroad course with emphasis in economics or political economy at the 300-level or higher (3)
- STAT-202 Basic Statistics (4)

Tracks (18 credit Hours)

General

- 18 credit hours in economics courses (ECON-xxx) at the 300 level or above
Students may take no more than two of the following:
ECON-361 Economic Development
ECON-362 Microeconomics of Economic Development
ECON-363 Macroeconomics of Economic Development
Students may take no more than two of the following:
ECON-370 International Economics
ECON-371 International Economics: Trade
ECON-372 International Economics: Finance
One course at the 300 level may be taken outside of the Economics Department with the advisor's approval if the course is closely related to economics.
No more than 6 of these credit hours may be fulfilled by Washington Economic Policy Semester courses or economics courses from study abroad programs.

No more than 3 credit hours of independent reading and study courses or internships may be used to satisfy this requirement.

International

- ECON-371 International Economics: Trade (3)
- ECON-372 International Economics: Finance (3)
- One of the following:
 - ECON-351 Comparative Economics Systems (3)
 - ECON-358 Economics of the World Regions (3) (topics)
 - ECON-361 Economic Development (3)
 - ECON-362 Microeconomics of Economic Development (3)
 - ECON-363 Macroeconomics of Economic Development (3)
 - ECON-552 Economics of Transition (3)
- One of the following:
 - IBUS-300 Fundamentals of International Business (3)
 - SIS-385 International Economic Policy (3)
 - SIS-465 International Trade and Investment Relations (3)
 - SIS-466 International Monetary and Financial Relations (3)

- 6 credit hours of additional economics courses (ECON-xxx) at the 300 level or above, excluding ECON-370 International Economics

Students may take no more than two of the following:

- ECON-361 Economic Development
- ECON-362 Microeconomics of Economic Development
- ECON-363 Macroeconomics of Economic Development

No more than 6 credit hours may be fulfilled by Washington Economic Policy Semester courses or economics courses from study abroad programs.

No more than 3 credit hours of independent reading and study courses or internships may be used to satisfy this requirement.

University Honors Program

To graduate with University Honors, students must be admitted to the University Honors Program, maintain a minimum cumulative GPA of 3.50, and receive grades of B or better in all University Honors course work. There are three levels of University Honors course requirements: Level I (100-200-level); Level II (300-level and above); and Level III (Honors Capstone Project). The department Honors coordinator advises students in the University Honors Program regarding requirements for graduating with University Honors in the major.

Combined B.A. or B.S. and M.A. in Economics

American University offers students the opportunity to earn both undergraduate and graduate degrees through its accelerated bachelor's/master's programs. Undergraduate students may complete up to 3 credits for every 9 credits required for the graduate degree that may be applied to the requirements for both degree programs. The department that oversees the graduate program the student enters will determine if the courses the undergraduate student completes will satisfy mas-

ter's degree requirements. Bachelor's/master's students must complete at least 18 in-residence credit hours at the graduate level after the bachelor's degree is earned and maintain continuous, sequential enrollment in the two programs.

This program enables qualified students to earn, in a continuous plan of study, both the B.A. or B.S. in Economics and the M.A. in Economics.

Requirements

- Interested students should apply to the program in their junior year. Students in this program will not be required to take the Graduate Record Examination (GRE). Students will be admitted formally to M.A. status only after they have completed all requirements for the B.A. or B.S. in Economics with a cumulative grade point average of 3.00 or higher.
- All requirements for the B.A. or B.S. in Economics
 - Undergraduate students may apply up to 9 credit hours of approved graduate-level course work in economics to satisfy the requirements of both degrees.
- All requirements for the M.A. in Economics, including a minimum of 18 credit hours completed in residence in graduate status after the undergraduate degree has been awarded. Students must finish the master's degree requirements within three years from the date of first enrollment in the master's program.

M.A. in Economics

Admission to the Program

Applicants must meet the minimum university requirements for graduate study. Admission is based on the academic record and two letters of recommendation. In general, a B+ average in undergraduate or previous graduate course work is required. The Graduate Record Examination (GRE) general test is required. Admission is not automatic for students who qualify and may be limited by programmatic constraints.

A student whose undergraduate background does not meet the standards for admission may be considered for admission after completing 12 credit hours of approved graduate course work in nondegree status with a grade point average of at least 3.50 (on a 4.00 scale). ECON-500, ECON-501, and ECON-505 must be taken within these 12 hours.

Tracks

General, Development Economics, Financial Economic Policy, or Gender Analysis in Economics

Degree Requirements

- 30–36 credit hours of approved graduate course work; including 9 credit hours of core courses in economic theory, 6 credit hours to fulfill the research requirement, and 15–21 credit hours of other required courses or electives

Prerequisite credit (including ECON-603) does not count toward the degree. All courses must be taken for grades (the pass/fail option is not permitted). No more than 3 credit hours of ECON-691 Internship may be taken.

All courses must be approved by the student's advisor and fit into a coherent educational program developed by the student in consultation with the advisor.

- Research requirement:
Thesis: ECON-797 Master's Thesis Seminar (6) with grades of B or better and submission of approved thesis
Nonthesis: ECON-523 Econometrics I and ECON-524 Econometrics II with grades of B or better
- Comprehensive examination in economic theory taken after the student has completed ECON-500 and ECON-501; students are allowed two retakes.

Course Requirements

Prerequisite Courses

- ECON-300 Intermediate Microeconomics (3) *and*
ECON-301 Intermediate Macroeconomics (3)

Graduate Certificate in Applied Microeconomics

Admission to the Program

Open to students with a bachelor's degree from an accredited institution.

Certificate Requirements

- 18 credit hours of approved course work with at least 6 credit hours at the 600-level or above, with grades of C or better. Course work includes 9 credit hours of core requirements and 9 credit hours of electives. Prerequisite credit does not count toward the certificate. All courses must be taken for grades (the pass/fail option is not permitted). Grades of C- or D in certificate program courses are not accepted toward the

fulfillment of certificate requirements, although these grades will be included in the calculation of the GPA. Students must have at least a 3.0 GPA in certificate courses in order to be awarded a certificate. Students in certificate programs must take a minimum of 6 credit hours during each 12-month period and complete the certificate in four years. International students must enroll in 9 credit hours each semester (except for summer). A maximum of 3 credit hours earned at an accredited college or university may be applied toward the certificate as transfer credit.

Course Requirements

Prerequisite Courses

- ECON-300 Intermediate Microeconomics (3)
- ECON-301 Intermediate Macroeconomics (3)
- MATH-211 Applied Calculus (4)
- STAT-202 Basic Statistics (4)

Waiver of these prerequisites may be granted for qualified persons with comparable prior education or experience.

Core (9 credit hours)

- ECON-500 Microeconomic Theory (3)
- ECON-505 Introduction to Mathematical Economics (3)
- ECON-523 Applied Econometrics I (3)

Electives (9 credit hours)

- 9 credit hours from the following:
 - ECON-541 Public Economics (3)
 - ECON-546 Industrial Economics (3)
 - ECON-547 Economics of Antitrust and Regulation (3)
 - ECON-573 Labor Economics (3)
 - ECON-574 Gender Perspectives on Economic Analysis: Microeconomics (3)
 - ECON-575 Gender Perspectives on Economic Analysis: Macroeconomics (3)
 - ECON-579 Environmental Economics (3)
 - ECON-630 Monetary Theory and Policy (3)
 - ECON-633 Financial Economics (3)
 - ECON-662 Development Microeconomics (3)
 - ECON-665 Project Evaluation in Developing Countries (3)
 - ECON-671 International Economics: Trade (3)
 - ECON-672 International Economics: Finance (3)

Other approved electives may be substituted with departmental approval.

Graduate Certificate in Gender Analysis in Economics

This certificate program is focused on the application of gender analysis to different fields of economics, including microeconomics, macroeconomics, labor economics, public finance, development, and international trade and investment, among others. It prepares graduate students and professionals for careers in higher education, domestic and international research

institutions, and government agencies that require economic analysis from a gendered perspective.

Admission to Program

Open to students and professionals who have an M.A. in Economics or the equivalent, or have completed the following prerequisites:

- ECON-500 Microeconomic Theory
- ECON-501 Macroeconomic Theory
- ECON-523 Applied Econometrics I

Certificate Requirements

- 18 credit hours of approved course work with at least 6 credit hours at the 600-level or above, with grades of C or better. Grades of C- or D in certificate program courses are not accepted toward the fulfillment of certificate requirements, although these grades will be included in the calculation of the GPA.  - WGSS-600 Feminist and Gender Theory (3)

- 3 credit hours in a capstone or a research methods course from the following:
 - ECON-523 Econometrics I (3)
 - ECON-524 Econometrics II (3)
 - ECON-690 Independent Study (3)
 - SIS-634 Field Survey Research Methods (3)

Graduate Certificate in International Economic Relations

Admission to the Program

Open to students with a bachelor's degree from an accredited institution. Applicants must submit their official transcripts along with a one page statement of purpose. For international students whose first language is not English, a score of at least 550 (213 on the computer version) on the Test of English as a Foreign Language (TOEFL) is required.

Certificate Requirements

- 15 credit hours of approved course work with at least 6 credit hours at the 600-level or above, with grades of C or better. Grades of C- or D in certificate program courses are not accepted toward the fulfillment of certificate requirements, although these grades will be included in the calculation of the GPA. Students must have at least a 3.0 GPA in certificate courses in order to be awarded a certificate. Students in certificate programs must take a minimum of 6 credit hours during each 12-month period and complete the certificate in four years. International students must enroll in 9 credit hours each semester (except for summer). A maximum of 3 credit hours earned at an accredited college or university may be applied toward the certificate as transfer credit.

Course Requirements

Core

- ECON-603 Introduction to Economic Theory (3) (students with sufficient background in economics may substitute an additional economics course from the list of electives, below)
- SIS-600 Quantitative Analysis in International Affairs (3)
- ECON-670 Survey of International Economics (3)
 - or*
 - SIS-616 International Economics (3)

Electives

- 3 credit hours from the following:
 - ECON-551 Comparative Economic Systems (3)
 - ECON-552 Economics of Transition (3)
 - ECON-558 Economics of the World Regions (3) (topics)
 - ECON-661 Survey of Economic Development (3)
- 3 credit hours from the following:
 - SIS-565 U.S. Economic Relations with Japan and China (3)
 - SIS-630 Economic Policy of the European Union (3)
 - SIS-651 Managing Economic Policy Reform (3)
 - SIS-665 International Trade and Investment Relations (3)

SIS-666 International Monetary and Financial Relations (3)

Ph.D. in Economics

Admission to the Program

In addition to meeting the minimum university requirements for graduate study, applicants must earn a satisfactory score on the Graduate Record Examination (GRE) general tests (verbal, math, analytical). The GRE test in economics is recommended. Admission is based on academic record, test scores, and at least two letters of recommendation. Applicants who are not native speakers of English must submit the results of TOEFL (Test of English as a Foreign Language). In general, a B+ average for previous undergraduate work or a B+/A- average for previous graduate work, whichever is more recent, is the minimum required. (Most students admitted have higher grade averages.) As a rule, students are admitted for the fall semester only; application must be made by the previous February 1 in order to be considered for financial support.

Tracks

Microeconomics, Macroeconomics, or Heterodox Economics

Degree Requirements

- 72 credit hours of approved graduate work:
48 credit hours must be taken in designated courses; no more than 40 percent of course work and no more than 6 hours of independent study or reading courses (exclusive of dissertation hours) may be taken with any one professor. Credit may be given for previous graduate work in accordance with university academic regulations.
- Tools of research
The following courses must be completed with grades of B- or better:
ECON-618 Economic History of Europe and the World
or
ECON-619 U.S. Economic History
ECON-620 Economic Thought
ECON-705 Mathematical Economic Analysis
ECON-723 Econometric Methods
ECON-724 Advanced Econometric Methods
- Field Requirement
Students must take a major field and a minor field. Completing a major field requires grades of B- or better in two designated field courses from the list below and satisfactory completion of a comprehensive examination. Completing a minor field requires grades of B- or better in two designated field courses from the list below or two other related courses approved by the Ph.D. advisor. No course may be applied to two different fields, to satisfy both a field and a tool of research, or to satisfy both a field and a required seminar course.
- Four comprehensive examinations:
Preliminary theory: ECON-702 and ECON-703 must be completed before taking the examination

Advanced theory (one of the following):

Microeconomics: ECON-701 and ECON-713 must be completed before taking the examination

Macroeconomics: ECON-711 and ECON-712 must be completed before taking the examination

Heterodox: ECON-701 and ECON-711 must be completed before taking the examination

One field comprehensive

Defense of dissertation proposal

- Dissertation and oral comprehensive
Students must attend the dissertation seminar in their third year, or when they are working on their dissertation proposals. Between 6 and 24 credit hours of ECON-799 Doctoral Dissertation Seminar, which must be taken pass/fail, are taken while students complete their proposals and prepare dissertations.
The student obtains approval for the dissertation topic from an interested faculty member in the field who then becomes chair of the dissertation committee. Committees are appointed following the successful oral defense of the dissertation proposal. When the actual dissertation is nearly finished, an oral defense of the complete draft dissertation is held. Final approval of the dissertation depends on satisfactory completion of any changes required by the committee members following the oral defense. Dissertations are subject to all applicable university regulations.

Course Requirements

Theory (15 credit hours)

The following courses must be completed with grades of B- or better:

- ECON-702 Macroeconomic Analysis I (3)
- ECON-703 Microeconomic Analysis I (3)
- **Microeconomics Track**
- ECON-701 Micro Political Economy I (3)
- ECON-711 Macro Political Economy II (3)
- *or*
ECON-712 Macroeconomic Analysis II (3)
- ECON-713 Microeconomic Analysis II (3)
- **Macroeconomics Track**
- ECON-701 Micro Political Economy I (3)
- *or*
ECON-713 Microeconomic Analysis II (3)
- ECON-711 Macro Political Economy II (3)
- ECON-712 Macroeconomic Analysis II (3)
- **Heterodox Economics Track**
- ECON-701 Micro Political Economy I (3)
- ECON-711 Macro Political Economy II (3)
- ECON-713 Microeconomic Analysis II (3)
- *or*
ECON-712 Macroeconomic Analysis II (3)

Fields (12 credit hours)

- 6 credit hours must be completed with grades of B- or better in one of the fields below, followed by successful completion of a comprehensive examination; 6 additional credit hours must be completed with grades of B- or better in another of these fields, or in an additional field approved by the Ph.D. advisor. These additional fields may include comparative economic systems, econometrics, industrial organization, and public finance. No course may be applied to two different fields, to satisfy both a field and a tool of research, or to satisfy both a field and a required seminar course.

Development Economics

- ECON-662 Development Microeconomics (3)
- ECON-663 Development Macroeconomics (3)

Economic History

- ECON-618 Economic History of Europe and the World (3)
or
ECON-619 U.S. Economic History (3)
- ECON-778 Seminar in Economic History (3)

Note: For the Economic History field, students must take two courses in addition to the one (either ECON-618 or ECON-619) used to fulfill the Tool of Research requirement.

Gender Economics

- ECON-574 Gender Perspectives on Economic Analysis: Microeconomics (3)
- ECON-575 Gender Perspectives on Economic Analysis: Macroeconomics (3)

International Economics

- ECON-671 International Economics: Trade (3)
- ECON-672 International Economics: Finance (3)

Labor Economics

- ECON-573 Labor Economics (3)
- ECON-789 Seminar in Labor Economics (3)

Monetary Economics

- ECON-630 Monetary Theory and Policy (3)
- ECON-633 Financial Economics (3)

Tools of Research (15 credit hours)

The following courses must be completed with grades of B- or better:

- ECON-618 Economic History of Europe and the World (3)
or
ECON-619 U.S. Economic History (3)
- ECON-620 Economic Thought (3)
- ECON-705 Mathematical Economic Analysis (3)
- ECON-723 Econometric Methods (3)
- ECON-724 Advanced Econometric Methods (3)

Research Seminars (6 credit hours)

- ECON-782 Seminar in Empirical Macroeconomics (3) (for students who have taken ECON-711 and ECON-712)
or
ECON-783 Seminar in Empirical Microeconomics (3) (for students who have taken ECON-701 and ECON-713)
- One other seminar approved by department

Director of Teacher Education Karen DeAngelis

The School of Education, Teaching and Health (SETH) offers programs that prepare teachers, educational leaders and managers, educational specialists, health promotion leaders and managers, and researchers for careers in schools, colleges and universities, government agencies, business, and community and professional organizations. The academic programs provide students with opportunities to collaborate with profession-

als in a large array of organizations that complement their program of study. Further, international opportunities are available to students at the undergraduate and graduate levels. Degree programs can be completed on a full or part time basis, and knowledge is gained through community service, internships, practica, and related-research work.

The SETH faculty and programs demonstrate a commitment to the advancement of knowledge about the nature, function, and practice of education and health. Faculty conduct a wide range of research with emphasis on equity, gender, health promotion, multiculturalism, nutrition, socioeconomic status, learners with special needs, the infusion of technology into education, adult learning, and the relationship of government and public policy to education. Themes common to faculty research and programs include meeting the needs of special learners, improving the health of society, decreasing health disparities, research-informed policy development, as well as domestic and international formal and non-formal education. SETH is home to the Institute for Innovation in Education, the Urban Collaborative for Urban Research, Educational, and Development, and campus-wide collaborative projects on societal health research.

Students benefit from working with a highly qualified and dedicated faculty in small classes, and from opportunities to participate in ongoing faculty research aimed at influencing educational and health policy and practice. In our shared view, the fields of education, teaching and health encompass the entire well-being of an individual-intellectually, emotionally, socially, environmentally, and spiritually.

Education and Teaching Programs

On the undergraduate level, the school offers a Bachelor of Arts in Elementary Education and a second major in Secondary Education, which lead to eligibility for certification to teach. Minors in education studies and special education are also offered.

A minor in education studies accommodates undergraduate students interested in the study of education as a liberal or social science discipline. It serves students who intend to pursue graduate study in education or related fields, those who wish to explore education and related fields, and those whose primary job and career opportunities are enhanced through the study of education. For students interested in broadening their knowledge and understanding of education for students with special needs, a minor in special education is also offered. Students who plan to pursue graduate education in this field are especially well served by this minor.

The school also offers graduate programs in education and programs that lead to K–12 certification. Students interested in teaching in elementary or secondary schools or in programs for English for speakers of other languages (ESOL) enroll in the Master of Arts in Teaching (M.A.T.). A dual degree program leading to the M.A.T. and the M.A. in International Peace and Conflict Resolution from the School of International Service is available. Those interested in working as special education teachers or in learning disabilities classrooms at all levels enroll in the M. A. in Special Education: Learning Disabilities. The Master of Education (M.Ed.) in Curriculum and Instruction is designed for students with a background in educational theory and practice and offers extended study in the field and in areas of literacy, global literacy, and educational policy and leadership. The M.A. in International Training and Education (ITE) program offers opportunities to study international education and education in development.

The Graduate Certificate in Teaching is designed for students with undergraduate or graduate degrees in the arts, sciences, or humanities and several years of responsible work experience. Students who complete the program and pass the appropriate teacher's examination are eligible to apply for certification (licensure) in the District of Columbia. Those with such certification are eligible for reciprocal certification in all 50 states. (Additional requirements might be mandated by other states for certification.)

Teacher Education Program

Selective admissions criteria allow the School of Education, Teaching and Health to emphasize early and sustained contact with children, youth, and adult learners. Students work closely with master teachers and clinical supervisors in their

field placements in and around Washington, D.C. The teacher preparation programs benefit from the rich resources of the Washington area, including opportunities for internships in settings such as the Challenger Center for Space Science Education, the Smithsonian National Museum of Natural History, the National Aquarium, the Smithsonian National Zoo, and the Washington Lab School, an internationally known school for students with learning disabilities.

Field Placements

Field experiences, practicum placements, and student teaching take place in the District of Columbia and the greater Washington metropolitan area, including Maryland and Virginia and are designed to give students experience in both urban and suburban schools. The director of teacher education arranges assignments, taking into account student needs and preferences.

Accreditation and Certification

The School of Education, Teaching and Health is accredited by the District of Columbia State Board of Education and the National Council for the Accreditation of Teacher Education (NCATE).

The following certification programs have been approved by the District of Columbia Office of the State Superintendent of Education: biology (7-12 license), chemistry (7-12 license), early childhood education (preK-3 license), elementary education (1-6 license), English (7-12 license), English as a second language (K-12 license), foreign language: French, German, Spanish (K-12 license), health and physical education (K-12 license), mathematics (7-12 license), music (K-12 license), performing arts (7-12 license), physics (K-12 license), social studies (7-12 license), and studio art (7-12 license).

Students admitted to graduate teacher education programs may be required to complete additional course work in order to be eligible for certification upon graduation. Students will be informed of additional requirements upon admission.

Ongoing Assessment of Academic and Professional Performance

Students are expected to maintain cumulative grade point averages specific to each program; receive satisfactory evaluations in field and methods placements; obtain a satisfactory annual evaluation from the Teacher Education Committee based upon academic, professional, and performance criteria established by the committee; meet specific course grade requirements; complete all Praxis I and subject area appropriate Praxis II examinations; and submit an electronic professional portfolio.

Students in the B.A. in Elementary Education program must maintain an overall cumulative grade point average of 2.70 or higher. Students in the undergraduate second major in Secondary Education must maintain an overall grade point average of 2.70 and 3.00 or higher in their primary major. Graduate students must maintain a cumulative grade point average of 3.00 or higher.

Report of American University State Assessments, Requirements, and Standards for Teacher Certification and Licensure, and Performance of Teacher Preparation Programs

In compliance with Section 207 of the Higher Education Act, American University is providing information regarding state assessments, other requirements, standards for teacher certification and licensure, and performance of teacher preparation programs.

American University's teacher preparation programs are approved by the District of Columbia and nationally accredited by the National Council for the Accreditation of Teacher Education (NCATE), the organization responsible for professional accreditation of teacher education.

There is a commitment to a strong general education foundation for students before their acceptance into the School of Education, Teaching and Health. Teacher preparation programs are organized around four interrelated principles (equity, community, diversity, and excellence) and are based on a conceptual framework that recognizes the importance of knowledge, beliefs, practice, and reflection.

In academic year 2010-2011, 398 students were enrolled in teacher preparation programs; 165 of these students were completing supervised student teaching programs. Fifty-nine faculty members including 13 full time faculty in professional education, and 46 part time faculty members (adjunct faculty) supervised and/or taught students in the teacher education program. The student/faculty ratio for field experiences was 3:1. The average hours per week required of students in the program was 35 hours per week over 14 weeks, for a total of 490 hours.

Health Promotion Programs

Health issues have universal interest and appeal, transcending the boundaries of race, religion, culture, and national origin. Over the past two decades, the importance of maintaining or improving one's well-being through health-enhancing behaviors has become self evident. Responding to these developments, the School of Education, Teaching, and Health offers the following academic programs to students at American University:

- Minor in Health Promotion
- B.S. in Health Promotion
- M.S. in Health Promotion Management

Additionally, the health promotion undergraduate program offers a variety of health and fitness electives to American University students. These electives provide students with enjoyable opportunities to engage in physical activity through courses such as aerobic dance, weight training, yoga, golf, and many others. Exploratory courses within the field of health promotion are also open to all American University students, such as care and prevention of athletic injuries and sports psychology.

American University's National Center for Health Fitness (NCHF) is an integral part of the health promotion degree programs. NCHF manages the United States Postal Service's health promotion program for their employees and also collaborates with American University's Jacobs Fitness Center located on campus. Students in the health promotion degree programs are offered the opportunity for experiential learning in health promotion programming and fitness conditioning through part-time, full-time, and internship positions at both sites.

Students enrolled in American University's health promotion degree programs benefit from a strong alumni network that provides professional connections for informational interviews, internships, and occasional employment. Many alumni are employed locally, making networking opportunities highly accessible to students. Furthermore, the health promotion degree programs benefit from the Washington, D.C. location of well-known organizations whose purpose is to improve public health, such as specific departments of the federal government, national non-profits, and global corporations. In particular, our students have benefited from internships, cooperative-education, and presentations from organizations such as the National Cancer Institute, National Business Group on Health, Center for Science in the Public Interest, AARP, President's Council on Physical Fitness and Sports, and the National Coalition for Promoting Physical Activity. Finally, there are an abundance of annual conferences and meetings that take place in Washington, D.C. and are available to students at a free or reduced rate which offer students invaluable networking experience and enhanced learning.

B.A. in Elementary Education

Admission to Candidacy in Teacher Education

Undergraduates seeking teacher certification in elementary education should contact an advisor in the School of Education, Teaching and Health as early as possible. Admission to the university and declaration of a major does not constitute admission to candidacy in teacher education, which is based on academic and related performance criteria.

To be admitted to candidacy, students must earn a passing score (as set by the District of Columbia teacher licensing agency) on the PRAXIS I: Pre-Professional Skills Test (PPST); earn an average grade of 2.70 or higher in EDU-205 Schools and Society and EDU-320 Psychology of Education, pass EDU-321 Field Experience: Observation and Analysis, receive satisfactory recommendations from faculty, and have an overall cumulative grade point average of 2.70 or higher. The Teacher Education Committee reviews student applications. Decisions regarding admission to candidacy are made by this committee based on academic performance and references.

Liberal Arts and Science Requirements for Teacher Certification: Elementary

To qualify for teacher certification, students must have completed all of the requirements from the specific curricular areas listed below. Some requirements may overlap with the university General Education requirements. Consult a School of Education, Teaching and Health advisor for more information.

- Literature: 3 credit hours in addition to LIT-102
- The Arts: 3 credit hours
- Health: 3 credit hours
- U.S. history: 3 credit hours

University Honors Program

To graduate with University Honors, students must be admitted to the University Honors Program, maintain a minimum cumulative GPA of 3.50, and receive grades of B or better in all University Honors course work. There are three levels of University Honors course requirements: Level I (100-200-level); Level II (300-level and above); and Level III (Honors Capstone Project). The department Honors coordinator advises students in the University Honors Program regarding requirements for graduating with University Honors in the major.

Combined Bachelor's and Master's Degrees

American University offers students the opportunity to earn both undergraduate and graduate degrees through its accelerated bachelor's/master's programs. Undergraduate students may complete up to 3 credits for every 9 credits required for the graduate degree that may be applied to the requirements for both degree programs. The department that oversees the graduate program the student enters will determine if the courses the undergraduate student completes will satisfy master's degree requirements.

Bachelor's/master's students must complete at least 18 in-residence credit hours at the graduate level after the bachelor's degree is earned and maintain continuous, sequential enrollment in the two programs. Students must finish the master's degree requirements within three years from the date of first enrollment in the master's program.

Secondary Education

Admission to Candidacy in Teacher Education

The undergraduate program in Secondary Education is designed for students who wish to obtain teaching credentials in and social sciences. To do so, students complete a second major in Secondary Education designed to meet certification requirements in the District of Columbia and make them eligible for certification in over 40 states. Students should consult with the director of Teacher Education to coordinate their general and subject-area certification requirements with other university and major requirements.

Undergraduates seeking teacher certification in secondary education should contact an advisor in the School of Education, Teaching and Health as early as possible. Admission to the university and declaration of a major does not constitute admission to candidacy in teacher education, which is based on academic and related performance criteria. To be admitted to candidacy, students must earn a passing score (as set by the District of Columbia teacher licensing agency) on the PRAXIS I: Pre-Professional Skills Test (PPST); earn an average grade of 2.70 or higher in EDU-205 Schools and Society and EDU-320 Psychology of Education, pass EDU-321 Field Experience: Observation and Analysis, receive satisfactory recommendations from faculty, and have an overall cumulative grade point average of 2.70 or higher. Secondary Education majors must also have a 3.00 grade point average in their primary major. The Teacher Education Committee reviews student applications and makes decisions regarding admission to candidacy.

Liberal Arts and Science Requirements for Teacher Certification: Secondary

To qualify for teacher certification, students must complete subject-area certification standards and U.S. History. These requirements may overlap with General Education requirements.

Major Requirements

Combined Bachelor's Degree and M.A. in Special Education: Learning Disabilities.

American University offers students the opportunity to earn both undergraduate and graduate degrees through its accelerated bachelor's/master's programs. Undergraduate students may complete up to 3 credits for every 9 credits required for the graduate degree that may be applied to the requirements for both degree programs. The department that oversees the graduate program the student enters will determine if the courses the undergraduate student completes will satisfy master's degree requirements. Bachelor's/master's students must complete at least 18 in-residence credit hours at the graduate level after the bachelor's degree is earned and maintain continuous, sequential enrollment in the two programs.

This program enables highly qualified students to earn both a B.A. or a B.S. in a related discipline and the M.A. in Special Education: Learning Disabilities.

Requirements

- Students should apply to the master's program in the second semester of their junior year. Applicants must have a grade point average of 3.00 or higher in major and minor courses and must satisfactorily complete the following:
EDU-502 Methods of Managing Pupils with Behavior Disorders (3)
EDU-541 Foundations of Special Education for Exceptional Children (3)
or
EDU-545 Overview of All Exceptionalities: The Arts in Special Education (3)
- All requirements for the B.A. or B.S. in the student's major
Undergraduate students may apply up to 9 credit hours from approved graduate-level courses, including EDU-502 and EDU-541 or EDU-545 to satisfy the requirements of both degrees.
- All requirements for the M.A. in Special Education: Learning Disabilities, including a minimum of 18 credit hours completed in residence in graduate status after the undergraduate degree has been awarded. Students must finish the master's degree requirements within three years from the date of first enrollment in the master's program.

Master of Arts in Teaching (M.A.T.)

The Master of Arts in Teaching is designed for the student with no previous background or preparation in education who wishes to acquire teaching certification in early childhood, elementary, or secondary education, or English for speakers of other languages.

Admission to the Program

In addition to meeting the minimum university requirements for graduate study, applicants must earn a satisfactory score on the Graduate Record General Examination. To be admitted students must earn a passing score on the PRAXIS I: Pre-Professional Skills Test (PPST) as set by the District of Columbia.

For secondary education certification, students must have a bachelor's degree or 33 credit hours in the subject area they are seeking licensure, such as art, biology, chemistry, dance, drama, English, French, German, health, mathematics, music, Physical education, physics, social studies, Spanish, or theatre.

Students seeking certification in English for speakers of other languages must be proficient in English. It is strongly recommended that native speakers of English have some background in at least one other language. International students are expected to demonstrate competence equivalent to a score of 600 or better on the Test of English as a Foreign Language (TOEFL) in order to be endorsed for certification.

Degree Requirements

- 39 credit hours of approved graduate work, including 33 hours of course work and 6 hours of student teaching with required seminar.

Students' undergraduate transcripts will be evaluated individually; based on this evaluation, students may be required to take additional course work to meet certification requirements.

Option to waive course work: Students with the appropriate prior study or professional experience in the field of education may be permitted to waive up to 6 credit hours of course work without replacement. The waiving of credit hours and the specific courses to be waived are determined and approved by the advisor and the SETH dean upon admission to a master's program. In addition, one of the following may be required: an assessment provided by an educational institution or organization which has criteria and evaluation procedures approved by the School of Education, Teaching and Health; or a portfolio developed in a one-credit independent study offered by SETH and submitted for evaluation and approval to the advisor and SETH dean.

- Comprehensive examination
- Students submit an electronic professional portfolio
- Completion of the Praxis II Exam prior to graduation

Course Requirements

All course work must be approved by the director of the M.A.T. program. Evaluation of field performance may involve videotaping of classroom teaching.

Master of Arts in Teaching (M.A.T.) and M.A. in International Peace and Conflict Resolution

Graduates receive an M.A. in International Peace and Conflict Resolution from the School of International Service and the M.A.T. in secondary education from the School of Education, Teaching and Health.

Admission to the Program

Applicants must hold an accredited bachelor's degree with a cumulative grade point average of at least a B+ (3.30 or

higher on a 4.00 scale) and should have had at least 24 credit hours of social science course work relevant to international studies. Students who do not meet these minimum requirements, if otherwise admissible, are assigned additional course work specified at the time of admission.

Students must apply to both the School of International Service (SIS) and the School of Education, Teaching and Health (SETH) in the College of Arts and Sciences. Admission to either of the participating teaching units in no way implies admission to the other unit. For more information on admissions requirements, contact the SIS Graduate Admissions Office at 202-885-1646 or the SETH Teacher Education Office at 202-885-3720.

All applicants are required to submit results of the aptitude section of the Graduate Record Examination (GRE). International applicants whose first language is not English are required to submit results of the Test of English as a Foreign Language (TOEFL). The minimum TOEFL score for full consideration is 600. All applicants must submit two letters of reference evaluating undergraduate academic performance and suitability for graduate study in international affairs and education.

For secondary education certification, students must have a bachelor's degree or 33 credit hours in the subject area they are seeking licensure. It is anticipated that students who complete the M.A. in International Peace and Conflict Resolution will have sufficient background to meet certification requirements in social studies. However, students who meet requirements for other subject areas will also be considered. Students will be notified at the time of admission concerning additional course work required for state certification.

Degree Requirements

- 57 credit hours of approved graduate course work with a cumulative grade point average of 3.00
Students must complete the 9 credit hours in the education core courses, 12 credit hours in secondary education, 6 credit hours of student teaching, and at least 12 of the 15 credit hours in peace and conflict resolution to receive the M.A.T.
Students must complete 15 credit hours in peace and conflict resolution, 3 credit hours in economics, 6 credit hours in methodology, 6 credit hours in research and writing, and the 9 credit hours in the education core to receive the M.A. in International Peace and Conflict Resolution.
- In addition to intensive course work and student teaching placements, students are also required to participate in an educational internship program. These field placements are carefully supervised and coordinated to meet state certification requirements.
- Proficiency in a modern foreign language
- Comprehensive examination in international peace and conflict resolution
- Comprehensive examination for M.A.T.

Graduate Certificate in Teaching

This teacher certification program is designed for students with bachelor's degrees in the arts, sciences, or humanities and several years of responsible work experience. Students complete the program and must pass certification (licensure) in the District of Columbia and through such certification are eligible for reciprocal certification in over 40 states. Some states may require additional courses or examinations. The certificate program may be taken in early childhood education, elementary,

secondary, or English for Speakers of Other Language (ESOL) teaching.

Admission to the Program

Applications must include transcripts of all college work, AARTS transcripts or equivalent, a cumulative grade point average of 3.00 (on a 4.00 scale) in the last 60 credit hours of undergraduate work and in all graduate work, a statement of purpose, and two letters of recommendations. Admission to the certificate program constitutes admission to the Teacher Education Program. To be admitted students must earn a passing score on the PRAXIS I: Pre-Professional Skills Test (PPST) as set by the District of Columbia.

Certificate Requirements

- 24–30 credit hours of approved graduate work, including 6 credit hours of student teaching, with grades of C or better, and at least 9–12 credit hours at the 600-level or above
For secondary certification, specific course work in the subject area to be taught may be needed to meet requirements for certification
- Grades of C- or D in certificate program courses are not accepted toward the fulfillment of certificate requirements, although these grades will be included in the calculation of the GPA. Students must have at least a 3.0 GPA in certificate courses in order to be awarded a certificate. Students in certificate programs must take a minimum of 6 credit hours during each 12-month period and complete the certificate in four years. International students must enroll in 9 credit hours each semester (except for summer). A maximum of 6 credit hours earned at an accredited college or university may be applied toward the certificate as transfer credit.
- Students submit an electronic professional portfolio and complete the PRAXIS II exam prior to being awarded the certificate.

Course Requirements

All course work must be approved by the director of Teacher Education. Evaluation of field performance may involve videotaping of classroom teaching.

Ongoing Assessment of Academic and Professional Performance

To remain in the Teacher Education Program, certificate students must maintain a cumulative grade point average of 3.00; receive satisfactory evaluations in field and methods placements; obtain a satisfactory evaluation from the Teacher Education Committee based upon academic, professional, and performance criteria established by the committee; and meet specific course grade requirements. Students must also earn a passing score (as set by the District of Columbia teacher li-

censing agency) on the PRAXIS I: Pre-Professional Skills Test (PPST).

Admission to the M.A.T.

Students in the certificate program seeking admission to the M.A.T. degree program will be considered after satisfactory completion of up to 18 credit hours of course work. A maximum of 21 credit hours earned in nondegree status in a completed certificate program may be applied to a graduate degree program.

Master of Education in Curriculum and Instruction

The Master of Education (M.Ed.) in Curriculum and Instruction is designed for students with a background in educational theory and practice. The program follows the National Council for the Accreditation of Teacher Education (NCATE) guidelines for advanced programs and provides an opportunity for students to earn National Board for the Professional Teaching Standards (NBPTS) certification. Students select a focus within the program including literacy, educational leadership, and educational technology. The literacy focus prepares practicing teachers to become literacy specialists by providing a thorough grounding in theory, principles, and practices of literacy education as well as a critical understanding of key contemporary issues in relation to the teaching and learning of literacy and language. Educational policy and leadership prepares teachers to develop effective professional development programs, provide mentoring and instruction for new teachers, and develop assessment and evaluation programs for schools and other educational organizations. The technology focus with specializations in mathematics or science is designed for teacher leaders with particular interest in integrating technology into the curriculum, specifically how math and science instruction is presented in schools and other educational organizations.

Admission to the Program

In addition to meeting the minimum university requirements for graduate study, applicants must earn a satisfactory score on the Graduate Record Examination (GRE). The GRE is required for applicants whose highest earned degree is a baccalaureate and for students who have completed a master's degree with less than a 3.5 GPA, and may be required for those with master's degrees and GPAs above 3.5.

Degree Requirements

- 36 credit hours of approved graduate work
Up to 6 credit hours may be transferred from work completed at other institutions and approved by the program director at time of admission
- A program of study approved by the program director and the dean of the school must be submitted by the end of the first semester of enrollment in the program
- Comprehensive examination requirement satisfied through specified course work: 3 credit hours of EDU-629 or EDU-691

Graduate Certificate in Curriculum and Instruction

The curriculum and instruction certificate program is designed for students with an interest in expanding their teaching or supervision skills, but who are not currently pursuing a master's degree. Students select a focus including literacy, educational leadership, or educational technology.

Admission to the Program

Applications must include transcripts of all undergraduate and graduate course work, a cumulative grade point average of 3.00 (on a 4.00 scale) in the last 60 credit hours of undergraduate work and in all graduate work, a statement of purpose, and two letters of recommendation.

Certificate Requirements

- 18 credit hours of approved graduate work with grades of B- or better, and at least 9 credit hours at the 600-level or above
Grades below B- in certificate program courses are not accepted toward the fulfillment of certificate requirements, although these grades will be included in the calculation of the GPA. Students must have at least a 3.0 GPA in certificate courses in order to be awarded a certificate. Students in certificate programs must take a minimum of 6 credit hours during each 12-month period and complete the certificate in four years. International students must enroll in 9 credit hours each semester (except for summer). A maximum of 6 credit hours earned at an accredited college or university may be applied toward the certificate as transfer credit.

B.S. in Health Promotion

The B.S. in Health Promotion provides rigorous academic preparation in the scientific and clinical knowledge of human anatomy and physiology, nutrition, exercise physiology, and health psychology combined with the aspect of health promotion communication and programming.

The program includes course work from the Departments of Biology and Psychology along with a capstone internship experience. Experiential learning opportunities are available at federal government agencies, nonprofit organizations, and corporations that deal with health, education, and physical activity. This curriculum prepares students for a health promotion position in a corporate, community, commercial, or school environment, or for graduate work in a health-related field.

Admission to the Program

Formal admission to the major requires a grade point average of 2.70 (on a 4.00 scale) after the freshman year and departmental approval. In addition to the university requirements for transfer admission, applicants should have maintained a minimum grade point average of 2.70 (on a 4.00 scale). Students with a grade point average between 2.50 and 2.70 may be formally admitted to the major after completion of 15 credit hours with a minimum grade point average of 3.00.

University Requirements

- A total of 120 credit hours
- 6 credit hours of college writing
- 3 credit hours of college mathematics or the equivalent by examination

General Education Requirements

- A total of ten courses, consisting of one foundation course and one second-level course in an approved sequence from each of the five curricular areas
- No more than two courses may be taken in the same discipline

University Honors Program

To graduate with University Honors, students must be admitted to the University Honors Program, maintain a minimum cumulative GPA of 3.50, and receive grades of B or better in all University Honors course work. There are three levels of University Honors course requirements: Level I (100-200-level); Level II (300-level and above); and Level III (Honors Capstone Project). The department Honors coordinator advises students in the University Honors Program regarding requirements for graduating with University Honors in the major.

Combined B.S. in Health Promotion and M.S. in Health Promotion Management

American University offers students the opportunity to earn both undergraduate and graduate degrees through its accelerated bachelor's/master's programs. Undergraduate students may complete up to 3 credits for every 9 credits required for the graduate degree that may be applied to the requirements for both degree programs. The department that oversees the graduate program the student enters will determine if the courses the undergraduate student completes will satisfy master's degree requirements. Bachelor's/master's students must complete at least 18 in-residence credit hours at the graduate level after the bachelor's degree is earned and maintain continuous, sequential enrollment in the two programs.

This program allows qualified students to earn both a B.S. in Health Promotion and an M.S. in Health Promotion Management.

Requirements

- Undergraduates whose overall grade point average is 3.00 or higher will be considered for the combined program. Students should discuss their interest in the program with the academic advisor for the B.S. in Health Promotion program before submitting a formal application. The application for admission to the M.S. in Health Promotion Management program should be completed before the fall semester of their senior year.
- All requirements for the B.S. in Health Promotion Undergraduate students may apply up to 12 credit hours of approved graduate-level course work to satisfy the requirements for both degrees.
- All requirements for the M.S. in Health Promotion Management, including a minimum of 18 credit hours

completed in residence in graduate status after the undergraduate degree has been awarded. Students must finish the master's degree requirements within three years from the date of first enrollment in the master's program.

Minor in Health Promotion

- 24 credit hours with grades of C or better and at least 12 credit hours unique to the minor

Course Requirements

- HFIT-200 Lifetime Health and Fitness (3)
- HFIT-205 Current Concepts in Nutrition 5:2 (3)
- HFIT-240 Introduction to Health Promotion (3)
- HFIT-325 Exercise Physiology (3)
- HFIT-335 Health Promotion Program Planning (3)
- 9 credit hours from the following, approved by a department advisor:
 - HFIT-250 Strategies in Stress Reduction (3)
 - HFIT-270 First Aid, CPR and Medical Emergencies (3)
 - HFIT-323 Issues in Women's Health (3)
 - HFIT-410 Health Promotion Evaluation (3)
 - HFIT-540 Health Communication (3)
 - HFIT-565 Quantitative Assessment (3)

M.S. in Health Promotion Management

The primary objective of the M.S. in Health Promotion Management is to provide a competency-based, multidisciplinary academic program for individuals dedicated to assuming leadership positions within the health promotion industry. The curriculum integrates managerial skills with scientific and clinical knowledge of exercise physiology, human biochemistry, behavioral psychology, and nutrition. Students also select an area of emphasis in either corporate health, exercise physiology, global health, health communication, health policy, or nutrition education.

Admission to the Program

The program is open to students with varied undergraduate backgrounds and has few science-related academic prerequisites. The academic record and experience of each applicant will be thoroughly reviewed by the program director. The minimum university requirements for admission to graduate study are a bachelor's degree earned at an accredited college or university and a 3.00 cumulative grade point average (on a 4.00 scale) for the last 60 credit hours of undergraduate study. A satisfactory score on the Graduate Record Examination (GRE) is required for admission. Program prerequisites include human anatomy and physiology and exercise physiology. However, these courses can be taken after admission to the program. International applicants who are fluent in written and spoken English are encouraged to apply. To be considered for admission, international applicants must meet university requirements for writing and speaking English.

Degree Requirements

- 40 credit hours of graduate work
- Tool of research: students must complete the tool of research examination or HFIT-565 Quantitative Assessment with a grade of B or better
- Thesis or internship option
- One written and one oral comprehensive examination

Course Requirements

- HFIT-510 Applied Human Physiology and Testing I (4)
- HFIT-540 Health Communication (3)
- HFIT-550 Programming for Health Promotion (3)
- HFIT-555 Research Methodology (3)

Graduate Certificate in Nutrition Education

The nutrition education certificate program is designed for students who have earned a bachelor's degree and are interested in expanding their work to include nutrition education or for professionals who are involved with creating programs and implementing policy to address the obesity epidemic. This certificate is closely aligned to the M.S. in Health Promotion Management, which educates students to be leaders in the field of health promotion. Select courses in the certificate program are offered on-line throughout the year; however other courses will be offered in the classroom.

Admission to the Program

Applications must include transcripts of all college work demonstrating a cumulative grade point average of 3.00 (on a 4.00 scale) in the last 60 hours of undergraduate work and in all graduate work. In addition, applicants are required to submit a statement of purpose and two letters of recommendation.

Certificate Requirements

- 18 credit hours of approved course work with at least 6 credit hours at the 600-level or above, with grades of C or better
Grades of C- or D in certificate program courses are not accepted toward the fulfillment of certificate requirements, although these grades will be included in the calculation of the GPA. Students must have at least a 3.0 GPA in certificate courses in order to be awarded a certificate. Students in certificate programs must take a minimum of 6 credit hours during each 12-month period and complete the certificate in four years. International students must enroll in 9 credit hours each semester (except for summer). A maximum of 3 credit hours earned at an accredited college or university may be applied toward the certificate as transfer credit.

Environmental Science

Chair Kiho Kim

Full-Time Faculty

Professor A. Cheh, D.C. Culver

Associate Professor K. Kim

Assistant Professor S.E. MacAvoy

The environment has become a nexus of a broad range of global issues including climate change, biodiversity loss, and resource competition. Environmental sustainability, which combines environmental, economic, and social considerations, provides a valuable and holistic framework for addressing many of these concerns, and the ability to apply that understanding appropriately and effectively in public discourse.

The goal of the Department of Environmental Science is to inspire and train leaders concerned about sustainability with the knowledge and critical thinking skills to make independent, rational decisions concerning current and emerging environmental issues. To this end, the department provides rigorous, interdisciplinary programs grounded in a sound, scientific understanding of how our natural world works. The Department of Environmental Science offers the B.A. in Environmental Studies, B.S. in Environmental Science, minor in environmental science, M.S. in Environmental Science, and Graduate Certificate in Environmental Assessment.

The B.A. in Environmental Studies builds upon a set of foundational courses in both the natural and social sciences. The student then chooses from an approved list of related courses spanning many disciplines, from all schools and colleges at AU, to create a program of study suited to his or her specific interests and professional goals. Students are also encouraged to gain practical field experience through an internship at one or more of the many public and private environmental organizations in the Washington, D.C. area. Graduates will be prepared for employment in a broad range of fields where scientific information is applied in the development and implementation of environmental policies.

The B.S. in Environmental Science draws principally from the natural sciences, including biology, chemistry, physics, and mathematics and statistics. In addition to classroom work, the program provides students with extensive training in both field and laboratory techniques applicable to the study of the natural environment. Students are strongly encouraged to seek research experience with faculty and engage in the creation of new scientific knowledge. Opportunities to carry out research at one of the many research institutions in the Washington, DC area are also available.

A minor in environmental science is also available for those interested in adding breadth to their standard science or social policy degrees. The minor prepares students for employment in environmental research, policy, or management, or for further graduate work in the natural or social sciences.

The M.S. in Environmental Science offers an opportunity to expand students' knowledge base for developing solutions to

environmental problems. The program provides two approaches: course-focused or research-focused. Students in the course-based program take a core set of science and statistics courses and a selection of complementary courses in environmental policy. Students are encouraged to gain practical field experience through an internship at one or more of the many public and private environmental organizations in the Washington, DC area. Students in the research-based program carry out research projects with faculty in the department, associated and affiliated faculty at AU, or at one of the many research institutions in the Washington, DC area. Graduates will be prepared to engage in high-level, environmental problem solving or pursue advanced studies in environmental science.

The Graduate Certificate in Environmental Assessment is designed to provide students with advanced understanding of the environmental impacts of human activities. The program emphasizes the generation, transport, fate, and impact of toxicants that affect the environment, with both domestic and international scope. Graduates will be prepared to characterize degraded environments and develop strategies for mitigation or remediation.

University Honors Program

To graduate with University Honors, students must be admitted to the University Honors Program, maintain a minimum cumulative GPA of 3.50, and receive grades of B or better in all University Honors course work. There are three levels of University Honors course requirements: Level I (100-200-level); Level II (300-level and above); and Level III (Honors Capstone Project). The department Honors coordinator advises students in the University Honors Program regarding requirements for graduating with University Honors in the major.

Combined Bachelor's and Master's Degrees

American University offers students the opportunity to earn both undergraduate and graduate degrees through its accelerated bachelor's/master's programs. Undergraduate students may complete up to 3 credits for every 9 credits required for the graduate degree that may be applied to the requirements for both degree programs. The department that oversees the graduate program the student enters will determine if the courses the undergraduate student completes will satisfy master's degree requirements.

Bachelor's/master's students must complete at least 18 in-residence credit hours at the graduate level after the bachelor's degree is earned and maintain continuous, sequential enrollment in the two programs. Students must finish the master's degree requirements within three years from the date of first enrollment in the master's program.

Minor in Environmental Science

Requirements

- A minimum of 22 credit hours with grades of C or better with at least 12 credit hours unique to the minor

Course Requirements

- CHEM-110 General Chemistry I 5:1 (4)
- CHEM-210 General Chemistry II 5:2 (4)

- CHEM-401 Geology (3)
- ENVS-102 Seminar in Environmental Issues (1)
- ENVS-360 Environment and the Atmosphere (3)
- ENVS-375 Water Resources (3)
- MATH-211 Applied Calculus I (4) *or*
MATH-221 Calculus I (4)
- Students whose major requirements include CHEM-110, CHEM-210, and MATH-211/MATH-221 take an additional course as approved by the Environmental Studies coordinator

M.S. in Environmental Science

Admission to the Program

In addition to meeting the minimum university requirements for graduate study, students must have completed one year of calculus and one year of laboratory science (biology, chemistry, geology, or physics). A semester or more of economics is recommended. Admission is based on academic record, personal statement, and two letters of recommendation. The Graduate Record Examination (GRE) is required.

Degree Requirements

- 36 credit hours of approved graduate work, including 6 credit hours of ENVS-681, ENVS-690, and ENVS-691 in lieu of a thesis
Students are required to take ENVS-681 during the spring semester of their final year; they write a paper based on an internship, research, or independent study and present the paper during a venue approved by the graduate advisor.
- One comprehensive examination; a maximum of two attempts is permitted.

Course Requirements

Core (18 credit hours)

- CSC-610 Introduction to Geographic Information Systems (3)
- ENVS-580 Environmental Science I: A Quantitative Approach (3)
- ENVS-581 Environmental Science II: A Quantitative Approach (3)
- ENVS-681 Environmental Research Seminar and Practicum (3)
and
ENVS-690 Environmental Science Research (3)
or
ENVS-691 Internship (3)

- STAT-514 Statistical Methods (3)

Electives (18 credit hours)

- 18 credit hours chosen in consultation with the graduate advisor from each of the two clusters below. A statistics course (STAT-515, STAT-516, STAT-520, or STAT-524) may be substituted for one of the courses; other courses may be substituted with permission of the graduate advisor.

- 9 credit hours from the following environmental science courses:
BIO-562 Field Methods (3)
BIO/ENVS-596 Selected Topics: Nonrecurring (approved topics)
ENVS-520 Biogeochemistry (3)
ENVS-572 Topics in Conservation Biology (3)
ENVS-575 Environmental Risk Assessment (3)
ENVS-675 Water Resources (3)
- 9 credit hours from the following environmental policy/economics courses:
ECON-579 Environmental Economics (3)
ENVS-582 Environmental Law (3)
PUAD-606 Foundations of Policy Analysis (3)
SIS-620 Studies in Global Environmental Politics (3) (topics)
SIS-649 Environment and Development (3)
SIS-660 Environment and Politics (3)
SOCY-689 Environmental Sociology (3)

Combined Bachelor's Degree and M.S. in Environmental Science

American University offers students the opportunity to earn both undergraduate and graduate degrees through its accelerated bachelor's/master's programs. Undergraduate students may complete up to 3 credits for every 9 credits required for the graduate degree that may be applied to the requirements for both degree programs. The department that oversees the graduate program the student enters will determine if the courses the undergraduate student completes will satisfy master's degree requirements. Bachelor's/master's students must complete at least 18 in-residence credit hours at the graduate level after the bachelor's degree is earned and maintain continuous, sequential enrollment in the two programs

This program enables qualified students to earn both an undergraduate degree in any field and an M.S. in Environmental Science.

Requirements

- Undergraduates should apply for admission to the combined program by the end of the junior year. At a minimum, students must have an overall grade point average of 3.00 or higher, and have taken a year of laboratory science (BIO-110/210, CHEM-110/210, PHYS-105/205, or PHYS-110/210) and a year of calculus (MATH-221/222, MATH-211/212). Applications must be accompanied by two letters of recommendation and a statement of purpose. Graduate Record Examination (GRE) scores may be required for admission to the combined program. Students should discuss their interest in the program with the Environmental Studies coordinator before submitting an application.
- All requirements for a B.A. or B.S. in any major at American University
Undergraduate students may apply up to 9 credit hours of approved graduate-level course work to satisfy the

requirements of both degrees; ENVS-580 and ENVS-581 are recommended.

- All requirements for the M.S. in Environmental Science, including a minimum of 18 credit hours completed in residence in graduate status after the undergraduate degree has been awarded. Students must finish the master's degree requirements within three years from the date of first enrollment in the master's program.

Graduate Certificate in Environmental Assessment

Admission to the Program

Open to students with a bachelor's degree from an accredited institution. Students must have completed the following prerequisite courses: calculus, statistics, and organic chemistry.

Certificate Requirements

- 15 credit hours of approved course work with at least 6 credit hours at the 600-level or above, with grades of C or better. Grades of C- or D in certificate program courses are not accepted toward the fulfillment of certificate requirements,

although these grades will be included in the calculation of the GPA. Students must have at least a 3.0 GPA in certificate courses in order to be awarded a certificate. Students in certificate programs must take a minimum of 6 credit hours during each 12-month period and complete the certificate in four years. International students must enroll in 9 credit hours each semester (except for summer). A maximum of 3 credit hours earned at an accredited college or university may be applied toward the certificate as transfer credit.

Course Requirements

- CHEM-671 Principles of Toxicology (3)
- CSC-610 Introduction to Geographic Information Systems (3)
- ITEC-688 Introduction to Decision Analysis (3)
- ENVS-575 Environmental Risk Assessment (3)
- ENVS-681 Environmental Research Seminar and Practicum (3)

Historians explore the past, but the pasts they uncover depend on the questions they ask, and historians keep discovering new questions appropriate to their moment in time. Exploring civilizations across time and space, historians study all the creations of men and women: politics and governments, the arts and the sciences, economic and technological changes, public and private lives, nations and their peoples.

The undergraduate history program introduces students to history broadly, requiring study of ancient, medieval, and modern histories in several geographic contexts before expecting students to specialize. The program's lectures, seminars, and discussions facilitate student engagement. Master's and doc-

toral students specialize in either United States or modern European history and hone research, writing, and analytical skills. The department also offers an M.A. in public history, and public history may be taken as an outside field in the doctoral program. Students in American University's History Department have the opportunity to work closely with faculty experts who specialize not only in the U.S., Europe, Latin America, and East Asia, but whose research focuses on the history of women, the Holocaust, immigration, politics, and culture.

AU History faculty have close, ongoing relationships with major historical institutions in Washington, D.C., such as the National Archives, Library of Congress, National Museum of American History, National Building Museum, and the United States Holocaust Memorial Museum. These provide excellent opportunities for student internships and for their engagement with public history, which is the presentation of history outside of the classroom. During the summer, students may participate in the department's popular Civil War and Nuclear Studies Institutes.

In addition to preparing students for graduate or law school, the Department of History's emphasis on research, writing, and intellectual problem solving prepares its students for a wide array of careers in business, government, public interest fields, journalism, and other professions.

Special Opportunities

- Dorothy Gondos Beers Scholarship; James W. Mooney Award; Janet Oppenheim History Essay Prize; Richard and Carol Breitman Award, Roger Brown Fellowship; Phi Alpha Theta Honorary Society

- Internships at Washington area museums, libraries and archives, historic sites, and government agencies

B.A. in History

Admission to the Program

Formal admission to the major requires departmental approval.

University Requirements

- A total of 120 credit hours
- 6 credit hours of college writing
- 3 credit hours of college mathematics or the equivalent by examination

General Education Requirements

- A total of ten courses, consisting of one foundation course and one second-level course in an approved sequence from each of the five curricular areas
- No more than two courses may be taken in the same discipline

Major Requirements

- 39 credit hours with grades of C or better including at least 15 credit hours at the 300 level or above.

The department recommends that before enrolling in a course at the 300 level or above, students should complete a suitable introductory course or attain equivalent knowledge.

Advanced Placement

Prospective history majors may qualify for a minimum of 3 and a maximum of 6 advanced placement (AP) credits toward the major for the following exams: American history, European history, and world history, provided the student earns a grade of 4 or 5 on the AP examination. Students cannot receive AP credit towards the major if they also take the comparable survey courses in either American history (HIST-205 and HIST-206) or European history (HIST-110). A satisfactory International Baccalaureate (IB) examination may count toward fulfilling a specific course requirement for the major. Entering students with academic credit for IB examinations in history courses should consult with the department. A total of 6 AP and IB credits can be counted toward the history major.

Course Requirements

- HIST-480 Major Seminar I (3)
- HIST-481 Major Seminar II (3)
- One course in ancient or medieval history
- One course in Asian, East European, modern Middle Eastern, or Russian history
- One course in African, African-American, Latin American, or Native American history
- One course in Western European or British history at the 300 level or above
- One course in U.S. history at the 300 level or above
- Additional courses to make a total of 39 credit hours in history (which may include JWST-205 Ancient and

Medieval Jewish Civilization). At least 20 of the 39 credit hours must be taken at American University; at least 15 of the 39 must be at the 300 level or above.

University Honors Program

To graduate with University Honors, students must be admitted to the University Honors Program, maintain a minimum cumulative GPA of 3.50, and receive grades of B or better in all University Honors course work. There are three levels of University Honors course requirements: Level I (100-200-level); Level II (300-level and above); and Level III (Honors Capstone Project). The department Honors coordinator advises students in the University Honors Program regarding requirements for graduating with University Honors in the major.

Combined B.A. and M.A. in History

American University offers students the opportunity to earn both undergraduate and graduate degrees through its accelerated bachelor's/master's programs. Undergraduate students may complete up to 6 credit hours required for the graduate degree that may be applied to the requirements for both degree programs. The department that oversees the graduate program the student enters will determine if the courses the undergraduate student completes will satisfy master's degree requirements. Bachelor's/master's students must complete at least 18 in-residence credit hours at the graduate level after the bachelor's degree is earned and maintain continuous, sequential enrollment in the two programs.

This program enables students to complete both the B.A. and M.A. in History.

Requirements

- Interested students should apply for admission to the program in their junior year. Students in this program are not required to take the Graduate Record Examination (GRE). Students will be admitted formally to M.A. status only if they have completed all requirements for the B.A. in History with at least an overall 3.20 grade point average and a 3.50 grade point average in history courses.
- All requirements for the B.A. in History
Undergraduate students may apply up to 9 credit hours of approved graduate-level course work in history to satisfy the requirements of both degrees.
- All requirements for the M.A. in History, including a minimum of 18 credit hours completed in residence in graduate status after the undergraduate degree has been awarded. Students must finish the master's degree requirements within three years from the date of first enrollment in the master's program.

Minor in History

- 21 credit hours with grades of C or better and with at least 12 credit hours unique to the minor
At least 12 of the 21 credit hours in history must be taken at American University.

Course Requirements

- One course in Western European or British history at the 300 level or above
- One course in U.S. history at the 300 level or above
- One course in an area other than Western European, British, or U.S. history
- Four more courses in history, including at least two at the 300 level or above. The department requires that all 300-level courses be taken at American University.

M.A. in History

Admission to the Program

In addition to meeting the minimum university requirements for graduate study, applicants must earn a satisfactory score on the Graduate Record Examination (verbal, quantitative, and analytic). Admission is based on academic record, test scores, letters of recommendation from two professors with whom work was taken recently, personal statement, 10-15 page writing sample, and favorable judgment by the department graduate committee and chair.

Degree Requirements

- 30–36 credit hours of approved graduate work; including 12 credit hours in core courses, 3-6 credit hours of research seminar or thesis, and 12-15 credit hours of approved electives

For the Public History concentration, a total of 12 credit hours in core courses, 3 credit hours of research seminar, 9 credit hours of public history requirements, and 12 credit hours of approved electives are required.

No more than 50 percent of course work may be done in 300/600 level courses.

- Tool of research: a relevant foreign language, quantitative methods, oral history, digital history, or a methodology approved by the graduate committee of the Department of History
- One comprehensive examination
- Nonthesis option: HIST-751 or HIST-752 with a grade of B or better
Thesis option: a satisfactory thesis completed through 6 credit hours of HIST-797 with grades of B or better

Course Requirements

Core (12 credit hours)

- HIST-500 Studies in History (3)
- Two colloquia from the following:
HIST-720 Colloquium in Modern European History: 1789-1900 (3) with a grade of B or better
HIST-721 Colloquium in Modern European History since 1900 (3) with a grade of B or better
HIST-727 Colloquium in United States History I: to 1865 (3) with a grade of B or better
HIST-728 Colloquium in United States History II: since 1865 (3) with a grade of B or better

other approved courses may be substituted for one of the above colloquia

- HIST-744 The Historian's Craft (3) with a grade of B or better, usually taken in the student's first fall semester in the program

Research Seminar or Thesis (3-6 credit hours)

- HIST-751 Research Seminar in European History (3) with a grade of B or better
or
HIST-752 Research Seminar in United States History (3) with a grade of B or better
other approved courses may be substituted
or
HIST-797 Master's Thesis Seminar (6) with grades of B or better

Electives (12-15 credit hours)

- 12–15 credit hours in approved graduate course work

Public History Concentration (36 credit hours)

Core (12 credit hours)

- HIST-500 Studies in History (3)
- Two colloquia from the following:
HIST-720 Colloquium in Modern European History: 1789-1900 (3) with a grade of B or better
HIST-721 Colloquium in Modern European History since 1900 (3) with a grade of B or better
HIST-727 Colloquium in United States History I: to 1865 (3) with a grade of B or better
HIST-728 Colloquium in United States History II: since 1865 (3) with a grade of B or better
other approved courses may be substituted for one of the above colloquia
- HIST-744 The Historian's Craft (3) with a grade of B or better, usually taken in the student's first fall semester in the program

Research Seminar (3 credit hours)

- HIST-751 Research Seminar in European History (3) with a grade of B or better
or
HIST-752 Research Seminar in United States History (3) with a grade of B or better
other approved courses may be substituted

Public History (9 credit hours)

- HIST-729 Public History Seminar (3) with a grade of B or better
- HIST-730 Public History Practicum (3) with a grade of B or better
- HIST-691 Internship in History (3)

Electives (12 credit hours)

- 12 credit hours in approved graduate course work

Ph.D. in History

Admission to the Program

In addition to meeting the minimum university requirements for graduate study, applicants normally have completed an M.A. in History or a related field, have earned a satisfactory score on the Graduate Record Exam (Verbal, Quantitative, and Analytic), and have made a substantial beginning in one tool of research. Admission is based on academic record, letters of recommendation from two professors with whom work was taken recently, a sample of recent written work of substantial length (M.A. thesis, research paper, or interpretative essay) and favorable judgment by the department's graduate committee and department chair.

Degree Requirements

- 72 credit hours of approved graduate work
- Tools of research

Two of the following: relevant foreign languages, quantitative methods, digital history, oral history, or a methodology approved by the graduate committee of the Department of History

- Comprehensive examinations in three fields:

Comprehensive examinations are offered in areas such as ancient history, United States history, modern European history, British history, Latin American history, modern Asian history, Russian history, Middle Eastern history, and diplomatic history.

One field must be a historical field outside the student's main area of concentration, a comparative or multidisciplinary field, or a field in another discipline.

- Dissertation proposal and oral defense
- Dissertation and oral defense

Course Requirements

Specific course requirements depend on whether students received their M.A. in History from American University. For more information, consult the Department of History.

- HIST-744 The Historian's Craft (3) with a grade of B or better, taken in the student's first semester of course work
- HIST-799 Doctoral Dissertation Seminar (12–24)

Israel Studies

Director Pamela S. Nadell

Israel Studies is an interdisciplinary program that draws on faculty and courses related to Israel from across the campus. Students are encouraged to study abroad in Israel and to take Hebrew language courses.

Minor in Israel Studies

Students take three core courses focused on the history and civilization of Israel and the relationships between Israel and the Arab world. They then take 9 additional credit hours in approved elective course work.

Admission to the Program

Formal admission to the minor requires a grade point average of 2.00 and approval of the program director.

Requirements

- 18 credit hours with grades of C or better with at least 12 credit hours unique to the minor and at least 9 credit hours at the 300 level or above

Course Requirements

Core (9 credit hours)

- HIST-245 Modern Jewish Civilization (3)
- HIST-343 History of Israel (3)
- SIS-365 Arab-Israeli Relations (3)

Electives (9 credit hours)

- 9 credit hours from the following with approval of the program director:
 - HIST-344 Topics in Jewish History (3) (approved topics)
 - JWST-320 Topics in Jewish Culture (3) (approved topics)
 - JWST-390 Independent Reading (1-6)
 - JWST-490 Independent Study (1-6)
 - JWST-491 Internship (1-6)
 - SIS-400 Senior Seminar in International Relations (3):
 - Israeli Identity
 - SOCY-340 Israeli Society (3)
- Study abroad in Israel is highly recommended and with approval of the program director courses taken abroad may fulfill minor requirements

Jewish Studies

Director Pamela S. Nadell

Faculty from other schools and departments of the university teach courses in the program.

The Jewish Studies Program recognizes that Jews and Judaism constitute a distinct yet integral component of the heritage of Western civilization. Jewish studies courses analyze

the civilization of the Jews and its various cultural and religious expressions from the patriarchal period to the present.

Jewish studies courses embrace the total experience of the Jewish people, spanning the spectrum of the arts, humanities, and the social sciences. Moreover, since dynamic contact with many other religions and cultures influenced the development of Jewish civilization, courses view Jews and Judaism within the

broader context of these dominant societies, and enrich one's understanding of American and world Jewries. The majors and minors in Jewish studies prepare students for leadership within and service to the Jewish community, and for a greater understanding of our pluralistic society. A minor in Israel Studies is also offered.

As a center of Jewish organizational life, Washington, D.C. provides opportunities for internships with local Jewish organizations devoted to community relations, religious activities, Israel, and social welfare. A Jewish studies minor combined with an education major may lead to certification for teaching in Jewish schools.

Special Opportunities

- Dr. Everett and Marian Gordon Scholarship Awards in Jewish Studies: Established in 1976 to provide awards for outstanding senior theses in Jewish studies, and scholarships for classroom performance by students in Jewish studies courses, with preference given to students without previous background in Jewish studies.
- Jerrold and Jane Goodman Scholarships: Established in 1979 through an annual grant from Yablick Charities, Inc. Scholarships are awarded annually to outstanding students in Jewish studies.

B.A. in Jewish Studies

Admission to the Program

Formal admission to the major requires a grade point average of 2.00 (on a 4.00 scale) and the approval of the director of the program.

University Requirements

Course Requirements

- HEBR-216 Hebrew, Intermediate Modern I (3)
- HEBR-217 Hebrew, Intermediate Modern II (3) or equivalent proficiency in Hebrew as approved by the Jewish Studies faculty.

Note: HEBR-116/HEBR-117 Hebrew, Elementary Modern I/II are prerequisites for the language requirement but do not count toward the major.

- HIST-245 Modern Jewish Civilization (3)

- JWST-205 Ancient and Medieval Jewish Civilization 2:2 (3)
- JWST-481 Senior Thesis in Jewish Studies I (3)
- JWST-482 Senior Thesis in Jewish Studies II (3)
- One course in Jewish literature
- One course in Jewish thought
- One course in contemporary Jewish life
- 12 additional credit hours in Jewish Studies

Eighteen of the total 39 hours must be at the 300 level or above. Related courses from other university departments may be used with approval of the program director.

Foreign Language Pedagogy Project Leader G. Riley

In an increasingly complex world that grows smaller every day, the study of languages, literatures, and cultures is of vital importance. Learning the ways other nations live and think furthers understanding among peoples and cultures. The Department of Language and Foreign Studies (LFS) offers extensive undergraduate study in French, German, Russian, and Latin American and Spanish foreign language and culture, as well as two jointly-administered programs: one in area studies and language with the School of International Service and a foreign language and communication media program with the School of Communication. In addition, the department has

joined with the Kogod School of Business to offer a Bachelor of Science in Business Administration and Language and Culture Studies. Minors are available in Arabic, Chinese, French, German, Japanese, Russian, or Spanish studies, as well as language and area studies minors in French/Europe, German/Europe, Italian/Europe, Japanese/Asia, Russian/Area Studies, or Spanish/Latin America. Master's programs include the M.A. in Spanish: Latin American Studies and the M.A. in TESOL (Teaching English to Speakers of Other Languages). (For admission and requirement information, see TESOL.)

In addition to French, German, Russian, and Spanish, language courses in Arabic, Chinese, Hebrew, Italian, Japanese, Korean, Persian, Portuguese, and Swahili are offered.

Programs in language and foreign studies meet the needs of both departmental majors and other students in the university. Many undergraduates choose to minor in a language area or to complete a translation certificate. Internships and cooperative education programs are available both locally and internationally for foreign language programs and TESOL. Students can complete translation certificates as part of their degree requirements or earn credits towards a TESOL certificate. Students also enhance their language skills through study in the AU Abroad program.

Many areas of business, industry, and government service consider a language background a career must. Recent graduates of the department have been employed in a variety of organizations and fields including the Department of State, Library of Congress, National Security Agency, Voice of America, and National Academy of Sciences, as well as international import and export firms, public and private schools and colleges, and research and development firms.

Center for Language Learning

The Center for Language Learning (CLL) of the Department of Language and Foreign Studies is a comprehensive, multi-media facility which supports students and faculty in the study and teaching of foreign languages and cultures through the use of advanced technologies in audio, video, film, computer, and satellite telecommunications.

The CLL is located in the Asbury Building lower level and is reached via the street-level entrance to the north wing of Asbury. For more information call 202-885-2396.

Undergraduate Language Program Courses

First Year 100-Level Elementary Courses Emphasis on developing basic language skills for oral and written communication with special attention to diverse cultural patterns. Three to five academic hours of class instruction per week supplemented by individual language laboratory work. A “native” speaker of a foreign language cannot enroll in or earn credit toward graduation in a 100-level course.

Second Year 200-Level Intermediate Courses Emphasis on cultural patterns and contrasts between cultures, refinement of basic language skills, study of more complex grammatical structures, and expansion of vocabulary in a cultural context. Three to five academic hours of class instruction per week supplemented by individual language laboratory work. A “native” speaker of a foreign language cannot enroll in or earn credit toward graduation in a 200-level course.

Third Year 300-Level Non-topics Courses Emphasis on advanced language use and refinement of complex grammatical structures, focusing on culturally-specific contexts. Three academic hours of class instruction per week. A “native” speaker of a foreign language cannot enroll in or earn credit toward graduation in a 300-level non-topics course.

300-, 400- and 500-Level Topics Courses Topics courses taught in the target language designed for both majors and nonmajors.

300- and 400-Level Civilization Courses Multi-faceted approach to the survey of a target civilization designed for both majors and nonmajors.

Note: A “native” speaker of a foreign language is defined as a person whose pre-college level instruction was conducted principally in that language. Students who have significant knowledge of a foreign language gained outside of pre-college instruction may also be considered by LFS to be “native” speakers, but may have valid reasons for studying the language at the 300 level or lower. Requests for such consideration will be evaluated on a case-by-case basis, and should be directed to the chair of the Department of Language and Foreign Studies.

University Honors Program

To graduate with University Honors, students must be admitted to the University Honors Program, maintain a minimum cumulative GPA of 3.50, and receive grades of B or better in all University Honors course work. There are three levels of University Honors course requirements: Level I (100-200-level); Level II (300-level and above); and Level III (Honors Capstone Project). The department Honors coordinator advises students in the University Honors Program regarding requirements for graduating with University Honors in the major.

Combined Bachelor's and Master's Degrees

American University offers students the opportunity to earn both undergraduate and graduate degrees through its accelerated bachelor's/master's programs. Undergraduate students may complete up to 3 credits for every 9 credits required for the graduate degree that may be applied to the requirements for both degree programs. The department that oversees the graduate program the student enters will determine if the courses the undergraduate student completes will satisfy master's degree requirements.

Bachelor's/master's students must complete at least 18 in-residence credit hours at the graduate level after the bachelor's degree is earned and maintain continuous, sequential enrollment in the two programs. Students must finish the master's degree requirements within three years from the date of first enrollment in the master's program.

B.A. in Language and Area Studies

The B.A. in Language and Area Studies is designed for students with a strong interest in a region of the world and in a language of that region. This innovative program achieves a balance between humanities and social sciences courses, combined with an advanced level of foreign language study. The program, jointly designed and administered by the College of Arts and Sciences (CAS) and the School of International Service (SIS), builds on the strengths of the CAS Department of Language and Foreign Studies (LFS) and the SIS field of Comparative and Regional Studies.

Admission to the Program

To be considered for freshman admission, an applicant should have earned at least a 3.00 average in secondary school. Students from other regionally accredited collegiate institutions, and students in other programs at American University who have completed the freshman year, should maintain a cumulative grade point average of 3.00 (on a 4.00 scale) to be considered for transfer to the program.

Majors

French/Europe, German/Europe, Russian/Area Studies, or Spanish/Latin America

University Requirements

Undergraduate Certificate in Translation

Students receive an Undergraduate Certificate in French, German, Russian, or Spanish by completing 15 credit hours of course work according to the sequence required for their particular language. All courses taken in the Department of Lan-

guage and Foreign Studies toward the certificate may be used by undergraduates toward departmental majors or minors in the same language.

The emphasis of this program is on translation into English. This certificate program provides students with an academic grounding in translation theory and practice. Students interested in obtaining further translation credentials are encouraged to discuss their options with the appropriate language advisor.

For core courses to count toward the certificate, students must receive a grade of B or better; for elective courses, a grade of C or better is required. For non-core courses, students complete an additional translation project beyond the normal course requirements and must receive a satisfactory evaluation for their project. Students will only be permitted to do these translation projects after having completed at least one of the first two core courses.

Admission to the Program

Open to all students who have completed the appropriate 300-level Conversation and Composition II or Advanced II language course, or equivalent. Equivalency is determined in consultation with faculty advisor. Students whose native language is not English must meet university requirements for English competency (minimum TOEFL score of 600). Before commencing the program, students should consult the appropriate advisor in the Department of Language and Foreign Studies to plan out their program of study.

M.A. in Spanish: Latin American Studies

Admission to the Program

In addition to meeting the minimum university requirements for graduate study, applicants should be proficient in Spanish, familiar with the culture, and normally hold a B.A. in Spanish. Both part-time and full-time students are welcome in the program. Applicants are required to submit a sample of written work in Spanish as part of their formal application to the program.

Degree Requirements

- 33 credit hours of approved graduate work, with at least 21 credit hours in courses taught in Spanish. Course work includes 21 credit hours of core requirements and 12 credit hours in a field of concentration.
Students may earn up to 9 graduate credit hours abroad, applied either to the core or the field of concentration (or both), as approved by advisor.
- Research requirement: two substantial research papers from SPAN-705 Seminar in Spanish and Latin American Studies with grades of B or better
- Comprehensive examination: two-part written comprehensive exam, one part in Spanish, one part in either Spanish or English. The core is covered in the first part and the field of concentration in the second. The comprehensive examination is given twice a year, toward the end of each semester.

Course Requirements

Core Courses (21 credit hours)

For core courses to count toward the certificate, students must receive a grade of B or better. For non-core courses, students complete an additional translation project beyond the normal course requirements and must receive a satisfactory evaluation for their project. Students will only be permitted to

do these translation projects after having completed at least one of the first two core courses. Students must have an overall 3.00 grade point average in certificate courses in order to be awarded the certificate.

Admission to the Program

Open to students who have a bachelor's degree. If the undergraduate degree is not in the language for which they wish to obtain a certificate, students must have completed the appropriate 300-level Conversation and Composition II or Advanced II language course, or equivalent. Equivalency is determined in consultation with the faculty advisor. Students whose native language is not English must meet university requirements for English competency (minimum TOEFL score of 600). Before commencing the program, students should consult the appropriate advisor in the Department of Language and Foreign Studies to plan their program of study.

French Translation Certificate

Course Requirements (15 credit hours)

Core

- FREN-634 French Translation: Concepts and Practice (3)
- FREN-635 French Translation Workshop (3)
- One of the following:
FREN-630 *Syntaxe et Style du Français* (3)
FREN-636 *Le Français Commercial* (3)
FREN-637 *Les Registres du Français* (3)

Electives

- Two courses selected from the other courses on the core course list or from offerings in French at the 500 level or above.

Russian Translation Certificate

Course Requirements (15 credit hours)

Core Courses

- RUSS-641 Russian Media and Political Translation (3)
- RUSS-643 Russian Business Translation (3)
- One of the following:
RUSS-546 Russian Advanced Grammar and Composition I (3)
RUSS-547 Russian Advanced Grammar and Composition II (3)

Electives

- Two courses may include the other course on the core course list or be selected from offerings in Russian at the 500 level or above.

Spanish Translation Certificate

Course Requirements (15 credit hours)

Core

- SPAN-658 Introduction to Spanish Translation (3)
- SPAN-659 Advanced Spanish Translation (3)
- One of the following:
SPAN-656 Spanish Topics (approved language-related topic)
SPAN-661 Introduction to Spanish Linguistics (3)

Electives

- Two courses selected from the other core courses or from offerings in Spanish at the 500 level or above.

Liberal Studies

B.A. in Liberal Studies

This program is designed for students eight years or more out of high school who seek a flexible degree program that encourages them to bring together their personal and professional goals in the design of their academic major. The major encourages students to combine liberal arts studies with a specialization. Specializations are available in any of the minors offered by American University.

Admission to the Program

After admission, students submit a written proposal stating their core interests, along with a 300-word essay explaining their goals and the relationship among chosen areas and courses.

University Requirements

- A total of 120 credit hours
- 6 credit hours of college writing
- 3 credit hours of college mathematics or the equivalent by examination

General Education Requirements

- A total of ten courses, consisting of one foundation course and one second-level course from each of the five curricular areas in an approved sequence
- No more than two courses may be taken in the same discipline

Major Requirements

- 42–48 credit hours with grades of C or better
The major consists of a 24 credit hour core area and an 18–24 credit hour specialization, both of which offer a number of structured alternative choices.

Core Area

- 24 credit hours chosen from fields of study in one of three core areas: the humanities, the social sciences, or sciences/mathematics.
The core area must include course work in four fields of study: 6 credit hours are to be taken in each field; at least 3 credit hours in each of the four fields must be earned in a course at the 300 level or higher. For students taking the

Sciences/Mathematics core, a minimum of 6 credit hours in total must be taken in courses at the 300 level or higher. No more than three courses taken for General Education credit may also count toward core area requirements. Six of the eight courses taken to fulfill the core area must be offered by the College of Arts and Sciences.

Specialization

In addition to the core area courses, students in the Bachelor of Arts in Liberal Studies program are required to complete 18–24 credit hours in a specialization chosen from the list of university-approved minors. *Note:* if the minor taken for the specialization requires 24 or more credit hours, students may request reducing their core requirements from 24 to 21 credit hours. However, the core must still include at least 18 credit hours offered by the College of Arts and Sciences.

Students may select a specialization that complements their core area, or they may choose a specialization that is a new area of study. In all cases the student is encouraged to design a core area and a specialization that reflects the student's particular interests and goals.

Requirements for the specialization in the Bachelor of Arts in Liberal Studies degree are met when a student completes the requirements for a minor approved for the program. No more than two courses taken for General Education credit may be applied to a student's specialization.

Concerned with the study of literature, writing, and film, the Department of Literature offers courses that embrace many approaches to the rich heritage of written, oral, and cinematic tradition, as well as courses that challenge students to write creatively and professionally. In addition to taking courses, our students are encouraged to enroll in internships to sample careers that use the skills they are developing in the classroom; Washington affords a wide range of job opportunities (many involving writing or editing) in settings such as arts organizations, radio and television, government offices, public interest organizations, museums, schools, and community groups.

The department's faculty of scholars and writers staff three degree programs in literature: the B.A. and M.A. in Literature and the M.F.A. in Creative Writing. All three programs offer students the chance to study literature, film, criticism and creative writing; all are small and flexible programs that bring students and faculty into close contact in small classes and informal gatherings and colloquia. The M.A. program provides an overview of the literary history of our culture in addition to a series of seminars on theoretical topics in which students and faculty together consider what constitutes the discipline of literary criticism. The M.F.A. in Creative Writing program includes work in fiction, poetry, and creative nonfiction; workshops with

distinguished visiting writers; internships; and course work in literature and in the arts of translation and literary journalism. It also offers students opportunities to give public readings, to meet with editors and publishers, and to produce a nationally known literary magazine.

In addition, the department offers an interdisciplinary minor in Cinema Studies which combines course work in cinema, video criticism and history and takes advantage of the impressive film resources of the Washington area.

The Visiting Writers Series

Each semester, the department sponsors public readings by prominent poets, fiction writers, and editors. These visitors also conduct workshops for graduate and undergraduate creative writing students. Visiting writers have included Mark Doty, Allan Gurganus, Tillie Olsen, Andrew Holleran, Hannan al-Shaykh, A.J. Verdelle, Richard Selzer, Richard Rodriguez, Yusef Komunyakaa, Marie Howe, Michael Cunningham, Marilyn Nelson, Li-Young Lee, Amy Bloom, and Manil Suri. Distinguished Writers in Residence have included Jean Valentine, Marilyn Hacker, Jon Silkin, Pablo Medina, and Alice McDermott.

University Honors Program

To graduate with University Honors, students must be admitted to the University Honors Program, maintain a minimum cumulative GPA of 3.50, and receive grades of B or better in all University Honors course work. There are three levels of University Honors course requirements: Level I (100-200-level); Level II (300-level and above); and Level III (Honors Capstone Project). The department Honors coordinator advises students in the University Honors Program regarding requirements for graduating with University Honors in the major.

Combined B.A. and M.A. in Literature

American University offers students the opportunity to earn both undergraduate and graduate degrees through its accelerated bachelor's/master's programs. Undergraduate students may complete up to 3 credits for every 9 credits required for the graduate degree that may be applied to the requirements for both degree programs. The department that oversees the graduate program the student enters will determine if the courses the undergraduate student completes will satisfy master's degree requirements. Bachelor's/master's students must complete at least 18 in-residence credit hours at the graduate level after the bachelor's degree is earned and maintain continuous, sequential enrollment in the two programs.

This program enables students to complete both the B.A. and the M.A. in Literature.

Requirements

- Undergraduate literature majors ordinarily apply at the end of their junior year, but they should consult with the M.A. program director prior to applying. Admission decisions follow the procedures used to evaluate graduate applicants to the M.A. in Literature. The Graduate Record Examination (GRE) is required. Students will be admitted formally to M.A. status only if they have completed all requirements for the B.A. in Literature with at least an overall 3.00 grade point average and a 3.20 grade point average in literature courses.
- All requirements for the B.A. in Literature
Undergraduate students may apply up to 9 credit hours of approved graduate-level course work in literature to satisfy the requirements of both degrees.
- All requirements for the M.A. in Literature, including a minimum of 18 credit hours completed in residence in graduate status after the undergraduate degree has been awarded. Students must finish the master's degree requirements within three years from the date of first enrollment in the master's program.

Minor in Creative Writing

- 24 credit hours with grades of C or better, with a minimum of 9 credit hours at the 300-level or above, and at least 12 credit hours unique to the minor

Course Requirements

- LIT-105 The Literary Imagination (3)
- LIT-200 Introduction to Creative Writing (3)
- LIT-215 Writers in Print/in Person (3)
- 9 credit hours from the following:
 - LIT-400 Creative Writing: Fiction (3) (may be repeated for credit once)
 - LIT-401 Creative Writing: Poetry (3) (may be repeated for credit once)
 - LIT-403 Creative Writing: Creative Nonfiction (3) (may be repeated for credit once)

- 6 credit hours from the following, with a maximum of 3 credit hours at the 300-level with approval of the creative writing minor advisor:

- LIT-150 Third World Literature 3:1 (3)
- LIT-210 Survey of American Literature I (3)
- LIT-211 Survey of American Literature II (3)
- LIT-220 Survey of British Literature I (3)
- LIT-221 Survey of British Literature II (3)
- LIT-225 The African Writer 1:2 (3)
- LIT-235 African American Literature 2:2 (3)
- LIT-240 Asian American Literature 2:2 (3)
- LIT-252 Survey of Literary Theory (3)
- LIT-308 Studies in Genre (3)
- LIT-309 Contemporary British Theater (3)
- LIT-310 Major Authors (3)
- LIT-315 Topics in American Romanticism (3)
- LIT-316 Nineteenth Century American Novel (3)
- LIT-318 Topics in American Realism (3)
- LIT-321 Topics in American Modernism (3)
- LIT-322 Topics in Contemporary American Literature (3)
- LIT-323 Ethnic Literatures of the United States (3)
- LIT-332 Shakespeare Studies (3)
- LIT-334 Topics in Renaissance Literature (3)
- LIT-337 Topics in Restoration and Enlightenment Literature (3)
- LIT-340 Topics in Nineteenth Century British and European Literature (3)
- LIT-341 Topics in Romantic Literature (3)
- LIT-343 Topics in British and European Modernism (3)
- LIT-360 Topics in Medieval Literature (3)
- LIT-367 Topics in World Literature (3)
- LIT-370 Topics in Women's and Gender Studies (3)

Minor in Literature

- 18 credit hours with grades of C or better and at least 12 credit hours unique to the minor

Course Requirements

- LIT-105 The Literary Imagination 1:1 (3)
or
LIT-120 Interpreting Literature 1:1 (3)
- One course from the following:
 - LIT-150 Third World Literature 3:1 (3)
 - LIT-210 Survey of American Literature I (3)
 - LIT-211 Survey of American Literature II (3)
 - LIT-220 Survey of British Literature I (3)
 - LIT-221 Survey of British Literature II (3)
 - LIT-225 The African Writer 1:2 (3)
 - LIT-235 African-American Literature 2:2 (3)
 - LIT-240 Asian American Literature 2:2 (3)
 - LIT-252 Survey of Literary Theory (3)

- 12 credit hours in literature; at least 9 credit hours must be at the 300 level or above. Only one course in creative writing and one course in film may be counted toward the minor, or if no creative writing course is used, two film courses may be counted.

Minor in Literature: Cinema Studies

- 24 credit hours with grades of C or better and at least 12 credit hours unique to the minor

Course Requirements

- COMM-105 Visual Literacy 1:1 (3)
- LIT-135 Critical Approach to the Cinema 1:1 (3)
- 12 credit hours from the following:
 - LIT-346 Topics in Film (3) may be repeated up to four times with different topics
 - LIT-402 Creative Writing: Film Script (3)
- 6 credit hours from the following:
 - COMM-330 Principles of Photography (3) *and*
 - COMM-331 Film and Video Production I (3)
 - COMM-511 History of Documentary (3)
 - COMM-512 Social Documentary (3)
 - COMM-517 History of Cross-Cultural Cinema (3)
 - COMM-520 History of Animation (3)
 - COMM-558 Survey of American Cinema (3)
 - COMM-586 History of Czech Cinema (3) (study abroad)

M.A. in Literature

Admission to the Program

In addition to meeting the minimum university requirements for graduate study, applicants should have a grade point average of 3.00 (on a 4.00 scale) in undergraduate literature courses. The Graduate Record General Examination is required. An undergraduate major in literature is desirable, but applications from candidates who have majored in other fields will also be considered, provided that substantial study of literature has been done. Two letters of recommendation and a sample of critical writing are required. Part-time as well as full-time students are welcome in the program.

Degree Requirements

- 36 credit hours of approved graduate work with at least 18 credit hours in 500- or 700-level courses
- A written comprehensive examination based primarily on literature taught in M.A. seminars and other literature courses

Course Requirements

- LIT-520 Theories and Methodologies (3)
- 6 credit hours from the following:
 - LIT-521 Readings in Genre: Poetry (3)
 - LIT-522 Readings in Genre: Drama (3)
 - LIT-523 Readings in Genre: Novel (3)
 - LIT-524 Readings in Genre: Cinema (3)

- 18 graduate credit hours in literature, with at least 9 credit hours at the 700 level

Teaching

- LIT-730 Teaching of Writing (3)
- LIT-731 Teaching of Writing Practicum (3)
- an approved graduate course in literature, education, linguistics, or anthropology (3)

Pre-doctoral

- LIT-732 Literary Theory (3)
- and*
- LIT-793 Directed Research in Literature (3) plus another 700 level course in literature
- or*
- LIT-797 Master's Thesis Seminar (6)
- or*
- 6 credit hours in literature at the 700 level

General

- 9 additional graduate credit hours in literature
- #### **Interdisciplinary**
- 9 graduate credit hours in another department or departments, in a individually-designed program of study as approved by the M.A. program director

M.F.A. in Creative Writing

Admission to the Program

Applicants must meet the minimum university requirements for graduate study. An undergraduate major in literature is desirable, but applications from candidates who have majored in other fields will be considered. Admission is based on samples of previous writing (25 pages), academic record, and two letters of recommendation.

Degree Requirements

- 48 credit hours of approved graduate work
- Advancement to candidacy is automatic on admission to the program, but subject to yearly review
- A book-length manuscript of fiction, poetry, memoir, or drama, to be approved by the creative writing faculty
- One oral examination on the candidate's manuscript: its merits, characteristics, and relations to the works of others

Course Requirements

- 12 credit hours in writing workshops:
 - LIT-700 Advanced Fiction Workshop (3)
 - LIT-701 Advanced Poetry Workshop (3)
 - LIT-702 Creative Writing: Film Script (3)
 Students may concentrate on one genre or work in several
- 12 credit hours in literature courses selected from among the regular graduate level literature offerings of the department
- LIT-705 Seminar on Translation (3)
- LIT-710 Art of Literary Journalism (3)
- LIT-691 Graduate Internship (6)

Possible internship sites include the Writer's Center in Bethesda, the Folger Shakespeare Library, the Library of Congress, the Writers-in-the-Schools programs, and affiliations with in-house and trade publishers.

- 6 credit hours from the following:
Additional writing workshops, offered at American University or elsewhere

Additional courses in literature, cinema studies, or performing arts

With the approval of an advisor, courses in foreign languages, journalism, or in any other discipline which seems germane to the individual student's interest and consistent with the objectives of the program

- 6 credit hours of LIT-797 Master's Thesis Seminar

Mathematics may be studied as an intellectual discipline for its own sake or as a professional tool for application to the problems of other disciplines. Majors in mathematics receive firm grounding in the theory and techniques of algebra, analysis, and other fields as a basis for further work in pure or applied mathematics and for graduate studies. The major in applied mathematics offers training in mathematical problem-solving techniques with a reduced emphasis on abstract theory. This program is not as firm a foundation for graduate work as the mathematics major, but is tailored to the student who will need to apply mathematical, statistical, and computer methods to practical problems. Undergraduates majoring in mathematics may choose to take a second major in secondary school teaching.

Statistics is the science of making decisions based on data. Data and decisions can come from business, law, medicine, politics, science, sociology, and every other field of study, but may be based on incomplete observations or incorrect measurements. To mitigate such uncertainties, students studying statistics build and apply quantitative tools and techniques for the collection, organization, analysis, interpretation, and presentation of data. They then utilize statistical techniques to discover and investigate patterns, build predictive models, and control variability to improve decisionmaking.

Undergraduate students majoring in statistics have two tracks available. Those who intend to continue with graduate work in statistics or those with an interest in the theory of statistical methods should follow the sequence for mathematical statistics, which requires a strong background in mathematics. Students wishing an emphasis in the use of statistical techniques should follow the sequence for applied statistics. This track is especially appropriate as a secondary emphasis for students who have a strong interest in a field of application.

The Department of Mathematics and Statistics combines the resources and knowledge of these related disciplines. This enables the department to offer unusually varied and flexible programs. A student with an interest in the mathematical sciences may choose a program within the department and later change his or her emphasis without a great loss of time because the programs share a common core.

The university's Washington, D.C. location affords the student access to many governmental, cultural, scientific, and historical institutions. These institutions serve as an important research resource. In addition, they are a source of full-time and part-time employment opportunities for students with a firm grounding in the mathematical sciences.

Special Opportunities

- The department employs undergraduates in its tutoring lab and the computer labs.
- The department offers a limited number of undergraduate book scholarships.

B.S. in Mathematics

Admission to the Program

Formal admission to the major requires a cumulative grade point average of 2.00 (on a 4.00 scale) and departmental approval.

Students who wish to obtain credentials for teaching grade 7–12 mathematics may take a 36-credit hour second major. Students must have a 3.00 grade point average to be admitted to the second major in secondary education. For information on admission and program requirements, see the School of Education, Teaching and Health secondary education program.

University Honors Program

To graduate with University Honors, students must be admitted to the University Honors Program, maintain a minimum cumulative GPA of 3.50, and receive grades of B or better in all University Honors course work. There are three levels of University Honors course requirements: Level I (100-200-level); Level II (300-level and above); and Level III (Honors Capstone Project). The department Honors coordinator advises students in the University Honors Program regarding requirements for graduating with University Honors in the major.

Combined B.S. in Mathematics and M.A. in Mathematics

American University offers students the opportunity to earn both undergraduate and graduate degrees through its accelerated bachelor's/master's programs. Undergraduate students may complete up to 3 credits for every 9 credits required for the graduate degree that may be applied to the requirements for both degree programs. The department that oversees the graduate program the student enters will determine if the courses the undergraduate student completes will satisfy master's degree requirements. Bachelor's/master's students must complete at least 18 in-residence credit hours at the graduate level after the bachelor's degree is earned and maintain continuous, sequential enrollment in the two programs.

This program enables students to earn both a B.S. in Mathematics and an M.A. in Mathematics.

Requirements

- Undergraduate students should apply by the end of the junior year. Students should have a minimum grade point average of 3.20 in major courses and have completed one of the following sequences:
MATH-512 Introduction to Modern Algebra *and*
MATH-513 Rings and Fields
or
- MATH-520 Introduction to Analysis I *and*
MATH-521 Measure Theory and Integration
- All requirements for the B.S. in Mathematics
Undergraduate students may apply up to 9 credit hours of approved graduate-level course work to satisfy the requirements of both degrees.

- All requirements for the M.A. in Mathematics, including a minimum of 18 credit hours completed in residence in graduate status after the undergraduate degree has been awarded. Students must finish the master's degree requirements within three years from the date of first enrollment in the master's program.

B.S. in Mathematics and Economics

Admission to the Program

This program, offered jointly by the Departments of Economics and Mathematics and Statistics, is recommended for students interested in social science applications of mathematical concepts and for those interested in preparing for admissions to Ph.D. programs in Economics. Formal admission to the major requires a grade point average of 3.00 (on a 4.00 scale) in the gateway courses and approval of the program coordinator.

University Requirements

- A total of 120 credit hours
- 6 credit hours of college writing
- 3 credit hours of college mathematics or the equivalent by examination

General Education Requirements

- A total of ten courses, consisting of one foundation course and one second-level course in an approved sequence from each of the five curricular areas
- No more than two courses may be taken in the same discipline

Major Requirements

- 66 credit hours with a grade point average of 3.00

Course Requirements

Gateway Courses (18 credit hours)

- CSC-280 Introduction to Computer Science I (4)
- ECON-100 Macroeconomics 4:1 (3)
- ECON-200 Microeconomics 4:2 (3)
- MATH-221 Calculus I (4)
- STAT-202 Basic Statistics (4)

Core Courses (42 credit hours)

- ECON-300 Intermediate Microeconomics (3)
or
ECON-500 Microeconomic Theory (3)
- ECON-301 Intermediate Macroeconomics (3)
or
ECON-501 Macroeconomic Theory (3)
- ECON-322 Introduction to Econometrics (4)
- ECON-480 Senior Research Seminar (3)
or
ECON-524 Applied Econometrics II (3)
- ECON-505 Introduction to Mathematical Economics (3)
- MATH-222 Calculus II (4)

- MATH-310 Linear Algebra (3)
- MATH-313 Calculus III (4)
- MATH-501 Probability (3)
- MATH-503 Foundations of Mathematics (3)
- STAT-502 Introduction to Mathematical Statistics (3)
- Two of the following:
ECON-345/MATH-345 Introduction to Game Theory (3)
MATH-321 Differential Equations (3)
MATH-504 Advanced Calculus of Several Variables (3)
MATH-520 Introduction to Analysis (3)
STAT-525 Statistical Software (3)
STAT-584 Introduction to Stochastic Processes (3)
- 6 credit hours of additional Economics courses (ECON-xxx) at the 300-level or above, excluding ECON-370 International Economics:
No more than 6 of these credit hours may be fulfilled by Washington Economic Policy Semester courses or economics courses from study abroad programs. No more than 3 credit hours of independent reading and study courses, internships, and co-ops may be used to satisfy this requirement.

Students receive both a B.S. in Mathematics or Statistics and an M.S. in Statistics.

Requirements

- Interested students should apply by the end of their junior year. Applicants should have a minimum grade point average of 3.20 in major courses and complete MATH-501 Probability and STAT-502 Introduction to Mathematical Statistics by the end of the junior year.
- All requirements for the B.S. in Mathematics or Statistics (mathematical statistics track)
Undergraduate students may apply up to 9 credit hours of approved graduate-level course work to satisfy the requirements of both degrees.
- All requirements for the M.S. in Mathematics, including a minimum of 18 credit hours completed in residence in graduate status after the undergraduate degree has been

awarded. Students must finish the master's degree requirements within three years from the date of first enrollment in the master's program.

Minor in Mathematics

- 19 credit hours with grades of C or better and at least 12 credit hours unique to the minor

Course Requirements

- MATH-310 Linear Algebra (3)
- MATH-221 Calculus I (4) *and* MATH-222 Calculus II (4)
or
MATH-211 Applied Calculus I (4) *and* MATH-212 Applied Calculus II (3)
- Three additional courses numbered MATH-313 or above or STAT-202 or above, with at least two courses at the 300 level or above

Minor in Quantitative Methods

- 20 credit hours with grades of C or better and with at least 12 credit hours unique to the minor

Course Requirements

- CSC-280 Introduction to Computer Science I (4)
- MATH-310 Linear Algebra (3)
- MATH-221 Calculus I (4) *and* MATH-222 Calculus II (4)
or
MATH-211 Applied Calculus I (4) *and* MATH-212 Applied Calculus II (3)
- Two courses in statistics numbered STAT-3xx or above:
Students may select only one of STAT-300 Business and Economic Statistics, STAT-302 Intermediate Statistics, or STAT-514 Statistical Methods for credit toward the minor.

Minor in Statistics

- 20 credit hours with grades of C or better and at least 12 credit hours unique to the minor

Course Requirements

- MATH-221 Calculus I (4) *or* MATH-211 Applied Calculus I (4)
- STAT-202 Basic Statistics (4)
- Four courses in statistics (STAT-xxx) at the 300 level or above (MATH-501 Probability may also be used as one of the four)
Students may select only one of STAT-300 Business and Economic Statistics, STAT-302 Intermediate Statistics, or STAT-514 Statistical Methods for credit toward the minor.

Undergraduate Certificate in Applied Statistics

Admission to the Program

Open to undergraduate degree and nondegree students.

Certificate Requirements

- 18 credit hours of approved course work with at least 9 credit hours at the 300-level or above, with grades of C or better.

Grades of C- or D in certificate program courses are not accepted toward the fulfillment of certificate requirements, although these grades will be included in the calculation of the GPA. Students must have at least a 3.0 GPA in certificate courses in order to be awarded a certificate. Students in certificate programs must take a minimum of 6 credit hours during each 12-month period and complete the certificate in four years. International students must enroll in 12 credit hours each semester (except for summer). A maximum of 3 credit hours earned at an accredited college or university may be applied toward the certificate as transfer credit.

Course Requirements

- CSC-280 Introduction to Computer Science (4)
- MATH-211 Applied Calculus I (4)
- MATH-212 Applied Calculus II (3)

M.A. in Mathematics

Admission to the Program

In addition to meeting the minimum university requirements for admission, applicants must have an undergraduate degree in mathematics or a related field. Graduate Record Examination (GRE) scores are required. Students entering the M.A. program without the appropriate background will be expected to take certain undergraduate courses as prerequisite work.

Degree Requirements

- 30 credit hours of approved graduate course work including thesis or nonthesis option requirements
- Tool of research: proficiency in Russian, German, French, or an approved computer language
- Written comprehensive examination in mathematics
- Research requirement:
Thesis option: MATH-797 Master's Thesis Seminar in Mathematics (6) and an oral defense of the thesis
Nonthesis option: MATH-690 Independent Study Project in Mathematics (3) (topic to be chosen in consultation with a faculty member) requiring an oral and written presentation of the research work and 3 credit hours in approved

graduate-level independent research, seminar, or research course.

All course work for the thesis or nonthesis option must be completed with grades of B or better.

M.S. in Statistics

Admission to the Program

In addition to meeting the minimum university requirements for graduate study, applicants will be expected to have an adequate background in the mathematical sciences. Graduate Record Examination (GRE) scores are required. Students entering the M.S. program without the appropriate background will be expected to take certain undergraduate courses as prerequisite work.

Degree Requirements

- 30–33 credit hours of approved graduate work
- Tool of research: proficiency in French, German, Russian, an approved computer language, or an approved analytical skill such as numerical, complex, or real analysis
- Written comprehensive examination
Thesis option: Mathematical Statistics
Nonthesis option: Applied Statistics: Statistical Theory and Applications
- Research requirement:
Thesis option: STAT-797 Master's Thesis Seminar in Statistics (3–6) requiring a formal written thesis with an oral defense
Nonthesis option: STAT-691 Internship (3) and STAT-798 Statistical Research and Consulting (3) with required oral and written presentation of the research work
All course work for the thesis or nonthesis option must be completed with grades of B or better.

Course Requirements

- STAT-515 Regression (3)
- STAT-524 Data Analysis (3)
- STAT-525 Statistical Software (3)
- STAT-530 Mathematical Statistics I (3)
- STAT-531 Mathematical Statistics II (3)
- STAT-616 Generalized Linear Models (3)
- STAT-691 Internship in Statistics (3)

Thesis option

- STAT-797 Master's Thesis Seminar (3–6)
- Two additional graduate courses in mathematics or statistical theory

Nonthesis option

- STAT-510 Survey Sampling (3)
- STAT-798 Statistical Research and Consulting (1) (taken at least three times)
- Two additional graduate courses in statistical theory, methods, and applications, including approved related courses offered by other departments

Graduate Certificate in Applied Statistics

Admission to the Program

Open to students with a bachelor's degree from an accredited institution.

Certificate Requirements

- 15 credit hours of approved course work with grades of C or better
Grades of C- or D in certificate program courses are not accepted toward the fulfillment of certificate requirements, although these grades will be included in the calculation of the GPA. Students must have at least a 3.0 GPA in certificate courses in order to be awarded a certificate. Students in certificate programs must take a minimum of 6 credit hours during each 12-month period and complete the certificate in four years. International students must enroll in 9 credit hours each semester (except for summer). A maximum of 3 credit hours earned at an accredited college or university may be applied toward the certificate as transfer credit.

Course Requirements

- STAT-530 Mathematical Statistics I (3)
- STAT-531 Mathematical Statistics II (3)
- Three of the following:
STAT-510 Theory of Sampling I (3)
STAT-515 Regression (3)
STAT-516 Design of Experiments (3)
STAT-517 Special Topics in Statistical Methodology (3)
or
STAT-519 Nonparametric Statistics (3)

Multi-Ethnic Studies

Coordinator Keith D. Leonard, Department of Literature
Faculty from other schools and departments of the university
teach in the program.

Multi-Ethnic studies is an interdisciplinary program that offers a broad course of study of ethnicity in the United States and the larger world. To meet the challenges and opportunities of diversity in an increasingly multicultural and multiethnic society, the program provides students with an understanding of the rich history of ethnic and racial diversity from multiple perspectives. The minor and undergraduate certificate help students prepare for an increasingly diversified workplace and a globalized economy by encouraging them to develop an awareness of and appreciation for their ethnic experiences as part of the greater human experience.

Minor in Multi-Ethnic Studies

- 18 credit hours with grades of C or better with at least 12 credit hours unique to the minor and at least 9 credit hours at the 300 level or above

Course Requirements

- IDIS-210 Contemporary Multi-Ethnic Voices (3)
- One of the following:
GOVT-231 Third World Politics (3)
HIST-210 Ethnicity in America 4:2 (3)
SOCY-210 Power, Privilege, and Inequality 4:2 (3)
- 12 credit hours in three of the following five areas: African and African American, Asian and Asian American, Jewish, Latin American and Caribbean, and Middle-Eastern
Courses should represent a mix of social sciences and the humanities. Topics courses, independent study, internship, cooperative education, and study abroad must be approved by the program coordinator.

North American Studies

Economic and social integration has accelerated in North America, but policy coordination and awareness of an emerging North America have not kept pace. The Center for North American Studies (CNAS) at American University aims to educate a new generation of students from all three countries-Canada, Mexico, and the United States-to begin a North American journey comparable to that begun in Europe five decades ago. The course work examines the differences and shared characteristics of the three nations; compares the North American experiment with Europe's; and challenges students and faculty to imagine a continental future.

Undergraduate Certificate in Multi-Ethnic Studies

Admission to the Program

Open to undergraduate degree and nondegree students.

Certificate Requirements

- 18 credit hours of approved course work with at least 9 credit hours at the 300-level or above, with grades of C or better.

SOCY-210 Power, Privilege, and Inequality 4:2 (3)
- 12 credit hours in three of the following five areas: African and African American, Asian and Asian American, Jewish, Latin American and Caribbean, and Middle-Eastern
Courses should represent a mix of social sciences and the humanities. Topics courses, independent study, internship, cooperative education, and study abroad must be approved by the advisor.

An undergraduate minor and a graduate certificate are offered. These interdisciplinary programs are administered by the College of Arts and Sciences with the support of the School of International Service, School of Public Affairs, School of Communication, and the Kogod School of Business. Students pursue an experiential component, based on study abroad in Canada or Mexico and/or an internship relevant to North America. Students also need to demonstrate some level of proficiency in Spanish or French. The Center for North American Studies hosts Senior Fellows who teach special courses, which can satisfy requirements with the program coordinator's approval.

Minor in North American Studies

Admission to the Program

Admission to the minor requires a minimum grade point average (GPA) of 2.00 and approval of the program coordinator.

Requirements

- 18 credit hours with grades of C or better and at least 12 credit hours unique to the minor
Students take a core survey course and 15 additional credit hours in North American-related course work, including study abroad in Canada or Mexico and/or an approved internship, with a minimum 2.5 GPA in courses for the minor overall and a 3.0 GPA in the core courses.
- A minimum of two years of Spanish or French language courses at the post-secondary level with grades of B or better, or a level of communication competency equivalent to the entry level for third-year conversation and composition, as demonstrated by a placement score of 421 points in French or 440 points in Spanish on the Computer Assisted Proficiency Exam (CAPE) administered by the Center for Language Learning in the Department of Language and Foreign Studies (LFS).
- Preparation of a significant research paper as part of one of the core courses or as a reflection on study abroad or approved internship
- Approved study abroad in Canada or Mexico or an internship with a North American focus

Course Requirements

- SIS-318 Topics in North America Studies:
North America: A Union, a Community, or Just Three Nations? (3)
or
SIS-503 North American Summer Institute:
Discovering North America Seminar (3)
- a minimum of two North American-related issues courses from the following, or other North American topics courses with the program coordinator's approval:
ECON-358 Economics of the World Regions:
North America (3)
GOVT-338 North American Politics (3)
SIS-400 Senior Seminar in International Relations:
Politics of Regional Integration (3)
North American Social Movements (3)
SIS-513 Computer Applications in International Relations Research (3) (focus on North America)
- 9 additional credit hours including an approved internship or courses taken at selected universities in Canada and Mexico, and from special courses taught by CNAS Senior Fellows and the following, with the program coordinator's approval:
AMST-400 Interpreting American Culture (4)
ECON-319 United States Economic History (3)
FREN-433 French Topics:
Civilisation, Littérature, et Cinéma du Québec (3)

SPAN-456 Spanish Topics:

Mexico-U.S. Border (3)

SIS-318 Topics in North American Studies:

Politics and Institutions of International Trade (3)

The Foreign Policy of a Middle Power: The Case of Canada (3)

Graduate Certificate in North American Studies

Admission to the Program

Open to students with a bachelor's degree or equivalent from an accredited institution with approval of the program coordinator.

Requirements

- 18 credit hours of approved courses with grades of C or better and with at least 9 credit hours at the 600-level
Students take the core course and 15 additional credit hours in North American-related course work, including study abroad in Canada or Mexico and/or an approved internship, with a minimum 3.0 GPA in courses for the certificate overall and a 3.3 GPA in the core courses.
Grades of C- or D in certificate program courses are not accepted toward the fulfillment of certificate requirements, although these grades will be included in the calculation of the GPA. Performing Arts: Music, Theatre, Dance, Audio Technology, and Arts Management

Chairs Fernando Benadon

Full-Time Faculty

Professor Emeritus/a A.R. Mandel, N. Prevots, G.C. Schuetze, E. Vrenios

Professor C. Jennings, J. Sapieyevski

Associate Professor Emeritus K. Baker, B. Baranovic

Associate Professor D. Abraham, F. Benadon, G. Humphries Mardirosian, P. Oehlers, X. Varela

Assistant Professor S. Ayyagari, W. Brent, C. Gabriel, A. Kang, K. Kippola, M. Medwin, C. Menninger, M. Raham, J. Rivera, E. Slegowski, M. Wilkerson

Professorial Lecturer S. Laughlin

In Residence N. Snider

Instructor M. Harvey, M. George

The Department of Performing Arts provides intensive professional training in each of its disciplines: music, theatre, musical theatre, dance, audio technology, and arts management. The programs offer a unique blend of classroom work and performance or professional experience. Each year a season of plays, musicals, orchestra and choral concerts, and dance concerts augments classroom learning with actual stage experience. Similarly, the arts management program provides hands-on experience through field studies and internships with local or national arts organizations. The department's mission is to provide an educational experience dedicated to embracing tradition and innovation in the arts.

The B.S. in Audio Technology prepares students for careers in the audio, entertainment, acoustics, computer, and electronics fields, while the B.A. in Audio Production concentrates on audio and music production within the broader context of a liberal arts education. These programs focus on the art and science of audio and music technology, including sound synthesis and electronic music production, multitrack studio recording, analog and digital electronics, physics/acoustics, and digital audio workstations. Students can gain real-world

experience by interning at a professional recording studio, radio or television station, theater, or other such facility.

The Katzen Arts Center provides exceptional venues for each of the department's programs. It includes a 200-seat recital hall, a studio theatre seating up to 100, teaching studios and practice rooms, organ, piano, and percussion studios, classrooms designed for performing arts, an arts management resource center, and a library housing thousands of volumes of music scores, books, and recordings.

Dedicated to advancing the department's educational vision through excellence in performance and design, the Harold and Sylvia Greenberg Theatre on Wisconsin Ave. is a venue for theatre, musical theatre, and dance performances. In addition to a 300-seat theatre, the facility includes a scene shop, costume shop, and state-of-the-art equipment.

The Visiting Artists and Artists-in-Residence programs provide students with opportunities to meet and work with well known professionals in each of the disciplines. Visiting art professionals have included Colin Bills, Erick Hawkins, James Kronzer, Bruce Montgomery, Paul Morella, Ben Cameron, Lorin Maazel, Leonard Slatkin, Bobby McFerrin, and Patrick Stewart. Musicians-in-Residence have included Nancy Snider, Linda Allison, Terri Lazar, Oman Kivrak, Yulia Gorenman, and Noah Getz.

The dynamic interaction of performance experience, theoretical and historical understanding, and exposure to well-established professionals is designed to prepare students for a professional or teaching career in an excellent environment that nurtures the creative spirit. The Washington, D.C. area is the home of many prominent arts organizations, including the John F. Kennedy Center for the Performing Arts, Smithsonian Institution, Washington Ballet, Wolf Trap Foundation for the Performing Arts, National Symphony, Washington National Opera, and the Washington Performing Arts Society. In addition to study abroad options, Washington, D.C.'s rich international culture provides students with opportunities to enhance their cul-

tural knowledge through interactions with international artists and performing arts groups.

Teaching Certification

Students interested in teacher certification in theatre or music may take a 36-credit hour second major in secondary education or combine their degree with the M.A.T. degree with a concentration in secondary education. For information on admission and program requirements, see the School of Education, Teaching and Health teacher preparation programs.

B.A. in Audio Production

Admission to the Program

Formal admission to the program requires a grade point average of 2.00 (on a 4.00 scale) and departmental approval.

University Requirements

- A total of 120 credit hours

University Honors Program

To graduate with University Honors, students must be admitted to the University Honors Program, maintain a minimum cumulative GPA of 3.50, and receive grades of B or better in all University Honors course work. There are three levels of University Honors course requirements: Level I (100-200-level); Level II (300-level and above); and Level III (Honors Capstone Project). The department Honors coordinator advises students in the University Honors Program regarding requirements for graduating with University Honors in the major.

Combined Bachelor's and Master's Degrees

American University offers students the opportunity to earn both undergraduate and graduate degrees through its accelerated bachelor's/master's programs. Undergraduate students may complete up to 3 credits for every 9 credits required for the graduate degree that may be applied to the requirements for both degree programs. The department that oversees the graduate program the student enters will determine if the courses the undergraduate student completes will satisfy master's degree requirements.

Bachelor's/master's students must complete at least 18 in-residence credit hours at the graduate level after the bachelor's degree is earned and maintain continuous, sequential enrollment in the two programs. Students must finish the master's

degree requirements within three years from the date of first enrollment in the master's program.

Graduate Certificate in Arts Management

Admission to the Program

Open to students with a bachelor's degree or equivalent from an accredited institution. Applicants must have completed nine or more courses in theatre, dance, music, or visual arts, one third of which should be advanced work or equivalent training. Equivalent training is four or more years' experience in a professional organization. Students are encouraged to schedule a personal interview with the program director.

Certificate Requirements

- 15 credit hours of approved course work with at least 6 credit hours at the 600-level or above, with grades of C or better
Grades of C- or D in certificate program courses are not accepted toward the fulfillment of certificate requirements, although these grades will be included in the calculation of the GPA. Students must have at least a 3.0 GPA in certificate courses in order to be awarded a certificate. Students in certificate programs must take a minimum of 6 credit hours during each 12-month period and complete the certificate in four years. International students must enroll in 9 credit hours each semester (except for summer). A maximum of 3 credit hours earned at an accredited college or university may be applied toward the certificate as transfer credit.

Course Requirements

- PERF-570 Survey of Arts Management (3)
- PERF-571 Marketing in the Arts (3)
- PERF-672 Rotating Topics in Arts Management (3) (two courses for a total of 6 credit hours)
- PERF-673 Fund-Raising Management for the Arts (3)
or
PERF-580 Cultural Policy and the Arts (3)

Philosophy explores the nature of the world, the basis of human values, and the foundations of reason. Philosophy also offers the challenge of interpreting the work of thinkers who have created our intellectual traditions.

The study of philosophy provides excellent preparation for law, medicine, social work, the ministry, and other professional careers. Many positions in science and industry require the kinds of analytical skills gained through the study of philosophy. Philosophy teaches precision in reasoning and clarity in expression—assets in any field. Alumni of the B.A. and M.A. programs have pursued graduate work in philosophy and related areas such as political science, psychology, history, literature, and other professional programs.

The study of Western and Eastern religious traditions introduces students to a major influence on all civilizations. Journal-

ists, diplomats, and government specialists benefit from a serious consideration of the inner workings of the religious ethos of civilizations. Daily events remind us that there is no more motivating factor in the cultures of nations than ardently held religious belief. A thorough understanding of the modern world requires familiarity with its religious heritage. American University's Washington, D.C. setting is advantageous for the study of religion, with national offices and centers for many religions in the metropolitan area. The Consortium of Universities of the Washington Metropolitan Area also offers a variety of courses in philosophy and religion that are available to American University students.

The Department of Philosophy and Religion annually awards the Col. Harold and Ruth Pearson Prize in Philosophy to one or more majors who have demonstrated excellence in the study of philosophy.

B.A. in Philosophy

Admission to the Program

Admission is through a formal declaration of major.

University Requirements

- A total of 120 credit hours
- 6 credit hours of college writing
- 3 credit hours of college mathematics or the equivalent by examination

General Education Requirements

- A total of ten courses, consisting of one foundation course and one second-level course in an approved sequence from each of the five curricular areas
- No more than two courses may be taken in the same discipline

Major Requirements

- 39 credit hours with grades of C or better including 15 credit hours at the 300-level or above, and up to 6 credit hours in religion

Course Requirements

History of Philosophy (9 credit hours)

- PHIL-105 Western Philosophy 2:1 (3)
- 6 credit hours in approved course work at the 300-level or above

Moral and Political Philosophy (9 credit hours)

- PHIL-220 Moral Philosophy 2:2 (3)
or
PHIL-235 Theories of Democracy and Human Rights 2:2 (3)
- 6 credit hours in approved course work at the 300-level or above

Critical Perspectives (6 credit hours)

- 6 credit hours from the following:
PHIL-313 Studies in Asian Philosophy (3)
PHIL-316 Feminist Philosophy (3)
PHIL-317 Race and Philosophy (3)

PHIL-318 Chinese Philosophy (3)

PHIL-386 Selected Topics in Philosophy:

Latin American Thought (3)

Philosophy and Film (3)

RELG-210 Non-Western Religious Traditions 3:2 (3)

RELG-373 Hinduism (3)

Approved philosophy or religion course

Concentration (9 credit hours)

- 9 credit hours in a subspecialty in philosophy, such as applied ethics or aesthetics, which may include courses outside the department with approval of the department's director of undergraduate studies.

Electives (6 credit hours)

- 6 credit hours in approved course work

University Honors Program

To graduate with University Honors, students must be admitted to the University Honors Program, maintain a minimum cumulative GPA of 3.50, and receive grades of B or better in all University Honors course work. There are three levels of University Honors course requirements: Level I (100-200-level); Level II (300-level and above); and Level III (Honors Capstone Project). The department Honors coordinator advises students in the University Honors Program regarding requirements for graduating with University Honors in the major.

Combined B.A. and M.A. in Philosophy

American University offers students the opportunity to earn both undergraduate and graduate degrees through its accelerated bachelor's/master's programs. Undergraduate students may complete up to 3 credits for every 9 credits required for the graduate degree that may be applied to the requirements for both degree programs. The department that oversees the graduate program the student enters will determine if the courses the undergraduate student completes will satisfy master's degree requirements. Bachelor's/master's students must complete at least 18 in-residence credit hours at the graduate level after the bachelor's degree is earned and maintain continuous, sequential enrollment in the two programs.

This program enables qualified students to earn, in a continuous plan of study, both the B.A. and the M.A. in Philosophy.

Requirements

- Undergraduate philosophy majors should apply for admission to the B.A./M.A. program by the end of the junior year. Admission is open to undergraduates with a minimum grade point average of 3.00 overall and in philosophy courses. Applications must be accompanied by two letters of recommendation, a statement of purpose, and an academic writing sample. Students should discuss their interest in the program with members of the faculty before submitting a formal application.
- All requirements for the B.A. in Philosophy
- Undergraduate students may apply up to 9 credit hours of approved graduate-level course work to satisfy the requirements for both degrees.

- All requirements for the M.A. in Philosophy, including a minimum of 18 credit hours completed in residence in graduate status after the undergraduate degree has been awarded. Students must finish the master's degree requirements within three years from the date of first enrollment in the master's program.

B.A. in Religious Studies

Admission to the Program

Admission is through a formal declaration of major. The department counsels freshmen and new transfer students.

University Requirements

- A total of 120 credit hours
- 6 credit hours of college writing
- 3 credit hours of college mathematics or the equivalent by examination

General Education Requirements

- A total of ten courses, consisting of one foundation course and one second-level course in an approved sequence from each of the five curricular areas

Undergraduate Certificate in Applied Ethics and Professional Responsibility

The public is increasingly concerned with matters of ethics in the everyday conduct of professional life. Both as a society and as members of professional communities, individuals are measuring their and others' actions in accordance with ethical norms. Ethical engagement demands that actors be able to articulate and justify not only their actions, but also the process of decision making behind those actions and its guiding framework.

The Undergraduate Certificate in Applied Ethics and Professional Responsibility includes a core in ethics and philosophy that offers a foundation on which students build their understanding of professional responsibilities in their chosen fields. Students learn to support and defend their own ethical positions and to judge the adequacy of others' claims. They gain insight into our understanding of right and wrong as well as into judgments about matters of social justice and human rights, and will be prepared as members of their professional communities to both follow and define ethical guidelines and codes of conduct. Completing the certificate enhances a student's candidacy for positions in business by signaling to potential employers an appreciation for the complexities of professional life. It also provides students with essential leadership tools, thereby accelerating their progress beyond the entry level to decision-making positions.

Admission to the Program

Open to undergraduate degree and nondegree students.

Certificate Requirements

- 18 credit hours of approved course work with at least 9 credit hours at the 300-level or above. For core courses to count toward the certificate, students must receive a grade of B or better; for elective courses a grade of C or better is required. Grades of C- or D in certificate program courses will not be accepted toward the fulfillment of certificate requirements, although these grades will be included in the calculation of the GPA. Students must have at least a 2.0 GPA in certificate courses in order to be awarded a certificate. Students in

certificate programs must take a minimum of 6 credit hours during each 12-month period and complete the certificate in four years. International students must enroll in 12 credit hours each semester (except for summer). A maximum of 3 credit hours earned at an accredited college or university may be applied toward the certificate as transfer credit.

Course Requirements

- MGMT-201 Global Corporate Citizenship (3)
- PHIL-220 Moral Philosophy 2:2 (3)
- PHIL-240 Ethics in the Professions 4:2 (3)
- 9 credit hours from the following:
 - KSB-356 Management Communications for Social Responsibility (3)
 - MGMT-360 Nonprofit and Social Entrepreneurship (3)
 - MGMT-391 Internship in Management (1-6) (approved by advisor)

M.A. in Philosophy

Admission to the Program

Applicants must meet the minimum university requirements for graduate study. Admission is based on academic record, two letters of recommendation, a statement of purpose, and an academic writing sample. The Graduate Record Examination (GRE) General is required.

Tracks

History of Philosophy or Philosophy and Social Policy

Degree Requirements

- 33 credit hours of approved graduate work
 - History of Philosophy Track**
 - Substantial research paper focusing on a major text by a single figure in the history of Western or non-Western philosophy
 - Comprehensive examination requirement: submission of two qualifying papers, including one from a historical period of philosophy and one from feminist, Latin American, Asian philosophy, or critical race theory
 - Philosophy and Social Policy Track**
 - Substantial research paper analyzing the ethical and social issues arising from the student's internship experience.
 - Comprehensive examination requirement: submission of two qualifying papers, including one in theoretical or applied ethics and one in nineteenth or twentieth century philosophy

Course Requirements

History of Philosophy Track (33 credit hours)

- 33 credit hours of approved graduate course work

Philosophy and Social Policy Track (33 credit hours)

- 6 credit hours from the following:
PHIL-520 Seminar on Ethical Theory (3)
PHIL-525 Seminar on Modern Moral Problems (3)
approved course in either ethics or applied ethics
- 6 credit hours from the following:
PHIL-602 Nineteenth Century Philosophy (3)
PHIL-603 Twentieth Century Philosophy (3)
approved course in the history of philosophy
- PHIL-691 Internship in Philosophy (3)
- 6 credit hours in applied philosophy, with departmental approval
- 6 credit hours in philosophy or religion, with departmental approval
- 6 credit hours in social science or social policy from fields such as economics, sociology, anthropology, government, public administration, and justice, with departmental approval

M.A. in Ethics, Peace, and Global Affairs

Admission to the Program

The M.A. in Ethics, Peace, and Global Affairs is an interdisciplinary program administered jointly by the School of International Service (SIS) and the Department of Philosophy and Religion in the College of Arts and Sciences (CAS).

Students may apply to either the Department of Philosophy and Religion or the School of International Service. The Graduate Record Examination (GRE) is required. Students applying to SIS must apply by January 15 for fall and October 1 for spring to be considered for merit-based aid.

Degree Requirements

- 39 credit hours of approved graduate work with a cumulative GPA of 3.00, including 12 credit hours in the core, 6 credit hours in foundation courses, 3 credit hours of research methodology, 6 credit hours of research, and 12 credit hours in an area of concentration
- Comprehensive examination requirement
CAS: submission of three qualifying papers
SIS: comprehensive examination in international peace and conflict resolution
- Demonstration of research and writing skills through completion of a master's thesis, graduate seminar requirement, or substantial research paper requirement. All courses taken to fulfill this requirement must be passed with a grade of B or better.
Thesis: 6 credit hours of thesis credit and submission of the thesis.
Graduate seminar requirement: one 3 credit hour internship and PHIL-702 Graduate Seminar in Philosophy
Substantial research paper requirement: one 3 credit hour internship and one 3 credit hour substantial research paper

Course Requirements

Core (12 credit hours)

- PHIL-525 Seminar on Modern Moral Problems (3)
- PHIL-693 Global Ethics (3)
- SIS-607 Peace Paradigms (3)
- SIS-625 International Organizations (3)

The B.S. in Physics, a minor in physics, and a minor and undergraduate certificate in applied physics are offered. Courses focus on the study of physical phenomena and properties of the universe: gravitation, electricity and magnetism, atomic and nuclear structure, fundamental particles, and the properties of matter. The department's faculty is active in research in multiple subfields of physics including atomic optics, condensed matter, particle physics, physics education, quantum information, and astrophysics.

In our high-technology society, people with undergraduate physics backgrounds are employed in research labs and engineering fields, work in consulting companies, or pursue graduate studies. Physics graduates are in diverse fields such as astronomy, medicine, engineering, architecture, acoustics, science education, science policy, as well as physics.

Educational facilities include laboratories equipped with modern technology and multiple teaching spaces tailored to foster interactive learning. Although not a formal requirement, most physics majors participate in undergraduate research experiences through internships and independent study.

B.S. in Physics

Admission to the Program

Formal admission to the major requires a grade point average of 2.00 (on a 4.00 scale) and departmental approval.

University Requirements

- A total of 120 credit hours
- 6 credit hours of college writing
- 3 credit hours of college mathematics or the equivalent by examination

General Education Requirements

- A total of ten courses, consisting of one foundation course and one second-level course in an approved sequence from each of the five curricular areas
- No more than two courses may be taken in the same discipline

- PHYS-331 Modern Physics (3)
- 9 credit hours in elective courses, at least two of which must be at the 300 level or above, including courses outside of physics in relevant areas of technology, society, and policy, as approved by the department.

Preprofessional Programs

Pre-engineering

Faculty Liaison Teresa Larkin, Department of Physics

American University offers a cooperative five-year engineering program with the University of Maryland in College Park. American University students can combine the advantages of both liberal arts and professional education. Students are awarded two bachelor's degrees in a five-year period.

Students typically spend their first three years on the American University campus concentrating in a major field in the College of Arts and Sciences. Students are strongly encouraged to choose a major field in one of the natural sciences, mathematics, statistics, or computer science at American University. If however, the student chooses to complete a major in the arts, humanities, or social sciences, he or she may do so, provided that the engineering program requirements are also satisfied. This option requires careful planning and may result in an extra semester or more of coursework.

In the third year, with the recommendation of the pre-engineering faculty liaison, students apply to the engineering program at the University of Maryland. The engineering program options at the University of Maryland include aerospace, bioengineering, chemical and biomolecular, civil and environmental, electrical and computer, fire protection, materials sciences, and mechanical engineering. After admission to the engineering program, the fourth year of study is spent there. Once the student completes the requirements for the American University major (generally at the end of the fourth year), the first bachelor's degree is awarded. After completion of the engineering requirements

during the fifth year, the student receives a bachelor's degree in engineering from the University of Maryland.

Students work closely with the pre-engineering faculty liaison and an advisor in their major field of study. The faculty liaison and advisor will work together to individually tailor course selections to meet the student's interests and needs. Throughout the course of their studies students should maintain a high grade point average. Completion of basic courses must be done during the first three years of study in order to complete the requirements for an engineering degree in five years. Courses with grades below C will not transfer to the University of Maryland.

Course Requirements

The engineering program at the University of Maryland has basic requirements covering a broad range of study, which must be completed before entrance:

- Two courses in English composition
- Calculus I, Calculus II, Calculus III, and differential equations (aerospace majors also take linear algebra)
- Two years of calculus-based physics with laboratory along with courses providing more in-depth study in mechanics, electromagnetism, or thermodynamics
- One year of general chemistry with laboratory (bioengineering and materials sciences also require one semester of organic chemistry; chemical engineering also requires a two-course sequence in organic chemistry)
- One course in computer programming
- Five courses in the humanities and the social sciences

Prior to applying to a particular engineering program, students should also have taken ENES 100 Introduction to Engineering Design at the University of Maryland, which is offered every semester including the summer.

Prelaw

Prelaw Advisor Tyler Atkins, CAS

In considering law school, it is important that the prelaw student understands law schools' educational philosophy. As the *Law School Admission Bulletin* states: "Any course, regardless of field, that helps you develop clear and systematic thinking, command of the English language, and a broad understanding of our society constitutes sound preparation for the study of law. Thus, law schools do not recommend specific undergraduate majors for prelaw students." The prelaw student should also realize that admission to law school is selective. Students contemplating careers in law should plan their undergraduate study to undertake a substantial academic curriculum and acquire a background of outstanding extracurricular activities.

Students interested in prelaw preparation follow the normal procedure for declaring and fulfilling requirements for a major in one of the schools or departments or in gaining approval for an interdisciplinary program of study. Whatever the choice of major, the prelaw student's program should be supported by a broad selection of courses from mathematics, the natural sciences, the social sciences, and the humanities.

Courses recommended by law schools also include philosophy, literature and advanced writing courses, history, political science, accounting, business administration, economics, mathematics, languages, and other courses demanding logical thinking, analytical reasoning, or verbal proficiency.

The Law School Admission Test (LSAT) is required of every applicant to law school. It is strongly recommended that this test be taken in June before the senior year. With this test date, students can appraise their prospects and consider retaking the examination in October or December or both, or, if necessary, make alternate plans. Students apply directly to the Law School Admissions Service (LSAS) to take the test on the American University campus and should register six weeks before the test date. LSAT applications are available from the prelaw advisors.

Premedical Programs

Premed Programs Coordinator

The premedical programs of the College of Arts and Sciences are available to help all undergraduate, postbaccalaureate, and graduate students who are considering a career in medicine or one of the allied health professions.

Premedical program services include extensive individual advising on careers, courses, volunteer and research opportunities, professional school examinations, selection of schools, and financial aid. The program also provides seminars by health professionals, resume preparation and essay writing assistance, medical school interview preparation, preparation of a composite letter of evaluation, and support in compiling and sending letters of recommendation to professional schools.

Students from American University applying to medical, dental, or veterinary school have been highly competitive, with 86 percent of qualified applicants accepted by medical schools.

Advising Services

Students interested in the health professions should contact the premedical programs coordinator as soon as possible. The coordinator helps students select an appropriate curriculum, prepare for the relevant admissions tests, make realistic choices of professional schools, and learn first-hand about biomedical research and clinical practice. The coordinator is available to meet with students individually at least once a semester to review their academic progress and course of study at American University. Together with students' academic advisors, the coordinator helps assure timely completion of both degree and premedical requirements.

Typically, at the end of their junior year premedical students submit a primary application to the American Medical Colleges Application Service, which forwards this general application to specified schools. Medical schools will then send individual applications to selected students.

In order to prepare professional-school applications, each student assembles a file containing essential information. Members of the Premedical Evaluation Committee serve as mentors for students. The Writing Center and the Career Center can provide advice about writing personal statements and other documents and interview practice. After the file, including letters of recommendation, is assembled, a comprehensive Premedical Evaluation Committee letter of evaluation will be prepared to support the application. Included in the letter is a summary of the academic record and extracurricular activities, and an evaluation of commitment to a medical career.

Premedical Curriculum

Traditionally, premedical students have majored in the natural sciences. However, the medical professions are also seeking well-rounded students with a broadly-based liberal education, reflecting the social, ethical, and cultural roles played by health care professionals. Students interested in medical careers may major in any field, but must make careful plans to take the necessary preparatory courses in a timely fashion.

Most health professional schools require certain foundation courses in science and mathematics, along with a full year of college-level writing. All science courses must include laboratory components. Undergraduate students who wish to matriculate at a professional school directly after graduation from American University must submit applications at the end of the junior year. Therefore, the basic requirements should be completed in the

freshman and sophomore years, following the sequence of courses listed below.

Freshman Year

- BIO-110 General Biology I 5:1 (4)
- BIO-210 General Biology II 5:2 (4)
- CHEM-110 General Chemistry I 5:1 (4)
- CHEM-210 General Chemistry II 5:2 (4)
- MATH-221 Calculus I (4)

Sophomore Year

- BIO-300 Cell Biology with Laboratory (4)
- BIO-356 Genetics with Laboratory (5)
- CHEM-310 Organic Chemistry I (3)
- CHEM-312 Organic Chemistry I Laboratory (1)
- CHEM-320 Organic Chemistry II (3)
- CHEM-322 Organic Chemistry II Laboratory (1)

Junior Year

- PHYS-105 General Physics I 5:1 (4) *and*
- PHYS-205 General Physics II 5:2 (4)
- or*
- PHYS-110 Principles of Physics I 5:1 (4) *and*
- PHYS-210 Principles of Physics II 5:2 (4)

This intensive plan also prepares students to take the Medical College Admissions Test (MCAT) in the spring of their junior year.

To receive most favorable consideration, the Medical College Admissions Test (MCAT) or Dental Aptitude Test (DAT) must be taken in the spring of the junior year, about 16 months before matriculation in medical or dental school. Veterinary schools typically require that the Graduate Record Examination (GRE) be taken at the end of the junior year.

The above sequence presumes that a student has already decided by the beginning of his or her freshman year to pursue a premedical course of study. Students who do not decide on a medical career until the middle of their undergraduate studies or later may need to complete their premedical requirements during summers or in a post-baccalaureate year.

Research and Internship Opportunities

The premedical program encourages close interaction with the faculty. Many undergraduates have engaged in independent research projects in biology, chemistry, physics, and experimental psychology which have led to presentation and publication of papers.

Many opportunities for internships, volunteer work, and biomedical research are available. Local hospitals and clinics provide students with clinical experience. At institutions such as the National Institutes of Health and other local laboratories and biotechnology companies, students may gain first-hand basic research experience in biochemistry, immunology, molecular biology, and molecular genetics.

Premedical Achievement Prize and Scholarship

The American University Hassa S. Shanker Premedical Achievement Prize is a \$2,000 cash award presented to the most outstanding undergraduate student intending to apply to a health professional school who has taken at least five science and mathematics courses at American University. Selection is

based on academic achievements, leadership qualities, and contributions to society or the health professions. Applicants must be planning to apply to medical, dental, or veterinary school, or to a program in the health sciences, such as physical therapy.

The Josephine G. Gimble Scholarship is a \$2,000 annual award to an undergraduate or postbaccalaureate student preparing for a career in the allied health sciences.

Postbaccalaureate Premedical Certificate

Certificate Coordinator Lynne Arneson,

Postbaccalaureate work consists of academic study undertaken after earning a bachelor's degree. American University's Postbaccalaureate Premedical Certificate program is designed to complete basic requirements and strengthen credentials for application to health professional schools of human medicine (M.D. or D.O.), dentistry (D.D.S.), veterinary medicine (D.V.M.), podiatry (D.P.M.), optometry (O.D.), and oral surgery (D.M.D.), and to advanced degree programs in the allied health sciences such as public health (M.P.H.) and physician assistant, nurse practitioner, and physical therapy programs leading to the M.S. or Ph.D. degree.

This program offers students extensive guidance and assistance in preparing for professional school and a career. With the help of advisors they polish resume and essay-writing skills, prepare for the Medical College Aptitude Test (MCAT) or other admissions examinations, practice medical school interviews, select potential professional schools, and address related financial issues. Through the program, students may also attend seminars by health professionals, identify volunteer opportunities, and be matched with a mentor. Each emerges with a composite letter of evaluation, held with letters of recommendation in a personal file. The premedical programs coordinator sends these letters to professional schools for students and assists them in meeting all application deadlines.

Admission to the Program

Open to students with a bachelor's degree and a cumulative grade point average of 3.20 (on a 4.00 scale) overall and in science and mathematics courses, if taken.

Course Requirements

Basic Requirements

The following courses are required for admission to medical school and to many other health professional schools. Once enrolled in the Postbaccalaureate Premedical Certificate program, any of these courses not already completed must be taken at American University.

- BIO-110 General Biology I (4)
- BIO-210 General Biology II (4)
- CHEM-110 General Chemistry I (4)
- CHEM-210 General Chemistry II (4)
- CHEM-310 Organic Chemistry I (3)
- CHEM-312 Organic Chemistry I Laboratory (1)

- CHEM-320 Organic Chemistry II (3)
- CHEM-322 Organic Chemistry II Laboratory (1)
- MATH-221 Calculus I (4)
- PHYS-110 Principles of Physics I 5:1 (4)
- PHYS-210 Principles of Physics II 5:2 (4)

Certificate Requirements

A minimum of 24 hours of course work taken in residence at American University, including:

- BIO-300 Cell Biology with Laboratory (4)
- BIO-356 Genetics with Laboratory (5)
- One of the following sets of two courses:
BIO-435 Vertebrate Physiology (5) *and*

BIO-440 Microbiology (4)

or

CHEM-560 Biochemistry I (3) *and*

CHEM-561 Biochemistry II (3)

- 6–9 credit hours from the Basic Requirements list above or the following:

BIO-200 Structure and Function of the Human Body (3)

BIO-541 Cellular Immunology (3)

BIO-650 Developmental Biology (3)

BIO-583 Molecular Biology (3)

MATH-222 Calculus II (4)

The undergraduate program in the Department of Psychology offers the student an opportunity to appreciate psychology's diversity and its applications. Courses are offered in clinical, social, personality, developmental, behavioral and cognitive neuroscience, and experimental psychology. Advanced topics courses in these and related areas are often available. Students may design programs that approach psychology as a social science, a natural science, or a combination of the two. During their junior and senior years, majors are encouraged to take small, specialized seminars and engage in internship experience with community mental health agencies and ongoing research within and outside the department. Students should work with their faculty advisors in planning their schedules, internship, and research experiences. The program is sufficiently flexible and broad to satisfy career goals and to provide a solid background for graduate study.

B.A. in Psychology

Admission to the Program

Formal admission to the major requires departmental approval.

University Requirements

- A total of 120 credit hours
- 6 credit hours of college writing
- 3 credit hours of college mathematics or the equivalent by examination

General Education Requirements

- A total of ten courses, consisting of one foundation course and one second-level course in an approved sequence from each of the five curricular areas
- No more than two courses may be taken in the same discipline

Major Requirements

- 41 credit hours with grades of C or better and at least 15 credit hours at the 300 level or above

Course Requirements

- PSYC-105 Psychology: Understanding Human Behavior 4:1 (3)
- PSYC-115 Psychology as a Natural Science 5:1 (3)
- PSYC-116 Psychology as a Natural Science (1)
- STAT-202 Basic Statistics (4)
- One course in Research Methods from the following:
PSYC-301 Research Methods in Psychology (3)
PSYC-433 Research Design and Methods: Social Science Psychology Research (4)
PSYC-480 Research Design and Methods: Experimental Psychology (4)

- One course in Bio-Psychology from the following:
PSYC-240 Drugs and Behavior 5:2 (3)
PSYC-318 Fundamentals of Human Neuropsychology (3)
PSYC-325 Neurobiological Bases of Behavior (3)
PSYC-360 The Evolution of Behavior (3)
- One course in Learning and Cognition from the following:
PSYC-200 Behavior Principles 5:2 (3)
PSYC-220 The Senses 5:2 (3)
PSYC-300 Memory and Cognition (3)
PSYC-370 Learning and Behavior (3)
- Two courses in the Individual, the Situation, and Psychological Health from the following:
PSYC-205 Social Psychology 4:2 (3)
PSYC-215 Abnormal Psychology and Society 4:2 (3)
PSYC-235 Theories of Personality 4:2 (3)
PSYC-333 Health Psychology (3)
PSYC-350 Child Psychology (3)
- Psychology electives to complete the required credit hours
Students will be advised concerning 300–500-level courses available as electives.

Note: No more than a combined total of 6 credit hours of PSYC-390 Independent Reading Course in Psychology, PSYC-392 Cooperative Education Field Experience, PSYC-490 Independent Study Project in Psychology, and PSYC-491 Internship, will apply toward fulfilling major requirements.

University Honors Program

To graduate with University Honors, students must be admitted to the University Honors Program, maintain a minimum cumulative GPA of 3.50, and receive grades of B or better in all University Honors course work. There are three levels of University Honors course requirements: Level I (100-200-level); Level II (300-level and above); and Level III (Honors Capstone Project). The department Honors coordinator advises students in the University Honors Program regarding requirements for graduating with University Honors in the major.

Combined B.A. and M.A. in Psychology

American University offers students the opportunity to earn both undergraduate and graduate degrees through its accelerated bachelor's/master's programs. Undergraduate students may complete up to 3 credits for every 9 credits required for the graduate degree that may be applied to the requirements for both degree programs. The department that oversees the graduate program the student enters will determine if the courses the undergraduate student completes will satisfy master's degree requirements. Bachelor's/master's students must complete at least 18 in-residence credit hours at the graduate level after the bachelor's degree is earned and maintain continuous, sequential enrollment in the two programs.

This program enables qualified students to earn, in a continuous plan of study, both the B.A. and M.A. in Psychology.

Requirements

- Students should apply for the program no later than the first semester of the senior year and no earlier than the first semester of the junior year. Students must have a minimum 3.00 grade point average in psychology and statistics courses and must have completed at least half of the credit hours required for the B.A. in Psychology, including STAT-202 Basic Statistics, before applying to the program. Students must submit a completed graduate application form, Graduate Record Examination (GRE) scores for the General examination (Verbal, Quantitative, and Analytic), two letters of recommendation, and copies of all college transcripts.
- All requirements for the B.A. in Psychology
Undergraduate students may apply up to 9 credit hours of approved graduate-level course work to satisfy the requirements for both degrees.
- All requirements for the M.A. in Psychology, including a minimum of 18 credit hours completed in residence in graduate status after the undergraduate degree has been awarded. Students must finish the master's degree requirements within three years from the date of first enrollment in the master's program.

Minor in Psychology

- 22 credit hours with grades of C or better with at least 12 credit hours unique to the minor, and at least 9 credit hours at the 300 level or above

Course Requirements

- PSYC-105 Psychology: Understanding Human Behavior 4:1 (3)
- PSYC-115 Psychology as a Natural Science 5:1 (3)
- PSYC-116 Psychology as a Natural Science (1)
- 3 credit hours from Bio-Psychology or Learning and Cognition courses (see major requirements above)
- 3 credit hours from the Individual, the Situation, and Psychological Health courses (see major requirements above)
- 9 additional credit hours in psychology courses

M.A. in Psychology

Admission to the Program

In addition to meeting the minimum university requirements for graduate study, applicants must submit a completed graduate application form, Graduate Record Examination (GRE) scores for the General examination (Verbal, Quantitative, and Analytic), two letters of recommendation, and copies of all college transcripts. Admission is based on academic record, test scores, and two letters of recommendation.

Completion of the degree does not necessarily lead to admission to the Ph.D. program; students who wish to be considered for the Ph.D. program must apply. Applicants with a B.A. who wish to obtain a Ph.D. in Psychology from American University should apply directly to the Ph.D. program. If they do

not have an M.A., students will earn one as part of the Ph.D. program. See the description of the Ph.D. program for more information.

Up to 6 credit hours of graduate course work in psychology from another university or up to 12 credit hours of graduate course credit taken at American University may be transferred, provided that these credits were not counted toward another degree. These transfers of credit are subject to approval by the director of the M.A. program.

Tracks

General, Personality/Social, or Experimental/Biological

Degree Requirements

- 33 credit hours of approved graduate work
- Written general comprehensive examination
- Thesis option: The master's thesis involves an original research project. Students must prepare a thesis proposal, collect and analyze data, submit a written thesis, and give an oral defense. The thesis must be accepted by the thesis committee, the department chair, and the university.

Nonthesis option: available only in the General Psychology track (see course requirements below).

All course work for the thesis or nonthesis option must be completed with grades of B or better.

Course Requirements

General Psychology

- Two courses from the following:
PSYC-505 Advanced Personality Psychology (3)
PSYC-514 Industrial/Organizational Psychology (3)
PSYC-533 Cognitive Behavior Therapy (3)
PSYC-540 Advanced Social Psychology (3)
PSYC-545 Psychology of Sex Similarities and Differences (3)
PSYC-551 Psychopathology: Theory and Research (3)
PSYC-560 Advanced Developmental Psychology (3)
PSYC-597 Topics in Psychology (3) (personality/social psychology)
PSYC-633 Psychological Assessment I (3)
PSYC-670 Behavioral Medicine (3)
- Two courses from the following:
PSYC-501 Physiological Psychology (3)
PSYC-513 Neuropharmacology: The Biochemistry of Behavior (3)
PSYC-518 Advanced Human Neuropsychology (3)
PSYC-530 Conditioning and Learning (3)
PSYC-575 Advanced Memory and Cognition (3)
PSYC-597 Topics in Psychology (3) (experimental/biological psychology)
PSYC-618 Principles of Neuropsychological Assessment (3)
graduate seminar in experimental psychology or neuroscience (3)
- Graduate statistics course (3)

Nonthesis Option (General Psychology track only):

- 6 credit hours from the following:
PSYC-550 Psychological Research (3)
PSYC-698 Directed Research (3–6)
- 12 credit hours of graduate elective courses with at least 6 credit hours from the Department of Psychology

Thesis Option:

- PSYC-550 Psychological Research (3)
- 6 credit hours from the following:
PSYC-796 Master's Thesis Seminar (3)
PSYC-797 Master's Thesis Research (1–3)
- 9 credit hours of graduate elective courses with at least 6 credit hours from the Department of Psychology

Personality/Social Psychology

- Four courses from the following:
PSYC-505 Advanced Personality Psychology (3)
PSYC-514 Industrial/Organizational Psychology (3)
PSYC-533 Cognitive Behavior Therapy (3)
PSYC-540 Advanced Social Psychology (3)
PSYC-545 Psychology of Sex Similarities and Differences (3)

Graduate Certificate in Psychobiology of Healing

The psychobiology of healing certificate program provides a thorough understanding of the science of healing and the therapeutic mechanisms that elicit healing responses. Through understanding the application of scientific method to the evaluation of integrative healing strategies, students will be prepared to design clinical trials, evaluate the scientific data from these trials, and discern the clinical potential of healing methodologies. In studying the psychobiology of healing, students will learn the mechanism of action of healing strategies. This program also provides a thorough review of the historical and scientific developments in the field of healing and enhances students' knowledge of health as well as holistic, integrative, and other lifestyle modalities for preventing and recovering from illnesses and for sustaining well-being.

Admission to the Program

Applicants to the certificate program must have a bachelor's degree from an accredited institution, with a minimum cumulative grade point average of 3.00 (on a 4.00 scale) in the last 60 hours of undergraduate work. In addition, applicants are re-

quired to submit a statement of purpose and two letters of recommendation. International students whose first language is not English must have a minimum TOEFL score of 600 (250 on the computer version).

Certificate Requirements

- 16 credit hours of approved course work with at least 6 credit hours at the 600-level or above, with grades of C or better
 Grades of C- or D in certificate program courses are not accepted toward the fulfillment of certificate requirements, although these grades will be included in the calculation of the GPA. Students must have at least a 3.0 GPA in certificate courses in order to be awarded a certificate. Students in certificate programs must take a minimum of 6 credit hours during each 12-month period and complete the certificate in four years. International students must enroll in 9 credit hours each semester (except for summer). A maximum of 3 credit hours earned at an accredited college or university may be applied toward the certificate as transfer credit.

Course Requirements

- HFIT-560 Health Promotion in Healthcare (3)
- PSYC-597 Topics in Psychology (3)
 Alternative Medicine
- PSYC-670 Behavioral Medicine (3)
- PSYC-690 Independent Study Project in Psychology (4)
- 3 credits from the following:
 PSYC-597 Topics in Psychology (3):
 Stress and Coping
 HFIT-596 Selected Topics: Non-recurring (approved topic)

Ph.D. in Behavior, Cognition, and Neuroscience

Admission to the Program

In addition to meeting the minimum university requirements for graduate study, applicants must submit a completed graduate application form, Graduate Record Examination (GRE) scores for the General examination (Verbal, Quantitative, and Analytic) and Advanced Psychology test, three letters of recommendation, and copies of all college transcripts. Those applicants to the clinical psychology track judged to be among the top 30 or 35 are invited for an interview, and the final selection is based on all information, including the interview. Students are admitted for full-time study only.

Degree Requirements

- 72 credit hours of approved graduate work
 Students who have been admitted to the doctoral program in psychology but do not have an M.A. in psychology that has been accepted by the department must complete the degree requirements for the M.A. in Psychology (thesis option) before they can be awarded the doctorate.
- Two tools of research are required but do not result in course credit toward the degree. The tool requirement is flexible and can be met in a variety of ways:

- 1) demonstration of knowledge of a language relevant to the student's career;
 - 2) demonstration of mastery in a computer program language;
 - 3) satisfactory completion of one skill-oriented graduate course offered by another department at American University or by nonpsychology departments of the Consortium universities;
 - 4) participation in one clinical institute which is approximately equal in time and difficulty to a full course; and
 - 5) supervised tool training in other settings when approved by the student's advisor and the department chair.
- Four comprehensive examinations outlined by advisors or other faculty members. These are tasks which involve students in the kinds of activities they will later engage in as professional psychologists. At least one of the four comprehensives must be oral and at least two must be written.
 - Dissertation: A written proposal for the dissertation is to be submitted to the dissertation committee by the middle of the second semester of the third year. The original proposal, or a revision thereof, should meet the requirements of the committee by the end of the second semester of the third year. This allows adequate time for completion of a quality dissertation even if initial experimentation turns out to be exploratory in nature. The dissertation must be accepted by the dissertation committee, the department chair, and the university.

Course Requirements

- PSYC-598 Neuroscience Seminar (3) (taken for a total of 6 credit hours)
- 18 credit hours from the following:
 - PSYC-501 Physiological Psychology (3)
 - PSYC-513 Neuropharmacology (3)
 - PSYC-518 Advanced Human Neuropsychology (3)
 - PSYC-530 Conditioning and Learning (3)
 - PSYC-551 Psychopathology: Theory and Research (3)
 - PSYC-560 Advanced Developmental Psychology (3)
 - PSYC-575 Advanced Memory and Cognition (3)
 - PSYC-618 Principles of Neuropsychological Assessment (3)
 Other courses focusing in the neurosciences may be taken with approval of the student's advisor and the Graduate Curriculum Committee.
- 6 credit hours from the following:
 - PSYC-798 Doctoral Dissertation Seminar (3)
 - PSYC-799 Doctoral Dissertation Research (1-9)
- 6 credit hours of statistics
- 12 credit hours of electives
- 24 credit hours of lab research

Ph.D. in Clinical Psychology

The clinical psychology program is fully accredited by the American Psychological Association Committee on Accreditation (COA) and has been accredited since 1972. COA is part of the Office of Program Consultation and Accreditation (OPCA). OPCA contact information is as follows:

Admission to the Program

In addition to meeting the minimum university requirements for graduate study, applicants must submit a completed graduate application form, Graduate Record Examination (GRE) scores for the General examination (Verbal, Quantitative, and Analytic) and Advanced Psychology test, three letters of recommendation, and copies of all college transcripts. Those applicants to the clinical psychology program judged to be among the top 30 or 35 are invited for an interview, and the final selection is based on all information, including the interview. Students are admitted for full-time study only.

Degree Requirements

- 72 credit hours of approved graduate work
 - Students who have been admitted to the doctoral program in psychology but do not have an M.A. in psychology that has been accepted by the department must complete the degree requirements for the M.A. in Psychology (thesis option) before they can be awarded the doctorate.
- Two tools of research are required but do not result in course credit toward the degree. The tool requirement is flexible and can be met in a variety of ways:
 - 1) demonstration of knowledge of a language relevant to the student's career;
 - 2) demonstration of mastery in a computer program language;
 - 3) satisfactory completion of one skill-oriented graduate course offered by another department at American University or by nonpsychology departments of the Consortium universities;
 - 4) participation in one clinical institute which is approximately equal in time and difficulty to a full course; and
 - 5) supervised tool training in other settings when approved by the student's advisor and the department chair.
- Four comprehensive examinations outlined by advisors or other faculty members. These are tasks which involve students in the kinds of activities they will later engage in as professional psychologists. At least one of the four comprehensives must be oral and at least two must be written.

- Dissertation: A written proposal for the dissertation is to be submitted to the dissertation committee by the middle of the second semester of the third year. The original proposal, or a revision thereof, should meet the requirements of the committee by the end of the second semester of the third year. This allows adequate time for completion of a quality dissertation even if initial experimentation turns out to be exploratory in nature. The dissertation must be accepted by the dissertation committee, the department chair, and the university.
- As part of the doctoral requirements, clinical students serve a one-year internship in an appropriate setting outside the university.

Public Health

Maintaining and improving public health is one of the great mandates of our time, both in the United States and abroad. Aging populations, global pandemics, increasing environmental degradation and a rise in childhood obesity are just some of the many challenges to which the field of public health directly responds.

Because public health is a highly interdisciplinary area of study, students in the program benefit from interactions with scholars from across the university. After gaining foundational knowledge and practical skills in the field by completing a set of core courses, students explore the complexities of public health by selecting elective courses from clusters in global health; health science; policy, program planning, and evaluation; and social and community health. Students' growth in the field is furthered through internships in the Washington, DC area and health-related study abroad opportunities. Finally, the capstone course engages students in synthesizing their experience and understanding of the field of public health.

Students in the B.A. and B.S. programs have access to similar courses. Students pursuing the B.A. may want to focus on courses that support careers in program planning, the develop-

ment and assessment of public health projects, and the social and community health aspects of public health. Students pursuing the B.S. degree may be more interested in public health research, in future work at the Centers for Disease Control and Prevention (CDC), or in developing vaccination protocols.

University Honors Program

To graduate with University Honors, students must be admitted to the University Honors Program, maintain a minimum cumulative GPA of 3.50, and receive grades of B or better in all University Honors course work. There are three levels of University Honors course requirements: Level I (100-200-level); Level II (300-level and above); and Level III (Honors Capstone Project). The department Honors coordinator advises students in the University Honors Program regarding requirements for graduating with University Honors in the major.

Combined Bachelor's and Master's Degrees

American University offers students the opportunity to earn both undergraduate and graduate degrees through its accelerated bachelor's/master's programs. Undergraduate students may complete up to 3 credits for every 9 credits required for the graduate degree that may be applied to the requirements for both degree programs. The department that oversees the graduate program the student enters will determine if the courses the undergraduate student completes will satisfy master's degree requirements.

Bachelor's/master's students must complete at least 18 in-residence credit hours at the graduate level after the bachelor's degree is earned and maintain continuous, sequential enrollment in the two programs. Students must finish the master's degree requirements within three years from the date of first enrollment in the master's program.

Sociology explores how individuals, through their collective actions, create and change patterns of social relations and how, in turn, these social relations influence people's lives. Sociologists focus on three major levels of analysis, from whole societies as component parts of wider systems, to institutions as component sectors of society, to individuals as participants in two-person groups. They also study varied processes of social change, from migration to social mobility, from urbanization to mass communication. Finally, sociologists study a wide variety of themes, from racial and ethnic relations to social problems and political change. This quest for knowledge is both an end in itself and a pathway for informed social change.

The Department of Sociology of the College of Arts and Sciences shares a common purpose of education and research for social justice in an increasingly global social system. Faculty and students are empowered to participate in building equitable, humane, and sustainable social institutions by creating sociological knowledge and applying professional research skills to produce effective policies and programs for social

change. One source of its strength is the department's multicultural diversity, which its members take every opportunity to expand.

The Sociology Department serves the university, including students from throughout the world, as a center for the study of societal change, social institutions, and social processes, with an emphasis on inequality and social justice. Degree programs focus on forms of inequality, their origins and patterns or reproduction, related to issues of social justice, and how these issues vary within and between societies. They are intended to produce and apply knowledge for the benefit of society, not only to teach academic skills, but also to develop knowledge of value to those involved in working for the promotion of social equality. The programs prepare students for a variety of careers in social advocacy, research, teaching, human services, and both public and private sector policy-making institutions. Successful placements of the department's graduates in academic, research, and policy-making institutions attest to the high standards our graduates meet.

The department's focus on international and comparative sociology and public sociology are especially well suited to Washington, D.C., an international capital and center for policy making. American University's location provides unparalleled access to government, research institutions, data and archival sources, advocacy organizations, and leaders involved in social change.

The undergraduate program is unique in its emphasis on race, gender, social justice, global social change and applied sociology/social policy. Majors and minors take core course sequences in sociological theory and research methods, and courses from several areas of concentration. Membership in the American University chapter of Alpha Kappa Delta, the international honor society in Sociology, is open to qualifying majors.

The society sponsors lectures and other activities that involve undergraduates in the professional workings of the discipline.

In collaboration with the Department of Biology and other departments, an interdisciplinary B.A. or B.S. in Public Health, as well a minor, are available to students.

The Department of Sociology's graduate program consists of core training in sociological theory and research method, plus an area of concentration in public sociology, race, gender, and social justice; global sociology; social inequality; or gender and family. The program not only teaches academic skills, but also develops knowledge of benefit to those working for the promotion of social equality. Course are designed to enable students to deepen their knowledge of a specialty area, to develop advanced and systematic theoretical understanding, and to develop methodological areas for vocational and professional competence.

Combined B.A. and M.A. in Sociology

American University offers students the opportunity to earn both undergraduate and graduate degrees through its accelerated bachelor's/master's programs. Undergraduate students may complete up to 3 credits for every 9 credits required for the graduate degree that may be applied to the requirements for both degree programs. The department that oversees the graduate program the student enters will determine if the courses the undergraduate student completes will satisfy master's degree requirements. Bachelor's/master's students must complete at least 18 in-residence credit hours at the graduate level after the bachelor's degree is earned and maintain continuous, sequential enrollment in the two programs.

This program enables qualified students to earn, in a continuous plan of study, both the B.A. and M.A. in Sociology.

Requirements

- Students should apply for this program in the second semester of the junior year. Students must have a minimum overall 3.00 grade point average. Admissions decisions to the combined program follow the same procedures and standards used to evaluate graduate applicants to the M.A. Students interested in applying to this combined program should consult with their advisor and other faculty members before formal application is begun.
- All requirements for the B.A. in Sociology
Undergraduate students may apply up to 12 credit hours of approved graduate-level course work in sociology, including STAT-514 Statistical Methods, to satisfy the requirements of both degrees.
- All requirements for the M.A. in Sociology, including a minimum of 18 credit hours completed in residence in graduate status after the undergraduate degree has been awarded. Students must finish the master's degree

requirements within three years from the date of first enrollment in the master's program.

Minor in Sociology

- 21 credit hours with grades of C or better with at least 12 credit hours unique to the minor

Course Requirements

- SOCY-100 U.S. Society 4:1 (3)
or
SOCY-110 Views from the Third World 3:1 (3)
or
SOCY-150 Global Sociology 4:1 (3)

SOCY-415 Contemporary Social Theory (3)
SOCY-515 Models of Societal Development (3)
SOCY-525 Social Advocacy and Change (3)
SOCY-580 Social Policy Analysis (3)
- 9 credit hours in sociology electives, with no more than one course at the 100 or 200 level.

M.A. in Sociology

Admission to the Program

Applicants must meet the minimum university requirements for admission to graduate study, including a bachelor's degree from an accredited institution, with at least a 3.3 (on a 4.0 scale) grade point average. Graduate Record Examination (GRE) test scores are required. A background in the social sciences is strongly preferred. Admission to the program is at the discretion of the department's Graduate Committee and is based on academic record and letters of recommendation from two persons able to evaluate the applicant's potential for graduate study in sociology. Provisional admission may be considered on a case-by-case basis where minimum university requirements are not fully met.

Degree Requirements

- 36 credit hours of approved graduate work, including the research requirement
- Tool of research: SOCY-621 Quantitative Analysis and SOCY-623 Qualitative Analysis
- One written comprehensive examination covering sociological theory and methods of social research:
The comprehensive examination consists of a meeting of the student with his or her faculty committee to discuss the written proposal for the thesis or final project. The proposal and examination shall cover theoretical background, methodological approaches(s), details of the intended study, and an initial bibliography. The exam will emphasize both the student's preparation in theory and methods and the study plan. For full time students, the examination meeting will take place by the fourth week of the fall semester of the

second year. For students who begin in the spring semester, or who study part time, an equivalent timetable for the examination will be established to assure timely preparation of the proposal for the thesis or final project.

- Research requirement:

SOCY-797 Master's Thesis Independent Study (3 or 6 credit hours)

The thesis offers students the opportunity to specialize as well as further develop research skills. Students chose the subject of the thesis in consultation with their advisor.

or

SOCY-795 Master's Research: Independent Study (3)

Completion of a substantial research report related to the student's field of concentration under the guidance of a professor of the student's choice.

and

An advanced course in statistical methods or research methods, an advanced seminar in the student's field of concentration, or an independent study course in the field of concentration (3)

All course work taken for the research requirement must be taken with grades of B or better.

Course Requirements

- SOCY-610 History of Sociological Theory (3)
- SOCY-611 Modern Sociological Theory (3)
- SOCY-620 Social Research Methods (3)
- SOCY-621 Quantitative Analysis (3)
- SOCY-623 Qualitative Analysis (3)
- SOCY-795 Master's Research: Independent Study (3)
or
SOCY-797 Master's Thesis Independent Study (1-6)

Graduate Certificate in Public Sociology

Admission to the Program

Open to students with a bachelor's degree or equivalent from an accredited institution.

Certificate Requirements

- 15 credit hours of approved course work with at least 6 credit hours at the 600-level or above, with grades of C or better
Grades of C- or D in certificate program courses are not accepted toward the fulfillment of certificate requirements, although these grades will be included in the calculation of the GPA. Students must have at least a 3.0 GPA in certificate courses in order to be awarded a certificate. Students in certificate programs must take a minimum of 6 credit hours during each 12-month period and complete the certificate in four years. International students must enroll in 9 credit hours each semester (except for summer). A maximum of 3 credit hours earned at an accredited college or university may be applied toward the certificate as transfer credit.

Course Requirements

- SOCY-525 Social Advocacy and Social Change (3)
or
SOCY-580 Social Policy Analysis (3)
- SOCY-684 Seminar in Public Sociology (3)
- SOCY-695 Internship Seminar in Public Sociology (3)
- 6 credit hours in graduate-level courses relevant to public sociology selected in consultation with the graduate advisor. Courses outside the Sociology Department may be substituted with the approval of the graduate director.

Teaching English to Speakers of Other Languages (TESOL)**TESOL Program Office**

202-885-2582

tesol@american.edu

The demand for teachers of English to speakers of other languages has markedly increased as changing national systems and global concerns have created an interdependent world. American University's TESOL program is distinctive due to its unique balance of theoretical and practical exploration. Students read and conduct research in the field of TESOL to inform their teaching practices, including planning lessons and designing assessments for English language classes. Concurrently, students are present in English language learning environments from the beginning of their TESOL course of study in such capacities as observer, tutor, etc. Faculty draw on their extensive teaching experience, research, and interaction with other cultures to provide pragmatic lessons and advice to TESOL students.

AU offers a variety of opportunities in TESOL including a combined Bachelor's/M.A. program, an M.A. in TESOL (with a joint AU/Peace Corps program), and a certificate open to both undergraduate and graduate students. An ESOL track is available in the M.A.T. program and a graduate teaching certificate (see the School of Education, Teaching and Health for more information). In addition, the program offers an annual TESOL Summer Institute, which includes regular summer session classes plus an intensive workshop.

M.A. in TESOL (Teaching English to Speakers of Other Languages)**Admission to the Program**

Applicants to the master's program in TESOL are subject to the minimum university requirements for admission to graduate study. Further, a grade point average of 3.00 (on a 4.00 scale) in the undergraduate major, Graduate Record Examination (GRE) scores, and two letters of academic reference are required. It is strongly recommended that native speakers of English have some background in at least one other language. International students are expected to demonstrate competence in English equivalent to a score of 600 or better on the Test of English as a Foreign Language (TOEFL). Part-time as well as full-time students are welcome in the program.

A joint program between the Peace Corps and American University enables participants to prepare for Peace Corps English teaching assignments while earning an M.A. in TESOL. Application is made separately to American University and the Peace Corps. Admission requirements for the M.A. program are the same as above. The Peace Corps accepts American citizens only and participants must meet all other Peace Corps requirements prior to beginning Peace Corps service. Successful participants will begin their Peace Corp training and service after they have completed the bulk of their academic work. The Peace Corps service experience constitutes the equivalent of a 6-credit hour internship, for which the tuition is waived. Also, TESL-620 may be waived for students in the AU/Peace Corps program, for a total of 33 credit hours for the degree.

Note: This program is not designed for K-12 ESOL licensure. K-12 public school licensure (or certification) in ESOL is available through the M.A.T. track in English for Speakers of Other

Languages (ESOL). For more information, see the School of Education, Teaching and Health programs.

Grades of B or better are required for all courses taken for the thesis or nonthesis option.

Combined Bachelor's Degree and M.A. in TESOL

American University offers students the opportunity to earn both undergraduate and graduate degrees through its accelerated bachelor's/master's programs. Undergraduate students may complete up to 3 credits for every 9 credits required for the graduate degree that may be applied to the requirements for both degree programs. The department that oversees the graduate program the student enters will determine if the courses the undergraduate student completes will satisfy master's degree requirements. Bachelor's/master's students must complete at least 18 in-residence credit hours at the graduate level after the bachelor's degree is earned and maintain continuous, sequential enrollment in the two programs.

This program enables qualified students to earn both a B.A. or B.S. in any major and an M.A. in TESOL (Teaching English to Speakers of Other Languages). *Note:* This program is not designed for K–12 ESOL licensure.

Requirements

- The standards for admission as defined by the relevant undergraduate teaching unit's requirements must first be satisfied. Undergraduates should apply for admission to the combined program by the end of the junior year. Undergraduates whose overall grade point average is 3.00 or higher will be considered for the combined program. Applications must be accompanied by two letters of academic reference and a statement of purpose. Students should discuss their interest in the program with the TESOL M.A. director before submitting a formal application.
- All requirements for a B.A. or B.S. in any major at American University
Undergraduate students may apply up to 9 credit hours of approved graduate-level course work to satisfy the requirements for both degrees.
- All requirements for the M.A. in TESOL, including a minimum of 18 credit hours completed in residence in graduate status after the undergraduate degree has been awarded. Students must finish the master's degree

requirements within three years from the date of first enrollment in the master's program.

Certificate in TESOL (Teaching English to Speakers of Other Languages)

Admission to the Program

A grade point average of 3.00 (on a 4.00 scale) is required. International students must demonstrate competence in English

equivalent to a score of 600 or above in the Test of English as a Foreign Language (TOEFL).

Course Requirements (15 credit hours)

- TESL-500 Principles of Linguistics (3)
- TESL-501 English Language Teaching I (3)
- TESL-502 English Language Teaching II (3)
- Two approved TESOL courses

Note: This program is not designed for K–12 ESOL licensure.

Women's, Gender, and Sexuality Studies

Director Gay Young

Faculty from other schools and departments of the university teach in the program. A list of the faculty members of the Women's, Gender, and Sexuality Studies Advisory Board and other program information is available at:

www.american.edu/cas/wgs/

The Women's, Gender, and Sexuality Studies (WGSS) Program is an interdisciplinary program encompassing feminist studies, masculinity studies, and sexuality studies. The program is committed to a multicultural curriculum that sustains and integrates diverse perspectives. Program courses emphasize participatory education in which student involvement, critical thinking, and personal insight are encouraged and made relevant in the learning process. Many faculty members with national and international reputations for their scholarly work on women's/gender/sexuality issues regularly teach women's, gender, and sexuality studies courses, as well as courses in other departments and programs that count toward the major and minor.

Students who major or minor in WGSS gain experience off-campus in the nation's capital through an internship placement in an organization or agency whose mission embraces some aspect of women's/gender/sexuality studies. Students have access to powerful networks in Washington, DC that can give substantial support in career development; student interns are actively sought by organizations focused on the arts, advocacy of all kinds, communication, employment and training issues, law and policy, reproductive rights and health, social research in a wide range of fields, support services for survivors of violence and abuse, and U.S. politics. The program also encourages and facilitates students' study abroad. Majors and minors have expanded their understanding of women's/gender/sexuality in programs in Africa, Asia, Europe and Latin America.

A degree in WGSS leads to challenging careers in a wide spectrum of occupations. An undergraduate education in WGSS also equips students with a range of skills which are highly valued in the twenty-first century labor force. The curriculum also prepares students for graduate study in the fields of women's/gender/sexuality studies or for advanced study in traditional disciplines and professional fields. Moreover, at AU

students can earn a graduate certificate in women's, gender, and sexuality studies by combining graduate-level coursework on women's/gender/sexuality theory and current issues/research in WGSS with approved graduate coursework from a range of participating graduate programs.

B.A. in Women's, Gender, and Sexuality Studies

Admission to the Program

Formal admission to the major requires a grade point average of 2.00 (on a 4.00 scale) and the approval of the program director.

Individually Defined Area of Focus

An individually defined group of four courses (12 credit hours) centered on a particular theme or issue in women's and gender studies, with approval of the program director.

Electives (9 credit hours)

- Elective courses focused on women and/or gender studies, to make a total of 39 credit hours, from a list of courses approved each semester by the program director.

University Honors Program

To graduate with University Honors, students must be admitted to the University Honors Program, maintain a minimum cumulative GPA of 3.50, and receive grades of B or better in all University Honors course work. There are three levels of University Honors course requirements: Level I (100-200-level); Level II (300-level and above); and Level III (Honors Capstone Project). The department Honors coordinator advises students in the University Honors Program regarding requirements for graduating with University Honors in the major.

Combined Bachelor's and Master's Degrees

American University offers students the opportunity to earn both undergraduate and graduate degrees through its accelerated bachelor's/master's programs. Undergraduate students may complete up to 3 credits for every 9 credits required for the graduate degree that may be applied to the requirements for both degree programs. The department that oversees the graduate

program the student enters will determine if the courses the undergraduate student completes will satisfy master's degree requirements.

Mission

At American University's Kogod School of Business, our mission is to:

- Prepare students to develop rewarding careers and become active global citizens who value integrity and who respect diverse view points and cultures.
- Produce highly-engaged and well-prepared graduates to lead private, public, and non-profit organizations.
- Conduct and publish high-quality scholarship for academic and professional audiences.

Vision

Kogod identifies, develops, and delivers high-quality, market drive programs to fulfill the needs of our stakeholders, and is recognized as the school of choice for interdisciplinary education.

Accreditation

The Kogod School of Business is accredited by AACSB International, the Association to Advance Collegiate Schools of Business.

Departments and Centers

The school is made up of six departments: Accounting and Taxation, Finance and Real Estate, International Business, Information Technology, Management, and Marketing. The Accounting Department oversees the instruction of all courses pertaining to accounting, taxation, and business law. The Department of Finance and Real Estate provides courses in finance, financial institutions, managerial economics, and real

estate. The Department of International Business offers a variety of international courses that cover all of the business disciplines, including marketing, human resources management, finance, accounting, and trade. The Department of Information Technology provides instruction in information technology, with particular emphasis on the global dimensions of technology, as well as production/operations management, statistics, strategies for information technology development and use, and management of information technology resources. The Management Department provides instruction in the areas of human resources, organizational behavior, entrepreneurship, strategy, business and corporate ethics, and global business citizenship. The Department of Marketing teaches courses in consumer behavior, research, advertising and promotion, marketing strategy development, and technology based marketing.

The Center for Information Technology and the Global Economy is a leader in the area of business issues at the intersection of information technology and globalization. This is accomplished by supporting scholarly research and dialogue with the practitioner community.

Kogod Center for Career Development (KCCD)

Given the unique professional development needs of business students, Kogod has its own career center which provides comprehensive career services to all Kogod students. The KCCD hosts a wide range of employers for on-campus recruiting and coordinates NYC industry trips each fall (Finance/Real Estate) and spring (Marketing/Communication). Through cutting edge online resources and a knowledgeable staff, KCCD provides students 24/7 career support ranging from identifying an area of interest to identifying potential employers. Professional and student staff provide customized one-on-one advising, workshops and mock interviews to ensure students are successful not only in their initial internship and job searches, but in their lifelong career management as well. Throughout the year, KCCD hosts Industry Days that bring working professionals, hiring managers, alumni and students together for educational and hiring purposes. These Industry Days include Accounting/Finance, Consulting, IT, Marketing, International Business, the Business of Entertainment as well as The Kogod Network. More information about KCCD is available at: www.american.edu/kogod/career/index.cfm.

K-LAB (Kogod Leadership and Applied Business)

At Kogod, the belief is that education should extend beyond the classroom to include experiential learning that will enhance students' intellectual development, leadership ability, communication skills, and professional self-confidence. To that end, a "lab" was created for business students, where activities that allow students to learn valuable skills in real world settings are developed and supported. Information on programs as well as students clubs and organizations is available at: www.american.edu/kogod/klab/.

Programs

The **Case Competition** is one of the premier annual events hosted by the Kogod School of Business for graduate and undergraduate students. Case competitions are an excellent opportunity for students to sharpen their communication skills, case analysis, presentation style, and problem-solving techniques. Students work in teams to analyze a business case and present their findings to area business leaders and alumni who serve as judges.

The **1955 Club** provides undergraduate students with meaningful opportunities to develop leadership skills through an annual leadership retreat. The organization emphasizes personal responsibility, integrity, and professional development. The 1955 Club has two groups: Kogod Envoys serve as program ambassadors, and Peer Mentors provide support to first year student programming.

The **Washington Initiative** is a service learning program that provides Kogod undergraduates with volunteer opportunities to work on substantial business projects at local non-profits and charitable agencies while earning academic credit. The program challenges students to examine their beliefs and values about business, ethics, and civic responsibility by applying business practices to the community's needs.

The **Road Scholars** program exposes undergraduate students to the study of business and industry through organized study and travel to a different destination each year. Through site visits, networking events, and workshops, students experience diverse industries firsthand.

The **Making a Difference is Our Business** program coordinates projects each semester to provide graduate students with the opportunity to work with fellow students on service projects.

Global Learning Programs

One of Kogod's core philosophies is that students who have spent time in diverse locations are better prepared to manage and communicate in cross-cultural settings and compete in a global environment. To complete this critical piece of their business education, students can choose from programs of vari-

ous lengths in more than 100 locations worldwide, including nearly 30 accredited business programs in over 20 countries.

Kogod undergraduate students can pursue a range of global learning opportunities, including semester, summer or year-long study abroad programs, intern abroad programs, and intensive short-term courses focused on a specific economy. While abroad, students can earn core or elective credits toward their degree requirements.

Kogod graduate students can choose from several short-term immersive programs, offered in major European

business centers as well as emerging economies. Kogod also offers semester abroad opportunities for graduate students.

Business Honorary Society

The school recognizes the academic, professional, and personal achievement of enrolled students through membership in Beta Gamma Sigma (BGS). BGS is the highest academic recognition for outstanding students from an AACSB accredited undergraduate or graduate business program. Eligible students are invited to membership every spring.

Undergraduate Programs

The undergraduate business program provides students with a sound understanding of the major functional areas of business while focusing on the communication, teamwork, and real world problem solving skills needed for successful professional careers. KSB undergraduate programs include the Bachelor of Science in Accounting (B.S.A.), Bachelor of Science in Business Administration (B.S.B.A.), the Bachelor of Science in Business, Language & Culture Studies (B.L.C.), and the Bachelor of Science in Business and Music (B.A.M.), as well as minors in accounting, business administration, finance, information systems and technology, international business, marketing, and real estate.

The first two years of study focus on the five curricular areas of the General Education Program and additional course work to develop the necessary background knowledge, skills, and competency that apply to the study of business. The foundation work includes courses in college writing, mathematics (applied calculus and statistics), economics, and cross cultural communication. The business core courses emphasize broad business functions, global perspectives on commerce, and the essential role of technology in the marketplace. It also provides background in the production and marketing of goods, the financing of products and organizations, and the management of people and enterprises. During the first semester, freshmen take the Kogod gateway course, KSB-100 Business 1.0., which provides a unique, hands-on, and fun introduction to the study of business. Business 1.0 uses a variety of different learning tools including small group discussions, team presentations, and lectures. In later semesters, students study accounting concepts along with the legal and ethical dimensions of decision-making that impact contemporary organizations. The program also features coursework in organizational behavior, business finance, international business, operations management, and business strategy.

The undergraduate business programs have a liberal arts-based curriculum with a business core that provides a broad knowledge of business functions while emphasizing the global business environment. In addition to the business core, Kogod students have the option to choose a specialization and/or design a double major, minor, or interdisciplinary curriculum.

The objectives of the business core are:

- develop students' intellectual curiosity and the ability to think creatively, reason logically and respect diverse ideas and people;
- a global perspective on business operations and economics;
- an understanding of how goods and services are produced and marketed;
- a foundation in the concepts and applications of accounting, financial analysis, and business finance;
- an understanding of basic management theory and organizational dynamics of the contemporary business enterprise;
- an appreciation of the legal, ethical, and societal dimensions of business decision-making; and,
- an ability to integrate learning across academic disciplines and to develop strategic decision-making skills.

In addition, each student is expected to:

- demonstrate professional competence in oral, written, and interpersonal communication skills in a business setting;
- understand how to use technology and analytical tools to improve efficiency, productivity, problem solving, and communication; and,
- understand the nature of group dynamics and how teams of diverse individuals work together to analyze and solve business problems.

Several features of the program are important to these goals and distinguish it, including:

- an emphasis on the development of an individual career strategy and the development of professional skill sets;
- an integrated set of courses and co-curricular activities that develop managerial decision making skills;
- extensive opportunities for study abroad, internships (domestic and international), and interaction with international and national agencies that affect domestic and international business practices; and,
- a learning environment composed of skilled faculty and students from all over the world.

Internship Program

Qualified business majors are encouraged to participate in the Internship Program, which provides field experience in jobs related to their academic programs and career goals. The program enables students to make career decisions and prepare for the professional job market while earning degree credit. Positions may be with businesses, local, state, or federal governments or community, social service, or not-for-profit organizations. To earn academic credit, undergraduate students must have completed 12 credit hours in business including the 300-level core course in the relevant Kogod department. The credit earned in an internship course can be used only for a free business elective course, and cannot replace a core or area of specialization course. Students who have not met the credit requirement are eligible for a .25 credit field experience.

Bachelor of Science in Accounting (B.S.A.)

The Bachelor of Science in Accounting program meets the needs of students pursuing professional accounting careers in public accounting or in industrial, financial, governmental, not-for-profit, and consulting organizations. Requirements include university writing, mathematics, and General Education courses, the Kogod School of Business (KSB) undergraduate business core, advanced-level accounting courses, and sufficient electives to permit students to pursue a minor or other area of interest. Students successfully completing the requirements for the B.S. in Accounting should be well prepared to sit for the Uniform CPA Examination and for additional study required for professional licensure.

Admission to the Program

Freshman applicants should have demonstrated above average performance in their college preparatory courses in secondary school. Scores on the SAT or ACT should indicate that the applicant has the potential for success in a rigorous university degree program. Due to the quantitative emphasis of the business administration curriculum, it is strongly recommended that applicants take the SAT II Math test for placement purposes.

In addition to university requirements for transfer admission, transfer applicants to KSB should have a minimum grade point average of 2.50 (on a 4.00 scale). This also applies to students transferring from nondegree status at American University. All B.S.A. transfer students are required to take MGMT-458 and at least 18 upper-level credit hours toward their major requirements in residence. Transfer credits for 300-level and above business courses are subject to validation by the appropriate department chair and may be conditional on successful completion of a more advanced course at American University.

University Requirements

- A total of 120 credit hours
- 6 credit hours of college writing
- 3 credit hours of college mathematics or the equivalent by examination

General Education Requirements

- A total of ten courses, consisting of one foundation course and one second-level course in an approved sequence from each of the five curricular areas
- No more than two courses may be taken in the same discipline
Curricular Area 4 should be fulfilled by ECON-100 Macroeconomics and ECON-200 Microeconomics.

Major Requirements

- A total of 120 credit hours with a cumulative grade point average of 2.00 or higher
Students must complete at least 50 percent of their course work (60 credit hours) outside of KSB. Student may take more than 60 credit hours of business courses as long as 50 percent of their total credit hours are earned in non-business course work.
IBUS-200 and FIN-200 are considered business courses and may not count toward the non-business course requirement even if they are taken for General Education credit.
- At least 50 percent of the business credit hours required for the B.S.A. must be earned at American University
- Students must maintain a minimum cumulative grade point average of 2.0 to be eligible to enroll in business courses
- A total of 83 credit hours with grades of C or better for the major requirements
- Business core courses: 33 credit hours with grades of C or better (pass/fail grades are not permitted)
- Business law requirement: 3 credit hours in ACCT-301 with grade of C or better (pass/fail grades are not permitted)
- Advanced accounting requirements: 21 credit hours with grades of C or better (pass/fail grades are not permitted)
- Math requirement: 8 credit hours in MATH-211 and STAT-202 with grades of C or better (pass/fail grades are not permitted)
- Non-business electives: 9 credit hours taken outside of KSB, may include study abroad courses and internships
- Free electives: 9 credit hours, may include accounting, business, non-business, study abroad courses, and internships

Course Requirements

The sequencing of courses is particularly important in the case of the BS in Accounting. For this reason, students are responsible for consulting with advisors in the KSB Office of Academic Programs as they plan their overall programs and semester class schedules.

Math Requirement (8 credit hours)

- MATH-211 Applied Calculus I (4)
- STAT-202 Basic Statistics (4)

Business Core Courses (33 credit hours)

- Non-business Electives (9 credit hours)**
- 9 credit hours in approved courses taken outside of KSB, may include study abroad courses and internships
- Free Electives (9 credit hours)**
- 9 credit hours in approved courses, may include accounting, business, non-business, study abroad courses, and internships

University Honors Program

To graduate with University Honors, students must be admitted to the University Honors Program, maintain a minimum

cumulative GPA of 3.50, and receive grades of B or better in all University Honors course work. There are three levels of University Honors course requirements: Level I (100-200-level); Level II (300-level and above); and Level III (Honors Capstone Project). The department Honors coordinator advises students in the University Honors Program regarding requirements for graduating with University Honors in the major.

Combined Bachelor's and Master's Degrees

American University offers students the opportunity to earn both undergraduate and graduate degrees through its accelerated bachelor's/master's programs. Undergraduate students may complete up to 3 credits for every 9 credits required for the graduate degree that may be applied to the requirements for both degree programs. The department that oversees the graduate program the student enters will determine if the courses the undergraduate student completes will satisfy master's degree requirements.

Bachelor's/master's students must complete at least 18 in-residence credit hours at the graduate level after the bachelor's degree is earned and maintain continuous, sequential enrollment in the two programs. Students must finish the master's degree requirements within three years from the date of first enrollment in the master's program.

Students interested in combining the B.S. in Accounting with either the M.S. in Accounting or the M.S. in Taxation should consult with the respective program director.

Bachelor of Science in Business Administration (B.S.B.A.)

Admission to the Program

Freshman applicants should have demonstrated above average performance in their college preparatory courses in secondary school. Scores on the SAT or ACT should indicate that the applicant has the potential for success in a rigorous university degree program. Due to the quantitative emphasis of the business administration curriculum, it is strongly recommended that applicants take the SAT II Math test for placement purposes.

In addition to university requirements for transfer admission, transfer applicants to KSB should have a minimum grade point average of 2.50 (on a 4.00 scale). This also applies to students transferring from nondegree status at American University. All B.S.B.A. transfer students are required to take MGMT-458 and at least 18 upper-level credit hours toward their major requirements in residence. Transfer credits for 300-level and above business courses are subject to validation by the appropriate department chair and may be conditional on successful completion of a more advanced course at American University.

Major Requirements

- A total of 120 credit hours with a cumulative grade point average of 2.00 or higher
Students must ensure that no more than 66 of the 120 credit hour graduation requirement are taken within the Kogod School of Business.
IBUS-200 and FIN-200 are considered business courses and may not count toward the non-business course requirement even if they are taken for General Education credit.
- Business core courses: 33 credit hours with grades of C or better (pass/fail grades are not permitted)
- Students must maintain a minimum cumulative grade point average of 2.0 to be eligible to enroll in business courses
- Area of specialization: a minimum of 12 credit hours with grades of C or better (pass/fail grades are not permitted)
Students should declare an area of specialization before the end of their junior year. All areas of specialization must be approved in advance by the Office of Academic Programs. Students must meet the following minimum standards of performance prior to approval:
minimum grade of C in MATH-211 Applied Calculus I and STAT-202 Basic Statistics
minimum grade of C in ECON-100 Macroeconomics and ECON-200 Microeconomics
- Free electives: 24 credit hours
- At least 50 percent of the business credit hours required for the B.S.B.A. must be earned at American University

Course Requirements

Students are responsible for fulfilling university and school requirements following a prescribed sequence. The academic advisors in the Kogod School's Office of Academic Programs must be consulted for counseling and advice when preparing class schedules. However, it is the student's responsibility to consult course descriptions to identify course prerequisites and when courses are offered.

Non-Business Requirements

- ECON-100 Macroeconomics 4:1 (3)
- ECON-200 Microeconomics 4:2 (3)
- MATH-211 Applied Calculus I (4)
or
MATH-221 Calculus I (4)
Students needing to strengthen their quantitative skills should begin with MATH-170 Precalculus Mathematics

- STAT-202 Basic Statistics (4)
- 6 credit hours in foreign language or approved international or cross-cultural courses from the following:
Courses from the School of International Service (SIS)
Courses from the Department of Language and Foreign Studies, College of Arts and Sciences (CAS)
Curricular Area 3 (Global and Multicultural Perspectives) courses may be used to meet this requirement, but the 6 credit hours must be in addition to those taken to fulfill the General Education Requirement
AU Abroad courses (if not used to fulfill another requirement), international internships, or other approved study abroad programs

Business Core Courses (33 credit hours)

- ACCT-240 Principles of Financial Accounting (3)
- ACCT-241 Principles of Managerial Accounting (AT) (3)

- MGMT-353 Management and Organizational Behavior (T) (3)
- MGMT-458 Business Policy and Strategy (C/O/T/W) (3)
- MKTG-300 Principles of Marketing (W) (3)
AT = analytical tool emphasis; provides a strong foundation in business analytical software
C = case analysis emphasis; provides growth opportunities for students to evaluate cases
O = oral communication emphasis; assists in the development of oral presentation skills
T = teamwork emphasis; focuses on teamwork and the importance of interpersonal relationships and communication
W = written communication emphasis; develops business writing skills, written assignments account for a significant part of the course grade

Area of Specialization

Kogod students select an area of specialization from the approved programs below or design a custom specialization with the assistance and approval of their academic advisor. Specializations are 12 credit hours, with the exception of finance, which requires 15 credit hours. Students who choose to pursue two specializations must complete a minimum of 12 credit hours (or 15 credit hours for finance) for each specialization.

Students who choose a specialization in International Business, International Finance, International Management, or In-

International Marketing must satisfy a global experience requirement. This can be met either through completion of an approved study abroad program, an international internship, or successful completion of a comparable American University global immersion course. Exceptions to this requirement may be granted on a case by case basis by the Department of International Business. International students are exempt from this requirement.

Bachelor of Science in Business, Language & Culture Studies (B.L.C.)

The B. S. in Business, Language & Culture Studies (B.L.C.) is designed for students with a passion for business and a complementary enthusiasm for a foreign language. Students choose a language track (Arabic, French, German, Russian, or Spanish) when entering the program, complete the business core, and spend one semester abroad taking courses in their language track. Upon completion of this interdisciplinary program, students will be prepared to take the American Council on the Teaching of a Foreign Language (ACTFL) oral proficiency interview and qualify for a regional fluency certificate (i.e. French Chamber of Commerce Certificate). Students with a solid academic foundation in business and a strong proficiency in a foreign language will be highly competitive in the global marketplace.

Admission to the Program

Freshman applicants should have demonstrated above average performance in their college preparatory courses in secondary school. Scores on the SAT or ACT should indicate that the applicant has the potential for success in a rigorous university degree program. Due to the quantitative emphasis of the business administration curriculum, it is strongly recommended that applicants take the SATII Math test for placement purposes.

University Honors Program

To graduate with University Honors, students must be admitted to the University Honors Program, maintain a minimum cumulative GPA of 3.50, and receive grades of B or better in all University Honors course work. There are three levels of University Honors course requirements: Level I (100-200-level); Level II (300-level and above); and Level III (Honors Capstone Project). The department Honors coordinator advises students in the University Honors Program regarding requirements for graduating with University Honors in the major.

Combined Bachelor's and Master's Degrees

American University offers students the opportunity to earn both undergraduate and graduate degrees through its accelerated bachelor's/master's programs. Undergraduate students may complete up to 3 credits for every 9 credits required for the graduate degree that may be applied to the requirements for both degree programs. The department that oversees the graduate program the student enters will determine if the courses the undergraduate student completes will satisfy master's degree requirements.

Bachelor's/master's students must complete at least 18 in-residence credit hours at the graduate level after the bachelor's degree is earned and maintain continuous, sequential enrollment in the two programs. Students must finish the master's degree requirements within three years from the date of first enrollment in the master's program.

Minor in Accounting

The minor in accounting provides non-business students with a thorough grounding in financial and management accounting and an introduction to an advanced area of accounting. This minor is especially appropriate for students who will use accounting knowledge extensively in their work and for those interested in preparing for a professional accounting career. Students who earn an undergraduate minor and the M.S. in Accounting or M.S. in Taxation will be well prepared for the Uni-

form CPA Exam and meet the educational requirements for professional licensure in most states.

Graduate Programs

Internship for Credit Program

Graduate students may earn elective credit for internships that are related to their academic program and their career goals. These positions are full or part time and are usually with businesses, state or federal governments, or not-for-profit organizations. Students who elect to do an internship for credit will be assigned a faculty member who will guide and evaluate the students' learning process.

To be eligible for an internship for credit, students must be in good academic standing (at least a 3.0 GPA) and have completed 12 credit hours of the required core course work. Before students apply they must obtain appropriate signatures from their faculty and academic advisor (international students also need approval from International Student & Scholar Services), and provide a position description from the employer. Students are required to demonstrate what they have learned through written papers or reports. Specific requirements are set by the faculty in the syllabus. Students doing an internship for credit must work a minimum of 10 hours per week for at least 12 weeks. Students register after they are selected for a position by an employer and have all the necessary forms completed. A maximum of 3 internship credit hours, taken as elective credit, may be applied toward a student's degree program requirements. Students will be graded on a pass/fail basis.

Master of Business Administration (M.B.A.)

The goal of the M.B.A. program is to develop practical business managers able to succeed in the complex arena of global organizations. Specifically, students will:

- Develop a solid foundation in each of the functional areas of business, including accounting and financial analysis, production and marketing of goods and services, management of people and organizations, and information and technology management.
- Understand critical interrelationships and linkages necessary for developing global business strategy, including strategies and operational issues, functional disciplines, and "hard" and "soft" skills.
- Appreciate the environment in which business operates, including economic, legal, ethical, and societal dimensions.

In addition, each student is expected to:

- demonstrate professional competence in oral, written, and interpersonal communication skills
- develop competency in the use of productivity tools and software to improve the quality and efficiency of decision making
- understand the nature of group dynamics and lead diverse work teams

The M.B.A. program contains within its required curriculum the business perspectives and core areas required by AACSB. The M.B.A. is a broad, general management program

with the opportunity for greater depth in a business discipline or functional area.

Admission to the Program

In addition to meeting the minimum university requirements for graduate study, applicants must have earned a satisfactory score on the Graduate Management Admission Test (GMAT) and a satisfactory grade point average for the last 60 hours of academic work from a Council on Postsecondary Accreditation (COPA) regionally-accredited institution.

Applicants whose first language is not English are also required to take the TOEFL (Test of English as a Foreign Language) and demonstrate English language proficiency.

Students are admitted to the full-time M.B.A. program in the fall semester only. Full-time students generally take between 12 and 15 credit hours per semester, which allows for completion of the degree in four semesters. Part-time students generally take 6 credit hours per semester, which allows for completion of the degree in nine consecutive semesters.

Degree Requirements

- 54 credit hours of approved graduate course work including 36 credits of core courses and 18 credits in a concentration and/or electives.

A minimum of 30 credits taken in residence from the Kogod School of Business is required for the M.B.A. M.B.A. students may take a maximum of 6 credit hours in 500-level courses or graduate courses which meet concurrently with undergraduate courses. M.B.A. students may take a maximum of 6 credits with a pass/fail grade. For courses taken as pass/fail, a pass grade is equivalent to a B or higher; a fail grade is equivalent to a B- or lower. MBA core credit-bearing courses may not be taken as a pass/fail.

- Intensive writing requirement:

To fulfill the graduate intensive writing requirement, the following courses must be taken in residence at Kogod and earned with a grade of B or higher: KSB-613 and one of the following: IBUS-618, MGMT-609, and MKTG-612.

Electives (9 credit hours)

- 9 credit hours in approved course work.
A maximum of 3 credit hours may be taken in an internship for elective credit.

L.L.M. Degree Requirements

- 16 credit hours including two research papers; LAW-580 Introduction to American Legal Institutions (for students with civil law backgrounds); English for Lawyers (for students

who need extra practice with English); no internship credit may be applied toward the L.L.M.

M. S. in Accounting

The M.S. in Accounting (M.S.A.) program provides advanced study for students with undergraduate accounting degrees who seek a fifth year of professional education to satisfy 150-hour CPA licensure requirements. The program is also sufficiently flexible to prepare both students with non-accounting undergraduate business degrees and those with non-business undergraduate degrees for accounting careers in a variety of organizational settings. The program may be completed on a full- or part-time basis.

Admission to the Program

Applicants must meet university requirements for graduate study, must have earned a satisfactory score on the Graduate Management Admission Test (GMAT) and a satisfactory grade point average for the last 60 hours of academic work from a Council on Postsecondary Accreditation regionally accredited institution. The School will waive the GMAT requirement for applicants who have completed an accounting specialization in the Kogod BSBA program with a 3.5 GPA in their accounting course work. Applicants whose first language is not English are also required to take the Test of English as a Foreign Language (TOEFL) and demonstrate English language proficiency.

Degree Requirements

- 30-37.5 graduate credit hours depending on the student's prior education, including a minimum 15 credit hours in graduate accounting courses and 15 credit hours in graduate business, accounting, or other elective courses

Students entering the program with an undergraduate accounting degree ordinarily satisfy the degree requirements by completing a minimum of 15 credit hours in graduate accounting course work and 15 credit hours in graduate elective courses that can be used to develop complementary expertise in a related field, or specialized expertise in taxation or in financial accounting and assurance.

Students with non-accounting undergraduate degrees may be required to complete both additional accounting courses and foundation courses in economics, finance, and applied statistics, up to a maximum of 37.5 credit hours.

Academic advising and individualized program planning are critical steps in ensuring that students get the most from the M.S.A. program. On admission to the program, students will consult with the program director to design an approved program of study that meets both program goals and individual academic and professional objectives.

Course Requirements

Foundation Courses

Across bachelor's and M.S.A. degrees combined, student must complete the following. Students with undergraduate degrees from AACSB-accredited business programs are presumed to have satisfied this requirement. All or part of this requirement may be waived for other students who have com-

pleted comparable courses in accounting, economics, finance, and/or statistics.

- ACCT-607 Financial Accounting (3)
- ACCT-609 Management Accounting (1.5)

The School of Communication (SOC) educates students to master a rapidly changing media and communication environment; one that reflects an increasingly complex global, interactive and diverse society. Through teaching, writing, scholarship, and partnerships, SOC and its faculty empower graduates with the knowledge, skills, and insights to become responsible, ethical professionals in all areas of the communication field and to make a difference in the economy, politics, culture, and society. With a strategic blend of professional expertise and intellectual exploration, and a deep connection with the world's communication center of Washington, D.C., the school creates a community of knowledge, practice, and impact

that keeps students, alumni, and faculty at the leading edge of a society increasingly defined by media and communication. The school's hands on, practical programs tap the experts at work in Washington, D.C., including TV, radio, print, and online journalists; media strategists in the nonprofit, government, and political arenas; and documentary, education, and social advocacy media producers. Internships, work opportunities, and class assignments all contribute to experience-based learning. The school's state-of-the-art technology supports student research, writing, photography, video and film production, digital video editing, motion graphics production, Web authoring, and graphic design. The school's four divisions - Communication Studies, Film and Media Arts, Journalism, and Public Communication - each offer undergraduate and graduate programs. Journalism and public communication have been accredited since 1976 by the Accrediting Council on Education in Journalism and Mass Communication (ACEJMC). The film and media arts program is one of only 16 U.S. schools given membership in CILECT, the International Association of Film and Television Schools.

The **Communication Studies** division offers interdisciplinary degree programs at the bachelor's, master's, and doctoral levels, and are intended for students seeking a broad-based, intellectually challenging course of study that will allow them to expand and deepen their understanding of the political, social, cultural, and historical dimensions of the communications disciplines. The undergraduate program in Communication Studies is a liberal arts-oriented major that draws on the strengths and attributes of the School's journalism, public communication, and film and media arts curricula. The International Media master's program is a partnership between the School of Communication and the School of International Service, providing a combination of communication theory, media production skills, and academic research techniques to equip students for professional leadership positions in international and global communication. The Ph.D. program in Communication is an accelerated, interdisciplinary curriculum designed around the intersections of media, technology, and democracy.

Film and Media Arts includes the undergraduate program and graduate film and electronic media programs. Students may study documentary or narrative filmmaking, digital media, or photography. A weekend graduate program offers an M.A. in Producing for Film and Video. In its commitment to providing

the best preparation for students in film and emerging media, the Film and Media Arts Division requires all M.A. and M.F.A. graduate students to enter the program with one of three Apple MacBook Pro laptops and Final Cut Pro. These systems are recommended for undergraduates as well. For more information visit www.american.edu/soc/resources/fma.

Journalism offers undergraduate and graduate degree programs in print and broadcast journalism. The master's degree in journalism and public affairs includes specializations in public policy, economic, and international journalism. Weekend master's programs are offered in interactive journalism and news media studies.

Public Communication has undergraduate and graduate programs that teach communication strategies involved in creating messages, engaging audiences, working with media, and advocating for causes in a changing world of new media and cutting edge technology. The programs focus on strategic communication in politics, entertainment, health, science, business, social advocacy, and international relations.

The school also offers an undergraduate interdisciplinary program jointly with the College of Arts and Sciences, the B.A. in Foreign Language and Communication Media.

An undergraduate minor in communication, designed for users and consumers of mass media rather than practitioners, also is available.

Two interdisciplinary graduate degree programs are offered, the M.A. in International Media in collaboration with the School of International Service, and the M.A. in Political Communication with the School of Public Affairs.

For more information go to: <http://www.american.edu/soc/>.

Faculty

The SOC full-time faculty blends traditional academic scholarship with hands-on professional experience. Faculty regularly develop ground-breaking courses, publish books and articles, speak at national and international conferences and forums, produce award-winning films, work for social justice, and help shape ethical practices in their individual fields. Full-time faculty have won Emmys and Academy Awards, been nominated for Pulitzer Prizes, and worked on presidential campaigns. SOC also appoints outstanding adjunct faculty, who bring depth and insight into the classroom. The adjunct faculty are working professionals in all three fields of study, including reporters who cover the White House, documentary filmmakers, and political strategists.

Centers and Institutes

The Center for Social Media (CSM) analyzes and promotes cutting-edge strategies for media that matters, and generates codes of best practice that facilitate participatory public media. In addition to film series, workshops, and research, the center has resources on social documentaries and public media practices. Reports, studies, white papers, film profiles, filmmaker interviews, and case studies of successful outreach and audience engagement strategies and new media practices are available at www.centerforsocialmedia.org/

The Center for Environmental Filmmaking (CEF) was founded on the conviction that films and new media are essential educational and policy tools in the struggle to protect the environment. The center's mission is to train students to produce films and new media that focus attention on the need to conserve the environment in a way that is effective as well as ethically sound, educationally powerful, and entertaining. The world faces unprecedented environmental challenges, from climate change to species extinction, but powerful images and films can capture our attention and alert millions to the value of protecting the natural world. With the right combination of creative thinking, enthusiasm, practical knowledge, altruism, and a commitment to the natural world, today's students will become tomorrow's environmental stewards. For more information, go to www.american.edu/soc/cef.

The Investigative Reporting Workshop is the only university research center in the world that specifically examines new models for enabling and disseminating investigative reporting. The Workshop undertakes significant, original, national and international investigative reporting projects for multimedia publication or broadcast in collaboration with others, and serves as a laboratory "incubator" to develop new economic models and techniques for conducting and delivering investigative journalism. For more information, go to <http://investigativereportingworkshop.org/>

J-Lab: The Institute for Interactive Journalism sponsors, rewards and trains traditional and emerging journalists to use digital technologies to reinvent journalism and develop new ways for people to participate in public life with projects on journalism innovations, entrepreneurship, citizen media, interactive storytelling, research, publications and e-learning web sites. J-Lab's programs, funded with a grant from the Knight Foundation, include J-Learning and the Knight Citizen News Network, Web-based, comprehensive community journalism instruction programs; the McCormick New Media Women Entrepreneurs Project, which provides seed funding and support for original news ideas proposed by women; and New Voices, which provides start-up funding and instruction for pioneering community news ventures in the United States. J-Lab, www.j-lab.org/, also administers the Knight-Batten Awards for Innovations in Journalism, one of the profession's most prestigious honors.

The AU Foreign Correspondence Network (FCN) provides students tools and guidance needed to work overseas, through coursework and AU alumni living abroad. The FCN is a platform for discussion about the coverage of international issues affecting the United States, and is maintained under the guidance of a former foreign correspondent for UPI and Newsweek. For more information, go to www.american.edu/soc/partnerships/foreign-correspondence-network.cfm.

The Backpack Journalism Project is mapping the landscape of emerging techniques and technologies for visual storytellers and educating the next generation of video journalists in the spirit and tradition of photojournalism and documentary filmmaking. The project promotes the highest standards and

showcases best practices in the effort to train, equip, and inspire backpack videomakers. For more information, go to www.american.edu/soc/backpack/

The Summer Film and Video Institute provides hands-on experience for experienced film and digital media professionals as well as beginners through both credit and non-credit courses. The courses, taught by AU faculty and area professionals, and are offered in the evenings and on weekends, beginning in mid-May. The Summer in LA Program includes classes with entertainment industry professionals as well as internships at Hollywood studios and production houses. For more information, go to

www.american.edu/soc/film/film-digital-media-institute.cfm

Student Opportunities

Study Abroad AU Abroad offers the opportunity for students to study abroad and gain full American University course credit. All students are encouraged to learn and work in another culture. AU Abroad enclave programs, many of which include internship opportunities, are offered in Beijing, Berlin, Brussels, Havana, London, Madrid, Nairobi, Paris, Prague, Rabat, and Santiago. In addition, through the AU Abroad Partner program students may spend a semester or year at prestigious universities across the globe, including Argentina, Australia, Brazil, Canada, Egypt, Japan, Italy, Korea, Mexico, Netherlands, New Zealand, Nigeria, Sharjah, U.A.E., South Africa, Turkey, and the United Kingdom. International study tours led by faculty members are offered during semester breaks and summer sessions. For more information on AU Abroad programs, call 202-885-1320 or 866-313-0757, e-mail auabroad@american.edu or go to: www.auabroad.american.edu/

Internships Students are offered myriad opportunities for internships that offer students professional, real-world experience to enhance their resumes and help prepare them for post-graduation careers.

Dean's Internships are designed for a select group of students who are paired with SOC's media partners, including The Associated Press, *The Washington Post*, Smithsonian's National Museum of History, Gannett, *tbd.com*, and *USA Today*.

Mentoring Program The Alumni-Student Mentoring program strategically matches prominent alumni with top SOC juniors, seniors, and graduate students through a competitive application process. Alumni mentors have included prominent filmmakers, journalists, and public communication specialists.

Visions Festival This annual awards event features the best student work both at the undergraduate and graduate level.

American Observer is an online magazine produced by graduate journalism students that publishes graduate and undergraduate student news stories, photography, columns, and audio and video. Read *American Observer* at: www.americanobserver.net/

Professional Partnerships

American Forum The School of Communication collaborates with WAMU, American University's public radio station, to produce The American Forum, a series of one-hour panels that bring together AU students with politicians, lobbyists, journalists and communication strategists to talk about media and public affairs.

Washington Post Semester Consortium Students are chosen in a competitive process each spring to spend a semester learning about the newspaper industry from the inside out as part of the Washington Post Semester Consortium, a weekly one-credit hour class at the paper's downtown office. SOC also works closely with *The Washington Post* to bring editors and reporters to campus as part of a regular speakers' series.

NBC The School of Communication has expanded its partnership with NBC and its Washington, D.C., affiliate, WRC, to involve SOC students in new content collaboration and distribution, brand marketing recommendations, onsite training, and internships. An agreement of cooperation between the School and NBC highlights their shared commitment to serious reporting, to training the next generation of journalists, and to experimenting with new approaches to delivering information and engaging and empowering audiences. Students may apply to take part in the NBC Consortium, a semester-long seminar held at NBC that gives students insights into the operation of a major television network.

Reel Journalism SOC produces this event with its media partner the Newseum and features films that explore the field of journalism and the media, demystify the news business, and provide a platform to discuss the important role of journalism in a democratic society.

Named Fellowships SOC graduate students may apply for a number of named fellowships sponsored by The Center for Public Integrity, *The Washington Post*, the Bureau of National Affairs, and C. Fox Communication.

Undergraduate Programs

Note: Any student who has earned 60 credit hours and has not achieved a cumulative grade point average of 2.50 will not be allowed to take courses in the school.

A strong liberal arts background is emphasized by the school. To ensure that communication majors attain this background, a significant portion of undergraduate course work is taken outside the field of communication.

All students intending to major in communication begin to take core courses during their freshman and sophomore years. During the freshman year COMM-100 Understanding Media is required for all students and COMM-200 Writing for Mass Communication is usually required during the sophomore year. Film and media arts majors also take COMM-105 during the freshman year, public communication majors take COMM-209 Communication and Society during the sophomore year, and journalism majors take COMM-320 Reporting following Writing for Mass Communication.

Students continue with one of the programs (print or broadcast journalism, public communication, film and media arts, or communication studies) and take a series of carefully chosen skills courses, and communication media studies courses which examine the history, current issues, and future of communication and the media. The ability to write correctly and clearly is stressed in all programs.

B.A. in Communication: Communication Studies

Admission to the Program

Formal admission to the major requires a cumulative grade point average of 2.50 (on a 4.00 scale). Students should declare their major by the end of the sophomore year and no earlier than the end of the freshman year.

Students who are unable to achieve a cumulative grade point average of 2.50 and declare a major in communication are not allowed to take courses in the school after they have completed 60 hours of undergraduate credit.

University Requirements

- A total of 120 credit hours
- 6 credit hours of college writing
- 3 credit hours of college mathematics or the equivalent by examination

General Education Requirements

- A total of ten courses, consisting of one foundation course and one second-level course in an approved sequence from each of the five curricular areas
- No more than two courses may be taken in the same discipline

University Honors Program

To graduate with University Honors, students must be admitted to the University Honors Program, maintain a minimum cumulative GPA of 3.50, and receive grades of B or better in all University Honors course work. There are three levels of University Honors course requirements: Level I (100-200-level); Level II (300-level and above); and Level III (Honors Capstone Project). The department Honors coordinator advises students in the University Honors Program regarding requirements for graduating with University Honors in the major.

Combined Bachelor's and Master's Degrees

American University offers students the opportunity to earn both undergraduate and graduate degrees through its accelerated bachelor's/master's programs. Undergraduate students may complete up to 3 credits for every 9 credits required for the graduate degree that may be applied to the requirements for both degree programs. The department that oversees the graduate program the student enters will determine if the courses the

undergraduate student completes will satisfy master's degree requirements.

Bachelor's/master's students must complete at least 18 in-residence credit hours at the graduate level after the bachelor's degree is earned and maintain continuous, sequential enrollment in the two programs. Students must finish the master's degree requirements within three years from the date of first enrollment in the master's program.

University Honors Program

To graduate with University Honors, students must be admitted to the University Honors Program, maintain a minimum

cumulative GPA of 3.50, and receive grades of B or better in all University Honors course work. There are three levels of University Honors course requirements: Level I (100-200-level); Level II (300-level and above); and Level III (Honors Capstone Project). The department Honors coordinator advises students in the University Honors Program regarding requirements for graduating with University Honors in the major.

Combined Bachelor's and Master's Degrees

American University offers students the opportunity to earn both undergraduate and graduate degrees through its accelerated bachelor's/master's programs. Undergraduate students may complete up to 3 credits for every 9 credits required for the graduate degree that may be applied to the requirements for both degree programs. The department that oversees the graduate program the student enters will determine if the courses the undergraduate student completes will satisfy master's degree requirements.

Bachelor's/master's students must complete at least 18 in-residence credit hours at the graduate level after the bachelor's degree is earned and maintain continuous, sequential enrollment in the two programs. Students must finish the master's degree requirements within three years from the date of first enrollment in the master's program.

Graduate Programs

Designed for students with diverse professional and educational backgrounds, the graduate programs fully utilize the resources of Washington, D.C. for both field work and classroom study. The many professional news organizations, public interest organizations, trade associations, government agencies, public relations firms, and media production organizations in the Washington area provide excellent opportunities for internships and cooperative education field experience. Special seminars and events, including the school's American Forum and Media Center presentations, enable students to meet major public figures and film and media artists.

M.A. in Communication: Journalism and Public Affairs

Admission to the Program

Applicants must meet the minimum university requirements for graduate study. Admission to the program requires a bachelor's degree from an accredited college or university with at least a 3.00 (on a 4.00 scale) grade point average in last 60 hours of undergraduate course work. International students whose first language is not English should take the TOEFL examination to demonstrate proficiency in written as well as spoken English. All applicants must earn a satisfactory score on the Graduate Record Examination (GRE) General (verbal, quantitative, and analytical).

Previous professional or campus experience in communication is useful but not required. However, all applicants are required to show evidence of professional commitment and career direction related to the specialization and track they choose. Official transcripts, two letters of recommendation, and a 1,000-word essay on the applicant's commitment to pursuing graduate study in the program are submitted with the application. If available, samples of published professional or college news writing, scripts, or tapes should also be submitted.

A limited number of graduate fellowships and assistantships are awarded on the basis of merit as well as school and program needs.

Admission to the full-time degree program is for the fall semester. Students are generally expected to complete the program in ten months. The program is also available in a weekend format which takes twenty months to complete (see below).

Qualified undergraduate students may apply to a combined bachelor's/M.A. program and use up to 6 credit hours of 500-level courses to satisfy the requirements of both degrees.

Degree Requirements

- 30–33 credit hours of approved graduate work, as advised
- Most students are required to take COMM-624 Principles and Practice of Journalism and receive a grade of B or better. Students who have earned a B or better in a news-media law course within five years of enrollment may petition to be exempted from COMM-601 Legal Aspects of

Communication. International students are normally exempted from this course.

- Continuous full-time enrollment
- A grade point average of 3.00 maintained during all work toward the degree
- Comprehensive examination in journalism

Weekend Graduate Program in Communication: Journalism and Public Affairs

The weekend M.A. program in journalism and public affairs is for professionals whose schedules make Saturday classes a preferable alternative to full-time study. Admission requirements are the same as for the full-time program and for the fall semester only. Students are expected to complete the program within a twenty-month period.

M.A. in Communication: Public Communication

Admission to the Program

Applicants must meet the minimum university requirements for graduate study. Admission to the program requires a bachelor's degree from an accredited college or university with at least a 3.00 (on a 4.00 scale) grade point average in last 60 hours of undergraduate course work. International students whose first language is not English should take the TOEFL examination to demonstrate proficiency in written as well as spoken English. All applicants must earn a satisfactory score on the Graduate Record Examination (GRE) General (verbal, quantitative, and analytical).

Previous academic or professional work in public communication is not required, but all applicants must demonstrate a serious commitment to a career in this field. The ability to speak and write English well is essential. Official transcripts, two letters of recommendation, and a 1,000-word essay on the applicant's commitment to pursuing graduate study in the program are submitted with the application. Interviews are not required, but may be recommended by the school.

Admission is open to both full-time and part-time students for the fall semester. Full-time students are generally expected to complete the program in ten months. Part-time students are expected to take a minimum of two courses each semester and complete their program in two years. The program is also available in a weekend format which takes twenty months to complete (see below).

Qualified undergraduate students may apply to a combined bachelor's/M.A. program and use up to 6 credit hours of 500-level courses to satisfy the requirements of both degrees.

Degree Requirements

- 30 credit hours of approved graduate work
- Comprehensive examination in public communication
- A grade of B or better in two of the following courses to fulfill the university's research requirement:
 - COMM-640 Principles of Strategic Communication
 - COMM-735 Communication Theory
 - COMM-738 Research for Strategic Communication
- A grade point average of 3.00 maintained during all work toward the degree

Course Requirements

- COMM-640 Principles of Strategic Communication (3)
- COMM-642 Public Communication Management (3)
or
COMM-646 Public Communication Practicum (3)
- COMM-644 Public Communication Writing (3)
- COMM-735 Communication Theory (3)
- COMM-738 Research for Strategic Communication (3)
- COMM-744 Public Communication Seminar (3)
- 12 credit hours in elective courses:

Students may take an internship as one of the elective courses. Other elective courses may be taken in communication or in other fields such as sociology, business, performing arts, education, government, justice, international service, psychology, anthropology, art history, literature, economics, or statistics.

Weekend Graduate Program in Communication: Public Communication

With its emphasis on public relations, this program, conducted on Saturdays, is for experienced professionals who wish to enhance their skills in conducting and managing strategic communication campaigns, yet their schedules won't allow a full-time or even a part-time graduate program during the week. Admission requirements are the same as for the full-time program with the additional prerequisite of at least three years of work experience, and the program starts in the fall semester only. Students are expected to complete the program within a twenty-month period.

Combined Bachelor's Degree and M.A. in Communication: Public Communication

American University offers students the opportunity to earn both undergraduate and graduate degrees through its accelerated bachelor's/master's programs. Undergraduate students may complete up to 3 credits for every 9 credits required for the graduate degree that may be applied to the requirements for both degree programs. The department that oversees the graduate program the student enters will determine if the courses the undergraduate student completes will satisfy master's degree requirements. Bachelor's/master's students must complete at least 18 in-residence credit hours at the graduate level after the bachelor's degree is earned and maintain continuous, sequential enrollment in the two programs.

This program enables highly qualified students to earn a B.A. or B.S. in any discipline and an M.A. in Communication: Public Communication.

Requirements

- Admission to the combined program requires second semester junior or senior standing, a cumulative grade point average of 3.5, a formal application, two written faculty recommendations, a statement of purpose, and a positive review by the faculty admissions committee. The Graduate Record Examination (GRE) is not required unless applying for School of Communication Merit Awards.
- All requirements for a bachelor's degree in the student's major at American University
Undergraduate students may apply up to 9 credit hours of approved graduate-level course work to satisfy the requirements for both degrees.
- All requirements for the M.A. in Communication: Public Communication, including a minimum of 18 credit hours completed in residence in graduate status after the undergraduate degree has been awarded. Students must finish the master's degree requirements within three years from the date of first enrollment in the master's program.

M.A. in Communication: Producing for Film and Video

Admission to the Program

This weekend graduate program is designed for working adults who want to pursue careers in producing for film, video, television, and multimedia. Student cohort groups follow a planned curriculum, taking one course every seven weeks (two courses each semester) on Saturdays for a total of 10 courses. The 30-credit hour program is completed in 21 months. Previous academic or professional experience in film or video is not required, but all applicants must demonstrate a serious commitment to a career in this field.

Applicants must meet the minimum university requirements for graduate study. Admission to the program requires a bachelor's degree from an accredited college or university with at least a 3.00 (on a 4.00 scale) grade point average in last 60 hours of undergraduate course work. International students whose first language is not English should take the TOEFL examination to demonstrate proficiency in written as well as spoken English.

Official transcripts, two letters of recommendation, and a 1,000-word essay on the applicant's commitment to pursuing graduate study in the program are submitted with the application. The application deadline is April 1.

Degree Requirements

- 30 credit hours of approved graduate work
- Continuous enrollment
- A grade point average of 3.00 maintained during all work toward the degree
- Comprehensive examination in producing film and video

Course Requirements

- COMM-513 Producing Film and Video (3)
- COMM-550 Financing and Marketing Independent Productions (3)
- COMM-570 Film and Digital Media Institute (1-6) (taken for a total of 6 credit hours)
- COMM-571 Production Planning and Management (3)
- COMM-574 The Business of Television (3)
- COMM-601 Legal Aspects of Communication (3)
- COMM-671 The Media Enterprise I: Establishing the Enterprise (3) (with a grade of B or better)
- COMM-682 Writing for Visual Media (3)
- COMM-702 Master's Portfolio Seminar (3) (with a grade of B or better)

M.A. in Film and Video

Admission to the Program

Applicants must meet the minimum university requirements for graduate study. Admission to the program requires a bachelor's degree from an accredited college or university with at least a 3.00 (on a 4.00 scale) grade point average in last 60 hours of undergraduate course work. International students whose first lan-

guage is not English should take the TOEFL examination to demonstrate proficiency in written as well as spoken English.

Applicants must earn a satisfactory score on the Graduate Record Examination (GRE) General (verbal, quantitative, and analytical). Previous exposure to film study, film and video production, or script writing is not required, although all applicants are required to show evidence of professional commitment and career direction related to their program of study.

Official transcripts, two letters of recommendation, and a 1,000-word essay on the applicant's commitment to pursuing graduate study in the program are submitted with the application.

Admission is not limited to full-time students, however students must be available to take most of their course work during the day. Students will normally be expected to complete the 33-credit hour program within 24 months.

Degree Requirements

- 36 credit hours of approved graduate work
Non-thesis option:
COMM-701 Graduate Seminar in Film Theory and Practice with a grade of B or better
COMM-702 Master's Portfolio Seminar with a grade of B or better
- A grade point average of 3.00 maintained during all work toward the degree

- COMM-702 Master's Portfolio Seminar (3) with a grade of B or better
- 18 credit hours in courses selected from the following areas:
Film production or video production; film theory, history, and criticism; multimedia; and script writing. Students may emphasize one of these areas in the design of their program, but the program must include courses from all of these areas. Courses in related areas such as performing arts and photography may also be included.

M.F.A. in Film and Electronic Media

Admission to the Program

Applicants must meet the minimum university requirements for graduate study. Admission to the program requires a bachelor's degree from an accredited college or university with at least a 3.00 (on a 4.00 scale) grade point average in last 60 hours of undergraduate course work. International students whose first language is not English should take the TOEFL examination to demonstrate proficiency in written as well as spoken

English. The Graduate Record General Examination (GRE) is required, but may be waived by the division director.

An undergraduate degree in one of the visual media is desirable, but applications from candidates who have majored in other fields will also be considered. Applicants with prior experience in the visual media should submit a portfolio illustrating relevant professional experience. Students without prior experience in film, video, photography, or digital media production or who do not demonstrate through their portfolio a level of minimum proficiency in media production will need to reconcile their deficiencies with additional course work.

Official transcripts, two letters of recommendation, and a 1,000-word essay on the applicant's commitment to pursuing graduate study in the program are submitted with the application.

Degree Requirements

- 51 credit hours of approved graduate work
Students without a minimum level of proficiency in media production are required to take COMM-630 Principles of Photography prior to or at the beginning of their program. This course does not count toward the 51 credit hours required for the degree.
- Production of a portfolio of original creative work in the areas of scriptwriting, film, or electronic media production under the supervision of a faculty committee and in conjunction with COMM-702 Master's Portfolio Seminar, with a grade of B or better

M.A. in International Media

The Master of Arts in International Media offers students a unique opportunity to learn international communication theory and research while at the same time developing professional production skills. This interdisciplinary M.A. program allows students to take concurrent courses in the School of Communication (SOC) and School of International Service (SIS) that emphasize strategic communication, research, international communication, and global media. In addition, students take hands-on courses designed to hone writing skills over a broad range of media, and production classes that introduce them to filmmaking, newswriting, digital imaging, web design, photography, and public communication writing. The media studies component of the program gives students a strong background in research skills, broad knowledge of global economic and political issues, and a deep understanding of how the media works, especially in an international environment. The production portion of the program provides students with the knowledge, skills, and ethical groundings to be professionally competent and literate managers/producers/commissioners.

Admission to the Program

Applicants must hold an accredited bachelor's degree with a minimum cumulative grade point average of 3.30 or higher on a 4.00 scale. Some background knowledge of communication studies, or media/journalism professional experience, or international studies and international work experience is recommended.

All applicants are required to submit results of the Graduate Record Examination (GRE). In addition, international applicants whose first language is not English are required to submit results of the Test of English as a Foreign Language (TOEFL). A strong TOEFL score is necessary to ensure that students can fully benefit from the media production courses and analytical courses. All applicants must also submit two letters of reference evaluating undergraduate academic performance and suitability for graduate study in international affairs and communication.

Students apply to either SOC or SIS. Applications will be reviewed jointly by SOC and SIS, with both schools agreeing on student admission.

Degree Requirements

- 45 credit hours of approved graduate work with a cumulative grade point average of 3.00, including 12 credit hours of core courses, 6 credit hours of professional courses, 6 credit hours of methods courses, and 6 credit hours of research/capstone courses. Students also take 15 credit hours of electives. Students choose a concentration in either SIS or SOC and complete a total of 24 credits hours in that concentration, including their research/capstone requirement. Students may

not take more than a total of 24 credit hours in either SIS or SOC to fulfill degree requirements.

Requests for the transfer of a maximum of six graduate credits will be considered only on an exceptional basis.

- One oral comprehensive examination in the School of International Service. To be eligible to take a comprehensive examination, students must have maintained at least a 3.00 grade point average in all graduate course work.
- Demonstration of research and writing skills through completion of the research/capstone requirement courses with grades of B or better.
- Proficiency in a modern foreign language.
Research competence in English and another language relevant to the student's career objectives must be certified.

M.A. in Political Communication

The M.A. in Political Communication offers students a unique opportunity to prepare for professional careers in government, politics, public affairs, public policy, and communication through the study of political and communication theory, research, and practice. This interdisciplinary M.A. program allows students to take courses in both the School of Public Af-

fairs (SPA) and the School of Communication (SOC) that emphasize thorough grounding in political science, strategic communication, research, and media. In addition, students take hands-on courses designed to teach applied politics and communication skills over a broad range of media and production classes that introduce them to news writing, persuasive writing, public opinion research, online advocacy, and campaign management. The program gives students a strong background in research skills, a broad knowledge of political issues, and a deep understanding of how the political process and media work. Students will gain the knowledge, skills, and ethical grounding to be successful as politicians, policy-makers, political communication professionals, and campaign executives.

Admission to the Program

Applicants must hold an accredited bachelor's degree with a cumulative grade point average of at least 3.0 on a 4.0 scale. Applicants are required to submit results of the Graduate Record Examination (GRE), unless they have eight or more years of relevant work experience, in which case they may apply for a GRE-waiver by contacting the school through which they are applying. GRE-waiver applicants must provide the details of their relevant work experience and the dates they were so employed. In addition, international students whose first language is not English are required to submit results of the Test of English as a Second Language (TOEFL). A strong TOEFL score is necessary to ensure that students may benefit fully from the course work. The preferred minimum TOEFL score is 600 on the paper-based test, 100 on the Internet-based test, and 250 on the computer-based test, or a 7 on the IELTS. All applicants must submit two letters of reference. Applicants who received their bachelor's degrees five or fewer years before the date of application should submit at least one letter that evaluates their undergraduate academic performance and suitability for graduate study in political science and communication.

Students apply to either SPA or SOC. Applications will be reviewed jointly by SPA and SOC, with both schools agreeing on student admission.

Degree Requirements

- 36 credit hours of approved graduate work with a cumulative grade point average of 3.00 and a grade of B or better in each of the required courses.
 Requests for the transfer of a maximum of 6 graduate credit hours will be considered in exceptional cases.
- Students take a comprehensive examination jointly administered by SOC and SPA at the conclusion of their required core courses.

Combined B.A. and M.A. in Political Communication

American University offers students the opportunity to earn both undergraduate and graduate degrees through its accelerated bachelor's/master's programs. Undergraduate students may complete up to 3 credits for every 9 credits required for the graduate degree that may be applied to the requirements for both degree programs. The department that oversees the graduate program the student enters will determine if the courses the undergraduate student completes will satisfy master's degree requirements. Bachelor's master's students must complete at least 18 in-residence credit hours at the graduate level after the bachelor's degree is earned and maintain continuous, sequential enrollment in the two programs.

This program enables qualified students to earn, in a continuous plan of study, both a bachelor's degree and the M.A. in Political Communication.

Requirements

- Admission to the combined B.A./M.A. program requires junior standing, a minimum cumulative grade point average of 3.5, a completed application form, a written faculty recommendation, an essay on the student's interests and abilities in political science and communication, and an interview with the Department of Government graduate advisor if the student is entering through the School of Public Affairs, or the advisor for the Division of Public Communication if the student is entering through the School

of Communication. Students must apply for admission to the graduate program no later than the last undergraduate semester. The Graduate Record Examination (GRE) is required for admission to the M.A. program.

- All requirements for a bachelor's degree in the student's major at American University.
Undergraduate students may apply up to 9 credit hours of approved graduate-level course work to satisfy the requirements for both degrees.
- All requirements for the M.A. in Political Communication, including a minimum of 18 credit hours completed in residence in graduate status after the undergraduate degree has been awarded. Students must finish the master's degree requirements within three years from the date of first enrollment in the master's program.

Graduate Certificate in Digital Media

The certificate is designed for professionals with undergraduate degrees who need to produce digital media. The program enables students to retool with a focus on how to use social networking tools in the digital media landscape.

Admission to the Program

Students must have a degree from an accredited college or university with at least a 3.0 grade point average (on a 4.0 scale) in the last 60 hours of undergraduate work. The GPA requirement may be waived for applicants with more than 5 years of full-time professional experience. Applicants must pass an on-line computer literacy exam. An undergraduate degree in communication is not required. International students whose first language is not English must pass the TOEFL examination. American University does not provide immigration documents for entry to the United States for international students in this program.

Certificate Requirements

- 15 credit hours of approved course work with at least 6 credit hours at the 600-level or above, with grades of B or better
Grades of B- or lower in certificate program courses are not accepted toward the fulfillment of certificate requirements, although these grades will be included in the calculation of the GPA. Students must have at least a 3.0 GPA in certificate courses in order to be awarded a certificate.
All course work is conducted via distance learning. Students are invited to attend an optional on-campus session at the end of the program to show their work and receive professional critiques.

Ph.D. in Communication

The Ph.D. in Communication draws from the offerings of the School of Communication (SOC) and from the diverse intellectual resources across American University and Washington, D.C. Focused broadly on the intersections among media, technology, and democracy, the program combines humanistic and social scientific approaches to the study of communication to analyze the complex interactions among various players, including news media, entertainment media, digital communications, nonprofit organizations, government, and business. In combination with research and scholarship, students have the opportunity to create, promote, and evaluate media projects and communication initiatives. The accelerated design of the program offers an 11-month mentoring and learning environment, enabling students to complete their degrees in three years.

Admission to the Program

Doctoral program applicants must have a master's degree in Communication or a related field from an accredited college or university with a cumulative GPA of 3.3 or higher; a combined score of at least 1200 in the GRE General Aptitude test; two letters of recommendation; a written statement of purpose; and an interview with the Ph.D. program director and admissions committee. Non-native English speaking applicants must submit results of the Test of English as a Foreign Language (TOEFL). The minimum TOEFL score is 100 on the Internet version, 250 on the computer version, or 600 on the paper version.

Degree Requirements

- 72 credit hours of approved graduate course work
Students may request to transfer in up to 30 credit hours from a master's degree program towards their Ph.D. degree requirements. A minimum grade point average of 3.3 in all course work is required to remain in good standing and to earn the degree.
- *Comprehensive Examination Advancement to Candidacy, and Dissertation*
No later than the end of the fall semester of their second year, students consult with their faculty advisor to select faculty members to serve on their comprehensive exam and dissertation committee. Committees are comprised of the student's faculty advisor and three additional faculty members. At least one faculty member should be from the field of communication and at least one should be from an

outside discipline. Committee members are subject to approval by the student's faculty advisor and the program director.

In consultation with the faculty advisor and the student, each committee member assigns a written comprehensive exam question that tests core knowledge and competency in an area. After completion of the written exams, the student meets with the committee to orally defend the comprehensive exams. The committee must unanimously agree that the student has passed the comprehensive exam process.

After passing the comprehensive examinations, students complete a formal dissertation proposal, which must be approved by all the members of the committee and the program director.

Following approval of the dissertation proposal, students advance to candidacy and proceed with the research and writing process. After completion of the dissertation, students submit it to the committee for oral defense and final approval. Committee members must unanimously agree that the dissertation meets program and university standards for rigor and quality.

The School of International Service (SIS) offers professional training in international affairs. The programs are based on a multidisciplinary curriculum oriented towards the liberal arts that encourages students to explore international relations through the contributions of political scientists, sociologists, anthropologists, economists, attorneys, historians, and specialists in communication.

The school offers exceptional opportunities that evolve from the university's location in a premier world capital and from the rich human and documentary resources which enhance the school's educational programs. At all times, the links between the school and its Washington, D.C. environment nourish the academic and professional growth of its students. Whatever their career objectives, students participate in programs that are multidisciplinary, problem and policy-oriented, and uniquely adapted to those opportunities inherent in the metropolitan Washington, D.C., location and in the world.

Faculty

The diversity of the full-time faculty members of the School of International Service in terms of academic disciplines and professional experience, both in the United States and abroad, exemplifies the multidisciplinary and cross-cultural aspects of international relations. Bringing cutting-edge research into their classrooms, the faculty use a variety of interactive approaches such as simulations, case studies, and media in their teaching. The school regularly appoints adjunct and visiting professors and benefits from their expertise in the field of international relations. As a center of public dialogue, the school brings leading experts from around the world to address emerging issues in international affairs.

Programs

The School of International Service includes eight academic programs that oversee the major graduate degrees: Comparative and Regional Studies (CRS), Global Environmental Politics (GEP), International Communication (IC), International Development (ID), International Economic Relations (IER), International Peace and Conflict Resolution (IPCR), International Politics (IP), and U.S. Foreign Policy (USFP). Each program participates directly in the SIS undergraduate degree programs. In addition, several of these programs house multiple graduate degrees.

Dual-Degree Programs

SIS offers dual Master's degree programs with several renowned universities abroad. These programs allow graduate students to earn two Master's degrees from two universities. With degrees granted in two countries, students participating in the dual degree programs gain the knowledge, skills, and practical experience to excel in careers in both countries.

Ritsumeikan University, Japan -The Graduate School of International Relations at Ritsumeikan University has partnered with SIS to offer an innovative dual Masters degree program for students who want to take an interdisciplinary and multicultural approach to their research and education. This program, started over fifteen years ago, is the first of its kind between a Japanese and an American university. Students gain cross-cultural competency while earning two Master's degrees in international relations.

Korea University, Korea The Graduate School of International Studies (GSIS) at Korea University (KU) offers one of the leading international relations programs in Korea and Asia. Its curriculum emphasizes interdisciplinary studies as part of the school's commitment to multicultural awareness and promoting international interaction. KU, through the GSIS, has joined AU and SIS to offer a dual Master's degree program through which students can take advantage of the numerous opportunities offered at both schools, study with top experts in the field, and gain a new perspective on international relations from the Korean Peninsula.

Sookmyung Women's University, Korea With the motto, "Gentle Power to Change the World," the Graduate School of Professional Studies at Sookmyung Women's University (SMU) has joined SIS to offer a dual degree program aimed at cultivating leadership skills in international affairs. Although SMU was the first women's university in Korea, the program is open to both men and women from American University to gain leadership skills and understand the Korean perspective on international service.

SIS and the **University for Peace, Costa Rica** jointly offer a program in which students study at and receive degrees from both American University and the United Nations-affiliated University for Peace. It is the first graduate degree program in which students can learn about environmental and development policies from the perspectives of both the South and North. The

two-year program equips students with the knowledge and skills necessary for managing eco-development issues in a global context and provides them with opportunities to establish ties that bridge the North-South divide.

Special Programs

The **Global Scholars Program** is a rigorous accelerated course of study designed for outstanding entering freshmen who are passionate about creating meaningful change in the world. The program allows a cohort of School of International Service (SIS) first-year students to enroll in a three-year B.A. in International Studies program with the option of a four-year B.A./M.A. The program allows students to pursue traditional study abroad and internship opportunities during their course of study, and to participate fully in the student life of the campus. Through a carefully planned sequencing of courses, students:

- take SIS core requirements as a cohort;
- have the opportunity to spend the summer abroad between their first and second year of study;
- compete for funding for major research awards and internships;
- receive priority course registration through academic advising;
- receive support from program faculty, staff, and SIS alumni with career/internship placement; and
- organize community service and activities outside of the classroom as a cohort.

Master's International (MI) integrates graduate study at the School of International Service (SIS) and Peace Corps service in a single program. Participants pursue a degree in one of the eight graduate programs offered by SIS while serving in the Peace Corps. MI students begin their first year of graduate coursework at SIS. After receiving a Peace Corps placement, students travel to their respective sites and begin training. While in service, MI students draw on their graduate experience while focused on Peace Corps service and earn 6 credit hours towards their Master's degree requirements during their 27-month service. After completing Peace Corps service, MI students return to SIS to finish their graduate course work. For more information, go to www.american.edu/sis/admissions/PeaceCorps.cfm

Student Organizations

The school prides itself on a long tradition of student activism, and a variety of opportunities are in place for current students who wish to be involved. Student groups have helped to endow scholarships, been a catalyst for changes in the curriculum, helped the poor and disaffected in the United States and overseas, and supported various programs with recruitment, alumni relations, and student life. Volunteering with various organizations offers students a chance to make a lasting impact in the life of the school, the university, and the community, and to truly enhance their time in the school.

Special Opportunities

Numerous school-wide special programs are available for undergraduate and graduate students. These include study and internship opportunities around the world and in the international capital city of Washington, D.C., including within the federal government. These opportunities help SIS students link theory and practice actively and build skills that are critical in an increasingly global world.

Students write for SIS publications including the SIS graduate *Journal of International Service* and the *Intercultural Management Quarterly*, sponsored by the Intercultural Management Institute. Through the SIS Research Symposium or working on a publication with peers or professors, SIS students at all levels are involved in cutting-edge scholarly and policy-oriented research. A limited number of graduate and undergraduate fellowships, assistantships, and research grants are awarded on the basis of merit as well as school, program, and individual needs.

The Griffith Lecture Series, organized by the SIS Graduate Student Council, brings visiting scholars and foreign policy practitioners to the school each year. The Annual Warren Hunsberger Lecture highlights a distinguished scholar of Asian studies. Regular fora in SIS programs attract experts from around the world and engage students in formal and informal discussions.

The school also sponsors numerous co-curricular opportunities including the annual SIS student-faculty softball game, the International Dinner, and the graduate semi-formal event, the International Affair. Career-oriented workshops greatly enhance opportunities for successful learning and networking.

Educational Resources in Washington, D.C.

Only in Washington, D.C. can the subject of international affairs be studied in such a relevant context. The school's location affords opportunities for hands-on learning with academic credit through internships in government and private sector organizations with international interests.

Qualified graduates and undergraduates have the opportunity to enroll in courses at any of the institutions in the Consortium of Universities of the Washington Metropolitan Area. By taking advantage of consortium offerings, students may greatly enrich their programs, particularly in specialized interest areas and language study. Washington, D.C. offers unique research facilities including the Library of Congress, the National Archives, and various other libraries maintained by government agencies, public and private international organizations, associations, and other area universities.

Study Abroad

SIS Abroad offers the opportunity for graduate and undergraduate students to study abroad and gain full American University course credit. All students are encouraged to learn and work in another culture. Aside from dual-degree options, SIS Abroad programs include the following:

Semester Abroad Students spend one semester taking courses alongside their international counterparts and are fully integrated in student life at the host campus. Students who attend these programs find that the coursework and research done abroad complements their SIS degrees and enriches their knowledge in a regional or functional concentration.

Summer and Intersession Programs SIS organizes a number of short-term, faculty-led, experiential programs

abroad each summer. Program locations change each summer to reflect the needs and interests of the student population. The detailed curricula of the programs make them ideal for students who wish to concentrate on a specific region or topic area. Each one offers ample opportunity to interact with local and regional leaders, conduct field research, and engage in challenging internship positions.

SIS undergraduate students may also participate in AU Abroad, which offers over 100 programs around the world. For more information on AU Abroad programs, go to: www.aubroad.american.edu/.

Undergraduate Programs

B.A. in International Studies

B.A. in Language and Area Studies:
French/Europe, German/Europe,
Spanish/Latin America, or Russian/Area Studies

B.A. in International Studies

The B.A. in International Studies prepares students for international policy-focused careers in government, non-profit, and the private sectors. The liberal arts-based curriculum is designed to provide students with strong foundational skills, to expose them to a variety of approaches to international affairs, and to acquire strong foreign language skills during their first semesters of study. Students later develop regional and functional specializations within the degree program, parts of which can be pursued during a study abroad experience. Students may focus on functional areas such as global environmental politics, international communication, international development, international economics relations, international politics, global security, peace and conflict resolution, or U.S. foreign policy and national security. Students may also receive credit for practical internships in their specializations, both in the United States and abroad. The program culminates in a capstone experience, where students complete either a senior seminar or an independent research project.

Admission to the Program

Candidates for admission to the school must present evidence of excellent personal and academic qualifications. To be considered for freshman admission, an applicant should have earned at least a B average in secondary school. Cultural factors are considered in evaluating transcript and examination results. Other factors taken into account are leadership qualities, character, and personal interest. Students from other regionally-accredited collegiate institutions, and students in other programs at American University who have completed the freshman year, should maintain a cumulative grade point average of 3.00 (on a 4.00 scale) to be considered for transfer to the school.

University Requirements

- A total of 120 credit hours
- 6 credit hours of college writing
- 3 credit hours of college mathematics or the equivalent by examination

General Education Requirements

- A total of ten courses, consisting of one foundation course and one second-level course in an approved sequence from each of the five curricular areas
- No more than two courses may be taken in the same discipline

Major Requirements

- 64 credit hours plus 3–20 credit hours in foreign language course work, with grades of C or better
Up to 18 of these credit hours may also count toward fulfillment of General Education requirements.
Students may, where appropriate and with SIS approval, select special topics courses to fulfill requirements. Students may apply up to 3 credit hours toward the major from an approved internship or cooperative education field experience. Study abroad course credits may be used toward the major with the approval of SIS.

University Honors Program

To graduate with University Honors, students must be admitted to the University Honors Program, maintain a minimum cumulative GPA of 3.50, and receive grades of B or better in all University Honors course work. There are three levels of University Honors course requirements: Level I (100-200-level); Level II (300-level and above); and Level III (Honors Capstone Project). The department Honors coordinator advises students in the University Honors Program regarding requirements for graduating with University Honors in the major.

Combined B.A. in International Studies and Master's Degree

American University offers students the opportunity to earn both undergraduate and graduate degrees through its accelerated bachelor's/master's programs. Undergraduate students may complete up to 3 credits for every 9 credits required for the graduate degree that may be applied to the requirements for both degree programs. The department that oversees the graduate program the student enters will determine if the courses the

undergraduate student completes will satisfy master's degree requirements.

Bachelor's/master's students must complete at least 18 in-residence credit hours at the graduate level after the bachelor's degree is earned and maintain continuous, sequential enrollment in the two programs.

This program enables highly qualified students to earn both a B.A. in International Studies and an M.A. in International Affairs, International Communication, International Development, or International Peace and Conflict Resolution.

Course Requirements

- Admission to the combined B.A./M.A. program requires junior or senior standing, a cumulative grade point average of 3.50, a minimum 3.50 grade point average in SIS courses, a formal application, a written faculty recommendation, and an essay on the student's academic interests and abilities in international affairs. The Graduate Record Examination (GRE) is not required. Interested students should contact the SIS Graduate Admissions Office.
- All requirements for the B.A. in International Studies
Undergraduate students may apply up to 12 credit hours of approved graduate-level course work to satisfy the requirements for both degrees.
- All requirements for the M.A. in International Affairs, M.A. in International Communication, M.A. in International Development, or M.A. in International Peace and Conflict Resolution, including a minimum of 18 credit hours completed in residence in graduate status after the undergraduate degree has been awarded. Students must finish the master's degree requirements within three years from the date of first enrollment in the master's program.

B.A. in Language and Area Studies

The B.A. in Language and Area Studies is designed for students with a strong interest in a region of the world and in a language of that region. This innovative program achieves a balance between humanities and social sciences courses, combined with an advanced level of foreign language study. The program, jointly designed and administered by the College of Arts and Sciences (CAS) and the School of International Service (SIS), builds on the strengths of the CAS Department of Language and Foreign Studies (LFS) and the SIS field of Comparative and Regional Studies.

Admission to the Program

To be considered for freshman admission, an applicant should have earned at least a 3.00 average in secondary school. Students from other regionally accredited collegiate institutions, and students in other programs at American University who have completed the freshman year, should maintain a cumulative grade point average of 3.00 (on a 4.00 scale) to be considered for transfer to the program.

Majors

French/Europe, German/Europe, Russian/Area Studies, or Spanish/Latin America

University Requirements

- A total of 120 credit hours
- 6 credit hours of college writing
- 3 credit hours of college mathematics or the equivalent by examination

General Education Requirements

- A total of ten courses, consisting of one foundation course and one second-level course from an approved sequence from each of the five curricular areas
- No more than two courses may be taken in the same discipline

Major Requirements

- 51 credit hours with grades of C or better
- Proficiency in the appropriate foreign language demonstrated by achieving a B (3.00) average or better for all course work in the foreign language taken in the Department of Language and Foreign Studies.

Students may, where appropriate, and with Faculty Advisory Committee approval, select special topics courses to fulfill requirements. Student may also apply up to 3 credit hours toward the major from an approved internship or cooperative education field experience. Study abroad course credits may be used toward the major with the approval of the Faculty Advisory Committee.

Undergraduate Certificate in European Studies

A European studies certificate provides an opportunity for students to coordinate their courses around themes or regional expertise related to Europe. The certificate builds on American University's faculty members engaged in research and teaching on Eastern and Western Europe across all schools and departments, and AU Abroad programs in Europe, as well as other courses and programs offered overseas supervised by AU faculty. This certificate is open to students in all majors and disciplines. Offering a wide range of academic and professional courses on the region, the certificate is designed so that students can demonstrate substantive knowledge about specific aspects of European culture, history, politics, economics and society, as well as language competency, and complete an experiential learning experience such as an internship or study abroad that directly relates to Europe.

Certificate Requirements

- 18 credit hours of approved course work with at least 9 credit hours at the 300-level or above with grades of B or better.
Grades of C- or D in certificate program courses are not accepted toward the fulfillment of certificate requirements, although these grades will be included in the calculation of the GPA. Students must have at least a 3.0 GPA in certificate courses in order to be awarded a certificate. Students in certificate programs must take a minimum of 6 credit hours during each 12-month period and complete the certificate in four years. International students must enroll in 9 credit hours each semester (except for summer). A maximum of 3 credit hours earned at an accredited college or university may be applied toward the certificate as transfer credit.

- Foreign language proficiency
- Study abroad or approved internship with a European focus
- Capstone: successful completion of a 3 credit-hour European studies research project conducted under the supervision of a faculty member associated with the European studies certificate program.

Course Requirements

- 18 credit hours of approved European studies-related course work including study abroad or approved internship with a European focus, and a 3 credit hour capstone. Students should take at least one course outside of their main area, discipline, or field.

Undergraduate Certificate in International Studies

Admission to the Program

Open to students in enrolled in a degree program or at least junior standing or equivalent. Applicants must submit SAT scores and their official transcripts along with a one page statement of purpose. For international students whose first language is not English, a score of at least 550 (213 on the computer version) on the TOEFL is required.

Certificate Requirements

- 24 credit hours of approved course work with at least 12 credit hours at the 300-level or above with grades of C or better.
Grades of C- or D in certificate program courses will not be accepted toward the fulfillment of certificate requirements although these grades will be included in the calculation of the cumulative grade point average. Students must have at least a 2.0 grade point average in certificate courses in order to be awarded a certificate. Students in certificate programs must take a minimum of 6 credit hours during each 12-month period after they are admitted. International students must enroll in 12 credit hours each semester (except for summer). All programs must be completed within four years. A maximum of 6 credit hours earned at an accredited college or university may be applied toward the certificate as transfer credit.

Course Requirements

- One of the following:
SIS-105 World Politics 3:1 (3)
SIS-140 Cross-Cultural Communication 3:1 (3)
other approved General Education Course
- 21 credit hours in courses approved by the advisor, including one course which serves as a capstone course.

Admission to the Program

Applicants must hold an accredited bachelor's degree with a cumulative grade point average of at least a B+ (3.30 or higher on a 4.00 scale) and should have had at least 24 credit hours of social science course work relevant to international studies. Students who do not meet these minimum requirements, if otherwise admissible, may be assigned additional course work in excess of degree requirements specified at the time of admission.

The application deadline for fall admission is January 15; for spring admission October 1 (September 15 for international students). Admitted students may defer matriculation for no longer than two semesters provided that a written request for deferment is submitted to and approved by the SIS Graduate Admissions Office.

All applicants whose native language is English or those whose degrees are from an accredited institution where the language of instruction is English are required to submit results of the Graduate Record Examination (GRE). Non-native English speakers are required to submit results of the Test of English as a Foreign Language (TOEFL) or the International English Language Testing System (IELTS) unless they hold a degree from a

U.S.-accredited institution before enrollment at SIS. The minimum TOEFL score for full admissions consideration is 100 on the Internet-based test (IBT), 250 on the computer-based test, or 600 on the paper-based test. The minimum IELTS score is 7.0. LSAT scores will be accepted in place of the GRE for J.D./M.A. applicants. Fall applicants should plan to take the appropriate test no later than December to ensure full consideration of the application by the January deadline.

All applicants must submit two letters of reference evaluating undergraduate academic performance and suitability for graduate study in international affairs, at least one of which should be from an academic source. A resume should be included in the application. Applicants must submit transcripts from all institutions attended. Cultural factors are considered in evaluating transcripts and examination results.

Requests for the transfer of a maximum of 6 graduate credit hours from other accredited institutions to be applied to a master's degree are considered after successful completion of 9 credit hours in the graduate program at American University. A minimum grade of B in each course is required for transfer. Transfer courses must have been completed within seven years of admission and must fulfill stated requirements of the degree program.

Degree Requirements

- 39-42 credit hours of approved graduate course work with a cumulative grade point average of 3.00, including 15-18 credit hours in a major field including one theory course and one graduate-level economics or international economic policy course appropriate to the field, 9 credit hours in a related field selected from offerings in SIS or other teaching units of the university, 6 credit hours in social science research methodology and 6 credit hours of research.
- Comprehensive examination in the major field
To be eligible to take a comprehensive examination, students must have maintained at least a 3.00 grade point average (on a 4.00 scale) in all graduate course work. See the SIS Graduate Advising Office for comprehensive examination requirements for each field.
- Demonstration of research and writing skills through completion of a master's thesis, substantial research paper requirement, or research practicum. All courses taken to fulfill this requirement must be passed with a grade of B or better.
Thesis: 6 credit hours of thesis credit and submission of the thesis.
Substantial research paper requirement: one 3 credit hour internship or cooperative education field experience and one 3 credit hour substantial research paper, or two substantial research papers
Research practicum: 6 credit hours supervised by major field faculty advisors (by permission and specific arrangement).

- Proficiency in a modern foreign language:
Research competence in English and another language relevant to the student's career objectives must be certified.

Major Field Concentrations

Comparative and International Disability Policy (CIDP), Comparative and Regional Studies (CRS); International Economic Relations (IER); International Politics (IP); United States Foreign Policy (USFP), or Natural Resources and Sustainable Development (NRSDD) (through exchange program with United Nations University for Peace, Costa Rica)

Course Requirements

COMPARATIVE AND INTERNATIONAL DISABILITY POLICY (CIDP) (39 credit hours)

Prepares professionals for the design, implementation, and evaluation of disability policy in international and comparative perspective.

Core (18 credit hours)

M.A. in International Affairs and J.D.

Graduates receive the J.D. degree from the Washington College of Law and the M.A. in International Affairs from the School of International Service.

Admission to the Program

Students apply to both the Washington College of Law (WCL) and the School of International Service (SIS). Students may begin their studies in SIS after completing one full year of full-time study at WCL. SIS accepts LSAT scores in place of the GRE general scores normally required for admission. For specific criteria employed by SIS, see the graduate admission and degree requirements for the M.A. in International Affairs above. Admission to either WCL or SIS in no way implies that admission to the other will be granted. Students who have been admitted to the M.A. in International Affairs may apply to WCL. For more information on admission requirements, contact the WCL Admissions Office at 202-274-4101.

Degree Requirements

- 86 credit hours of WCL course work
Up to 6 credit hours of SIS course work may be credited toward the J.D. requirement.
- 36 credit hours of approved graduate course work in an SIS M.A. in International Affairs concentration: Comparative and Regional Studies (CRS), International Economic Relations (IER), International Politics (IP), or United States Foreign Policy (USFP).
- Up to 15 credit hours in WCL courses may be credited toward the M.A. requirements (see approved list in the SIS Graduate Office).
- Comprehensive examination in the major field
To be eligible to take a comprehensive examination, students must have maintained at least a 3.00 grade point average (on a 4.00 scale) in all graduate course work. See the SIS Graduate Advising Office for comprehensive examination requirements for each field.
- Demonstration of research and writing skills through completion of a master's thesis, substantial research paper requirement, or research practicum. All courses taken to fulfill this requirement must be passed with a grade of B or better.
- Proficiency in a modern foreign language:
Research competence in English and another language relevant to the student's career objectives must be certified.

Course Requirements

- approved major theory course (3)
- approved major field course (3)
- approved research methods course (3)

- 9 credit hours of approved related field courses
- 3 credit hours of master's thesis or substantial research paper requirement option
- Up to 15 credit hours in WCL course work including the following:
LAW-516 Legal Rhetoric: Writing and Research I (2)
LAW-517 Legal Rhetoric: Writing and Research II (2)
approved economic or business policy course (3)
5 credit hours of approved international law course work

M.A. in International Communication

Founded in 1968 as the first International Communication program in the country, this innovative program provides students with interdisciplinary course offerings and professional skills training, focusing on emergent and vital topics in international communication. The curriculum allows students to explore themes including intercultural relations, cross-cultural communication, international exchange, global technology governance, cultural and public diplomacy, health communication, and global media studies. The program includes two research and practice-focused laboratories providing distinctive opportunities: the Center for Research on Collaboratories and Technology Enhanced Learning Communities (COTELCO) and the Intercultural Management Institute (IMI).

Admission to the Program

Students applying for admission to this program must have had a strong undergraduate major or minor in social and behavioral sciences or communication. For further information, contact the International Communication Division at 202-885-1621.

Applicants must hold an accredited bachelor's degree with a cumulative grade point average of at least a B+ (3.30 or higher on a 4.00 scale) and should have had at least 24 credit hours of social science course work relevant to international studies. Students who do not meet these minimum requirements, if otherwise admissible, may be assigned additional course work in excess of degree requirements specified at the time of admission.

The application deadline for fall admission is January 15; for spring admission October 1 (September 15 for international students). Admitted students may defer matriculation for no longer than two semesters provided that a written request for deferment is submitted to and approved by the SIS Graduate Admissions Office.

All applicants whose native language is English or those whose degrees are from an accredited institution where the language of instruction is English are required to submit results of the Graduate Record Examination (GRE). Non-native English speakers are required to submit results of the Test of English as a Foreign Language (TOEFL) or the International English Language Testing System (IELTS) unless they hold a degree from a U.S.-accredited institution before enrollment at SIS. The minimum TOEFL score for full admissions consideration is 100 on the Internet-based test (IBT), 250 on the

computer-based test, or 600 on the paper-based test. The minimum IELTS score is 7.0.

All applicants must submit two letters of reference evaluating undergraduate academic performance and suitability for graduate study in international affairs, at least one of which should be from an academic source. A resume should be included in the application. Applicants must submit transcripts from all institutions attended. Cultural factors are considered in evaluating transcripts and examination results.

Requests for the transfer of a maximum of 6 graduate credit hours from other accredited institutions to be applied to a master's degree are considered after successful completion of 9 credit hours in the graduate program at American University. A minimum grade of B in each course is required for transfer. Transfer courses must have been completed within seven years of admission and must fulfill stated requirements of the degree program.

Degree Requirements

- 39 credit hours of approved graduate course work with a cumulative grade point average of 3.00, including a minimum of 12 credit hours in the program including one theory course and one graduate-level economics or international economic policy course appropriate to the field, 15 credit hours in a concentration/related field selected from offerings in SIS or other teaching units of the university, 6 credit hours in social science research methodology, and 6 credit hours of research.
- One oral comprehensive examination in international communication
To be eligible to take a comprehensive examination, students must have maintained at least a 3.00 grade point average (on a 4.00 scale) in all graduate course work.
- Demonstration of research and writing skills through completion of a master's thesis, substantial research paper requirement, or a research practicum. All courses taken to fulfill this requirement must be passed with a grade of B or better.
Thesis: 6 credit hours of thesis credit and submission of the thesis.
Substantial research paper requirement: one 3 credit hour internship or cooperative education field experience and one 3 credit hour substantial research paper taken in conjunction with a 600- or 700-level course; or two substantial research papers taken in conjunction with 600- or 700-level courses.
Research practicum: 6 credit hours supervised by major field faculty advisors (by permission and specific arrangement).
- Proficiency in a modern foreign language:
Research competence in English and another language relevant to the student's career objectives must be certified.

M.A. in International Development and Master of Theological Studies

A dual master's degree program is offered by the School of International Service and Wesley Theological Seminary. Graduates receive both the M.A. in International Development and the Master of Theological Studies.

Admission and Requirements

- Applications are submitted to both SIS and Wesley. Students must be admitted separately to each program.
- Students may count up to 9 credit hours from Wesley toward the related field/concentration requirement for the M.A. in International Development, and an additional 3 credit hours toward the research requirement if they select the thesis option.

Please refer to the Wesley Theological Seminary catalog for a description of the degree requirements for the Master of Theological Studies, or call the Admissions Office at 202-885-8659.

M.A. in International Peace and Conflict Resolution

With a strong emphasis on the blending of theory and practice, peace studies with conflict resolution, and always with a search for alternatives to violence, the International Peace and Conflict Resolution (IPCR) program stands apart as a unique academic and professional training program. Peace, in this context, includes economic, social, and political justice; ecological balance; and nonviolent conflict resolution. IPCR was founded on the belief that the challenges that face the world today can be approached from a collaborative and humanistic perspective.

Admission to the Program

Applicants must hold an accredited bachelor's degree with a cumulative grade point average of at least a B+ (3.30 or higher on a 4.00 scale) and should have had at least 24 credit hours of social science course work relevant to international studies. M.A. in International Peace and Conflict Resolution and Master of Arts in Teaching

Graduates receive an M.A. in International Peace and Conflict Resolution from the School of International Service and the M.A.T. in secondary education from the School of Education.

Admission to the Program

Applicants must hold an accredited bachelor's degree with a cumulative grade point average of at least a B+ (3.30 or higher on a 4.00 scale) and should have had at least 24 credit hours of social science course work relevant to international studies. Students who do not meet these minimum requirements, if otherwise admissible, may be assigned additional course work specified at the time of admission.

Students must apply to both the School of International Service (SIS) and the School of Education (SOE) in the College of Arts and Sciences. Admission to either of the participating teaching units in no way implies admission to the other unit. For more information on admissions requirements, contact the SIS Admissions Office at 202-885-1646 or the SOE Teacher Education Office at 202-885-3720.

All applicants are required to submit results of the aptitude section of the Graduate Record Examination (GRE). International applicants whose first language is not English are required to submit results of the Test of English as a Foreign Language (TOEFL). The minimum TOEFL score for full consideration is 600 (250 on the computer version). All applicants must submit two letters of reference evaluating undergraduate academic performance and suitability for graduate study in international affairs and education.

All applicants whose native language is English or those whose degrees are from an accredited institution where the language of instruction is English are required to submit results of the Graduate Record Examination (GRE). Non-native English speakers are required to submit results of the Test of English as a Foreign Language (TOEFL) or the International English Language Testing System (IELTS) unless they hold a degree from a U.S.-accredited institution before enrollment at SIS. The minimum TOEFL score for full admissions consideration is 100 on the Internet-based test (IBT), 250 on the computer-based test, or 600 on the paper-based test. The minimum IELTS score is 7.0.

Students seeking secondary education certification must have completed sufficient course work in an area traditionally taught in secondary schools. It is anticipated that students who complete the M.A. in International Peace and Conflict Resolu-

tion will have sufficient background to meet certification requirements in social studies. However, students who meet requirements for other subject areas will also be considered. Students will be notified at the time of admission concerning additional course work required for state certification.

Degree Requirements

- 57 credit hours of approved graduate course work with a cumulative grade point average of 3.00

Students must complete 15 credit hours in peace and conflict resolution, 3 credit hours in economics, 6 credit hours in methodology, 6 credit hours in research and writing, and the 9 credit hours in the education core to receive the M.A. in International Peace and Conflict Resolution.

Students must complete 9 credit hours in the education core courses, 12 credit hours in secondary education, 6 credit hours of student teaching, and at least 12 of the 15 credit hours in peace and conflict resolution to receive the M.A.T.

In addition to intensive course work and student teaching placements, students are also required to participate in an educational internship program. These field placements are carefully supervised and coordinated to meet state certification requirements.

- Comprehensive examination in international peace and conflict resolution
- Comprehensive examination for M.A.T.
- Proficiency in a modern foreign language:
Research competence in English and another language relevant to the student's career objectives must be certified.

M.A. in International Peace and Conflict Resolution and Master of Theological Studies

A dual master's degree program is offered by the School of International Service and Wesley Theological Seminary. Graduates receive both the M.A. in International Peace and Conflict Resolution and the Master of Theological Studies.

Admission and Requirements

- Applications are submitted to both SIS and Wesley. Students must be admitted separately to each program. For more information on requirements, contact the SIS Graduate Admissions Office at 202-885-1646 and the Wesley Theological Seminary Admissions Office at 202-885-8659.
- Students may count up to 12 credit hours from Wesley toward the M.A. in International Peace and Conflict Resolution. With SIS faculty approval, 9 credit hours count toward the related field requirement, and 3 credit hours count toward the research requirement.

M.A. in Ethics, Peace, and Global Affairs

The Master of Arts in Ethics, Peace, and Global Affairs is an interdisciplinary program administered jointly by the School of International Service (SIS) and the Department of Philosophy and Religion in the College of Arts and Sciences (CAS). The program offers an ethical response to contemporary global problems and builds directly on the intersection of the idea of

"positive peace" and contemporary ethical theory. The program prepares students broadly in the practical application of ethical theory and policy analysis to difficult ethical choices in global affairs, and specifically to the dynamics of war, peace, and conflict resolution.

Admission to the Program

Students may apply to either the Department of Philosophy and Religion or the School of International Service. The Graduate Record Examination (GRE) is required. Students applying to SIS must apply by January 15 for fall and October 1 for spring to be considered for merit-based aid.

Degree Requirements

- 39 credit hours of approved graduate work with a cumulative GPA of 3.00, including 12 credit hours in the core, 6 credit hours in foundation courses, 3 credit hours of research methodology, 6 credit hours of research, and 12 credit hours in an area of concentration
- Comprehensive examination requirement
CAS: submission of three qualifying papers
SIS: comprehensive examination in international peace and conflict resolution
- Demonstration of research and writing skills through completion of a master's thesis, graduate seminar requirement, or substantial research paper requirement. All courses taken to fulfill this requirement must be passed with a grade of B or better.
Thesis: 6 credit hours of thesis credit and submission of the thesis.

M.A. in Global Environmental Policy

The Global Environmental Policy program provides an in-depth understanding of both the biophysical dimensions of environmental issues and the socioeconomic and political processes that shape the relationship between human beings and the natural world. Graduates are equipped to engage in the policymaking process and develop policy-formulation skills for an increasingly complex, threatened, and interdependent world.

Admission to the Program

Applicants must hold an accredited bachelor's degree with a cumulative grade point average of at least 3.30 (on a 4.00 scale). Students who do not meet these minimum requirements, if otherwise admissible, may be assigned additional course work in excess of degree requirements specified at the time of admission. Students should normally have several years of professional or practical experience.

All applicants whose native language is English or those whose degrees are from an accredited institution where the language of instruction is English are required to submit results of the Graduate Record Examination (GRE). Non-native English speakers are required to submit results of the Test of English as a Foreign Language (TOEFL) or the International English Language Testing System (IELTS) unless they hold a degree from a U.S.-accredited institution before enrollment at SIS. The minimum TOEFL score for full admissions consideration is 100 on the Internet-based test (IBT), 250 on the computer-based test, or 600 on the paper-based test. The minimum IELTS score is 7.0. Fall applicants should plan to take

the appropriate test no later than December to ensure full consideration of the application by the January deadline.

All applicants must submit two letters of reference evaluating undergraduate academic performance and suitability for graduate study in international affairs, at least one of which should be from an academic source. A resume should be included in the application. Applicants must submit transcripts from all institutions attended. Cultural factors are considered in evaluating transcripts and examination results.

The application deadline for fall admission is January 15; for spring admission October 1 (September 15 for international students). Admitted students may defer matriculation for no longer than two semesters provided that a written request for deferment is submitted to and approved by the SIS Graduate Admissions Office.

Requests for the transfer of a maximum of 6 graduate credit hours from other accredited institutions to be applied to a master's degree are considered after successful completion of 9 credit hours in the graduate program at American University. A minimum grade of B in each course is required for transfer. Transfer courses must have been completed within seven years of admission and must fulfill stated requirements of the degree program.

Degree Requirements

- 39 credit hours of approved graduate course work with a minimum cumulative grade point average of 3.00, including 21 credit hours in the core, 3 credit hours in social science research methodology, and 6 credit hours of research
- Comprehensive examination; a maximum of two attempts is permitted.
- Demonstration of research and writing skills through completion of a master's thesis or substantial research paper requirement. All courses taken to fulfill this requirement must be passed with a grade of B or better.
 - Thesis: 6 credit hours of thesis credit and submission of the thesis
 - Substantial research paper requirement: one 3 credit hour internship or cooperative education field experience and one 3 credit hour substantial research paper, or two substantial research papers.
- Proficiency in a modern foreign language
 - Research competence in English and another language relevant to the student's career objectives must be certified.

Combined Bachelor's Degree and M.A. in Global Environmental Policy

American University offers students the opportunity to earn both undergraduate and graduate degrees through its accelerated bachelor's/master's programs. Undergraduate students may complete up to 3 credits for every 9 credits required for the graduate degree that may be applied to the requirements for both degree programs. The department that oversees the graduate program the student enters will determine if the courses the undergraduate student completes will satisfy master's degree requirements. Bachelor's/master's students must complete at least 18 in-residence credit hours at the graduate level after the bachelor's degree is earned and maintain continuous, sequential enrollment in the two programs.

This program enables highly qualified students to earn a B.A. or B.S. in any discipline and an M.A. in Global Environmental Policy.

Requirements

- Undergraduates should apply for admission to the combined program by the end of the junior year. At a minimum, students must have an overall grade point average of 3.00, a year of laboratory science (BIO-110/210 General Biology I/II, CHEM-110/210 General Chemistry I/II, PHYS-105/205 College Physics I/II or PHYS-110/210 University Physics I/II), and a year of calculus (MATH-221/222, MATH-211/212). Applications must be accompanied by two letters of recommendation and a statement of purpose.

Graduate Record Examination (GRE) scores are not required for admission to the combined program. Students should discuss their interest in the program with the environmental studies coordinator before submitting an application.

- All requirements for a bachelor's degree in the student's major at American University
Undergraduate students may apply up to 12 credit hours of approved graduate-level course work to satisfy the requirements for both degrees. ENVS-580 Environmental Science I and ENVS-581 Environmental Science II are recommended.
- All requirements for the M.A. in Global Environmental Policy, including a minimum of 18 credit hours completed in residence in graduate status after the undergraduate degree has been awarded. Students must finish the master's degree requirements within three years from the date of first enrollment in the master's program.

M.A. in International Media

The Master of Arts in International Media offers students a unique opportunity to learn international communication theory and research while at the same time developing professional production skills. This interdisciplinary M.A. program allows students to take concurrent courses in the School of Communication (SOC) and School of International Service (SIS) that emphasize strategic communication, research, international communication, and global media.

Admission to the Program

Applicants must hold an accredited bachelor's degree with a minimum cumulative grade point average of 3.30 or higher on a 4.00 scale. Some background knowledge of communication studies, or media/journalism professional experience, or international studies and international work experience is recommended.

All applicants whose native language is English or those whose degrees are from an accredited institution where the language of instruction is English are required to submit results of the Graduate Record Examination (GRE). Non-native English speakers are required to submit results of the Test of English as a Foreign Language (TOEFL) or the International English Language Testing System (IELTS) unless they hold a degree from a U.S.-accredited institution before enrollment at SIS. The minimum TOEFL score for full admissions consideration is 100 on the Internet-based test (IBT), 250 on the computer-based test, or 600 on the paper-based test. The minimum IELTS score is 7.0.

All applicants must also submit two letters of reference evaluating undergraduate academic performance and suitability for graduate study in international affairs and communication.

Students apply to either SOC or SIS. Applications will be reviewed jointly by SOC and SIS, with both schools agreeing on student admission.

Degree Requirements

- 45 credit hours of approved graduate work with a cumulative grade point average of 3.00, including 12 credit hours of core

courses, 6 credit hours of professional courses, 6 credit hours of methods courses, and 6 credit hours of research/capstone courses. Students also take 15 credit hours of electives. Students choose a concentration in either SIS or SOC and complete a total of 24 credits hours in that concentration, including their research/capstone requirement. Students may not take more than a total of 24 credit hours in either SIS or SOC to fulfill degree requirements.

Requests for the transfer of a maximum of six graduate credits will be considered only on an exceptional basis.

- One oral comprehensive examination in the School of International Service. To be eligible to take a comprehensive examination, students must have maintained at least a 3.00 grade point average in all graduate course work.
- Demonstration of research and writing skills through completion of the research/capstone requirement courses with grades of B or better.
- Proficiency in a modern foreign language.
Research competence in English and another language relevant to the student's career objectives must be certified.

M.A. in Social Enterprise

The M.A. in Social Enterprise builds on and expands teaching and researching social entrepreneurship. The program supports students who want to create and work in social ventures that drive societal change by providing innovative, economically sustainable solutions to public problems. This program's curriculum blends learning about both hard and soft management practices with an examination of the dynamics of social innovation.

Admission to the Program

Applicants must have at least two years work experience in or relevant to international development in less developed countries or with disadvantaged communities in the United States or other developed countries. Applicants must hold an accredited bachelor's degree with a cumulative grade point average of at least 3.30 or higher on a 4.00 scale and should have at least 24 credit hours of social science course work relevant to international studies.

The application deadline for fall admission is January 15. Admitted students may defer matriculation for no longer than two semesters provided that a written request for deferment is submitted to and approved by the SIS Graduate Admissions Office.

All applicants whose native language is English or whose degrees are from an accredited institution where the language of instruction is English are required to submit results of the Graduate Record Examination (GRE). Non-native English speakers are required to submit results of the Test of English as a Foreign Language (TOEFL) or the International English Language Testing System (IELTS) unless they hold a degree from a U.S.-accredited institution before enrollment at SIS. The minimum TOEFL score for full admissions consideration is 100 on the Internet-based test (IBT), 250 on the computer-based test, or 600 on the paper-based test. The minimum IELTS score is 7.0. Applicants should plan to take the appropriate test no later than December to ensure full admissions consideration of the application by the January deadline.

All applicants must submit two letters of reference evaluating undergraduate academic performance and suitability for graduate study in international affairs, at least one of which should be from a current or former employer. A resume should be included in the application. Applicants must submit transcripts from all institutions attended. Cultural factors are considered in evaluating transcripts and examination results. Work experience must be clearly explained in the applicant's letter of application.

Requests for the transfer of a maximum of 6 graduate credit hours from other accredited institutions to be applied to a master's degree are considered after successful completion of 9 graduate credit hours at American University. A minimum grade of B in each course is required for transfer. Transfer courses must have been completed within seven years of admission and must fulfill stated requirements of the degree.

Degree Requirements

- 39-42 credit hours of approved graduate credit work with a cumulative grade point average of 3.0, including a minimum of 15-18 hours in the core, 12 credit hours in a concentration selected from offerings in SIS or other teaching units of the university, 6 credit hours in methods and 6 credit hours of supervised practicum and capstone project.
- Comprehensive examination based on a paper and presentation relating the student's practicum and capstone project experience to previous coursework and the relevant scholarly literature.
- Demonstration of ability to conceptualize and create a new social enterprise, or make analytic-based recommendations for significant improvement in an existing organization through completion of a 6 credit hour practicum and capstone project supervised by program faculty advisors.
- Proficiency in a modern foreign language: Research competence in English and another language relevant to the student's career objectives must be certified.

Course Requirements

Core (15-18 credit hours)

- ECON 603 Introduction to Economic Theory (3)
Students with a strong background in economics may have this course requirement waived without substitution with permission of the program director.
- An additional economics course from the following:

Master of International Service (M.I.S.)

The Master of International Service (MIS) is specifically designed for those with significant experience in international affairs. The program's two-semester intensive period of study is complemented by opportunities for participating in an array of public dialogue and ongoing research programs.

Admission to the Program

Applicants must hold an accredited bachelor's degree with a cumulative grade point average of at least B+ (3.30 or higher on a 4.00 scale). Students who do not meet these minimum requirements, if otherwise admissible, may be assigned additional course work in excess of degree requirements specified at the time of admission. Students should also have significant professional experience, typically nine years.

The application deadline for fall admission is May 1; for spring admission, October 1 (September 15 for international students). Admitted students may defer matriculation for no more than two semesters provided that a written request for deferral is submitted to and approved by the SIS Graduate Admissions Office.

All applicants whose native language is English or those whose degrees are from an accredited institution where the language of instruction is English are required to submit results of the Graduate Record Examination (GRE). Non-native English speakers are required to submit results of the Test of English as a Foreign Language (TOEFL) or the International English Language Testing System (IELTS) unless they hold a degree from a U.S.-accredited institution before enrollment at SIS. The minimum TOEFL score for full admissions consideration is 100 on the Internet-based test (IBT), 250 on the

computer-based test, or 600 on the paper-based test. The minimum IELTS score is 7.0. Applicants should plan to take the TOEFL prior to December to ensure full consideration of the application by the May 1 deadline.

All applicants are required to submit official transcripts and translations from their undergraduate institutions and two letters of reference evaluating their suitability for the mid-career master's program in international service. Finally, applicants must submit an essay outlining their significant professional experience, highlighting the background they would contribute to the program, and their motivation for graduate study. The essay should also contain a brief description of their intended program of study.

Degree Requirements

- At least 30 credit hours of approved graduate course work with a cumulative grade point average of 3.00, including 24 credit hours in residence.

Students with significant prior professional experience in international affairs may apply to the director of the MIS program to have the total program reduced by up to 6 credit hours, which will be applied to the independent study requirement. Such application must make reference to areas in which the student has acquired professional competence. Students seeking to use the significant professional experience clause are limited to a total of 6 credit hours, including any transfer credit.

- Non-thesis option: SIS-686 Proseminar in International Affairs I and SIS-687 Proseminar in International Affairs II, with grades of B or better, as part of the 24 credit hours in residence; these courses also fulfill the tool of research requirement

- Comprehensive examination completed in conjunction with SIS-687 Proseminar in International Affairs II (consult program office for details)

Course Requirements (30 credit hours)

- SIS-686 Proseminar in International Affairs I (3)
- SIS-687 Proseminar in International Affairs II (3)
- SIS-690 Independent Study Project (6) approved by the SIS senior associate dean
- 18 credit hours (six courses) in residence selected in consultation with and approved by the SIS associate dean or division directors

M.S. in Development Management

The Master of Science in Development Management combines the fields of development and public administration to provide state-of-the-art education, training, and practice in development management. The program is designed both for practitioners and students with prior field experience who plan to work on development programs and projects either within the United States or in developing countries. It provides an opportunity to focus on innovative approaches to development management that are presently being developed both in the

United States and in the Third World, with particular attention to the issues of self-reliance, sustainability, and poverty alleviation.

Admission to the Program

Applicants must have at least two years field experience working on development problems or projects in the United States, Western Europe, or in developing countries.

Applicants must hold an accredited bachelor's degree with a cumulative grade point average of at least a B+ (3.30 or higher on a 4.00 scale) and should have had at least 24 credit hours of social science course work relevant to international studies. Students who do not meet these minimum requirements, if otherwise admissible, may be assigned additional course work in excess of degree requirements specified at the time of admission.

The application deadline for fall admission is January 15; for spring admission October 1 (September 15 for international students). Admitted students may defer matriculation for no longer than two semesters provided that a written request for deferment is submitted to and approved by the SIS Graduate Admissions Office.

All applicants whose native language is English or those whose degrees are from an accredited institution where the language of instruction is English are required to submit results of the Graduate Record Examination (GRE). Non-native English speakers are required to submit results of the Test of English as a Foreign Language (TOEFL) or the International English Language Testing System (IELTS) unless they hold a degree from a U.S.-accredited institution before enrollment at SIS. The minimum TOEFL score for full admissions consideration is 100 on the Internet-based test (IBT), 250 on the computer-based test, or 600 on the paper-based test. The minimum IELTS score is 7.0. Applicants should plan to take the appropriate test no later than December to ensure full consideration of the application by the January deadline.

All applicants must submit two letters of reference evaluating undergraduate academic performance and suitability for graduate study in international affairs, at least one of which should be from an academic source. A resume should be included in the application. Applicants must submit transcripts from all institutions attended. Cultural factors are considered in evaluating transcripts and examination results.

Requests for the transfer of a maximum of 6 graduate credit hours from other accredited institutions to be applied to a master's degree are considered after successful completion of 9 credit hours in the graduate program at American University. A minimum grade of B in each course is required for transfer. Transfer courses must have been completed within seven years of admission and must fulfill stated requirements of the degree program.

Degree Requirements

- 39-42 credit hours of approved graduate course work with a cumulative grade point average of 3.00, including a minimum of 15-18 credit hours in the core, 12 credit hours in a related field selected from offerings in SIS or other teaching

units of the university, 6 credit hours in social science methodology, and 6 credit hours of research.

A mid-level professional who has performed successfully in a technical or managerial role before admission to the program may apply through the director of the M.S. in Development Management program to the dean of SIS to have the total program requirements reduced by up to 6 credit hours. This application may be made after completion of 9 credit hours and must make reference to a number of areas in which the student has acquired basic competence. Credit earned as part of an internship program does not count in this provision.

- Research requirement: 6 credit hours of practicum research with grades of B or better
- Comprehensive examination requirement completed in conjunction with practicum research

To be eligible to take a comprehensive examination, students must have maintained at least a 3.00 grade point average (on a 4.00 scale) in all graduate course work. The comprehensive examination requirement includes research group meetings plus an oral research presentation in conjunction with a thesis, substantial research paper, or practicum.

- Proficiency in a modern foreign language: Research competence in English and another language relevant to the student's career objectives must be certified.

Course Requirements

Graduate Certificate in European Studies

A European studies certificate provides an opportunity for students to coordinate their courses around themes or regional expertise related to Europe. The certificate builds on American University's faculty members engaged in research and teaching on Eastern and Western Europe across all schools and departments, and AU Abroad programs in Europe, as well as other

courses and programs offered overseas supervised by AU faculty. This certificate is open to students in all majors and disciplines. Offering a wide range of academic and professional courses on the region, the certificate is designed so that students can demonstrate substantive knowledge about specific aspects of European culture, history, politics, economics and society, as well as language competency, and complete an experiential learning experience such as an internship or study abroad that directly relates to Europe.

Admission to the Program

Open only to students in an SIS master's degree program. Applicants must submit their official transcripts along with a one page statement of purpose.

Non-native English speakers are required to submit results of the Test of English as a Foreign Language (TOEFL) or the International English Language Testing System (IELTS) unless they hold a degree from a U.S.-accredited institution before enrollment at SIS. The minimum TOEFL score for full admissions consideration is 100 on the Internet-based test (IBT), 250 on the computer-based test, or 600 on the paper-based test. The minimum IELTS score is 7.0.

Certificate Requirements

- 18 credit hours of approved course work with at least 9 credit hours at the 600-level or above with grades of B or better. Grades of C- or D in certificate program courses are not accepted toward the fulfillment of certificate requirements, although these grades will be included in the calculation of the GPA. Students must have at least a 3.0 GPA in certificate courses in order to be awarded a certificate. Students in certificate programs must take a minimum of 6 credit hours during each 12-month period and complete the certificate in four years. International students must enroll in 9 credit hours each semester (except for summer). A maximum of 3 credit hours earned at an accredited college or university may be applied toward the certificate as transfer credit.
- Proficiency in a modern foreign language: Research competence in English and another language relevant to the student's career objectives must be certified.
- Study abroad or approved internship with a European focus
- Capstone: successful completion of a 3 credit-hour European studies research project conducted under the supervision of a faculty member associated with the European studies certificate program. A Substantial Research Paper (SRP) or graduate independent study may be used to fulfill this requirement.

Course Requirements

- 18 credit hours of approved European studies related graduate course work including study abroad or approved internship with a European focus, and a 3 credit hour capstone. Students should take at least one course outside of their main area, discipline, or field.

Graduate Certificate in Global Information Technology

This interdisciplinary certificate gives students the skills and knowledge to work in organizations that support information technology globally. It is designed for professionals who work across many locations and professionals in international organizations, governments, and nongovernmental organizations with responsibility for strategy, policy, and implementation of information technology in developing and emerging economies. There are special opportunities for studying cross-national virtual collaboration.

Graduate Professional Development Certificate in International Peace and Conflict Resolution**Admission to the Program**

Open to students with a bachelor's degree or equivalent from an accredited institution. Applicants must submit their official transcripts along with a one page statement of purpose.

Non-native English speakers are required to submit results of the Test of English as a Foreign Language (TOEFL) or the International English Language Testing System (IELTS) unless they hold a degree from a U.S.-accredited institution before enrollment at SIS. The minimum TOEFL score for full admissions consideration is 100 on the Internet-based test (IBT), 250 on the computer-based test, or 600 on the paper-based test. The minimum IELTS score is 7.0.

Certificate Requirements

- 15 credit hours of approved course work with at least 9 credit hours at the 600-level or above with grades of C or better.

Grades of C- or D in certificate program courses are not accepted toward the fulfillment of certificate requirements, although these grades will be included in the calculation of the GPA. Students must have at least a 3.0 GPA in certificate courses in order to be awarded a certificate. Students in certificate programs must take a minimum of 6 credit hours during each 12-month period and complete the certificate in four years. International students must enroll in 9 credit hours each semester (except for summer). A maximum of 3 credit hours earned at an accredited college or university may be applied toward the certificate as transfer credit.

Ph.D. in International Relations

Admission to the Program

The Doctor of Philosophy in International Relations program is designed to prepare graduates for careers in university teaching and research. The curriculum combines core offerings in international relations, comparative social theory, comparative and regional studies, and methodology within a structure that allows students considerable flexibility. Major emphasis is placed on research. In addition to completing the dissertation, students are encouraged to present conference papers, engage in collaborative work with faculty members, and submit articles to refereed journals.

Applicants for the Ph.D. degree program must hold an accredited bachelor's or master's degree or its equivalent in a field related to international relations. Applicants should present a prior cumulative grade point average that is substantially above B (3.50 or higher on a 4.00 scale) in a field relevant to international relations.

The program is designed for study on a full-time basis. Applicants for the Ph.D. degree are considered and admitted only for the fall semester each year. The school does not permit students to begin their doctoral work in the spring. Deferral of matriculation in the Ph.D. program is not permitted. In order to be considered for fall admission, applications and all supporting materials must reach the SIS Graduate Admissions Office no later than December 15.

All applicants are required to submit results of the Graduate Record Examination (GRE). Non-native English speakers are required to submit results of the Test of English as a Foreign Language (TOEFL) or the International English Language Testing System (IELTS) unless they hold a degree from a

U.S.-accredited institution before enrollment at SIS. The minimum TOEFL score for full admissions consideration is 100 on the Internet-based test (IBT), 250 on the computer-based test, or 600 on the paper-based test. The minimum IELTS score is 7.0. Applicants should plan to take the appropriate test no later than December to ensure consideration of their applications by the deadline.

All applicants must submit at least three letters of reference which evaluate their academic performance and their suitability for undertaking doctoral study in international relations. Cultural factors are considered in making admissions decisions and in evaluating transcripts and examination results.

Doctoral students may transfer up to 30 credit hours of previous graduate course work earned at accredited institutions with a minimum grade of B in each course. Previously earned graduate credits are applied to Ph.D. program requirements if they are relevant to students' programs and dissertation topics. Requests for transfer of graduate credit are considered at the time of advancement to candidacy. Transfer courses must have been completed within seven years of admission.

Degree Requirements

- 72 credit hours of approved graduate course work, including at least 12 credit hours of dissertation supervision. A minimum grade point average of 3.25 in all course work is required to remain in good standing and to earn the degree. Ph.D. students may take SIS-790 Doctoral Independent Study in conjunction with their course work with permission of instructor and the director of the Ph.D. program.
- *Proficiency in a modern foreign language:* Research competence in English and another language relevant to the student's career objectives must be certified.
- *Proficiency in social science research methodologies appropriate to the student's field of study and dissertation topic.* Normally this requirement is satisfied by completing 12 credit hours of courses in research methods, as described under Course Requirements, below.
- *Regular participation in the semi-monthly Ph.D. research seminar during the first three years of residency.* Students are expected to present the results of their ongoing research and to serve as discussants for papers presented by faculty and visiting scholars to the university.
- *Satisfactory completion of two written and two oral comprehensive examinations.*

The oral qualifying examination, normally given at the end of the first year, examines students on theoretical, epistemological, and methodological literature and issues in international relations, comparative social theory, and comparative and regional studies. These areas are addressed in the core seminars that students normally complete during their first year of residence, although the scope of the examination is not limited to topics covered in the seminars. The oral qualifying examination evaluates students' preparation in subjects that are considered to be an essential

foundation for doctoral study and research in the School of International Service.

Written field comprehensive examinations are taken in two major fields of study selected by the student. One field must be designated from the graduate examination fields offered by the School of International Service as Ph.D. level fields of concentration. A second field may be selected from offerings of SIS or from the offerings of other teaching units of the university that provide doctoral instruction. As an alternative, students may construct a special field, with permission of the director of the Ph.D. program and the advice of at least three qualified scholars. Two of these scholars must be members of the American University faculty; all three must agree in writing to serve on an examining committee. Students are normally expected to complete their written field examinations no later than three years after entering the program.

The oral defense of the prospectus examines students on their dissertation proposals and on substantive issues, literature, theory, epistemology, and methodology relevant to the proposed dissertation research. Examiners are qualified scholars designated by the director of the Ph.D. program, who chairs the examination. Two of the examiners must be members of the American University faculty. Examiners will usually be prospective members of the student's dissertation committee. Students are normally expected to complete their prospectus defense no later than the end of the seventh semester after entering the program.

For details on scheduling comprehensive examinations and examination procedures, consult the director of the Ph.D. program or the SIS Graduate Office.

- *Advancement to candidacy:* to be advanced to candidacy, students must remedy any deficiencies specified at the time of admission, be certified as proficient in a modern foreign language in addition to English, complete their social science research methodology requirement, declare their comprehensive examination fields of concentration, and pass the oral defense of prospectus.
- *Acceptance by the faculty of the School of International Service of a dissertation proposal.* The dissertation proposal must provide a justification for the dissertation research, review relevant literature, identify relevant theoretical, epistemological, and methodological issues, and provide a detailed research design, including a timetable for completion of the work.

The dissertation proposal is first presented at the oral defense of the prospectus. However, successful passage of the defense of the prospectus and approval of the dissertation proposal are separate but overlapping processes. After the defense of prospectus is passed, the dissertation proposal must be formally approved by the dissertation committee and by the dean.

Usually, the scholars selected as examiners also review the dissertation proposal and are the prospective members of the student's dissertation committee. Two members of the reviewing committee must be members of the American University faculty and one must be a faculty member of the School of International Service.

- *Completion of the doctoral dissertation and successful defense of the dissertation in an oral examination.* The dissertation must consist of high quality original research, directly relevant to the student's doctoral program. Dissertation committees comprise a minimum of three members, one of whom serves as chair and as the primary supervisor of the dissertation research. It is the responsibility of the student to secure the agreement of a full-time tenured or tenure track member of the School of International Service faculty to serve as the chair of his or her dissertation committee. At least two members of dissertation committees must be full-time tenured or tenure track members of the American University faculty. The members of the committee must be approved by the dean of the School of International Service. Students must successfully defend their dissertation in an oral examination on an occasion to which the entire American University community is invited, customarily with two weeks prior notice. Students must present a completed draft of their dissertation for defense. They are responsible for having the final draft of their dissertation meet university style requirements. Dissertations must be approved by the dean of the School of International Service.

Statute of limitations: American University's *Academic Regulations* provide that all work for the doctorate must be completed within five years from the date of first enrollment as doctoral student (seven years if the student entered a doctoral program with a bachelor's degree). Prior to the expiration of the time limit specified (or to the expiration of approved extensions) a student may petition for an extension of candidacy. Extensions are approved by the dean of the School of International Service, upon recommendation of the student's advisor and the director of the Ph.D. program. In any event, the totality of extensions will not exceed a three

year period beyond the applicable duration of five or seven years.

School of Public Affairs

- **Department of Government**
- **Department of Justice, Law and Society**
- **Department of Public Administration and Policy**

Dean William M. LeoGrande

Associate Dean for Academic Affairs Margaret A. Weekes

The School of Public Affairs is committed to education and research programs in the field of public affairs. An interest in public affairs reflects a concern for people and how they interact with government institutions and political and legal systems. Students are able to pursue this interest through a comprehensive educational experience that includes classroom instruction, individual research, and practical professional training. Through its three departments—the Department of Government, the Department of Justice, Law and Society, and the Department of Public Administration and Policy—the school provides a comprehensive and unified approach to the study of public affairs in the United States and around the world. Each program is designed to focus on specific career interests, including careers in government and not-for-profit organizations, but all are multidisciplinary, issue and policy oriented, and adapted to Washington’s unique educational opportunities.

Washington is an ideal location for studying public affairs. As the site of national government and as a world capital, the city provides students with vivid evidence of the interrelationships of domestic and international politics. Students can observe first hand the political, economic, and environmental forces shaping public affairs and public policy. As an integral part of the curriculum, internships in private and public organizations lend a practical dimension to the academic programs and provide the opportunity to interact with policy makers. Washington’s facilities for scholarly research and personal enrichment include such government institutions as the Library of Congress, the National Archives, and the Smithsonian Institution, as well as many departmental and agency libraries.

The school has more than 50 active full time faculty members including both nationally and internationally recognized scholars and others distinguished by their public service. Augmenting the full time faculty is an adjunct faculty of eminent government officials and public affairs practitioners who bring to the classroom the special insights acquired in their professional experience.

Drawing on the facilities of the university, the Consortium of Universities of the Washington Metropolitan Area, and the

Washington community, the School offers a unique combination of resources for study and practical experience in the field of public affairs. The school’s comprehensive range of academic and professional programs leads to degrees at the bachelor’s, master’s, and doctoral levels.

Undergraduate Study

Undergraduate students may plan their academic programs to meet personalized learning objectives. Recognizing that a multidisciplinary education is required to meet the ever changing nature of the public affairs profession, advisors encourage students to take courses in other academic units.

Graduate Study

The graduate degree programs in the School of Public Affairs serve a number of diverse educational needs. Most of our master’s programs educate students for specific professional careers in government and other nonprofit organizations at local, state, and national levels. These programs emphasize managerial, analytical, and conceptual skills necessary for professional success and leadership in public service. Others provide students with a general understanding of the academic disciplines related to public affairs. Doctoral programs are designed to prepare qualified individuals for professional appointments in teaching, scholarly research, and executive management and are offered in political science, public administration, and justice, law and society.

Internships

The school encourages qualified students to work for course credit as interns in governmental, political, non-profit, and private organizations. These internships are designed to give students practical involvement in political processes or action programs. For example, a student might work for a member of Congress, the Department of State, the Department of Justice, or for other organizations directly concerned with public policy.

Independent Study

The School of Public Affairs encourages students to engage in independent study projects related to their fields of interest. These projects include reading, research, and field work in the Washington area arranged directly with a faculty member.

Study Abroad

AU Abroad offers the opportunity for students to study abroad and gain full American University course credit. All students are encouraged to learn and work in another culture. Stu-

dents may spend a semester or year at prestigious universities in over 40 countries, spanning six continents. In addition, international study tours led by faculty members are offered during semester breaks and summer sessions. For more information and a full listing of AU Abroad programs, go to www.auabroad.american.edu/.

Educational Resources

Computer-aided instruction and research are encouraged and facilitated by a variety of technical resources. The university operates quantitative teaching and research laboratories to introduce students to the use of computers, statistics, and mathematical methods in social research and management applications. These labs are staffed with graduate assistants who tutor new users and provide professional consulting to experienced users.

Honorary Societies

The school recognizes both academic and professional achievement by students and alumni through membership in national honorary societies. Pi Sigma Alpha, the national political science honor society, founded in 1920, is open to selected seniors and graduate students majoring in political science or international relations.

Alpha Phi Sigma is the national honor society for criminal justice. It recognizes scholastic excellence by undergraduate and graduate students in the justice field. Sigma Phi Omega, the university's prelaw honor society, is open to all qualified undergraduate students, sophomore and above.

Pi Alpha Alpha is the national honorary society for public affairs and administration. The School of Public Affairs has one of the 18 charter chapters. Graduate students completing their programs are invited to join if they meet the academic standards set by the chapter.

Undergraduate majors are also eligible for Phi Beta Kappa.

Career and Professional Opportunities

A public affairs education prepares students for a variety of careers. Graduates serve public, non-profit, and private organizations where they assist in creating, analyzing, and/or implementing policy alternatives. Some teach public administration, political science, justice, public policy, and related courses at universities, colleges, or secondary schools. Others seek opportunities in private sector professions not formally related to their degree programs. Alumni are serving as city managers, lawyers, management analysts, investigators, legislative assistants, lobbyists, budget or systems analysts, newspaper editors, research associates, professors, policy analysts, and appointed and elected government officials.

Center for Congressional and Presidential Studies

Founded in 1980, the Center for Congressional and Presidential Studies has become a focus of research and training in the Department of Government. A unique institution, the center brings together scholars, students, public officials, journalists, and leaders in public and private organizations to study Congress and the presidency through scholarly forums, colloquiums, and seminars on current topics.

The center's many activities provide an opportunity for graduate students to work on research projects, assist with publications, and gain valuable practical and scholarly experience.

Campaign Management Institute

This innovative institute was designed by the school's faculty, together with leading Democratic and Republican political managers and campaign consultants to serve as a foundation for students, campaign workers, political activists, and legislative staffers interested in campaign management.

The institute's intensive program covers campaign organization, strategy, research, fundraising, polling, paid media, earned media, general management, targeting, campaign law and ethics, computer technology, and get-out-the-vote initiatives. Through this program, many students have found placement in national, state, and local campaigns as well as in survey research and campaign management firms.

Public Affairs and Advocacy Institute

Modeled on the Campaign Management Institute, the Public Affairs and Advocacy Institute provides students with an intensive exploration into the art and craft of the lobbying profession. The format allows students to become immersed in the strategies and tactics of organized interests attempting to influence the federal policy-making outcomes and processes. In addition to the applied aspects of the lobbying profession, lobbying is placed in a more theoretical perspective by linking the real world of political influence with the issues of democratic political representation.

Women & Politics Institute

The Women & Politics Institute is dedicated to the advancement of the study and discussion of women and politics, the promotion of opportunities for women in politics, and the involvement of students, faculty, and political leaders in issues of concern to women. The institute's strategic location in Washington, D.C. allows students and faculty access to the resources of the nation's capital. Through workshops, seminars, and internships, participants have outstanding opportunities to pursue the study of women in the political and policy arenas.

Center for Democracy and Election Management

The Center for Democracy and Election Management (CDEM) was established by Dr. Robert Pastor in 2002 with three goals—training and education, applied research, and public engagement. Our broader goal is to pave the way for and strengthen democracy through improved electoral performance. CDEM's specific focus is to advance election management through election management training institutes, election observation missions, poll worker training, applied research, and public engagement both in the U.S. and overseas. Our threefold mission seeks to contribute to the practice, research, and debate on solutions to election management problems and the need for reform of democratic electoral institutions at home and abroad.

Center for Public Finance Research

Created in 2008, the Center for Public Finance Research (CPFR) offers research and education in public budgeting and finance, public financial management, public economics, and

benefit-cost analysis at the local, regional, national, and international levels. CFPR takes advantage of its location to provide unique opportunities for American University students to observe how the public policy process works and to become actively involved in the development and formation of both local and national fiscal policy. CFPR activities include: (1) research of tax policy/administration and public expenditure management, (2) organization and hosting of international student/practitioner exchanges between American and overseas universities, and (3) provision of technical assistance and training to governments and NGOs in public budgeting and financial management topics.

Center for Environmental Policy

The purpose of the Center for Environmental Policy (CEP) is to evaluate and improve the capacity for environmental governance in the United States. CEP's work focuses on three themes: environmental innovation, partnerships and collaboration, and new and emerging challenges. The Center applies these themes to environmental issues in many ways. It sponsors lectures and programs to promote exchanges of ideas, experience, and research; convenes dialogue sessions for engaging varied interests and experts; and conducts research on how different institutional approaches, policy strategies, collaborative models, and implementation tools affect environmental outcomes. Focusing on its themes, the Center for Environmental Policy aims to improve the nation's ability to address these challenges through effective governance.

Leadership Program

The SPA Leadership Program is a four-year undergraduate program designed to develop a corps of students at American

University who have the skills and commitment to make a positive difference in their communities and the world. The program creates a dynamic learning environment by bringing together students with shared interests and goals through its courses, seminars, community service projects, and activities.

Creating opportunities for experiencing first hand how our nation's policy is developed and implemented, the program broadens students' understanding of the nature of American politics. To prepare students for lifelong participation in all aspects of public service, the program fosters their leadership, teamwork, negotiating, communications, critical thinking, and organizational skills.

The Leadership Program is based on the belief that every person has leadership ability and that democracy requires responsible action by everyone, not just those in positions of authority. By teaching theories of leadership, the public policy-making process, ethics, social justice, and community service, the program stresses the importance of principled, creative, results-oriented leadership based on core values. Students are brought face to face in small interactive sessions with key Washington public officials and decision makers who provide a behind-the-scenes view of how our nation's capital really works.

Students who complete the 15-credit four-year program are awarded a Certificate in Advanced Leadership Studies. Incoming first-year students in the School of Public Affairs are invited to apply to the program.

The Department of Government makes use of the opportunities available from its location in the nation's capital for the teaching and study of political science and public affairs.

The department's undergraduate program focuses on government and public affairs as an aspect of a broad liberal arts education. It prepares the student for an enlightened role in national, community, and world affairs. This program can lead to a career in public affairs or any private or not-for-profit area that deals with the growing interrelationship between the public and private sectors. It also provides a solid and comprehensive foundation for the student who plans to pursue further education before entering a career in politics or public affairs, governmental administration, law, teaching, or research.

The graduate program is designed to prepare students for academic or professional careers in public affairs or policy analysis. The master's and doctoral programs in political science are flexible in order to meet the educational needs of a diverse student population.

University Honors Program

To graduate with University Honors, students must be admitted to the University Honors Program, maintain a minimum cumulative GPA of 3.50, and receive grades of B or better in all University Honors course work. There are three levels of University Honors course requirements: Level I (100-200-level); Level II (300-level and above); and Level III (Honors Capstone Project). The department Honors coordinator advises students in the University Honors Program regarding requirements for graduating with University Honors in the major.

Combined B.A. and M.A. in Political Science

American University offers students the opportunity to earn both undergraduate and graduate degrees through its accelerated bachelor's/master's programs. Undergraduate students may complete up to 3 credits for every 9 credits required for the graduate degree that may be applied to the requirements for both degree programs. The department that oversees the graduate program the student enters will determine if the courses the undergraduate student completes will satisfy master's degree requirements. Bachelor's/master's students must complete at least 18 in-residence credit hours at the graduate level after the bachelor's degree is earned and maintain continuous, sequential enrollment in the two programs.

This program enables qualified students to earn, in a continuous plan of study, both the B.A. in Political Science and the M.A. in Political Science.

Requirements

- Admission to the combined B.A./M.A. program requires junior standing, a minimum cumulative grade point average

of 3.30, a completed application form, a written faculty recommendation, an essay on the student's interests and abilities in political science, and an interview with a Department of Government graduate advisor. Students must apply for admission to the graduate program no later than the last undergraduate semester. The Graduate Record Examination (GRE) is required for admission to the M.A. program.

- All requirements for the B.A. in Political Science
Undergraduate students may apply up to 9 credit hours of approved graduate-level course work to satisfy the requirements for both degrees.
- All requirements for the M.A. in Political Science, including a minimum of 18 credit hours completed in residence in graduate status after the undergraduate degree has been awarded. Students must finish the master's degree requirements within three years from the date of first enrollment in the master's program.

B.A. in Interdisciplinary Studies: Communication, Legal Institutions, Economics, and Government (CLEG)

This interdisciplinary major is designed for students who want a breadth of background necessary to participate effectively in decision making for public affairs and the practical training necessary to deal with social problems as public issues.

Admission to the Program

New freshmen and transfer students are admitted through the university's Admissions Office. Students currently enrolled in the university who wish to transfer into the Department of Government or develop a double major or minor should have a grade point average of 2.50 or higher and the approval of the undergraduate academic advisor.

University Requirements

- A total of 120 credit hours
- 6 credit hours of college writing
- 3 credit hours of college mathematics or the equivalent by examination

General Education Requirements

- A total of ten courses, consisting of one foundation course and one second-level course in an approved sequence from each of the five curricular areas
- No more than two courses may be taken in the same discipline

Major Requirements

- 57 credit hours with grades of C or better

Course Requirements

- COMM-200 Writing for Mass Communication (3)
- COMM-310 Public Speaking (3)

M.A. in Political Communication

The M.A. in Political Communication offers students a unique opportunity to prepare for professional careers in government, politics, public affairs, public policy, and communication through the study of political and communication theory, research, and practice. This interdisciplinary M.A. program allows students to take courses in both the School of Public Affairs (SPA) and the School of Communication (SOC) that emphasize thorough grounding in political science, strategic communication, research, and media. In addition, students take hands-on courses designed to teach applied politics and communication skills over a broad range of media and production classes that introduce them to news writing, persuasive writing, public opinion research, online advocacy, and campaign management. The program gives students a strong background in research skills, a broad knowledge of political issues, and a deep understanding of how the political process and media work. Students will gain the knowledge, skills, and ethical grounding to be successful as politicians, policy-makers, political communication professionals, and campaign executives.

Admission to the Program

Applicants must hold an accredited bachelor's degree with a cumulative grade point average of at least 3.0 on a 4.0 scale. Applicants are required to submit results of the Graduate Record Examination (GRE), unless they have eight or more years of relevant work experience, in which case they may apply for a GRE-waiver by contacting the school through which they are applying. GRE-waiver applicants must provide the details of their relevant work experience and the dates they were so employed. In addition, international students whose first language is not English are required to submit results of the Test of English as a Second Language (TOEFL). A strong TOEFL score is necessary to ensure that students may benefit fully from the course work. The preferred minimum TOEFL score is 600 on the paper-based test, 100 on the Internet-based test, and 250 on the computer-based test, or a 7 on the IELTS. All applicants must submit two letters of reference. Applicants who received their bachelor's degrees five or fewer years before the date of application should submit at least one letter that evaluates their undergraduate academic performance and suitability for graduate study in political science and communication.

Students apply to either SPA or SOC. Applications will be reviewed jointly by SPA and SOC, with both schools agreeing on student admission.

Degree Requirements

- 36 credit hours of approved graduate work with a cumulative grade point average of 3.00 and a grade of B or better in each of the required courses.
- Requests for the transfer of a maximum of 6 graduate credit hours will be considered in exceptional cases.
- Students take a comprehensive examination jointly administered by SOC and SPA at the conclusion of their required core courses.

Combined B.A. and M.A. in Political Communication

American University offers students the opportunity to earn both undergraduate and graduate degrees through its accelerated bachelor's/master's programs. Undergraduate students may complete up to 3 credits for every 9 credits required for the graduate degree that may be applied to the requirements for both degree programs. The department that oversees the graduate program the student enters will determine if the courses the undergraduate student completes will satisfy master's degree requirements. Bachelor's master's students must complete at least 18 in-residence credit hours at the graduate level after the bachelor's degree is earned and maintain continuous, sequential enrollment in the two programs.

This program enables qualified students to earn, in a continuous plan of study, both a bachelor's degree and the M.A. in Political Communication.

Requirements

- Admission to the combined B.A./M.A. program requires junior standing, a minimum cumulative grade point average of 3.5, a completed application form, a written faculty recommendation, an essay on the student's interests and abilities in political science and communication, and an interview with the Department of Government graduate advisor if the student is entering through the School of Public Affairs, or the advisor for the Division of Public Communication if the student is entering through the School of Communication. Students must apply for admission to the graduate program no later than the last undergraduate semester. The Graduate Record Examination (GRE) is required for admission to the M.A. program.
- All requirements for a bachelor's degree in the student's major at American University. Undergraduate students may apply up to 9 credit hours of approved graduate-level course work to satisfy the requirements for both degrees.
- All requirements for the M.A. in Political Communication, including a minimum of 18 credit hours completed in residence in graduate status after the undergraduate degree has been awarded. Students must finish the master's degree requirements within three years from the date of first enrollment in the master's program.

Admission to the Program

Open to students with a bachelor's degree or equivalent from an accredited institution.

Certificate Requirements

- 15 credit hours of approved course work with at least 6 credit hours at the 600-level or above with grades of C or better. Grades of C- or D in certificate program courses are not accepted toward the fulfillment of certificate requirements, although these grades will be included in the calculation of the GPA. Students must have at least a 3.0 GPA in certificate courses in order to be awarded a certificate. Students in certificate programs must take a minimum of 6 credit hours during each 12-month period and complete the certificate in four years. International students must enroll in 9 credit hours each semester (except for summer). A maximum of 3 credit hours earned at an accredited college or university may be applied toward the certificate as transfer credit.

Ph.D. in Political Science

Admission to the Program

Applicants are considered and admitted for the fall semester only. February 1 is the deadline for application for admission. All applicants must submit scores from the verbal and quantitative sections of the Graduate Record Examination (GRE). The normal minimum for consideration is a grade point average of 3.30 (on a 4.00 scale) in all previous academic work. Preference will be given to applicants for full-time study, although highly qualified students may be admitted for part-time study.

Major Fields

American Politics or Comparative Politics

Degree Requirements

- 72 credit hours of approved graduate work are required for students entering the program with a bachelor's degree; a minimum of 48 credit hours is required of students who have completed an approved master's degree. A minimum grade point average of 3.2 in all course work is required to remain in good standing and to earn the degree.

- Advancement to candidacy is accomplished by successfully defending a qualifier paper after the first year, passing written qualifying examinations in primary and secondary fields, and by successfully defending a dissertation prospectus.
- Students take a primary field comprehensive examination in American politics or comparative politics. They take a secondary field comprehensive examination in the other field, or, with written approval from the faculty advisor and department chair, they may take a second field elsewhere in the School of Public Affairs (SPA), the School of International Service (SIS), or in another doctoral degree-granting teaching unit. Under special circumstances, students may take a second field outside American University, subject to the approval of the SPA graduate director, in consultation with the department's faculty advisor for the PhD program.
- The Ph.D. is fundamentally a degree in preparation for an academic career of research and teaching. Understanding scientific inquiry and correctly using research techniques require extensive preparation. All students in the program take four courses in research methods designed to help doctoral students comprehend the nature of science and master tools of research (see Course Requirements, below). Each student selects a specialization in which to complete an original research project under the direction of program faculty and write a dissertation. Students may choose research projects within one of the major areas. It is the responsibility of the student to secure the agreement of a Department of Government full-time tenured or tenure-track faculty member to serve as the chair of the dissertation committee. One of the other two members of the committee may be from outside SPA. As part of this process, each student must publicly defend the research proposal before the dissertation committee and other interested faculty. The committee and the chair of the department, in consultation with the SPA director of doctoral programs, must approve the research proposal in order for the candidate to advance to candidacy.

As work on the dissertation project progresses, students register for dissertation credit. Substantive course work may be used as part of this requirement where it contributes directly to the research specialization and is specifically recommended by the dissertation committee chair.

Upon writing the dissertation, the candidate submits the manuscript to the dissertation committee for review. If the committee members approve the dissertation, the candidate must complete an oral defense of it, including demonstrable mastery of related literature on the general field in which it lies before the committee and other interested faculty. After hearing the candidate's defense, the committee decides

whether the dissertation is acceptable as the culminating work of the student's doctoral career.

The dissertation must consist of high quality original research directly relevant to the student's doctoral program. A dissertation proposal may be rejected if the topic does not address a major research issue in political science, the research design is inadequate, the methodology is inappropriate, or because no full-time tenured or tenure-track faculty member in the Department of Government is academically competent or available to supervise the project. If the candidate fails to maintain satisfactory progress toward completion of the dissertation, his or her candidacy may be terminated.

The Department of Justice, Law and Society (DJLS) has one of the oldest programs in the field of justice in the United States. The full-time faculty in the department have educational backgrounds in law, criminology, criminal justice, philosophy, political science, sociology, psychology, and history. The department offers the Bachelor of Arts in Justice and Law and in Law and Society, Master of Science in Justice, Law and Society; a dual Juris Doctor and Master of Science program with the Washington College of Law, and the Ph.D. in Justice, Law and Society.

The B.A. in Justice and Law, with concentrations in criminal justice or criminology, analyzes the foundations, functions, policies, and procedures of justice. Crime and deviance are serious public policy concerns in American society, and systems of justice are the main public policy responses for dealing with these problems. Cross-cultural and international perspectives are brought to bear when they shed light on the nature of crime and deviance in America or on the workings of American systems of justice. The B.A. in Law and Society, with concentrations in the humanities or social sciences, is an interdisciplinary program that examines the role of law in relation to social, political, and economic institutions. The complex relation of law and justice, broadly conceived, is the central consideration in this program of study. Drawing on the social sciences and humanities, this curriculum offers an historical and international perspective on legal issues. Both undergraduate majors can be considered prelaw majors.

The M.S. in Justice, Law and Society further elaborates on the central concerns of the undergraduate degrees offered in DJLS. The M.S. concentration in justice and public policy offers theoretical and applied grounding in criminology and criminal justice issues, including all levels of policing and corrections. The concentration in terrorism and security policy focuses on national security as well as the causes of terrorism and policy affecting its prevention. Law and society is an interdisciplinary approach to the role of law in society including the-

oretical legal foundations and law as it relates to the social sciences and issues of social justice. The jurisprudence and social thought concentration emphasizes both philosophical and comparative perspectives on law and analytical thought.

The department's programs prepare students for law school and further graduate study, as well as for entry-level positions and professional careers in the justice field. Washington, D.C. provides a source of cooperative education and internship placements, which often lead to challenging employment

University Honors Program

To graduate with University Honors, students must be admitted to the University Honors Program, maintain a minimum cumulative GPA of 3.50, and receive grades of B or better in all University Honors course work. There are three levels of University Honors course requirements: Level I (100-200-level); Level II (300-level and above); and Level III (Honors Capstone Project). The department Honors coordinator advises students in the University Honors Program regarding requirements for graduating with University Honors in the major.

Combined B.A. and M.S. in Justice, Law and Society

American University offers students the opportunity to earn both undergraduate and graduate degrees through its accelerated bachelor's/master's programs. Undergraduate students may complete up to 3 credits for every 9 credits required for the graduate degree that may be applied to the requirements for both degree programs. The department that oversees the graduate program the student enters will determine if the courses the undergraduate student completes will satisfy master's degree requirements. Bachelor's/master's students must complete at least 18 in-residence credit hours at the graduate level after the bachelor's degree is earned and maintain continuous, sequential enrollment in the two programs.

This program allows students to complete the B.A. in Justice and Law or B.A. in Law and Society and the M.S. in Justice, Law and Society.

Requirements

- Undergraduate students with majors in justice, law and society, or related disciplines apply to this program through formal application no later than the last undergraduate semester. Admissions decisions are based on the normal M.S. standards and procedures of the school.
- All requirements for the B.A. in Justice and Law or B.A. in Law and Society
Undergraduate students may apply up to 9 credit hours of approved graduate-level course work to satisfy the requirements for both degrees.
- All requirements for the M.S. in Justice, Law and Society, including a minimum of 18 credit hours completed in residence in graduate status after the undergraduate degree has been awarded. Students must finish the master's degree requirements within three years from the date of first enrollment in the master's program.

M.S. in Justice, Law and Society

The M.S. in Justice, Law and Society is an interdisciplinary program focusing on the foundations and structure of institutions of justice and law. Students receive a thorough grounding in both empirical and theoretical approaches to public policy issues and take a concentration in either justice and public policy, law and society, jurisprudence and social thought, or terrorism and security policy.

The concentration in justice and public policy provides a theoretical grounding in criminology and course work in criminal justice, including corrections and policing. This concentration prepares students for a variety of practitioner and research positions in criminal justice, or for advanced graduate work in criminology or criminal justice.

The concentration in jurisprudence and social thought emphasizes philosophical and comparative perspectives on law, providing students with an appreciation of the nature and structural foundations of law and a firm grounding in analytical thought. This concentration serves students who have a background in either the liberal arts or law and are interested in combining the two.

The concentration in law and society provides an interdisciplinary perspective on the role of law in society, including the theoretical foundations of law, the relationship between law and the social sciences, and broad issues of social justice. This concentration prepares students for positions in policy research and analysis or for advanced graduate work in law and society.

The concentration in terrorism and security policy focuses on issues of national security from the perspectives of criminology and criminal justice. This concentration prepares students for a variety of practitioner and research positions in the area of prevention and control of terrorism.

Admission to the Program

In addition to meeting the minimum university requirements for graduate study, applicants must submit Graduate Record Examination (GRE) test scores. Applicants are evaluated on the basis of scholastic achievement in their last 60 credit hours of undergraduate work, test scores and two letters of recommendation.

Degree Requirements

- 33 credit hours of approved graduate work with at least 18 credit hours at the 600 level
- One three-hour written comprehensive examination in one of the concentration areas, justice and public policy, jurisprudence and social thought, law and society, or terrorism and security policy. Students must complete foundational seminars and electives in the relevant area before taking the examination.
- Research requirement:
Justice and Public Policy: JLS-680 Introduction to Justice Research I and JLS-681 Introduction to Justice Research II with grades of B or better
Jurisprudence and Social Thought: JLS-603 The Rule of Law and Due Process and JLS-604 Foundations of Knowledge with grades of B or better

M.S. in Justice, Law and Society and J.D.

Admission to the Program

The program enables students to complete the J.D. and M.S. degrees in approximately four years. Students must apply to and be accepted by both the Washington College of Law and the Department of Justice, Law and Society. Admission to either the M.S. or J.D. program in no way implies that admission to both programs will be granted.

Students may apply to both programs simultaneously or begin either program separately and then apply to the other program. However, once the study of law has begun, no justice courses can be taken until one full year of full-time law study has been completed.

Admission criteria are the same as those for the M.S. in Justice, Law and Society. If application is made initially to the Washington College of Law (WCL), LSAT scores are accepted in place of GRE general scores and application materials submitted to the WCL are reviewed for admission to the Department of Justice, Law and Society.

Requirements

- All requirements for the J.D. in the Washington College of Law
- All requirements for the M.S. in Justice, Law and Society
 Students may apply 6 credit hours of justice courses to the J.D. degree and 6 credit hours of law courses to the M.S. in Justice, Law and Society. The law advisor must approve the justice courses and the justice advisor must approve the law courses in advance of taking the courses to be applied toward both degrees.

Ph.D. in Justice, Law and Society

Admission to the Program

Applicants are considered and admitted for the fall semester only. February 1 is the deadline for application for admission. All applicants must submit scores from the Graduate Record Examination (GRE). The normal minimum for consideration is a grade point average of 3.20 (on a 4.00 scale) in all previous academic work. Preference will be given to applicants for full-time study, although highly qualified students may be admitted for part-time study.

Major Field

Justice, Law and Society

Degree Requirements

- 72 credit hours of approved graduate work is required for students entering the program with a bachelor's degree; a minimum of 48 credit hours is required of students who have completed an approved master's degree.
 A minimum grade point average of 3.2 in all course work is required to remain in good standing and to earn the degree.
- Advancement to candidacy is accomplished by successfully completing a written qualifying examination at the end of the second semester of study.

- Students take two written comprehensive examinations, the first in either justice or law and society. The second may be the other of these two fields or may be any other major field. Following completion of the written examinations, all students take an oral examination on their entire program of study before a committee of faculty members, and defend their dissertation proposal.

Students take a primary field comprehensive examination in justice or law and society. They take a secondary field comprehensive examination in the other field, or they may take a second field elsewhere in the School of Public Affairs (SPA), the School of International Service, or in another doctoral degree-granting teaching unit. Under special circumstances, students may take a second field outside American University, subject to the approval of the SPA graduate director, in consultation with the department.

- The Ph.D. is fundamentally a research degree. Understanding scientific inquiry and correctly using research techniques require extensive preparation. All students in the program take three courses designed to help doctoral students comprehend the nature of science and master tools of research (see Course Requirements, below).

Each student selects a specialization in which to complete an original research project under the direction of program faculty and write a dissertation. Students may choose research projects within one of the major areas or select a research specialization from one of the other graduate fields within the school.

Each student prepares a research proposal for the dissertation project. It is the responsibility of the student to secure the agreement of a School of Public Affairs full-time tenured or tenure-track faculty member to serve as the chair of the dissertation committee. One of the two other members of the committee may be from outside SPA. As part of this process, each student must publicly defend the research proposal before the dissertation committee and other interested faculty. The committee and the SPA director of doctoral programs (acting for the dean) must approve the defense and the research proposal. The topic covered by the proposal must be related to ongoing research or publications of the supervising faculty.

As work on the dissertation project progresses, students register dissertation credit. Substantive course work may be used as part of this requirement where it contributes directly to the research specialization and is specifically recommended by the dissertation committee chair.

Upon completion of the research and the written dissertation, the candidate submits the manuscript to the dissertation committee for review. If the committee members approve the manuscript, the candidate must complete an oral defense of

the dissertation and the general field in which it lies before the committee and other interested faculty. The committee determines conclusively at this point whether the dissertation and examination are acceptable.

The dissertation must consist of high quality original research directly relevant to the student's doctoral program. A dissertation proposal may be rejected if the topic does not address a major research issue in justice, law and society, the research design is inadequate, the methodology is inappropriate, or because no full-time tenured or tenure-track faculty member in the School of Public Affairs is academically competent or available to supervise the project. If the candidate fails to maintain satisfactory progress toward completion of the dissertation, his or her candidacy may be terminated.

Through its teaching and key location in Washington, D.C., the Department of Public Administration and Policy (DPAP) seeks to enhance the knowledge, professional skills, and leadership potential of its students in their public service careers.

Graduate degrees offered by the department include the Master of Public Administration (M.P.A.), Master of Public Policy (M.P.P.), and Ph.D. in Public Administration. The department also offers two executive master's degrees: the Key Executive Leadership M.P.A.; and the M.S. in Organization Development; as a public service, it also offers a variety of noncredit and nondegree executive education programs. DPAP is the only department in the nation to have three master's programs accredited by the National Association of Schools of Public Affairs and Administration (NASPAA). The United States and other governments worldwide face the challenge of discerning how best to harness the energy and expertise of public servants, the passion and commitment of nonprofit organizations, and the dynamism and creativity of markets in the pursuit of democratic and constitutionally informed public purposes. We educate students entering, engaged in, and interacting with government agencies in the U.S. and abroad. We treat administration and policy as interrelated subjects strongly influenced

by the values of public service and democratic constitutionalism. Through our research and civic involvement, we also seek to shape and enhance what is practiced and taught in our field.

Minor in Public Administration and Policy

The minor in public administration and policy is designed to give undergraduate students a deeper appreciation for the challenges in organizing the modern state and the manner in which the intricacies of implementation affect the achievement of public policies.

- 21 credit hours with grades of C or better and at least 12 credit hours unique to the minor
GOVT-110 Politics in the United States is recommended as a prerequisite to the minor.

Master of Public Administration (M.P.A.)

The Master of Public Administration program provides students the knowledge, skills, and values for functioning with distinction throughout their careers at different levels of responsibility within the U.S. constitutional context and abroad.

Admission to the Program

Applicants must meet the minimum university requirements for graduate study. Admission decisions are based on each applicant's academic record, two letters of recommendation, test scores from the Graduate Record Examination (GRE), and an essay written by the applicant on his or her background and career interests. Applicants may substitute test scores from similar tests, such as the GMAT or LSAT, for the GRE where appropriate. Applicants who received their undergraduate degree more than eight years prior to their date of application may waive the requirement for test scores by submitting a statement describing their professional experience. The department values applicants who have acquired practical experience before beginning their professional degree program. Admission decisions are based on each applicant's total record and not on any single strength or deficiency.

Degree Requirements

- 42 credit hours of approved graduate work

A student who has performed successfully for several years as a manager in a supervisory role in a public service organization before admission to the M.P.A. program may apply to the department chair to have the total program reduced by up to 6 credit hours. Such application must specify relevant responsibilities and be submitted so as to permit evaluation prior to the commencement of the 13th credit of course work. Waiver of the full 6 credit hours is reserved for students at the GS-13 level or its equivalent who exercise significant responsibilities for supervision and program management; a 3-credit waiver may be granted to students with significant responsibilities for supervision or program management. Credit earned as part of an internship may not count toward the total degree requirement of any student receiving such a reduction.

Due to a special arrangement, students admitted to the M.P.A. may utilize qualifying courses offered by the Office of Personnel Management (OPM) Executive Management Training Centers toward the credit hours required to earn the degree. Qualifying courses from these two institutions have been certified for college credit by the American Council on Education (ACE).

Students who successfully complete the SPA Key Executive Leadership Development Program may apply to reduce the overall degree requirement for the 42-credit hour M.P.A. by up to an additional 6 credit hours. Students who avail themselves of this provision remain eligible to request the 3 or 6 credit hour waiver for prior professional experience as noted above. At least 30 credit hours must be earned in residence for the M.P.A.

Up to 6 credit hours may be waived for qualifying courses and/or transfer credit from another academic institution, and up to 6 credit hours may be waived for significant management experience, for a total not to exceed 12 credit hours. Students who avail themselves of this provision will be encouraged to take advanced level work in designated areas as a consequence.

Combined Bachelor's and Master of Public Administration

American University offers students the opportunity to earn both undergraduate and graduate degrees through its accelerated bachelor's/master's programs. Undergraduate students may complete up to 3 credits for every 9 credits required for the graduate degree that may be applied to the requirements for both degree programs. The department that oversees the graduate program the student enters will determine if the courses the undergraduate student completes will satisfy master's degree requirements. Bachelor's/master's students must complete at least 18 in-residence credit hours at the graduate level after the bachelor's degree is earned and maintain continuous, sequential enrollment in the two programs.

This program enables qualified students to earn, in a continuous plan of study, both a bachelor's degree with a major in any related discipline and the Master of Public Administration (M.P.A.).

Requirements

- Admission to the combined bachelor's /M.P.A. program requires junior standing, a minimum cumulative grade point average of 3.00, a completed application form available from the Department of Public Administration and Policy (DPAP), a written faculty recommendation, an essay on the student's interests and abilities in public administration, and an interview with the DPAP department chair or academic advisor.
- All requirements for a bachelor's degree with a major in any related discipline
Undergraduate students may apply up to 12 credit hours of approved graduate-level course work to satisfy the requirements for both degrees. Students take courses in statistics, public administration, and other courses approved by DPAP.
- All requirements for the M.P.A., including a minimum of 18 credit hours completed in residence in graduate status after the undergraduate degree has been awarded. Students must finish the master's degree requirements within three years from the date of first enrollment in the master's program.

Master of Public Administration: Key Executive Leadership (M.P.A.)

Using executive education models, the Key Executive Leadership M.P.A. prepares mid-level public servants to become more effective organizational leaders. Begun in 1975, the Key Executive Leadership Program is a graduate course of study in the skills, knowledge, and values needed by top-level public executives and offers participants the perspectives and competencies necessary for effective performance in high level executive work. The curriculum includes the major activity areas used in certifying candidates for career positions in the Se-

nior Executive Service. Classes are held on selected Fridays and weekends. Participants continue to work at their jobs while completing their studies.

Admission to the Key Executive Leadership Program is competitive and restricted to GS-13s or above (or the equivalent) who exercise significant responsibilities for program management or policy development and are preparing themselves for positions of greater responsibility. The program is oriented to civilian personnel in the federal government, military or other uniformed personnel, state and local officials, and personnel in the nonprofit sector.

With the expectation that graduates of the program will move from managerial to leadership roles within their organizations, the executive M.P.A. curriculum encompasses the principal components of public service education: the leadership of public service organizations, the public policy and organizational environment, and the analysis of issues.

Degree Requirements

- 36 credit hours of approved graduate work
Students who successfully complete the SPA Key Executive Leadership Development Program may apply to reduce the overall degree requirement for the 42-credit hour M.P.A. by up to an additional 6 credit hours. Students who avail themselves of this provision remain eligible to request the 3 or 6 credit hour waiver for prior professional experience as noted above. At least 30 credit hours must be earned in residence for the M.P.A.

M.S. in Organization Development

The AU/NTL M.S. in Organization Development is a unique partnership between American University and the NTL Institute for Applied Behavioral Science. This non-traditional program is well suited for individuals who intend to become scholar-practitioners. Graduates acquire knowledge and skills in organizational development (OD) theory, research, strategy, methodology, and facilitation skills. They apply these competencies as consultants and leaders in the public, private, NGO, and non-profit sectors. The program emphasizes action research, experiential learning, and self-awareness in facilitating complex organizational change in global, multicultural contexts. Students acquire proficiency in the core competencies of OD as recommended by the Academy of Management. Classes are designed for the full-time employed adult learner, and generally meet for two 3-day weekends separated by three to four weeks. Students matriculate through the entire program as members of a cohort.

Admission to the Program

In addition to meeting the minimum university requirements for graduate study, applicants must possess two years of relevant professional experience in organization development, human resource development, or related fields, or for students in the AU/NTL/NLC program, professional experience in labor management relations. Exceptions may be made for highly qualified applicants with many years of service and a record of exceptional accomplishment. Such candidates are admitted provisionally, and after completing four courses with a grade

point average of 3.00 or higher, may be advanced to full standing.

Degree Requirements

- 39 credit hours of approved graduate work
- The research requirement is satisfied by completing two of the following courses with grades of B or better:
 - PUAD-641 Applied Research Methods (3)
 - PUAD-642 Organization Dynamics (3)
 - PUAD-646 Consultation Skills (3)
 - PUAD-677 Introduction to Organization Development (3)
- Written comprehensive examination
- Students must take a human interaction laboratory from the NTL Institute on group and personal interaction

Ph.D. in Public Administration

The mission of the Ph.D program is to educate scholars who produce original research that is methodologically sound, socially relevant, and makes important contributions to knowledge and theory.

Admission to the Program

Applicants are considered and admitted for the fall semester only. January 1 is the deadline for application for admission. All applicants must submit scores from the verbal and quantitative sections of the Graduate Record Examination (GRE). The normal minimum for consideration is a grade point average of 3.20 (on a 4.00 scale) in all previous academic work. Applicants are admitted for full-time study only.

Major Field

Public Administration

Degree Requirements

- 72 hours of approved graduate work is required for students entering the program with a bachelor's degree; a minimum of 48 hours is required of students who have completed an approved master's degree.

A minimum grade point average of 3.2 in all course work is required to remain in good standing and to earn the degree.

- Advancement to candidacy is accomplished by successfully completing a written qualifying examination on the major field at the end of the second semester of study.
- Students take two written comprehensive examinations, the first in public administration. The second field may be a concentration in the Department of Public Administration and Policy including policy analysis, public management, public finance, public administration and law, organizational theory, policy processes and institutions, or others with faculty approval. In addition, the second field may be a field elsewhere in the School of Public Affairs including American politics, comparative politics, justice, or law and society, or any other field offered in another doctoral degree-granting teaching unit. Under special circumstances, students may take a field outside American University, subject to the approval of the SPA director of doctoral programs.
- The Ph.D. is fundamentally a research degree. Understanding scientific inquiry and correctly using research techniques require extensive preparation. All students in the program take three courses designed to help doctoral students comprehend the nature of science and master tools of research (see Course Requirements, below).
- Each student selects a research specialization in which he or she will complete an original project under the direction of program faculty and write a dissertation. Students may choose research projects within one of the major areas or they may select a research specialization from one of the other graduate fields within the school.

Each student prepares a research proposal for the dissertation project. It is the responsibility of the student to secure the agreement of a School of Public Affairs full-time tenured or tenure-track faculty member to serve as the chair of the dissertation committee. One of the two other members of the committee may be from outside the School of Public Affairs. Each student must publicly defend the research proposal before the dissertation committee and other interested faculty.

The committee and the SPA director of doctoral programs (acting for the dean) must approve the defense and the research proposal. The topic covered by the proposal must be related to ongoing research or publications of the supervising faculty.

As work on the dissertation project progresses, students register for directed study. Substantive course work may be used as part of this requirement where it contributes directly to the research specialization and is specifically recommended by the dissertation chair.

Upon completion of the research and the written dissertation, the candidate submits his or her manuscript to the dissertation committee for review. If the committee members approve the manuscript, the candidate must complete an oral defense of the dissertation and the general field in which it lies before the committee and other interested faculty. The committee

determines conclusively at this point whether the dissertation and examination are acceptable.

The dissertation must consist of high quality original research directly relevant to the student's doctoral program. A dissertation proposal may be rejected if the topic does not address a major research issue in political science or public administration, the research design is inadequate, the methodology is inappropriate, or because no full-time tenured or tenure-track faculty member in the School of Public Affairs is academically competent or available to supervise the project. If the candidate fails to maintain satisfactory progress toward completion of the dissertation, his or her candidacy may be terminated.

Course Requirements

Founded in 1896, the Washington College of Law (WCL) of American University combines a rigorous and challenging atmosphere for legal studies with a highly personal approach to teaching. WCL was established as a coeducational school to ensure that women, as well as men, would have the opportunity to study law. The school's origins underlie the faculty and administration's special interest in the future of women in the law and have led to a long tradition of providing full access to the study of law to those who have been excluded from the mainstream of the profession.

The Washington College of Law became a professional division of American University in 1949 and is fully accredited. It is a member of the Association of American Law Schools and is approved by the American Bar Association. The school meets the requirements for preparation for the bar in all states and carries the certification of the United States District Court for the District of Columbia, as well as the New York State Department of Education.

The focus of the curriculum is on the methodology, practical skills, and theories fundamental to the practice of law. This is carried out through a wide range of traditional course offerings, supplemented by an extensive clinical program, simulation courses, and an international law program. These educational offerings are complemented by the vast legal network of federal agencies, courts, regulatory commissions, international organizations, and law firms present in Washington.

Academic Programs

The academic program leading to the Juris Doctor (J.D.) degree is designed to allow students to develop special skills in public law, business and commercial law, international law, property and land use, and related fields. In addition to the J.D. program, Washington College of Law offers the Master of Laws (LL.M.) in International Legal Studies, Law and Government, and Advocacy, as well as the Doctor of Juridical Science (S.J.D.) The LL.M. program in International Legal Studies permits specialization in one of eight areas: international business law, international environmental law, international human rights law, gender and the law, international commercial arbitration, free trade agreements and regional integration, international organizations, and international and comparative protection of intellectual property. The LL.M. program in Law and Government allows graduate studies in the broad areas of civil and constitutional rights, business and financial regulation (including banking, trade, securities, tax, and antitrust law and policy), and administrative law and regulatory practice (including health law and policy, labor and employment law and policy, intellectual property and information policy, environmental law and policy, and immigration law and policy). The LL.M. program in Advocacy provides opportunities for law graduates to enhance their legal advocacy skills in and out of the courtroom and combines a rigorous academic component and a breadth of practical litigation training.

WCL also participates in dual degree programs with other American University schools, which offer students the opportunity to receive both a J.D. from the Washington College of Law and a master's degree in International Affairs with the School of International Service; Justice, Law and Society, Public Administration (M.P.A.), or Public Policy (M.P.P.) with the School of Public Affairs; or Business Administration (M.B.A.) with the Kogod School of Business. Dual degree LL.M. programs are also available with the M.B.A., M.P.A., or M.P.P.

American University's law school has a strong national and international substantive focus, offering a broad range of courses in addition to the basic program necessary for state bar examinations. Clinical programs involve students in providing representation, under close faculty supervision, of clients with pending legal problems. Students have responsibility for every phase of cases, from the initial client interview through the trial or appeal. The Clinics include Community and Economic Development Law, Criminal Justice, D.C. Law Students in Court, Disability Rights Law, Domestic Violence, General Practice,

Glushko-Samuelsan Intellectual Property Law, Janet R. Spragens Federal Tax, Immigrant Justice, International Humans Rights Law, and Women and the Law. For more information, go to: www.wcl.american.edu/clinical.

Beyond the classroom, clinical programs, and supervised externships and field placements at federal, state, and local agencies, courts, and legislatures, academic offerings are enriched by an extensive independent study program allowing for intensive faculty-student work on complex legal research projects. In addition, Washington College of Law publications, including *The American University Law Review*, *The American University International Law Review*, *The Administrative Law Review*, and *The American University Journal of Gender, Social Policy & the Law* provide opportunities for students to develop expertise in traditional legal writing and research. For more information and a full listing of WCL publications, go to: www.wcl.american.edu/pub.cfm.

The basic first-year classes are taught using case analysis and dialogue as well as the problem method. First-year students take an intensive course in legal research and writing taught by attorneys from leading law firms or government agencies. Upper-class courses are mostly elective and include a wide variety of teaching styles and formats.

Law Library

The Pence Law Library is central to legal research for Washington College of Law students. In addition to extensive holdings of legal publications and periodicals, the Law Library provides access to databases such as LexisNexis, Westlaw, HeinOnline, LoisLaw, and WorldCat, as well as the websites and catalogs of thousands of other libraries worldwide, including the Library of Congress, the libraries of all members of the Washington Research Library Consortium (WRLC) and the libraries of all other area law schools. All these holdings and databases can be searched through the Law Library's catalog, LEAGLE, at <http://leagle.wcl.american.edu/>.

The library's special collections include depositories of U.S. and European Union documents; the Goodman Collection of Rare Law Books; the Richard Baxter Collection in International Law; a collection of litigation documents, including transcripts from the Iran Contra Controversy of the late 1980s; the archives of the former National Bankruptcy Review Commission; and the only existing complete archive of the former Administrative Conference of the United States. A new special collection of legal fiction containing over 1400 titles was also recently added. For more information on the Pence Law Library, go to: <http://library.wcl.american.edu/>.

Legal Study in Washington, D. C.

The Washington College of Law is located in the northwest section of the city a short distance from Congress, the Supreme Court, the United States District Court and Court of Appeals, and the Maryland, Virginia, and District of Columbia courts. Washington, D.C. is the center of all federal regulatory process, and is the principal home of every major federal agency, such as the Securities and Exchange Commission, the Federal Communications Commission, the Internal Revenue Service, and the Federal Trade Commission. Washington is also the base for cabinet-level departments such as the Department of Energy, the Department of Education, the Department of Justice, and other agencies which perform functions critical to the federal system and contribute to an environment for legal education unparalleled outside this city. Judicial, executive, and legislative internships form an integral part of the legal education of many WCL students.

In addition, Washington is the seat of the world's principal intergovernmental financial institutions, including the World Bank, the International Monetary Fund, and the Inter-American Development Bank. Also located in Washington are the Organization of American States and the International Telecommunications Satellite Organization. Private or nongovernmental organizations, among them Amnesty International and the International Human Rights Law Group, have offices in Washington, and a majority of the world's leading international law firms can be found here.

Taking advantage of this natural setting for legal study and work, WCL offers many unique courses taught by its full-time faculty and by specialists who are members of the adjunct faculty. Field components are available in various courts and government agencies, and are carefully supervised by faculty members and designated field supervisors. For second- and third-year students interested in part-time law-related jobs, the Career Services Office coordinates requests for law student employment from law firms, corporations, courts, and government agencies. Further, the law school offers a unique training program in federal regulatory process which has a separate lecture faculty of top-level officials from the government and private sector.

Washington Summer Internship

Students gain hands-on skills interning full time for a professional organization in Washington, D.C., and augment their experiences through a seminar in their field of study that meets one half-day per week. Taught by an American University faculty member, the course gives students an overview of their area of interest from a Washington perspective and introduces them to important decision makers. Internships are available in several fields including American politics, economics and international business, international affairs, journalism and new media, and justice and law.

For more information, contact 202-895-4900 or 800-424-2600, email summerintern@american.edu, or go to: www.american.edu/washingtonsemester/summerintern/.

Washington Internships for Native Students (WINS)

The Washington Internships for Native Students (WINS) offers American Indian/Alaska Native/Native Hawaiian (AI/AN/NH) students the opportunity to build leadership skills while living, studying, and interning in Washington, DC. Developed in response to the White House Initiative on American Indians and Alaska Natives, this enriching program offers qualified students full scholarships funded by American University and sponsoring organizations. Participating students gain professional work experience through interning at a federal agency or private firm, take courses focusing on Native American pub-

lic policy concerns, and enjoy engaging social and cultural extra-curricular activities.

Participants gain knowledge, skills, academic credit, and practical work experience through this comprehensive and intensive program. While working full-time for a government agency or private firm in an academically supervised internship, students earn 6 credits in the summer term (9 credits during the fall and spring semester programs). American University provides full academic support for the internship and additional course work in the evenings. In addition to making connections in DC, participants meet other AI/AN/NH students from across the country through the full support of a multi-cultural campus environment.

For more information, contact 202-885-5934, email wins@american.edu, or go to: www.american.edu/wins/.

Washington Mentorship Program

This 15-credit fall semester program gives students admitted as spring freshmen an insider's perspective on Washington, DC. Housed on AU's Tenley Campus, just three and a half blocks—an easy walk or a short shuttle bus ride—from the main campus, and based on the highly successful academic model of AU's Washington Semester Program, the Washington Mentorship Program is grounded in the best practices of experiential and traditional learning. All academic credits earned for successfully completed courses transfer to the student's degree program.

As members of the AU community, students have the opportunity to enjoy the full college experience, including participating fully in college classes, living in a residence hall room on the Tenley campus, eating in a dining hall, getting involved in events and activities on both the Tenley and main campuses, and having full access to all university services, facilities, and resources. No financial aid is available for the Washington Mentorship Program. Although students may receive financial aid packages for the Spring semester, this aid cannot be applied to the WMP. The Washington Mentorship Program costs equal those on the main campus at AU.

For more information, contact 202-895-4936, email mentorship@american.edu, or go to: www.american.edu/washingtonsemester/mentorship/.

Graduate Gateway Program

The Washington Semester's Graduate Gateway Program provides a hands-on experience that includes two graduate-level courses and an internship. Students earn seven credits in their field of study, chosen from applied politics, communications and new media, global business, history, and international affairs.

For more information, contact 202-895-4900, email washsem@american.edu, or go to: www.american.edu/washingtonsemester/grad/.

AU Abroad/Abroad at AU

AU Abroad offers the opportunity for students to study abroad and gain full American University course credit. All students are encouraged to learn and work in another culture. Students may spend a semester or year at prestigious universities in over 40 countries, spanning six continents. For programs highlighted below, students enroll in courses offered by American University. For other programs, students utilize direct enrollment at the host institution and receive full AU course credit upon program completion. For more information and a full listing of AU Abroad programs, go to www.auabroad.american.edu/, call 202-885-1320 or 866-313-0757, or email auabroad@american.edu.

Belgium: Brussels

The European Union in Action Program offers students an in-depth understanding of the European Union (EU) and NATO. Based in Brussels, Belgium, it combines classes, seminars, and internships, with access to decision makers in Brussels, field trips, homestay housing, cultural activities, and a European campus environment.

Chile: Santiago

Hosted by the Universidad Diego Portales (UDP), the Chile: Santiago Program offers a rich analysis of the contemporary issues that affect Chile and Latin America within a context of the world stage, such as global climate change, sustainable development, poverty, social issues, globalization, and politics.

China: Beijing

The Beijing program offers students a broad range of opportunities to learn about Chinese arts, culture, philosophy, political science, economics, business, history, international relations, Asian studies, and language while living, studying and interning in Beijing. The program is a special institute based on-campus at Peking University. Field trips, internships and other activities provide students a truly in-depth look at China. A Chinese language immersion track is also available.

Cuba: Havana

The Cuba: Havana program is a structured study abroad program designed for academically curious students at an intermediate to advanced level of Spanish who wish to delve deeply into exploring the complex culture, history, international relations, and society of Cuba. Participants take courses taught in English and Spanish by faculty of American University and

Cuba's Casa de las Americas on Caribbean and Latin American studies, Cuban culture and the arts.

Czech Republic: Prague

The Prague programs bring to life Central Europe's art, architecture and literature, as well as its complex political and economic transitions. AU Abroad works with the organization CET Academic Programs to administer programs in Central European Studies, Film Production, Jewish Studies, and Photography.

Egypt: Cairo

Offered in partnership with AMIDEAST, the Egypt: AMIDEAST in Cairo program is a structured study abroad program where students focus on one academic theme, Middle East/North African Studies. Students take a Modern Standard Arabic (MSA) course for 3 credits and Egyptian Colloquial Arabic (ECA) for 3 credits in addition to courses that delve into the contemporary history, politics, culture, and development of Cairo and Egypt.

England: London

Offered in cooperation with the Foundation for International Education (FIE), the London Internship Program and London Business Internship Program offer courses and internships opportunities in downtown London, while providing a chance to experience British society and culture. Students take a required course and internship for 9 credits and choose 6 credits of elective coursework.

France: Paris

In AU Abroad's Intensive French in Paris program, students gain a full semester of college credit in this international center of commerce and culture, while experiencing its many celebrated attractions. Students discuss global issues with Europe's experts, learn about contemporary issues affecting French society, and improve French language skills. Students study through the Sorbonne's Course de la Civilization Française for international students.

Germany: Berlin

The AU Abroad program in Berlin is an integral part of the FU-BEST (Berlin European Studies) program of the Freie Universität (FU) in the German capital. This program offers fascinating perspectives on Germany in a broader European context.

Kenya: Nairobi

The Kenya: Issues in Sustainable Development in Nairobi program combines an intensive and challenging externship with language study and a core course in Kenyan culture, politics and development. Students also take elective courses at the United States International University. Experience in urban development is complemented with a week-long excursion to a Kenyan village (including homestay) and a final retreat to Kenya's Swahili coast.

Morocco: Rabat

Designed for students with an interest in studying Arabic and the Middle East/North African region, the Morocco: AMIDEAST in Rabat program incorporates courses taught by Moroccan faculty, immersive housing options and numerous cultural activities into the student experience. Students become well-versed in the issues of contemporary Moroccan culture and make significant progress in their Arabic and/or French language skills.

Spain: Madrid

The Iberian Experience program offers students a broad range of opportunities to learn about the cultural metropolis of Madrid and the rest of Spain. Through the program's academic curriculum, field trips, internships and other activities, students are immersed in Spain's politics, history, culture and society, an experience that fosters international consciousness and cross-cultural learning. An intensive Spanish language track is also available.

Spain: Madrid and the Mediterranean:

Covering history, philosophy, mythology, literature, politics, and the arts, the Mediterranean Semester gives students an interdisciplinary approach to understanding the major forces that shaped the region. Although the semester is based in Madrid, students travel extensively throughout the Mediterranean to sites in Turkey, Italy, and Greece.

Abroad at AU

American University's Abroad at AU program welcomes students from around the world to study for a year or a semester in the capital of the United States. Participants in Abroad at AU are required to take a minimum of 12 credit hours per semester to qualify as a full-time student. Students successfully completing a semester or year in the Abroad at AU program will be awarded a Certificate in the American Experience. In addition, there is a noncredit option for students from partnership institutions.

Undergraduate Certificate in the American Experience

Admission to the Program

The certificate program is open to international students enrolled in the Abroad at AU program. Applicants must submit their official transcript along with a one page statement of purpose describing their objectives for participating in the program. For international students whose first language is not English, proficiency in English may be demonstrated by a score of at least 550 (213 on the computer version) on the TOEFL; a score of 6.5 or higher on IELTS; a score of 530 or higher on the SAT Reasoning Test (Verbal); or a score of 970 or higher on the SAT II Subject Test (English Language Proficiency Test). Applicants who have completed two academic English writing courses at an American college or university with grades of C or better, or with grades of B or better from an AP-rated American college are exempt from submitting test scores.

Certificate Requirements

- 12–24 credit hours of approved course work with grades of C or better.

Grades of C- or D in certificate program courses will not be accepted toward the fulfillment of certificate requirements although these grades will be included in the calculation of the cumulative grade point average. Students must have at least a 2.0 grade point average in certificate courses in order to be awarded a certificate. International students must enroll in a minimum of 12 credit hours each semester (except for summer).

ment interpretation, architecture, consumerism, African diaspora, and early non-Anglo settlers. Usually offered every spring. *Prerequisite for General Education credit:* LIT-125 or HIST-100 or HIST-110 or WGSS-150.

ANTH-250 Human Origins 5:2 (3) The contributions that physical anthropology and archaeology can make toward an understanding of the origins and development of humankind. Includes genetics, the principles of evolution as applied to humans, the non-human primates and their behavior, human fossils, and the archaeology of the New and Old Worlds. Usually offered every fall. *Prerequisite for General Education credit:* BIO-100 or BIO-110 or ENVS-150 or PSYC-115.

ANTH-251 Anthropological Theory (3) Exploration of a variety of current perspectives in cultural anthropology. The kinds of questions anthropologists ask in seeking to understand cultural variation and diverse human experience. The relevance of anthropology to life in a changing, multicultural world. Usually offered every fall.

ANTH-253 Introduction to Archaeology (3) Archaeology as a subfield of anthropology. Includes the history of archaeology, methods of archaeological excavation and analysis, the historical archaeology of seventeenth and eighteenth century America, paleolithic archaeology in the Old World, the prehistory of North and South America, and other current discoveries and issues within the field. Usually offered every spring.

ANTH-254 Language and Culture (3) Examines connections between language, culture, and society. Includes grammars as systems of knowledge; language and cognition; structure of everyday discourse; language diversity; speech communities; language change; and literacy and language planning. Usually offered every spring.

ANTH-334 Environmental Justice (3) Focuses on issues of inequalities attending the destruction of resources, the siting of dangerous facilities, dumping of toxic wastes, and the development of technologies that harm some people while benefitting others. Case studies from North America, Latin America, Africa, the Arctic, Pacific, and Caribbean examine questions about history, social relations, power, connections among the world's societies, and competing values. Usually offered alternate springs.

ANTH-337 Anthropology of Genocide (3) Examines questions concerning how individuals, groups, and social institutions legitimize the power to repress, coerce, and kill, how victims experience and interpret their suffering, how "ordinary people" come to accept and justify violent regimes, and the possibility of constructing an understanding of genocide that extends across cultures and from individual impulse to global conflict. Case studies include genocide in the Americas, the Nazi Holocaust, and ethnic cleansing in Central Africa and Eastern Europe.

ANTH-339 Culture, History, Power, Place (3) Topics vary by section, may be repeated for credit with different topic. Examination of a particular culture area to provide insight into the conditions that produced distinctive cultures in certain geographical regions. Rotating culture areas include North American Indians, Latin America, Mexico and Central America, North American ethnic groups, Europe, India, Africa, China, and Japan. Meets with ANTH-639. Usually offered every term.

ANTH-340 Contemporary Ethnographies (3) Surveys theory through the original writings of anthropologists. Contemporary perspectives and debates in anthropology examined through close, critical readings of cutting-edge studies. These readings reflect cur-

rent approaches in the field such as culture and political economy, postmodern multi-vocal texts, feminist ethnographies, and post-colonial writing. How ethnographies are crafted, including how authors contextualize their subject and their own involvement, uses of evidence, and literary devices. Usually offered every spring.

ANTH-350 Special Topics (3) Topics vary by section, may be repeated for credit with different topic. Cross-cultural comparison and analysis within selected culture areas. Rotating topics include cultural perspectives on sports, war and aggression, rites of passage, food and culture, rise of civilization, archaeology of the Chesapeake Bay region, North American prehistory, and historical archaeology.

ANTH-390 Independent Reading Course in Anthropology (1-6) *Prerequisite:* permission of instructor and department chair.

ANTH-392 Cooperative Education Field Experience (3-9) *Prerequisite:* permission of department chair and Cooperative Education office.

ANTH-430 Magic, Witchcraft, and Religion (3) A comparative study of magic, witchcraft, and religion in Western and non-Western societies. Includes an analysis of ritual behavior and the ritual process, mythology, sorcery, and revitalization movements. Usually offered every fall.

ANTH-431 Taboos (3) Exploration of those persons, items, experiences, and acts which so frighten and repel humans that they try to prohibit them. Includes discussion of subjects rich in taboo and sensitivity including sexuality, witchcraft, cannibalism, human-animal relations, madness, and death. Why taboos emerge, how they are enforced, and when they are violated. Usually offered alternate springs.

ANTH-450 Anthropology of Power (3) Capstone seminar for anthropology majors which explores a central question for the discipline, the exploration of power. Examines the questions of how people experience and articulate power relations, how power is legitimized, where power comes from, how power relations shift over time and place, and how the study of power enriches and infuses anthropological studies. Usually offered every spring. *Prerequisite:* anthropology major with at least 36 credit hours of courses in the major.

ANTH-490 Independent Study Project in Anthropology (1-6) *Prerequisite:* permission of instructor and department chair.

ANTH-491 Internship in Anthropology (1-6) *Prerequisite:* permission of instructor and department chair.

ANTH-498 Senior Thesis in Anthropology (1-6) May be repeated for credit but not within the same term, for a maximum of 6 credit hours. Opportunity for qualified undergraduates to carry out anthropological research under supervision of members of the faculty. Development of a written paper and participation in senior thesis seminar are required. Usually offered every term. *Prerequisite:* permission of department chair.

Graduate and Advanced Undergraduate Courses

ANTH-060 Summer Field School: Archaeology (0) Noncredit participation in the excavation of an archaeological site. Training varies depending on the site, but usually includes site surveying, archaeological engineering, techniques of excavation, flora, fauna, and soil analysis, field laboratory practice, and on-site computer data processing. Usually offered every summer.

ANTH-531 Topics in Archaeology (3) Topics vary by section, may be repeated for credit with different topic. Rotating topics in-

clude historical archaeology, artifact analysis, archaeology of the Chesapeake, archaeology of the Potomac Valley, Aztec, Inca, and Maya, and archaeology and politics.

ANTH-532 Changing Culture (3) All significant ideas about the nature of human culture center on issues of cultural stability or change, and stability itself is often a result of change. As anthropology focuses on today's world, an understanding of culture change is especially important. This course explores ways to understand culture change. Usually offered every spring. *Prerequisite:* ANTH-251 and one additional course in cultural anthropology, or graduate standing.

ANTH-533 Managing Cultural Resources (3) Explores the field of cultural resources management and preservation. This course examines the range of resources—from archeological sites to historic structures to living communities—that are often given protected status and the reasons for such protection. Also considers the benefits to society of this protection, along with the available policies, processes, and laws that are utilized in the preservation effort. Usually offered alternate springs. *Prerequisite:* ANTH-253 or ANTH-531, or permission of instructor.

ANTH-534 Class and Culture (3) Discussion of the way that anthropologists have used and developed the concept of class as a way to understand patterns of social inequality. The variation in relationships of class to economic, social, and political structures in different societies and how class experiences and struggles influence and are influenced by the cultural norms and values in different social systems. *Prerequisite:* ANTH-251 and one other course in cultural/social anthropology, or graduate standing.

ANTH-535 Ethnicity and Nationalism (3) Ethnicity has become a universal means for groups to defend their interests, avoid alienation, and create powerful rituals of self-preservation and defense. This course examines ways that groups in complex societies and new nations use ethnicity and nationalism to express and enact community and identity, similarity and difference, peaceful social relations, warfare, and genocide. *Prerequisite:* one course in social or cultural anthropology.

ANTH-537 Topics in Language and Culture (3) Topics vary by section, may be repeated for credit with different topic. Rotating topics in comparative perspectives on the interrelationships of cultural and linguistic patterns in different societies. Case studies focus on language variation and pluralism as related to verbal creativity, social hierarchies, gender diversity, language history, and colonialism and nation building. Usually offered alternate summers. *Prerequisite:* one course in anthropology or linguistics, or permission of instructor.

ANTH-541 Anthropology and State Policy (3) This course traces shifting relationships among governments, anthropologists, and ordinary people. Readings and class discussions explore the rise of "applied" anthropology as part of the processes of colonialism and capital accumulation. Also covered are colonial encounters, immigration and internment, neocolonialism, and structural adjustment. Usually offered every fall.

ANTH-542 Reinventing Applied Anthropology (3) Explores efforts to build an applied anthropology which advances popular struggles for economic freedom, human rights, and social justice while maintaining a critique of state power. The course also examines how such work engages conventional approaches to research, publication, and career advancement, and suggests pathways to alternative anthropological careers. Usually offered every spring.

ANTH-543 Anthropology of Development (3) Anthropological approaches to the analysis of economic development and change, with attention both to development theory and to practice. Development problems as perceived at the local level, contemporary development concerns, and the organization of development agencies and projects are considered. Usually offered every fall.

ANTH-544 Topics in Public Anthropology (3) Topics vary by section, may be repeated for credit with different topic. The application of anthropological method and theory to solving problems in contemporary society. Rotating topics include inequality and change in education, health, culture and illness, public archaeology, and anthropology of human rights. Usually offered every spring.

ANTH-550 Ethnographic Field Methods (3) Using a series of research exercises, students learn how to collect genealogies, gather censuses of research populations, conduct directed and nondirected interviews, map research areas, work with photographic data, collect life histories, observe as participants, write research proposals, and evaluate data. Ethical and methodological fieldwork problems are stressed throughout. Usually offered alternate falls.

ANTH-552 Anthropological Research Methods (3) An introduction to research methods used within the field of anthropology, including ethnography, the distinctive tool of the field. Includes research design, data collection, quantitative and qualitative analysis. Ethics and pragmatics of research are discussed, including research funding and proposal writing. Usually offered every spring. *Prerequisite:* two courses in anthropology, or graduate standing.

ANTH-560 Summer Field School: Archaeology (3–9) Topics vary by section, may be repeated for credit with the same topic. Active participation in the excavation of an archaeological site. Training varies depending on the site, but usually includes site surveying, archaeological engineering, techniques of excavation, flora, fauna, and soil analysis, field laboratory practice, and on-site computer data processing. Usually offered every summer.

ANTH-590 Independent Reading Course in Anthropology (1–6) *Prerequisite:* permission of instructor and department chair.

Graduate Courses

ANTH-631 Foundations of Social and Cultural Anthropology (3) A graduate-level overview of both the history of cultural and social theories and methods and the contemporary concerns of anthropology. Usually required of all incoming graduate students; consult the department chair. Usually offered every fall.

ANTH-632 Contemporary Theory: Culture, Power, History (3) This course addresses developments and debates in anthropology over the last three decades, looking at how central concerns in anthropology are recast over time, as well as how new concerns emerge with new theory. The course grounds the central concept of culture in analyses that emphasize its relationship to historical process as well as class, race, and gender, and the use and abuse of the culture concept in struggles for identity, dominance, and liberation. Usually offered every spring.

ANTH-634 Foundations of Archaeology (3) This course considers archaeology as a culturally-specific enterprise that is tightly integrated with other aspects of our modern-day, western materialist, capitalist system. Includes a review of archaeological theory, how archaeology creates knowledge about the past, and the context in which archaeological theory and practice developed. Reviews basic concepts about time, space, and material culture, and explores

different theoretical currents: culture historical, processual, post-processual, feminist, and contemporary theory. Usually offered every fall.

ANTH-635 Race, Gender and Social Justice (3) This seminar explores the disjunction between biological myths of race and gender and their social construction as credible institutions; the historical, economic, and political roots of inequalities; the institutions and ideologies that buttress and challenge power relations; and the implications of social science teaching and research for understanding social class, race, and gender discrimination. Issues of advocacy for social change are also explored. Usually offered every spring. *Prerequisite:* permission of instructor.

ANTH-637 Discourse, Text, and Voice (3) This seminar reviews current approaches to studies of narrative, life stories, and conversation, and the insights into social location, ideology, and claims to power which such studies disclose. Usually offered every spring. *Prerequisite:* graduate standing in anthropology and ANTH-631; or graduate standing in the TESOL master's program and 6 graduate credit hours in linguistics; or permission of instructor.

ANTH-639 Culture, History, Power, Place (3) Topics vary by section, may be repeated for credit with different topic. Examinations of particular culture areas to provide insight into the conditions that produced distinctive cultures in certain geographical regions. Culture areas include North American Indians, Latin America, Mexico and Central America, North American ethnic groups, American culture and society, Europe, India, Africa, China, and Japan. Meets with ANTH-339. Usually offered every term.

ANTH-640 Current Issues in Anthropology (3) Topics vary by section, may be repeated for credit with different topic. Rotating topics include issues such as cultural construction of gender, transformations in U.S. anthropology, and militarism and state violence. Usually offered every term.

ANTH-690 Independent Study Project in Anthropology (1-6) *Prerequisite:* permission of instructor and department chair.

ANTH-691 Internship in Anthropology (1-6) *Prerequisite:* permission of instructor and department chair.

ANTH-692 Cooperative Education Field Experience (3-6) *Prerequisite:* permission of department chair and Cooperative Education office.

ANTH-797 Master's Thesis Seminar (1-6) Usually offered every term. May be taken Pass/Fail only.

ANTH-799 Doctoral Dissertation Seminar (1-24) Usually offered every term. May be taken Pass/Fail only.

Art: Art History

Undergraduate Courses

ARTH-105 Art: The Historical Experience 1:1 (3) An introduction to works of art in historical context. Western art from prehistory to the present with in-depth study of such major architectural monuments as the Parthenon, Chartres Cathedral, and St. Peter's in Rome, and such artists as Michelangelo, Raphael, El Greco, Gentileschi, Rembrandt, the French Impressionists, and Picasso. Usually offered every term.

ARTH-201 Mediterranean Art (3) Offered as part of the AU Abroad Madrid and the Mediterranean program. An introduction to Mediterranean history and art, centered chronologically on art movements with emphasis on the differences between Spanish art and its Mediterranean counterparts. The course is an in-depth study

of painting, sculpture, and architecture that includes stylistic as well as thematic manifestations, examining art in the Mediterranean from cave paintings to the twentieth century from a variety of cultures and geographic regions, and introducing students to stylistic periods, major works and artists, and the traditional methods of art history. twentieth century art in the United States, Canada, Mexico, the Caribbean, and Latin America. It examines women's struggles and successes, their iconographic and stylistic interests, and the analysis of their works in relation to theories of gender, feminism, postmodernism, and postcolonialism. Usually offered alternate springs. Meets with ARTH-335.

ARTH-690 Independent Study Project in Art History (1-6) *Prerequisite*: permission of instructor and department chair.

ARTH-691 Internship (3-6) *Prerequisite*: permission of instructor and department chair.

ARTH-692 Cooperative Education Field Experience (3-6) *Prerequisite*: permission of department chair and Cooperative Education office.

ARTH-792 Research Seminar in Art History (3) Topics vary by section, may be repeated for credit with different topic. Seminar topic is normally from one of the following areas: Renaissance art, Baroque and Rococo art, nineteenth-century art, twentieth-century art, American art and architecture, or from thematic or conceptual categories such as landscape or gender. M.A. thesis-option papers originate from this course. Usually offered every term. *Prerequisite*: M.A. in Art History candidates with permission of department chair.

ARTH-793 Directed Research in Art History (3) Must be in a field listed under ARTH-792, but not in field covered in ARTH-792 that semester. Usually offered every term. *Prerequisite*: M.A. in Art History candidates with 12 hours of graduate art history with a B average or better and permission of department chair.

Art: Studio

Undergraduate Courses

ARTS-100 Art: The Studio Experience 1:1 (3) This beginning studio course introduces students to painting, drawing, sculpture, and design combined with visual literacy. The course focuses on the interrelationship of hand, eye, and mind to create informed works of art that engage larger critical, formal, or cultural dialogues and relate basic visual language to analytic and creative processes of the artist. Usually offered every term.

ARTS-205 The Artist's Perspective: Drawing 1:2 (3) This introductory drawing course examines observation as a tool of discovery. Students explore traditional and conceptual notions of looking and experiment with different materials, techniques, and practices in order to examine visual perception. The course investigates drawing as a two-dimensional and three-dimensional medium. Usually offered every term. *Prerequisite for General Education credit*: ARTS-100 or LIT-105 or PERF-110 or PERF-115.

ARTS-210 The Artist's Perspective: Painting 1:2 (3) This introductory painting course utilizes surface, color, and composition as well as technical procedures to introduce students to formal, conceptual, and social issues inherent in painting. These concepts may be explored through the use of models, still life, and landscape. Students learn the language of painting and its context in contemporary art. Usually offered every term. *Prerequisite for General Education credit*: ARTS-100 or LIT-105 or PERF-110 or PERF-115.

ARTS-215 The Artist's Perspective: Sculpture 1:2 (3) This introductory sculpture course investigates three-dimensional concerns, focusing on observation, process, form, and object as a means of arriving at content. Students are introduced to traditional

and contemporary art practices and explore a variety of materials, techniques, and tools. Usually offered every term. *Prerequisite for General Education credit:* ARTS-100 or LIT-105 or PERF-110 or PERF-115.

ARTS-235 The Artist's Perspective: Multimedia (3) This introductory course investigates aesthetic, technological, and socio-cultural concerns in multimedia through the creation of interactive digital artworks. The course emphasizes the understanding of key paradigms, including media integration, interactivity, hypermedia, and immersion, essential to the construction of narrative specific to the medium. Students learn the language of multimedia and its context in contemporary art. Usually offered every term.

ARTS-320 Painting Studio (3) May be repeated for credit. This is an intermediate and advanced course that encourages experimental approaches to painting through historical and contemporary study. Students creatively explore issues of color, surface, and composition, and are encouraged to begin exploration of individualized concerns that can be addressed through image making. Thematic studies provide opportunity for intensive investigation of ideas. Usually offered every term. *Prerequisite:* ARTS-210 or equivalent.

ARTS-340 Sculpture Studio (3) May be repeated for credit. This is an intermediate and advanced course that focuses on the interrelationship between object and environment. Students investigate materials and concepts used in historical, contemporary, and experimental art practices. Course structure focuses on creative problems and solutions. Students explore form, content, and context through individual projects. Usually offered every term. *Prerequisite:* ARTS-205 or ARTS-215.

ARTS-344 Ceramics Studio (3) May be repeated for credit. Includes basic principles of working with clay and instruction in both wheel and other methods of making pottery. Usually offered every term.

ARTS-360 Drawing Studio (3) May be repeated for credit. This is an intermediate and advanced course in drawing. Students explore selected drawing media, locate a direction of study, and develop a personal visual vocabulary in artwork. Drawing is investigated as an initiating and developing tool for creative thinking. Emphasis is on the process, production, and research needed to produce consistent and creative work. Usually offered every term. *Prerequisite:* ARTS-205 or equivalent.

ARTS-363 Relief Printmaking Studio (3) May be repeated for credit. Investigation of the historical techniques utilized in woodcut linocut and surface printing. Students pursue individualized projects while mastering technique. Emphasis on the experimentation, the development of the technique, and the utilization of printmaking as a tool for challenging studio practice and expanding broader critical concerns. Usually offered every fall. *Prerequisite:* ARTS-205 or equivalent.

ARTS-364 Intaglio Studio May be repeated for credit. An introduction to basic printmaking processes including monoprint, etching, drypoint, and aquatint. Students investigate the history and process of the intaglio print in relation to individualized projects. Emphasis on the experimentation, the development of the technique, and the utilization of printmaking as a tool for challenging studio practice and expanding broader critical concerns. Usually offered every spring. *Prerequisite:* ARTS-205 or equivalent.

ARTS-370 Composing with Media (3) This course introduces compositional techniques for the application of real-time and interactive time-based forms of experimental new media. Strategies and

methodologies drawn from music sampling and sound synthesis, improvisation, live video processing, algorithmic and indeterminate structures, and recombinatory/remix forms are applied to the creation of interactive, installation, sculptural and performance projects. The course emphasizes live forms of digital media as a critical area of investigation in the contemporary arts. Usually offered every fall. *Prerequisite:* ARTS-235 or permission of instructor.

ARTS-390 Independent Reading Course in Art (1-6) *Prerequisite:* permission of instructor and department chair.

ARTS-392 Cooperative Education Field Experience (3-9) *Prerequisite:* permission of department chair and Cooperative Education office.

ARTS-400 Senior Seminar (3) May be repeated for credit. This studio and criticism course considers the inspirations and practices of contemporary artists and also emphasizes the relationship between art making, culture, and audience. Gallery/museum trips and artist lectures help students contextualize their work in current art practices. Readings, group discussions, and critiques facilitate deeper understanding of the social and conceptual issues surrounding contemporary art. Students pursue an individualized body of studio work that culminates in an exhibition. *Prerequisite:* ARTS-320, ARTS-340, or ARTS-360, or permission of instructor.

ARTS-410 Multimedia Seminar (3) May be repeated for credit. This studio and criticism course considers the inspirations and practices of contemporary media artists and also emphasizes the relationship between art making, culture, and audience. Gallery/museum trips and artist lectures help students contextualize their work in current art practices. Readings, group discussions, and critiques facilitate deeper understanding of the social and conceptual issues surrounding contemporary art. Students pursue an individualized body of studio work that culminates in an exhibition. Usually offered every spring. *Prerequisite:* ARTS-370 or permission of instructor.

ARTS-490 Independent Study Project in Art (1-6) *Prerequisite:* permission of instructor and department chair.

ARTS-491 Internship (3) *Prerequisite:* permission of instructor and department chair.

Graduate and Advanced Undergraduate Courses

ARTS-520 Advanced Printmaking (3) May be repeated for credit. Individual projects in printmaking with emphasis on the investigation of contemporary art issues. Students develop a suite of prints or other related investigation in either tandem with their advanced studio work or based on a theme of their choosing in consultation with the instructor. Usually offered every term. *Prerequisite:* ARTS-363 or ARTS-364, admission to M.F.A. program, or permission of instructor.

ARTS-530 Advanced Sculpture (3) May be repeated for credit. Individual projects in sculpture. Students explore formal and critical issues concerning two- or three-dimensional work. Students are encouraged to manifest ideas three-dimensionally with respect to the environment or installation of their work. Usually offered every term. *Prerequisite:* ARTS-340, admission to M.F.A. program, or permission of instructor.

ARTS-560 Drawing Practicum I (3) May be repeated for credit. Drawing as research. This course explores the process of the sketch in developing, proposing, and planning visual works in various media. Students work on synthesizing ideas and representing them formally and conceptually, with emphasis on individual creative

expression. Usually offered every fall. *Prerequisite:* admission to M.F.A. program, or permission of instructor.

ARTS-561 Drawing Practicum II (3) May be repeated for credit. Continuation of ARTS-560. Students put research into practice. The emphasis of this practicum, which can operate as an extension of students' studio practice, is on creating a series of related work. Usually offered every spring. *Prerequisite:* admission to M.F.A. program, or permission of instructor.

ARTS-590 Independent Reading Course in Art (1–6) *Prerequisite:* permission of instructor and department chair.

Graduate Courses

ARTS-600 Twentieth Century Art Theory (3) A contextual analysis of contemporary issues in art as a development of critical thinking throughout the twentieth century. This course presents a theoretical and philosophical consideration of the development of critical, cultural, and social dialogs defining art and practice from the advent of Modernism through its institutionalization and the eventual rise of post-Modernism. Includes figuration, abstraction, formalism, spirituality universalism, the art object, the art original, myth, authorship, allegory, conceptualism, the capitalist impulse, colonialism, authenticity, and the role of audience. Usually offered every fall. *Prerequisite:* admission to M.F.A. program, or permission of instructor.

ARTS-601 Contemporary Art Theory (3) A theoretical and philosophical consideration of art practices. A detailed analysis of contemporary and cultural studies including post-colonialism, gender, globalization, positioning painting, the state of art and emerging trends in contemporary art. Students evaluate the relationship between artists and the writer/critic. The course introduces students to a broad range of critical thinking and to develop their skills in verbal and textual analysis. Students consider the relationship of their art to contemporary rhetoric. Usually offered every spring. *Prerequisite:* admission to M.F.A. program, or permission of instructor.

ARTS-610 Multimedia Seminar (3) May be repeated for credit. This studio and criticism course considers the inspirations and practices of contemporary media artists and also emphasizes the relationship between art making, culture, and audience. Students pursue an individualized body of studio work that culminates in an exhibition. Usually offered every spring.

ARTS-670 Composing with Media (3) This course introduces compositional techniques for the application of real-time and interactive time-based forms of experimental new media. Strategies and methodologies drawn from music sampling and sound synthesis, improvisation, live video processing, algorithmic and indeterminate structures, and recombinatory/remix forms are applied to the creation of interactive, installation, sculptural and performance projects. The course emphasizes live forms of digital media as a critical area of investigation in the contemporary arts. Usually offered every fall.

ARTS-690 Independent Study Project in Art (1–6) *Prerequisite:* permission of instructor and department chair.

ARTS-691 Internship (3) *Prerequisite:* permission of instructor and department chair.

ARTS-692 Cooperative Education Field Experience (3–6) *Prerequisite:* permission of department chair and Cooperative Education office.

ARTS-797 Master's Thesis Seminar (3) Independent work toward students' thesis exhibition and written thesis statements. Con-

sult the department for registration and participation requirements. Usually offered every term. *Prerequisite:* M.F.A. candidate with permission of department chair. Usually offered every term.

Audio Technology

Undergraduate Courses

ATEC-101 Fundamentals of Audio Technology (3) Students learn about the generation, transmission, and detection of sound; properties of sounds; history and aesthetics of electro-acoustic music and components; anatomy of audio equipment; professions in the field of audio technology; and the global structure of audio-related industries. Student apply basic recording and editing techniques in the completion of audio and audiovisual projects. Usually offered every term. *Prerequisite:* permission of instructor, must be taken concurrently with ATEC-102.

ATEC-102 Audio Technology Laboratory (1) Students apply recording and editing techniques discussed in ATEC-101 to real world music. They also learn basic compression and digital signal processing techniques. Usually offered every term. *Prerequisite:* permission of instructor, must be taken concurrently with ATEC-101.

ATEC-301 Digital Audio Workstations I (3) This course provides intermediate-level students with fundamental knowledge of the basic principles of non-linear digital audio editing software. Includes creating and managing digital audio workstation sessions, importing media, basic editing and mixing techniques, external controllers, managing sessions and tracks, recording and editing MIDI and audio, timescaling, and automation. Upon completion of the course, students take an examination that provides them with internationally-recognized Digidesign Protools basic certification. Usually offered every term. *Prerequisite:* ATEC-101/102.

ATEC-311 Sound Studio Techniques I (3) This course explores multi-track recording techniques as applied to professional sound systems. Includes studio consoles, signal path, microphone configuration and placement, signal to noise ration, and other relevant topics. Students gain experience with hands-on projects. Usually offered every fall. *Prerequisite:* ATEC-301.

ATEC-321 Sound Synthesis I (3) This course examines various types of synthesis including additive, subtractive, wavetable, frequency modulation, and granular synthesis techniques. Also covers the MIDI protocol, modular synthesis configurations, software based synthesis, and instrument and patch design as well as hands-on experiences and projects with software and hardware and synthesizers. Usually offered every fall. *Prerequisite:* ATEC-301. Usually offered every fall. *Prerequisite:* ATEC-301.

ATEC-390 Independent Reading Course in Audio Technology (1–6) *Prerequisite:* permission of instructor and department.

ATEC-392 Cooperative Education Field Experience (3–9) *Prerequisite:* permission of department and Cooperative Education office.

ATEC-401 Digital Audio Workstations II (3) This course is a continuation of materials presented in ATEC-301 and provides students with more advanced knowledge of principles of non-linear digital audio editing software. Includes analyses of digital audio workstation systems, high-end user systems and interfaces, editing and mixing techniques, external controllers, managing sessions and tracks, recording and editing MIDI and audio, and advanced automation techniques. Upon completion of the course, students take an examination that provides them with internationally-recog-

nized Digidesign Protocols basic certification. Usually offered every spring. *Prerequisite*: ATEC-301.

ATEC-403 Production Mixing and Mastering (3) This course explores effective mastering techniques and digital signal processing techniques with non-linear digital audio software. Includes advanced equalization techniques, advanced filtering techniques, delay, compression and expansion of dynamic levels, chorusing, and reverberation. Usually offered every third semester. *Prerequisite*: ATEC-401.

ATEC-411 Sound-Studio Techniques II (3) This course examines advanced multi-track recording techniques as applied to professional sound systems. Includes studio consoles, magnetic tape recording, signal-processing equipment, room acoustics, noise reduction systems, multi-track recorder alignment, and test equipment. Usually offered every spring. *Prerequisite*: ATEC-311.

ATEC-421 Sound Synthesis II (3) This course applies synthesis techniques to patch design on virtual instruments. Students learn advanced MIDI concepts through the creation of original sequences. Students also explore current trends and real world applications of materials through original projects. Usually offered every spring. *Prerequisite*: ATEC-321.

ATEC-431 Studio Management (3) Students learn troubleshooting in regard to audio technology equipment and software. Includes tape head realignment and maintenance, tracing signal flow problems, soldering techniques, and power grounding issues. Students in the class work and learn cooperatively and collaborate on a final project, assembling a functional recording studio from malfunctioning components. Usually offered every third semester. *Prerequisite*: ATEC-101/102.

ATEC-441 Business of the Audio Industry (3) This course covers business-related aspects of the music and film audio recording industries, including copyright, royalties, publishing, licensing, negotiations, music production, and studio ownership. Usually offered every third semester. *Prerequisite*: ATEC-101/102.

ATEC-450 Audio Technology Capstone (1-6) May be repeated for credit. This course enables students to pursue advanced discipline-specific projects, which may include electro-acoustic instrument design and construction, advanced live sound reinforcement techniques, post-production audio for film and video, audio engineering for compact disc recordings, and electro-acoustic music composition. Usually offered every spring. *Prerequisite*: ATEC-421.

ATEC-490 Independent Study Project in Audio Technology (1-6) *Prerequisite*: permission of instructor and department.

ATEC-491 Internship (1-6) *Prerequisite*: permission of instructor and department.

Biology

Undergraduate Courses

BIO-100 Great Experiments in Biology 5:1 (4) The core of biology is the scientific experiment. This course, through lecture and laboratory, focuses on some classic experiments that introduce students to the modern study of biology and scientific method. Experiments include the molecular basis of mutation, separation of complex biologically important molecules, and the construction of demographic tables. Usually offered every term. *Prerequisite*: completion of the University Mathematics Requirement, or concurrent enrollment in MATH-170 or MATH-211 or STAT-202.

BIO-110 General Biology I 5:1 (4) An in-depth introduction and exploration of the study of life from atoms, molecules, and organelles to the cellular levels of organization. Emphasis on cell structure and function, energetics and metabolism, the gene, molecular genetics, and evolution. The laboratory component introduces the scientific method and experimentation through the study of microbes, plants and animals. Usually offered every term. *Prerequisite*: MATH-170, MATH-211, or MATH-221, which may be taken concurrently. *Note*: this course is recommended for science majors, pre-medical, or honors students only.

BIO-140 Seminar in Marine Biology: Marine Science (2) Topics vary by section, may be repeated for credit with different topic. This course gives students an opportunity to learn about current topics in marine science, with particular emphasis on marine biology. Possible topics include diversity marine species and related conservation issues; water movement in the oceans; changes in seawater chemistry associated with climate change; investigation into the variability of marine primary productivity and sustainable extraction of marine resources. Presentation of course materials includes lectures, discussions, guest lecturers, films, student presentations, debates, etc. Usually offered every fall.

BIO-200 Structure and Function of the Human Body 5:2 (3) The human organism as a paradigm for biological organization. The relationship between structure and function of organ systems. Disease processes in the context of normal physiology; social concerns from a biological perspective. Usually offered every term. *Prerequisite for General Education credit*: BIO-100 or BIO-110 or ENVS-150 or PSYC-115.

BIO-210 General Biology II 5:2 (4) An exploration of the origins of planet Earth and life. Emphasis on the organismal and higher levels of biological organization. The diversity of life through a survey of the three domains, various kingdoms and their phylogenetic relationships. The form and function of plants and animals. A consideration of the interrelationships between organisms and environment. The laboratory component explores the diversity of life at the organismal and higher levels of biological organization. Studies include form and function of plants and animals, and selected systems. Usually offered every term. *Prerequisite*: BIO-110. *Prerequisite for General Education credit*: BIO-100 or BIO-110 or ENVS-150 or PSYC-115. *Note*: this course is recommended for science majors, pre-medical, or honors students only.

BIO-220 The Case for Evolution 5:2 (3) What is evolution, how and why does it occur, and what does it tell us about the world around us? This course reviews the process of evolution from the initial organic soup that existed some four billion years ago to the relatively recent emergence of humans. It investigates why species change over time, both in their individual characteristics and their relative abundance, and examines how cultural and technological advances are influencing the current and future biological evolution of humans. Usually offered every term. *Prerequisite for General Education credit*: BIO-100 or BIO-110 or ENVS-150 or PSYC-115.

BIO-240 Oceanography 5:2 (3) The study of the sea from a global perspective. Emphasis on chemical and physical oceanography as it affects life in the seas and the world economies. Includes origin of the oceans, basic navigation, marine geography, plate tectonics, heat budgets, climatology, meteorology, winds, currents, waves, tides, productivity, and fisheries. Usually offered every term. *Prerequisite for General Education credit*: BIO-100 or

320 Course Descriptions

BIO-110 or CHEM-100 or CHEM-110 or ENVS-150 or PHYS-100 or PHYS-105 or PHYS-110 or PSYC-115.

BIO-241 Seminar in Marine Biology: Biological Oceanography (2) Topics vary by section, may be repeated for credit with different topic. This course gives students an opportunity to further advance their knowledge about current topics in marine science, with particular emphasis on oceanography. Possible topics include physical oceanography as it relates to global climate change and solutions; biological oceanography as it relates to global climate change and solutions; oceans as a source of alternate energy, and sustainable marine resources and the future of marine conservation. Presentation of course materials includes lectures, discussions, guest lecturers, films, student presentations, debates, etc. Usually offered every spring. *Prerequisite:* BIO-240, should be taken concurrently.

BIO-300 Cell Biology with Laboratory (4) Integrated study of structure and function of eucaryotic cells, emphasizing their ultrastructure, biochemistry, and physiology. Lab consists of biological buffers, protein and DNA analysis, histology, and enzyme kinetics. Usually offered every fall. *Prerequisite:* BIO-210 and CHEM-210.

BIO-323 Introduction to Ecology (3) Fundamental principles of ecology, with emphasis on the interaction of organisms and their environment at the level of individuals, populations, and communities, including energy flow through and nutrient cycling within ecosystems. Application of ecological principles to current environmental issues. Usually offered every spring. *Prerequisite:* BIO-210; calculus or statistics course is highly recommended.

BIO-324 Seminar in Marine Biology: Marine Ecology (2) Topics vary by section, may be repeated for credit with different topic. This course gives students an opportunity to further advance their knowledge about current topics in marine science, with particular emphasis on marine ecology. Possible topics include plate tectonics; marine nutrient cycling and climate change; and fisheries, coral reefs, and planktonic communities. Presentation of course materials includes lectures, discussions, guest lecturers, films, student presentations, debates, etc. Usually offered alternate springs. *Prerequisite:* BIO-323, should be taken concurrently.

BIO-340 Marine Biology (3) Biology of marine organisms from a global perspective. Influence of geology, geography, currents, tides, waves, winds, salinity, and other parameters on the distribution of marine organisms. Plankton, nekton, infauna, epifauna, rocky shores, coral reefs, estuaries, beaches, and other environments. Marine ecology. Exercises using living and preserved marine invertebrates and fishes. Weekend field trips may be required. Usually offered alternate springs. *Prerequisite:* BIO-210 or BIO-240 and permission of the instructor.

BIO-342 Marine Mammals (3) An introduction to marine mammal ecology, social organization, behavior, acoustic communication, and conservation. The course focuses on marine mammals in U.S. waters, including bottlenose dolphin, right whale, gray whale, and West Indian manatee. Current periodical literature and text readings are the basis for discussions. Usually offered alternate springs. *Prerequisite:* BIO-100 or BIO-110 and BIO-210 or BIO-220.

BIO-345 Research Experience in Marine Biology (1-6) May be repeated for credit. This course provides students with practical field experience in marine biology including research with faculty,

internships, or field experience abroad. Usually offered every spring. *Prerequisite:* BIO-340.

BIO-356 Genetics with Laboratory (5) Basic genetic principles as revealed by classical and modern research methods. Patterns of gene transmission; gene structure, function, interactions, and mutation; chromosomal aberrations; nonchromosomal inheritance; biochemical genetics; and population genetics. Experiments illustrating basic genetic concepts, using materials from corn, drosophila, and humans. Usually offered every spring. *Prerequisite:* BIO-300 or permission of instructor.

BIO-364 Evolution (3) This course covers the mechanisms of evolutionary change from genes to societies and how natural selection interacts with genetic and population processes such that organisms tend to become adapted to their environment and biological diversity increases. Through readings, discussions, and lectures, students explore the evidence for evolution, as well as current theories for the mechanisms that cause evolutionary change. Includes principles of inheritance, the origin of genetic variation, adaptation through natural selection, random processes in evolution, the origin of species, and the role of macroevolutionary processes in shaping current patterns of biodiversity. *Prerequisite:* BIO-110 and BIO-210.

BIO-372 Human Anatomy and Physiology I (4) This course provides an overview of anatomy and physiology through an integrated study of the relationship between the structure and function of the human body. Focus is on the chemical foundations of life, the anatomy and physiology of the cell, and the integumentary, skeletal, muscular, and nervous systems. Clinical applications are presented, which have particular relevance to students preparing for the health care professions. Laboratories provide hands-on training and reinforce material covered in the lecture. Usually offered every fall. *Prerequisite:* BIO-110; BIO-210 is strongly recommended.

BIO-373 Human Anatomy and Physiology II (4) A systematic approach to the study of the human body with an emphasis on the endocrine, lymphatic, cardiovascular, respiratory, digestive, urinary, and reproductive systems. Laboratories provide hands-on training and reinforce material covered in the lecture. Usually offered every spring. *Prerequisite:* BIO-372.

BIO-390 Independent Reading Course in Biology (1-6) *Prerequisite:* permission of instructor and department chair.

BIO-392 Cooperative Education Field Experience (3-9) *Prerequisite:* permission of department chair and Cooperative Education office.

BIO-404 Biology of Plants with Laboratory (4) An in-depth survey of plant structure and function, with emphasis on photosynthesis, development, physiology, and evolution. Usually offered alternate springs. *Prerequisite:* BIO-210 and CHEM-210.

BIO-410 Invertebrate Zoology with Laboratory (4) Structure, evolution, and physiology of invertebrate animals, including protozoans. Emphasis on helminths and other parasites, medically significant arthropods, and taxa of significance in aquatic biology. Laboratory emphasizes variety of taxa over types. Usually offered alternate falls. *Prerequisite:* BIO-210.

BIO-420 Applied Oceanography with Laboratory (4) Principles of physical, chemical, and biological oceanography are covered in this course. In addition, readings and discussions are used to critically examine recent findings in this field. Includes the history of ocean sciences, earth structure, plate tectonics, atmospheric circulation and weather, waves and currents, nutrient cycling, marine

biological processes, and the impact of human activity on marine processes. Usually offered alternate falls. *Prerequisite:* BIO-210 and BIO-240.

BIO-425 Advanced Marine Ecology with Laboratory (4) In-depth examination of both physical and biotic processes that affect marine communities. Includes nutrient cycling and primary productivity, the role of perturbations on marine diversity, and population biology and conservation. Laboratories consist of computer modeling exercises to gain mechanistic understanding of marine ecological processes. Usually offered alternate springs. *Prerequisite:* BIO-210 and BIO-240.

BIO-434 Vertebrate Anatomy with Laboratory (4) Examination of the function, development, and evolutionary history of anatomical structures within vertebrates. Lectures and laboratory work include systematic and comparative analysis of different vertebrate species. Laboratory illustrates anatomical features in lower and higher vertebrates. Usually offered alternate falls. *Prerequisite:* BIO-210 and BIO-300, or permission of instructor.

BIO-435 Vertebrate Physiology with Laboratory (4) Properties and physiology of vertebrate organ systems are explored. Laboratory illustrates selected physiological principles and encourages scientific inquiry. Usually offered alternate falls. *Prerequisite:* BIO-300 or permission of instructor.

BIO-440 Microbiology with Laboratory (4) Introductory survey of the protists (with emphasis on bacteria): their morphology, physiology, metabolism, growth, and destruction, and their role in human welfare as agents of disease and environmental change. Laboratory techniques of straining, cultivation, isolation, and identification of microbes, with emphasis on bacteria. Experiments on physiology, metabolism, and physical-chemical effects on growth and death of microbes. Usually offered alternate springs. *Prerequisite:* BIO-300 and CHEM-310.

BIO-441 Marine Population Genetics (3) This course provides a detailed survey and analysis of the spatial distribution of genetic variation in marine populations. In addition to evolutionary processes such as neutral drift, gene flow, and natural selection, the influence of physical and chemical oceanographic processes specific to the marine environment are also considered. Current methods of detecting molecular genetic variation are emphasized, as well as the modern analytic techniques used to understand the nature of that variation. Usually offered alternate falls. *Prerequisite:* BIO-110 and BIO-210.

BIO-442 Behavioral Ecology (3) Behavioral ecology examines the ecological and evolutionary basis of animal behavior and how particular behavior patterns contribute to an animal's chances of survival and its reproductive success. This course includes sexual selection and mating systems; sexual conflict, mate choice, and parental care; natural selection and genetics of behavior; evolutionary arms races, predators, and prey, and parasites and hosts; group conflict and cooperation; cooperative breeding; and experimental design and research questions in behavioral ecology. The course is structured to promote lively and productive discussion. Usually offered alternate springs. *Prerequisite:* BIO-210 and BIO-356.

BIO-444 Larval Ecology (3) Examination of early developmental forms in a variety of marine species (vertebrates and nonvertebrates) and discussion of environmental and behavioral factors that influence growth and survival. Usually offered alternate springs. *Prerequisite:* BIO-110 and BIO-240.

BIO-445 Ichthyology with Laboratory (4) An overview of the study of fishes, including anatomy, physiology, systematics, and behavior. The laboratory focuses on taxonomy and morphology of different species. Usually offered alternate springs. *Prerequisite:* BIO-240 and BIO-340.

BIO-450 Developmental Biology (3) The descriptive morphology, physiology, biochemistry, genetics, and molecular biology of the developmental processes in a variety of organisms. Meets with BIO-650. Usually offered alternate springs. *Prerequisite:* BIO-300 or permission of instructor and concurrent registration in BIO-450.

BIO-451 Developmental Biology Laboratory (1) Training in embryo manipulation and study of prepared microscopic slides in order to illustrate developmental concepts. Usually offered alternate springs. *Prerequisite:* BIO-300 and concurrent registration in BIO-450.

BIO-490 Independent Study Project in Biology (1-6) *Prerequisite:* permission of instructor and department chair.

BIO-491 Internship (1-4) *Prerequisite:* permission of instructor and department chair.

BIO-497 Senior Honors Thesis I (3) Student designed original laboratory or field research project. Usually offered every term. *Prerequisite:* Senior standing, permission of department and University Honors program.

BIO-498 Senior Honors Thesis II (3) Completion of student designed original laboratory or field research project. Results both written as scientific paper(s) and presented in departmental seminar. Usually offered every term. *Prerequisite:* BIO-497.

BIO-499 Senior Seminar in Biology (3) This seminar, required of all senior biology majors, challenges students to examine unifying principles of biology. Different subjects are presented in discussions, through faculty and guest speakers, readings, and individual student presentations. Usually offered every spring. *Prerequisite:* senior biology majors.

Graduate and Advanced Undergraduate Courses

BIO-500 Advanced General Microbiology (3) Structure and functional anatomy of procaryotic cell walls and membranes; bacterial phototrophs, autotrophs, heterotrophs, their main pathways of degradative and synthetic metabolism; mechanisms of procaryotic genetic exchange; and regulation of gene expression. *Prerequisite:* BIO-440.

BIO-501 Mechanisms of Pathogenesis (3) Infectious diseases of humans with emphasis on bacterial pathogens and the biology of the causative agents. Host-pathogens and the biology of causative agents. Host-parasite relationships, pathogenesis, immunology, and epidemiology are studied. Usually offered alternate springs (even years). *Prerequisite:* BIO-300.

BIO-505 Introduction to Neurobiology (3) A general introduction to basic neuroanatomy and neurophysiology, with discussions of current issues in neuroscience. Intended for advanced undergraduates in biology or psychology pursuing a natural science curriculum, and for graduate students in biology and psychology. Usually offered alternate springs (even years). *Prerequisite:* BIO-300 or graduate standing or permission of instructor.

BIO-520 Topics in Marine Zoology with Laboratory (3) Topics vary by section, may be repeated for credit with different topic. An advanced marine zoology course dealing with ecology, evolution, systematics, morphology, and physiology of major taxonomic groups of marine organisms in particular ecosystems. Examples include fishes and fisheries science, marine birds, crustaceans,

planktons, coral reefs, and marine mammals. Lectures are augmented by interactive laboratories, field observations, and research projects. Usually offered every spring. *Prerequisite:* BIO-340 or equivalent.

BIO-541 Cellular Immunology (3) Current concepts of the immune response at the cellular level. Structure and function of the T-lymphocyte, B-lymphocyte, macrophages, and ancillary cells. Theories of antibody diversity and the cellular basis of immunoglobulin formation. Cellular aspects of immunologic tolerance, hypersensitivity, surveillance, and clinical immunology. Review of the current literature. Usually offered alternate springs (odd years). *Prerequisite:* BIO-300 or graduate standing.

BIO-545 Product Development in the Pharmaceutical Industry (3) This course provides the background and tools needed in the development of drugs and biomedical technology, from the discovery phase to their development into clinical products for use by the public. It includes intellectual right protection, technology, transfer, preclinical development of drugs and vaccines, planning, development, implementation, management, data collection and analysis of human clinical trials, regulatory affairs, role of regulatory agencies, regulatory support of clinical trials, review and approval processes governing pharmaceutical drug development, and regulations and methods governing manufacturing and marketing and commercialization of the products. *Prerequisite:* graduate standing or permission of department.

BIO-561 Biogeography (3) This course emphasizes four persistent themes in biogeography: classifying geographic regions based on their biota; reconstructing the history of biota; explaining the differences in numbers as well as types of species among geographic areas; and explaining geographic variation in the characteristics of individuals and populations of closely-related species. Usually offered alternate springs. *Prerequisite:* BIO-110 and BIO.

BIO-562 Field Methods (3) Biological, chemical, and physical analysis of freshwater and terrestrial habitats. Students participate in weekend field trips to conduct group projects and learn skills for geographic survey, chemical and physical examinations of habitat quality, field sampling techniques of flora and fauna, taxonomic identification, statistical and data analysis, and presentation of results. Usually offered alternate falls. *Prerequisite:* BIO-423 and MATH-221 or STAT-202, or graduate standing in biology or environmental science, or permission of instructor.

BIO-566 Evolutionary Mechanisms (3) The genetic composition of populations and the theory and principles of natural selection. Species formation and differentiation in Darwinian and neo-Darwinian theory. Evolution above the species level and current evolutionary concepts (such as sociobiology and catastrophe theory) are also considered. Usually offered alternate falls (odd years). *Prerequisite:* BIO-356.

BIO-567 Evolutionary Ecology (3) The ecology of organisms is made clear in the context of evolution and the study of evolution is greatly enriched by an understanding of the ecological circumstances in which evolution occurs. This course focuses on the interface between the two and the mathematical models involved. *Prerequisite:* BIO-423 and MATH-221.

BIO-583 Molecular Biology (3) An in-depth study of gene structure and expression. Concepts are described and illustrated further with examples and discussion of classic and current papers from the scientific literature. Includes DNA, RNA and protein synthesis, regulation of gene expression in prokaryotes and eukaryotes, nu-

cleic acid structure, RNA processing, DNA binding proteins and transcription factors, oncogenes, transformation, mutations, DNA repair and recombination. Usually offered every fall. *Prerequisite:* BIO-356, CHEM-560 is recommended.

BIO-590 Independent Reading Course in Biology (1-6) *Prerequisite:* permission of instructor and department chair.

Graduate Courses

BIO-650 Developmental Biology (3) The descriptive morphology, physiology, biochemistry, genetics, and molecular biology of the developmental processes in a variety of organisms. Meets with BIO-450. Usually offered alternate springs

BIO-677 Topics in Developmental Biology (1-4) Topics vary by section, may be repeated for credit with different topic. Current research topics such as nuclear-cytoplasmic interactions, cell surface in development, developmental aspects of carcinogenesis, and gene expression in development. Usually offered every spring. *Prerequisite:* permission of instructor.

BIO-679 Topics in Evolutionary Biology (1-4) Topics vary by section, may be repeated for credit with different topic. Current research topics such as molecular evolution, biochemical approaches to evolution, mathematical modeling of evolutionary processes, and the interaction of genetics, developmental biology, ecology, and evolutionary biology. Usually offered every spring. *Prerequisite:* permission of instructor.

BIO-690 Independent Study Project in Biology (1-6) *Prerequisite:* permission of instructor and department chair.

BIO-691 Internship (1-6) *Prerequisite:* permission of instructor and department chair.

BIO-692 Cooperative Education Field Experience (3-6) *Prerequisite:* permission of department chair and Cooperative Education office.

BIO-697 Research Methodology in Biology (3) Basic scientific research skills necessary for experimental design, data analysis, literature critiques, and disseminating results. Includes techniques for literature research, scientific writing including thesis proposal preparation, the use of statistical packages, and the preparation of an oral presentation for a thesis defense, seminar, or professional meeting. Usually offered every fall. *Prerequisite:* graduate standing in biology.

BIO-790 Biology Literature Research (1-6) Students conduct a literature search on some aspect of the biological sciences under the direction of their guidance committee, culminating in the submission of a review paper. Usually offered every term. *Prerequisite:* M.A. candidate in biology.

BIO-797 Master's Thesis Research (1-6) *Prerequisite:* M.S. candidate in biology.

Chemistry

Undergraduate Courses

CHEM-100 The Molecular World 5:1 (4) A general introduction to chemistry leading to biochemistry and the chemistry of life. Study of the composition of materials, their structures and properties, related energy conversions, and the use of molecular genetic information. Questions of scientific inquiry and the scientific method in cultural and historical contexts are considered. Usually offered every term. *Prerequisite:* completion of the University Mathematics Requirement, or concurrent enrollment in MATH-170 or MATH-211 or STAT-202.

CHEM-110 General Chemistry I 5:1 (4) A general introduction to chemistry: the scientific method; atomic structure; stoichiometry and chemical reactions; heat changes; electronic structure of atoms; molecular geometry; and liquid, solid, gas, and solution chemistry. Provides a sound basis in concepts, vocabulary, and analytical problem solving. Related laboratory work covers the scientific method, measurements using scientific apparatuses, collection and manipulation of data, error analysis, and illustration of scientific principles. Usually offered every term. *Prerequisite:* completion of the University Mathematics Requirement, or concurrent enrollment in MATH-170 or MATH-211 or STAT-202.

CHEM-205 The Human Genome 5:2 (3) The human genome is the DNA book of life, containing information to create networks of proteins that construct a human being. The course discusses how the genome was read, how variants in DNA information are detected, and how interactions of networks of proteins are deciphered. Also, how this information changes views of disease, medical treatments, and our image of ourselves as a species. Can environmental factors override our genes (nurture vs. nature)? Substantial focus on ethical and social issues related to genetic testing, gene therapy, and our understanding of race. Usually offered every term. *Prerequisite for General Education credit:* BIO-100 or BIO-110 or CHEM-100 or CHEM-110 or ENVS-150 or PHYS-100 or PHYS-105 or PHYS-110 or PSYC-115.

CHEM-210 General Chemistry II 5:2 (4) Oxidation-reduction reactions, reaction rates, equilibrium and its relation to thermodynamics, acid-base chemistry and its practical applications, electrochemistry, molecular bonding theory, and nuclear chemistry. Related laboratory work covers titration techniques, spectroscopic analysis, kinetics experiments, and introduction to qualitative and quantitative analysis. Usually offered every spring. *Prerequisite:* CHEM-110. *Prerequisite for General Education credit:* CHEM-100 or CHEM-110 or PHYS-100 or PHYS-105 or PHYS-110.

CHEM-230 Earth Sciences 5:2 (3) Combines geology, geophysics, and geochemistry in describing the evolution of our planet, the deep structure of the earth, its plate tectonic evolution, and interaction of the crust with the hydrosphere, biosphere, and atmosphere. Occasional laboratory demonstrations and field trips. Usually offered every term. *Prerequisite for General Education credit:* CHEM-100 or CHEM-110 or PHYS-100 or PHYS-105 or PHYS-110.

CHEM-250 Criminalistics, Crime, and Society 5:2 (3) This course presents the unique and challenging application of science to law. The focus is on the scientific aspects of criminal investigations and judicial process. The course includes an overview of forensic science, the identification of illicit drugs, fibers, hairs, accelerants, gun shot residues, and explosives by chemical analysis, as well as DNA profiling. Emphasis is placed on the techniques of sampling a crime scene and the use of physical evidence to help solve cases. Students learn how to unlock the mystery of crimes through application of physical and chemical techniques. *Prerequisite for General Education credit:* CHEM-100 or CHEM-110 or PHYS-100 or PHYS-105 or PHYS-110.

CHEM-310 Organic Chemistry I (3) Systematic treatment of hydrocarbons, alkyl halides, alcohols, carbonyl compounds, acids, and their derivatives. Ionic and free radical reactions and stereochemistry. Usually offered every fall. *Prerequisite:* CHEM-210. Must be taken concurrently with CHEM-312.

CHEM-312 Organic Chemistry I Laboratory (1) Laboratory theory and practice in synthesis, separation, and purification of organic compounds. Introduction to separation techniques including thin-layer, column, and gas chromatography. Usually offered every fall. *Prerequisite:* Must be taken concurrently with CHEM-310.

CHEM-320 Organic Chemistry II (3) Aliphatic and aromatic compounds and electrophilic substitution; spectral methods; and nitrogen compounds and their derivatives. Introduction to polyfunctional compounds including amino acids, carbohydrates, lipids, and nucleic acids. Usually offered every spring. *Prerequisite:* CHEM-310; must be taken concurrently with CHEM-322.

CHEM-322 Organic Chemistry II Laboratory (1) Multistep syntheses; synthesis of polyfunctional compounds; introduction to infrared and nuclear magnetic resonance spectra; qualitative organic analysis. Usually offered every spring. *Prerequisite:* must be taken concurrently with CHEM-320.

CHEM-330 Environmental Chemistry (3) This course emphasizes that all parts of the environment are made up of chemicals, and that natural processes occurring in the environment all involve chemical reactions. As part of a description of the chemistry of the lithosphere, hydrosphere, and atmosphere, the composition of an unpolluted environment is presented, as well as techniques used by the EPA to measure pollutants. *Prerequisite:* CHEM-110.

CHEM-335 Topics in Biological and Organic Chemistry (3) Topics vary by section, may be repeated for credit with different topic. Rotating topics include advanced techniques in QSAR and drug discovery. Meets with CHEM-635. Usually offered alternate springs. *Prerequisite:* CHEM-310/CHEM-312, and CHEM-320/CHEM-322 or equivalent.

CHEM-350 Quantitative Analysis (3) Theory of acid-base, complexation, precipitation, and redox equilibria; volumetric and gravimetric analyses; separations; statistical analysis of data; separation and analysis of complex mixtures. Usually offered alternate falls. *Prerequisite:* CHEM-210 and MATH-221; must be taken concurrently with CHEM-351.

CHEM-351 Quantitative Analysis Laboratory (2) Practice in classical analytical methods of analysis, including precipitation titrations and gravimetric analysis; neutralization titrations and potentiometric methods; oxidation, reduction, and complex formation titrations; and electrochemical methods. Computer-assisted statistical analysis of data. Usually offered alternate falls. *Prerequisite:* must be taken concurrently with CHEM-350.

CHEM-355 Topics in Inorganic and Analytical Chemistry (3) Topics vary by section, may be repeated for credit with different topic. Rotating topics include advanced techniques in NMR and mass spectrometry. Meets with CHEM-655. Usually offered alternate springs. *Prerequisite:* CHEM-460, and CHEM-550.

CHEM-360 Topics in Environmental Chemistry (3) Topics vary by section, may be repeated for credit with different topic. Rotating topics including applications of green chemistry, natural products chemistry, and ecotoxicology. Meets with CHEM-660. *Prerequisite:* permission of instructor and department chair.

CHEM-390 Independent Reading Course in Chemistry (1-6) *Prerequisite:* permission of instructor and department chair.

CHEM-392 Cooperative Education Field Experience (3-9) *Prerequisite:* permission of department chair and the Cooperative Education office.

CHEM-398 Honors: Junior Year (1–3) Independent chemical laboratory research project under the direction of a faculty advisor. Usually offered every fall. *Prerequisite:* CHEM-320/CHEM-322, and permission of department chair and university honors director.

CHEM-399 Honors: Junior Year (1–3) Independent chemical laboratory research project under the direction of a faculty advisor. Usually offered every spring. *Prerequisite:* CHEM-320/CHEM-322, concurrent registration in CHEM-507, a grade of B or better in CHEM-398 if taken, and permission of department chair and university honors director.

CHEM-401 Geology (3) Study of the interior and exterior of the earth and how it works. Focus is on the processes that shape the earth's surface: weathering, mass-wasting, water, wind, glaciers, and plate tectonics. The evolution of the earth including the impact of earthquakes, rock deformation, and landscape evolution. The import of the need for energy and mineral resources is also considered. Usually offered every third semester. *Prerequisite:* CHEM-110.

CHEM-410 Biophysical Chemistry (3) This physical chemistry course provides an introduction to the states of matter, thermodynamics, equilibrium, solutions, and kinetics applied to biological and environmental systems by using examples from the life sciences. Usually offered every spring. *Prerequisite:* CHEM-320 and MATH-221.

CHEM-460 Instrumental Analysis (3) Analytical and instrumental methods; statistical analysis of data and errors; theory of optical and chromatographic methods including ultraviolet, visible, infrared, and fluorescence spectroscopy, and gas and liquid chromatography; atomic spectroscopy; mass spectrometry; and nuclear magnetic resonance. Usually offered every fall. *Prerequisite:* CHEM-320 and MATH-222.

CHEM-490 Independent Study Project in Chemistry (1–6) *Prerequisite:* permission of instructor and department chair.

CHEM-491 Internship (1–6) *Prerequisite:* permission of instructor and department chair.

CHEM-498 Honors: Senior Year (1–3) Independent chemical laboratory research project under the direction of a faculty advisor. Usually offered every fall. *Prerequisite:* CHEM-420, CHEM-460, a grade of B or better in CHEM-399 if taken, and permission of department chair and university honors director.

CHEM-499 Honors: Senior Year (1–3) Independent chemical laboratory research project under the direction of a faculty advisor. A senior thesis must be written and the results of research presented at a departmental seminar. Usually offered every spring. *Prerequisite:* CHEM-498 with a grade of B or better if taken, prior or concurrent registration in CHEM-507, and permission of department chair and university honors director.

Graduate and Advanced Undergraduate Courses

CHEM-501 Principles of Analytical Chemistry (3) Spectroscopic and chromatographic techniques, electrochemistry, and data treatment. Usually offered alternate springs. *Prerequisite:* organic chemistry and quantitative analysis.

CHEM-506 Human Physiological Chemistry (3) Cell structure, structures and functions of amino acids, peptides, and proteins. Characteristics of blood, hemoglobin, and enzymes. Central metabolism and bioenergetics. Neurotransmission and muscle contraction. Metabolism of carbohydrates, fatty acids, lipids, and amino acids. Hormonal regulation. Experiments coordinated with the lectures. Does not fulfill requirements in either chemistry or bi-

ology degree programs. Usually offered every spring. *Prerequisite:* a year of general chemistry.

CHEM-510 Advanced Physical Chemistry (3) Advanced physical chemistry course covering quantum chemistry, molecular spectroscopy, group theory, molecular spectroscopy, statistical mechanics, and modern physical chemistry research topics. Usually offered alternate falls. *Prerequisite:* CHEM-320 and MATH-313.

CHEM-511 Advanced Physical Chemistry Laboratory (2) Experiments in quantum chemistry, spectroscopy, and physical chemical methods. Usually offered alternate springs. *Prerequisite:* must be taken concurrently with CHEM-510.

CHEM-520 Advanced Organic Chemistry I (3) Principles of physical organic chemistry. Bonding and conformational analysis; nucleophilic substitution at carbon; elimination and addition reactions; carbene chemistry; and cycloaddition reactions. Usually offered every fall. *Prerequisite:* organic and physical chemistry.

CHEM-521 Advanced Organic Chemistry II (3) Synthetic and mechanistic aspects of the chemistry of carbonyl compounds. Acylations, alkylations, and other condensations; oxidation and reduction reactions. Application of orbital symmetry correlations to organic reactions. Usually offered every spring.

CHEM-540 Advanced Analytical Chemistry (3) Techniques of chemical analysis; theory of acid-base, complexation, precipitation, and redox equilibria; volumetric and gravimetric analysis; statistical analysis of data; separation and analysis of complex mixtures; ion-selective electrodes, polarography; amperometry; atomic and x-ray spectroscopy; chromatography, microscopy; radiometric techniques; and neutron activation analysis. Usually offered alternate spring. *Prerequisite:* CHEM-460.

CHEM-550 Advanced Inorganic Chemistry (3) Electronic structure of atoms, periodic trends, bonding and structure of covalent compounds, electronegativity, bonding and structure of coordination complexes, acids and bases, organometallic chemistry, and bioinorganic chemistry. Usually offered every fall. *Prerequisite:* physical chemistry.

CHEM-552 Inorganic Chemistry Laboratory (1) An introduction to classical inorganic chemical syntheses, purification methods, and analyses. Techniques utilized in the identification of compounds include Fourier transform infrared, ultra violet and visible, ¹H nuclear magnetic resonance and mass spectroscopies, and magnetic susceptibility measurements. Some synthetic procedures utilize an inert atmosphere approach. Usually offered alternate falls. *Prerequisite:* organic chemistry laboratory.

CHEM-560 Biochemistry I (3) Biochemistry is the study of the chemistry of life. This course, the first of a two-course sequence, focuses on structures and functions of amino acids, proteins, DNA, and RNA; enzyme kinetics; mutation and Central Dogma. Usually offered every fall. *Prerequisite:* one year of organic chemistry.

CHEM-561 Biochemistry II (3) Biochemistry is the study of the chemistry of life. This course, the second of a two-course sequence, focuses on metabolism and bioenergetics; carbohydrate and lipid structures, functions, and metabolism; amino acid and nucleotide biosynthesis, and metabolic regulation and hormones. Usually offered every springs. *Prerequisite:* CHEM-560.

CHEM-565 Introduction to Proteomics (3) An introduction to genomics and protein production from genes. Includes protein activities and functions; networks of proteins and protein expression; structural biological method for determining protein structures and interactions of small molecules such as pharmaceuticals, with pro-

tein targets; and methods for identifying protein functions and protein-protein interaction networks. Usually offered alternate springs. *Prerequisite:* CHEM-560.

CHEM-571 Experimental Biological Chemistry I (3) Chemistry is inherently an experimental science. In this course student learn and become familiar with the experimental techniques necessary to answer some of the most challenging questions in modern biological chemistry. Usually offered every fall. *Prerequisite:* CHEM-460 and CHEM-560.

CHEM-572 Experimental Biological Chemistry II (3) Good research practices require chemists to develop experiments that effectively probe relevant or interesting scientific problems. Student apply the knowledge gained in CHEM-570 to develop and carry out experiments of the own design. Usually offered every spring. *Prerequisite:* CHEM-570.

CHEM-590 Independent Reading Course in Chemistry (1-6) *Prerequisite:* permission of instructor and department chair.

Graduate Courses

CHEM-602 Research Method Design (3) The development of laboratory skills and chemical communication. An introduction to laboratory safety, eye protection, and dealing with hazardous materials, and how to search literature indexes by formula and structure. Presentation of the purpose and strategy of research method design, and preparation of a research proposal. Usually offered every fall.

CHEM-605 Research Seminar (3) Presentation and practice of modern chemical techniques, including thin layer chromatography, analytical and preparative high pressure liquid chromatography, gas chromatography, ion chromatography, capillary electrophoresis, GC-MS and LC-MS, NMR, sample extraction and preparation techniques and methods used to standardize instruments. Students present a seminar describing the experimental results of their research project. Usually offered every spring.

CHEM-635 Topics in Biological and Organic Chemistry (3) Topics vary by section, may be repeated for credit with different topic. Rotating topics include advanced techniques in QSAR and drug discovery. Meets with CHEM-335. Usually offered alternate springs.

CHEM-655 Topics in Inorganic and Analytical Chemistry (3) Topics vary by section, may be repeated for credit with different topic. Rotating topics include advanced techniques in NMR and mass spectrometry. Meets with CHEM-355. Usually offered alternate springs. *Prerequisite:* CHEM-550.

CHEM-660 Topics in Environmental Chemistry (3) Topics vary by section, may be repeated for credit with different topic. Rotating topics including applications of green chemistry, natural products chemistry, and ecotoxicology. Meets with CHEM-360. *Prerequisite:* permission of instructor and department chair.

CHEM-690 Independent Study Project in Chemistry (1-6) *Prerequisite:* permission of instructor and department chair.

CHEM-691 Internship (1-6) *Prerequisite:* permission of instructor and department chair.

CHEM-692 Cooperative Education Field Experience (3-6) *Prerequisite:* permission of department chair and the Cooperative Education office.

CHEM-700 Seminar in Chemistry (1) Preparation and presentation of a paper of professional quality. Usually offered every fall and spring. *Prerequisite:* CHEM-507 and 12 graduate credit hours in chemistry.

CHEM-751 Research Seminar in Toxicology and Biochemistry (3) Topics vary by section, may be repeated for credit with different topic. Students deliver oral and written reports on various topics in contemporary toxicology, covering biological and chemical mechanisms of action of toxicants, testing methodology, and societal issues. Usually offered every spring.

CHEM-797 Master's Thesis Research (1-6)

CHEM-799 Doctoral Dissertation Research (1-20)

Communication

Note: The program track or tracks of each undergraduate professional course are noted in the course descriptions below: (BJ) Broadcast Journalism, (CS) Communication Studies, (FM) Film and Media Arts, (PJ) Print Journalism, (PC) Public Communication. Media Studies courses are identified by (MS).

Noncredit Courses

COMM-033 Practicum in Non-Linear Editing (0) A one-week intensive course designed to introduce basic concepts and applications of non-linear editing. Workshop format covers basic and intermediate non-linear editing skills on the Media 100 platform. Sessions are divided into interactive lecture presentation and hands-on tutorials. *Prerequisite:* COMM-434 or COMM-634.

COMM-070 Discover the World of Communication (0) Noncredit workshops in current practices and trends in the film, video, and television professions. High school students select courses in film and video production, direction, writing, design, and management, post-production editing, and other related fields. Small classes and active participation are stressed. Usually offered every summer.

COMM-080 Film and Digital Media Workshop (0) Noncredit workshops covering a variety of skills in both technical and business aspects of film and digital media. Usually offered once per year. *Prerequisite:* permission of school.

Undergraduate Courses

COMM-100 Understanding Media 4:1 (3) (BJ, PJ, PC, FM) Building on students' individual and collective experiences of mass media (print, film, radio, television, and digital media), this course analyzes American media institutions: their development and social role; the economic and political constraints they face; and their effect on us as a society and as individuals. Usually offered every term.

COMM-102 Selected Topics in Leadership (1-2) Topics vary by section, may be repeated for credit with different topic. Analyses of topics in leadership in a global era, with special attention to communication skills, ethics, and current issues in media. *Prerequisite:* permission of school. Usually offered every summer.

COMM-105 Visual Literacy 1:1 (3) (PC, FM) (MS) This course introduces students to ways of understanding visual images in a variety of contexts, including art, photography, film, and performing arts. Students learn about aesthetics, as well as the production aspects of visual images; discover intuitive dimensions of seeing; and analyze the influence of culture on visual symbols and communication. Hands-on learning in blog development, photography, and video production puts theory into action. Usually offered every term.

COMM-200 Writing for Mass Communication (3) (BJ, CS, FM, PJ, PC) A course stressing basic writing techniques for unique audiences. Intensive practice in writing for print, web, broadcast, public communication and public service. Usually offered every

term. *Prerequisite:* completion of College Writing and Writing Proficiency Requirement.

COMM-209 Communication and Society (3) (CS, PC) The central role communication processes play in human life and society, with consideration of the practical ramifications as well as the theoretical implications of communication. Communication process issues involving gender, race, culture, ethnicity, class, and conflict and power are also analyzed. Usually offered every term.

COMM-270 How the News Media Shape History 2:2 (3) (BJ, CS, PJ) (MS) The impact that the print and broadcast news media have had on America. The role and value of a free press, always powerful and usually responsible. How radical writers helped start the American Revolution to how today's reporters influence contemporary political events. Usually offered every term. *Prerequisite for General Education credit:* GOVT-105 or HIST-115 or JLS-110 or PHIL-105 or RELG-105.

COMM-275 Dissident Media: Voices from the Underground 4:2 (3) (BJ, CS, PJ) (MS) The evolution and impact of alternative media as forces for social change. How dissident groups have used non-establishment media such as suffragist and Socialist journals, African-American and gay presses, counterculture tabloids, Christian-right newsletters, and the "zines" of the 1990s to organize and bring about reform. Also examines the power of communication, the interplay between media and society, and the complex role of politically dissident media in American history. Usually offered once a year. *Prerequisite for General Education credit:* COMM-100 or ECON-100 or GOVT-110 or SOCY-150.

COMM-280 Contemporary Media in a Global Society 3:2 (3) (BJ, PJ, MS) An exploration of the relationship between international communication and foreign policy, with an emphasis on the traditions, practices, legal aspects, government controls, and attitudes in various countries and their impact on freedom of thought and expression. Usually offered every fall and spring. *Prerequisite for General Education credit:* ECON-110 or GOVT-130 or HIST-120 or SIS-105 or SIS-110.

COMM-285 Media, Mapping, and Thinking in 3-D (3) This course explores new forms of envisioning and mapping places, ideas, people, and things. It introduces emerging forms of geo-spatial communication, such as GoogleEarth, computerized mapping, and GPS, that are applied to a broad range of information-handling tasks used in courses across the university. Includes 3-D and 4-D visualization.

COMM-300 Interpersonal Communication (3) (PC) Principles of interpersonal communication: communication models and systems; the role of perception in communication; verbal and nonverbal message elements; and communication barriers, breakdowns, and methods of improvement. Classroom exercises in interviewing techniques, small-group problem solving, and public speaking. Usually offered every term. *Prerequisite:* COMM-100, COMM-200, COMM-301 (may be taken concurrently), public communication major, and minimum 2.5 GPA.

COMM-301 Public Relations (3) (CS, PC) An introduction to public relations that explores the strategy and tactics involved in this field. Learn the strategic concepts behind public relations and the ways that professionals practice it. Topics include audience targeting and research, message development, media relations, and using all possible tactics, including traditional and social media, to reach people and communicate with them. Students see how public relations works in such areas as business, society, entertainment,

sports, and politics, among others, and learn how public relations professionals deal with crises, communications challenges, and different publics. Usually offered every term. *Prerequisite:* COMM-209 (may be taken concurrently) and minimum 2.5 GPA.

COMM-305 Digital Skills (3) (BJ, CS, PJ) Digital storytellers have more options than ever before in today's dynamic and hyper-connected world. This hands-on course is an introduction to multimedia tools and techniques in producing words and images, audio and video, and cutting-edge interactivity. *Prerequisite:* COMM-100 and COMM-200.

COMM-310 Public Speaking (3) (PC) Principles of effective speaking. Practice in preparing and presenting several types of public address. Usually offered every term. *Note:* students may not receive credit for both COMM-310 and COMM-210. *Prerequisite:* minimum 2.5 GPA.

COMM-320 Reporting (3) (BJ, PJ) Fundamentals of news gathering, news writing, and news judgment for all media; study of news sources, fieldwork, research, and interview techniques. Usually offered every term. *Prerequisite:* COMM-305 and minimum 2.5 GPA.

COMM-322 Editorial Policies and Methods (3) (PJ) Instruction and practice in editing. Online and newspaper copy editing, editorial judgment, deadline writing, and design and layout. *Prerequisite:* COMM-200, COMM-320, journalism major, and minimum 2.5 GPA.

COMM-325 Feature Article Writing (3) (PJ) Study of feature articles for newspapers, syndicates, magazines, and specialized publications; practice in research, interviewing, and writing, marketing and publication of articles. Usually offered every term. *Prerequisite:* COMM-320 and minimum 2.5 GPA.

COMM-326 Sports Journalism (3) (PJ, BJ) The history of sports coverage and current issues in major sports. Examines legal, ethical, and social aspects including contract law, the relationship between hometown news media and local teams, women in sports, and the lure of sports heroes in a changing society. Usually offered every spring. *Prerequisite:* COMM-100, COMM-200 and minimum 2.5 GPA.

COMM-327 The PR Presidency (3) (CS, PC) (MS) This course looks at the way public relations, communications, and the media have defined the modern presidency. Campaigning, governing, building public opinion, addressing the nation, making news—all are built on a foundation of public relations and image making, and all are examined in this course. Special attention is paid to the role of the media, especially television, in shaping the presidency. Usually offered every fall. *Prerequisite:* minimum 2.5 GPA.

COMM-330 Principles of Photography (3) (FM, PJ, PC) Introduction to basic technical and aesthetic principles of black and white photography, from learning how to operate 35mm film and digital SLR cameras, to processing and developing film, and printing both in the darkroom and digitally. Usually offered every term. *Prerequisite:* COMM-105 or ARTS-100 or GDES-200, film and media arts, graphic design, or multimedia major, and minimum 2.5 GPA.

COMM-331 Film and Video Production I (3) (FM) Fundamental technical and aesthetic considerations involved in visual media production. Through projects in audiotape, 35mm slides, and small format video that are critiqued in class, students learn the principles and procedures of sound recording and editing, cinematography, editing visual images, and preproduction planning. Usually offered

every term. *Prerequisite:* COMM-105, sophomore standing, film and media arts or multimedia major, and minimum 2.5 GPA.

COMM-337 Public Relations Writing (3) Principles and practice in writing skills development for major formats in controlled and uncontrolled media including news for print, radio, television, and on-line communications; public service announcements; features; internal communication programs; speeches and presentations; business media; and institutional advertising. Also covers AP style, editing, and critiques. Usually offered every term. *Prerequisite:* COMM-200, COMM-301 with a grade of B or better, public communication major, and minimum 2.5 GPA.

COMM-346 Public Relations Case Studies (3) (PC) Case studies and typical public relations problems in industry, labor, education, government, social welfare, and trade associations. Planning and preparation of communications materials for various media; application of public relations techniques. Usually offered every term. *Prerequisite:* COMM-301 with a B or better, public communication major, and minimum 2.5 GPA.

COMM-350 Digital Imaging (3) An introduction to the technical aspects of digital imaging and basic techniques such as selection and retouching tools that challenges students to create effective visual communication designs. The courses includes how to effectively use layers, channels, and masks to edit and composite images with discussions focusing on creating and recognizing effective visual communication concepts and carrying out these concepts through design. Students should expect to spend additional time in the lab outside of the scheduled class time. Usually offered every term. *Prerequisite:* COMM-105, film and media arts major, and minimum 2.5 GPA.

COMM-380 Public Communication Research (3) (PC) Application of survey research methods to selected problems in public relations. Preparation of a research project for a Washington-area client. Usually offered every term. *Prerequisite:* COMM-301 with a B or better, public communication major, and minimum 2.5 GPA.

COMM-382 Writing for Visual Media (3) (FM) Techniques of writing scripts for film and television productions. Students write treatments and screenplays for television, proposals for public service announcements, commercials and scripts for nontheatrical film and video productions. Usually offered every term. *Prerequisite:* COMM-105, COMM-200, film and media arts or multimedia major, and minimum 2.5 GPA.

COMM-385 Broadcast Journalism I (3) (BJ) Writing, reporting, and editing news for radio. Production of minidocumentary. Laboratory. Usually offered every term. *Prerequisite:* COMM-320, journalism major, and minimum 2.5 GPA.

COMM-390 Independent Reading Course in Communication (1-6) *Prerequisite:* minimum 2.5 GPA., permission of instructor and division director.

COMM-391 Internship (3) *Prerequisite:* junior standing, minimum 2.5 GPA, and permission of school.

COMM-392 Cooperative Education Field Experience (3) *Prerequisite:* permission of division director and Cooperative Education office.

COMM-401 Legal Aspects of Communication (3) (BJ, CS, PC, PJ) (MS) Current legal problems; theory of controls in journalism, visual communication, television, and radio; libel suits, copyrights, and infringement. Usually offered every term. *Prerequisite:* minimum 2.5 GPA.

COMM-425 Advanced Reporting (3) (PJ) Students are introduced to the various reporting techniques involved in writing about local and federal governmental operations. Students write local and federal government news stories. Usually offered every term. *Prerequisite:* COMM-320, journalism major, and minimum 2.5 GPA.

COMM-426 Sports Writing and Reporting (3) This course gives students the opportunity to become full-fledged sportswriters. The course is divided into three parts, the preseason, regular season, and post-season, and students work individually and in groups to produce game stories, features, columns, and blogs, culminating in each student writing and reporting an enterprise story. Much of the work centers on American University athletic teams, but students also get the chance to cover off-campus sports events. Usually offered every fall. *Prerequisite:* minimum 2.5 GPA.

COMM-428 Broadcast Journalism II (3) (BJ) Writing, reporting, editing, and producing news for television. Production of television field reports and newscasts on closed circuit television. Laboratory. Usually offered every term. *Corequisite:* COMM-432. *Prerequisite:* COMM-320, journalism major, and minimum 2.5 GPA.

COMM-432 Backpack Video Journalism (3) (BJ) Instruction in shooting, editing, and producing of video stories; merging of script, video, and graphics into the final product. Working alone or in small teams, students learn to use digital cameras, microphones, lights, tripods, field shooting techniques, and nonlinear editing. Usually offered every term. *Corequisite:* COMM-428. *Prerequisite:* COMM-320, journalism major, and minimum 2.5 GPA.

COMM-433 Broadcast Delivery (3) (BJ, MS) Concentrated analysis of and training in the delivery of news on radio and television. All facets of broadcast news styles and performance are examined and developed. Obstacles to effective communication of news by the voice are identified, and remedies are attempted. Meets with COMM-633. *Prerequisite:* journalism major, and minimum 2.5 GPA.

COMM-434 Film and Video Production II (3) (FM) Includes 16mm silent and small-format video location production. Emphasis is on planning, treatment and shot scripting, development of scene and character, location lighting, refinements of continuity, location sound recording, and visual design. Meets with COMM-634. Usually offered every term. *Prerequisite:* COMM-331, COMM-382 (may be taken concurrently), and minimum 2.5 GPA.

COMM-435 Introduction to Studio Television (3) (FM) A hands-on laboratory course to teach basic studio operation and production skills, including the production roles of director, technical director, audio engineer, teleprompter operator, floor manager, and camera operator as well as original production planning. The class stresses teamwork and professionalism through participation in the creation of an original short television series. Meets with COMM-635. Usually offered every term. *Prerequisite:* COMM-105, film and media arts major, and minimum 2.5 GPA.

COMM-437 Public Relations Portfolio (3) (PC) Principles and practice in the major forms of media used in public relations: news releases, broadcast publicity and public service announcements, planning and publicity for special events, feature stories, house publications, and institutional advertising. Usually offered every

term. *Prerequisite:* COMM-337, COMM-346, COMM-380, public communication major, and minimum 2.5 GPA.

COMM-438 Production Practicum (1-3) (FM) Topics vary by section, may be repeated for credit with different topic. Provides students with skills training in a variety of media production areas. Topics include non-linear editing, digital post production, location sound production, studio sound production and mixing, location lighting techniques, cinematography, digital authoring, and coding. *Prerequisite:* minimum 2.5 GPA.

COMM-450, COMM-451 Washington Journalism Semester Seminar I (4), II (4) COMM-450 and COMM-451 are taken together, and explore journalism as it exists and is practiced in Washington, D.C. The seminar studies the people, institutions, and issues of Washington journalism with weekly guest speakers, field trips, readings, review sessions, and lectures. Usually offered every fall and spring. *Prerequisite:* admission to Washington Journalism Semester. *Note:* not open to American University communication majors.

COMM-452 Washington Journalism Semester Internship (4) Professional communication work in an off-campus organization, providing the student with experience not available in the curriculum. Usually offered every fall and spring. *Prerequisite:* admission to Washington Journalism Semester. *Note:* not open to American University communication majors.

COMM-454 Motion Graphics and Effects I (3) (FM) This course focuses on the creation of motion graphics using animation and compositing programs. Through discussions of concepts and design, students learn techniques to creatively use software tools to achieve dramatic and artistic effects. Current software and concepts used for cutting edge motion graphics and compositing in motion pictures, television, commercials, and music videos are introduced and examples of outside work are presented and analyzed in class. Students are encouraged to learn from each other's examples, problems, and solutions. Students should expect to spend additional time in the lab outside of the scheduled class time. Meets with COMM-654. Usually offered every fall. *Prerequisite:* COMM-350 or GDES-220, and minimum 2.5 GPA; or permission of school.

COMM-628 Proseminar in Political Communication (1) This introduction to political communication examines the role of communication in politics and the interplay of news, politics, advocacy, and public policy. The course provides students with the opportunity to process, analyze, and discuss current events through a political communication prism. Usually offered every fall. *Prerequisite:* admission to the MA in Political Communication. May be taken pass/fail only.

COMM-629 Capstone in Political Communication (3) This seminar is the culmination of the MA in Political Communication and provides support for the required capstone project. This project involves development of an original question, critical thinking, and extensive research and analysis leading to a logical and defensible conclusion and/or recommendations for further study. Usually offered every spring. *Prerequisite:* admission to the MA in Political Communication, completion of the research methods course and at least 27 credits hours, or permission of instructor.

COMM-630 Principles of Photography (3) Introduction to basic technical and aesthetic principles of black and white photography, from learning how to operate 35mm film and digital SLR cameras, to processing and developing film, and printing both in the darkroom and digitally. Usually offered every term. *Prerequisite:* permission of the school.

COMM-631 Film and Video Production I (3) Fundamental technical and aesthetic considerations involved in visual media production. Through projects in audiotape, 35mm slides, and small format video that are critiqued in class, students learn the principles and procedures of sound recording and editing, cinematography, editing visual images, and preproduction planning. Meets with COMM-331. Usually offered every term. *Prerequisite:* admission to graduate film program.

COMM-632 Backpack Video Journalism (3) Instruction in production of television and online news packages. Merging of script, videotape, and graphics into the final product. Supervision of shooting and editing. Usually offered every term. *Prerequisite:* permission of school.

COMM-633 Broadcast Delivery (3) The effective delivery of news on radio and television. Examination and analysis of individual student problems with extensive practice sessions to solve them. Meets with COMM-433. Usually offered every spring. *Prerequisite:* COMM-721.

COMM-634 Film and Video Production II (3) Includes 16mm silent and small-format video location production. Emphasis is on planning, treatment and shot scripting, development of scene and character, location lighting, refinements of continuity, location sound recording, and visual design. Meets with COMM-434. Usually offered every term. *Prerequisite:* admission to graduate film program.

COMM-635 Introduction to Studio Television (3) A hands-on laboratory course to teach basic studio operation and production skills, including the production roles of director, technical director, audio engineer, teleprompter operator, floor manager, and camera operator as well as original production planning. The class stresses teamwork and professionalism through participation in the cre-

ation of an original short television series. Meets with COMM-635. Usually offered every term. *Prerequisite:* admission to graduate film program.

COMM-636 Washington Reporting (3) Field coverage of people, organizations, and events in the Washington area concerned with domestic or international affairs. In-depth story development, feature writing, and editing. Usually offered every spring and summer. *Prerequisite:* permission of the school.

COMM-638 Production Practicum (1-3) Topics vary by section, may be repeated for credit with different topic. Provides students with skills training in a variety of media production areas. Topics include non-linear editing, digital post production, location sound production, studio sound production and mixing, location lighting techniques, cinematography, digital authoring, and coding.

COMM-640 Principles of Strategic Communication (3) Examines the strategic elements of public communication strategies with focus on communication campaigns, public opinion, the media, the role of research, audience identification, message development, and communicating to various publics. Explores the role of strategic communication in society, politics, culture, business and various other institutions, and examines the ethics of persuasion. Usually offered every fall. *Prerequisite:* admission to MA in Public Communication or Political Communication.

COMM-642 Public Communication Management (3) Provides practical and theoretical experience in strategically planning and managing the public relations process. Conceptual and analytical skills include understanding the management of people, resources and organizational processes. Includes leadership skills, budget and proposal development, decision making, ethical and organizational considerations, and managing in culturally diverse environments. Usually offered every spring. *Prerequisite:* admission to graduate public communication program.

COMM-644 Public Communication Writing (3) Explores writing for strategic communication and the relationship among audience, message structure and medium. Develops practical skills in the preparation of news releases, pitch letters, brochure copy, speeches, web site materials, opinion pieces, broadcast applications, magazine features, and advertising copy. Usually offered every fall. *Prerequisite:* admission to MA in Public Communication or International Media.

COMM-646 Public Communication Practicum (3) Applies the principles and skills from other strategic public communication courses to practical case study experiences. As the culminating skills component of the graduate program, students produce a professional portfolio for a client that may include media promotional items, broadcast applications, direct mail and web-based products, as well as newspaper, newsletter, magazine materials and other communication products. Usually offered every spring. *Prerequisite:* admission to graduate public communication program.

COMM-650 Digital Imaging (3) An introduction to the technical aspects of digital imaging and basic techniques such as selection and retouching tools that challenges students to create effective visual communication designs. The courses includes how to effectively use layers, channels, and masks to edit and composite images with discussions focusing on creating and recognizing effective visual communication concepts and carrying out these concepts through design. Students should expect to spend additional time in the lab outside of the scheduled class time. Usually offered every term. *Prerequisite:* previous computer experience.

COMM-652 Web Studio (3) How to construct a web site from the ground up, including site planning, graphics creation, optimization, and publishing. Students use graphic development tools such as Macromedia Fireworks, as well as the web site editing tool Dreamweaver to turn their ideas into fully functional web sites. Students also study the web site development process, how to create an audience-driven creative brief and subsequent web site, and how to build and critique a site for maximum usability. Students should expect to spend additional time in the lab outside of the scheduled class time. Meets with COMM-352. Usually offered every spring. *Prerequisite:* previous computer experience.

COMM-654 Motion Graphics and Effects I (3) This course focuses on the creation of motion graphics using animation and compositing programs. Through discussions of concepts and design, students learn techniques to creatively use software tools to achieve dramatic and artistic effects. Current software and concepts used for cutting edge motion graphics and compositing in motion pictures, television, commercials, and music videos are introduced and examples of outside work are presented and analyzed in class. Students are encouraged to learn from each other's examples, problems, and solutions. Students should expect to spend additional time in the lab outside of the scheduled class time. Meets with COMM-354. Usually offered every term. *Prerequisite:* COMM-650 or permission of school.

COMM-656 Dramatic Production (3) Techniques of 16mm sound-film production: lighting, sound recording, cinematography, and post production. Meets with COMM-456. Usually offered every term. *Prerequisite:* COMM-634, COMM-682, and admission to graduate film program.

COMM-664 Directing for Camera (3) Examines the role of the director in fiction film. The course focuses on creative and aesthetic concerns as well as technical knowledge and skills the director needs to function successfully as a storyteller. There is emphasis on the collaborative relationship between the director and the actor. The course is designed as a director's laboratory where students are exposed to a variety of skills and approaches. The workshop format includes lectures, discussions, scene rehearsals, and critiques of student work. Meets with COMM-464. Usually offered every fall.

COMM-671 Media Enterprise I: Establishing the Enterprise (3) Provides the fundamental knowledge needed for film and video producers in the non-theatrical market operating as small business entrepreneurs. Establishing a media production company: creating a business plan, basic economics of the media business, finding investors and/or partners, ways of structuring the enterprise, finding and using legal and accounting services, decisions that effect basic overhead costs, taxes, accounting practices, and personnel considerations. Usually offered every spring.

COMM-682 Writing for Visual Media (3) Techniques of writing scripts for film and television productions. Students write and criticize assignments. No production is involved in this course. Usually offered every term. *Prerequisite:* admission to graduate film program.

COMM-686 Advanced Documentary Techniques (3) (FM) Designed to fine tune students' exposure to and practice in a variety of contemporary documentary techniques. Each student produces a final project, but during the semester works in teams on a variety of documentary genres, including observational, web docs, nonprofits, historical, narrated, and mockumentary. Meets with

COMM-486. Usually offered every term. Prerequisite: COMM-634.

COMM-688 Media Writing (3) An intensive writing course providing an introduction to basic communication techniques for informing a mass audience. The course includes instruction and practice in newswriting and strategic communication for print, broadcast, and online media, emphasizing the practical application of how to write a fair and balanced news story, foster a cause, or persuade an audience. Also covers AP style, editing, and critiques. *Prerequisite:* permission of school.

COMM-690 Independent Study Project in Communication (1-6) *Prerequisite:* permission of instructor and division director.

COMM-691 Graduate Internship (3) Professional communication work in an off-campus organization appropriate to the student's academic program. *Prerequisite:* permission of division director.

COMM-692 Cooperative Education Field Experience (3-6) Prerequisite: permission of division director and Cooperative Education office.

COMM-701 Graduate Seminar in Film Theory and Practice (3) The seminar focuses on the development of film theory and criticism. The work of Arnheim, Eisenstein, Kracauer, Bazin, Mitry, and Metz are studied as primary sources. The relationship between theory and production is examined and applied to analysis of specific films. Usually offered every term. *Prerequisite:* permission of the school.

COMM-702 Master's Portfolio Seminar (1-6) Independent work toward project in lieu of thesis for students in the graduate film programs. Consult graduate program director for registration and participation requirements. Usually offered every term. *Prerequisite:* permission of the school.

COMM-704 Media, Technology, and Democracy (3) This is a foundation overview course focused on scholarship and analysis concerning the intersections of media, technology, and democracy. It also introduces other core courses and study concentrations for advanced study in these topics. Usually offered every fall. *Prerequisite:* admission to PhD program or permission of instructor.

COMM-710 Seminar in Public Affairs (3) Current issues in the making of domestic, international, and economic public policy in Washington with emphasis on the role of the media. Includes a major reporting project. Usually offered every fall. *Prerequisite:* admission to MA in Communication: Journalism and Public Affairs or International Media.

COMM-711 Teaching Seminar in Communication (3) Provides M.F.A. and Ph.D. candidates with an overview of teaching philosophies, course management issues, curriculum issues in communication, academic culture, and related institutions significant to the teaching of communication. Reading projects, class lecture, and discussion are balanced with teaching experience. Usually offered every spring.

COMM-720 Seminar in Journalism (3) Examines ethical and economic issues affecting the press and initiates studies to add to the literature of media criticism. Students become acquainted with team journalism and magazine writing through in-depth projects focusing on press issues. Usually offered every spring. *Prerequisite:* COMM-724.

COMM-721 Broadcast News I (3) Problems, policies, and practices of the broadcast news media. Emphasis on radio news writing, production, editing, reporting, and broadcasting. Production of au-

dio minidocumentaries. Usually offered every fall. *Prerequisite:* admission to graduate journalism program.

COMM-722 Broadcast News II (3) Guidance and training in television news, including producing, writing, and editing for TV newscasts; reporting in the field and production of news packages. Team-produced TV documentaries or domestic or international issues. Usually offered every spring. *Prerequisite:* COMM-721.

COMM-724 Reporting of Public Affairs (3) Advanced training in writing news as a Washington correspondent with emphasis on the coverage of domestic, international, and economic public policy issues. Usually offered every fall. *Prerequisite:* admission to MA in Public Communication or International Media or Political Communication.

COMM-735 Communication Theory (3) Survey of relevant theories of public communication, including theories of interpersonal communication, persuasion, public relations, public opinion, mass communication and media studies. Also includes theories of research methodologies and their application to public communication practices. Usually offered every fall. *Prerequisite:* admission to MA in Public Communication or International Media or Political Communication.

COMM-738 Research for Strategic Communication (3) (fall 2011: Research Methods in Communication) This course is an introduction to quantitative and qualitative research methods in communication. Students use research for program management, planning, diagnosing, and evaluating public relations programs. Includes development of theoretical rationales and research questions; measurement; sampling; survey and experimental design, content analysis, focus groups and in-depth interviews, data analysis techniques, interpretation of results, and emerging trends in research. Usually offered every fall. *Prerequisite:* admission to MA in Public Communication or International Media or Political Communication.

COMM-744 Public Communication Seminar (3) The capstone project employs what students have learned about the processes and effects of public communication by developing and supporting a thesis statement, advancing an idea, researching, and writing or creating their final product. Students are advised to gear their scholarly, creative, or journalistic work for publication or professional presentation. Usually offered every spring. *Prerequisite:* admission to MA in Public Communication or International Media.

COMM-747 AU-FAMU Exchange Program (1-12) Topics vary by section, may be repeated for credit with different topic. Students take courses at the Film and TV School of the Academy of Performing Arts (FAMU), Prague, Czech Republic. *Prerequisite:* permission of school.

COMM-750 Advanced Media Theory (3) This course examines a range of theories for explaining the complex interrelationships among media, technology, human behavior, social interaction, and democratic processes. It provides an in-depth comparative analysis of theoretical approaches from a variety of academic fields including mass communication, cultural studies, film criticism, and digital media. Usually offered every fall. *Prerequisite:* admission to PhD program or permission of instructor.

COMM-751 Advanced Media Research Methods (3) This course covers major social scientific, historical, ethnographic, qualitative, and critical approaches to media research, including discussions of epistemology, conceptualization, measurement, and

ethics. Usually offered every fall. *Prerequisite:* admission to PhD program or permission of instructor.

COMM-754 Media Law and Policy (3) This course equips students with a strong grounding in U.S. laws, policies, and regulatory infrastructure. It analyzes how public debates and political struggles over policy issues have shaped the culture, structure, and operations of contemporary U.S. media industries and institutions. Usually offered every spring. *Prerequisite:* admission to PhD program or permission of instructor.

COMM-797 Master's Thesis Seminar (1–3) *Prerequisite:* permission of the school.

Computer Science

Undergraduate Courses

CSC-100 Computers and Information (3) A first course for studying computers and information. Provides a foundation for using computers in other courses and curricula for research, communication, and writing. Hands-on experience in productivity enhancement, software, hardware, systems development, uses of the Internet and World Wide Web, and future directions and trends for computers and information. Usually offered every term.

CSC-210 Creativity and Computers (3) This course explores how computers enhance the creative process in virtually every aspect of the arts. Examples include computer graphics, multimedia computing in literature and art, synthetic music, and virtual reality systems for simulating stage productions. Usually offered every term.

CSC-280 Introduction to Computer Science I (4) Problem solving and algorithm development. Structured programming, basic data types, and canonical structures; arrays and subprograms; recursion. Social implications of computing. Elementary applications from business and science. Usually offered every term. *Prerequisite:* familiarity with using files, e-mail, and the World Wide Web.

CSC-281 Introduction to Computer Science II (3) Continuation of problem solving. Emphasis on larger programs built from modules. Introduction to abstract data structures: stacks, queues, graphs, and trees and their implementations and associated algorithms. Elementary numerical methods. Usually offered every term. *Prerequisite:* CSC-280.

CSC-282 Assembly-Language Programming (3) Basic concepts of computer architecture and organization. Assembly-language programming: instruction formats, addressing techniques, macros, and input/output. Program segmentation and linkage. The assembly process. Usually offered every term. *Prerequisite:* ITEC-234 or CSC-280.

CSC-310 Introduction to Geographic Information Systems (3) A geographic information system (GIS) is a system of hardware, software, data, people, organizations, and institutional arrangements for collecting, storing, analyzing, and disseminating information about areas of the earth. This course provides an introduction to GIS, GIS software, and GIS applications. Usually offered every fall. *Prerequisite:* completion of the College Writing and Writing Proficiency Requirement, and familiarity with spreadsheets, e-mail, and the World Wide Web.

CSC-330 Organization of Computer Systems (4) Logical circuit design, integrated circuits and digital functions, data representation, register transfer operations and microprogramming, basic computer organization, the central processor, and arithmetic opera-

tions. Usually offered every term. *Prerequisite:* completion of the College Writing and Writing Proficiency Requirement, and ITEC-234 or CSC-280.

CSC-350 Introduction to Discrete Structures (3) Introduction to mathematical subjects required in computer science, such as graphs, sets and relations, logic, and recurrence. Usually offered every spring. *Prerequisite:* completion of the College Writing and Writing Proficiency Requirement, MATH-15x, and CSC-280.

CSC-360 Tools of Scientific Computing (3) Designed to teach scientific rigor in the use of computers and/or computational tools. Techniques from mathematics are introduced which lead to efficient algorithm design, algorithm analysis, data classification, data manipulation, and scientific computation. Includes data types, induction, recursion, sorting, searching, summation, optimization, asymptotic analysis, basic number theory, discrete probability, and parallel computing. Meets with MATH-360. Usually offered every fall. *Prerequisite:* CSC-280, CSC-281, MATH-221, and MATH-222.

CSC-390 Independent Reading Course (1–6) *Prerequisite:* permission of instructor and department chair.

CSC-432 Introduction to Simulation and Modeling (3) Design, implementation, and analysis of simulation models for dynamic continuous systems. Emphasis on continuous physical systems and analysis of their dynamic behavior from deterministic physical models. Overview of numerical integration algorithms in simulation. Introduction to difference equations and chaotic system behavior and simulation systems such as SIMULINK/MATLAB. *Prerequisite:* CSC-280, and MATH-211 or MATH-221.

CSC-435 Web Programming (3) This course presents and applies the web programming languages (HTML, DHTML, Javascript, Coldfusion), tools, and techniques used to develop professional web sites. The course moves step-by-step through the processes involved in planning, designing, launching, and maintaining successful web sites, with an emphasis on teamwork. Usually offered every term. *Prerequisite:* completion of the College Writing and Writing Proficiency and ITEC-234 or CSC-280.

CSC-438 PL/SQL Database Programming (3) This course focuses on creating and manipulating databases using PL/SQL programming language for Oracle™ databases. Includes on-line SQL as well as batch programs using PS/SQL features such as IF statements, loops, stored procedures/functions, tables, cursors, stored packages, and stored triggers in creating and maintaining Oracle™ databases. Usually offered every summer. *Prerequisite:* completion of the College Writing and Writing Proficiency Requirement, and CSC-280 or ITEC-234, and familiarity with databases.

CSC-442 Client-Server and Distributed Information Systems (3) Current methods for analyzing and developing client-server systems and distributed information systems including: communication networks to support client-server architectures; international standards; concepts of hardware, software and data distribution; layered architectures; role of client, server, and middleware; data and transaction management in client-server environments; tools; and systems development. Usually offered every fall. *Prerequisite:* completion of the College Writing and Writing Proficiency, either CSC-330 or ITEC-455, and CSC-570.

CSC-490 Independent Study Project (1–6) *Prerequisite:* permission of instructor and department chair.

CSC-491 Internship (1–6) *Prerequisite:* permission of instructor and department chair.

CSC-493 Computer Science Capstone Project (3) May be repeated for credit. Students complete a semester-long design project related to one or more areas of computer science. The focus is on the design process, documentation, and project presentation. Topics related to the professional practice of computer science, including careers, ethics, technical writing, and speaking, and contemporary issues in computer science are also covered. Usually offered every term. *Prerequisite:* CSC-280, CSC-281, and one other CSC course at the 300-level or above.

Graduate and Advanced Undergraduate Courses

CSC-510 Legal Issues in Computing (3) Copyright, patent, contract, tort, antitrust, privacy, and telecommunications issues. Usually offered every fall. *Prerequisite:* junior standing.

CSC-520 Algorithms and Data Structures (3) Design and analysis of efficient algorithms. Implementation and manipulation of data structures, including linked lists, stacks, queues, trees, and graphs. Memory management. Internal and external searching and sorting. Usually offered every term. *Prerequisite:* CSC-281 and junior standing in computer science, or graduate degree standing in computer science.

CSC-521 Design and Organization of Programming Languages (3) Study of desirable features and specifications of programming languages by investigation of data types, control structures, data flow, and run-time behavior of several languages, such as Prolog, Smalltalk, LISP, Ada, etc. At least one non-procedural language is studied in detail. Elements of compiling and interpreting. Usually offered every term. *Prerequisite:* CSC-281 and junior standing in computer science, or graduate degree standing in computer science.

CSC-535 User Interface Analysis and Design (3) This course provides the technical aspects of web application development, as well as the conceptual issues that affect this technology. Students develop an independent web-based project based on available authoring tools. Usually offered every term. *Prerequisite:* junior standing.

CSC-540 Computer System Organization and Programming (3) Investigation of the structure of a modern computing system. Alternative computer organizations are discussed so that students may appreciate the range of possible design choices. Assembly, linking, and loading are presented in detail. The relation between system software and computer organization is discussed. Usually offered every fall. *Prerequisite:* graduate degree or nondegree standing, or permission of department.

CSC-543 Object-Oriented Analysis and Design (3) A study of object-oriented concepts and their use in systems development. This course analyzes abstractions called objects and develops analysis-level models of systems using objects. The properties of these object models are discussed and methods for systematic development of the models are studied. The translations of the analysis-level models into system design is performed to understand how systems can be realized in software implementations. Usually offered every fall. *Prerequisite:* junior standing.

CSC-544 Object-Oriented Programming (3) Advanced use of an object-oriented programming language in the implementation of object-oriented systems. The language is studied in depth to see how advanced concepts are realized in the language, and is used to produce example systems. Emphasis is placed on the most recent advanced features. Usually offered once a year. *Prerequisite:* CSC-281 or equivalent.

CSC-546 Introduction to Computer Networks (3) An introduction to the basic concepts of computer networks. The architecture of data communication systems, the seven-layer model of a network, and the physical, data link, network, transport, and session layers are explored. Protocol algorithms are considered for the implementation of the various network layers. Usually offered alternate springs.

CSC-565 Operating Systems (3) Historical background. Operating system functions and concepts: processes; processor allocation; memory management; virtual memory; I/O and files; protection; and design and implementation. Several existing operating systems are discussed. A group project to design and implement a small operating system is usually required. Usually offered every spring. *Prerequisite:* CSC-281 and junior standing in computer science, or graduate degree standing in computer science.

CSC-568 Artificial Intelligence (3) Application of computers to tasks usually thought to require human intelligence, such as game playing, problem solving, learning, pattern recognition, natural language understanding, and expert systems. Usually offered every spring. *Prerequisite:* junior standing.

CSC-570 Database Management Systems (3) Examination of database management systems, distributed systems, evaluation and selection of computer systems, privacy and security, and performance evaluation. This course provides a fundamental exposure to relational architecture through exercises in Microsoft Access and Oracle 8, including an introduction to SQL. *Prerequisite:* ITEC-234 or CSC-281, and CSC-520.

CSC-589 Topics in Computer Science (3) Topics vary by section, may be repeated for credit with different topic. Rotating topics include artificial intelligence programming, computer graphics, the history of computing, and neural networks.

CSC-590 Independent Reading Course (1–6) *Prerequisite:* permission of instructor and department chair.

Graduate Courses

CSC-600 Simulation (3) Design and implementation of simulation systems. Covers discrete-event, stochastic simulations with examples chosen from a variety of fields. At least one simulation language is studied in detail. *Prerequisite:* admission to MS degree in an AU science program or permission of department.

CSC-610 Introduction to Geographic Information Systems (3) A geographic information system (GIS) is a system of hardware, software, data, people, organizations, and institutional arrangements for collecting, storing, analyzing, and disseminating information about areas of the earth. This course provides an introduction to GIS, GIS software, and GIS applications. Usually offered every fall. *Prerequisite:* familiarity with spreadsheets, e-mail, and the World Wide Web.

CSC-636 Advanced Database Management Systems (3) Advanced query capabilities and procedural constructs are described using SQL and PL/SQL. The theoretical foundation for using these capabilities is presented. Performance issues are discussed including indexing, key definitions, and data constraints. The role of application development in ease of use, query optimization, and system performance is discussed. Usually offered every fall. *Prerequisite:* CSC-570.

CSC-637 Database Administration (3) Database administration subjects including space allocation, recovery, security, configuration management, and performance tuning are discussed. Administration capabilities are presented using a real environment.

Recovery issues include commit and rollback capabilities, check points, and data logs. Physical design and implementation constraints are addressed. Usually offered every spring. *Prerequisite:* CSC-570.

CSC-689 Topics in Computer Science (3) Topics vary by section, may be repeated for credit with different topic. Rotating topics include design and analysis of algorithms, expert systems, client server computing, and computer network design and analysis.

CSC-690 Independent Study Project (1–6) *Prerequisite:* permission of instructor and department chair.

CSC-691 Internship (1–6) *Prerequisite:* permission of instructor and department chair.

CSC-692 Cooperative Education Field Experience (3–6) *Prerequisite:* permission of department chair and Cooperative Education office.

CSC-694 Capstone Project (3) With guidance from their advisor and the project class coordinator, students select an application area in computer science where an open-ended problem can be identified. Students research the literature and current domain solutions in the application area. Projects are documented and defended. *Prerequisite:* completion of minimum of 24 credits hours of graduate study in computer science.

CSC-797 Master's Thesis Seminar (1–6) *Prerequisite:* completion of 24 graduate credit hours and permission of department.

Economics

Undergraduate Courses

ECON-100 Macroeconomics 4:1 (3) An introduction to the basic principles of macroeconomics, stressing national income, unemployment, inflation, economic growth, depression, prosperity, international economics, economic development, alternative approaches to economics, and current issues and controversies. Usually offered every term.

ECON-110 The Global Majority 3:1 (3) Introduction to the plight of less-developed countries, to alternative paths of development, and to the relationships between the more-developed and less-developed countries. The central theme of economic development is based on elementary economic theory. Equally important, human dimensions of development are emphasized through the use of novels and films from less-developed countries. Usually offered every term.

ECON-200 Microeconomics 4:2 (3) The basic principles of microeconomics and their applications; supply and demand, operation of markets, consumer and enterprise behavior, competition and monopoly, income distribution, discrimination, and alternative approaches to economics. Usually offered every term. *Prerequisite for General Education credit:* COMM-100 or ECON-100 or GOVT-110 or SOCY-150.

ECON-300 Intermediate Microeconomics (3) Theory of relative prices of commodities and productive services under perfect and imperfect competition. Theory of the firm and consumer demand. Usually offered every term. *Prerequisite:* ECON-100 and ECON-200.

ECON-301 Intermediate Macroeconomics (3) Concepts and theory of national income determination, employment, and economic growth. Usually offered every term. *Prerequisite:* ECON-100 and ECON-200.

ECON-317 Political Economy (3) Survey of three of the major contemporary theories of political economy, Marxian, Feminist,

and Institutionalist, with applications to current economic problems and alternate economic institutions. Usually offered alternate falls. *Prerequisite:* ECON-100 and ECON-200.

ECON-318 Economic History (3) Historical investigation of economic development using Europe and the Third World as case studies. Emphasis is on economic theory to illuminate historical development. *Prerequisite:* ECON-100 and ECON-200.

ECON-319 United States Economic History (3) The nature and sources of economic growth, the institutional transformation associated with economic development, and the social and economic consequences of economic change in the United States from the colonial times to the present. *Prerequisite:* ECON-100 and ECON-200.

ECON-320 History of Economic Ideas (3) Exposition and analysis of development of economic theory. Emphasis on tracing evolution of economic theories out of specific historical contexts. Major figures and schools in economic thought from Adam Smith to the present. Attention given to the significance of having a separate body of thought called economics. *Prerequisite:* ECON-100.

ECON-322 Introduction to Econometrics (4) Review of the theory of economic statistics and statistical techniques. Emphasis on applying statistical models to economic data. Regression analysis and estimation of economic models. Includes violations of the basic assumptions of the regression model, dummy variables, and analysis of variance. Index numbers and time series analysis. Lab allows students to learn how to apply theory of economic statistics. Usually offered every spring. *Prerequisite:* ECON-100, ECON-200, and STAT-202.

ECON-325 Social Choice and Economic Justice (3) Conservative, liberal, and radical normative theories. Conflicts between efficiency, equity, and liberty. Major contemporary writers on the "just economy." Institutional constraints, the role of the market, voting paradoxes, and the nature of social choice; concepts of economic rationality; economic justice and contemporary policy. Meets with ECON-625. *Prerequisite:* ECON-200.

ECON-332 Money, Banking, and Finance in the Global Economy (3) Money, banking, and capital markets in a globalizing world. Includes central banking, monetary integration, currency competition, dollarization, electronic money, banking problems and policies in emerging market economies, developed and emerging capital markets, and appropriate policies for regulating global financial institutions. Usually offered every spring. *Prerequisite:* ECON-100.

ECON-341 Public Economics (3) The theory of taxation, public expenditure, and fiscal policy. Comparison of fiscal institutions in the United States and abroad. Government approaches to income redistribution and poverty: negative income tax, family allowances, etc. Usually offered every term. *Prerequisite:* ECON-100 and ECON-200.

ECON-345 Introduction to Game Theory (3) This course explores applications such as auctions, firm competition, and voting with mathematical analysis. It includes Nash equilibrium, subgame perfect equilibrium, evolutionary stability, repeated games, signaling, mechanism design, uncertainty, and behavioral game theory. Meets with MATH-345. Usually offered every fall. *Prerequisite:* ECON-200, and MATH-211 or MATH-221.

ECON-346 Competition, Regulation, and Business Strategies (3) Historical and contemporary analysis of industrial market structures and of the behavior of business firms in the United

States. The rise of large corporations, monopoly power and its effects on economic and social welfare, control over large corporations, and governmental regulation of business. Usually offered every fall. *Prerequisite:* ECON-100 and ECON-200.

ECON-351 Comparative Economic Systems (3) Analysis and comparison of different economic institutions as they affect economic democracy, efficiency, and equity. Case studies of the differences between the French, British, German, Swedish, and Japanese economies, and an evaluation of the historical experience of the formerly “socialist” economies. Usually offered every spring. *Prerequisite:* ECON-100 and ECON-200.

ECON-353 Economic Transformation of Central/Eastern Europe (3) Offered as part of the AU Abroad Semester in Prague, this course introduces students to the challenges of transforming from a command economy to the free-market system. Surveys the particular problems and dilemmas faced by individuals and society in the region of Central/Eastern Europe and offers a framework to judge the present successes/failures and to estimate the future. Usually offered every fall.

ECON-358 Economics of the World Regions (3) Topics vary by section, may be repeated for credit with different topic. Rotating topics course examines economic trends and economic policies in regions such as Africa, East Asia, or the Middle East. Focuses on distinctive economic institutions in the particular region, on the interdependencies within regions, and on the role of public policies in economic growth. Usually offered every term. *Prerequisite:* ECON-100 and ECON-200.

ECON-361 Economic Development (3) Survey of major issues related to the economics of developing countries in Latin America, Africa, and Asia. Includes the meaning and measurement of economic development, theories of development and underdevelopment, and policies to alleviate poverty and promote development in the low-and middle-income countries of the world. Usually offered every fall. *Prerequisite:* ECON-100 and ECON-200.

ECON-362 Microeconomics of Economic Development (3) This course explores microeconomic issues in developing countries at a theoretical and empirical level. The focus is on poverty and income distribution, but also includes coordination failures, credit and labor market imperfections, microcredit, health, food security, human capital accumulation, gender, property rights, transaction costs, and economics of the household. Usually offered every fall. *Prerequisite:* ECON-100 and ECON-200. Note: ECON-300 or ECON-500 is recommended.

ECON-363 Macroeconomics of Economic Development (3) An analysis of the macroeconomics of developing countries. The objective is to try to understand the rationale for and the effectiveness of different macroeconomic policies in a developing country setting. Includes exchange rates, monetary policy, fiscal policy, international trade, international capital markets, financial and exchange rate crises, structural adjustment, and related topics. Usually offered every spring. *Prerequisite:* ECON-301 or ECON-501.

ECON-370 International Economics (3) Introduction to the economics of international trade and finance, including why countries trade, commercial trade policies and their effects, balance of payments and the economics of foreign exchange markets, and the operation and effects of fixed and flexible exchange rates. Usually offered every term. *Prerequisite:* ECON-100 and ECON-200.

ECON-371 International Economics: Trade (3) Theories of international trade and competitiveness; the effects of trade on the economics of importing and exporting countries; analysis of the effects of tariffs and quotas and other nontariff barriers. Also includes multinational corporations, trade and development, customs, unions, and theory of the second best. Usually offered every spring. *Prerequisite:* ECON-300.

ECON-372 International Economics: Finance (3) Determination of income, employment, and inflation in open economies; international impact of monetary-fiscal policies under fixed and flexible exchange rates; theories of exchange-rate determination; and international monetary organization and reform. Usually offered every fall. *Prerequisite:* ECON-301. STAT-202 is recommended.

ECON-373 Labor Economics (3) The application of economic theory to current labor problems, domestic and foreign. Problems include wage theory and wage differentials, training policy, poverty, unemployment and underemployment, discrimination, productivity, industrialization, and union policies. *Prerequisite:* ECON-100, ECON-200, and ECON-300.

ECON-374 Gender Roles in the Economy (3) Explores the gender dimensions of economic life. For economics majors, an in-depth look at the different roles of men and women in the community, the market, and within the household, and how these are affected by economic and social change. For women’s studies and other social sciences majors, the discipline of economics is brought to bear on the study of women’s and men’s well-being and status in society. *Prerequisite:* ECON-100 and ECON-200.

ECON-379 Economics of Environmental Policy (3) This course explores the relationship between economic activity and the natural environment from both neoclassical and ecological perspectives to understand the meaning and implications of sustainable development. Includes environmental protection, resource conservation, evaluation of environmental costs and benefits, and optimal management of natural resources. Also compares different policy approaches to regulating pollution and the exploitation of common property resources. Usually offered every spring. *Prerequisite:* ECON-100 and ECON-200.

ECON-383, ECON-384 Washington Economic Policy Semester Seminar I (4), II (4) Intensive examination of economic policy making in Washington. Encompasses theoretical analysis of economic problems, extensive readings, on-site discussions with economic policy decision makers, preparation of papers, and presentation of alternative paradigms used to understand economic policy. Usually offered every term.

ECON-385 Washington Economic Policy Semester Internship (4) Experience in pursuing directed research with an organization directly involved in the field of economic policy.

ECON-390 Independent Reading Course in Economics (1–6) *Prerequisite:* permission of instructor and department chair.

ECON-392 Cooperative Education Field Experience (3–9) *Prerequisite:* permission of department chair and Cooperative Education office.

ECON-480 Senior Research Seminar (3) Provides senior economics majors with experience in conducting research projects on important issues relevant to public policy. Includes presentations about research approaches and subjects, lectures by economists conducting policy research, a group project and an individual research project. Close consultation between the faculty member and

students on the choice of research project and how best to conduct the research. Students present their findings to the class at the end of the term.

ECON-490 Independent Study Project in Economics (1–6)

Prerequisite: permission of instructor and department chair.

ECON-491 Internship (1–6) *Prerequisite:* permission of instructor and department chair.

ECON-492 Internship in Teaching Economics (3) Upper-level economics majors work with teaching faculty of large sections of introductory economics courses. Students direct review sessions, hold office hours, review homework assignments, and lead breakout sessions, and participate in a weekly seminar on the teaching of economics. Usually offered every term. *Prerequisite:* permission of instructor.

Graduate and Advanced Undergraduate Courses

ECON-500 Microeconomic Theory (3) Theory of resource allocation and price system; theory of demand, production, and distribution; and market structure and performance. Usually offered every term. *Prerequisite:* ECON-300 or ECON-603, and ECON-505, or permission of department.

ECON-501 Macroeconomic Theory (3) Theories of income determination, inflation, and unemployment, business cycles, and long-run growth. Analysis of monetary and fiscal policies with extensions to open economies. Also includes debt dynamics and financial crisis. *Prerequisite:* ECON-301 or ECON-603, and ECON-505 (may be taken concurrently), or permission of department.

ECON-505 Introduction to Mathematical Economics (3) Review of logarithms and differential calculus. Introduction to matrix algebra with emphasis on economic applications. Comparative static analysis of linear models. Introduction to multivariate differential calculus with applications to optimization in consumer and producer theory. Comparative static analysis of nonlinear models. Introduction to difference equations and analysis of dynamic models. *Prerequisite:* MATH-211 or MATH-221, or equivalent.

ECON-523 Applied Econometrics I (3) A review of probability, descriptive statistical inference, and hypothesis testing; basic bivariate and multivariate OLS models; non-linear regressions and interactions effects; heteroskedasticity and autocorrelation; and basic time-series models. Includes an introduction to statistical software. Usually offered every spring. *Prerequisite:* STAT-202 or equivalent or permission of department.

ECON-524 Applied Econometrics II (3) More advanced topics of econometrics, including time-series techniques; limited dependent variables models; sample selection and censoring; simultaneous equations; instrumental variables; fixed effects and panel methods; and program evaluation using quasi experimental data. Usually offered every fall. *Prerequisite:* ECON-523.

ECON-541 Public Economics (3) Rationale for the existence of the public sector. Theory of public goods and taxation. Usually offered every fall. *Prerequisite:* ECON-500 or ECON-703, and ECON-501 or ECON-702.

ECON-546 Industrial Economics (3) The structure of industrial markets and the behavior of business firms. Theoretical and empirical appraisal of welfare implications of alternative market structures and business behavior, both in the United States and abroad. Impacts of international influences on behavior of domestic firms. Usually offered every spring. *Prerequisite:* ECON-300 or ECON-500 or ECON-703.

ECON-547 Economics of Antitrust and Regulation (3) Economic analysis of government policies affecting business behavior, with focus on the U.S. economy. In addition to antitrust (or competition) policy and traditional public utility regulation, price and entry regulation in transportation and service sectors, and social (health, safety, and environmental) regulations are also evaluated. Usually offered every summer. *Prerequisite:* ECON-300 or ECON-346 or ECON-500 or ECON-703.

ECON-551 Comparative Economic Systems (3) A theoretical and historical evaluation of the effects of different economic institutions and their combinations on economic democracy, efficiency, and equity. Distinctive features of the French, British, German, Swedish, and Japanese economies, as well as the historical experience of the formerly “socialist” economies are emphasized. Usually offered every fall. *Prerequisite:* ECON-603; or ECON-300, ECON-500 or ECON-703; and ECON-301, or ECON-501 or ECON-702.

ECON-552 Economics of Transition (3) Economic policy in formerly centrally planned economies that are attempting to introduce a market system. Review of the record of economies of the former Soviet Bloc. Emphasis is on applied policy issues such as privatization, freeing prices, property rights, and macroeconomic stabilization. Usually offered every spring. *Prerequisite:* ECON-603, or ECON-300 or ECON-500 or ECON-702, and ECON-301 or ECON-501 or ECON-703.

ECON-558 Economics of the World Regions (3) Topics vary by section, may be repeated for credit with different topic. Rotating topics course examines economic trends and economic policies in regions such as Africa, East Asia, or the Middle East. Focuses on distinctive economic institutions in the particular region, on the interdependencies within regions, and on the role of public policies in economic growth. *Prerequisite:* ECON-300 and ECON-301, or ECON-500 and ECON-501, or ECON-603.

ECON-573 Labor Economics (3) Contemporary theories of wages, employment, and prices; collective bargaining; the effect of collective bargaining on wages in the American economy; theories and empirical studies of wage differentials. Usually offered every third semester. *Prerequisite:* ECON-500 or ECON-703 and ECON-501 or ECON-702.

ECON-574 Gender Perspectives on Economic Analysis: Microeconomics (3) This course provides an introduction to gender analysis in micro and labor economics. It explores theories of the household and household bargaining and empirical research; conceptualization and measurement of the reproductive economy, care work and unpaid work; women's participation in labor markets; assets and income distribution; gender, inequity, and poverty; and related social policy issues. Usually offered every fall. *Prerequisite:* ECON-500 or ECON-501.

ECON-575 Gender Perspectives on Economic Analysis: Macroeconomics (3) This course provides an introduction to gender analysis in macroeconomics and public finance. It explores feminist theories of economic growth, gender-aware macroeconomic models, gender and recession/crisis; gender analysis of public finance including fiscal policy and the practice of gender budgets; gender, trade, and investment; gender and credit markets; and gender-aware macroeconomic, trade, and investment policies. Usually offered every spring. *Prerequisite:* ECON-500 or ECON-501.

ECON-579 Environmental Economics (3) An analysis of the relationship between economic activity and the natural environment

from both mainstream and ecological perspectives. Policy measures for regulating pollution and managing common property resources are explored, including emission taxes, tradable pollution permits, and property rights solutions. Applications to global environmental issues such as climate change and local environmental problems are emphasized. Students gain a understanding of the meaning of sustainable development and the types of policies required to achieve it. Usually offered every fall. *Prerequisite:* ECON-603 or ECON-500 or ECON-703.

ECON-590 Independent Reading Course in Economics (1–6)
Prerequisite: permission of instructor and department chair.

Graduate Courses

ECON-603 Introduction to Economic Theory (3) The major analytical tools of price and income theory. No credit toward degrees in the Department of Economics. Usually offered every term. *Prerequisite:* an introductory course in economics.

ECON-618 Economic History of Europe and the World (3) Origins and development of capitalism in Western Europe. Impact of the rise of capitalism on the European periphery and the Third World. Emphasis on the use of political economic theory to explain different historical evolutionary paths. Usually offered every other spring. *Prerequisite:* ECON-500 or ECON-703, and ECON-501 or ECON-702.

ECON-619 United States Economic History (3) The pace and structure of economic growth, the institutional transformations involved in economic development, and the social and economic consequences of economic change in the United States since colonial times. Focus is on a variety of causal models and methods for explaining economic and institutional change. Usually offered every other spring. *Prerequisite:* ECON-500 or ECON-703, and ECON-501 or ECON-702.

ECON-620 Economic Thought (3) Major figures in the history of economic thought, their social and economic thought and tools of analysis they created. Usually offered every fall. *Prerequisite:* ECON-500 and ECON-501, or admission to PhD program.

ECON-625 Social Choice and Economic Justice (3) Conservative, liberal, and radical normative theories. Conflicts between efficiency, equity, and liberty. Major contemporary writers on the “just economy.” Institutional constraints, the role of the market, voting paradoxes, and the nature of social choice. Concepts of economic rationality. Economic justice and contemporary policy. Meets with ECON-325. Usually offered every fall. *Prerequisite:* ECON-500 or ECON-703.

ECON-630 Monetary Theory and Policy (3) Relation of money and other financial assets to prices, output, and interest rates. Emphasis on the demand and supply of money and on government monetary policy. Usually offered every fall. *Prerequisite:* ECON-501 or ECON-702 and ECON-505 or ECON-705.

ECON-633 Financial Economics (3) Institutional and theoretical aspects of creating, holding, and exchanging financial assets—money, credit instruments, and equities. The liabilities created by financial intermediaries and the role of government in financial markets. Usually offered every spring. *Prerequisite:* ECON-500 or ECON-703 and ECON-505 or ECON-705.

ECON-634 Development Finance and Banking (3) Alternative approaches to understanding the role of finance and banking in economic development and analysis of the interaction between international and domestic capital markets, as well as between the formal banking sector and the informal financial sector of develop-

ing economies. The role of development banks, multilateral institutions, and governments in financial market operations. Examines the effect of financial policy reforms and regulations on the performance of financial markets. Usually offered every spring. *Prerequisite:* ECON-500 and ECON-501, which may be taken concurrently.

ECON-635 International Capital Markets (3) A practical approach to the understanding of world financial markets, analyzing the borrowing and investment decisions faced by institutions in the context of globalized financial markets. Surveys the technical elements necessary for borrowers and investors to operate in the fixed income securities market. Examines the preparation, pricing, and placement of sovereign and public bond issues and related financial derivative instruments. Usually offered every fall. *Prerequisite:* ECON-630 or ECON-633 or FIN-614, or permission of instructor.

ECON-639 Policy Issues in Financial Economics (3) Applications of the tools of finance to such public policies as government loan guarantees, insuring pensions, bank regulation and deposit insurance, discriminatory lending, and corporate ownership and management. Students make oral presentations and hear guest lectures by policymakers dealing with financial economic issues. Usually offered every fall. *Prerequisite:* ECON-500 and ECON-633, or permission of instructor.

ECON-661 Survey of Economic Development (3) Major topics in the field of development economics with an emphasis on the evolution of the field since the mid-twentieth century. The course examines important topics in economic development and illustrates the application of economic techniques to development issues. Usually offered every term. *Prerequisite:* ECON-603, or ECON-500 and ECON-501.

ECON-662 Development Microeconomics (3) Examines the meaning and measures of economic development. Explores theoretical and empirical work of development issues at micro and meso levels. These include poverty traps, coordination failures, credit and labor market imperfections, microcredit and cooperatives, health, human capital accumulation, gender, population, property rights, and transaction costs, and the economics of the household. Usually offered every fall. *Prerequisite:* ECON-500 or ECON-703.

ECON-663 Development Macroeconomics (3) Analysis of the macroeconomics of developing countries, including discussion of open-economy macroeconomics, exchange rates, monetary policy, fiscal policy, international trade, and related topics. The objective is to understand the rationale for and the effectiveness of different macroeconomic policies in a developing country setting. Usually offered every spring. *Prerequisite:* ECON-501 or ECON-702.

ECON-665 Project Evaluation in Developing Countries (3) Primarily for graduate students interested in working with international development organizations, this course is an overview of the tools and approaches used to evaluate planned, on-going, or completed projects, programs, and policies in developing countries. *Prerequisite:* ECON-523.

ECON-670 Survey of International Economics (3) International trade theory and international monetary economics primarily for graduate students in other departments. Emphasis on policy applications. Note: This course does not count toward the requirements

for the PhD in Economics. Usually offered every spring. *Prerequisite:* ECON-603 or ECON-500 and ECON-501.

ECON-671 International Economics: Trade (3) Classical, neo-classical, and alternative theories of the gains from trade and the determination of the pattern of trade. Analysis of the welfare effects of trade policies. Modern theories of trade with increasing returns and imperfect competition; strategic trade policy. Usually offered every fall. *Prerequisite:* ECON-505 or ECON-705, and ECON-500 or ECON-703.

ECON-672 International Economics: Finance (3) International monetary economics and open-economy macroeconomics. Balance-of-payments adjustment, exchange rate determination, capital mobility, and the international monetary system. Usually offered every spring. *Prerequisite:* ECON-505 or ECON-705, and ECON-501 or ECON-702. *Note:* ECON-523 or ECON-723 are strongly recommended.

ECON-690 Independent Study Project in Economics (1–6) *Prerequisite:* permission of instructor and department chair.

ECON-691 Internship (1–6) *Prerequisite:* permission of instructor and department chair.

ECON-692 Cooperative Education Field Experience (3–6) *Prerequisite:* permission of department chair and Cooperative Education office.

ECON-701 Micro Political Economy (3) Political economy methodology and alternate microeconomic theories, including determination of wage, price, profits and rent, the conflict theory of the firm, critical evaluation of markets and other coordination mechanisms, the economics of race, class, and gender, and collective action problems and the state. Usually offered every spring. *Prerequisite:* ECON-703 or permission of instructor.

ECON-702 Macroeconomic Analysis I (3) Analysis of determinants of aggregate demand and supply and their interactions in closed and open economies. Theoretical and empirical analysis of sectoral relations including consumption, investment, government, foreign sector, and demand and supply for money. Usually offered every spring. *Prerequisite:* ECON-705 or admission to PhD program or permission of department. *Note:* concurrent enrollment in ECON-706 is recommended.

ECON-703 Microeconomic Analysis I (3) Theories of demand, market structure and performance, production and distribution, cost and supply. Introduction to general equilibrium analysis. Usually offered every fall. *Prerequisite:* admission to PhD program or permission of department.

ECON-705 Mathematical Economic Analysis (3) Mathematical analysis of economic theory and problems. Constrained maxima and minima, linear and nonlinear programming, elementary differential and difference equations, and economic applications. Usually offered every fall. *Prerequisite:* admission to PhD program or permission of department.

ECON-706 Advanced Mathematical Economic Analysis (3) Systems of difference and differential equations, dynamic optimization techniques such as calculus of variations and optimal control theory, and economic applications. Usually offered every spring. *Prerequisite:* ECON-705.

ECON-711 Macro Political Economy (3) Alternative theories of income distribution and economic growth (classical, neoclassical, neo-Marxian, neo-Keynesian, and neo-Kaleckian). Macroeconomic models in the post-Keynesian tradition are compared with mainstream neoclassical models. Includes causes of unemploy-

ment, conflicting claims inflation, endogenous money, saving and investment, financial crises, fiscal policy, technological change, long-run growth, and open economy extensions. Usually offered every fall. *Prerequisite:* ECON-702 (may be taken concurrently), ECON-705, or permission of instructor.

ECON-712 Macroeconomic Analysis II (3) Recent developments in macrotheory (monetarist to new classical school) and macrodynamics, including theory of growth and fluctuation and theory of income distribution. Usually offered every fall. *Prerequisite:* ECON-702, and ECON-523 or ECON-723 (may be taken concurrently).

ECON-713 Microeconomic Analysis II (3) An advanced treatment of general equilibrium; consumer theory, theory of the firm, moral hazard, and adverse selection; and welfare and public policy. Usually offered every spring. *Prerequisite:* ECON-703.

ECON-723 Econometric Methods (3) Multivariate regression models and the variations on the standard model, including serial correlation, heteroskedasticity, multicollinearity, and stochastic regressors. Introduction to estimation and identification issues in simultaneous equation models. Use of regression software. Usually offered every spring. *Prerequisite:* STAT-502.

ECON-724 Advanced Econometric Methods (3) Extension of econometric theory and applications, including maximum likelihood methods, asymptotic theory, introduction to panel-data and time-series issues. Assessment of econometric models and their use. Usually offered every fall. *Prerequisite:* ECON-723.

ECON-742 Seminar in Financial Economics and Public Policy (3) Capstone seminar for the M.A. in Financial Economics and Public Policy. Building on ECON-639, students conduct research on current public policy problems dealing with the regulation of financial markets. Research subjects may include the design of deposit insurance programs, moral hazard and adverse selection in public insurance programs, credit rationing, lending discrimination and loan redlining practices, regulation of trade in derivative securities, and risk associated with international integration of payments systems. Usually offered every spring. *Prerequisite:* ECON-639.

ECON-774 Seminar in Economic Thought (3) The history of economic thought with emphasis on problems of methodology and philosophy. *Prerequisite:* ECON-620.

ECON-778 Seminar in Economic History (3) Selected issues and research in American and European economic history. *Prerequisite:* ECON-618 or ECON-619.

ECON-779 Seminar in Environmental Economics (3) Advanced issues in environmental economics theory and policy, with an emphasis on empirical methods for doctoral dissertation research. *Prerequisite:* ECON-500 and ECON-579, or permission of instructor.

ECON-781 Seminar in Empirical Political Economy (3) Advanced theories of political economy, with emphasis on empirical methods for doctoral dissertation research. Usually offered every spring. *Prerequisite:* ECON-701, ECON-711, and ECON-724.

ECON-782 Seminar in Empirical Macroeconomics (3) Advanced macroeconomics and income theory with emphasis given to empirical implications and to econometric procedures available for testing these implications. Includes stylized facts about economic growth and business cycles and applications of time-series econometric techniques to macroeconomic concerns. Usually offered alternate springs. *Prerequisite:* ECON-711 or ECON-712.

ECON-783 Seminar in Empirical Microeconomics (3) Advanced microeconomics and price theory with emphasis given to empirical implications and to econometric procedures available for testing these implications. Includes model specifications, diagnostic techniques, limited dependent variables, and panel data. Usually offered alternate springs. *Prerequisite:* ECON-701 or ECON-713.

ECON-784 Seminar in International Trade and Finance (3) Advanced issues in international trade and finance. Seminar focuses on empirical research-oriented papers. Research paper is required. Usually offered every spring. *Prerequisite:* ECON-671, ECON-672 (may be taken concurrently), and ECON-523, or ECON-723.

ECON-788 Seminar in Economic Development (3) Research seminar involving an in-depth treatment of selected subjects. Research paper required. Usually offered alternate falls. *Prerequisite:* ECON-662 or ECON-663.

ECON-789 Seminar in Labor Economics (3) Public policy toward labor unions; the economics of human capital; measurement and analysis of income distribution; poverty measurement and analysis; unemployment and manpower policy; issues in labor policy. Usually offered alternate springs. *Prerequisite:* ECON-573.

ECON-797 Master's Thesis Seminar (1-6)

ECON-799 Doctoral Dissertation Seminar (1-12) May be taken pass/fail only.

Education

Undergraduate Courses

EDU-205 Schools and Society 4:2 (3) A multidimensional view of schools, teachers, and students. This social and intellectual foundation course serves as a basis for studying contemporary education and the issues of racism, sexism, finance, governance, innovations, and the social context of American education. The course includes lectures, discussion groups, cooperative learning, Internet activities, and independent projects. Usually offered every term. *Prerequisite for General Education credit:* ANTH-150 or PSYC-105 or SOCY-100 or WGSS-125.

EDU-212 Methodology of Sign Language (3) The principles of manual communication and some principles of American Sign Language (ASL) are introduced. Learning signs and gaining expressive and receptive skills are stressed. Usually offered every spring and fall.

EDU-240 Analysis of Experiential Learning (3) A review of contemporary theories and research in adult development and learning that provides students with the context to identify, analyze, and synthesize prior experiential learning. Final product is a portfolio that documents such learning. Usually offered every term. May be taken pass/fail only. *Prerequisite:* enrollment limited to students in the AEL program.

EDU-250 Mathematics for Elementary School Teachers (3) With EDU-251, a two-semester sequence for prospective elementary teachers. Extends the foundational ideas of mathematics and conceptual understanding of topics typically taught in elementary school classrooms, including numbers and numeration, fractions, decimals, ratio, proportion, and percents. Usually offered every fall. *Prerequisite:* completion of University Mathematics Requirement and EDU-320.

EDU-251 Mathematics for Elementary School Teachers II (3) With EDU-250, a two-semester sequence for prospective elementary teachers. Extends the foundational ideas of mathematics and

conceptual understanding of topics typically taught in elementary school classrooms, including numbers and numeration, fractions, decimals, ratio, proportion, percents and integers. Usually offered every spring. *Prerequisite:* EDU-250.

EDU-280 Social Justice and Urban Education (3) Analysis of the nature and impact of race, class, gender, and exceptionalism in education. Emphasis on how schools have served as vehicles of oppression and opportunity for social groups in our society. Engagement in change agency to promote social justice in schools and society. Usually offered alternate falls.

EDU-285 Education for International Development 3:2 (3) The conserving role of education as a socializing agent and the liberating role of education as an engine of change. Special attention is given to the social and economic impact of education in national development, especially in the Third World. Usually offered every spring. *Prerequisite for General Education credit:* ECON-110 or GOVT-130 or HIST-120 or SIS-105 or SIS-110.

EDU-319 Children's Literature: Multicultural and International Approaches (3) Exploration and critical analysis of multicultural and international children's literature from preschool to adolescence. Includes how contemporary issues are reflected in different genres, as well as marginalization, gender equity, social inequity, racism, and censorship. Usually offered every spring.

EDU-320 Psychology of Education (3) Surveys the research literature on learning theories and human development with an emphasis on the role of educators. Includes focus on issues such as multicultural education, special education, evaluation, memory and cognition, and instructional design. Usually offered every term.

EDU-321 Field Experience: Observation and Analysis (1) Observation and analysis of diverse school settings, examining philosophies, curriculum, and teacher and administrator roles, using informal and formal means of data collection with particular emphasis on classroom interactions. Usually offered every term. May be taken pass/fail only.

EDU-330 Instructional Strategies and Teaching Methods (3) An introduction to effective teaching strategies for prospective elementary teachers. Focus is on planning, implementing, and assessing teaching and learning. Issues of beliefs, practice, and reflection are emphasized. Students demonstrate teaching skills in clinical settings. Usually offered every fall. *Prerequisite:* EDU-205, EDU-320, and EDU-321.

EDU-362 Classroom Management (3) Study of the instructional and behavioral components of classroom management. Students gain skills in assessing behavior problems, planning interventions, implementing various strategies, and evaluating the effectiveness of interventions. Special attention is given to diverse populations of students, including exceptional needs, different cultural backgrounds, English as a second language, and low socioeconomic status. Usually offered every fall and summer.

EDU-371 Foundations of Reading Instruction (3) This course explores the fundamentals of literacy instruction. Attention is given to research that informs reading instruction, looking specifically at models and theories of reading over time. Special attention is given to constructing ways of supporting learners from diverse backgrounds, experiences, and abilities. Usually offered every spring. *Prerequisite:* EDU-205, EDU-320, and EDU-321.

EDU-390 Independent Reading Course in Education (1-6) *Prerequisite:* permission of instructor and SETH dean.

EDU-392 Cooperative Education Field Experience (3-9) *Prerequisite:* permission of SETH dean and Cooperative Education office.

EDU-490 Independent Study Project in Education (1-6) *Prerequisite:* permission of instructor and SETH dean.

EDU-491 Internship in Education (3-9) Students participate in the professional activities of selected educational organizations or agencies in the Washington, D.C. area. Students gain experience in nonteaching occupations that are integrally related to education and gain skills in educational research or program development and dissemination. *Prerequisite:* permission of director of internship program and SETH dean.

EDU-492 Service Learning in Teacher Education (1) Students participate in school and community organizations and agencies. Exploration of the principles of service learning and application of classroom theory in the community. Special attention is paid to providing equitable learning environments. Students must complete a minimum of 40 hours in the community placement and attend three on-campus seminars. Usually offered every term. May be taken pass/fail only.

EDU-499 Student Teaching (12) Student teaching includes observation, planning, and conferences with cooperating teachers and university supervisors. Required bi-weekly seminars focus on relevant teaching and educational issues. Preparation of a professional portfolio for program completion is required. Students provide their own transportation. Usually offered every term. *Prerequisite:* successful completion of appropriate methods courses, satisfaction of the SETH policy regarding ongoing assessment of academic and professional performance, and permission of SETH advisor. May be taken for A-F grade only.

Graduate and Advanced Undergraduate Courses

EDU-502 Methods of Managing Pupils with Behavior Disorders (3) Psycho-educational methods of understanding and managing inappropriate classroom behavior. Techniques such as groups, problem solving, role playing, and videotape analysis of behavior. Usually offered every fall and summer.

EDU-519 The Uses of Technology in Education (3) An introduction to computer literacy focusing on the effective use of technology in teaching and educational management. The course emphasizes criteria for evaluating software; using technology for effective teaching; and applying technology to strengthen management systems. Also provides students hands-on experience with a broad range of software and practical experience in applying technology to teaching and management. Meets with EDU-719. Usually offered every fall.

EDU-520 Reading, Writing, and Literature across the Curriculum (3) The focus of this course is on exploring and analyzing theories, models, and strategies for teaching reading, writing, and literature across the curriculum and how to integrate these in the content areas. Also addresses ways of supporting diverse learners throughout the course. Usually offered every spring.

EDU-521 Foundations of Education (3) Exploration of philosophical, sociological, and political foundations of American education and inquiry into the role schools play in cultural production, maintenance, and transformation and what this means for diverse learners of all ages. Includes an examination of law and policies that affect children and families. Usually offered every term.

EDU-522 Principles of Effective Methods and Instruction (3) An in-depth examination of the methods and competencies necessary for teaching, including instructional planning, writing objectives, lesson presentation, questioning, and feedback, interpersonal communication, instructional approaches, and assessment. The course explores the teacher's role as skilled practitioner and critical decision maker. Usually offered every term.

EDU-525 Principles of Educational Assessment and Evaluation (3) This course provides an overview of assessment measures and processes used in educational settings, including test construction and criterion-referenced measurement for instruction; and issues such as authentic assessments and portfolios, ethical concerns, and the uses of tests for educational research. Usually offered every spring.

EDU-540 Methods, Materials, and Management in Secondary Education I (3) This course is the first in a two-part sequence designed to develop knowledge and understanding of effective instruction and classroom management in secondary education. The course addresses the methods, materials, and management of secondary school subjects. Includes laboratory experiences in the university classroom and area secondary schools as well as seminars, and analysis of practical experience with respect to current literature. *Prerequisite:* admission to the Teacher Education program and permission of SETH advisor.

EDU-541 Foundations of Special Education for Exceptional Children (3) This survey course examines students with diverse learning needs and effective programs designed to provide equitable education for all students. Exceptionalities of students with regard to cognitive, behavioral, and psychological/social differences are the focus of study. Usually offered every spring.

EDU-542 Methods, Materials, and Management in Secondary Education II (3) This course is the second in a two-part sequence designed to develop knowledge and understanding of effective instruction and classroom management in secondary education. The course focuses on the development of instructional methodologies, research skills, content area knowledge, and inquiry strategies used to understand assessment and evaluation in the classroom. Usually offered every spring. *Prerequisite:* EDU-540.

EDU-545 Overview of All Exceptionalities: The Arts in Special Education (3) experiential course treating a variety of handicapping conditions and introducing a panoply of art forms. Students learn to program for success in each art form by building on the abilities, strengths, and interests of each disabled person, systematically programming academic material into arts activities, and teaching socialization and life skills. Usually offered every fall.

EDU-551 Counseling Skills in Training and Development (3) The development of basic counseling and interviewing skills needed to assist in individual development through the life span, with an emphasis on adult social, personal, and career development. Usually offered alternate falls.

EDU-552 Teaching Mathematics in Elementary Education (3) Materials and methods for teaching mathematics to all learners. Emphasis on the analysis of current research and effective mathematics instruction. Practical application in the university classroom and in area elementary schools. Students provide their own transportation. Usually offered every fall. *Prerequisite:* EDU-205, EDU-250, EDU-319, EDU-320, EDU-321, EDU-330, EDU-362, EDU-371, and EDU-541 or EDU-545, admission to the Teacher Education program and permission of SETH advisor. Must be

taken concurrently with EDU-553, EDU-554, EDU-555, and EDU-556.

EDU-553 Teaching Language Arts in Elementary Education (3) Focuses on understanding language acquisition and literacy development. Emphasis is on current research in language arts theory and practice to support diverse learners. Practical application in local elementary schools. Students provide their own transportation. Usually offered every fall. *Prerequisite:* EDU-205, EDU-250, EDU-319, EDU-320, EDU-321, EDU-330, EDU-362, EDU-371, and EDU-541 or EDU-545, admission to the Teacher Education program and permission of SETH advisor. Must be taken concurrently with EDU-552, EDU-554, EDU-555, and EDU-556.

EDU-554 Teaching Social Studies in Elementary Education (3) The focus of this course is on understanding how to support all learners through the use of various strategies, methods, and models for teaching social studies. Emphasis is on the analysis of current research in effective social studies teaching and learning. Practical application in local elementary schools. Students provide their own transportation. Usually offered every fall. *Prerequisite:* EDU-205, EDU-250, EDU-319, EDU-320, EDU-321, EDU-330, EDU-362, EDU-371, and EDU-541 or EDU-545, admission to the Teacher Education program and permission of SETH advisor. Must be taken concurrently with EDU-552, EDU-553, EDU-555, and EDU-556.

EDU-555 Teaching Reading in Elementary Education (3) The focus of this course is on understanding how to support diverse learners through the use of various strategies, methods, and models for teaching reading. Emphasis is on exploring and analyzing current research in reading theory and practice. Field work and practice teaching in local schools. Students provide their own transportation. Usually offered every fall. *Prerequisite:* EDU-205, EDU-250, EDU-319, EDU-320, EDU-321, EDU-330, EDU-362, EDU-371, and EDU-541 or EDU-545, admission to the Teacher Education program and permission of SETH advisor. Must be taken concurrently with EDU-552, EDU-553, EDU-554, and EDU-556.

EDU-556 Teaching Science in Elementary Education (3) Methods and materials for teaching science to all learners. Emphasis on inquiry, discovery, safety, and legal aspects. Field trips and practical application in local elementary schools. Usually offered every fall. *Prerequisite:* EDU-205, EDU-250, EDU-319, EDU-320, EDU-321, EDU-330, EDU-362, EDU-371, and EDU-541 or EDU-545, admission to the Teacher Education program and permission of SETH advisor. Must be taken concurrently with EDU-552, EDU-553, EDU-554, and EDU-555.

EDU-560 Advanced Technology in Education (3) Students gain hands-on experience with current and emerging applications including system server architecture, application programming, product development, and project evaluation. Emphasis on informed, data-based decision making as a guide to identification, purchase, and assessment of expert services and equipment, and development of skills to enact and administer specific solutions. Meets with EDU-760. Usually offered every spring. *Prerequisite:* EDU-519 or permission of instructor.

EDU-565 Gender and Cultural Diversity in School (3) Combining both historical perspective and contemporary knowledge and skills, this course investigates the impact of bias in school. From the earliest colonial schools to contemporary classrooms, bias, selectivity, and access have been pervasive educational barriers.

The course discusses both past issues and current challenges, bridging disparate groups and interests, and searching for commonalities and differences among racial, gender, class, ability, and ethnic concerns. Students undertake a social science investigation to add to the understanding of educational equity. Usually offered every fall.

EDU-590 Independent Reading Course in Education (1–6) *Prerequisite:* permission of instructor and department chair.

EDU-598 Comparative and International Education (3) An examination of the ways in which education systems vary across regions and countries and the implications for international education. Emphasis is on how educational policy, capacity, governance, institution building, and practice are shaped by the contexts in which they are embedded. Includes globalization, access, equity, equality opportunity, and capacity building. Usually offered every fall.

Graduate Courses

EDU-601 Teaching Reading in the Elementary School (3) This course focuses on understanding language acquisition, literacy development, and classroom teaching through the lens of cultural and linguistic diversity. Includes class discussion of strategies for teaching reading with practical application in local elementary schools. Usually offered every fall.

EDU-602 Teaching Language Arts in the Elementary School (3) This course focuses on understanding and applying recent theories and practices in language arts teaching and learning. Emphasis is on developing strategies that support diverse learners. Includes practical application in local elementary schools. Usually offered every fall.

EDU-603 Teaching Mathematics in the Elementary School (3) Materials and methods for teaching mathematics to all learners. Emphasis is on analysis of current research and effective mathematics instruction. Includes hands-on interactive math activities and practical application in local elementary schools. Usually offered every spring.

EDU-604 Teaching Science in the Elementary School (3) Strategies, materials, methods, and classroom management for teaching science in elementary schools. Examines pedagogy and best practices for effective science education for diverse learners. Includes practical application in local elementary schools. Usually offered every spring.

EDU-605 Methods of Psychoeducational Assessment for Learning Disabilities and Emotional Disturbance (3) Develops the special educator's knowledge of critical issues and concepts in the use of standardized tests in psychoeducational assessment, theoretical and operational definitions of cognitive abilities and "intelligence" familiarity with a variety of achievement tests, and introductory practice in test administration and interpretation. Usually offered every spring. *Prerequisite:* EDU-645.

EDU-606 Theories and Methods in Diagnostic and Prescriptive Mathematics (3) Materials and methods for teaching mathematics to students with learning disabilities. Analysis of current reform models in curriculum, assessment, and instruction, including techniques of error analysis and flexible interviewing. Required tutorial experience. Usually offered every spring.

EDU-607 Research Seminar in Special Education (3) A case study approach using interdisciplinary research with focus on a specific child with learning disabilities. Includes interviews with professionals working with the child, review of confidential files,

and research from contemporary journals on remediation suggestions summarized in a comprehensive report. Usually offered every spring. *Prerequisite:* permission of instructor.

EDU-608 Teaching Social Studies in the Elementary School (3) Focuses on understanding how to support all learners through the use of various strategies, methods, and modes for effective social studies teaching. Emphasis on the analysis of current research in effective social studies teaching and learning. Includes practical application in local elementary schools. Usually offered every spring.

EDU-609 Effective Teaching for Diverse Learners (3) Through action research, students explore ways of organizing and managing classrooms to support diverse learners. Students engage in curriculum design and implementation across the curriculum, including instructional planning and using portfolios. The role that families, the community, and other professionals can play in assessment and curriculum planning are explored. Usually offered every spring.

EDU-610 Overview of Qualitative and Quantitative Research Strategies (3) Through a comprehensive case study approach, students are introduced to concepts and principles of social science research design. Observation, interview and survey design, literature reviews, development of problem statements and research questions, surveys of quantitative and qualitative data analyses, and formative and summative evaluation techniques are emphasized. Students demonstrate their competencies by applying them to the case study. Usually offered every fall.

EDU-611 Formative Ideas of Contemporary Education (3) Analysis of turning-point social and educational thought and research instrumental in shaping modern educational institutions, their cultures, policies, and practices. Social ideas and educational research and philosophy are linked to institutional values, policy and practice, and to contemporary educational issues such as equity, multiculturalism, and global education. Usually offered every spring.

EDU-612 Equity and Educational Opportunity in International Perspective (3) An inquiry into the meaning of educational equity, emphasizing equality of conditions and of outcomes and implications for education in different nations. Research perspectives on the relationships between social inequalities and educational opportunity relative to socioeconomic status, gender, and ethnicity, and the functions of schools as agents of cultural transmission. Usually offered every spring.

EDU-613 Cultural Factors in Higher Education (3) Study of college students and their culture. Emphasis on assessment and evaluation of phenomena in the collegiate setting to gain insight into cultural dynamics that bear on student development. Usually offered every spring.

EDU-614 International Education Exchange: Policies and Practices (3) An examination of international educational exchange, intercultural communication, and study abroad programs. Includes consideration of the design and administration of such programs and the linkages with capacity building and development in international education. Attention is given to the implications for the internationalization of U.S. education and for education and development abroad. Usually offered every spring.

EDU-615 Education and Social Change (3) This course assesses the broad social functions of education and the ways in which education advances social change as a transmitter of culture, agent for socialization and opportunity, and catalyst for individual and soci-

etal well being. Although the course emphasizes education and social changes in the United States, numerous comparisons are made to other societies and cultures. Usually offered every fall.

EDU-618 Human Growth and Development across the Life Span (3) Exploration of human development and relations across the life span, with an emphasis on health and care for children with diverse linguistic, cultural, and physical needs. Includes inquiry into social and cultural learning processes from birth through age eight. Usually offered every spring.

EDU-619 Children's Literature: A Critical Literacy Perspective (3) Exploration and analysis of children's literature from a critical literacy perspective, including an explanation of social issues such as marginalization, racism, and censorship, as reflected in different genre.

EDU-620 Theories of Educational Psychology and Human Development (3) Surveys research literature in learning and human development with an emphasis on the role of educators as decision makers and change agents who are knowledgeable about diversity and multiculturalism. Emphasizes the role today's educators play on advancing knowledge about instructional technology, human relations, time management, principles of growth and development, and the processes of memory and cognition. Usually offered every term.

EDU-621 Topics in Social Science Research (1) Topics vary by section, may be repeated for credit with different topic. An introduction to and basic skill acquisition in techniques used by social science researchers and practitioners, including undertaking ethnographic research, action research, strategies for field research, functioning as a change agent, etc. Usually offered every term. *Prerequisite:* EDU-610 or permission of instructor.

EDU-622 Language and Literacy Learning (3) In this course students explore the assumptions that underlie literary and literacy learning. Students examine how we make sense of the world through language, views of learning, the nature of knowledge, and views of literacy. Usually offered alternate springs.

EDU-623 Topics in Literacy Education (3) Topics vary by section, may be repeated for credit with different topic. Provides students with opportunities to study timely topics and issues in literacy education. Usually offered alternate springs.

EDU-624 Language, Schooling, and Nation-Building (3) This team-taught (anthropology and education) course surveys recent research on nonstandard language and schooling in the context of post-colonial change. It considers how non-standard varieties of national languages as well as language traditions assigned lesser prestige by national language policies influence school performance and affect classroom practices in language arts, mathematics, and other content/instructional areas. Implications for non-print literacies and for other areas of nation-building after colonialism are also explored.

EDU-625 Advocacy and Leadership in Early Childhood Education (3) The development of collaborative and mentorship skills to work effectively with families, communities, professionals in the field, and other adults in connection with early childhood education and schooling. Usually offered every fall.

EDU-627 Literacy Education Skills Institutes (1) Topics vary by section, may be repeated for credit with different topic. Usually offered every term.

EDU-628 Topics in Early Childhood Education (3) Topics vary by section, may be repeated for credit with different topic. Rotating

topics provide students the opportunity to study timely issues in early childhood education. Usually offered every spring.

EDU-629 National Board for Professional Teaching Standards Preparation (1-3) Topics vary by section, may be repeated for credit with different topic. Provides guidance for teacher candidates as they complete personal assessments of their current practices and successfully completing a National Board for Professional Teaching Standards (NBPTS) portfolio. Usually offered every term.

EDU-631 Fundamentals of Management in Educational Organizations (3) Overview of the general characteristics of organizations and organizational change, and the roles and tasks of managers, with emphasis on the distinctive nature of educational organizations. Analysis of the organizational issues faced in providing quality education, and the managerial and leadership skills necessary to operate effectively in educational organizations. Usually offered every fall.

EDU-632 Case Studies in Educational Management (3) May be repeated once for credit; case studies must be different. A case-study approach to examining administrative, managerial, and leadership issues in educational institutions. The course focuses on developing problem solving skills through the analysis of specific incidents, programs, and practices. *Prerequisite:* EDU-631.

EDU-633 Financing Educational Systems (3) Principles and practices of financing public education programs at federal, state, and local levels. Taxes, bonds, budgets, purchasing systems, accounting systems, and other aspects of school business administration are covered. Usually offered every spring.

EDU-634 Education and Public Policy (3) Examines the major public policy issues in American education: equity, excellence and efficiency. Emphasizes theories and techniques of policy analysis, including implementation strategies, cost/benefit analysis, and evaluation. Usually offered every spring.

EDU-635 Theory and Curriculum in Early Childhood Education (3) This course focuses on theoretical models and teaching methods and strategies that deal specifically with young children and their learning in various areas of school curriculum. Usually offered every fall.

EDU-639 Effective Leadership Skills (3) A theory-based, skills-oriented workshop for administrators, dealing with concepts of administrative effectiveness, administrative style awareness, style flexibility, situational diagnosis skills, and team skills. *Prerequisite:* EDU-631.

EDU-640 Rotating Topics in Adult and Experiential Learning (3) Topics vary by section, may be repeated for credit with different topic. Focuses on the experiences and participation of adults as learners. Topics include institutional responses to the increased participation of adults; instructional strategies and curriculum development for adult learners; the efficacy and implementation of experiential learning; and the concepts and practices of adult learning theory. Usually offered every term.

EDU-642 Training Program Design (3) An introduction to the design and delivery of adult training programs, emphasizing the development of skills in a variety of training components: needs assessment, goals and objectives, training methodologies and materials, and evaluation. This course is equally appropriate for novice trainers or those with previous experience. Usually offered every fall.

EDU-644 Language Development and Remediation (3) How does one learn to use language to express thoughts and feelings? How does one teach a learning-disabled child to communicate effectively? This course discusses the developmental sequence of language learning, the nature of language disorders, diagnostic assessment of language disorders, and remedial techniques. Usually offered every fall.

EDU-645 Learning Disabilities I (3) Examines neurological and developmental aspects of learning disabilities. Gives an overview of the field, emotional and social implications of learning disabilities, and how current brain research can impact teaching and counseling this population. Emphasis is on seeking the strengths of the child or adult with learning disabilities, how to foster the different intelligences, and informally diagnose the weaknesses. Usually offered every fall. *Prerequisite:* permission of instructor.

EDU-646 Learning Disabilities II (3) Develops diagnostic capabilities in order to select and design materials and programs for learning-disabled children and youth. Diverse methods of teaching are introduced. Special problems of learning-disabled adolescents and adults are studied in depth. Postsecondary education, career awareness, and career development approaches and programs are represented. Counseling techniques for parents and mainstream teachers are also addressed. Usually offered every spring. *Prerequisite:* EDU-645.

EDU-647 Global and Multicultural Education (3) This course deals with the role of American education in an interdependent world, examining both the multicultural character of American classrooms and the international dimensions of the American school curriculum. It explores such issues as ethnocentrism, empathy, and global awareness, including an analysis of educational materials and methods useful in treating these issues. A special emphasis is placed on developing skills for cross-cultural understanding and communication. Usually offered every spring.

EDU-648 Education and Development: Sector Analysis (3) Examines education as a social institution that both reflects and influences social, economic, and political life in nation states and globally. Emphasizes the role of education as an engine for change in the Third World. Organized around a logical framework of analysis, sometimes called the Sector Assessment Format, this course analyzes and compares educational systems by examining issues of access, equity, international efficiency, quality, and external efficiency. Usually offered every spring.

EDU-649 Nonformal Education and Development (3) An examination of the role of nonformal education in the economic, social, and political development of developing nations. Specifically, the course deals with out-of-school programs in adult education, literacy, health, family planning, agriculture, nutrition, and community development. Case materials from several countries are used to study the issues and techniques involved in human resource development. Usually offered every fall.

EDU-662 Classroom Management (3) Study of the instructional and behavioral components of classroom management. Students gain skills in assessing behavior problems, planning interventions, implementing various strategies, and evaluating the effectiveness of interventions. Special attention is given to diverse populations of students, including exceptional needs, different cultural backgrounds, English as a second language, and low socioeconomic status. Usually offered every fall and summer.

EDU-666 Legal Issues in Education (3) For advanced graduate students. Study of student-institution relationship, institutional judicial systems, student rights, records, and due process issues. Usually offered in alternate years.

EDU-671 Foundations of Reading: Diagnosis and Remediation (3) Broad considerations underlying the teaching of reading with emphasis on reading disability and problems of the disabled reader. Usually offered every fall and summer.

EDU-683 Curriculum Design for the Classroom (3) An exploration and analysis of the foundation of design and development of curriculum from pre-K through 16. Students study the impact of policy on curriculum and analyze various components of design and delivery in the classroom.

EDU-685 Proseminar in International Education (3) Students draw on, consolidate, and extend their knowledge and research and analytical skills in the development of a capstone project of choice. The course provides group planning and support and guided individualized study. Emphases on topic or problem formation; argument development; research questions; methodological perspectives. Students must be in their final year of the International Training and Education program (ITEP), and have clarified preliminary ideas with an ITEP advisor prior to enrolling. Usually offered every term. May be taken pass/fail only.

EDU-687 Analysis of Instruction and Supervision (3) This course examines the impact of varying types of direct support, approaches to supervision, instructional coaching, mentoring, and induction on teacher development. The course provides instructional leaders with practical guidance and support as they work with teachers to improve classroom teaching and learning. Students explore teacher effectiveness through the lens of local and national standards. Emphasis is placed on developmental or collaborative supervision, the role of professional teaching standards in teacher development, research based approaches to instruction, and providing practical applications for structured helping relationships.

EDU-690 Independent Study Project in Education (1-6) *Prerequisite:* permission of instructor and department chair.

EDU-692 Cooperative Education Field Experience (3-6) *Prerequisite:* permission of department chair and Cooperative Education office.

EDU-693 Personnel and Program Evaluation (3) Develops the systematic skills needed to conduct evaluations of training and development programs in various educational and organizational settings. Usually offered every spring.

EDU-699 Student Teaching (6) Student teaching includes observation, planning, and conferences with cooperating teachers and university supervisors. Required bi-weekly seminars focus on relevant teaching and educational issues. Preparation of a professional portfolio for program completion is required. Students provide their own transportation. Usually offered every term. *Prerequisite:* successful completion of appropriate methods courses, satisfaction of the SETH policy regarding ongoing assessment of academic and professional performance, and permission of SETH advisor. May be taken for A-F grade only.

EDU-713 Advanced Training Program Design (3) This course models a variety of types of training such as diversity, health/behavior change, literacy, conflict resolution, small business, and youth and/or outward bound training. It focuses on skills building and discussion of strategies for co-facilitation, difficult participants, and misinformed needs analysis. The course is structured as a

‘training practicum’ through which students develop and conduct training exercises that are video taped and critiqued through class discussion. *Prerequisite:* EDU-642 or permission of instructor or program director.

EDU-719 The Uses of Technology in Education (3) An introduction to computer literacy focusing on the effective use of technology in teaching and educational management. The course emphasizes criteria for evaluating software; using technology for effective teaching; and applying technology to strengthen management systems. Also provides students hands-on experience with a broad range of software and practical experience in applying technology to teaching and management. Meets with EDU-519. Usually offered every fall.

EDU-760 Advanced Technology in Education (3) Students gain hands-on experience with current and emerging applications including system server architecture, application programming, product development, and project evaluation. Emphasis on informed, data-based decision making as a guide to identification, purchase, and assessment of expert services and equipment, and development of skills to enact and administer specific solutions. Meets with EDU-560. Usually offered every spring. *Prerequisite:* EDU-719 or permission of instructor.

EDU-765 Seminar in Educational Leadership (3) Analysis and integration of major theoretical approaches of educational leadership. Emphasis is on current research about educational leadership and critical examination of current issues and problems facing educational leaders. Usually offered every spring.

EDU-789 Qualitative Research in Education (3) Analysis of and practice in the design and development of qualitative educational research. Emphasizes the nature and function of educational research; the epistemological, social, and value assumptions and issues in educational research; the nature and function of specific approaches to qualitative research; attributes of exemplary qualitative research in education; and ethical concerns and principles. Usually offered every summer. *Prerequisite:* EDU-610.

EDU-790 Quantitative Research in Education (3) Analysis of and practice in the design of quantitative educational research. Emphasizes the nature and function of quantitative data gathering and analysis and the statistical approaches and techniques utilized to obtain particular outcomes. Usually offered every spring. *Prerequisite:* EDU-610.

EDU-792 In-Service Training Project: Internship in Education (3-9) Internships in cooperating school systems, colleges and universities, and other agencies and organizations as an integral part of degree programs in the School of Education. May be repeated for credit. Usually offered every term.

EDU-797 Master’s Thesis Seminar (1-6)

EDU-798 Proseminar in Education (1-2) School of Education full-time faculty present their own research to doctoral students to demonstrate both the variety of disciplinary and methodological approaches to educational research, and to indicate the areas of their current research. Sessions are also devoted to a review of research and statistical methodologies. Usually offered every fall. *Prerequisite:* admission to Ph.D. in Education, or master’s students with permission of dean. May be taken pass/fail only.

EDU-799 Doctoral Dissertation Seminar (1-9) Students with approved dissertation proposals continue their research, analysis, and writing in a learning environment which provides faculty supervision and peer support. Emphases include editing, organiza-

tion, and analytic and interpretive techniques to complete a dissertation. Students may enroll for up to 3 credit hours prior to the dissertation proposal. May be taken pass/fail only. *Prerequisite:* advancement to candidacy.

Environmental Studies

Undergraduate Courses

ENVS-102 Seminar in Environmental Issues (1) This seminar for beginning environmental studies majors introduces students to the domain of environmental science as a discipline. The scientific, economic, and social issues underlying major environmental problems are presented through faculty and guest speakers, readings, and discussions. Usually offered every term.

ENVS-150 Sustainable Earth (4) 5:1 This course examines the issue of sustainability; what it means, how it is measured, and how it can be used to address environmental challenges. In doing so, the course builds on the most current scientific understanding of how the natural world works.

ENVS-220 Environmental Resources and Energy 5:2 (3) General discussion of the chemistry of our environment, including description of the ideal unpolluted environment and a historic view of pollution. Classes and interactions of pollutants with the environment are described. Emphasis is placed on understanding the chemistry of pollutants and how they affect our quality of life. Usually offered every term. *Prerequisite for General Education credit:* CHEM-100 or CHEM-110 or PHYS-100 or PHYS-105 or PHYS-110.

ENVS-250 Living in the Environment 5:2 (3) An introduction to environmental science. This course focuses on key principles that govern how nature works, the interactions between human society and ecosystems, and current and potential solutions to environmental problems. Includes energy flow through ecosystems, properties of natural communities and human societies, resource conservation and management, and environmental ethics. Usually offered every term. *Prerequisite for General Education credit:* BIO-100 or BIO-110 or ENVS-150 or PSYC-115.

ENVS-300 Conservation (3) This course examines conservation issues, especially as they relate to conservation of biodiversity. The course covers early conservation writing, the development of tools that are used in conservation, and the status of biodiversity. Usually offered every fall. *Prerequisite:* ENVS-250 or BIO-210, or permission of the instructor.

ENVS-324 Environmental Health (3) This course examines physical, chemical, and biological factors in the environments that impact community health and health behaviors. The concept and method of risk assessment are discussed, as well as how health-supportive environments can be created and maintained. Usually offered every fall.

ENVS-350 Environmental Geology (3) This course examines important environmental phenomena strongly influenced by geology, including environmental acidification, sedimentation/weathering, fossil fuels, global warming and efforts at mitigation, plate tectonics, and biogeochemical cycles. The class also explores earthquakes, volcanoes, tsunamis, and other natural hazards. A focus of the course is geology as it relates to, or is impacted by, human activities. Usually offered alternate falls.

ENVS-360 Environment and the Atmosphere (3) Description and analysis of the physical phenomena of the earth's atmosphere. Mechanics, fluid dynamics, and thermodynamics of the atmo-

sphere, quantitative analysis of climatic fluctuations and their impact on ecological and economic systems. Climatic changes and climatic control: ozone depletion and greenhouse gases. Usually offered every third semester. *Prerequisite:* MATH-211 or MATH-221.

ENVS-375 Water Resources (3) A study of the availability, quality, dynamics, and cycles of water. Emphasizes the hydraulic cycle, movement of water in aquifers, floods and droughts, drainage basin analysis, and factors affecting water quality. Meets with ENVS-675. Usually offered alternate falls. *Prerequisite:* MATH-211 or MATH-221.

ENVS-390 Independent Reading Course in Environmental Studies (1-6) *Prerequisite:* permission of instructor and department chair.

ENVS-392 Cooperative Education Field Experience (3-9) *Prerequisite:* permission of department chair and Cooperative Education office.

ENVS-490 Independent Study Project in Environmental Studies (1-6) *Prerequisite:* permission of instructor and department chair.

ENVS-492 Senior Capstone in Environmental Studies (3) An in-depth examination of two major sites of environmental concern and controversy from a variety of scientific and social perspectives. One site, such as the Yellowstone Ecosystem, will be of national importance; and one, such as the Anacostia River, will be of local importance. Usually offered every spring. *Prerequisite:* senior environmental studies majors.

Graduate and Advanced Undergraduate Courses

ENVS-505 Energy (3) General overview of sources of energy and the energy problem with a strong focus on the relevant physical concepts. Includes the definition of work, energy, and power, electricity and magnetism, chemical energy, nuclear energy, thermodynamics, and alternative energy sources. Usually offered alternate springs. *Prerequisite:* ENVS-580, ENVS-581, STAT-514, and STAT-515.

ENVS-510 Climatology (3) Provides a detailed overview of the elements of climatology and the effects of pollution on the environment. Includes the radiation balance of the sun heated planet and how this energy shapes our climate, the physics of the atmosphere, atmospheric circulation, continental and marine climates, and the influences of topography, vegetation, forest and agriculture, air pollution, vehicular travel, urban construction, and fossil fuel sources on the climate. Usually offered alternate falls. *Prerequisite:* ENVS-580, ENVS-581, STAT-514, and STAT-515.

ENVS-520 Biogeochemistry (3) Description and analysis of the physical phenomena occurring on the earth. Earth as a dynamic planet; two major energy systems: hydrologic and tectonic systems. The relationship between geological changes and human activities: human activities change geological materials and processes on the earth, and natural processes and events affect society. *Prerequisite:* ENVS-580, ENVS-581.

ENVS-572 Topics in Conservation Biology (3) Topics vary by section, may be repeated for credit with different topic. Rotating topics on current research in conservation biology, including habitat protection, ecosystem management, and captive breeding. Usually offered alternate springs. *Prerequisite:* BIO-423 or graduate standing, or permission of instructor.

ENVS-575 Environmental Risk Assessment (3) The nature and methods of environmental risk assessment through critical analysis

of case histories. The scientific concepts and analytic methods of each case study is explored through solution to sets of specific problems. Case studies include statistical modeling of environmental risk factors, the principle of uncertainty, toxicology, epidemiology, the meaning exposure, types of technical risks, basics of decision analysis, and effective communication of risk assessment results. Usually offered every fall. *Prerequisite:* advanced undergraduate major or graduate student in environmental studies.

ENVS-580 Environmental Science I: A Quantitative Approach (3) This course starts with the history and overarching concepts of environmental science, and continues with a survey of aspects including population and demographics; agriculture and toxic substances; energy sources, energy utilization, and efficiency; water resources and pollution; local and regional air pollution; and ozone depletion and global warming/climate change. Examples are chosen with a current global perspective. Usually offered every fall.

ENVS-581 Environmental Science II: A Quantitative Approach (3) This course covers geological cycles of nutrients and how biological function is influenced by geological and chemical processes. Resource management, mineral resources, land use, and conservation biology are also covered. What and how information is used in making resource conservation decisions is explored, and current events in environmental science and policy are presented, as well as current efforts in resource/biodiversify conservation, to link the science discussed in class with environmental policy decisions and debates. Usually offered every spring. *Prerequisite:* ENVS-580.

ENVS-582 Environmental Law (3) An overview of environmental law and environmental regulation for environment scientists and environmental policy analysts. Usually offered alternate springs. *Prerequisite:* ENVS-580 and ENVS-581 or permission of instructor.

ENVS-590 Independent Reading Course in Environmental Studies (1-6) *Prerequisite:* permission of instructor and department chair.

Graduate Courses

ENVS-675 Water Resources (3) A study of the availability, quality, dynamics, and cycles of water. Emphasizes the hydraulic cycle, movement of water in aquifers, floods and droughts, drainage basin analysis, and factors affecting water quality. Meets with ENVS-375. Usually offered alternate falls.

ENVS-681 Environmental Research Seminar and Practicum (1-3) An in-depth exploration of real world environmental problems from a variety of science and policy perspectives. Usually offered every term. *Prerequisite:* ENVS-580 and ENVS-581.

ENVS-690 Environmental Science Research (1-3) Independent research projects in environmental science. Usually offered every term.

ENVS-691 Internship (1-3) *Prerequisite:* permission of instructor and department chair.

ENVS-692 Cooperative Education Field Experience (3-6) *Prerequisite:* permission of department chair and Cooperative Education office.

Business: Finance

Noncredit

FIN-085 Business Education for Practicing Physicians (0) This executive development education program provides business skills

and knowledge to physicians. These skills include understanding and analyzing financial statements; evaluating investment proposals; dealing with management issues including hiring and firing and collective bargaining; regulatory compliance such as Health Insurance Portability and Accountability Act (HIPAA), Medicare, and Stark Regulations; medical record issues and information technology (PMS/EMR); insurer and reimbursement practices; and working in a practice versus being an employee.

Undergraduate Courses

FIN-200 Personal Finance and Financial Institutions 4:2 (3) Provides the background for making personal financial decisions within a social and institutional context and developing future financial plans. Shows how to set financial goals, devise strategies to attain them, and understand the tradeoffs inherent in the decision making process. Includes cash flow control, banking, credit, taxes, financing houses and automobiles, insurance, investments, and estate planning. *Prerequisite for General Education credit:* COMM-100 or ECON-100 or GOVT-110 or SOCY-150.

FIN-201 Applied Personal Finance (3) This course adds to the knowledge base introduced in FIN-200 and adds a strong focus on applying this knowledge through comprehensive financial planning techniques. Students use software to gain experience in debt management and reduction; marriage and educational expenses; insurance; purchase of a car or house; retirement planning; investing for financial independence; and protecting heirs. *Prerequisite:* FIN-200.

FIN-312 Investment Markets, Choices, and Planning (3) Focuses on the key institutions and markets, both domestic and global, that are important in making sound investment and saving decisions. The course familiarizes students with key investment concepts and develops basic frameworks for analyzing individual and investment portfolios. *Note:* students may not receive credit for both FIN-312 and FIN-469.

FIN-365 Business Finance (3) Introduction to business finance, including global aspects, overview of money, and capital markets; financial analysis and time value of money; corporate securities, stock and bond pricing; acquisition and use of funds and cost of capital; capital budgeting. surement, managing the firm's investment decisions and capital structure, sources of financing for the firm and financial planning and analysis. *Prerequisite:* ACCT-607, FIN-605 or FIN-606, and ITEC-610.

FIN-630 Financial Analysis: Concepts and Applications (3) The use of accounting and finance as a management tool in financial analysis, planning, and decision making. Underlying concepts of accounting, the role of accounting in management planning and control, and financial statement analysis. Financial theory and techniques involving time value of money, valuation, risk measurement, and managing the firm's investment decisions, financing, and dividend policy decisions.

FIN-631 Legal Issues of Financial Management (1.5) Particular emphasis on legal concepts related to the financial sales transaction. The law of sales, commercial paper (negotiable instruments), and secured transactions with emphasis on the Uniform Commercial Codes, Articles 2,3,4 and 9. Students study the particular substantive legal areas related to the sale of goods and the secured financing necessary for that sale and simultaneously explore generic legal issues related to the drafting and interpretation of all statutory materials. *Prerequisite:* ACCT-623.

FIN-660 Financial Modeling (3) This course provides students with decision-making skills derived from the ability to understand, perform, and interpret complex financial calculations and models used in finance. *Prerequisite:* FIN-614.

FIN-665 Quantitative Methods in Finance I (3) In this course students gain an understanding of applied econometric models typically used in finance to become familiar with techniques for analyzing real-world financial and economic research. *Prerequisite:* FIN-614 and STAT-514 or permission of program director or instructor.

FIN-666 Quantitative Methods in Finance II (3) This course is the second in a two-course sequence covering the application of statistical and quantitative methods of analysis to financial data. In this course, students extend their understanding of applied econometric models covered in Quantitative Methods in Finance I to time-series data limited dependent variable models and hazard models. *Prerequisite:* FIN-665.

FIN-671 Advanced Financial Management (3) This course examines at an intermediate level the problems of managing short term assets including cash, marketable securities, accounts receivable and inventory, managing the acquisition and disposal of long-term assets, and financing decisions including leverage, leasing, mergers, and international issues. Students become familiar with both the basic theory in each of these areas and various strategies for integrating the theory with practice. *Prerequisite:* ACCT-607 and FIN-614.

FIN-672 Investment Analysis and Portfolio Management (3) The purpose and operations of security markets; investment instruments and their characteristics; introduction to portfolio and capital market theory; theory of valuation, bonds, and the term structure of interest rates; options, commodity and financial futures; investment companies; and international investments. *Prerequisite:* FIN-614.

FIN-673 Corporate Valuation and Financial Strategy (3) Examines ways to increase firm value through corporate restructuring. Includes the theoretical background on restructuring, valuation techniques, mergers, acquisitions, spin-offs, divestiture activities, LBOs, and financial distress. Reviews theory and practice through

case analysis and emphasizes valuation analysis and the role of financial markets in each area. *Prerequisite:* FIN-614.

FIN-674 Derivatives and Risk Management (3) A comprehensive study of equity and debt-based futures with other derivative instruments given secondary consideration. Characteristics of exchanges and market participants. Pricing of derivative instruments. Hedging, speculative, and arbitrage applications of derivative instruments are analyzed. *Prerequisite:* FIN-614.

FIN-677 Financial Statement Analysis (3) This course explores the use of financial statement information by investors and analysts as a basis for understanding a firm's current performance, assessing its future prospect and valuing ownership and other claims. The focus is on use of accounting information for equity valuation, but other applications are also considered. Meets with ACCT-677. *Prerequisite:* ACCT-607 and FIN-614.

FIN-680 Investment Banking (1.5) Investment banks became the most visible financial institutions operating in the global financial markets of the 1980s and 1990s. This course examines the function of investment banks and the development of the industry. *Prerequisite:* FIN-614 and FIN-672.

This course examines the specific contributions that financial markets and institutions can make in reaching their goals of economic growth and development. *Prerequisite:* FIN-614.

FIN-683 Financial Institutions Management (3) (fall 2011: Modern Financial Markets and Institutions) This course introduces the institutions and markets that form the worldwide economic system of trading financial and real assets. Students cover concepts of financial theory; institutional detail; regulations; and the history of the financial markets. The course provides an overview of the financial world and the markets' primary participants. *Prerequisite:* FIN-614.

FIN-684 Fixed Income Analysis (3) This course provides an introduction to the analysis of bonds and other fixed-income assets. Students study liquidity management, risk measurement and management, and portfolio analysis and management. *Prerequisite:* FIN-614.

FIN-685 Topics in Finance (1.5-3) Topics vary by section, may be repeated for credit with different topic. Rotating topics of special interest in finance and related interdisciplinary topics.

FIN-687 Corporate Governance (3) This course examines the relationship between managers and shareholders, and the processes and systems that investors use to ensure that managers act in the best interests of the firm's owners. The course covers issues including boards of directors, executive compensation, ownership structure, etc., and uses a combination of readings and case studies. *Prerequisite:* FIN-614.

FIN-690 Independent Study Project (1-6) *Prerequisite:* permission of instructor and department chair.

FIN-691 Internship (1.5) *Prerequisite:* permission of instructor and department chair. May be taken pass/fail only.

FIN-692 Cooperative Education Field Experience (3-6) *Prerequisite:* permission of department chair and Cooperative Education office.

FIN-700 International Finance (3) Financial operation of the multinational firm; including the sources of funds; foreign investment decisions; and international transactions and taxation. Also

included is a study of the related aspects of the international monetary system; foreign exchange markets; and international banking. Meets with IBUS-700. *Prerequisite:* FIN-614; and IBUS-610 or IBUS-618.

FIN-733 Commercial Real Estate and Mortgage Markets (3) This course emphasizes the entrepreneurial side of real estate finance and investment. Students carry out a project, including selecting a property, organizing the venture, entering the market for sales and/or leasing of the property, performing an appraisal, obtaining financing, and developing a spreadsheet structure to analyze the risks and returns. Meets with REAL-733. Classroom material is fully integrated with the project at each stage.

Art: Graphic Design

Undergraduate Courses

GDES-100 Design Literacy (3) This course introduces students to the ubiquity and multiplicity of purpose of graphic design and the applied arts in general. Students discover the cultural dimensions of visual and verbal elements and learn to appreciate international issues related to the globalization and localization of design messages. Students carry out hands-on projects to explore aesthetic and communicational aspects of design. Usually offered every term.

GDES-200 Introduction to Graphic Design (3) A studio design course integrating materials, visual principles, and the design process to solve graphic communication problems. Students develop fluency in visual language to form a basis of aesthetic judgement and develop methods of analysis and inquiry which underlie creative thinking. Studio practice combines with class critiques and site visits. Usually offered every term.

GDES-210 Introduction to Typography (3) Theory and analysis of letter forms as design and symbol. Study of typefaces, arrangement, and setting. Exploration of the use of typographic resources to create hierarchy, enhance communication, and support meaning. Usually offered every term.

GDES-220 Computer Literacy for Design (3) Concentration on the development of technical skills by enabling students to use the computer as a tool for solving design problems. The course is geared towards foundation knowledge in using desktop publishing, illustration, digital imaging, and new media software, along with other technical and hardware computer issues. Usually offered every term.

GDES-230 Graphic Design History: Visual Culture, Commerce, and Propaganda 1:2 (3) Graphic images have been used from prehistory to the computer age. A lecture-discussion format presents the historical context for the graphic arts of calligraphy, typography, book design, diagramming, and illustration. Emphasis on the relationship of these applied arts to the fine arts, technology, and social history, as well as the application of this visual language to contemporary design problems. Usually offered every term. *Prerequisite for General Education credit:* ARTH-105 or COMM-105 or LIT-120 or LIT-135.

GDES-300 Intermediate Typography (3) Exploration of complex typographic problems, information organization, and project development and presentation. Students rely on typography as a primary expressive tool to resolve design problems and explore relationships between type and image. Usually offered every fall. *Prerequisite:* GDES-200, GDES-210, GDES-220, and COMM-330.

GDES-310 Print Design and the Computer (3) Emphasis on the technical procedures that translate graphic design from an idea to a printed piece and proficiency in the use of print-related software. Includes development of comprehensive sketches, pre-press preparation, color separation, and printing procedures. The class format includes lectures, studio projects, and local field trips. Usually offered every term. *Prerequisite:* GDES-200, GDES-210, GDES-220, and COMM-330.

GDES-315 Experience Design and the Computer (3) Emphasis on the processes that translate graphic design from an idea to a digital-supported experience and advanced proficiency in the use of new media and interactivity-related software. Includes preparation of comprehensive sketches and development, storage, and distribution procedures. The class format includes lectures, studio projects, and guest speakers. Usually offered every term. *Prerequisite:* GDES-200, GDES-210, GDES-220, and COMM-330.

GDES-320 Design and Photography (3) Through a combination of digital and analog media, students integrate photography as an image-making tool for solving design problems and to generate original images. Emphasis is on the sketching, planning, and realization of photo-shoots and on the development of art direction skills. Usually offered every spring. *Prerequisite:* GDES-300.

GDES-325 Kinetic and Sequential Graphics (3) Application of typographic and design principles to the environment of the moving image. Kinetic typography, identity, and other presentation graphics as they apply to linear or interactive sequential design. Usually offered every spring. *Prerequisite:* GDES-300.

GDES-350 Illustration (3) Students explore illustration as a communicational concept delivery tool. From basic black-and-white techniques, including representational drawings and pictograms, to complex color, collage, and mixed media. Usually offered every spring. *Prerequisite:* graphic design major or minor.

GDES-390 Independent Reading Course (1–6) *Prerequisite:* permission of instructor and department chair.

GDES-392 Cooperative Education Field Experience (3–9) *Prerequisite:* permission of department chair and Cooperative Education office.

GDES-400 Advanced Design I: Systems Design (3) Concentration on the research, design, and production of complex design projects implemented through diverse applications. Emphasis on professional, organizational, and presentation skills. Includes corporate identity, environmental graphics, promotional graphics, and other multiple design systems. Usually offered every fall. *Prerequisite:* GDES-320.

GDES-405 User Experience Design I (3) Exploration of design for user-defined media. Concentration on interface design, interactivity, and information architecture issues as they pertain to design. Students develop solutions for different audience-selected experiences and non-linear design problems. Usually offered every fall. *Prerequisite:* GDES-325.

GDES-420 Advanced Design II: Narrative Design (3) Practical consideration and execution of complex design projects with concentration in publication, book, and other comprehensive print-based projects. Students also devote time to preparation of portfolios. Usually offered every spring. *Prerequisite:* GDES-400.

GDES-425 User Experience Design II (3) Practical consideration and execution of projects in design with concentration in interactive and other digitally-based and technology-related

problems. Students also devote time to preparation of portfolios. Usually offered every spring. *Prerequisite:* GDES-405.

GDES-450 Packaging Design (3) Development of three-dimensional design solutions related to the presentation of objects and products. Students explore structural, production, and communicational aspects of packaging. Usually offered every spring. *Prerequisite:* GDES-300 or permission of department.

GDES-490 Independent Study Project (1–6) *Prerequisite:* permission of instructor and department chair.

GDES-491 Internship (1–6) *Prerequisite:* permission of instructor and department chair.

General Education

Undergraduate Courses

GNE-110 General Education Area 1 Topic (3) Special topics offered periodically for foundation-level General Education credit in Curriculum Area 1.

GNE-120 General Education Area 2 Topic (3) Special topics offered periodically for foundation-level General Education credit in Curriculum Area 2.

GNE-130 General Education Area 3 Topic (3) Special topics offered periodically for foundation-level General Education credit in Curriculum Area 3.

GNE-140 General Education Area 4 Topic (3) Special topics offered periodically for foundation-level General Education credit in Curriculum Area 4.

GNE-150 General Education Area 5 Topic (3) Special topics offered periodically for foundation-level General Education credit in Curriculum Area 5.

GNE-210 General Education Area 1 Topic (3) Special topics offered periodically for second-level General Education credit in Curriculum Area 1. *Prerequisite:* General Education Curriculum Area 1 foundation course.

GNE-220 General Education Area 2 Topic (3) Special topics offered periodically for second-level General Education credit in Curriculum Area 2. *Prerequisite:* General Education Curriculum Area 2 foundation course.

GNE-230 General Education Area 3 Topic (3) Special topics offered periodically for second-level General Education credit in Curriculum Area 3. *Prerequisite:* General Education Curriculum Area 3 foundation course.

GNE-240 General Education Area 4 Topic (3) Special topics offered periodically for second-level General Education credit in Curriculum Area 4. *Prerequisite:* General Education Curriculum Area 4 foundation course.

GNE-250 General Education Area 5 Topic (3) Special topics offered periodically for second-level General Education credit in Curriculum Area 5. *Prerequisite:* General Education Curriculum Area 5 foundation course.

Government

Undergraduate Courses

GOVT-102 Selected Topics in Leadership (1–2) Topics vary by section, may be repeated for credit with different topic. Analyses of topics in leadership in a global era, with special attention to law and justice, politics and political reform, and civil and human rights. *Prerequisite:* permission of department. HFIT-181 Intermediate Tennis (1) Designed for the student who can execute the basic strokes and has some playing experience. Instruction includes basic stroke refinement, adding spin to the strokes, and strategy in singles and doubles play. Usually offered every fall. *Prerequisite:* HFIT-180 or permission of instructor.

HFIT-193 Aquatic Fitness/Water Aerobics (2) Develops cardiovascular fitness through aquatic activities as an alternative to weight bearing forms of exercise. Emphasis on current theories of exercise physiology in personal conditioning programs. Includes body mechanics, hydrodynamics, program design and water safety. Usually offered every term.

HFIT-195 Principles and Techniques of Weight Training (2) An overview of muscle anatomy, exercise physiology, and biomechanics as they apply to the development of muscle strength. Systems and principles of weight training. Practical experience in strength development through a progressive resistance program. Usually offered every term.

HFIT-197 Group Aerobic Fitness (2) Using aerobic activity to develop and maintain body awareness in five major areas: cardiovascular and muscular endurance, flexibility, muscular strength, and promotion of ideal body composition through activity with music. The goal is the reduction of emotional tension, greater productivity, improved performance, formation of fat-burning enzyme, and a healthier cardiovascular system. Usually offered every term.

HFIT-200 Lifetime Health and Fitness (3) The physiological, sociological, and psychological aspects of fitness and health are introduced. Emphasis is placed on developing self-responsibility for total wellness. Students will participate in fitness activities and classroom instruction and discussions. Usually offered every term.

HFIT-205 Current Concepts in Nutrition 5:2 (3) Provides an understanding of basic nutritional concepts and current available information. Enables students to make informed decisions about their nutritional requirements and diet choices. Includes fiber versus fat; vegetarianism; effects of food on mood; current USDA and FDA policy issues; eating disorders; and national hunger issues. Usually offered every term. *Prerequisite for General Education*

credit: CHEM-100 or CHEM-110 or PHYS-100 or PHYS-105 or PHYS-110.

HFIT-210 SCUBA (2) A balanced curriculum in skin and SCUBA diving, providing practical skill development in the pool and a thorough grounding in the physics, physiology, technology, and history of sport diving. Usually offered every term. *Note:* must be taken with HFIT-211 for certification. Students are responsible for cost of personal equipment.

HFIT-211 SCUBA Certification Laboratory (1) Includes five open-water dives in salt and fresh water, additional equipment training, and an introduction to boat as well as shore staging for sport diving. Basic rescue techniques are introduced. The laboratory, in conjunction with the standard course, is sufficient to qualify the student as a certified basic diver under the standards of a nationally recognized certifying organization. Usually offered every term. *Prerequisite:* must be taken concurrently with HFIT-210.

HFIT-225 Camping and Backpacking (3) Methods, techniques, and skills related to camping, backpacking, and hiking. Includes selection of equipment and camp site, orienteering, cooking, and implications for ecology and conservation. Overnight field experience required during course.

HFIT-230 Cross Training (2) Improvement of cardiovascular and muscular fitness through various aerobic activities. Students develop personal conditioning programs. Classroom discussions include diet theory, circuit training, flexibility, and specificity of exercise. Pre/post fitness assessment tests are administered. Usually offered every term.

HFIT-240 Introduction to Health Promotion (3) An introduction to the professional and academic field of health promotion and disease prevention. Epidemiological investigations of disease patterns and trends in the United States and health promotion efforts in various settings are explored. Emphasis is placed on the roles of lifestyles in determining health outcomes and effective strategies to help change health behavior. Usually offered every fall.

HFIT-245 Gender, Culture and Health 4:2 (3) Provides basic understanding of gender and cultural issues affecting health. Emphasis is placed on male/female and ethnic disparities in health status and how these gender and cultural indicators affect behavioral risk factors. The relationship between health and other factors such as religion, social class/socioeconomic status, acculturation, migration, and globalization are also studied. Meets with HIST-382. Usually offered every summer.

HIST-684 Hiroshima, Nagasaki, and Beyond (3) Summer study trip to Japan in conjunction with the Nuclear Studies Institute. Focuses on Japanese wartime aggression, the human devastation wrought by the atomic bombings, current Japanese and international efforts to eliminate nuclear weapons, and the building of closer ties between the people of the United States and Japan. Participants hear first-hand accounts of atomic bomb survivors and Asian victims of Japanese atrocities, visit sites of historical and cultural significance, and attend commemorative events. Meets with HIST-384. Usually offered every summer.

HIST-690 Independent Study Project in History (1-6) *Prerequisite:* permission of instructor and department chair.

HIST-691 Internship (1-6) *Prerequisite:* permission of instructor and department chair.

HIST-692 Cooperative Education Field Experience (3-6) *Prerequisite:* permission of department chair and Cooperative Education office.

HIST-720 Colloquium in Modern European History 1789-1900 (3) Covers major issues in European history from 1789 to 1900. Integrates political, social, cultural, intellectual, diplomatic, and military subjects and their historiography. The colloquium assumes basic knowledge of events. Usually offered alternate falls.

HIST-721 Colloquium in Modern European History since 1900 (3) Covers major issues in European history since 1900. Integrates political, social, cultural, intellectual, diplomatic, and military subjects and their historiography. The colloquium assumes basic knowledge of events. Usually offered alternate falls.

HIST-727 Colloquium in United States History I: to 1865 (3) The course assumes the student's familiarity with factual data and concentrates on analyzing important historiographic disputes and developments in U.S. history to the end of the Civil War. Usually offered every fall.

HIST-728 Colloquium in United States History II: since 1865 (3) The course assumes the student's familiarity with factual data and concentrates on analyzing important historiographic disputes and developments in U.S. history from 1865 to the present. Usually offered every spring.

HIST-729 Public History Seminar (3) With HIST-730, this course is part of a two course sequence introducing students to ideas, debates, and best practices in the field of public history. The course introduces students to the historical origins of public history,

the historiography and major paradigms in the field, and to debates about the public role of historians. Usually offered every fall.

HIST-730 Public History Practicum (3) With HIST-729, this course is part of a two course sequence introducing students to ideas, debates, and best practices in the field of public history. The course introduces students to the best practices in both the interpretation of history in public venues and the management of heritage sites. Includes governance, ethics, interpretation, evaluation, exhibition development, and education. Usually offered every fall.

HIST-744 The Historian's Craft (3) Focuses on historical theory, historical methodology, and differences in the various branches of history. Brings together graduate students with various specialties and interests and creates a common base of knowledge and experience. Usually offered every fall. May be taken pass/fail only.

HIST-751 Research Seminar in European History (3) Repeatable for credit. Identification and development of research subjects; sources and their evaluation; research techniques and problems; and writing and argumentation. Students research and write substantial papers based largely on primary sources. Usually offered every spring.

HIST-752 Research Seminar in United States History (3) Repeatable for credit. Identification and development of research subjects; sources and their evaluation; research techniques and problems; and writing and argumentation. Students research and write substantial papers based largely on primary sources. Usually offered every spring.

HIST-797 Master's Thesis Seminar (1-6) Usually offered every term.

HIST-799 Doctoral Dissertation Seminar (1-12) Usually offered every term. May be taken pass/fail only.

University Honors Program

Undergraduate Courses

HNRS-300 Honors Colloquium in Arts and Humanities (3) Topics vary by section, may be repeated for credit with different topic. Usually offered every term. *Prerequisite:* permission of University Honors program director.

HNRS-301 Honors Colloquium in Natural and Mathematical Sciences (3) Topics vary by section, may be repeated for credit with different topic. Usually offered every term. *Prerequisite:* permission of University Honors program director.

HNRS-302 Honors Colloquium in Social Sciences (3) Topics vary by section, may be repeated for credit with different topic. Usually offered every term. *Prerequisite:* permission of University Honors program director.

HNRS-390 Honors Independent Reading Course (1-6) *Prerequisite:* permission of instructor and University Honors program director.

HNRS-490 Honors Independent Study Project (1-6) *Prerequisite:* permission of instructor and University Honors program director.

Interdisciplinary: Multi-Ethnic Studies

Undergraduate Courses

IDIS-210 Contemporary Multi-Ethnic Voices 4:2 (3) This course examines how ethnicity affects the organization of society, the relationship between and among the individual, communities, and society, and how artists negotiate their own understanding of ethnicity in contemporary American society. Literature, films,

theatre, walking tours, and a community service project introduce students to the critical concepts, patterns, and issues that reflect multi-ethnic perspectives. The course also explores the relationship between ethnicity, values, and ethics in American society and fosters critical thinking based on reasoned evidence. *Prerequisite for General Education credit:* ANTH-150 or PSYC-105 or SOCY-100 or WGSS-125.

Business: International Business

Undergraduate Courses

IBUS-200 The Global Marketplace 3:2 (3) A survey course focusing on key issues in the global business environment, as well as global corporate strategy and operations. These issues include the global role of the corporation, globalization, internationalization, international trade, foreign direct investment, multilateral institutions, the international monetary system, and political, economic, and cultural differences. *Prerequisite for General Education credit:* ECON-110 or GOVT-130 or HIST-120 or SIS-105 or SIS-110. *Note:* This course is designed for non-business majors only and may not be taken by students who have a declared or intended major in KSB.

IBUS-244 International Management Practices (2-3) Topics vary by section, may be repeated for credit with different topic. Students learn experientially how the political, economic, and cultural environments of the region/country influence business strategy and management practices of multinational and domestic firms. The class travels to China (summer) Latin America (fall), or the European Union (spring). *Prerequisite:* permission of instructor or Kogod Office of Academic Programs.

IBUS-300 Fundamentals of International Business (3) A survey course focusing on the nature and scope of global trade and investment, the role of multilateral institutions including the World Bank, International Monetary Fund (IMF), and World Trade Organization (WTO), the international monetary system and exchange markets, and differences in national cultures in providing in the environment in which trade and investment take place. The course additionally focuses on the impacts that this environment has on the operating decisions of multinational enterprises, especially with respect to the development of global strategies and their effect on business functions such as management, marketing, finance, and operations. *Prerequisite:* completion of College Writing and Writing Proficiency Requirement, and junior business major or MKTG-250.

IBUS-301 International Marketing (3) The concepts and practices of marketing across national borders and the adaptations to the marketing program required because of the different needs, environmental constraints, and forms of competition in foreign markets. *Prerequisite:* IBUS-300 and either MKTG-300 or MKTG-250.

IBUS-303 Learning from Global Enterprise Failure (3) This multidisciplinary seminar focuses on analysis of high profile international corporate failures to gain insights into key business issues in the areas of global strategy, management and leadership, finance and accounting, and risk management and oversight as applied in the international arenas. Students apply knowledge developed in prior functional course work to the analysis of these global enterprise failures. Analysis of failure provides a unique and practical learning approach. *Prerequisite:* IBUS-300.

IBUS-320 Practice of Business in the European Union (3) Offered as part of the AU Abroad program in Brussels, this course looks at how the European Union shapes the international business environment. It explores the EU's economic, legal, and political structures that govern business practice in Europe. It also studies how businesses try to shape that environment by influencing EU policy making.

IBUS-390 Independent Reading Course in International Business (1-3) *Prerequisite:* permission of instructor and department chair.

IBUS-391 Internship in International Business (1-6) Provides students with the opportunity to blend practical business work experience with academic study. The academic workload varies depending on the internship credit to be earned. *Prerequisite:* IBUS-300, upper-division standing, 9 additional credit hours in business courses, and permission of instructor and department chair.

IBUS-392 Cooperative Education Field Experience (3-6) *Prerequisite:* IBUS-300, upper-division standing, 9 additional credit hours in business courses, and permission of instructor and department chair and Cooperative Education office.

IBUS-401 Cultural Environment of International Business (3) The cultural factors affecting international business operations and their influence on the principal business functions of finance, marketing, procurement, production, public and external relations, and research and development. *Prerequisite:* IBUS-300 and upper-division standing.

IBUS-402 International Human Resource Management (3) Focuses on the components of international human resource management and how they are used by multinational corporations. Students examine international compensation systems, international recruiting policies, international training and development programs, international labor relations issues, performance appraisal in the international environment, cross-cultural considerations, and safety and termination considerations. *Prerequisite:* IBUS-300 and upper-division standing.

IBUS-404 International Accounting and Financial Consulting (3) This course explores the issues and tasks involved in international accounting and financial consulting. Focuses primarily on the content of international consulting practice and developing the skills necessary to compete in this environment. *Prerequisite:* IBUS-300, ACCT-241, and upper-division standing.

IBUS-408 Export-Import Management (3) The management of the marketing processes of export/import operations, particularly for small and medium size firms. Includes the decisions involved with export/import activities, market selection strategies, distributor and supplier selection considerations, financing operations, supporting documentation, and the general management of export/import marketing variables. *Prerequisite:* upper-division standing.

IBUS-420, IBUS-421 International Business and Trade Seminar I (4), II (4) Provides an in-depth introduction to the nature and workings of international business and trade through lectures and seminars with decision makers in Washington, D.C. Also focuses on the functional operations of international business including marketing, HRM, finance, accounting, and international law. *Prerequisite:* admission to the Washington Semester Program.

IBUS-422 International Business and Trade Seminar Research Project (4) For students in the program who wish to con-

duct substantive research. Students are encouraged to utilize the resources of the city through interviews, surveys, and examination of primary and secondary sources from government and private sector organizations. Usually offered every term. *Prerequisite:* admission to the Washington Semester Program.

IBUS-423 International Business and Trade Internship (4) An opportunity to intern with one of many national and multinational agencies and organizations while participating in this program. The work component is supplemented by class discussions and assignments. Usually offered every term. *Prerequisite:* admission to the Washington Semester Program.

IBUS-463 International Finance (3) The structure and nature of the international monetary system and the operation of exchange markets, foreign exchange exposure, and foreign capital markets. The cost of capital in an international context is also studied, as well as some of the major issues in international accounting, taxation, and banking. Meets with FIN-463. *Prerequisite:* FIN-365.

IBUS-490 Independent Study Project in International Business (1-3) *Prerequisite:* IBUS-300, upper-division standing, and permission of instructor and department chair.

Graduate and Advanced Undergraduate Courses

IBUS-550 Microfinance in Global Business Development (3) This course provides students with an introduction and overview of the microfinance field. It covers the history and evolution of microfinance, the characteristics of microenterprises, application of financial sector development concepts to microfinance; tools for measuring poverty and impact of microfinance services; financial and technical assessment tools for measuring financial and managerial performance of microfinance institutions, the sources of equity and debt financing for microfinance; and new players in microfinance. *Prerequisite:* IBUS-300 and FIN-365, or IBUS-618 and FIN-614, or permission of the instructor.

Graduate Courses

IBUS-610 International Business Analysis (1.5) This course focuses on country, regional, and global business analysis to provide additional expertise in international business necessary to understand strategy in the international context. *Prerequisite:* enrollment in MBA program or permission of instructor.

IBUS-618 Manager in the International Economy (3) The practices and principles involved in conducting the functional aspects of business in an international context; includes the study of the nature, scope, and trends of international business as well as the international monetary system, international agreements, and considerations resulting from the environmental differences between nations.

IBUS-685 Topics in International Business (1.5-9) Topics vary by section, may be repeated for credit with different topic. Rotating topics related to current and emerging issues in international business.

IBUS-690 Independent Study Project (1-6) *Prerequisite:* permission of instructor and department chair.

IBUS-691 Internship (1.5) *Prerequisite:* permission of instructor and department chair. May be taken pass/fail only.

IBUS-692 Cooperative Education Field Experience (3-6) *Prerequisite:* permission of department chair and Cooperative Education office.

IBUS-700 International Finance (3) Financial operation of the multinational firm, including the sources of funds, foreign invest-

ment decisions, and international transactions and taxation. Also included is a study of the related aspects of the international monetary system, foreign exchange markets, and international banking. *Prerequisite:* FIN-614; and IBUS-610 or IBUS-618.

IBUS-701 International Banking (1.5) Familiarizes students with the environment and modus operandi of multinational banks, with the focus on policy- and concept-oriented issues in international banking. Includes the structure of international banking, basic functions of international banks, offshore banking, foreign exchange management, risk management, off-balance sheet activities, the regulatory environment, country and political risk assessment, and international bank supervision, all addressed from both a theoretical and practical viewpoint. *Prerequisite:* FIN-614; and IBUS-610 or IBUS-618.

IBUS-705 Export/Import Management (1.5) The study of the practices and procedures of the export and import processes. The emphasis is on international logistics, the role of the international trade intermediaries, and the development of the export marketing program, particularly for small companies. *Prerequisite:* Prerequisite: MKTG-610, MKGT-612, or MKTG-632; and FIN-614.

IBUS-734 International Dimensions in Management: Research (1) Through applied research, students extend their understanding developed in prior study abroad experience in IBUS-744. Students develop an extensive research paper based on analysis of an industry or a specific company's operations in an emerging market country. *Prerequisite:* IBUS 744.

IBUS-740 Project Finance in Developing and Transitional Economies (1.5) This course covers the entire cycle of issues and activities in the field of project finance, especially as practiced in developing and transitional economies. Use of case studies and real project models to examine techniques and strategies currently used in multinational institutions, such as the International Finance Corporation, to conduct stand-alone private sector projects.

IBUS-744 International Dimensions in Management: Study Abroad Project (2-3) Students develop a deeper understanding of the international dimension of management through a combination of class preparation and study abroad. Students play an active role in the design of the course, which varies according to the specific industry/country. The travel component includes company visits and structured meetings with business executives and experts, and provides an important experiential element to the study of international business environments. *Prerequisite:* permission of instructor or Kogod international program manager.

IBUS-745 Global Supply Chain Management (3) This course introduces a set of approaches designed to efficiently integrate suppliers, manufacturers, warehouses, and stores so that merchandise is produced and distributed at the right quantities, to the right locations, and at the right time in order to minimize systemize costs while satisfying service level requirements. The course utilizes case studies and computer simulations to illustrate and reinforce effective supply chain management approaches in both global and domestic organizations.

IBUS-747 Doing Business in Different National and Cultural Environments (1.5) This course develops an understanding of the business environment facing multinational firms in different country contexts, particularly in emerging and transition economies. Emphasis is placed on identifying factors that influence national competitiveness, understanding why some countries are more competitive than others, and how institutions affect the business en-

vironment. The course also includes an introduction to corporate governance structures and how they differ across countries.

IBUS-748 Management in Emerging Markets (1.5) This course develops an understanding of the unique strategic and managerial challenges facing multinational firms, particularly in emerging and transition economies, and the managerial challenges associated with running multinational organizations. The course focuses on the firm- and industry-level of analysis and the managerial and strategic issues associated with doing business in different country contexts.

Business: Information Technology

Undergraduate Courses

ITEC-200 The Edge of Information Technology (3) Students gain competency in a broad range of technologies used in the twenty-first century workplace through the use of hands-on learning. Includes an introduction to information systems applications used in planning, tracking, marketing, and management control, including spreadsheets, databases, and web-based tools. The course also provides the conceptual foundations in understanding technologies: computer platforms of hardware and software; networking; and security.

ITEC-333 Topics in Information Technology (3) Topics vary by section, may be repeated for credit with different topic. Rotating topics include emerging technologies and new management approaches.

ITEC-334 Online Application Development (3) This course takes the student step by step through the process of developing and deploying a business application online, while learning the fundamentals of web programming. The course includes external web hosting services, domain name setup, web page design, web programming with simple scripting languages, database manipulation through the web, and application security issues. *Prerequisite:* ITEC-200 or permission of the instructor.

ITEC-335 Social Networking, Social Media, and Web 2.0 (3) Social software such as Facebook and Twitter are rapidly becoming a mainstream part of how organizations interact with employees, customers/constituents/members, and the public. This course explores how to weave wikis, blogs, microblogs, social networks, virtual worlds, online collaboration, gadgets, widgets, and web2.0 into the fabric of marketing, management, service, and support. Hands-on activities explore mobile, virtual, and other aspects of social media and social networking.

ITEC-350 Digital Leadership and Strategy (3) Information and digital technologies have profound impacts on virtually all organizations. In this course students learn what it takes to be an effective leader in the digital economy and how organizations strategically use information and digital technologies to improve their performance. Students learn theories, principles, and applications for information resource management; e-business models; enterprise systems; digital leadership; and IT governance.

ITEC-355 Production/Operations Management (3) Fundamental concepts of production/operations management. Basic elements of quality control, reliability analysis, total quality management, decision theory, inventory control, linear programming, simulation, queuing, and project management. *Prerequisite:* ACCT-241, ECON-200, MATH- 211 or MATH-221 (may be taken concurrently), and STAT-202.

ITEC-377 Microsoft Certification (1) Topics vary by section, may be repeated for credit with different topic. This hands-on workshop builds on the activities in ITEC-200 to help students acquire the additional skills and knowledge needed to successfully complete the Microsoft Certified Application Specialist (MCAS) exam. The MCAS program is the only performance-based certification program approved by Microsoft to assess and validate skills using Microsoft products. All students take the certification exam on the second day of the workshop. *Prerequisite:* ITEC-200. May be taken Pass/Fail only.

ITEC-388 Information Technology for Financial Services (3) Financial services firms are the leaders and largest investors in the use of information technology (IT). Considered early IT adopters; retail; investment; and mortgage banks; insurance companies; brokerage, and even entire stock exchanges use IT to improve efficiency and effectiveness. Learning in this course focuses on IT-centric activities including interactive stock market simulations and IT-based research tools. Students evaluate the viability and feasibility of IT investment opportunities. *Prerequisite:* FIN-365.

ITEC-390 Independent Reading Course in Information Technology (1-3) *Prerequisite:* permission of instructor and department chair.

ITEC-390 Independent Reading Course (1-6) *Prerequisite:* permission of instructor and department chair.

ITEC-392 Cooperative Education Field Experience (3-9) *Prerequisite:* permission of department chair and Cooperative Education office.

ITEC-454 Fundamentals of Electronic Commerce (3) Electronic commerce, the buying and selling of information, products, and services through purely electronic means, promises to revolutionize the conduct of business. A survey of consumer-to-business and business-to-business electronic commerce models, systems, and technical solutions. Includes hands-on projects and assignments. *Prerequisite:* ITEC-352 and upper-division standing.

ITEC-455 Business Process and Requirements Analysis (3) The first step in every system implementation project is to gather business process and functional requirements from the system's stakeholders. In this course students learn state-of-the-art approaches to performing this activity. They develop a system concept statement that captures the essence and value of the system; analyze business process and functional needs; analyze user requirements; model those requirements; and prepare formal requirements specifications. Methods include business process modeling; use case modeling; data modeling; object oriented techniques; and project analysis. *Prerequisite:* ITEC-200 or permission of instructor.

ITEC-470 Databases, Data Mining, and Knowledge Management (3) This course introduces the important concept of data modeling in developing the skills needed to transform raw data into information and still further into knowledge, and then to identify and solve a variety of problems. Includes data warehousing, data mining, data visualization, search, and knowledge management. *Prerequisite:* ITEC-200 or permission of instructor.

ITEC-485 Senior Workshop in Computer Information Systems (3) This is a capstone course in information system development. Students demonstrate their mastery of the tools and techniques of information system development by participating in the development of a real world information system.

ITEC-490 Independent Study Project in Information Technology (1-3) *Prerequisite:* permission of instructor and department chair.

ITEC-491 Internship (1-6) *Prerequisite:* permission of instructor and department chair.

Graduate Courses

ITEC-601 IT Tools for Managers (1.5) Students are introduced to a variety of information technology (IT) tools that represent the essential foundation for personal productivity; analysis; decision making; and management in any organization. These include spreadsheets; data bases; web creation tools; diagramming tools; and others. The focus is on lab work and hands-on assignments where students learn to solve business problems and manage data using popular software applications.

ITEC-610 Applied Managerial Statistics (3) The decision-aiding tools that can be applied by managers to gain insight into decision problems range from simple graphic displays of data to sophisticated statistical tests. Students use real-world data sets and PC-based software to describe sets of measurements, construct probability distributions, estimate numerical descriptive measures, and build multiple regression models. *Note:* a college-level finite mathematics course is highly recommended.

ITEC-611 Applied Management Science (3) Designing and operating complex real-world systems using management science applications in production, distribution, transportation, and inventory management. How to mathematically model decision problems, solve the models using state-of-the-art software, analyze output, and implement results. *Prerequisite:* ITEC-610.

ITEC-616 Management Information Systems (3) The theoretical, technological, practical, and managerial foundations of management information systems. Includes information technologies, systems development, the impact of information systems on business organizations, information technology as a competitive tool, and the management of information systems within domestic and multinational corporations.

ITEC-617 Information and Technology (1.5) Successful managers understand the value of information technology (IT) and know how to apply IT to critical aspects of their jobs. This course provides business students with an understanding of the strategic, tactical, and operational roles of IT in business. Through case studies and assignments, students learn how to manage and apply IT to achieve business objectives. *Prerequisite:* enrollment in MBA program or permission of instructor.

ITEC-618 Applied Production and Operations Management (1.5) This course provides an introduction to production and operations management (POM), the process of managing people and resources in order to produce goods or provide services. Decisions related to forecasting, aggregate planning, facility location, project scheduling, inventory control, and supply chain management are discussed. Considerable emphasis is placed on the development of models to represent POM decision problems and the use of analytical tools and software to support the POM function. *Prerequisite:* ITEC-610 and enrollment in MBA program, or permission of instructor.

ITEC-630 Business Analysis (3) In this course students learn how to conduct business analysis to document business processes and describe the functional requirements for the corresponding business application and then analyze the information requirements to support the application. The course has a strong hands-on compo-

ment which prepares students for information technology (IT) consulting and business analysis practices. Students work in teams on a consulting project with an organization to develop formal requirement specifications for the client's business application.

ITEC-631 Operations and Information Management (3) Introduction to operations and services management and decision-aiding tools, as well as information and knowledge systems that support managers in their decision-making role. Includes statistical analysis, forecasting, capacity planning, project management, database analysis, decision support tools, information systems, information technologies, the Internet, and systems solutions.

ITEC-636 Management Information Systems for Public and Nonprofit Organizations (3) This course covers the theoretical, technological, practical, and managerial foundations of management information systems. Includes the role of information technologies in organizations, strategies for systems development, the impact of information systems (IS) on public organizations, information technology (IT) as a strategic tool, and the management of information systems within domestic and global enterprises. The course introduces students to current systems and software, as well as ethical and social issues, managing data, information, and knowledge, the influence of the Internet on government and social systems, electronic collaboration, global telecommunications, decision making and IT, and managing international IS. *Note:* for nonbusiness graduate students only.

ITEC-640 Global Connectivity (1.5) Introduces business students to current and emerging technologies in telecommunications, internet, and wireless. Includes case studies of business solutions for global firms. *Prerequisite:* ITEC-616 or ITEC-617 (may be taken concurrently) or permission of instructor.

ITEC-641 Global Collaborative Technology and Virtual Teams (1.5) Information technology has enabled astonishing communication, but working over distance can also create problems. Operating in virtual teams is a required competency for today's manager. This course covers the conceptual, practical, and technological components of building and managing these virtual teams. Theoretical and behavioral research informs learning and students gain hands-on experience with state-of-the-art collaborative technologies.

ITEC-643 Project Management and Business Process (3) All consulting engagements rely upon a consultant's skill in the areas of project management and enterprise process analysis. Applying project management techniques helps to deliver projects on-time and on-budget, outcomes critical to any consulting initiative. Consultants must also understand a client's enterprise processes within and across organizational boundaries. For the first, student learning is based on the industry-wide Project Management Body of Knowledge (PMBOK). For the second, students learn methodology to capture, analyze, and improve these business processes and support business transformation in the digital age.

ITEC-652 Strategic Management of Global Information Systems (1.5) The strategic role of global information systems and the management issues associated with planning, designing and leading global information systems organization. Managerial responsibilities and strategies are presented through readings, cases, structured discussions and research projects. *Prerequisite:* ITEC-616 or ITEC-617 (may be taken concurrently) or permission of instructor.

ITEC-653 Managing the Global Information Systems Organization (1.5) The organization, management and control of information systems operation, development, implementation, and personnel on a global scale. Managerial responsibilities and tactics are presented through readings and case studies. *Prerequisite:* ITEC-616 or permission of instructor.

ITEC-654 Nations, Policy, and Information Technology (1.5) This course covers the national, regional, and international issues of information technology (IT), including national policies to enable information technology, technology clusters, technology diffusion, and technology workforce. Students conduct a national IT assessment to understand the implications for the globally competing firm.

ITEC-655 Outsourcing and Offshoring (1.5) A practical survey of the operational, strategic, economic, political, and social issues of offshore outsourcing. The course examines all stakeholders including the clients and the providers as well as both client and supplier nations. Students apply two levels of analysis: firm decision making and national policy. At the firm level, students identify what to outsource/offshore and what not to, and understanding the transition and planning issues in outsourcing and offshoring. At the policy level, student develop their own prescriptive approaches for both wealthy nations and low-wage nations.

ITEC-656 Topics in Management of Global Information Technology (1.5) Topics vary by section, may be repeated for credit with different topic. Rotating topics include emerging technologies and new managed approaches. *Prerequisite:* ITEC-616 or ITEC-617 (may be taken concurrently) or permission of instructor.

ITEC-658 International Electronic Commerce (1.5) Electronic commerce is the conduct of intra-organizational transactions and messages through purely electronic means. This course presents a survey of consumer and business-to-business electronic commerce models, strategies, and technical solutions.

ITEC-666 Information Security and Technology (1.5) Organizations need to insure the integrity, confidentiality, and availability of their information infrastructures. This course covers practices and guidelines to achieve these goals, including understanding the sources of information security threats, identifying evidence of breaches; identification of vulnerabilities, security controls for information systems; information security auditing; enterprise-wide risks; disaster recovery measures; and management frameworks for more effective information security programs. *Prerequisite:* admission to MBA program and ITEC-616 or ITEC-617 (may be taken concurrently) or permission of instructor.

ITEC-677 Microsoft Certification (1) Topics vary by section, may be repeated for credit with different topic. This hands-on workshop builds on the activities in ITEC-601 to help students acquire the additional skills and knowledge needed to successfully complete the Microsoft Certified Application Specialist (MCAS) exam. The MCAS program is the only performance-based certification program approved by Microsoft to assess and validate skills using Microsoft products. All students take the certification exam on the second day of the workshop. *Prerequisite:* ITEC-601. May be taken pass/fail only.

ITEC-690 Independent Study Project (1–6) *Prerequisite:* permission of instructor and department chair.

ITEC-691 Internship (1–6) *Prerequisite:* permission of instructor and department chair.

ITEC-692 Cooperative Education Field Experience (3-6) *Prerequisite:* permission of department chair and Cooperative Education office.

ITEC-700 The Information Systems Organization and Information Technology Staffing (3) This course covers information technology (IT) structures, principles, and leadership, with an emphasis on individual, team, and cultural behaviors and the management of change in IT domains. Emphasis is on business practices within IT environments, with the major focus of the course on change management and managing people and IT staffing as a critical element of IT management. *Prerequisite:* admission to MS in Information Technology Management.

ITEC-701 Architectures and Infrastructures for Delivering Information Technology Services (1.5) An overview of the components, terminologies, and properties of globally-distributed information technology (IT) delivery systems including: computer hardware, systems and applications software, networks and telecommunications, alternative systems architectures, concepts of IT systems distribution and performance, security, and evolving technologies. Focuses on the bodies of knowledge that affect the configuration of systems and their performance and costs in a global economy. *Prerequisite:* admission to MS in Information Technology Management or ITEC-616 or ITEC-617.

ITEC-702 Quantitative Methods for Information Technology Management (1.5) Covers quantitative methods used by information technology (IT) managers to model and solve business decision problems and analyze competitive business strategies. Applications in forecasting, mathematical programming, decision modeling, game theory, project management, and simulation are presented. Commercial PC-based software packages are used to generate results. *Prerequisite:* admission to MS in Information Technology Management.

ITEC-703 Distributed Data Management (3) The concepts, principles, issues, and techniques for managing corporate data resources. Techniques for managing the design and development of large database systems including logical data models, concurrent processing, data distribution, database administration, data warehousing, data quality, security, and data mining. *Prerequisite:* admission to MS in Information Technology Management.

ITEC-704 Finance and Accounting for Information Technology Management (3) Study of principles, concepts, and elements associated with financial statements and investments. Includes financial statement analysis, income measurement, valuation of assets and equities, and generally-accepted accounting principles, budgeting, information technology (IT) project financing, total cost of ownership, return on investment, and evaluation techniques for feasibility are emphasized. *Prerequisite:* admission to MS in Information Technology Management.

ITEC-705 Systems Analysis and Design (3) This course examines and applies modern object-oriented techniques for modeling organizational data and processes using Unified Modeling Language (UML) and Computer Assisted Software Engineering (CASE), and the transformation of analysis models into solutions for delivery of functionality including: systems development life cycles, analysis and modeling of business processes, requirements gathering, use-case, structural, and behavioral models, design strategies, test suite design and testing tools, system architecture issues, user interfaces, and implementation. Emphasis is on the use of tools

to develop intranet or internet applications. *Prerequisite:* admission to MS in Information Technology Management.

ITEC-707 Information Technology Operations Management (1.5) Examines the critical issues, strategies, and tactics for managing information technology (IT) operations. Specifically, identifies the key issues in IT operations, and discusses managing IT for competitive business advantage, creating business models, IT operations planning, outsourcing IT functions, building networked businesses and managing networked infrastructure, and reliability and security issues in providing IT services. *Prerequisite:* admission to MS in Information Technology Management or ITEC-616 or ITEC-617.

ITEC-708 Information Technology Systems Engineering and Project Management (3) Current methods for developing information technology (IT) systems and software with an emphasis on teamwork. JLS-550 Drugs, Crime, and Public Policy (3) Review of the history of drug abuse in America; the relationship between drug abuse and crime, including marijuana, heroin, and alcohol; national strategies to deal with drug abuse; improvement of policies in the future. Usually offered every fall.

JLS-551 Comparative Justice Studies Abroad (3-6) Topics vary by section, may be repeated for credit with different topic. Usually offered every summer.

JLS-590 Independent Reading Course in Justice (1-6) *Prerequisite:* permission of instructor and department chair.

Graduate Courses

JLS-601 Law and Social Sciences (3) Historical and contemporary literature in law and the social sciences. Critical assessment of major research endeavors conducted by lawyers and social scientists, including plea bargaining, conflict resolution, the jury system, the legal profession, law and the mass media, and the function of law and public opinion in different societies.

JLS-602 Legal Theory (3) Introduction to the philosophical analysis of law and its role in society. The course considers questions such as what is law, how is it different from brute force, is there a moral obligation to obey the law, and what are the limits of legal responsibility. Classical, contemporary, and critical approaches, ranging from natural law theory to critical and feminist theory. Usually offered every fall.

JLS-603 The Rule of Law and Due Process (3) A commitment to rule of law and due process of law is a defining feature of Western legal tradition, but what do these phrases mean? This course examines common interpretations and applications of these concepts in diverse systems of law. The central features and historical development of legal procedures in the criminal justice, civil justice, and administrative systems are compared. Legal procedure is an essential component of systems of jurisprudence and provides the methods and means for applying substantive law. It also reveals, *inter alia*, a legal system's values, priorities, and applications. Usually offered every fall.

JLS-604 Foundations of Knowledge (3) This methodology course helps students identify what actually counts as knowing something in their study of social phenomena. Social scientists, lawyers, and philosophers must grapple with the question of what counts as a fact that actually describes what they believe they are observing. Making this decision inevitably affects one's understanding of what is being observed. This course examines the foundations of empirical, analytical, critical, and other modes of thought in order to enable them to evaluate the various methods used to study social institutions. Usually offered every spring.

JLS-606 Legal History Seminar (3) The two goals of this course are to provide students with the historical underpinnings of law in the Western world, and to introduce students to the different historic approaches that historians use to understand what counts as historic fact. Usually offered alternate springs.

JLS-607 Concept of Justice (3) Major philosophical contributions to the definition of justice. The relationship of the ideal of justice to concrete situations in which issues of justice (civil, criminal, or political) arise.

JLS-608 The Constitution and Criminal Procedure (3) Constitutional standards and operation of the criminal justice system. Police practices, bail, decision to prosecute, scope of prosecution, grand jury proceedings, preliminary hearings, right to counsel, right to speedy trial, plea bargaining, discovery and disclosure, jury trial, trial by newspaper, double jeopardy, and post-trial proceedings. Offered irregularly.

JLS-609 Criminological Theory (3) Examines criminological theory including early religious and spiritual notions of crime, and classical, rational choice, and deterrence theories. The develop-

ment of positivism from both a biosocial and psychological perspective, the range of sociological theories and the empirical research related to these theories. Usually offered every fall.

JLS-610 Justice and Public Policy: Controversial Issues (3) The American justice systems and the theories underlying them. Focus is on the criminal justice process and issues related to each step and institution in it. Includes varieties of law and justice, issues dealing with the police, courts, and corrections. Usually offered every fall.

JLS-615 Law and Human Rights (3) Legal, moral, and historical examination of international human rights. Friction among the values of national sovereignty, individual rights, self-determination, and the toleration of minorities is considered, as well as legal and extra-legal methods for humanitarian intervention, from World Court indictments to military invasion. Usually offered every third semester.

JLS-621 Justice in the Face of Terror (3) Throughout history, society has grappled with the critical issues of constructing and maintaining a just society in the face of terror. This course studies issues of justice and responses to terror from the perspectives of history, ethics, literature, politics, and law, and works to evaluate the justice of societal responses. Usually offered every summer. Meets with JLS-421.

JLS-630 Advanced Seminar in Legal Theory (3) Topics vary by section, may be repeated for credit with different topic. Rotating topics in law and social theory, including freedom of speech and religion; liberty and private property; feminist legal theory; critical legal studies; and law and economics; among others, are examined.

JLS-631 Advanced Seminar in Social and Political Theory (3) Topics vary by section, may be repeated for credit with different topic. Rotating topics in concepts of sovereignty; power, equality, and welfare; legitimacy, obligation and democratic theory; among others, are examined.

JLS-638 Race and Justice in America (3) An examination of race and justice in America, with a focus on the historical and contemporary experiences of African Americans. Includes slavery, plantation prisons, legal and illegal executions, medical experimentation, segregation, poverty, ghettos, and contemporary prisons. Usually offered every fall.

JLS-643 Advanced Seminar in Policing (3) Topics vary by section, may be repeated for credit with different topic. An examination of major U.S. police and law enforcement systems and issues. The focus of the course may be either the role of police in society, police-community relations, and special problems in policing, or management and policy issues such as police organization, federalism, police effectiveness, police discretion and use of force, and police accountability.

JLS-648 Law and Religion (3) Examines the intersection of religion with American law, politics, and society. The course focuses on the role of religion in the constitutions, statutes, and policies of federal and state governments, including U.S. Supreme Court decisions defining church-state law. Also examines the experiences and contributions of minority religious sects and politico-religious movements in American life.

JLS-650 Constitutionalism in Historical Perspective (3) This course examines the development of law and its justification as the source of authority in the modern state. Students examine how the law itself and different conceptions of it have been used to control

and legitimize law governed behavior. Usually offered alternate springs.

JLS-672 Terrorism, Crime, and Public Policy (3) This course examines the problem of terrorism and its causes, to provide a basis for preventing it. It includes distinctions among types of terrorism, crime and aggression, their causes, and implications for prevention; Huntington's clash of civilization model; cross-cultural dialog and exchange; the management of fear; the applicability of crime prevention strategies to the problem of terrorism; the role of religion, the reshaping of military and intelligence strategies; use of technology for detection and prevention; and the management of errors in balancing security and rights. Usually every spring.

JLS-676 Theories of Punishment (3) Examination of the philosophical issues associated with criminal punishment, particularly theories of the moral justification for punishment. The course considers retributive, deterrent, incapacitation, and moral reform theories, the role of victim and community anger in the imposition of punishment, as well as alternatives such as restorative justice. Usually offered every spring.

JLS-680 Introduction to Justice Research I (3) The logic of scientific inquiry and the nature and process of social research as applied to justice. Theory, concepts, practices, and the demonstration of their reliability and validity. Attention is also given to methods of sampling design and techniques of data collection. Usually offered every fall.

JLS-681 Introduction to Justice Research II (3) Methods of data analysis applicable to research in the justice field. Building on the concepts presented in JLS-680, the course examines the link between research design and empirical analysis, the role of probability in hypothesis testing, and the concept and techniques of descriptive and inferential statistics. Usually offered every spring. *Prerequisite:* JLS-680.

JLS-686 Advanced Seminar in Corrections (3) Topics vary by section, may be repeated for credit with different topic. Examination of the origin, nature, and operation of various correctional institutions and practices. The focus of the course varies by semester; topics include institutional corrections, community corrections, intermediate sanctions, legal aspects of corrections, the death penalty, and philosophical theories of punishment.

JLS-687 Law, Deviance, and the Mental Health System (3) Examines the interprofessional relationship between law and the mental health systems, including areas of conflict and close working relationships. Areas covered include standards for involuntary hospitalization, the role of the insanity defense, psychiatric liability, and the rights of the mentally ill, including the right to treatment and the right to require treatment.

LIT-332 Shakespeare Studies (3) Topics vary by section, may be repeated for credit with different topic. More than any other playwright in the Western tradition, Shakespeare is extolled for creating memorable dramatic characters and riveting plots, along with brilliant language and arresting stage techniques. Rotating topics include early plays, later plays, and Shakespeare on film. Meets with LIT-632. Usually offered every term.

LIT-334 Topics in Renaissance Literature (3) Topics vary by section, may be repeated for credit with different topic. Some of the greatest art, poetry, and drama in the Western tradition flourished amidst the religious and political tumult of the Renaissance. Rotating topics include Renaissance drama, Renaissance poetry, and a survey of Renaissance literature (British or European). Meets with LIT-634. Usually offered every year.

LIT-337 Topics in Restoration and Enlightenment Literature (3) Topics vary by section, may be repeated for credit with different topic. In seventeenth and eighteenth century Britain new literary forms, such as the novel and the autobiography, responded to the far-reaching changes in philosophy, politics, and religion of the Restoration and Enlightenment. Rotating topics include Milton, Restoration drama, and the rise of the British novel. Meets with LIT-637. Usually offered every other year.

LIT-340 Topics in Nineteenth Century British and European Literature (3) Topics vary by section, may be repeated for credit with different topic. Rotating topics in British and European literature ranging from nineteenth century melodrama in different national traditions to the Victorian novel, Victorian poetry, French

realism, and French Symbolist poetry. Meets with LIT-640. Usually offered every year.

LIT-341 Topics in Romantic Literature (3) Topics vary by section, may be repeated for credit with different topic. In the wake of complete social and political upheaval, eighteenth and nineteenth century Romantic writers questioned longstanding assumptions. Rotating topics include the Romantic imagination, the politics of poetry, and the Shelley circle. Meets with LIT-641. Usually offered every year.

LIT-343 Topics in British and European Modernism (3) Topics vary by section, may be repeated for credit with different topic. European modernist vision and techniques, such as free verse and stream of consciousness, are some of the innovations owed to Modernism that have profoundly influenced the way we see, hear, and feel. Meets with LIT-643. Usually offered every year.

LIT-346 Topics in Film (3) Topics vary by section, may be repeated for credit with different topic. Rotating topics include film and literature, national cinema, film genres, major filmmakers, and independent filmmakers. Meets with LIT-646. Usually offered every year.

LIT-347 Spain and Latin America through Literature and Film (3) Through a survey of several different forms, contemporary Spanish and Latin American reality is presented in this course offered as part of the AU Abroad program in Madrid. It includes critical approaches to narrative textual discourses dealing with social structure and identity, and explores the relation between literature and film, showing Latin American countries as complex cultural arrangements in continuous redefinition.

LIT-350 Literature of Central Europe in the Twentieth Century (3) Introduces students to the literary interrelations among the various national and ethnic groups of Central Europe including Bohemia, Austria, Germany, and Hungary, and their dependence on Russian and Scandinavian authors. Writers studied include Dostoyevsky, Kafka, Koestler, Kraus, Meyerink, Schnitzler, Werfel, and Zweig. Offered only in Prague. Usually offered every fall.

LIT-360 Topics in Medieval Literature (3) Topics vary by section, may be repeated for credit with different topic. The literature of the Middle Ages reflects a radically different world view in writings that capture human beings at their best and worst moments. Rotating topics include Chaucer, Dante, and a survey of medieval literature. Meets with LIT-660. Usually offered every year.

LIT-365 Mediterranean Literature (3) Offered as part of the AU Abroad Madrid and the Mediterranean program. This course offers a review of the major Mediterranean world literary accomplishments of antiquity, the Renaissance, and the baroque, as well as contemporary Arab literature. Students become familiar with intrinsically Mediterranean topics such as epic travel, exile, and cross-fertilization among cultures, the works of Homer, Dante, and Cervantes and their trail of influence in modern literature and culture, as well as reading the works of major authors of Lebanon, Egypt, Palestine, and Morocco. Usually offered every fall.

LIT-367 Topics in World Literature (3) Topics vary by section, may be repeated for credit with different topic. Rotating topics in a wide range of literature from around the world. Meets with LIT-667. Usually offered every year.

LIT-370 Topics in Women's and Gender Studies (3) Topics vary by section, may be repeated for credit with different topic. Rotating topics dealing with influence of gender on literature, including

women and literature and nineteenth-century American women's literature. Meets with LIT-670. Usually offered every year.

LIT-379 Mediterranean Cross-Cultural Cinema (3) Offered as part of the AU Abroad Madrid and the Mediterranean program. Featuring a series of films, mostly produced in Mediterranean countries, which are a rich source for the study of inter cultural relations, this course studies the cinematic medium, not only as a data source, but as a language in itself. Different film traditions are analyzed in order to discover the type of stylistic conventions that vary from culture to culture, as well as cinema's potential for inter cultural communication. Usually offered every fall.

LIT-381 Interdisciplinary Approaches to Literature (3) Topics vary by section, may be repeated for credit with different topic. Rotating topics including literature and sexuality, literature and the city, psychological approaches to literature, the culture of AIDS, the Holocaust, and literature and politics. Meets with LIT-681. Usually offered every year.

LIT-390 Independent Reading Course in Literature (1-6) *Prerequisite:* permission of instructor and department chair.

LIT-392 Cooperative Education Field Experience (3-9) *Prerequisite:* permission of department chair and Cooperative Education office.

LIT-400 Creative Writing: Fiction (3) May be repeated for credit once with permission of instructor. A writing workshop with students reading their work aloud and commenting on one another's efforts. The instructor reserves the right to have the last word. Usually offered every term. *Prerequisite:* LIT-200 or equivalent, or permission of instructor.

LIT-401 Creative Writing: Poetry (3) May be repeated for credit once with permission of instructor. An intensive approach to the techniques of writing verse, followed by several weeks of workshop sessions in which students' poems receive responses from the entire class. Usually offered every term. *Prerequisite:* LIT-200 or equivalent, or permission of instructor.

LIT-402 Creative Writing: Film Script (3) May be repeated for credit once with permission of instructor. An introduction to writing developing stories for the screen. A study of the special contributions of the writer to film art. Screenings, reading, writing, and rewriting. Meets with LIT-702. Usually offered every term. *Prerequisite:* permission of instructor.

LIT-403 Creative Writing: Nonfiction (3) May be repeated for credit once with permission of instructor. Usually offered every term. *Prerequisite:* LIT-200.

LIT-405 Seminar on Translation (3) Designed primarily for writers, this course introduces students to the international community of writers by providing approaches to and models for the translation of literary works as well as experience in translating. It is expected that students will learn about the use of their own language in the process. Fluency in another language is helpful but not required. Meets with LIT-705. Usually offered every spring.

LIT-480 Senior Project in Literature (3) This course is the second in the capstone sequence for literature majors. Students tap into their own intellectual curiosity and develop their research, analytical, and writing skills, culminating in a 25 page paper. Class meetings provide support and structure for work on the project and include faculty guest speakers and student presentations. Usually offered every spring. *Prerequisite:* LIT-498.

LIT-490 Independent Study Project in Literature (1-6) *Prerequisite:* permission of instructor and department chair.

LIT-491 Practical Internship in Literature (3) Practical work in writing and research for various agencies and publications, and apprentice teaching experience with private schools and diverse groups, including the Writing Center. *Prerequisite:* permission of advisor and department chair.

LIT-498 Senior Seminar in Literature: The Value of Literature (3) This course is the first in the capstone sequence for literature majors. It addresses the following questions: Is literature separable from other forms of linguistic expression? Are there modes of interpretation and study unique to literature? Why has the assertion of literary value found expression in specifying a canon of particular works? Since art and literature are traditionally defined in terms of secondariness, either as reflection, mimesis, or as refinement, the course also addresses the issue of secondariness and marginalization in both literature and literary criticism. Usually offered every fall.

LIT-499 Honors, Senior Year (3)

Graduate and Advanced Undergraduate Course

LIT-520 Theories and Methodologies (3) This course introduces students to the theories necessary for the study of literature at the graduate level. It provides wide coverage of theoretical and critical issues in the field, as well as diverse modes of pedagogy. Students learn to think self-consciously of their own theoretical and critical methodologies, and to participate in scholarly debates in the field. Usually offered every fall. *Prerequisite:* admission to M.A. in Literature or permission of instructor.

LIT-521 Reading in Genre: Poetry (3) Overview of poetry from all significant literary periods; special attention paid to the history and forms of the genre. Usually offered alternate falls. *Prerequisite:* admission to M.A. in Literature or permission of instructor.

LIT-522 Reading in Genre: Drama (3) Overview of drama from all significant literary periods; special attention paid to the history and forms of the genre. Usually offered alternate springs. *Prerequisite:* admission to M.A. in Literature or permission of instructor.

LIT-523 Reading in Genre: Novel (3) Overview of the novel from all significant literary periods; special attention paid to the history and forms of the genre. Usually offered alternate falls. *Prerequisite:* admission to MA in Literature or permission of instructor.

LIT-524 Reading in Genre: Cinema (3) Overview of cinematic texts from all significant literary periods; special attention paid to the history and forms of the genre. Usually offered alternate springs. *Prerequisite:* admission to MA in Literature or permission of instructor.

LIT-590 Independent Reading Course in Literature (1-6) *Prerequisite:* permission of instructor and department chair.

Graduate Courses

Note: When 300-level and 600-level courses meet together, registration at the 600-level requires graduate-level assignments and higher expectations regarding performance.

LIT-608 Studies in Genre (3) Topics vary by section, may be repeated for credit with different topic. Rotating topics examine expression in a variety of literary genres. Topics include sentimentalism and sensationalism, utopian literature, the gothic, and the epic. Meets with LIT-308. Usually offered every year.

LIT-610 Major Authors (3) Topics vary by section, may be repeated for credit with different topic. Intensive study of the works of one or more important authors. Attention is paid to the evolution of the author's canon, to the effects of (and on) the literary context, to the relationship between works and biography, and to the histori-

cal and cultural context of the writer. Meets with LIT-310. Usually offered every year.

LIT-615 Topics in American Romanticism (3) Topics vary by section, may be repeated for credit with different topic. American Romantic authors of the antebellum period reflected the effects of slavery, constraints on women, and materialism on the nation, and looked for the realization of a new age. Writers studied include Whitman, Melville, Emerson, Thoreau, Dickinson, Stowe, Poe, Sedgewick, Fuller, Douglass, and Jacobs. Meets with LIT-315. Usually offered every year.

LIT-616 Nineteenth Century American Novel (3) Emphasis on literary evolution of a form as it expresses historical evolution of national consciousness. Novelists studied include Hawthorne and Melville. Meets with LIT-316. Usually offered every year.

LIT-618 Topics in American Realism (3) Topics vary by section, may be repeated for credit with different topic. Post-Civil War literary realism reflected a time of both great wealth and squalor, with striving for self-expression by those who were marginalized, including African Americans, Native Americans, and women. Writers studied include Mark Twain, William Dean Howells, Theodore Dreiser, Henry Adams, Edith Wharton, Kate Chopin, Sarah Orne Jewett, Henry James, Charles Chesnut, Booker T. Washington, and W.E.B. Du Bois. Meets with LIT-318. Usually offered every other year.

LIT-621 Topics in American Modernism (3) Topics vary by section, may be repeated for credit with different topic. Modernism expressed a new consciousness of the United States as an urban nation and world power, pioneering advertising, mass culture, and avant-garde art. Authors include Fitzgerald, Hemingway, Faulkner, Eliot, Stevens, HD, Hughes, and Williams. Meets with LIT-321. Usually offered every year.

LIT-622 Topics in Contemporary American Literature (3) Topics vary by section, may be repeated for credit with different topic. Topics in American fiction, poetry, drama, and nonfiction of the past forty years. Meets with LIT-322. Usually offered every year.

LIT-623 Ethnic Literatures of the United States (3) Topics vary by section, may be repeated for credit with different topic. The old idea of the United States as a melting pot has given way to the awareness of the unique and powerful contributions to the literature of the United States by Native Americans, African Americans, Chicano and Latino Americans, and Asian Americans. Topics vary across ethnic groups and genres. Meets with LIT-323. Usually offered every other year.

LIT-632 Shakespeare Studies (3) Topics vary by section, may be repeated for credit with different topic. More than any other playwright in the Western tradition, Shakespeare is extolled for creating memorable dramatic characters and riveting plots, along with brilliant language and arresting stage techniques. Rotating topics include early plays, later plays, and Shakespeare on film. Meets with LIT-332. Usually offered every term.

LIT-634 Topics in Renaissance Literature (3) Topics vary by section, may be repeated for credit with different topic. Some of the greatest art, poetry, and drama in the Western tradition flourished amidst the religious and political tumult of the Renaissance. Rotating topics include Renaissance drama, Renaissance poetry, and a survey of Renaissance literature (British or European). Meets with LIT-334. Usually offered every year.

LIT-637 Topics in Restoration and Enlightenment Literature

(3) Topics vary by section, may be repeated for credit with different topic. In seventeenth and eighteenth century Britain new literary forms, such as the novel and the autobiography, responded to the far-reaching changes in philosophy, politics, and religion of the Restoration and Enlightenment. Rotating topics include Milton, Restoration drama, and the rise of the British novel. Meets with LIT-337. Usually offered every other year.

LIT-640 Topics in Nineteenth Century British and European Literature

(3) Topics vary by section, may be repeated for credit with different topic. Rotating topics in British and European literature ranging from nineteenth century melodrama in different national traditions to the Victorian novel, Victorian poetry, French realism, and French Symbolist poetry. Meets with LIT-340. Usually offered every year.

LIT-641 Topics in Romantic Literature

(3) Topics vary by section, may be repeated for credit with different topic. In the wake of complete social and political upheaval, eighteenth and nineteenth century Romantic writers questioned longstanding assumptions. Rotating topics include the Romantic imagination, the politics of poetry, and the Shelley circle. Meets with LIT-341. Usually offered every year.

LIT-643 Topics in British and European Modernism

(3) Topics vary by section, may be repeated for credit with different topic. European modernist vision and techniques, such as free verse and stream of consciousness, are some of the innovations owed to Modernism that have profoundly influenced the way we see, hear, and feel. Meets with LIT-343. Usually offered every year.

LIT-646 Topics in Film

(3) Topics vary by section, may be repeated for credit with different topic. Rotating topics include film and literature, national cinema, film genres, major filmmakers, and independent filmmakers. Meets with LIT-346. Usually offered every year.

LIT-660 Topics in Medieval Literature

(3) Topics vary by section, may be repeated for credit with different topic. The literature of the Middle Ages reflects a radically different world view in writings that capture human beings at their best and worst moments. Rotating topics include Chaucer, Dante, and a survey of medieval literature. Meets with LIT-360. Usually offered every year.

LIT-667 Topics in World Literature

(3) Topics vary by section, may be repeated for credit with different topic. Rotating topics in a wide range of literature from around the world. Meets with LIT-367. Usually offered every year.

LIT-670 Topics in Women's and Gender Studies

(3) Topics vary by section, may be repeated for credit with different topic. Rotating topics dealing with influence of gender on literature, including women and literature and nineteenth-century American women's literature. Meets with LIT-370. Usually offered every year.

LIT-681 Interdisciplinary Approaches to Literature

(3) Topics vary by section, may be repeated for credit with different topic. Rotating topics including literature and sexuality, literature and the city, psychological approaches to literature, the culture of AIDS, the Holocaust, and literature and politics. Meets with LIT-381. Usually offered every year.

LIT-690 Independent Study Project in Literature (1-6)

Prerequisite: permission of instructor and department chair.

LIT-691 Graduate Internship (1-6) Practical experience making use of students' writing and organizational skills. Required for

M.F.A. candidates. *Prerequisite:* graduate standing in the department, and permission of instructor and department chair.

LIT-692 Cooperative Education Field Experience (3-6) *Prerequisite:* permission of department chair and Cooperative Education office.

LIT-700 Advanced Fiction Workshop (3) May be repeated for credit, but not in the same term. A writing workshop with students reading their work aloud and commenting on one another's efforts. The instructor reserves the right to have the last word. Graduate students are expected to submit 12,500 words or more. Usually offered every term. *Prerequisite:* admission to MFA in Creative Writing. May be taken pass/fail only.

LIT-701 Advanced Poetry Workshop (3) May be repeated for credit, but not in the same term. An intensive approach to the techniques of writing verse, followed by several weeks of workshop sessions in which students' poems receive responses from the entire class. Usually offered every term. *Prerequisite:* admission to MFA in Creative Writing. May be taken pass/fail only.

LIT-702 Creative Writing: Film Script (3) May be repeated for credit, but not in the same term. An introduction to writing developing stories for the screen. A study of the special contributions of the writer to film art. Screenings, reading, writing, and rewriting. Meets with LIT-402. Usually offered every term.

LIT-703 Creative Storytelling Workshop (3) Intensive workshop in storytelling and public performance. Includes creative improvisation; research, selecting, adapting, and performing traditional folktales; developing and performing personal and family stories; working with voice, sound effects, movement, gesture, and expression; editing stories for public performance; and coaching fellow tellers. Usually offered alternate springs and summers. May be taken pass/fail only.

LIT-704 Advanced Creative Nonfiction Workshop (3) Topics vary by section, may be repeated for credit with different topic. Intensive critical workshop in writing memoirs and personal essays, emphasizing the development of the first-person voice. Usually offered alternate springs. *Prerequisite:* admission to MFA in Creative Writing program or permission of instructor. May be taken pass/fail only.

LIT-705 Seminar on Translation (3) Designed primarily for writers, this course introduces students to the international community of writers by providing approaches to and models for the translation of literary works as well as experience in translating. It is expected that students will learn about the use of their own language in the process. Fluency in another language is helpful but not required. Meets with LIT-405. Usually offered every spring. *Prerequisite:* admission to MFA in Creative Writing program or permission of instructor.

LIT-710 The Art of Literary Journalism (3) A workshop in which the craft of reviewing books, plays, movies, TV, art, and music is practiced. Clear expository writing is the aim, tied to established criteria for sound critical approaches in journalism. Usually offered every fall. *Prerequisite:* permission of instructor.

LIT-730 Teaching Composition (3) An introduction to the field of composition studies as well as the theory and practices of teaching academic writing. Students wrestle with fundamental questions about writing and the personal, social, and cultural dimensions of literacy; explore the nature of written discourse, the composing process, and learning; and discuss issues and examine current ap-

proaches in teaching for contemporary composition classrooms. Usually offered every fall.

LIT-731 Teaching of Writing Practicum (3) An internship with a College Writing Program instructor and ongoing study in composition studies to prepare for teaching academic writing. Usually offered every spring. *Prerequisite:* LIT-730 or permission of instructor.

LIT-732 Seminar in Literary Theory (3) Topics vary by section, may be repeated for credit with different topic. Provides a methodological basis for theoretical approaches to literary studies and focuses on critical issues in the study of literature. Topics include the history of aesthetics, contemporary literary theory, and feminist theory. Usually offered every fall.

LIT-733 Special Topics in Literature (3) Topics vary by section, may be repeated for credit with different topic. Focuses on thematic and theoretical approaches to literature that traverse historical periods and national boundaries. Offered irregularly.

LIT-735 Seminar in Renaissance and Seventeenth Century Literature (3) Topics vary by section, may be repeated for credit with different topic. Varies in content to cover English, European, or American colonial literature. Usually offered alternate falls.

LIT-736 Seminar in Eighteenth Century Literature (3) Topics vary by section, may be repeated for credit with different topic. Varies in content to cover English, European, or American literature. Usually offered alternate springs.

LIT-737 Seminar in Nineteenth Century Literature (3) Topics vary by section, may be repeated for credit with different topic. Varies in content to cover English, American, or world literature. Usually offered alternate falls.

LIT-738 Seminar in Twentieth Century Literature (3) Topics vary by section, may be repeated for credit with different topic. Varies in content to cover English, American, or world literature. Usually offered alternate springs.

LIT-750 Folger Seminar in Renaissance and Eighteenth Century Studies (3) An exploration of Renaissance and eighteenth century themes offered through the Folger Institute. Students draw on materials available in the Folger Library collections for their research. Usually offered every term. Students must apply directly to the Folger Institute to be admitted to the seminar; consult the department for more information. *Prerequisite:* permission of department.

LIT-793 Directed Research in Literature (3) Students work closely with a faculty member on a scholarly article (20-35 pages) developed from a paper originally submitted for a graduate literature course, with the potential for publication in a scholarly journal. Students enhance their skills in conducting research and/or situating an idea within current scholarly dialogue in the field. Usually offered every term.

LIT-797 Master's Thesis Seminar (1-6)

Mathematics

Undergraduate Courses

Note: Students should consult the department for advice and placement testing for appropriate mathematics and statistics courses.

MATH-022 Basic Algebra (2) An introduction to algebra. Includes a review of integer and rational numbers; solving linear equations in one or two variables; word problems; polynomials and rational expressions; radicals; the quadratic formula; and some graphing techniques. Usually offered every term. *Note:* Intended

for students with inadequate preparation for other courses in mathematics. No academic credit is received for this course, nor does it fulfill the mathematics requirement for any degree program. Credit equivalent is listed only for the purpose of determining full-time student status.

MATH-150 Finite Mathematics (3) Review of algebra, sets, linear equations and inequalities, nonlinear inequalities, interest problems, systems of linear equations, functions and graphs, and elementary data analysis. Usually offered every term. *Prerequisite:* three years of high school mathematics or equivalent. *Note:* For students who need extra work on mathematical skills. No credit toward mathematics major. Students may not receive credit for more than one course numbered MATH-15x.

MATH-151 Finite Mathematics (3) Review of algebra, sets, linear equations and inequalities, nonlinear inequalities, interest problems, systems of linear equations, functions and graphs, and elementary data analysis. Usually offered every term. *Prerequisite:* three years of high school mathematics or equivalent. *Note:* No credit toward mathematics major. Students may not receive credit for more than one course numbered MATH-15x.

MATH-154 Great Ideas in Mathematics (4) This course explores a sample of beautiful branches of modern mathematics, concentrating on conceptual underpinnings rather than technical aspects. Includes study of infinity, number theory, fractals, and modern geometry, among other mathematical ideas. The course focuses on verbal and written communication skills and problem solving. *Prerequisite:* three years of high school mathematics or equivalent. *Note:* No credit toward mathematics major. Students may not receive credit for more than one course numbered MATH-15x.

MATH-155 Elementary Mathematical Modeling (3) Study of mathematical subjects including linear, quadratic, polynomial, rational, exponential, and logarithmic functions, in the context of difference equations models. Emphasizes concepts and applications using numerical, graphical, and theoretical methods. Also includes an introduction to the mathematical subject of chaos. Usually offered every term. *Prerequisite:* three years of high school mathematics or equivalent. *Note:* No credit toward mathematics major. Students may not receive credit for more than one course numbered MATH-15x.

MATH-157 Applied Precalculus (3) Fundamentals of algebraic, exponential, and logarithmic functions with emphasis on applications to problems in business and economics and the natural sciences. Usually offered every term. *Prerequisite:* three years of high school mathematics or equivalent. *Note:* Intended primarily for students planning to take MATH-211 Applied Calculus I. No credit toward mathematics major. Students may not receive credit for more than one course numbered MATH-15x.

MATH-170 Precalculus Mathematics (3) Fundamentals of algebraic, logarithmic, exponential, and trigonometric functions for students planning to take MATH-221. MATH-15x and MATH-170 may not both be used to fulfill the mathematics requirements for any major program. Usually offered every term. *Prerequisite:* three years of high school mathematics, or MATH-15x, or permission of department.

MATH-211 Applied Calculus I (4) Continuity, limits, differentiation, and integration. Applications to biological, social, and environmental sciences and business. Usually offered every term. *Prerequisite:* MATH-15x or four years of high school mathemat-

ics. *Note:* No credit toward mathematics or applied mathematics major, but together with MATH-212 meets calculus requirement for applied statistics. Students may not receive credit toward a degree for both MATH-211 and MATH-221.

MATH-212 Applied Calculus II (3) Calculus of several variables, matrices, series, and differential equations. Applications to biological, social, and environmental sciences and business. Usually offered every spring. Prerequisite: MATH-211 or MATH-221. *Note:* No credit toward mathematics or applied mathematics major, but together with MATH-211 meets calculus requirement for applied statistics. Students may not receive credit toward a degree for both MATH-212 and MATH-222 or MATH-313.

MATH-221 Calculus I (4) Real numbers; coordinate systems; functions; limits and continuity; differentiation and applications; trigonometric functions; indefinite and definite integration and applications; fundamental theorem of integral calculus. Usually offered every term. Prerequisite: MATH-170 or four years of high school mathematics. *Note:* Students may not receive credit toward a degree for both MATH-221 and MATH-211.

MATH-222 Calculus II (4) Techniques of integration, calculus of exponential and logarithmic functions, infinite series, power series representations, and analytic geometry. Usually offered every term. Prerequisite: MATH-211 or MATH-221, or permission of department. *Note:* Students may not receive credit toward a degree for both MATH-222 and MATH-212.

MATH-310 Linear Algebra (3) Vector spaces, systems of linear equations, solutions by matrices, determinants, linear transformations, and algebraic forms. Usually offered every term. Prerequisite: MATH-212 or MATH-222 (may be taken concurrently).

MATH-313 Calculus III (4) Vectors, functions of several variables, partial differentiation, and multiple integrals. Usually offered every term. Prerequisite: MATH-222.

MATH-321 Differential Equations (3) First order equations, linear equations of higher order, solutions in series, Laplace transforms, numerical methods, and applications to mechanics, electrical circuits, and biology. Usually offered every fall. Prerequisite: MATH-313 and MATH-310, both of which may be taken concurrently.

MATH-345 Introduction to Game Theory (3) This course explores applications such as auctions, firm competition, and voting with mathematical analysis. It includes Nash equilibrium, subgame perfect equilibrium, evolutionary stability, repeated games, signaling, mechanism design, uncertainty, and behavioral game theory. Meets with ECON-345. Usually offered every fall. Prerequisite: ECON-200, and MATH-211 or MATH-221. *Note:* this course does not fulfill the University Mathematics Requirement.

MATH-360 Tools of Scientific Computing (3) Designed to teach scientific rigor in the use of computers and/or computational tools. Techniques from mathematics are introduced which lead to efficient algorithm design, algorithm analysis, data classification, data manipulation, and scientific computation. Includes data types, induction, recursion, sorting, searching, summation, optimization, asymptotic analysis, basic number theory, discrete probability, and parallel computing. Meets with CSC-360. Usually offered every fall. Prerequisite: CSC-280, CSC-281, MATH-221, and MATH-222.

MATH-390 Independent Reading Course in Mathematics (1-6) Prerequisite: permission of instructor and department chair.

MATH-392 Cooperative Education Field Experience (3-9) Prerequisite: permission of department chair and Cooperative Education office.

MATH-490 Independent Study Project in Mathematics (1-6) Prerequisite: permission of instructor and department chair.

Graduate and Advanced Undergraduate Courses

MATH-501 Probability (3) Algebra of sets; probability in discrete sample spaces; combinatorial analysis; random variables; binomial, Poisson, normal, and other distributions; and applications. Usually offered every fall. Prerequisite: MATH-313 or permission of instructor.

MATH-503 Foundations of Mathematics (3) An introduction to the proof-based methodology of advanced mathematics courses, with emphasis on the fundamentals of logic and set theory (truth-tables and quantifiers, Boolean operations, functions, relations, and cardinality); elementary number theory (mathematical induction and modular arithmetic), and structural properties of the fields of real and complex numbers. Usually offered every term. Prerequisite: MATH-222.

MATH-504 Advanced Calculus of Several Variables (3) Vector-functions of several variables, limits and continuity, differentials and tangent plane, implicit and inverse functions, line and surface integrals, gradient, divergent, curl, Stoke's and Green's theorems. Usually offered alternate springs. Prerequisite: MATH-310 and MATH-313 and MATH-503, or permission of instructor.

MATH-505 Mathematical Logic (3) The mathematical study of the scope and limits of deductive reasoning with special attention to propositional and first order logic, leading to results concerning completeness, compactness, and the existence of decision procedures for various logical systems, culminating in the incompleteness theorems of Godel. Usually offered alternate springs. Prerequisite: MATH-503 or permission of instructor.

MATH-510 Geometry (3) Euclidean and non-Euclidean (spherical, elliptic, and hyperbolic) geometries from axiomatic and analytic points of view. Includes isometrics, transformation groups, symmetry groups, quadratic forms, projective geometry, as well as some historical background. Usually offered alternate falls. Prerequisite: MATH-310 or equivalent.

MATH-512 Introduction to Modern Algebra (3) Groups, rings, vector spaces and modules, fields, and Galois theory. Usually offered every fall. Prerequisite: MATH-503 or permission of instructor.

MATH-513 Rings and Fields (3) An advanced study of rings and fields with a focus on polynomials and their roots. Includes ring theory, factorization, polynomials, field theory, ruler and compass constructions, Galois theory, and solvability of polynomials. Usually offered alternate springs. Prerequisite: MATH-512.

MATH-515 Number Theory (3) Divisibility, fundamental theorem of arithmetic, congruences, arithmetic functions, Diophantine equations, quadratic residues, sums of squares, and partitions. Usually offered alternate falls. Prerequisite: MATH-222.

MATH-520 Introduction to Analysis (3) This course develops the foundations of mathematical analysis by focusing on the real numbers as a complete ordered field, infinite sequences and series, limits and continuity, and key theorems of the differential and integral calculus. Usually offered every fall. Prerequisite: MATH-503 or permission of instructor.

MATH-521 Measure Theory and Integration (3) This course presents the fundamental concepts and techniques of measure the-

ory. It includes Borel sets, measures, measurable sets and functions, integrals as measures, L_p spaces, modes of convergence, and decomposition and generation of measures (including product measure). Usually offered alternate springs. *Prerequisite:* MATH-503 and MATH-520 or permission of instructor.

MATH-540 Topology (3) Topological spaces, continuity, compactness, connectedness, and metric spaces. Usually offered alternate falls. *Prerequisite:* MATH-503 or permission of instructor.

MATH-550 Complex Analysis (3) Complex functions, Cauchy's theorem and integral formulae, Taylor and Laurent series, residue calculus and contour integration, and conformal mapping. Usually offered every spring. *Prerequisite:* MATH-503 and MATH-504 or permission of instructor.

MATH-551 Partial Differential Equations (3) Fourier series, orthonormal systems, wave equation, vibrating strings and membranes, heat equation, Laplace's equation, harmonic and Green functions. Usually offered alternate springs. *Prerequisite:* MATH-321.

MATH-560 Numerical Analysis: Basic Problems (3) Computer arithmetic and error analysis in computation, matrix decomposition methods in solving systems of linear equations and linear least squares problems, polynomial approximation and polynomial data fitting, iterative algorithms for solving nonlinear equations, and numerical differentiation and integration. Usually offered alternate falls. *Prerequisite:* CSC-280, MATH-222, and MATH-310, or permission of instructor.

MATH-570 History of Mathematics (3) This course surveys aspects of historical development of mathematics from ancient to modern times and examines the ideological, social, and cultural forces which shaped this development. By providing historical continuity, the course interrelates and unifies the major subject areas such as algebra, calculus and analysis, geometry, number theory, probability, set theory, and the foundation of mathematics. Usually offered alternate springs. *Prerequisite:* Calculus I-III.

MATH-580 Topics in Mathematics (3) Topics vary by section, may be repeated for credit with different topic. Topics include foundations/set theory/logic, matrix theory, algebraic topology, measure and integration, functional analysis, ring theory, modern geometry, and advanced modern linear algebra. Usually offered every spring.

MATH-585 Mathematics Education (3) Curriculum construction and program design, instructional effectiveness, and methods and technology for teaching mathematics. Different approaches for students with a variety of mathematical and cultural backgrounds. Required of all students in mathematics education. Usually offered every fall. *Prerequisite:* MATH-313.

MATH-590 Independent Reading Course in Mathematics (1-6) *Prerequisite:* permission of instructor and department chair.

Graduate Courses

MATH-601 Harmonic Analysis (3) Harmonic analysis on the circle, the real line, and on groups. The main concepts are: periodic functions, Fourier series, Fourier transform and spherical harmonics. The course includes a brief account of the necessary ingredients from the theory of the Lebesgue integral. Usually offered alternate springs. *Prerequisite:* MATH-503 or permission of instructor.

MATH-674 Advanced Probability (3) Measure theoretical treatment of probability, convergence of random variables, conditional probability and expectation, laws of large numbers, infinitely divis-

ible distributions, general central limit theorem. Usually offered alternate springs (even years). *Prerequisite:* MATH-574.

MATH-680 Advanced Topics in Mathematics (3) Topics vary by section, may be repeated for credit with different topic. Intensive courses in a specialized area of mathematics.

MATH-685 Practicum in Mathematics Education (3) May be repeated for credit. Seminar course in researching, implementing, and writing in publishable form an innovative teaching methodology, educational contribution, or internship in cooperating school system, college, or other organization involving teaching. Required of all students in the Ph.D. program in mathematics education. Usually offered alternate springs.

MATH-690 Independent Study Project in Mathematics (1-6) *Prerequisite:* permission of instructor and department chair.

MATH-692 Cooperative Education Field Experience (3-6) *Prerequisite:* permission of department chair and Cooperative Education office.

MATH-790 Research Seminar in Mathematics Education (3) In-depth exploration of current issues in mathematics education. A research paper and presentation are required. Course required of all students in the Ph.D. program in mathematics education. May be repeated for credit, but not within the same term; topic must be different. Usually offered alternate springs.

MATH-797 Master's Thesis Seminar in Mathematics (1-6) Usually offered every term.

MATH-799 Doctoral Dissertation Seminar in Mathematics (1-12) Usually offered every term.

Business: Management

Undergraduate Courses

MGMT-201 Global Corporate Citizenship (3) Understanding the complexity of the business environment requires an understanding of business as a citizen. Certainly a good business citizen obeys the law, but is that sufficient? Good business citizenship also requires participation in the social order and accepting and perpetuating common values. This course prepares students to be managers and leaders of businesses that practice good citizenship in the global economy.

MGMT-353 Management and Organizational Behavior (3) Current management and organizational behavior practice and research. This course provides a broad framework and skills for managers in a variety of contexts, including organizational goals and responsibilities; models; decision theory; planning; control; motivation; leadership; group behavior; team skills intensive; conflict; and organizational change. *Prerequisite:* completion of 12 credits in business courses or permission of instructor.

MGMT-360 Nonprofit and Social Entrepreneurship (3) Nonprofit and social entrepreneurs can be a dynamic change agent for society and this course provides an in-depth exposure to starting a new nonprofit as well as creating new ventures within an existing nonprofit organization. The course focuses on entrepreneurship thinking and the process for successful new ventures within a nonprofit context. In addition, entrepreneurship's actual and potential contribution to changing lives, improving the environment in which we live, and its contribution to overall national, regional, and local economic and social development are also included. *Prerequisite:* upper-division standing.

MGMT-361 Global Entrepreneurship and Micro Enterprises (3) Entrepreneurship is a driving and dynamic force in developed,

developing, and less developed countries around the world. This course explores the complex considerations in developing, starting, and growing an entrepreneurship enterprise in multiple contexts and cultures. The utilization of alternative entrepreneurship and micro ventures strategies are also explored.

MGMT-381 Managing Human Capital (3) Understanding the principles and operations of personnel administration and industrial-relations systems in organizations by analyzing and applying theoretical concepts to functional situations. *Prerequisite:* upper-division standing.

MGMT-382 Entrepreneurship and Innovation (3) Entrepreneurship is a way of thinking and behaving that can enrich your life, enhance the organizations you are involved with, and create substantial, high-impact results. Successful entrepreneurs who start their own new ventures or new ventures within corporate, consulting, nonprofit, government, or social enterprises have developed many of the same attitudes, behaviors, knowledge, and skills.

MGMT-383 Entrepreneurship Business Plans: Creating, Building, and Managing Ventures (3) This course helps students understand the principles for developing entrepreneurial business plans to successfully create, build, and manage a new venture. Students gain an appreciation for the challenges of creating a venture and an understanding of the elements of a business plan as well as learning how to distinguish good ideas from good opportunities and developing a formal business plan to raise required resources. The course examines the driving forces that play a role in planning and setting up a business. *Prerequisite:* ACCT-240 and MGMT-382.

MGMT-385 Entrepreneurship Financing and Legal Strategies (3) Entrepreneurship financing and related financial legal issue considerations are critical components of an entrepreneurial business plan and running the business. This course covers a range of entrepreneurship financing strategies as well as their related legal considerations. *Prerequisite:* ACCT-240, ECON-200, FIN-365 (which may be taken concurrently), and MGMT-382.

MGMT-390 Independent Reading Course in Management (1-3) *Prerequisite:* permission of instructor and department chair.

MGMT-391 Internship in Management (1-6) Provides students with the opportunity to blend practical business work experience with academic study. The academic workload varies depending on the internship credit to be earned. *Prerequisite:* upper-division standing, 9 additional credit hours in business courses, and permission of instructor and department chair.

MGMT-392 Cooperative Education Field Experience (3-6) *Prerequisite:* upper-division standing, 9 additional credit hours in business courses, and permission of department chair and Cooperative Education office.

MGMT-409 Leading High Performance Teams (3) Modern organizations demand synergistic results from collaborative workforce structures. This course teaches specific techniques for leading work teams to augment multiple performance outcomes. Students gain both an explicit and an experiential understanding of team management in business organizations, both as a member and as a supervisor. *Prerequisite:* MGMT-353.

MGMT-458 Business Policy and Strategy (3) Integration of knowledge in functional areas of business and simulation of management experiences. Various methods of simulating a management environment are employed, including case studies and computerized management problems. *Prerequisite:* ACCT-241,

FIN-365, ITEC-355 (may be taken concurrently), MGMT-353, MKTG-300, and senior BSBA major.

MGMT-465 Negotiation (3) This course is designed to improve negotiating skills in all phases of the negotiating process through understanding prescriptive and descriptive negotiation theory as it applies to personal and professional negotiations. In-class simulations and out-of-class assignments are employed to introduce negotiation concepts in a variety of contexts, including one-on-one, multi-party, cross-cultural, third-party, and team negotiations. *Prerequisite:* upper division standing.

MGMT-484 Consulting and Project Management (3) This course provides critical skills for consulting and project management in business, government, and other organizations. It covers all dimensions of successful management consulting projects, developing and managing client relationships, project definition, building a project team, planning, analytical tools and risk analysis, project politics and communication, and managing ongoing projects. *Prerequisite:* MGMT-353.

MGMT-490 Independent Study Project in Management (1-3) *Prerequisite:* upper-division standing and permission of instructor and department chair.

Graduate Courses

MGMT-609 Management of Organizations and Human Capital (3) The effective management of organizations and human capital are critical to creating and maintaining competitive advantage. This course covers a range of strategic and tactical issues designed to gain an understanding and skills that can be applied to organizational structuring; creating positive organizational cultures; introducing organizational development initiatives; as well as strategic and tactical issues in leading and managing human capital.

MGMT-611 Leading and Managing Change (3) Leading and managing change at the individual, group, and organizational levels are critical to the survival, growth, and success of organizations. This applies to organizations that are small or large, old or new, privately-held or publicly-traded, profit-seeking or non-profit. Organizations face complex environmental changes that impact their performance and respond with organizational changes such as downsizing, mergers, acquisitions, divestitures, and leadership change. This course explores the sources and processes of leading and managing organizational change.

MGMT-613 Managing People in Organizations (1.5) Examines theories of human behavior in organizations and practices that aid in motivating performance toward organizational and individual objectives. Students learn about the individual in context, including individual differences (job-related traits, attitudes, values), human capital planning, motivation, and performance management (measurement, appraisal, reward systems). *Prerequisite:* enrollment in MBA program or permission of instructor.

MGMT-615 Legal, Ethical, and Social Issues in Business (1.5) This course prepares students to be responsible leaders and managers in the global economy. Responsible leadership and management in the complex global economy requires an understanding of the business organization as a citizen, with inherent rights and responsibilities. Good business citizenship requires profit-making, adherence to legitimate laws, participation in the social order, acceptance of and support for common values, and the ability to respond to critics and activists. *Prerequisite:* enrollment in MBA program or permission of instructor.

MGMT-617 Sustainable Systems (3) This course provides a general understanding of systems thinking and how it can be applied to the concept of sustainability (including environmental, social, and economic sustainability). By integrating perspectives from science policy and business, this course stresses the interconnectedness of ecologies, societies, and economies, as well as the challenges of fostering sustainability in all of these domains.

MGMT-624 Applied Strategic Management in a Global Environment (3) Focuses on developing and applying strategic management to successfully position organizations in a competitive global environment. Course is integrated with previous course experiences to hone decision making, analysis, and oral and written communication skills. Students work in small teams to analyze a real company's external environment, perform an internal corporate audit, and build detailed action plans including implementation issues and financial forecasting. *Prerequisite:* ACCT-607, FIN-605, FIN-614, IBUS-618, ITEC-610, ITEC-616, MGMT-609, and MKTG-612.

MGMT-626 Management Consulting Practices and Methodologies (3) This course provides an overview of the consulting industry and the consulting process. Students gain an understanding of the consulting industry, consulting firm management, important consulting functions (proposal writing, data gathering, presenting recommendations, etc.) and the analytical tools used in consulting. Also includes client relationships, professionalism and ethics, and the consulting lifestyle. *Prerequisite:* admission to MBA program or permission of instructor.

MGMT-632 Strategic Human Capital Management (3) Strategically managing human capital can provide a competitive advantage for businesses and nonprofit organizations by understanding perspectives, systems, and tools to effectively link people investments to organizational effectiveness. Includes architecture and measures related to workforce planning, recruitment, selection, development, performance management, and retention with focus on real-world applications.

MGMT-633 Leading People and Organizations (3) This course covers modern management theory and practice for planning, organizing, leading, and deploying human capital to maximize organizational and personal success. Students learn about the individual in context, including motivation, human capital planning, performance management, organizational culture, decision making and leadership of self and others.

MGMT-634 Leading Teams in Modern Organizations (3) Modern organizations demand synergistic results from collaborative workforce structures. This course is designed to help students gain both an explicit and an experiential understanding of factors associated with high performing teams, from both member and managerial perspectives. Students learn specific techniques for leading and managing teams and assessing their own team-related competencies.

MGMT-635 Ethics, Social Responsibility, and Governance (1.5) Effective organizational leadership requires an understanding of ethics, social responsibility, and governance. This course focuses on understanding and articulating standards of good behavior and on developing policies and procedures to assure that standards are met.

MGMT-660 Entrepreneurship and Innovation (3) Entrepreneurship is a way of thinking and behaving that can enrich your life, enhance the organizations you are involved with, and create sub-

stantial, high-impact results. Successful entrepreneurs who start their own new ventures or new ventures within corporate, consulting, nonprofit, government, or social enterprises have developed many of the same attitudes, behaviors, knowledge, and skills.

MGMT-661 Entrepreneurship Practicum: New Venture Business Plan (3) Creating effective business plans for entirely new ventures, or creating new venture business plans within corporations, government, nonprofit, or social organizations is central to entrepreneurship, innovation, and potential high-impact results. This is a practical, experiential course that focuses on the process of creating a new venture business plan. The course also covers growing and scaling the venture. Students create their own new venture business plan as an integral part of the course. *Prerequisite:* ACCT-607 or equivalent, FIN-605, FIN-614, or permission of instructor.

MGMT-663 Managing Private and Family Businesses (1.5) This course examines the uniqueness of companies that are privately held, and addresses the strengths and weaknesses of private and family businesses across stages of family and business development. It covers interpersonal issues such as systems theory, fairness, personal styles and values, and dealing with conflict, as well as business issues relating to having partners including roles, authority, governance, ownership, and sharing profits.

MGMT-664 Leadership: Exploring Styles and Developing Competencies (3) Leadership is a creative act; bringing change, setting direction, and focusing organizational energy. This course builds skill in thinking "outside the box" and aligning with others to enact a vision of the future. Includes empowerment of middle managers, corporation/non-profit entrepreneurship, innovation, influence, charisma, and self-management, creativity and vision exercises. *Prerequisite:* MGMT-609, MGMT-613, or MGMT-633, or permission of instructor.

MGMT-665 Negotiations (3) Focuses on negotiation skills through application of prescriptive and descriptive bargaining and negotiation theory. Integrative and distributive strategies, common tactics and behaviors, negotiation personalities/styles, and ethical issues in negotiation are addressed within the context of dyadic, multi-party, cross-cultural, third-party and team negotiations.

MGMT-666 Strategic Alliances, Mergers, and Acquisitions (3) Strategic alliances and cooperative strategies are fundamental to many new ventures and are particularly important for Internet, information, and high-technology ventures. Entrepreneurs and executives need to understand the range of strategies available, their trade-offs, and how they fit into the portfolio of techniques to grow a new venture and achieve superior returns.

MGMT-668 Global Entrepreneurship and Micro Ventures (1.5) Entrepreneurship is a driving and dynamic force in developed, developing, and less developed countries around the world. This course explores the complex considerations in developing, starting, and growing an entrepreneurship enterprise in multiple contexts and cultures. The utilization of alternative entrepreneurship and micro ventures strategies are also explored. *Prerequisite:* MGMT-660 or permission of instructor.

MGMT-669 Entrepreneurship Financial Strategies and Legal Issues (3) Entrepreneurship financing and related financial legal issue considerations are critical components of an entrepreneurial business plan and running the business. This course covers a range of entrepreneurship financing strategies as well as their related legal considerations. *Prerequisite:* FIN-614.

MGMT-670 Nonprofit and Social Entrepreneurship and Strategy (3) Entrepreneurship is a critical component in nonprofit organizations. Nonprofit and social entrepreneurs can be a dynamic change agent for society and this course provides an in-depth exposure to starting a new nonprofit as well as creating new ventures within an existing nonprofit organization. The course focuses on entrepreneurship thinking and the process for successful new ventures within a nonprofit context. In addition, entrepreneurs' actual and potential contribution to changing lives, improving the environment in which we live, and its contribution to overall national, regional, and local economic and social development are also included.

MGMT-685 Topics in Management (1.5-3) Topics vary by section, may be repeated for credit with different topic. Rotating topics may include current managerial challenges, institutional change, interorganizational issues.

MGMT-687 Corporate Governance (3) This course examines the relationship between managers and shareholders, and the processes and systems that investors use to ensure that managers act in the best interests of the firm's owners. The course covers issues including boards of directors, executive compensation, ownership structure, etc., and uses a combination of readings and case studies. Meets with FIN-687. *Prerequisite:* FIN-614.

MGMT-690 Independent Study Project (1-6) *Prerequisite:* permission of instructor and department chair.

MGMT-691 Internship (1.5) *Prerequisite:* permission of instructor and department chair. May be taken pass/fail only.

MGMT-692 Cooperative Education Field Experience (3-6) *Prerequisite:* permission of department chair and Cooperative Education office.

MGMT-717 Sustainable Strategy and Management (3) Sustainability is increasingly becoming a significant issue for business. Stakeholders are demanding that businesses minimize their negative impacts on natural and social systems and instead strive to create economically, socially, and environmentally sustainable organizations. Sustainability considerations create challenges and opportunities for businesses. This course helps students understand the complex relationship between business, societies, governments, and the natural environment, with a focus on strategic considerations for business organizations.

Business: Marketing

Undergraduate Courses

MKTG-250 Fundamentals of Marketing and Business for Communications (3) This course provides an introduction to the fundamentals of marketing and business relevant to media and communications. Includes an overview of the principles of marketing, the business environment, and business strategy and an introduction to microeconomics and financial statements. *Note:* This course is designed for non-business majors only and may not be taken by students who have a declared or intended major in KSB.

MKTG-300 Principles of Marketing (3) Introduction to marketing decision making in business and nonprofit organizations. Particular attention is devoted to analysis of customer needs; segmenting markets; and developing product, promotion, pricing, and distribution strategies. Relationships between consumers, business, and government are explored. *Prerequisite:* ECON-200.

MKTG-301 Consumer Behavior (3) Study of marketing, psychology, sociology, and cultural anthropology to determine moti-

ations for product purchases. A multimedia approach is used to illustrate the use of behavioral science theory to create new products and promotional campaigns. Students learn to analyze consumer decisions for products or services and to determine effectiveness of information provided by government and charitable organizations. *Prerequisite:* MKTG-300 or MKTG-250.

MKTG-302 Marketing Research (3) Study of research tools used to aid marketing decision making. Considers definition of research problems, selection of projects, and analysis of data. Execution of a consumer survey is a major component of the course. Students use computers to analyze research data. *Prerequisite:* MKTG-300 or MKTG-250, and STAT-202.

MKTG-311 Internet Marketing (3) Analysis of the Internet's impact on marketing decision making. Includes Internet marketing strategy, electronic markets, customer purchase behavior, Internet marketing ethics, and the impact of the Internet on product development, promotion, pricing, and distribution strategies. Attention is devoted to integrating on-line and off-line marketing strategies. *Prerequisite:* MKTG-300 or MKTG-250.

MKTG-390 Independent Reading Course in Marketing (1-3) *Prerequisite:* permission of instructor and department chair.

MKTG-391 Internship in Marketing (1-6) Provides students with the opportunity to blend practical business work experience with academic study. The academic workload varies depending on the internship credit to be earned. *Prerequisite:* MKTG-300 or MKTG-250, 6 additional credit hours in business courses, and permission of instructor and department chair.

MKTG-392 Cooperative Education Field Experience (3-6) *Prerequisite:* MKTG-300 or MKTG-250, 6 additional credit hours in business courses, and permission of department chair and Cooperative Education office.

MKTG-402 Marketing Strategy (3) Analysis of current marketing management issues. Students develop a marketing plan for an outside organization, analyze case studies, and participate in computer simulation exercises. *Prerequisite:* MKTG-300 or MKTG-250, MKTG-302, and ACCT-241.

MKTG-411 Advertising and Marketing Communications Management (3) The role of advertising, public relations, personal selling, and sales promotion in business. Emphasis on how promotional campaigns are planned, created, and budgeted, and how these campaigns can inform buyers, change attitudes, and increase sales. *Prerequisite:* MKTG-301 (may be taken concurrently) and upper-division standing.

MKTG-412 Advertising and Promotion Campaigns (3) Development of an advertising campaign for a client. Includes formulation of advertising strategy, media planning, media buying, creative execution, and campaign evaluation. *Prerequisite:* MKTG-411 and upper-division standing.

MKTG-421 Brand Management (3) Students explore brand-building and brand management for products, services, and organizations. This highly-interactive course focuses on the strategic decisions and challenges faced by brand managers. Emphasis is placed on experience with proven strategies for building brands in the competitive marketplace, on the decisions and options faced by brand managers, and on the necessary tools to manage brands. Students construct the brand concept for a new advantage, create brand identity, and build brand equity over time. *Prerequisite:* MKTG-250 or MKTG-300.

410 Course Descriptions

MKTG-431 Direct Response Marketing (3) Examination of direct marketing tools, such as direct mail, direct-response broadcast and print advertising, and telemarketing. Use of database technology to target prospective customers, and review of direct marketing in specific industries such as financial, retail, political, and fund-raising. *Prerequisite:* MKTG-300 or MKTG-250.

MKTG-441 Sports Marketing Management (3) This course for marketing majors and minors introduces students to managerial decision making within the sports industry and other businesses that use sports as an important component of their marketing strategies. The primary emphasis of the course is the application of marketing principles to actual problems faced by practicing sports marketers. *Prerequisite:* MKTG-300 or MKTG-250.

MKTG-490 Independent Study Project in Marketing (1-3) *Prerequisite:* MKTG-300 or MKTG-250, and MKTG-302, and permission of instructor and department chair.

Graduate Courses

MKTG-610 Marketing Management (1.5) This course focuses on the development of marketing strategy in business and in non-profit organizations. Global and high-technology perspectives are offered throughout the course. Harvard Business School and IMD case studies and descriptions of actual marketing problems are presented and students act as marketing managers in analyzing the evidence presented and in developing solutions in order for students to learn marketing problem-solving skills through experiential or interactive learning. *Prerequisite:* KSB-601 and enrollment in MBA program, or permission of department chair.

MKTG-612 Marketing Management (3) An introduction to current marketing management techniques and the tools necessary for effective marketing decision making. Global perspective on marketing management and international marketing issues. Interactive learning techniques include the case method and active class participation. Issues including ethics, minorities, and the ecological environment are incorporated. Course content requires familiarity with micro economics theory, basic concepts of accounting, and Quattro-Pro or similar spreadsheet program. *Prerequisite:* ACCT-607, ACCT-609 (may be taken concurrently), and FIN-605.

MKTG-632 Fundamentals of Marketing (3) This course provides students with an introduction to the fundamental principles of marketing needed for business, both profit and non profit. Includes an overview of the principles of marketing; an introduction to microeconomics and basic accounting concepts; and a summary of the marketing environment and marketing strategy.

MKTG-685 Topics in Marketing (1.5-3) Topics vary by section, may be repeated for credit with different topic. In depth coverage of rotating topics including qualitative and quantitative research methods on the Internet, web site design for e-marketing, etc. *Prerequisite:* MKTG-610, MKTG-612, or MKTG-632.

MKTG-690 Independent Study Project (1-6) *Prerequisite:* permission of instructor and department chair and MKTG-612.

MKTG-691 Internship (1.5) *Prerequisite:* permission of instructor and department chair and MKTG-612. May be taken pass/fail only.

MKTG-692 Cooperative Education Field Experience (3-6) *Prerequisite:* permission of department chair and Cooperative Education office.

MKTG-750 Internet Marketing Management (1.5) Using the Internet as an implementation tool for business and marketing strat-

egy. Provides an overview of web and commerce technologies, but the focus of the course is on marketing applications of the Internet, including distribution, commerce, advertising, public relations, and other "stakeholder" relations. A technical background is not required, but students develop an understanding of technical aspects of the Internet relating to marketing strategy. *Prerequisite:* MKTG-610, MKTG-612, or MKTG-632.

MKTG-754 Database Marketing (1.5) In contrast to traditional mass marketing approaches where firms market to large segments of consumers, database marketing uses individual level customer data (e.g., name, address, age, income, date and dollar amount of last purchase) to tailor marketing programs to individual customers. These individual level data are used to better understand customer behavior, to more effectively segment, target, and serve the marketer's customers, and to identify new, promising prospects. *Prerequisite:* MKTG-610, MKTG-612, or MKTG-632.

MKTG-755 Applied Market Segmentation (1.5) This course brings together geography and demographics (geodemographics) to teach students how to segment markets and consumers more precisely so that marketing resources are used more effectively. Students also learn about the availability and characteristics of public and proprietary data and how these sources can be merged to provide valuable insights about consumer behavior and target marketing. This is a hands-on, practical course that includes mapping, reporting, and writing assignments using the proprietary software and segmentation tools developed by Nielsen Claritas; the market leader in precision marketing. *Prerequisite:* MKTG-610, MKTG-612, or MKTG-632.

MKTG-761 Buyer Behavior (1.5) Analysis of the psychological foundations of consumer behavior and implications for marketing strategy, including consumer perception, attention, comprehension, and memory; attitudes and attitude-behavior relationships; information integration and decision making; and behavior modification perspectives. *Prerequisite:* MKTG-610, MKTG-612, or MKTG-632.

MKTG-762 Integrated Marketing Communication (3) Survey of issues and techniques in integrated marketing communication (IMC). The course covers foundation issues, general strategic issues, and specific IMC vehicles and techniques. Includes the role of the "brand" in IMC, the role of consumer behavior, setting objectives, creative planning and implementation, direct marketing, advertising, sales promotions, sponsorship, and campaign effectiveness. *Prerequisite:* MKTG-610, MKTG-612, or MKTG-632.

MKTG-765 Brand Strategy (3) This course views marketing as both a central part of a firm's business function and as an orientation for the firm. Issues such as market analysis, segmentation, and product positioning for strategic advantage are covered, in addition to formulating and executing strategy in light of market growth opportunities and partner relationships. The course uses a mix of case and reading discussions and a competitive strategy simulation to enhance student skills and understanding of marketing strategy. *Prerequisite:* MKTG-610, MKTG-612, or MKTG-632.

MKTG-767 Research for Marketing Decisions (3) This course provides an overview of marketing research and its use in making effective marketing decisions. The course introduces the market research process and emphasizes appropriate research design and sampling plans so that the results generated are meaningful and valid. Qualitative research techniques (including focus groups and depth interviews) and survey research methods (including

cross-sectional and longitudinal surveys) are covered. Students design questionnaires, conduct research studies, and use computer software to analyze data. Emphasis is on the analysis and interpretation of market research data for marketing decision making. *Prerequisite:* ITEC-610; and MKTG-612 or MKTG-632 or MKTG-610.

Usually offered every term. *Prerequisite for General Education credit:* GOVT-105 or HIST-115 or JLS-110 or PHIL-105 or RELG-105.

PHIL-221 Philosophy, Politics, and Society (3) Theories of the nature of society and justification of social institutions. Critical study of such social problems as control of technology and the environment, education, militarism, racism, imperialism, civil disobedience, rebellion, and revolution. Usually offered every spring.

PHIL-230 Meaning and Purpose in the Arts 1:2 (3) Leading theories of the nature, purpose, and meaning of artistic activities and objects examined through writings of philosophers, artists, and critics of ancient and modern times. Both Western and non-Western viewpoints are considered. Student projects apply critical ideas to particular works in an art form familiar to them. Usually offered every fall. *Prerequisite for General Education credit:* ARTH-105 or COMM-105 or LIT-120 or LIT-135.

PHIL-235 Theories of Democracy and Human Rights 2:2 (3) This course analyzes traditional Western theories of democracy and rights, both separately and in relation to each other, as well as contemporary approaches such as Habermasian, post-modern, feminist, and critical race theory. It also considers the East-West debate on human rights. Usually offered every spring. *Prerequisite for General Education credit:* GOVT-105 or HIST-115 or JLS-110 or PHIL-105 or RELG-105.

PHIL-240 Ethics in the Professions 4:2 (3) This course provides a framework for thinking generally about ethics, and more specifically about professional ethics. In addition, it addresses ethical dilemmas that arise in the professions of government, law, business, medicine, the media, and the academy. Usually offered every fall. *Prerequisite for General Education credit:* COMM-100 or ECON-100 or GOVT-110 or SOCY-150.

PHIL-241 Bioethics (3) An introduction to the growing field of bioethics, this course examines the ethical implications of recent developments in bio-medical technology, as well as the ethical lessons of historical cases. Students read philosophers and ethicists on topics such as human subject research, patients' rights, medical rationing, and public and global health issues. Usually offered alternate springs.

PHIL-300 Ancient and Medieval Philosophy (3) History of Western philosophy from the earliest period through the sixteenth century. Philosophers and their general cultural milieu. The formation of the classical world view and accommodation of this world picture to requirements of Judaism, Christianity, and Islam. Meets with PHIL-600. Usually offered alternate falls. *Prerequisite:* PHIL-105 or permission of instructor.

PHIL-301 Modern Philosophy from Bacon to Hegel (3) Modern Western philosophic ideas are studied in relation to the scien-

tific, cultural, and political environment of seventeenth and eighteenth century Europe. Meets with PHIL-601. Usually offered alternate springs. *Prerequisite:* PHIL-105 or permission of instructor. *Note:* PHIL-300 is recommended, but not required.

PHIL-302 Nineteenth Century Philosophy (3) Explores the fundamental themes of contemporary Western philosophy and their relation to historical developments, such as the Industrial Revolution, and scientific developments, such as the Darwinian revolution. Covers utilitarianism, pragmatism, Marxism, existentialism, and philosophy of science. Meets with PHIL-602. Usually offered every fall. *Prerequisite:* PHIL-105 or permission of instructor.

PHIL-303 Twentieth Century Philosophy (3) Explores the fundamental themes of contemporary, continental Western philosophy. Includes existentialism, phenomenology, hermeneutics, deconstructionism, and postmodernism. Meets with PHIL-603. Usually offered every spring. *Prerequisite:* PHIL-105 or permission of instructor.

PHIL-310 The Classical Period (3) Topics vary by section, may be repeated for credit with different topic. Regularly recurring topics include the pre-Socratics, Plato, Aristotle, Neo-Platonism, and Augustine. Meets with PHIL-610. Usually offered alternate falls. *Prerequisite:* PHIL-105 or permission of instructor.

PHIL-311 Modern European Movements (3) Topics vary by section, may be repeated for credit with different topic. Regularly recurring topics include the British empiricists, continental rationalists, Kant, Hegel, and post-Hegelian idealism. Meets with PHIL-611. Usually offered alternate springs. *Prerequisite:* PHIL-105 or permission of instructor.

PHIL-312 Recent and Contemporary Philosophers (3) Topics vary by section, may be repeated for credit with different topic. Regularly recurring topics include Nietzsche, Kierkegaard, Husserl, naturalism, French existentialism, German existentialism, post-existential European philosophy, and analytic philosophy and phenomenology. Meets with PHIL-612. Usually offered alternate falls. *Prerequisite:* PHIL-105 or permission of instructor.

PHIL-313 Studies in Asian Philosophy (3) Topics vary by section, may be repeated for credit with different topic. Regularly recurring topics include Buddhist, Indian, and comparative philosophy. Meets with PHIL-613. Usually offered every spring. *Prerequisite:* one introductory course in philosophy.

PHIL-314 American Philosophy (3) The background and substance of American philosophy since colonial times. The role of philosophical ideas, European and indigenous, in the growth of American culture. Meets with PHIL-614. Usually offered alternate springs. *Prerequisite:* one introductory course in philosophy.

PHIL-315 Topics in Jewish Philosophy (3) Topics vary by section, may be repeated for credit with different topic. Rotating topics on the chief intellectual and philosophical currents of Jewish thought. Topics may include the study of the major Jewish thinkers of the past, such as Philo, Maimonides, or Martin Buber; or the course may be organized thematically around such questions as the relationship of Jewish thought to Aristotelian philosophy or the resonance of the Holocaust in Jewish philosophy. Meets with PHIL-615. Usually offered every fall.

PHIL-316 Feminist Philosophy (3) Explores some of the challenges posed by feminist philosophers to traditional constructions of subjectivity through interrogation of one or more areas of philosophical thought: ethics, political theory, epistemology, philosophy of mind, philosophy of science, or philosophy of language. Meets

418 Course Descriptions

with PHIL-616. Usually offered every spring. *Prerequisite:* two courses in philosophy.

PHIL-317 Race and Philosophy (3) An introduction to the emerging area of critical race theory in philosophy. The course examines the development of “race” as an object of philosophy beginning in the early modern period, explores the way in which analysis of race has brought philosophy into public conversation, and the ways that philosophers have treated race and racism. Meets with PHIL-617. Usually offered alternate falls. *Prerequisite:* PHIL-105 or permission of instructor.

PHIL-318 Chinese Philosophy (3) Through close readings of primary texts in three major ancient Chinese philosophical traditions, Confucianism, Taoism, and Buddhism, this course explores Chinese understandings of human nature, language, transcendentalism, politics, and ethics. Meets with PHIL-618. Usually offered alternate springs. *Prerequisite:* one course in philosophy.

PHIL-319 Buddhist Philosophy (3) This course explores Buddhist philosophy of the mind, language, and ethics through a close reading of major Buddhist texts. Meets with PHIL-619. Usually offered alternate springs. *Prerequisite:* one course in philosophy.

PHIL-353 Metaphysics (3) Topics vary by section, may be repeated for credit with different topic. Course focuses on one of the following topics: mind and soul, the concept of freedom, analysis and explanation of action, and metaphysics and metaphilosophy. Meets with PHIL-653. Offered irregularly. *Prerequisite:* two courses in philosophy or permission of instructor.

PHIL-355 Philosophy of Religion (3) Leading contemporary movements in the philosophy of religion. Meets with PHIL-655. Usually offered alternate falls. *Prerequisite:* one introductory course in philosophy or religion.

PHIL-386 Selected Topics in Philosophy (3) Topics vary by section, may be repeated for credit with different topic. Rotating topics including medical ethics, philosophy of language, advanced philosophical argumentation, philosophy of reason and passion, bio-ethics, and post-modernism. Usually meets with PHIL-686. Usually offered every term. *Prerequisite:* PHIL-105 or permission of instructor.

PHIL-390 Independent Reading Course in Philosophy (1–6) *Prerequisite:* permission of instructor and department chair. *Note:* generally open only to seniors.

PHIL-391 Internship in Philosophy (1–6) *Prerequisite:* permission of instructor and department chair. *Note:* generally open only to seniors.

PHIL-392 Cooperative Education Field Experience (3–6) *Prerequisite:* permission of department chair and Cooperative Education office.

PHIL-480 Senior Seminar (3) This seminar provides a capstone experience for majors in philosophy. Students develop a research project, refining and demonstrating the skills they have developed as philosophy majors. Usually offered every spring. *Prerequisite:* senior philosophy majors.

PHIL-486 Colloquium in Philosophy (1) Topics vary by section, may be repeated for credit with different topic. This course provides an opportunity for students to engage in philosophical practice in a more expansive way than in a traditional class in order to explore a central question of philosophical significance, a prominent theme, or important text. *Prerequisite:* one course in philosophy.

PHIL-490 Independent Study Project in Philosophy (1–6) *Prerequisite:* permission of instructor and department chair. *Note:* generally open only to seniors.

PHIL-498 Honors Project in Philosophy (3–6) *Prerequisite:* permission of department and University Honors Director.

Graduate and Advanced Undergraduate Courses

PHIL-520 Seminar on Ethical Theory (3) Survey of the development of ethical theory in Western philosophy by analysis of major works in classical and contemporary moral philosophy. Issues investigated include the nature of the good and the right, the possibility of moral knowledge, the principles of individual virtue and social justice, the problems of ethical relativism and absolutism, and the foundations of modern conceptions of human rights. Usually offered every fall. *Prerequisite:* PHIL-220 or permission of instructor.

PHIL-525 Seminar on Modern Moral Problems (3) Investigation of moral philosophers’ attempts to analyze specific moral problems (e.g., abortion, euthanasia, pornography, surrogate parenting, capital punishment, economic justice, affirmative action, research with human subjects, genetic research, government secrecy and deception) and to formulate general principles for ethical analysis of social policies and professional ethics (for lawyers, doctors, etc.). Usually offered every spring. *Prerequisite:* PHIL-220 or permission of instructor.

PHIL-590 Independent Reading Course in Philosophy (1–6) *Prerequisite:* permission of instructor and department chair.

Graduate Courses

Note: Courses at the 600 level generally meet with courses at the 300 level. Registration at the 600 level implies graduate-level assignments and higher expectations regarding performance.

PHIL-600 Ancient and Medieval Philosophy (3) History of Western philosophy from the earliest period through the sixteenth century. Philosophers and their general cultural milieu. The formation of the classical world view and accommodation of this world picture to requirements of Judaism, Christianity, and Islam. Meets with PHIL-300. Usually offered alternate falls.

PHIL-601 Modern Philosophy from Bacon to Hegel (3) Modern Western philosophic ideas are studied in relation to the scientific, cultural, and political environment of seventeenth and eighteenth century Europe. Meets with PHIL-301. Usually offered alternate springs. *Note:* PHIL-600 is recommended but not required.

PHIL-602 Nineteenth Century Philosophy (3) Explores the fundamental themes of contemporary Western philosophy and their relation to historical developments, such as the Industrial Revolution, and to scientific developments, such as the Darwinian revolution. Covers utilitarianism, pragmatism, Marxism, existentialism, and the philosophy of science. Meets with PHIL-302. Usually offered every fall.

PHIL-603 Twentieth Century Philosophy (3) Explores the fundamental themes of contemporary, continental Western philosophy. Includes existentialism, phenomenology, hermeneutics, deconstructionism, and postmodernism. Meets with PHIL-303. Usually offered every spring.

PHIL-610 The Classical Period (3) Topics vary by section, may be repeated for credit with different topic. Regularly recurring topics include: the pre-Socratics, Plato, Aristotle, Neo-Platonism, and Augustine. Meets with PHIL-310. Usually offered alternate falls. *Prerequisite:* PHIL-600 or permission of instructor.

PHIL-611 Modern European Movements (3) Topics vary by section, may be repeated for credit with different topic. Regularly recurring topics include: the British empiricists, continental rationalists, Kant, Hegel, and post-Hegelian idealism. Meets with PHIL-311. Usually offered alternate springs.

PHIL-612 Recent and Contemporary Philosophers (3) Topics vary by section, may be repeated for credit with different topic. Regularly recurring topics include Nietzsche, Kierkegaard, Husserl, naturalism, French existentialism, German existentialism, post-existential European philosophy, and analytic philosophy and phenomenology. Meets with PHIL-312. Usually offered alternate falls.

PHIL-613 Studies in Asian Philosophy (3) Topics vary by section, may be repeated for credit with different topic. Regularly recurring topics include Buddhist, Indian, and comparative philosophy. Meets with PHIL-313. Usually offered every spring.

PHIL-614 American Philosophy (3) The background and substance of American philosophy since colonial times. The role of philosophical ideas, European and indigenous, in the growth of American culture. Meets with PHIL-314. Usually offered alternate springs.

PHIL-615 Topics in Jewish Philosophy (3) Topics vary by section, may be repeated for credit with different topic. Rotating topics on the chief intellectual and philosophical currents of Jewish thought. Topics may include the study of the major Jewish thinkers of the past, such as Philo, Maimonides, or Martin Buber; or the course may be organized thematically around such questions as the relationship of Jewish thought to Aristotelian philosophy or the resonance of the Holocaust in Jewish philosophy. Meets with PHIL-315. Usually offered every fall.

PHIL-616 Feminist Philosophy (3) Explores some of the challenges posed by feminist philosophers to traditional constructions of subjectivity through interrogation of one or more areas of philosophical thought: ethics, political theory, epistemology, philosophy of mind, philosophy of science, or philosophy of language. Meets with PHIL-316. Usually offered every spring.

PHIL-617 Race and Philosophy (3) An introduction to the emerging area of critical race theory in philosophy. The course examines the development of "race" as an object of philosophy beginning in the early modern period, explores the way in which analysis of race has brought philosophy into public conversation, and explores the ways that philosophers have treated race and racism. Meets with PHIL-317. Usually offered alternate falls.

PHIL-618 Chinese Philosophy (3) Through close readings of primary texts in three major ancient Chinese philosophical traditions, Confucianism, Taoism, and Buddhism, this course explores Chinese understandings of human nature, language, transcendentalism, politics, and ethics. Meets with PHIL-318. Usually offered alternate springs. Prerequisite: one course in philosophy.

PHIL-619 Buddhist Philosophy (3) This course explores Buddhist philosophy of the mind, language, and ethics through a close reading of major Buddhist texts. Meets with PHIL-319. Usually offered alternate springs. Prerequisite: one course in philosophy.

PHIL-653 Metaphysics (3) Topics vary by section, may be repeated for credit with different topic. Course focuses on one of the following topics: mind and soul, the concept of freedom, analysis and explanation of action, and metaphysics and metaphilosophy. Meets with PHIL-353. Offered irregularly.

PHIL-655 Philosophy of Religion (3) Leading contemporary movements in the philosophy of religion. Meets with PHIL-355. Usually offered alternate falls.

PHIL-686 Selected Topics in Philosophy (3) Topics vary by section, may be repeated for credit with different topic. Rotating topics including: medical ethics, philosophy of language, advanced philosophical argumentation, philosophy of reason and passion, bio-ethics, and post-modernism. Usually meets with PHIL-386. Usually offered every term.

PHIL-690 Independent Study Project in Philosophy (1-6) Prerequisite: permission of instructor and department chair.

PHIL-691 Internship in Philosophy (1-6) Prerequisite: permission of instructor and department chair.

PHIL-692 Cooperative Education Field Experience (3-6) Prerequisite: permission of department chair and Cooperative Education office.

PHIL-693 Global Ethics (3) The integrative seminar for the M.A. in Ethics, Peace, and Global Affairs. Discusses ethics, ethical systems, and the presuppositions of international relations from a critical, cross-cultural perspective. Completion and presentation of a major integrative research paper is required. Usually offered every fall.

PHIL-702 Graduate Seminar in Philosophy (3-12) Topics vary by section, may be repeated for credit with different topic. Intensive study of selected problems under individual direction. Topics include history of philosophy, metaphysics, logic, epistemology, philosophy of science, value theory, philosophy of religion, social philosophy, and Eastern philosophy. Usually offered every term.

PHIL-797 Master's Thesis Seminar (1-6) May be taken pass/fall only. Prerequisite: permission of department chair.

Physics

Undergraduate Courses

PHYS-100 Physics for the Modern World 5:1 (4) The laws and rules that govern nature and the physical universe are beautiful yet mysterious. Physics is the science that tries to find these laws by observation, measurement, and testing of hypotheses. The course traces the development of the scientific method and work that forms the basis for studying mechanics, waves, sound, light, and electricity. Includes laboratory. Usually offered every term. Prerequisite: completion of the University Mathematics Requirement or concurrent enrollment in a mathematics or statistics course that has MATH-15x Finite Mathematics as a prerequisite.

PHYS-105 General Physics I 5:1 (4) The first course in a rigorous, two-semester sequence in general physics, including weekly laboratory. Includes the study of motion and forces, Newton's Laws, momentum, energy, gravitation, fluids, properties of matter, and thermodynamics. Note: PHYS-105/205 generally satisfy minimum requirements of medical and dental schools. Usually offered every fall. Prerequisite: MATH-170 or equivalent.

PHYS-110 Principles of Physics I 5:1 (4) The first course in a calculus-based, two-semester sequence in general physics, including weekly laboratory. Includes the study of motion and forces, Newton's Laws, momentum, energy, gravitation, fluids, properties of matter, and thermodynamics. Note: PHYS-110/210 generally satisfy requirements of medical and dental schools. Usually offered every fall. Prerequisite: MATH-221 (may be taken concurrently) or permission of instructor.

PHYS-200 Physics for a New Millennium 5:2 (3) In an interactive lab/lecture environment, students have the opportunity to explore topics in electricity and magnetism, light and optics, and modern physics. Emphasis is placed on inquiry-based activities that utilize these topics as a foundation for understanding current technological advancements. Usually offered every fall. *Prerequisite:* PHYS-100. *Prerequisite for General Education credit:* CHEM-100 or CHEM-110 or PHYS-100 or PHYS-105 or PHYS-110.

PHYS-205 General Physics II 5:2 (4) The second course in a rigorous, two-semester sequence in general physics, including weekly laboratory. Includes the study of waves, sound, light and optics, fields, electricity and magnetism, circuits, and other topics in modern physics. *Note:* PHYS-105/205 generally satisfy minimum requirements of medical and dental schools. Usually offered every spring. *Prerequisite:* PHYS-105 or PHYS-110, or permission of instructor. *Prerequisite for General Education credit:* CHEM-100 or CHEM-110 or PHYS-100 or PHYS-105 or PHYS-110.

PHYS-210 Principles of Physics II 5:2 (4) The first course in a calculus-based, two-semester sequence in general physics, including weekly laboratory. Includes the study of waves, sound, light and optics, fields, electricity and magnetism, circuits, and other topics in modern physics. *Note:* PHYS-110/210 generally satisfy requirements of medical and dental schools. Usually offered every spring. *Prerequisite:* MATH-221 and PHYS-110, or permission of instructor. *Prerequisite for General Education credit:* CHEM-100 or CHEM-110 or PHYS-100 or PHYS-105 or PHYS-110.

PHYS-220 Astronomy 5:2 (3) Theories of the formation of the universe, its structure and evolution over time. Stars, planets, and galaxies are born and change over the years; supernovae, neutron stars, pulsars, black holes, quasars, and solar systems are formed. Usually offered every term. *Prerequisite for General Education credit:* CHEM-100 or CHEM-110 or PHYS-100 or PHYS-105 or PHYS-110.

PHYS-230 Changing Views of the Universe 2:2 (3) Study of science as a tradition that shaped and was shaped by the Western world. This is a course about science—how scientific thought, practice, and culture developed. It explores changing concepts in the physical sciences from their earliest roots to modern times, and discusses the interaction between the physical sciences and other aspects of society. Usually offered every fall. *Prerequisite for General Education credit:* GOVT-105 or HIST-115 or JLS-110 or PHIL-105 or RELG-105.

PHYS-300 Acoustics (3) Properties of sound, speech and music, reflection and diffraction. Open-air theaters, sound-absorptive materials and special constructions, and principles of room acoustics and design. Noise control, reduction of air-borne and solid-borne noise, and control of noise in ventilating systems, sound-amplification systems, and auditoriums. Usually offered alternate falls. *Prerequisite:* PHYS-205 or PHYS-210, or PHYS-200 and MATH-221 or MATH-211, or permission of instructor.

PHYS-310 Electronics I (3) Fundamentals of basic analog electronic components and circuits. Components examined include: resistors, capacitors, inductors, rectifiers, transformers, triodes, and transistors. Quantities examined include: voltage, resistance, current, inductance, capacitance, reactance, and impedance. Circuit analysis involves application of Ohm's Law and Kirchhoff's rules. Circuits include: DC, AC, tuned, rectifier, and simple amplifying circuits. Usually offered alternate falls. *Prerequisite:* PHYS-205 or

PHYS-210, or PHYS-200 and MATH-221 or MATH-211, or permission of instructor.

PHYS-315 Electronics Laboratory I (2) Experiments to accompany PHYS-312. Experiments include: DC circuits, resistance, capacitance, inductance, AC circuits, rectifiers, vacuum tubes, transistors, and amplifying circuits. Usually offered alternate falls. Must be taken concurrently with PHYS-310.

PHYS-320 Electronics II (3) Continuation of analog electronics with an introduction to switching circuits and the fundamentals of digital electronics (TTL and diode logic). Components include semiconductor devices, operational amplifiers, ICs, D/A and A/D converters. Circuits include: multiple transistor amplifiers, transistor switching, oscillators, gates, and flip-flops. Usually offered alternate springs. *Prerequisite:* PHYS-310, or permission of instructor.

PHYS-325 Electronics Laboratory II (2) Experiments to accompany PHYS-313. Experiments include: transistor characteristics, multiple transistor amplifiers, operational amplifiers, oscillators, gates, flip-flops, D/A and A/D conversion, and circuits using ICs. Usually offered alternate springs. Must be taken concurrently with PHYS-320.

PHYS-331 Modern Physics (3) Electrons, protons, and structure of matter: a historic view. The Rutherford-Bohr atom and elements of quantum mechanics and their applications to atomic, nuclear, and solid state physics. Usually offered every fall. *Prerequisite:* PHYS-200, PHYS-205, or PHYS-210, and MATH-222 (may be taken concurrently), or permission of instructor.

PHYS-351 Waves and Optics (3) The physics of waves is required to understand sound, light, and electronic information transfer. Starting with resonance phenomena, Fourier analysis, and basic wave equations, the course builds to an understanding of acoustic and optics. Laboratory activities are integrated into lectures. Usually offered every spring. *Prerequisite:* PHYS-200, PHYS-205, or PHYS-210, and MATH-222, or permission of instructor.

PHYS-360 Astrophysics (3) A study of the interiors, atmosphere, and life cycle of the sun and other stars. The course includes methods for quantifying stellar characteristics, radiative transfer, fundamental stellar timescales, thermonuclear reactions, and evolutionary models. Usually offered alternate springs. *Prerequisite:* PHYS-331 or permission of instructor.

PHYS-380 Mathematical and Computational Physics (3) Introduces mathematical methods that are regularly used in upper-level physics courses, including linear algebra and eigenvalue problems, applications of multivariate and vector calculus, ordinary and partial differential equations, among others, and applies these to a variety of physics problems. Mathematica software is taught and used in the course. Usually offered alternate falls. *Prerequisite:* PHYS-200, PHYS-205, or PHYS-210, and MATH-313 (may be taken concurrently).

PHYS-390 Independent Reading Course in Physics (1–6) *Prerequisite:* permission of instructor and department chair.

PHYS-392 Cooperative Education Field Experience (3–9) *Prerequisite:* permission of department chair and Cooperative Education office.

PHYS-430 Classical Mechanics (3) Vector analysis. Newton's laws and dynamics of particles. Harmonic oscillator. Conservative systems. Gravitational forces and potential. Central fields and the motions of planets and satellites. Relativity. Elements of mathe-

mathematical physics. Usually offered alternate springs. *Prerequisite:* PHYS-351 and MATH-321 (may be taken concurrently).

PHYS-440 Experimental Physics (3) Lectures and laboratory with selected experiments to accompany advanced courses in mechanics, electricity and magnetism, acoustics, optics, and modern physics. Students plan and complete experiments that fit their background and previous training. Usually offered every fall. *Prerequisite:* PHYS-331 and PHYS-351, or permission of instructor.

PHYS-450 Electricity and Magnetism (3) Electrostatics, potential theory, magnetic fields, Faraday and Ampere's laws, dielectric magnetic media, and Maxwell's equations. Usually offered every alternate springs. *Prerequisite:* PHYS-380 or PHYS-430, or permission of instructor.

PHYS-460 Statistical Mechanics (3) An introduction to thermodynamics and statistical mechanics, the areas of physics that provide general frameworks for understanding how the macroscopic behaviors of matter and energy emerge from the microscopic properties of atoms, molecules, and other elementary particles or degrees of freedom. Usually offered alternate falls. *Prerequisite:* PHYS-351 and MATH-313.

PHYS-470 Introduction to Quantum Mechanics (3) Wave mechanics, Schrodinger equation, potential barriers and potential wells, harmonic oscillator, operators, eigenfunctions, eigenvalues, degeneracies, angular momentum, hydrogen atom. Usually offered every alternate springs. *Prerequisite:* PHYS-380 or PHYS-430, or permission of instructor.

PHYS-480 Physics Capstone Seminar (3) Weekly research seminars include discussion of or lectures on physics research methods or research-related topics, and development of research skills, including the use of important scientific software and research tools. Students develop a capstone research project and associated goals, write a substantial research thesis, present a professional research talk, and maintain a research notebook. Usually offered every spring. *Prerequisite:* permission of department.

PHYS-490 Independent Study Project in Physics (1-6) *Prerequisite:* permission of instructor and department chair.

PHYS-491 Internship (1-6) *Prerequisite:* permission of instructor and department chair.

Psychology

Undergraduate Courses

PSYC-105 Psychology: Understanding Human Behavior 4:1 (3) Survey of the social bases of behavior and the individual foundations of group and social behavior. The concepts and methodologies of psychology in such areas as social learning, motivation, personality, sex similarities and differences, and abnormal behavior. The interaction between the individual and social institutions is emphasized. Usually offered every term.

PSYC-115 Psychology as a Natural Science 5:1 (3) Through lectures and discussion, students are introduced to the many experimental questions addressed in psychology, e.g., biological bases of behavior, conditioning and learning, memory and cognition, and drug use and abuse, as well as to the specific methods used in psychological research and the general research approaches used in science. Usually offered every term. *Prerequisite:* completion of the University Mathematics Requirement or concurrent enrollment in a mathematics or statistics course that has MATH-15x Finite Mathematics as a prerequisite. Must be taken concurrently with PSYC-116.

PSYC-116 Psychology as a Natural Science Lab 5:1 (1) Through laboratory experiments and simulations, students are exposed to the various techniques, procedures, designs used in the study of behavior. Usually offered every term. *Prerequisite:* completion of the University Mathematics Requirement or concurrent enrollment in a mathematics or statistics course that has MATH-15x Finite Mathematics as a prerequisite. Must be taken concurrently with PSYC-115.

PSYC-200 Behavior Principles 5:2 (3) The experimental analysis of behavior (EAOB) systematically relates a behavior's probability to its consequences (reinforcement and punishment). Principles derived from the EAOB are used to explain simple animal learning, stimulus control, behavioral sequences and patterning, verbal and other complex human behavior, and emotion. Issues raised by a behavioral approach to human conduct are discussed. Usually offered every term. *Prerequisite for General Education credit:* BIO-100 or BIO-110 or ENVS-150 or PSYC-115.

PSYC-205 Social Psychology 4:2 (3) The processes of social thinking, such as the attribution of causality and the relation of attitudes to behavior; social influence, such as conformity, obedience, and persuasion; and social relations, including aggression, altruism, prejudice, and attraction. Focus on the individual in social settings. Research methods are emphasized. Usually offered every term. *Prerequisite for General Education credit:* ANTH-150 or PSYC-105 or SOCY-100 or WGSS-125.

PSYC-215 Abnormal Psychology and Society 4:2 (3) Focuses on behavior labeled as abnormal by society. Abnormal behavior as a function of the individual's interaction with social institutions (family, school, legal system, mental-health system, etc.). Introduction to the major concepts, theories, and issues of abnormal psychology. Usually offered every term. *Prerequisite for General Education credit:* ANTH-150 or PSYC-105 or SOCY-100 or WGSS-125.

PSYC-220 The Senses 5:2 (3) An introductory discussion of why things appear as they do. Investigation of our perceptual experiences—their origins, refinements, interpretations, and applications. Discussion of scientific theory and research on the senses. Usually offered every term. *Prerequisite for General Education credit:* BIO-100 or BIO-110 or ENVS-150 or PSYC-115.

PSYC-235 Theories of Personality 4:2 (3) Students explore and critically compare four major approaches to understanding uniqueness in human behavior, emotion, and thought: holistic, dynamic, learning, and trait/biological. Class debates, exercises, and a paper help students use these theories to understand their own and others' personalities. Usually offered every term. *Prerequisite for General Education credit:* ANTH-150 or PSYC-105 or SOCY-100 or WGSS-125.

PSYC-240 Drugs and Behavior 5:2 (3) This introduction to psychoactive drugs and their effects includes an overview of general physiology, neurochemistry, and pharmacology as well as a survey of the basic physiological, pharmacological, and behavioral effects of drugs. The course focuses on the etiology and consequences of addiction and dependence. Critical evaluation of research methodology in drug assessment is stressed. Usually offered every term. *Prerequisite for General Education credit:* BIO-100 or BIO-110 or ENVS-150 or PSYC-115.

PSYC-300 Memory and Cognition (3) This course provides an overview of the so-called higher mental processes such as attention, perception, language, and thinking, with a special emphasis

on memory. The approach is behavioral rather than physiological. Both empirical research and theoretical frameworks are discussed, along with current issues of interest. Usually offered every spring. *Prerequisite:* PSYC-115 or permission of instructor.

PSYC-301 Research Methods in Psychology (3) An introduction to the basic tools of research used by psychologists. Includes principles of the scientific method, experimental and correlational research, single-subject research, validity and reliability of measurements, ethical issues, and research reporting. Usually offered every term. *Prerequisite:* PSYC-115 and STAT-202.

PSYC-310 Introduction to Forensic Psychology (3) Psychologists who work effectively with the legal system combine an understanding of the law with pertinent clinical information to communicate psychological findings in the adjudicative setting. This course focuses on the practice of forensic psychology with an emphasis on the relationship between law and behavioral sciences. Usually offered every spring. *Prerequisite:* PSYC-310.

PSYC-315 Self-Management (3) Principles of cognitive-behavioral self-control for achievement of personal goals. Self-management research is reviewed in weight loss, studying, self-esteem, giving up smoking, drug addiction, depression, time management, and enjoying oneself. Students conduct self-modification projects in group settings. Usually offered alternate falls. *Prerequisite:* PSYC-105 and PSYC-215, or PSYC-230, or permission of instructor.

PSYC-318 Fundamentals of Human Neuropsychology (3) Concerned primarily with the structure, organization, and function of the human brain and the manner in which it produces thoughts, feelings, movement, perceptions, language, and memories. Explores normal brain functioning as well as neurological disorders. Of particular value to students interested in cognition, psychopathology, neurology/medicine, and linguistics. Usually offered alternate falls. *Prerequisite:* PSYC-115 or permission of instructor.

PSYC-320 Women and Mental Health (3) This course focuses on women's functioning. Includes theories of the personality of women, common adjustment problems faced by women, and emotional problems prevalent in women. Usually offered alternate springs. *Prerequisite:* PSYC-105.

PSYC-325 Neurobiological Bases of Behavior (3) Introduction to the biological bases of behavior. Includes basic neurophysiology (activation of neurons and communication among cells); the basic organization of the nervous system; the role of the brain in receiving stimuli; and the neurobiology of motivated behavior, learning, and behavior disorders. Usually offered alternate falls. *Prerequisite:* PSYC-115 or permission of instructor.

PSYC-333 Health Psychology (3) An exploration of how psychological theories and techniques can minimize unnecessary morbidity and premature mortality. Behavioral, cognitive, and affective targets for primary and secondary prevention efforts are identified from epidemiological theory and research. Ways in which psychological methods can contribute to provision of outpatient and inpatient medical services. Usually offered every spring. *Prerequisite:* PSYC-105 or permission of instructor.

PSYC-335 Psychology of Religion (3) Classic and contemporary views of religion from a psychological perspective. Review of research methodologies as well as major theorists including Freud, Jung, James, Rizzuto, Erikson, Otto, Girgensohn, Allport, Fromm, and Maslow. Usually offered alternate springs.

PSYC-345 Community Psychology (3) The community rather than the individual is the subject and client in community psychology. Psychological techniques are combined with flexible research designs and concrete measures to find and document effective and cost-effective solutions to socio-political problems such as energy conservation, delinquency, homelessness, traffic safety, health promotion, and unemployment. Usually offered alternate springs. *Prerequisite:* one introductory and two additional psychology courses.

PSYC-350 Child Psychology (3) Introduction to development from infancy through adolescence. Emphasis on theory and research in normal development: genetics, growth, and maturation; sensation and perception; motivation; cognitive and social functioning. Usually offered every term. *Prerequisite:* PSYC-105 or PSYC-115 or permission of instructor.

PSYC-360 The Evolution of Behavior (3) Approaches to the study of animal and human behavior with emphasis on the explanation of these behaviors in light of ecology and evolution. Includes aggression, language, sex differences, intelligence, development, learning, and instinct. Usually offered every spring. *Prerequisite:* PSYC-115 or PSYC-105 or permission of instructor.

PSYC-370 Learning and Behavior (3) Research and theory in animal learning. Covers classical and instrumental conditioning. Ethology and biological constraints on learning. Usually offered alternate falls. *Prerequisite:* PSYC-115 or permission of instructor.

PSYC-390 Independent Reading Course in Psychology (1-6) *Prerequisite:* permission of instructor and department chair.

PSYC-392 Cooperative Education Field Experience (3-9) *Prerequisite:* permission of department chair and Cooperative Education office.

PSYC-415 Psychology of Music (3) This interdisciplinary course focuses on the cognitive processing of music—how it is sensed, perceived, remembered, and interpreted at both micro and macro levels. Includes music therapy, performance anxiety, developmental and cross-cultural perspectives, and neurological aspects. Meets with PERF-415. Offered irregularly. *Prerequisite:* PERF-120 or equivalent music experience and two psychology courses.

PSYC-420 Adolescent Psychology (3) Study of adolescence as a period of transition. Includes research and theory on hormonal, emotional, social, and cognitive development in adolescence. The influence of peer pressure, need for self-individuation, and problems of adolescence are also considered. Usually offered alternate springs. *Prerequisite:* PSYC-105.

PSYC-425 Psychology of Eating Disorders and Obesity (3) The study of theory, research, diagnosis and treatment as it pertains to nutrition, dieting, exercise, body image, obesity, anorexia nervosa and bulimia nervosa. Usually offered alternate springs. *Prerequisite:* PSYC-105 or PSYC-115.

PSYC-430 Human Sexual Behavior (3) Basic physiological knowledge, sex education, sexual myths, premarital and marital sexual behavior, homosexuality, pornography, etc. Emphasis on psychological aspects of sex and sexuality. Usually offered every fall.

PSYC-433 Research Design and Methods: Social Science Psychology Research (4) Introduces basic principles of psychological measurement and research design. Explains methods of identifying and developing reliable and valid psychological tests and behavioral observation systems. Reviews experimental and correlational research designs, as applied to social science areas of

psychology (e.g. psychotherapy outcome research). Usually offered every fall. *Prerequisite:* STAT-202, and either PSYC-105 or PSYC-115.

PSYC-440 Social Psychological Approaches to Clinical Issues (3) Examines applications of social psychology to clinical psychology. Includes using social psychology to understand disorders such as depression; applying social psychology to treatment issues, such as persuading people to remain in therapy; and considering diagnosis as a problem in social cognition. Usually offered alternate falls. *Prerequisite:* PSYC-205 or permission of instructor.

PSYC-450 Psychology of Well-Being (3) An overview of the theory, research, and applications in the psychology of well-being. Includes self-esteem, relationships and intimacy, competence and achievement, crisis and loss, and meaning and values in life. Usually offered every spring. *Prerequisite:* PSYC-105 or PSYC-115.

PSYC-456 Controversial Issues in Psychology (3) A seminar that considers some of the fundamental ideas in psychology through reading and discussion. Usually offered every spring. *Prerequisite:* permission of instructor.

PSYC-470 Introduction to Clinical Psychology (3) The focus is on two major activities of clinical psychologists: assessment and clinical intervention (psychotherapy and program models). Also includes the functions, history, training, and ethics of the profession. Usually offered alternate falls. *Prerequisite:* PSYC-105 or PSYC-115, and either PSYC-215 or PSYC-230.

PSYC-480 Research Design and Methods: Experimental Psychology (4) Data and research methods in core areas of psychology. Review of experimental design. Individual and group experiments. Usually offered alternate springs. *Prerequisite:* STAT-202, and PSYC-105 or PSYC-115.

PSYC-490 Independent Study Project in Psychology (1–6) *Prerequisite:* permission of instructor.

PSYC-491 Internship (1–3) Practical experience in a professional setting in the metropolitan area for advanced psychology majors. *Prerequisite:* permission of instructor and department chair.

PSYC-497 Topics in Psychology (3) Topics vary by section, may be repeated for credit with different topic. Each section is an intensive course in a specialized area of psychology, such as community psychology, social and clinical judgement, and psychology of infancy. Usually offered every term. *Prerequisite:* three psychology courses, junior standing and permission of instructor.

PSYC-498 Senior Thesis Seminar (3) May be repeated for credit. Students participate in research under the supervision of individual faculty (which should be arranged before enrolling). The proposal, analysis, and conclusions of this research are discussed among other students as well as with departmental faculty. Honors students are required to take two semesters. Usually offered every term. *Prerequisite:* permission of instructor.

Graduate and Advanced Undergraduate Courses

PSYC-501 Physiological Psychology (3) Anatomical and physiological substrata of behavior. Usually offered alternate springs. *Prerequisite:* two psychology courses, and junior or graduate standing.

PSYC-502 History and Systems of Psychology (3) Philosophical and scientific background of modern psychology and contemporary problems of theory construction. Usually offered alternate falls.

PSYC-505 Advanced Personality Psychology (3) Examines contemporary research in personality psychology, focusing on ex-

pectancies, motivation, self-concept, and genetic and environmental influences on personality development. Gender and cultural issues are considered, as are applications of personality psychology in the study of mental and physical health. Usually offered alternate springs. *Prerequisite:* graduate standing or permission of instructor.

PSYC-510 Advanced Forensic Psychology (3) This course expands on topics covered in PSYC-310 Introduction to Forensic Psychology and is organized around reading primary sources in important areas of forensic psychology including torture, predatory sexual behaviors, bullying, and battering, among others. Students gain an in-depth exposure to and increased understanding of Axis II, Cluster B personality disorders, as described in the DSM-IV, and have extensive exposure to the most scientific research on these phenomena. *Prerequisite:* PSYC-310. Usually offered every spring.

PSYC-513 Neuropharmacology: The Biochemistry of Behavior (3) Following an overview of central nervous system physiology, this class gives a detailed examination of the range of neurotransmitters involved in neural communication and modulation. Each neurotransmitter is described in the context of its biochemistry, distribution, pharmacology, and involvement in both normal and abnormal behavior. Usually offered every fall. *Prerequisite:* graduate standing or permission of instructor.

PSYC-514 Industrial/Organizational Psychology (3) Application of psychological principles to the field of work. Includes selection, training, evaluation, leadership, motivation, decision making, job attitudes and satisfaction, organizational structure and theory, and human factors. Usually offered every fall. *Prerequisite:* two psychology courses and one statistics course.

PSYC-518 Advanced Human Neuropsychology (3) Explores the empirical, anatomical, and theoretical aspects of clinical and cognitive human neuropsychology. Includes object and face recognition; spatial perception; voluntary action; language (oral, writing, and reading comprehension, word and sentence processing, speech production); problem-solving and calculation; memory; and dysfunctions (i.e., agnosias, apraxias, amnesias, and aphasias) illustrated with clinical case studies. Usually offered every fall. *Prerequisite:* permission of the instructor.

PSYC-521 Ethnic and Minority Issues in Psychology (3) A review of ethnic and minority issues as they relate to testing, psychotherapy, research, and other aspects of scientific and professional psychology. Usually offered alternate falls. *Prerequisite:* graduate standing or permission of instructor.

PSYC-522 Stress, Coping, and Emotion (3) This course introduces students to the theory, methods, and applications of stress and coping research, while allowing them to understand and manage their own experiences of stress. Reading assignments and lectures address the nature of psychological stress, its relation to appraisals, coping, and emotion, and the specific methodological challenges of studying stress and coping. It includes models of stress responses, personality, gender, and culture. Personal growth, stress and health, depression, and clinical interventions are also discussed. Usually offered alternate springs. *Prerequisite:* graduate standing or permission of instructor.

PSYC-530 Conditioning and Learning (3) Advanced treatment of the basic principles, theory, and experimental literature of contemporary operant and Pavlovian conditioning. The reinforcement variables responsible for the acquisition and maintenance of the

stimulus control of behavior and incentive-motivation are studied. These variables are central to understanding changes in behavior resulting from past experience. The emphasis is on basic principles and research in this area, although practical applications, such as animal models of drug abuse, are also discussed. Usually offered alternate springs. *Prerequisite:* PSYC-200 or PSYC-370 or graduate standing.

PSYC-533 Cognitive Behavior Therapy (3) This seminar examines critically the cognitive revolution in behavior therapy. We review the theoretical basis, clinical procedures, and empirical status of several major forms of cognitive behavior therapy, which share the premise that maladaptive thinking is at the core of psychological distress. Usually offered alternate springs. *Prerequisite:* graduate standing or permission of instructor.

PSYC-540 Advanced Social Psychology (3) Psychological factors in human social behavior. Examination of research literature with emphasis on design and methodology. Theoretical problems in social behavior and current trends in experimentation. Usually offered alternate springs. *Prerequisite:* graduate standing or permission of instructor.

PSYC-545 Psychology of Sex Similarities and Differences (3) Examines the ways that the behavior of males and females are comparable by examining the psychological literature to understand what biological and social-cultural factors influence these behaviors. Considers what conclusions can be drawn from the existing data and what types of research should be done to further knowledge of gender issues. Usually offered alternate springs. *Prerequisite:* graduate standing or permission of instructor.

PSYC-550 Psychological Research (3) An in-depth examination of experimental design and methods of conducting research in clinical, social, experimental, and bio-psychology. Usually offered every fall. *Prerequisite:* PSYC-480 or graduate standing or permission of instructor.

PSYC-551 Psychopathology: Theory and Research (3) Case-study seminar on psychopathological behavior. Focus on symptoms and syndromes from conflict/stress-defense model. Usually offered every spring. *Prerequisite:* graduate standing or permission of instructor.

PSYC-555 Improving Human Services (3) To measure, monitor, and maximize the effectiveness and cost-effectiveness of mental health treatment, substance abuse programs, and other human services, concrete strategies are presented for collecting, analyzing, presenting and using data on resources, procedures, processes, and outcomes. Readings are augmented with case studies and findings from evaluations by the faculty and students. Usually offered alternate falls. *Prerequisite:* PSYC-105 and STAT-202, or graduate standing, or permission of instructor.

PSYC-560 Advanced Developmental Psychology (3) (fall 2011: Advanced Child Psychology) Current theoretical and research issues in child psychology. Areas of emphasis include socialization, affective development, and cognitive development. Students, from their readings and discussion, critically analyze existing data and formulate questions for further investigation. Usually offered alternate falls. *Prerequisite:* graduate standing or permission of instructor.

PSYC-568 Alternative Medicine (3) This course explores the art and science of alternative (also known as integrative, complementary, or holistic) medicine. It investigates the scientific, cultural, and spiritual dimensions of healing, including scientific research as

well as historical and global healing traditions. The modern perspective of mind-body-spirit healing is considered in context with specific alternative therapies, including acupuncture, meditation, herbal and homeopathic medicine, bio-energy healing, psychotherapy, nutrition, chiropractic, and more. Usually offered every spring. *Prerequisite:* graduate standing or permission of instructor.

PSYC-575 Advanced Memory and Cognition (3) After a short review of the field in general, this course focuses on specific issues, both theoretical and applied. Areas covered include attention, perception, language, and thinking. Usually offered every spring. *Prerequisite:* graduate standing or permission of instructor.

PSYC-590 Independent Reading Course in Psychology (1-6) *Prerequisite:* permission of instructor and department chair.

PSYC-597 Topics in Psychology (3) Topics vary by section, may be repeated for credit with different topic. Each section is an intensive course in a specialized area of psychology. Usually offered every term. *Prerequisite:* permission of instructor.

PSYC-598 Seminar in Behavior, Cognition, and Neuroscience (3) Topics vary by section, may be repeated for credit with different topic. Examination of neuroscience issues through articles, texts, and group presentations. The course extends the foundations established in the core curriculum and demonstrates their application to cutting edge and controversial research. Usually offered every term. *Prerequisite:* graduate standing or permission of instructor.

Graduate Courses

PSYC-609 Ethics and Professional Practices (3) Theoretical and conceptual questions and social problems in the area of ethics and professional practice. Ethical standards, codes, and legislation of psychologists and related professions, and ethical problems of community mental health are examined. *Prerequisite:* permission of instructor.

PSYC-618 Principles of Neuropsychological Assessment (3) Introduces theoretical and empirical principles of neuropsychological assessment. Emphasis on developing skills of behavioral and cognitive observation coupled with an understanding of the underlying functional organization of the human nervous system. Students study representative tests and, in the laboratory and/or in supervised clinical settings, practice their administration, scoring, and interpretation. Usually offered alternate falls. *Prerequisite:* PSYC-518, PSYC-633 and permission of instructor.

PSYC-630 Psychotherapy: Theory, Research, and Practice (3) A survey of research literature relevant to the therapist, the client, the relationship and process of psychotherapy. Major theoretical orientations and techniques are reviewed. Usually offered every fall.

PSYC-633 Psychological Assessment I (3) Introduces students to basic principles of psychological assessment. Emphasizes conceptual issues much more than practical applications, though substantive psychological research is used to illustrate the concepts. Helps students learn how to critically evaluate, and contribute to, knowledge regarding measurement of psychological functioning. Usually offered every fall.

PSYC-652 Assessment of Intellectual Function and Personality (3) Introduction to administration and interpretation of WAIS-III, MMPI-II, and Structured Clinical Interview for DSM-IV. Also includes integration across tests, holistic case conceptualization, and report writing. Usually offered every fall. *Prerequisite:* PSYC-551, PSYC-633, and permission of instructor.

PSYC-653 Advanced Assessment: Projective Personality (3) Review of the Rorschach, TAT, and other projective tests. Integration and interpretation of projective tests in conjunction with interview and intelligence data and other testing. Includes report writing and hands-on assessment experience. Usually offered alternate springs. *Prerequisite:* PSYC-633 and PSYC-652, or permission of instructor.

PSYC-654 Advanced Assessment: Integrative Battery (3) This advanced testing course builds on PSYC-633 and PSYC-652. Students are trained to administer batteries of tests, score them, and write reports that integrate the findings from the tests. Usually offered alternate springs. *Prerequisite:* PSYC-633 and PSYC-652, or permission of instructor.

PSYC-670 Behavioral Medicine (3) Acquaints students with psychological theory, research, and practical techniques for maintaining health, preventing dysfunctions, and remediating health problems. Includes cognitive-behavioral techniques for cardiovascular risk reduction (smoking, obesity, stress, diet), exercise enhancement, time management, adherence to medical regimens, and problems with nervous, respiratory, gastrointestinal, and musculoskeletal systems. *Prerequisite:* admission to graduate program in psychology or health fitness management.

PSYC-680 Experiential Psychotherapy Practicum I (3) Interviewing techniques and practice in skills related to counseling psychotherapy by systematic exposure to critical elements in interviews through supervision and guided observation. Usually offered every fall. *Prerequisite:* permission of instructor. May be taken pass/fail only.

PSYC-681 Experiential Psychotherapy Practicum II (3) Continuation of PSYC-680. Usually offered every spring. *Prerequisite:* permission of instructor. May be taken pass/fail only.

PSYC-690 Independent Study Project in Psychology (1–6) *Prerequisite:* permission of instructor and department chair.

PSYC-692 Cooperative Education Field Experience (3–6) *Prerequisite:* permission of department chair and Cooperative Education office.

PSYC-698 Directed Research (3–6) May be repeated for credit. May not be used in place of PSYC-796, PSYC-797, PSYC-798, or PSYC-799. Usually offered every term.

PSYC-710 Cognitive-Behavior Therapy Practicum I (3) Review of behavior therapy and cognitive-behavioral techniques. Supervision and co-therapy in application of techniques. Usually offered every fall. *Prerequisite:* admission to clinical psychology doctoral program. May be taken pass/fail only.

PSYC-711 Cognitive-Behavior Therapy Practicum II (3) Review of behavior therapy and cognitive-behavioral techniques. Supervision and co-therapy in application of techniques. Usually offered every spring. *Prerequisite:* admission to clinical psychology doctoral program. May be taken pass/fail only.

PSYC-715 Supervision and Consultation (1) An overview of common models of supervision and consultation in psychology with an emphasis on the evidence-based variables contributing to effective supervision and consulting relationships. The course explores the difference between supervisor and supervisee and consultant and consultee while emphasizing awareness of ethical issues and reasoning. Usually offered alternate springs.

PSYC-791 Psychodynamic Psychotherapy Practicum I (3) Usually offered every fall. *Prerequisite:* permission of instructor. May be taken pass/fail only.

PSYC-792 Psychodynamic Psychotherapy Practicum II (3) Usually offered every spring. *Prerequisite:* permission of instructor. May be taken pass/fail only.

PSYC-796 Master's Thesis Seminar (3) May be taken pass/fail only.

PSYC-797 Master's Thesis Research (1–3) *Prerequisite:* PSYC-796.

PSYC-798 Doctoral Dissertation Seminar (3) May be taken pass/fail only.

PSYC-799 Doctoral Dissertation Research (1–9) *Prerequisite:* PSYC-798.

Public Administration

Undergraduate Courses

PUAD-260 Administrative Politics (3) An introduction to American public administration and the executive branch of government. Emphasis on the politics of administration and on the relationship of the bureaucracy with clientele groups, Congress, the White House, and the public. Usually offered once a year.

SIS-795 Master's Research Requirement (1-3)

SIS-797 Master's Thesis Supervision (1-6) *Prerequisite*: permission of department.

SIS-799 Dissertation Seminar (1-12) SIS faculty, invited scholars, and doctoral students make formal scholarly presentations. Usually offered every term. *Prerequisite*: matriculation as a doctoral student in residence.

Sociology

Undergraduate Courses

SOCY-100 U.S. Society 4:1 (3) American pluralism and the variety of social arrangements and relationships found in American society. The emphasis is on how society is stratified; how organizations and institutions influence the way Americans think, talk, feel, and act; and how different groups (racial and ethnic) and divisions (gender and class) within society have differential access to power and privilege. Usually offered every term.

SOCY-110 Views from the Third World 3:1 (3) Introduction to the sociology of the Third World through study of the works of its own intellectuals and political leaders. Reflections on Third World societal structures and explanations of dilemmas of development and of strategies for overcoming these dilemmas. The course links texts to their Third World context. Usually offered every term.

SOCY-150 Global Sociology 4:1 (3) An introduction to sociology that focuses on the process of global social change as a critical factor in understanding contemporary societies. It emphasizes macrosociology (the study of large organizations and whole societies) and the creation of today's global society, including similarities and differences within it. Two major themes—modernization and globalization—are emphasized and their implications for individuals, groups, communities, societies, and governments are explored. Usually offered every term.

SOCY-205 Diverse and Changing Families 4:2 (3) The family as a social institution in a changing society. Social inequalities of class, race, ethnicity, and gender as key factors in shaping diverse forms and experiences in family life. Theoretical and actual alternatives to family patterns as well as the future of the American family. Usually offered every term. *Prerequisite for General Education credit*: ANTH-150 or PSYC-105 or SOCY-100 or WGSS-125.

SOCY-210 Power, Privilege, and Inequality 4:2 (3) Race, class, gender, sexuality, ability, and age are key factors in systematic marginalization and inequality. This course examines how some

people suffer from inequalities while others benefit from them. It explores how power, privilege, and inequality are maintained through a range of social institutions and daily social interactions. It also cultivates intellectual insight and personal agency. Usually offered every term. *Prerequisite for General Education credit*: COMM-100 or ECON-100 or GOVT-110 or SOCY-150.

SOCY-215 The Rise of Critical Social Thought 2:2 (3) Issues about social science as a critical vision of society; imagined social possibilities and their comparison to existing social institutions. Secondary themes are individual development, community, large societal institutions, the effects of industrialism and capitalism, and the limits of social science knowledge as a guide to social planning and social action. Usually offered every term. *Prerequisite for General Education credit*: GOVT-105 or HIST-115 or JLS-110 or PHIL-105 or RELG-105.

SOCY-225 Arab Societies 3:2 (3) The social, economic, and political structure of the Arab World with special emphasis on the impact on this region of the rise and fall of oil revenues. A macrosociological approach places the region in the global political economy and introduces students to its problematics and historical-cultural specificity. Usually offered every term. *Prerequisite for General Education credit*: ECON-110 or GOVT-130 or HIST-120 or SIS-105 or SIS-110.

SOCY-235 Gender in Transnational Perspectives 3:2 (3) Focusing on Third World women and social change in different cultural contexts and in the global political-economic system, this course emphasizes the centrality of women in the rapidly changing world, particularly in terms of work, distributive justice, development policy, democratization, and the environment. Usually offered every spring. *Prerequisite for General Education credit*: ANTH-110 or LIT-150 or RELG-185 or SIS-140 or SOCY-110.

SOCY-310 Language, Culture, Power (3) This course cultivates an understanding of contemporary ideas regarding the role of language and representation in the production, maintenance, and subversion of relations of power, social identities, and social hierarchies. The course is hands-on and students draw from course readings to examine popular film, advertisements, newspaper articles, and social interactions. Discussions and readings develop insights into the various ways in which gender, sexuality, race, ethnicity, class, and ability are constructed and contested through systems of language and representation. Usually offered every spring. *Prerequisite*: SOCY-415.

SOCY-315 Classical Social Theory (3) Examines the contributions of major thinkers in social theory. Focus on both "classical" thinkers, such as Marx, Durkheim, and Weber, and more contemporary theorists, such as George Herbert Mead, Talcot Parsons, and Simone de Beauvoir. Traces formative influences on existing schools of social theory. Usually offered every fall. *Prerequisite*: SOCY-100 or SOCY-150.

SOCY-320 Introduction to Social Research (3) An introduction to the major research methods in social science, their links to theory and practice, and their use in research projects. Usually offered every fall. *Prerequisite*: SOCY-100 or SOCY-150.

SOCY-335 Sociology of Birth and Death (3) One of the few common denominators among human beings is that each of us was born into this world and each of us will die. This course examines the sociological dimensions of human "entry and exit." It focuses on how society supports, controls, and constrains our arrival into and departure from the social world. The social, organizational,

and cultural dimensions of birth and death are considered in terms of rites of passage, bureaucratization, social movements, cultural differences, and historical and contemporary contexts. *Prerequisite:* SOCY-205.

SOCY-340 Israeli Society (3) This course explores the emergence of Israeli society and its changes over time. It reviews Israel's ideological and political foundations, the centrality of immigration, the emergence of Arab minorities and Jewish ethnic divisions, and assesses political, economic, religious, and family patterns within the broader Jewish and Palestinian communities. Meets with SOCY-640. Usually offered every spring.

SOCY-345 Sociology of North Africa (3) Offered as part of the AU Abroad Morocco: Rabat program, this course is divided into three parts. The first focuses on Maghreb societies in the late nineteenth century, with specific emphasis on Moroccan society and culture and the multifunctional role of kinship and religion. The second is concerned with the study of socioeconomic structures during the colonial era. Finally, the third part focuses on similarities of structures and processes of socioeconomic change in North Africa. Attention is also given to culture and society in Egypt in order to underline similarities and differences with the Maghreb.

SOCY-350 Social Problems in a Changing World (3) Sociological perspectives on the construction of social problems in a changing world. Focus on analysis of contrasting views and solutions for such conditions as global inequality, environmental degradation, population growth, inequalities based on economic class, race, gender, sexual orientation, and age, and institutional crises involving families, education, health care, crime, and justice. Usually offered every fall. *Prerequisite:* SOCY-100 or SOCY-150.

SOCY-351 Race and Ethnic Conflict: Global Perspectives (3) A focus on what happens when divergent types of persons experience social contact. Racial, ethnic, tribal, national, and religious interactions throughout the world. The processes include conflict, amalgamation, acculturation, assimilation, prejudice, and discrimination. Usually offered every fall. *Prerequisite:* SOCY-100 or SOCY-150.

SOCY-352 Women, Men, and Social Change (3) Focuses on gender as a basic organizational principle of social life in order to study the social construction of gender and how gender relationships are transformed in the process of social change. The course examines how race, class, and gender interact with culture in shaping the lives, social positions and relationships of diverse kinds of women and men in a changing world. Usually offered every spring. *Prerequisite:* SOCY-100 or SOCY-150.

SOCY-354 White Privilege and Social Justice (3) This course considers the social, legal, and media constructions of white racial identities in relation to issues of racial justice. It examines how white privilege intersects with gender, class, and sexuality. Students develop skills for multicultural alliances and strategies for antiracist activism. Usually offered every spring.

SOCY-365 Economic Development and Social Change (3) A course on societal development that explores what it means for a society to "develop." How do we measure a society's development and what is known about the material, economic, political, social and cultural conditions necessary for development? What worked and what did not work in past development strategies and which strategy is most likely to succeed in the 1990's global socio-economic system? Meets with SOCY-665. Usually offered every fall. *Prerequisite:* SOCY-100 or SOCY-150.

SOCY-367 Sociology of the City (3) The transition to a post-industrial society has led to a dramatic socio-political restructuring of major cities into complex systems of urban-suburban metropolises. Regional, national, and international forces are responsible for the contemporary growth and economic prosperity of suburban "edge" cities and the concentration of poverty and racial-ethnic/national minorities in the central city. This course explores the emerging international hierarchy of "global cities" with the socio-spatial patterns of inequality and political conflict. Usually offered every spring. *Prerequisite:* SOCY-100 or SOCY-150.

SOCY-370 Power, Politics and Society (3) Political sociology in a comparative global perspective including the role and functions of the state; relative state autonomy; state legitimacy; forms of democracy and democratization processes; state and civil society; political ideology and culture; and ethnicity, nationalism, and the state. Usually offered alternate springs. *Prerequisite:* SOCY-100 or SOCY-150.

SOCY-389 Society and the Global Environment (3) Exploration into the relationship between social groups and the physical environment. Focus on the actions and reactions of public and policy groups in identifying and coping with natural and technological problems. Analysis of specific socio-environmental problems and the roles and methods of social scientists and others in social-impact assessment and social change. Meets with SOCY-689. Usually offered every spring.

SOCY-390 Independent Reading Course in Sociology (1-6) *Prerequisite:* permission of instructor and department chair.

SOCY-392 Cooperative Education Field Experience (3-9) *Prerequisite:* SOCY-100 or SOCY-150, placement by Cooperation Education Program, and permission of department chair and instructor.

SOCY-415 Current Issues in Social Theory (3) Focus on contemporary social theories including postmodernism, feminism, neo-functionalism, rational choice, world-systems, and neo-Marxism. Traces relation—continuity and rupture—of current issues to classical traditions and important thinkers in social theory. Emphasis on issues of theory construction, evaluation, and critique. Usually offered every spring. *Prerequisite:* SOCY-100 or SOCY-150.

SOCY-490 Independent Study Project in Sociology (1-6) *Prerequisite:* permission of instructor and department chair.

SOCY-491 Internship (1-6) Internship in social service, social change, and social research agencies. *Prerequisite:* SOCY-100 or SOCY-150 (internships in social research agencies require SOCY-320), and permission of department chair and instructor.

SOCY-492 Major Seminar in Sociology (3) Integrates social theory and research as well as social policy and advocacy through the examination of social issues of global significance. Focuses on questions such as who is defining the issue, what do sociologists say about the issue, and how central is sociological knowledge to understanding the issue? Usually offered every spring. *Prerequisite:* SOCY-100 or SOCY-150.

SOCY-498, SOCY-499 Honors: Senior Year (1-6)

Graduate and Advanced Undergraduate Courses

SOCY-515 Models of Societal Development (3) Analysis of the structure and dynamics of whole societies in the modern global system. Paradigms of societal development: classical Marxism, modernization, dependency, articulation of modes of production, world-system theory, neo-Marxism, neomodernization, etc. Con-

450 Course Descriptions

sideration of growth with equity, structural adjustment, privatization and sustainable growth policies on societal structure and change. Usually offered every spring. *Prerequisite:* graduate standing or three courses in sociology.

SOCY-525 Social Advocacy and Social Change (3) Examines social change methods and mobilizing successful movements for social change: defining issues, forming constituencies, recruitment, choosing goals and strategies, criteria for choosing tactics, fundraising and resource mobilization, grassroots leadership development, handling the media, legislative coalitions and judicial remedies. Usually offered alternate springs. *Prerequisite:* graduate standing or three courses in sociology.

SOCY-530 Social Movements and Social Change (3) This course explores the social and cultural dynamics of social movements from a transnational perspective. The focus is both theoretical and empirical. Students gain in-depth knowledge of how social movements create or resist social change and learn about social movements through analysis of specific empirical cases. *Prerequisite:* graduate standing or three courses in sociology.

SOCY-531 Regional Studies in Social Change (3) Topics vary by section, may be repeated for credit with different topic. Topical courses examining social change in different parts of the world as a cause and consequence of economic development including Africa, Latin America, and the Middle East. Emphasis on the social effects of governmental or corporate policies. Offered irregularly. *Prerequisite:* graduate standing or three courses in sociology.

SOCY-550 Sociology of Poverty and Wealth (3) A broad view of the varied sociological approaches to socio-economic stratification considered in terms of domestic, comparative-historical and international dimensions. Explores the functionalist, conflict and elite theories, methodologies of stratification, and the issues of social mobility, poverty and the welfare state. Investigates class formation and the social consequences of stratification on the individual, group and society. Usually offered every spring. *Prerequisite:* graduate standing or three courses in sociology.

SOCY-551 Sociology of Latino Studies (3) Focusing on Latino populations and on Latino studies as an emergent field of study, this course references U.S. Latino populations as border populations, crossing over U.S./Latin American imaginaries. The "Latino" category helps problematize ethnic/racial categories, becoming a method of hybridity discussions. Though interdisciplinary, the course has a strong sociological foundation. Usually offered every spring. *Prerequisite:* three courses in sociology including SOCY-210, SOCY-231, or SOCY-351; or graduate standing.

SOCY-552 Sociology of Popular Culture (3) Popular culture is an increasingly central part of people's lives. This course acquaints students with major sociological theories of popular culture and applies them to areas including music, films, mass media, race, identity, novels, love, and sex. Usually offered every spring.

SOCY-553 Intersectionality: Theory and Research (3) This course examines intersectionality as both an analytical tool and a conceptual framing that has developed into a broad web of theoretical and empirical work examining how race, class, and gender interact in meaningful and complex ways. The focus includes important methodological assumptions and complications of intersectionality, as well as contemporary challenges such as the discussions of positionalities ignored in initial framings of intersectionality, including age, disability, and sexuality. *Prerequisite:*

Prerequisite: three courses in sociology including SOCY-210, SOCY-351, or SOCY-354, or graduate standing.

SOCY-555 Sociology of Language (3) This course provides a practice-centered introduction to the sociology of language, an emergent approach to analyzing the production of meaning in social life. It explores the analytical power of simple inductive analysis, ethnomethodology, and poststructural discourse analysis. This course reflects the interdisciplinary ferment of contemporary social research and guides students in conducting cutting-edge, qualitative research. *Prerequisite:* SOCY-320 or graduate standing.

SOCY-570 Sociology of Gender and Family (3) The study of gender and family as basic principles of the social order and primary social categories. Introduces students to the theories, data sources and applications of family structures and gender relationships in the United States and cross-culturally. Usually offered every fall. *Prerequisite:* graduate standing or three courses in sociology.

SOCY-580 Social Policy Analysis (3) Examines the variety of conceptual frames that social scientists use in analyzing social policies and provides a basis for their selection. A second part deals with the detailed analysis of case studies and introduces practitioners who contributed to them. Usually offered every fall. *Prerequisite:* graduate standing or three courses in sociology.

SOCY-590 Independent Reading Course in Sociology (1-6) *Prerequisite:* permission of instructor and department chair.

Graduate Courses

SOCY-610 History of Sociological Theory (3) Comparative study of major theorists in the nineteenth and twentieth centuries. Usually offered every fall.

SOCY-611 Modern Sociological Theory (3) An analysis of modern sociological theories and major schools of social thought. Problems of theory construction. Usually offered every spring. *Prerequisite:* SOCY-610.

SOCY-620 Social Research Methods (3) Focuses on both qualitative and quantitative data collection. Emphasizes research practice, formulation and specification of research questions, ethics, development of research designs, fieldwork, interviewing, coding, measurement, and questionnaire design. Usually offered every fall. *Prerequisite:* STAT-514.

SOCY-621 Quantitative Analysis (3) Focuses on data analysis of categorical and survey data including percentage tables and measures of association. Analysis of continuous data using regression, bivariate, multiple, and stepwise. Includes dummy variable, graphical tools, and assessment of supporting diagnostics. Usually offered every spring. *Prerequisite:* SOCY-620.

SOCY-622 Selected Topics in Social Research Skills (1) Topics vary by section, may be repeated for credit with different topic. Introduction to a specific research tool or method currently used in sociology; the options include research strategies (e.g., telephone surveys, focus groups), analysis techniques (e.g., event history, qualitative data), or particular applications of research methods (e.g., program evaluation, community action). Usually offered every term. *Prerequisite:* SOCY-620 or permission of instructor.

SOCY-623 Qualitative Analysis (3) This course presents the scope and aims of analyzing qualitative data, with attention to epistemological difference between qualitative and quantitative research methods. It focuses on a broad range of techniques for analyzing qualitative datasets and the utility of qualitative data analysis, as well as issues raised in the coding strategies and the

themes chosen to present evidence. It also engages analysis of qualitative data generated by particular applications of research methods, for example, program evaluation and community action. Usually offered every spring. *Prerequisite:* SOCY-620.

SOCY-635 Race, Gender and Social Justice (3) This seminar explores the disjunction between biological myths of race and gender and their social construction as credible institutions; the historical, economic, and political roots of inequalities; the institutions and ideologies that buttress and challenge power relations; and the implications of social science teaching and research for understanding social class, race, and gender discrimination. Issues of advocacy for social change are also explored. Usually offered every spring. *Prerequisite:* permission of instructor.

SOCY-640 Israeli Society (3) This course explores the emergence of Israeli society and its changes over time. It reviews Israel's ideological and political foundations, the centrality of immigration, the emergence of Arab minorities and Jewish ethnic divisions, and assesses political, economic, religious, and family patterns within the broader Jewish and Palestinian communities. Meets with SOCY-340. Usually offered every spring.

SOCY-669 Gender, Sexuality, and Migration (3) This course is centered on the uses of gender and sexuality in studying migration patterns, immigration policies, and the personal meanings given to these by individuals. The class interrogates the use of gender and sexuality in studying (im)migration patterns and policies and unpacks the relationship between gender and sexuality by looking at various migrations, or movements, between the categories themselves, and also through specific cases of the relationship to citizenship and the state to that of (im)migration and racialization. Usually offered alternate falls.

SOCY-684 Seminar in Public Sociology (3) Students review and analyze how well-known sociologists participate in public discourse through theoretically-grounded debate on pressing social issues; gain appreciation of sociology's application to the public sphere; experience first-hand involvement in civic discourse on policy and the antecedent factors underlying social problems, and participate in constructing and evaluating social theories to inform civic discourse. Usually offered every spring.

SOCY-689 Environmental Sociology (3) Exploration into the relationship between social groups and the physical environment. Focus on the actions and reactions of public and policy groups in identifying and coping with natural and technological problems. Analysis of specific socio-environmental problems and the roles and methods of social scientists and others in social-impact assessment and social change. Meets with SOCY-389. Usually offered every spring.

SOCY-690 Independent Study Project in Sociology (1-6) *Prerequisite:* permission of instructor and department chair.

SOCY-691 Internship (1-6) *Prerequisite:* permission of instructor and department chair.

SOCY-692 Cooperative Education Field Experience (3-6) *Prerequisite:* permission of department chair and Cooperative Education office.

SOCY-695 Internship Seminar in Public Sociology (3) Students share and discuss internship experiences. They gain an understanding of the sociological skill set applied to career opportunities and the challenges sociologists confront as they work with non-academic audiences such as policy analysts, business persons, government and nonprofit leaders, and applied social scientists, as

well as issues faced by organizational leaders in funding, political controversy, organizational politics, and competition among nonprofit and/or governmental agencies. Usually offered every fall.

SOCY-795 Master's Research: Independent Study in Sociology (3) Directed research under the supervision of a faculty member selected by the student. Preparation of a substantial research report on a topic related to the student's field of concentration. *Prerequisite:* permission of instructor.

SOCY-797 Master's Thesis Independent Study (1-6)

SOCY-799 Doctoral Dissertation Independent Study (1-12) Directed dissertation research under the supervision of the student's dissertation committee chair. Open to graduate students whose dissertation proposal has been approved by the department. Usually offered every term.

Statistics

Note: Students should consult the department for advice and placement testing for appropriate mathematics and statistics courses.

Undergraduate Courses

STAT-202 Basic Statistics (4) Classification of data, averages, dispersion, probability, frequency distributions, confidence intervals, tests of significance, nonparametric techniques, simple regression, and correlation. A package of computer programs is used to demonstrate various statistical techniques. Separate sections are available for biology, business, economics, psychology, education, sociology, and government majors. Usually offered every term. *Prerequisite:* MATH-15x or higher or permission of department.

STAT-203 Basic Statistics with Calculus (4) A calculus-based introduction to basic statistics including data presentation, display and summary, correlation, development of least squares regression models, probability, independence, probability density functions, moments, use of moment generating functions, sampling distributions, confidence intervals, and tests of significance. Concepts are explored through simulation and the use of the calculus tools of finding maxima and minima of a function and the area under a curve. Usually offered every term. *Prerequisite:* MATH-221 or one semester of calculus.

STAT-300 Business and Economic Statistics (3) Estimation, inference, multiple regression, and correlation. Elementary decision theory. Usually offered every fall. *Prerequisite:* STAT-202 with a grade of C or higher, or permission of department. *Note:* students may not receive credit for STAT-300 and either STAT-302 or STAT-514.

STAT-302 Intermediate Statistics (3) Acquisition and development of statistical methods that are used commonly throughout the social sciences, the physical sciences, and governments for research as well as for routine planning and forecasting. Methods include techniques for estimation and inference with qualitative and quantitative data focusing on regression, correlation, analysis of variance and nonparametric statistics. Usually offered every spring. *Prerequisite:* STAT-202 with a grade of C or higher, or permission of department. *Note:* students may not receive credit for STAT-302 and either STAT-300 or STAT-514.

STAT-320 Biostatistics (3) This course examines how statistical methods are utilized within the fields of biology, medicine, and public health. Advanced statistical methods, including ANOVA, multiple regression, analysis of covariance, survival analysis, and nonparametric methods are discussed, with emphasis on their ap-

plicability to public health. Usually offered every spring. *Prerequisite:* STAT-202.

STAT-390 Independent Reading Course in Statistics (1–6) *Prerequisite:* permission of instructor and department chair.

STAT-392 Cooperative Education Field Experience (3–9) *Prerequisite:* permission of department chair and Cooperative Education office.

STAT-490 Independent Study Project in Statistics (1–6) *Prerequisite:* permission of instructor and department chair.

Graduate and Advanced Undergraduate Courses

STAT-502 Introduction to Mathematical Statistics (3) Probability, probability distributions, sampling, sampling distributions, and introduction to the theory of point estimation and statistical inference, including confidence intervals and hypothesis testing. Usually offered alternate springs. *Prerequisite:* MATH-212 or equivalent and MATH-501, or permission of instructor.

STAT-510 Introduction to Survey Sampling (3) This course introduces the basic approaches to surveys, including simple random, systematic, and stratified sampling. Also included is the design of questionnaires and the analysis of sample data. Emphasis is on the practical application of sampling. Usually offered alternate falls. *Prerequisite:* STAT-202, STAT-514, or equivalent, or permission of instructor.

STAT-511 Theory of Sampling (3) This course covers the mathematical development of the principles of survey design, including methods for determining expected value, bias, variance, and mean square error; simple random, systematic, stratified, cluster, multi-stage, and double sampling; unbiased, ratio, regression and composite estimation; measurement error; and comparison of alternative designs. Usually offered alternate springs. *Prerequisite:* STAT-502 and STAT-510, or equivalent, or permission of instructor.

STAT-514 Statistical Methods (3) Averages, dispersion, probability, sampling, and approach to normality; simple and multiple regression; tests and confidence intervals for means, proportions, differences, and regression coefficients; nonparametric statistics; and analysis of variance. Usually offered every term. *Prerequisite:* STAT-202 or equivalent. *Note:* does not carry credit for majors in mathematics or statistics; students may not receive credit for STAT-514 and either STAT-300 or STAT-302.

STAT-515 Regression (3) Simple and multiple regression, least squares, curve fitting, graphic techniques, and tests and confidence intervals for regression coefficients. Usually offered every fall and summer. *Prerequisite:* STAT-302 or STAT-514 or equivalent.

STAT-516 Design of Experiments (3) Design and analysis of the results of balanced experiments, simple analysis of variance, components of variance, analysis of covariance, and related subjects. Usually offered every spring. *Prerequisite:* STAT-302 or STAT-514 or equivalent.

STAT-517 Special Topics in Statistical Methodology (3) Topics vary by section, may be repeated for credit with different topic. Alternating topics in statistics from an applied viewpoint. Topics include sampling, multivariate techniques, factor analysis, and time series. Usually offered alternate summers (odd years). *Prerequisite:* STAT-302 or STAT-514 or equivalent.

STAT-519 Nonparametric Statistics (3) Application of nonparametric techniques in the analysis of social-science data, with emphasis on tests appropriate for data having interval, nomi-

nal, and ordinal scales. Usually offered alternate falls (even years). *Prerequisite:* STAT-302 or STAT-514 or equivalent.

STAT-520 Applied Multivariate Analysis (3) Introduction to multivariate analysis emphasizing statistical applications. Includes matrix theory, multivariate distributions, tests of hypotheses, multivariate analysis of variance, principal components, discriminant analysis, canonical correlation, multivariate regression, and related subjects. Usually offered alternate falls (odd years). *Prerequisite:* STAT-302 or STAT-514 or equivalent.

STAT-521 Analysis of Categorical Data (3) Chi-square tests, contingency tables (2×2 , $r \times c$, and multidimensional), loglinear models, and other special models. Usually offered alternate springs (even years). *Prerequisite:* STAT-302 or STAT-514 or equivalent.

STAT-522 Time-Series Analysis (3) An introduction to the theory of time-dependent data. The analysis includes modeling, estimation, and testing; alternating between the time domain; using autoregressive and moving average models and the frequency domain; and using spectral analysis. Usually offered alternate springs (odd years). *Prerequisite:* STAT-515 or STAT-520 or permission of instructor.

STAT-524 Data Analysis (3) An introduction to exploratory data analysis, including resistant or robust techniques, study of residuals, transformations, graphical displays, and related topics. Usually offered every fall. *Prerequisite:* STAT-515 or STAT-520 or equivalent.

STAT-525 Statistical Software (3) Introduction to the use of the SAS language to prepare, modify, and analyze data, interpret output and final preparation of results. Emphasis on practical programming principles and use of built-in procedures in both personal computer and main frame environments. Comparisons with other programming languages. Usually offered every fall. *Prerequisite:* STAT-514 or two statistics courses, or permission of instructor.

STAT-530 Mathematical Statistics I (3) Distribution and functions of random variables, generating functions, order statistics, point estimation, maximum likelihood, confidence intervals, tests of hypotheses (Neyman-Pearson, likelihood ratio, etc.), linear regression, and analysis of variance. Usually offered every fall. *Prerequisite:* MATH-310, MATH-313, and STAT-502 or equivalent.

STAT-531 Mathematical Statistics II (3) Distribution and functions of random variables, generating functions, order statistics, point estimation, maximum likelihood, confidence intervals, tests of hypotheses (Neyman-Pearson, likelihood ratio, etc.), linear regression, and analysis of variance. Usually offered every spring. *Prerequisite:* MATH-310, MATH-313, and STAT-502 or equivalent.

STAT-584 Introduction to Stochastic Processes (3) Introduction to random walks, Markov chains and processes, Poisson processes, recurrent events, birth and death processes, and related subjects. Usually offered alternate springs. *Prerequisite:* MATH-501 or STAT-530.

STAT-590 Independent Reading Course in Statistics (1–6) *Prerequisite:* permission of instructor and department chair.

Graduate Courses

STAT-600 Advanced Mathematical Statistics (3) Theory of estimation, properties of estimators, large-sample properties and techniques, and applications. Usually offered every fall. *Prerequisite:* STAT-531 and MATH-574 (may be taken concurrently).

STAT-601 Topics in Advanced Probability and Statistics (3)

Topics vary by section, may be repeated for credit with different topic. Mathematical foundations of statistical theory. Special topics in probability and mathematical statistics. Usually offered alternate springs (odd years). *Prerequisite:* permission of instructor.

STAT-610 Statistical Inference: Estimation (3) The mathematical foundations of statistical inference; the Theory of Estimation including minimum risk-, Bayes-, minimax-, and equivariant estimation; decision theory; and large sample behavior. Usually offered alternate falls (even years). *Prerequisite:* STAT-600.

STAT-616 Generalized Linear Models (3) Extension of regression methodology to more general settings where standard assumptions for ordinary least squares are violated. Generalized least squares, robust regression, bootstrap, regression in the presence of auto-correlated errors, generalized linear models, logistic and Poisson regression. Usually offered every spring. *Prerequisite:* STAT-515.

STAT-620 Multivariate Analysis I (3) (3) Multivariate normal distribution, Hotelling's T^2 , Wilks's likelihood ratio criterion, other test statistics, classification problems, principal components, canonical correlation, general multivariate regression and experimental designs, and related subjects. Usually offered alternate falls (even years). *Prerequisite:* STAT-600 (may be taken concurrently).

STAT-621 Multivariate Analysis II (3) Multivariate normal distribution, Hotelling's T^2 , Wilks's likelihood ratio criterion, other test statistics, classification problems, principal components, canonical correlation, general multivariate regression and experimental designs, and related subjects. Usually offered alternate springs (even years). *Prerequisite:* STAT-600 (may be taken concurrently).

STAT-640 Statistical Computing (3) An introduction to numerical analysis, computer science, and statistical theory as they apply to random number generation, the Monte Carlo method, simulations, and other aspects of statistical computing. Usually offered every spring. *Prerequisite:* permission of instructor.

STAT-670 Linear Estimation I (3) General linear hypothesis, least-squares estimation, Gauss-Markov theorem, regression, analysis of variance, multiple comparisons, analysis of covariance, factorial designs, randomized blocks, other experimental designs, and effects of departures from assumptions. Usually offered alternate falls (odd years). *Prerequisite:* STAT-600 (may be taken concurrently).

STAT-671 Linear Estimation II (3) General linear hypothesis, least-squares estimation, Gauss-Markov theorem, regression, analysis of variance, multiple comparisons, analysis of covariance, factorial designs, randomized blocks, other experimental designs, and effects of departures from assumptions. Usually offered alternate springs (even years). *Prerequisite:* STAT-600 (may be taken concurrently).

STAT-690 Independent Study Project in Statistics (1-6) *Prerequisite:* permission of instructor and department chair.

STAT-691 Internship in Statistics (1-6) Individual placement and supervision in an approved organization involving statistical analysis, methodology, or theory. *Prerequisite:* permission of instructor and department chair.

STAT-692 Cooperative Education Field Experience (3-6) *Prerequisite:* permission of department chair and Cooperative Education office.

STAT-797 Master's Thesis Seminar in Statistics (1-6)

STAT-798 Statistical Research and Consulting (1) Topics vary by section, may be repeated for credit with different topic. Topics chosen from recent research in statistics. Through written reviews and oral presentations, students investigate advances in statistical theory and applications in recent journals. Through interaction with other departments, students learn to formulate statistically problems expressed in the language of another discipline and interact in a consulting role with researchers outside of statistics. Usually offered every fall. *Prerequisite:* permission of department.

STAT-799 Doctoral Dissertation Seminar in Statistics (1-12)

TESOL (Teaching English to Speakers of Other Languages)

Graduate and Advanced Undergraduate Courses

TESL-500 Principles of Linguistics (3) Introduction to scientific study of language with emphasis on current linguistic trends. Foundations for further study in linguistics and methodology of language teaching. Usually offered every term.

TESL-501 English Language Teaching I (3) Introduction to theories and principles of English language teaching, language acquisition, and a review of various methods and approaches used in language teaching, leading to an understanding of the development of the communicative approach. Provides opportunities for peer teaching and requires observation of English language classes, along with tutoring or teaching of English to non-native speakers. Usually offered every term.

TESL-502 English Language Teaching II (3) Focuses on evaluation and development of lesson plans and teaching materials designed to teach grammar, language functions, speaking, reading, listening, and writing skills within a communicative approach. Also addresses various aspects of classroom management. Provides opportunities for peer teaching and requires observation of English language classes, along with tutoring or teaching of English to non-native speakers. Usually offered every spring and summer. *Prerequisite:* TESL-501 or permission of instructor.

TESL-503 Structure of English (3) Explores the complexities of spelling and word formation, grammatical structure, and semantic relations in English. Various approaches to grammatical analysis are covered, but the emphasis is on developing the practical foundations necessary for effective teaching, rather than on theoretical models. Usually offered every spring and summer. *Prerequisite:* TESL-500.

TESL-504 Language Analysis (3) An introduction to the formal analysis of languages, focusing on phonetics, phonology, morphology, syntax, and semantics, with particular emphasis on topics not covered in TESL-503. Emphasis on problem-solving strategies with respect to language data. Usually offered every fall. *Prerequisite:* TESL-500.

TESL-522 Language Acquisition (3) How and why do children learn language? Investigates language acquisition during the first five years (both speech and the rudiments of literacy). Major themes include the dynamics of the "language duet" between children and adults, variation across children, bilingualism, and the emergence of language awareness. Usually offered alternate falls.

TESL-523 Second Language Acquisition (3) Theories of second language acquisition and how they relate to trends in society and in education and related disciplines. Current theory in cognitive and affective domains as it relates to second-language learning. Usually offered every spring and summer.

TESL-524 Reading and Writing in the ESL/EFL Classroom

(3) Introduction to theories of how we read and write as well as the instruction of these skills. The major focus is on practical approaches to teaching reading and writing skills to varied student populations, including children in public schools, young adults in pre-academic learning environments, and literacy-challenged adults in adult education programs. Usually offered every summer.

TESL-527 Cultural Issues in the ESL/EFL Classroom (3) The traditional principles of intercultural communication theory and the latest discourse-oriented models for analyzing cross-cultural interactions. Within this framework, the course considers approaches to enhancing the cultural dimension of ESL/EFL instruction with an emphasis on using and developing various types of cultural training techniques. Usually offered every spring.

TESL-528 Bilingual Education (3) Language acquisition, use, and competency in a bilingual setting, and the general goal of bilingual education. Usually offered every third semester. *Prerequisite:* permission of instructor.

TESL-531 Language Assessment (3) This course focuses on the process of testing/assessing students' language proficiency with respect to different language skills in the language classroom and the steps involved in this process. A practical approach provides opportunities for evaluating existing tests and assessment procedures, designing test/assessment instruments, and scoring/evaluating language tests. Usually offered every fall.

TESL-541 Teaching Grammar (3) The functions that grammar fulfills in oral and written communication. Teaching the structures of grammar within a communicative framework in meaningful, authentic lessons, and the design of effective teaching materials. Usually offered every fall. *Prerequisite:* TESL-501 and TESL-503, or permission of instructor.

TESL-542 Teaching Pronunciation: Theory and Practice (3) An introduction to the formal analysis of phonetics and phonology with techniques for incorporating these into practical classroom instruction. An emphasis on problem-solving strategies with respect to data, and on effective low-cost techniques for instruction. Usually offered every spring. *Prerequisite:* TESL-500.

TESL-545 Curriculum and Materials Design (3) A needs-based, learning-centered approach to designing courses, from creating and structuring curriculum to materials design, with the emphasis on planning blocks of instruction larger than lesson plans. Students develop a curriculum designed for an actual learner audience on their own. Through needs assessment, they identify curricular goals and course objectives, and from these they determine an appropriate syllabus structure, develop a course unit outline, and create materials for one complete lesson. Curricula in both EFL and ESL are addressed. Usually offered alternate falls. *Prerequisite:* TESL-501.

TESL-554 Technology for Language Learning and Teaching

(3) An introduction to the use of technology for foreign/second language learning, teaching, and professional development. Includes the use of e-mail, listservs, the Internet, software evolution, authoring, applications, and other hands-on experiences utilizing technology in the classroom. Offered irregularly. *Prerequisite:* basic computer skills and TESL-501 or TESL-502 or permission of instructor.

TESL-560 TESOL Topics (1-3) Topics vary by section, may be repeated for credit with different topic. Topics include teaching pronunciation, the lexical approach to language teaching, learning

disabilities in the ELT classroom, EFL methodology, and multi-level/multicultural classrooms. Usually offered every term.

TESL-590 Independent Reading Course (1-6) *Prerequisite:* permission of instructor and department chair.

Graduate Courses

TESL-620 English Language Teaching III (3) Focuses on teaching as communication, in particular, issues of classroom management, effective structuring of classroom discourse, and diagnosing and responding to learner needs. Students engage in field experience (observation and tutoring or teaching), peer teaching, and reflection on previous teaching and learning experiences with the goal of developing effective teaching practices. Usually offered every spring. *Prerequisite:* TESL-501 and TESL-502.

TESL-690 Independent Study Project (1-6) *Prerequisite:* permission of instructor and department chair.

TESL-691 Internship (1-6) *Prerequisite:* permission of instructor and department chair.

TESL-692 Cooperative Education Field Experience (3-6) *Prerequisite:* permission of department chair and Cooperative Education office.

TESL-693 AU/Peace Corps Internship (6) For students in the M.A. in TESOL AU/Peace Corps program. *Prerequisite:* permission of program director.

TESL-797 Master's Thesis Seminar (1-6)

Women's, Gender, and Sexuality Studies**Undergraduate Courses**

WGSS-125 Gender in Society 4:1 (3) This course focuses on the social construction of gender along with other forms of social inequality; representations of gender that permeate all forms of cultural experience; and theoretical arguments regarding key issues such as equality, ethics and politics, as well as debates at the frontier of gender theory. Usually offered every fall.

WGSS-150 Women's Voices through Time 2:1 (3) The distinctive contributions of women to Western artistic and intellectual traditions. Significant articulations of human experience expressed by women through literature, art, and history; how such traditions became established and how women, despite obstacles, have produced lasting works of ideas and imagination. Usually offered every spring.

WGSS-225 Gender, Politics, and Power 4:2 (3) This course explores the ways in which the social and cultural construction of sexual difference influences the nature and practice of political life in a variety of countries. It examines the ways in which power is gendered and studies how gender has served as a basis for political organization and a critique of public life. Usually offered every spring. *Prerequisite for General Education credit:* COMM-100 or ECON-100 or GOVT-110 or SOCY-150.

WGSS-240 Sexualities Studies 4:2 (3) This course explores the history of the formation of categories of analysis, such as sex, gender, and sexuality/desire, in relationship to fields of knowledge production: from religious restrictions, the State's involvement in regulating sexuality, the legitimization of a sexological field, then psychiatry, psychology, and sociology. The course incorporates non-social scientific modes of knowledge production, while using a social science framework to think about research and inquiry. The course also reveals the assumptions in our social worlds about the significance of the field of sexuality studies emergent in the United States, and the relationship of sexuality, as something com-

monly thought of as intimate, to the realm of the institutional, discursive, or policy making, that is, the social. Usually offered every spring. *Prerequisite for General Education Credit:* ANTH-150, PSCH-105, SOCY-100, or WGSS-125.

WGSS-300 Feminist and Gender Theory (3) Examines theories of gender as constructed or problematic, not natural or immutable. Surveys the historic development of theories of women's inequality and strategies for changes. Probes contemporary issues and conflicts within feminist and gender theory. Theorizes gender relations in students' own lives. Forges understandings across divisions of race, class, nationality, ability, sexualities, and sexual orientation. Usually offered every spring. *Prerequisite:* WGSS-125 or permission of director.

WGSS-350 Interpreting Gender in Culture (3) Topics vary by section, may be repeated for credit with different topic. An exploration of diverse aspects of gender experience from different disciplinary perspectives. Rotating topics focus on specific subjects, integrating recent scholarship and interdisciplinary contexts. Representative topics include biology of sex and gender, women and sport, women's response to violence, and lesbian and gay cultures.

WGSS-392 Cooperative Education Field Experience (3) *Prerequisite:* WGSS-125 and permission of department chair and Cooperative Education office.

WGSS-490 Independent Study Project in Women's and Gender Studies (1-6) *Prerequisite:* permission of instructor and program director.

WGSS-491 Internship in Women's and Gender Studies (1-6) *Prerequisite:* WGSS-125 and permission of instructor and program director.

WGSS-498 Senior Honors Project in Women's and Gender Studies (3) *Prerequisite:* WGSS-500.

Graduate and Advanced Undergraduate Courses

WGSS-500 Current Issues and Research in Women's and Gender Studies (3) Exploration of the philosophies, methods, and theories entailed in doing scholarly work in women's and gender studies. Close examination of selected current works in the discipline. Collaborative work developing bibliographies and designing course activities; individual work in the field. Usually offered every fall. *Prerequisite:* permission of instructor or program director.

WGSS-590 Independent Reading Course in Women's and Gender Studies (1-6) *Prerequisite:* permission of instructor and program director.

Graduate Courses

WGSS-600 Feminist and Gender Theory (3) Examines theories of gender as constructed or problematic, not natural or immutable.

Surveys the historic development of theories of women's inequality and strategies for changes. Probes contemporary issues and conflicts within feminist and gender theory. Theorizes gender relations in students' own lives. Forges understandings across divisions of race, class, nationality, ability, sexualities, and sexual orientation. Usually offered every spring. *Prerequisite:* permission of instructor.

Washington Semester

Undergraduate Courses

WSEM-120 Mentored Field Practicum (3) This course for students in the Washington Mentorship Program includes two parts: the professional component, a two-day per week work experience to give students hands-on, "real world" experience; and the academic component designed to help students learn to reflect analytically on their work experience in relation to their professional and academic goals. Through written assignments, analysis of readings, lectures, class discussions, individual meetings with the instructor, and presentations, the academic component provides a framework for structuring the students' experiential learning. Usually offered every fall.

WSEM-400 Washington Summer Internship and Seminar (3-6) The Washington Summer Internship Program is designed to provide on-the-job training for college students from across the country in their respective fields of interest, including national government and politics, foreign policy and international affairs, economic policy and international business, justice and law, or print and broadcast media and communication. Students work four and one-half days each week. The other half day is devoted to seminars with practitioners and small group discussions. Usually offered every summer.
