It is recommended that you also keep a copy of all documentation you receive for any scholarships paid to you by AU or by outside agencies. International students should refer to [IRS Publication 515](#) "Withholding of Tax on Nonresident Aliens and Foreign Entities" for more information about the federal tax implications.

Hiring Student Workers

Some doctoral research scholarships include approved funds specifically for the hiring of student workers. The scholarship recipient is responsible for the accounting of hours worked and the compensation for each student worker hired to assist with their research. All new hires must comply with the University hiring requirements, e.g., all student worker positions are considered part-time and must not exceed 27 hours per week.

Please refer to the guidelines below when considering a student worker hire:

Who Can You Hire:

- Currently enrolled AU students may be eligible for hire.
- Note the graduation date for each potential candidate. Students may not continue working past the graduation.

- International Student Workers

International students will need to schedule an appointment with a foreign national specialist in the Payroll Office. The Payroll Office will explain the taxation process in the U.S. and complete all required forms during the meeting.

To schedule an appointment please see the steps below:

- Go to the AU Portal at myau.american.edu

- Find Work@AU tab
- Click on Payroll
- Click on Foreign National Appointment Schedule
- Type AU user name and password then press enter
- The calendar will be displayed in front of you
- Click on the time you wish to make the appointment

Position Description:

- Student worker positions are considered part-time positions.
- Student workers are not to exceed 27 hours of work per week. If the student is working in another position at AU during the same period of time you would like to hire the student for your position, you will need to consider how many hours per week they work in order to ensure they do not go over the limit of 27 hours in all combined positions. This will impact the number of hours that student can work with you.
- Hourly rates for a student worker positions typically range from \$12.50-\$18.00 per hour. This rate is negotiable, but should be based on the duties of the job, the student's skill set and experience, as well as the rate of pay of other employees in the department performing similar duties. It is recommended that a job description for the student worker be developed which clearly states the duties of the job along with minimum qualifications and the project work schedule (see attached Student Position Description form).

You can select a student that you know or you may advertise the position by submitting a position description to HR at studentjobs@american.edu. (See the attached Student Position Description form.) For further assistance with the hiring process, please contact studentjobs@american.edu or Keisha Bailey in HR at kbailey@american.edu.

Hiring Process:

Once you have selected a candidate for hire, you will need to provide the following information to Anita Brown, abrown@american.edu. Ms. Brown will process a Request for Hire and inform you when the student may begin working.

- Name of the student
- AU ID#
- Start Date
- End Date

- Hourly Rate
- *(Please let me know if the student is enrolled at AU as a part-time or full-time student. This information will determine the hiring status position number.)*

If the student is not currently working for American University, he/she is required to go to the Human Resources Office and complete the I-9, tax form and other hiring documents within 3 business days of his/her start date. Failure to complete the I-9 form within the 3 business days can result in the employee being suspended.

Accounting for Student Worker:

The Doctoral Research Scholarship recipient is responsible for the accounting of payroll for each student worker. You are required to submit to Anita Brown an accounting of total hours and gross compensation for each hired student on a monthly basis. The gross amount of compensation for each month will be deducted from the scholarship balance. For assistance with payroll, the student worker should contact kbailey@american.edu in Human Resources.

Purchase of Materials

You should plan to order your own materials and supplies and submit receipts for reimbursements as indicated below.

Consider all equipment, data, research apparatus, and other research materials purchased with scholarship funds to be the property of American University.

Receipts for merchandise paid by credit card should be accompanied by the credit card monthly statement showing the purchase activity. An order form indicating that the merchandise will be charged to a credit card is not proof of payment. For payments made by personal check, please provide a copy of the front and back of the cancelled check.

In some instances, e.g., laboratory supplies can be obtained by the University. In that case, the department budget administrator should send Anita Brown an email specifying what was purchased, for whom and the account number to be reimbursed.
